Meeting is Called To Discuss Farm Betterment Plans

A meeting at the city hall Monday afternoon, attended by home demonstration and farm council members, vocational agriculture teachers and workers of the county and employees of the offices of the farm and home demonstration agents, was held to discuss plans for holding several farm meetings in Runnels county. Those present voted to schedule twelve meetings, the first of which will be held at the court house in Ballinger Saturday afternoon at 2:30 to which all farmers are invited.

The purpose of these meetings as outlined Monday afternoon is to show why agriculture is not as satisfactory as farmers would like for it to be.

Last week, John A. Barton, county farm agent; Miss Myra Tankersley, county home demonstration agent; Thomas B. Hill, soil conservation agent; and Mead McShan, chairman of the county farm council, attended a meeting in Abilene at which time the above question was considered. At the mass meeting Saturday everyone will be given an opportunity to give his reasons for the points that are unsatisfactory in the general agricultural program.

The AAA has published a number of circulars and bulletins which are available at the office of the county agent. The leaflets will better acquaint leaders with problems confronting the American farmers at this time.

The following community meetings will be held: Ballinger, November 13, 2:30 p. m.; Winters, 7:30 Friday night, November 12; Oak Creek, Tuesday night, November 16; Norton, 7:30 p. m. November 16. Other meetings will be held at Crews, Harmony, Olen, Miles, Pumpfrey, Wilmet, Wingate, Content, Rowena and Victory.

After a general discussion of why certain phases of agriculture are not satisfactory, the remedy will be discussed under two heads: first, as to what the individual or community can do to correct the error; and what help will be needed from the government to better conditions.

Women of the county are urged to attend these meetings and take part in the discussions.

Henry Jones returned Tuesday from a hunting trip in New Mexico. He failed to get a shot at a deer but brought home two squirrels. He was with a party of hunters from Floydada.

Annual Red Cross Roll Call to Start Here Tomorrow

The annual roll call for the American Red Cross will start in Runnels county tomorrow (Friday) morning and is to continue until everybody has been given an opportunity to join the organization.

R. P. Tunnell, county roll call chairman, has lined up assistants to be responsible for every locality. In Ballinger Mrs. Tom Agnew is chairman and with eight workers will begin the drive the first part of next week. This week-end she will meet with the solicitors, issue material and give instructions regarding territory and the use of 100 per cent posters, buttons, cards for one-year and sustaining memberships.

Many placards will be posted in Ballinger this week to remind citizens of the annual membership drive. Runnels county workers will try to secure 900 members for the Red Cross in this campaign.

Four local churches have been asked to furnish two solicitors each who will call on Ballinger citizens the first part of next week. Those named for the work are Miss Florence Westbrook, Mrs. W. O. Wallace, Mrs. Price Middleton, Jack Nixon, Jr., Mrs. R. P. Canady, E. C. Grindstaff, Mrs. R. T. Trail and M. B. Wardlaw.

At Rowena Henry Toplicek is arranging for the drive there Armistice Day and next week. At Miles Mrs. J. H. Herndon will appoint aides to put over the drive. At Norton the chairmanship has been assigned to T. J. McCaughan, and at Maverick Mrs. T. C. Tunnell will direct the canvass. The Winters chapter will supervise the roll call in the remainder of the county.

Incumbent Red Cross officials will retire November 25. A new group will be elected at the union Thanksgiving service at the First Presbyterian Church and as soon as the new board is named it will elect officers and take over the funds and books of the organization.

The nation-wide drive for memberships will commence Armistice Day and the final check-up will be made on Thanksgiving. Immediately following the Red Cross drive the National Tuberculosis Association will launch the sale of Christmas seals.

A. B. Stobaugh and Noel Hale, of Talpa, are spending two weeks on the W. T. Burnham ranch in the Chisos Mountains. They will be joined by Dr. C. W. Cheatham; and Clifford Orr, of Truscott, for a deer and turkey hunt.

H. C. Lyon and A. McGregor will leave this week-end for Maria to hunt deer on the ranch of H. O. Metcalfe. Mr. Metcalfe will join the two Ballinger men and lead them to the most likely places on his ranch.

FOOTBALL FANS

The Ballinger Band will need transportation to the Coleman game tomorrow and will be ready to leave the high school at 1 o'clock. Anyone who has extra seat space in his car is requested to drive to the school and pick up a bandman and his instrument.

Olfen Community Ready for Annual Thanksgiving Fete

Citizens of the Olfen community are perfecting plans for their annual Thanksgiving program to be held on November 25. The program will be presented at the Olfen school house and Rev. G. A. Boeckman, parish priest, is advertising the affair all over this section of West Texas. Rev. Boeckman stated while here this week that one of the largest crowds in many years was expected for the 1937 celebration.

The feature of the festivities which attracts several thousand every year is the excellent dinner served by the housewives of the Olfen community. A menu consisting of turkey, country sausage, other meats, cakes, pies, salad, and nearly everything good to eat is served. People with indigestion should carry along their favorite remedy if they intend to eat all they want at the Olfen table.

In the afternoon everybody is invited to remain for the auction sale. Many valuable articles will be sold to the highest bidder. These articles are usually donated and anyone desiring to have some part in this may see a member of the committee and the gift will be appreciated.

At night a dance will be held and those who enjoy dancing and good music are invited to remain for this feature.

The women will begin serving dinner at 11:30 Thanksgiving morning and continue until everyone has been fed. Supper will be served from 5 to 7 p. m. A number of Ballinger citizens plan to spend Thanksgiving Day at Olfen to enjoy the dinner, sale and dance.

Club boys and girls who have completed their projects for the year and have their records complete will assemble at the city hall here Saturday morning at 10 o'clock for Rally Day. The meeting will get underway with a short welcome from Mayor E. M. Lynn and a talk on the importance of club work by H. W. Lynn.

Speakers on the program include Walter Lange who will discuss his four years of club work in this county. Garlyn Hoffman will tell of his success in club projects and will preside over the meeting. If Park Kemp is unable to be present, Girl speakers are Clara Wright, of Miles, and Mary Lehman, of Dale, who have been the outstanding club girls in the county this year.

The November government cotton estimate received Monday morning set the 1937 production at 18,242,000 bales, an increase of 670,000 bales over the October 8 estimate. Cotton ginnings to October 1 were reported at 13,164,096 bales and the average lint yield per acre 258.8 pounds, more than half a bale per acre average.

The crop is one of the largest ever produced in the United States. The final total in 1926 was 17,977,000 bales and in 1931 17,096,000 bales were ginned.

An unofficial check-up of ginnings in Runnels county for the year to Saturday night gave a total of about 57,000 bales. During the week gins turned out about 400 bales per day but cotton men believe this average will be cut fast as many farmers are finishing picking their crops.

Estimates here indicate that the final ginnings will substantially pass 60,000 bales for the year but may not reach the 65,000 mark which has been the general average of all guesses for this year.

Local cotton men returning from the Plains say the cotton movement there is at its peak and that the greatest cotton crop in the history of that region is being gathered. Gins are badly congested and all gin yards are full of waiting bales. Pickers have moved there from this section and are gathering the crop at a rapid rate.

Mrs. R. L. Grippie, Mrs. Bill Green and Mrs. George Sallee, of Abilene, visited here Tuesday in the home of Mrs. G. A. Swann.

Tuberculosis Seal Sale for the County Begins November 25

Health workers in Runnels county are making plans for the sale of Christmas seals for the tuberculosis association and will open the drive to sell \$500 worth of the seals at one cent each beginning Thanksgiving Day and continuing until Christmas.

At present varied publicity is being given the campaign and practically every student in Runnels county is receiving special information regarding the sale and to what use the money is put. During the next two weeks stories written by school children will be published, posters will be placed in windows, letters will be written, and talks made at public gatherings in an effort to make citizens realize the importance of adopting the small Christmas seal for exclusive use on letters, Christmas cards and packages and try to have one attached to every letter and bill.

On Thanksgiving Day all milk bottles delivered will have a collar on the bottle advising the public that the sale has started. A large part of the money received from the sale of seals will remain in the county and be used to conduct local activities. The remainder will go to the National Tuberculosis Association. The county unit provides \$10 each month to the nursing service so that visits can be made to the homes where instruction is needed. During the past year Miss Beulah White, county health nurse, has made 107 of these visits.

The county unit also provides tuberculin skin tests in cases where the families are unable to provide same. A moving picture was presented at the Runnels County Fair as an educational feature.

Citizens of Runnels county spend a large sum of money annually for Christmas seals to wrap their packages at the gift giving season. The tuberculosis seals are attractive and will serve this purpose, and health workers are urging everyone to buy a generous supply this year so the sale will go over the top for the \$500 worth allotted to this county.

The national unemployment census will be taken in Ballinger next Tuesday, November 16. Report cards have been received here by the postoffice to be delivered at every residence on November 16 and additional cards will be obtainable at the office of the Ballinger Chamber of Commerce where a special committee will be on duty to assist in filling out cards for all who need this help.

The survey of the unemployed, directed by congress and approved by the president, will be nationwide. Every person unemployed or employed for part time only is to fill out a card and mail it at once. The card is addressed and requires no postage. All persons at work on emergency government projects are also included in this census.

When cards are filled out they can be mailed at any postoffice and will be forwarded to the national unemployment census bureau by the postal department. The cards must be mailed before midnight November 20.

In 16,000 towns the mayors have been asked to form citizens' committees to work with the postmasters and give whatever cooperation necessary to assure a complete and accurate registration of the jobless.

To a large extent the card is self-explanatory, and in most instances can be filled in by the individual without assistance. In the distribution, only one card will be left at each home, unless the carrier has reason to believe that there are more unemployed residing there. Additional cards will be available at any postoffice or can be obtained upon request from any carrier and others will be at the chamber of commerce office.

Persons who are working full time for wages or commissions are asked not to register.

It is necessary that each question on the card be answered and every individual is urged to be sure that this is complied with before mailing. The card calls for the full name, age, sex, and other general information. It asks a review of how much employment each individual had during the past year and also inquires about other unemployed members of the family.

J. D. Motley is general chairman of the local committee which will help with the census. Other members are Rev. Wallace Jones, representing the pastors' association; H. C. Lyon, public schools; George Goughly, Lions Club; and George Clements, Rotary Club. Someone will be on duty in the chamber of commerce office all the time to give assistance. The school authorities will cooperate and business students will do extra typing of reports.

C. D. Harris returned Thursday from the Sealy Hospital, Santa Anna, where he had been for a week. Prior to that he had been receiving treatment at the Rawls Bath House, Christoval. He is reported to be improving.

Mrs. Lynn Metcalfe, of San Angelo, visited here this week at the bedside of her father, C. D. Harris.

Trustees Add Band Music To Local School Courses

The Ballinger school board in session Monday night voted to include band music in the course of study and to sponsor the local band on a twelve-month basis. The plan is a make-shift proposition the balance of this year provided a good instructor can be employed who will fit into the school system, meet requirements of the state board of education and also of the state band association.

For the present a band hall will be provided in the old high school building for instruction after regular classes are dismissed for the day and in the evenings, with free instruction for all students. During the summer a modern hall large enough to house a band of 75 members will be constructed on the central campus where a bandmaster can give full time to musical instruction during the day in case that much time is required. The trustees intend, after the end of the 1937-38 term, to arrange so that all musical instruction can be given during the day and small children will not have to report to night classes.

Faced with the expense of providing a building and employing a band instructor, the board for the present will require members to provide their own instruments and will look to the community to supply the uniforms. It is believed

that uniforms can be obtained by moderate charges for public concerts and shows and by public subscriptions.

Applications for the position will be received at once and if the right man can be found he will be engaged at once. In case no suitable man is available the proposal will not be consummated until next September. If the director's time is not all taken in musical instruction, he will be required to teach some literary courses.

A 28-piece band has been held intact since the last director, H. H. Carsey, left Ballinger to accept a position in the Rusk school, and has been on the job at all football games and played during the Runnels County Fair. In addition to these musicians, there is a class of 14 young boys who have just started and have instruments who need to continue their study.

Local civic leaders were happy over the decision to install the band in the school system. For many years a band has been maintained here on a public subscription from the business firms of the city, which was very unsatisfactory. The new plan with free instruction for every student who provides an instrument will add in numbers to the band and eventually provide an instrumentation which will meet all requirements for state band association contests.

SPORTS

The Ballinger Bearcats have had a week's rest, no game being played the past week-end. Most of the players saw the Abilene-Stephenville game and this week coaches have been grinding hard for the final two contests of the year and two of the hardest on the '37 schedule. Tomorrow at Coleman the Bearcats tussle with the Bluecats and paper records would indicate almost a toss up, the Colemanites having a slight advantage and being on their home field.

The Bearcats are in perfect physical condition but the week's rest may not do the boys any good. One thing is certain, the Bearcat line will have to charge harder than in the last three games to stop the line plunging of the Coleman eleven, which has the fastest charging line in the district and an excellent back-field.

Coach Wright stated that he might send Fritz into the line against Coleman to play part of the time. His knee injury is doing nicely and he is expected to bolster the strength of the team in the final two games of the season.

Following the Coleman game will be the Runnels county classic, the Bearcat-Blizzards tilt. The location will be Bearcat Field on Friday night, November 19. The Blizzards are heavier and have a better record for the year, but there is never any "dope" when these two teams meet and it is anybody's game until the final whistle ends the battle.

Brady has established itself at the head of the percentage column with no losses and no ties and two comparatively easy games left on the schedule. Second place is about all that is left to battle for and several teams have only one loss this week and a chance to capture second place. Winters, Ballinger and Cross Plains have one loss, but the Winters and Cross Plains teams meet today and the Coleman Bluecats, with two losses, might slip in for the second position.

JOHNSON COUNTY GIRL WINS IN CANNED FOOD PRODUCTS

COLLEGE STATION, Nov. 10.—Announcement of winners in the state 4-H club girls' canned products and judging contest was made here by Miss Grace I. Neely, food preservation specialist of the Texas A. & M. College extension service. First place went to Miss Anna Lee Foster, of Johnson county, who scored 290 points out of a possible 300. Under the five classes in which more than one-half of the 30,000 4-H club girls in Texas were entered, the following girls scored high: poultry, Katherine Shaw, Parker county, leafy, green and yellow vegetables, Eunice Bell, Potter county, vegetables other than leafy, green, and yellow, and tomatoes, Maurice Phaup, Smith county.

Points in the contest were based on the girl's ability to judge a good can of food which rated 200, and the quality of the products she herself had canned, which rated 100, Miss Neely said. The highest rating was given to ability to judge quality, because the authorities believe that if people can judge quality they can bring the quality of their own products up to good standards.

Southern Farmer Has Good Feed in Cottonseed Hulls

(This is one of a series of short, authentic articles on livestock production and feeding, published as a service to farmers and stockmen in cooperation with the West Texas Cottonseed Co. mills.)

In cottonseed hulls, grown on their own farms, Southern farmers have an excellent roughage for dairy and beef cattle, horses and mules, experiment station tests and the experience of practical feeders show. The fact that hulls are free from dirt and trash makes them attractive to feeders.

A simple mixture gaining popularity with many Southern livestock feeders is one of hulls and molasses. Two parts of molasses and one part of warm water are being kept in a sprinkler can for sprinkling over the highly-absorbent hulls at feeding time for work stock and dairy and beef cattle.

Both in analysis and in actual feeding, cottonseed hulls compare well with such choice hays as alfalfa and Johnson grass. Morrison's standard text on "Feeds and Feeding" gives the total digestible nutrients in 100 pounds of alfalfa hay as 50.3 pounds, compared with 43.7 pounds total digestible nutrients in cottonseed hulls, 50.3 pounds in Johnson grass hay, and 43.0 pounds in Bermuda grass hay. In feed lot trials, hulls have been found to have a feeding value far in excess of the laboratory analysis.

In Mississippi experiment station tests to compare various roughages

in the rations of steers, 100 pounds of hulls were equal in feeding value to 99.86 pounds of Johnson grass hay. Mississippi Press Bulletin No. 359 shows. Bulletin No. 278 gives average figures for a three-year period, showing 100 pounds of hulls equal in feeding value to 189 pounds of corn silage, 272 pounds of sorghum silage or 249 pounds of sorghum silage.

Small amounts of cottonseed hulls, added to a cottonseed meal-sorghum silage-hay ration, saved feed and made the use of hulls very profitable in a 1930-31 steer feeding test in Mississippi. In this test, \$1.63 worth of other feeds was saved by \$1.41 worth of hulls; 313 pounds of hulls saved 14 pounds of cottonseed meal, 988 pounds of sorghum silage and 8 pounds of Johnson grass hay for each 100 pounds gain in live weight, when 1 part of hulls was fed with 9 parts of sorghum silage. In addition, less labor is required to feed 300 pounds of hulls than to handle 1,000 pounds of silage.

Louisiana agricultural experiment station found that hulls, supplemented with calcium, green feed and protein, were superior to a mixture of carpet grass and Bermuda grass hay, and almost equal to high quality Bermuda grass, as a roughage for dairy cattle.

In three Oklahoma experiments, cottonseed hulls, fed with cottonseed meal and ground limestone to steers, proved fully equal to prairie hay in rate of gain pro-

duced and value per ton. Fed this way, the hulls produced as rapid gains as did alfalfa hay.

Light and bulky, hulls are especially valuable for mixing with concentrates in the dairy ration. "Feeds and Feeding" comments, "When bulky concentrates, such as oats and wheat bran, are not available or are high in price, cottonseed hulls may be useful to increase the bulkiness of a mixture of heavy concentrates." The late Doctor C. H. Eckles, one of our greatest dairy authorities, said, "There is a decided advantage, especially to high producing cows, in the concentrate mixture being of a light character. A mixture of this kind remains porous when moistened and is easily penetrated by the digestive juices."

Hulls or hull bran appeal to the mixed feed manufacturer for use in dairy feed mixtures.

On the farm, a supply of hulls at all times makes them available for many practical uses, such as for poultry house litter and for use as fertilizer to improve the physical condition of soils.

BRITISH TARGET PLANES RUN BY ROBOT PILOT

LONDON, Nov. 10.—Some of the secrecy that has veiled the new target airplanes of the British Royal Air force has been lifted by the air ministry.

The machines are flown by a radio robot mechanism which takes the place of the human pilot. They maneuver in response to a radio panel master control on the ground, and are used chiefly for naval anti-aircraft gunnery practice. They are launched pilotless into the air by a catapult.

The plane is a cabin type that will make possible gunnery practice at considerably greater heights than at present.

The Cherokees are the only Indians to have literature recorded in an Indian alphabet. Sequoyah, a Cherokee inventor, worked out this alphabet in 1821.

John Brown has "a cold",

John Brown is usually a careful man. But John Brown, like many others who catch cold during winter months, ignores the dangers of sudden changes of temperature. Some rooms of his house are heated and others are not. Now John Brown has a cold!

And the little Browns are sniffing,

Like their Daddy, the little Brown girls have a cold. Although the room where they play is kept cozy and warm, frequently they go to unheated parts of the house. It doesn't take the cold germ long to strike when the girls go into the cold bedroom to bring additional toys.

And Mother Brown is taking chances . . .

Mrs. Brown hasn't a cold . . . yet. But Mother Brown is constantly taking chances with her health as she goes from the warm rooms into cold ones during her busy day. Wouldn't it be safer for the Brown family to HEAT THE ENTIRE HOUSE this winter?

Baileys Are Hosts
Dr. and Mrs. C. F. Bailey were hosts at an elaborately planned Mexican dinner Tuesday evening in the home of Dr. and Mrs. W. B. Halley on Fourth Street.

FARMERS AND RANCHMEN TO DISCUSS OUTLOOK FOR INCOME AND PRICES

COLLEGE STATION, Nov. 10.—District agents of the Texas A. & M. College extension service have gathered their agricultural agents together for a series of meetings...

The farm income question will be discussed in relation to the 1938 agricultural conservation program. Discussions will center around such questions as why the cotton picture, fairly satisfactory in 1937, changed so completely in 1938.

'As everyone knows, when farm production is excessive and crop surpluses pile up, farm income comes down,' Adams pointed out. 'Farmers then are unable to buy many city-made goods, and business in general slows down and unemployment follows.'

'If Texas farmers and ranchmen are to act intelligently in the face of their problems, it is necessary that they understand the economic situation which influences their income. It is our purpose in these meetings to give farm and ranch people an opportunity to learn more about the principles behind the legislation which brought about the AAA and to let them pass judgment upon the advisability of entering the 1938 and future programs.'

Armistice Program

The chapel program Friday was presented by students of the public speaking class under the direction of Miss Metcalfe and Mrs. Hill.

"Armistice" was the theme of the program; three talks being made on that subject. Sterling Childress introduced each of the speakers, Melvin Holt, Jean Hargett, and Lucille Hooks. Melvin Holt spoke on "Armistice in 1918," relating horrors of the World War, the establishment of the League of Nations, and of the people's dream of world peace.

Jean Hargett told of "Armistice in 1937," describing the conditions that exist today.

Closing the program, Lucille Hooks spoke on "Armistice in 1957." "That celebration," she said, "will be just what we make it." The object of this speech was to inspire and urge us to set as our goal for 1957, world peace.

Book Review

"Orchids on Your Budget," by Margaret Hills, the author of "Live Alone and Like It," was

reviewed for the senior girls physical education class Tuesday by Jean Hargett.

Suggestions for planning the winter wardrobe and the care of one's clothes were the main topics discussed in the review. A systematic plan for your wardrobe was advised, and also the author advised following the French method for care of the clothes. This method is to have street clothes and house clothes, not worn interchangeably.

Found a Leading Man!

Extra! Extra! Found, one leading man in the person of Melvin Holt. Mr. Sublett's sleep will not be disturbed by dream of Hollywood actors any more, because he has found his leading man for the senior play, "Lena Rivers."

Melvin Holt is to portray the hero, Durward Belmont, who woos the heroine's cousin, but finally sees the folly of it all and succumbs to the maidenly, but somewhat rustic, charms of the heroine, "Lena Rivers."

There were two other additions made last week that completed the cast, being the roles of John Livingstone, Sr., to be played by Richard Zeditz, and Malcolm Everett, to be played by Oran

Bigby.

Watch this column for further news of the senior play, "Lena Rivers," to be presented December 10, 1937.

The third period Spanish club, "Los Conquistadores," met Wednesday at the class period. There was a short business session before the following program was presented.

BETHEL HOME DEMONSTRATION CLUB

The Achievement Day program of the Bethel home demonstration club, which was presented in the home of Mrs. Lewis Loika Thursday afternoon, was quite a success. A number of members and visitors were present.

Mrs. Loika, first year yard demonstrator, has accomplished much in making her lawn attractive by planting and setting various shrubs and flowers at the base of the house. A new rock garage is being built also which adds to the surroundings of her home.

Wool comforts, quilts, tufted bedspreads, pillows and pillow cases were on display along with children's garments, various kinds of fancy work and a nice collection of canned goods. A child's clothes closet made of apple boxes, demonstrated by Mrs. Mead McShan, has received many compliments. Popcorn balls were passed to all present.

Then the members went to the home of Mrs. Claude Simmons, bedroom demonstrator. She has refurnished her room by adding wall-paper, paint and varnish. She sanded and revarnished the dressing table and bed, added rug and drapes in harmonizing tones, and remodeled the clothes closet. A tufted bedspread and wool comfort added to the beauty of the room.

From there the group went to Mrs. Robert Wood's home. She is the second year yard demon-

VALLEY VIEW MISSION BAND HOLDS MEETING

The young people's Mission Band of the Valley View Baptist Church met Friday night, November 5, in the home of Miss Lucille Turner, with nineteen members and eight visitors present. Bernis Camp, vice-president, presided.

The meeting opened with the theme song, "Send the Light," followed by "Let Others See Jesus in You" and "Do It for Jesus Today." Prayer was led by Mrs. C. B. Mosley. Mrs. Will Tyree's resignation, as sponsor of the band, was accepted, and Mrs. Mosley was elected to take her place. Miss Minnie Lea Camp was elected reporter, succeeding Mrs. W. R. Murphy, Jr., who has moved to San Angelo.

Following the business meeting, a very helpful and inspirational program on "Tithing" was given. Those on the program were: Hollis Camp, Mae Dell Wood, Rosemary Camp, Vivian Patterson, Bernis Camp, Minnie Lea Camp, Lucille Turner, Florene Wood, Paul Williams and Chester Wood.

After several prayers for the band and its activities the meeting was adjourned with the singing of "Trust, Try and Praise Me," and prayer by Lois Wood.

A social hour followed. Various games were played, and an evening of delightful Christian fellowship was brought to a close with a committee serving refreshments of hot chocolate and cookies.

The next meeting will be in the Camp home Friday night, December 3.

FARM INCOME SHOWS GOOD UPWARD TREND

AUSTIN, Nov. 10.—Farm cash income in Texas during September was estimated at \$101,000,000, compared with \$87,000,000 during September last year, an increase of more than 15 per cent, according to Dr. F. A. Buechel, assistant director of the bureau of business research at the University of Texas. The average September farm cash income during the sixty months base period, 1928-32, was approximately \$114,000,000, so that the September index—percentage of the base period income—was 88.4 this year and 76.4 last year.

The wide variations in the indexes, as between the different crop reporting districts during September, and also as between the same district this year and a year ago are attributed to marked differences in production of the main sources of cash income, and to the changes in prices of major and of livestock enterprises compared with last year, and with the base period, 1928-32," Dr. Buechel said. "It should be added the government benefit payments and subsidies are not included in any of these computations."

OWL ATTACKS POLICEMAN

BARNETT BELLRINGERS

There was good attendance at Sunday school and preaching services last Sunday. Rev. Allen Patterson spoke on the parable of "The Good Samaritan," Sunday morning, contrasting it to what Jesus has done for us. He portrayed a beautiful picture of how Jesus paid the price, and picked us up out of the gutters of sin that we might live, and has given us a work to do in the winning of lost souls, and how some day Jesus is coming again and will repay us for our faithfulness. Sunday night Rev. Patterson brought a challenging message on II Chronicles 7:14. We trust the message went home to the heart of every individual and will really cause us to humble ourselves and pray, and seek God's face, and turn from our sins and center our hearts on the one great need of this community, so that God will pour out His blessings upon us.

Mr. and Mrs. S. W. Burks and sons spent Sunday with the Roy Burks family.

Mr. and Mrs. R. L. Sides visited relatives at Big Spring last Wednesday.

Bernis Camp and Misses Minnie Lea, Hollis and Rosemary Camp attended the monthly meeting of the Valley View Baptist Mission Band, in the home of Miss Lucille Turner, last Friday night.

Mrs. Cecil Jones and little son have returned to their home at Blanton after staying a month in the home of Mr. and Mrs. Burtis Jones.

Rev. Allen Patterson and Mr. and Mrs. E. D. Norman visited in the E. A. Norman home Sunday afternoon.

Bobby Tyree spent Sunday with Royce Joe Camp.

W. B. Thompson spent Sunday evening with Alvie Newsome.

Misses Pauline Norman and Flora Laxton spent Sunday with Miss Mary Dorsey.

Mr. and Mrs. Dave Forgye went to Fort Worth last week and spent a few days visiting relatives there.

Mr. and Mrs. Roy Tyree and baby spent Sunday with Mr. and Mrs. W. N. Gaddy and daughter and Miss Mike Foulger.

Mr. and Mrs. A. W. Tyree and

son visited Mr. and Mrs. Lee Evans Saturday night.

All those who want to organize a B. T. U. are requested to meet at the school house next Sunday night, November 14, at 7 o'clock. We do not expect everyone to cooperate in this, as that has never been so, but, if you are interested in seeing the boys and girls and young people of this community live high and noble lives and be trained to help others on life's rugged way, we believe you will meet with us and offer a helping hand. Herein lies a great responsibility, for opportunity is knocking at our door. "To him that knoweth to do good and doeth it not, to him it is a sin." (Bible)

Bernis Camp spent the week-end with Mr. and Mrs. Buna Camp, of South Ballinger.

Gordon Burks, of Hagan, spent Saturday night with Mr. and Mrs. S. W. Burks.

The many friends of Mrs. Allen Patterson are glad to know she is much better after a long illness. She says part of her recovery is due to the lovely, much-appreciated "sunshine bag," presented to her by friends.

We are going to organize a P-T A next Thursday night, November 11, and are hoping everybody will come out, as these organizations are required for the standardization of schools.

CREWS CHATTER

About 1 3/4 inches of rain has fallen here in the last twenty-four hours, the first rain excepting some very light showers that has fallen here since about the 10th of June. There have been some good rains in what is termed the Crews community but over a small area including the village has been extremely dry. Grain and stock farmers are thankful, of course.

Doyle Lee, Carlos Loller, Weldon King and Claude Mathis are spending a few weeks on the plains.

Mrs. Lee Porch, of the Content community, was carried to the Halley & Love Sanitarium, Ballinger, following a critical attack of heart trouble. Mrs. Porch is a sister of W. W. and E. L. King, of Crews.

Mr. and Mrs. Joel Brooker have

received a message that their little grandson, son of Mr. and Mrs. Buck Brooker, of Hatchel, had the misfortune to fall and break his leg a few days ago.

Delphine, little daughter of Mr. and Mrs. Aycock, is ill with diphtheria. A younger child has just recovered. The little girl is said not to be in a serious condition. Mr. and Mrs. Aycock have just recently moved into our community and reside on the G. W. Ash farm. The home is quarantined.

Miss Leia Barmore, of Crews, and Troy Wiley, of Hatchel, were married October 30, at Ballinger. Bro. M. C. Golden conducted the service. Mrs. Wiley had only resided here this year but had made many friends. She is the daughter of Mr. and Mrs. Nolan Barmore. Mr. Wiley is a prominent young farmer of Hatchel. Best wishes are extended to the young couple.

Mrs. Coble, one of our assistant teachers, resigned here the previous week to accept a position nearer home. Mrs. W. T. Gassiot is supplying until the vacancy is filled by a permanent teacher.

Miss Zema Young has returned home from Monahans, where she had visited for the past few weeks.

A parsonage is under construction on the Baptist church lot. The membership of the church is very proud of the building as heretofore it hasn't always been possible to have a pastor in the community, or when he did reside here it was sometimes difficult to obtain a desirable residence.

Mr. and Mrs. J. B. Walden have received a message that the death of their son, Sid Walden, of New Mexico, is expected any time.

Mrs. C. F. White, formerly of this place, but now at Bradshaw, is reported seriously ill.

Rev. and Mrs. Halford and Mrs. Pink King, accompanied other messengers from Taylor county to Dallas to attend the convening of the Baptist Missionary Association of Texas. A fine attendance is reported, and a good meeting. Also among other good things of interest they report the Texas Baptist orphanage at Waxahachie out of debt. The mayor of Dallas welcomed the numerous Baptists from over the state to the city. And on Wednesday night, the chief of police of the city of Dallas made a fine talk, and fifteen of his uniformed policemen sang several sacred songs. The senior girls' quartet of the orphan home also rendered some special at intervals. The orphan children visited the services one day. Some

visitors were present from other states. The association will meet at Hillsboro next November.

PAVING WORK BEGUN ON SEVENTH STREET

The unpaved portion of Seventh Street in front of the Runnels county court house was receiving asphalt and crushed rock treatment Wednesday afternoon. The highway department started the work after the caliche base had been bladed and made ready for the surfacing.

The job, to be completed within a few days, will cover one-third of the street the entire length of the court house lawn.

Ballinger Women Form B. P. W. Club With Ten Members

Ballinger business and professional women met Tuesday night at the Central Hotel for the purpose of discussing the forming of a club in this city. Ten local women were present to meet with Miss Lila Wright, president of the San Angelo Business and Professional Women's Club, and consider the organization of a unit. Ten are required to obtain a charter and the ten present signed up for membership.

Miss Beulah White was named temporary president, and Mrs. U. S. Daniel temporary secretary. A committee composed of Mrs. Aurelia Webb, chairman; Mrs. Clara E. Downs and Mrs. Rex L. Holder, was appointed to compile the constitution and by-laws for the organization and nominate officers.

The entire group will meet again Monday night for the purpose of hearing the committee's report, approving the constitution and by-laws and electing officers. A president, vice-president, secretary and treasurer will be elected by the members.

Friday night of next week a dinner party will be held at the Central Hotel at which time officers of the San Angelo and Abilene clubs will assist in the installation of the local officers.

Those signing for membership Tuesday evening were: Miss White, Mrs. Downs, Mrs. Holder, Mrs. Webb, Mrs. Daniel, Miss Wynis Greer, Mrs. Marian Wooden, Mrs. L. Schermerhorn, Miss Myra Tankersley, and Miss Evelyn Crowell.

The promoters plan to form a club of not less than 20 members and other members will be received soon after the organization is perfected. Any employed woman is eligible for membership but after the charter is granted will be voted on before being permitted to join.

Meeting and luncheon dates will be set at the next meeting of the club.

Benefit for Local Grid Team to be Given at Texas

A campaign will be launched Monday morning to raise enough money from football fans to send the Ballinger high school team to Fort Worth on November 27 to see the Texas Christian University and Southern Methodist University eleven play.

The drive for the "wherewith" will include a benefit show at the Texas Theatre on Wednesday night, November 24, at which time the management will give half the proceeds to the trip sponsors.

Tickets will be placed on sale this week-end at all Ballinger drug stores and will sell for the regular admission price. A committee of fans will also take to the streets Monday, selling the tickets to show patrons and football devotees. The pastebards will admit the holders to see the feature picture, "Fight for Your Lady."

In previous years fans have given the players a banquet at the end of the football season but this year the program has been changed and the entire squad offered the trip to witness the college game, one of the best in the state this season. A block of 40 seats has been reserved and coaches, players and a group of fans will make the trip.

Leaders in charge of arrangements hope to contract for a bus to take the entire group to Fort Worth.

Her Last Customer

TO ANNE LINDSEY it seemed unusually lonely at so late an hour that evening. What a goose she was to recall the fear her friends had expressed for her.

"Don't stay late alone," they had always warned. Hugh, especially, had made her promise to go home early at least until he returned, then he could come after her. Then he had added softly, "And some day, when I get promoted, there won't be any hateful tea room; together we will care for your invalid mother and little Stella."

Anne began getting things in order for the night. Somehow she wished she had kept the mail a little later. But she was so young. Well, she must lower her curtains and secure her money and go home. "Wha-at's that?" she whispered. Softly the door was pushed open and a young man entered. He might have stepped from the underworld—a fellow with the slouch cap, defiant swing of the arms and the stealthy rat-like tread.

She would be game. He should never see how frightened she was. "Hello, goiley! Gimme a drink—coffee, anything." He slouched into a chair.

"It's closing time—nothing hot," she began.

"Try it—may be."

It was hot. She drew a cup and, as if to appease him, she produced a plate of biscuits.

"Make it snappier, miss," he warned. "Boil an egg or two. I've got a job—a big one—on tonight. Didja hear?"

"Yes. It's too bad you have to work nights," she ventured.

He broke into a low chuckle. "Now ain't it! Say," between mouthfuls of food and gulps of coffee, "you are too pretty to work so late alone! Tain't safe. Thugs, you know." Another meaning chuckle.

He caught a glimpse of Anne's small diamond ring.

"If I see you are some man's property already."

Anne convulsively closed her hand. Then a sudden idea came.

"Yes, he is due here—now—to come after me."

She tried to silence her conscience for the lie. Hugh was far away. Oh, for a sight of Hugh Sanborn!

"Well, in that case I'd better bustle. Two's company, you know." He rose and went towards her as she backed up to the farther counter.

"Now, young lady, no doubt you've guessed from my evening clothes I ain't no 'Rockabil'." He looked down at his shabby clothes and chuckled again. "So please hand over your coin. Don't trouble to count it. I can do that."

"But you wouldn't rob a poor young woman with a mother who has not walked for eight years, and with a young sister?"

"I don't go down, goiley. They all say it."

Then Anne straightened in righteous indignation.

"You shall not take the very bread out of their mouths!"—at the look in his eyes she added: "That is, until you hear my story. Please sit down. No, I'll not run. I'll sit at the table."

She went on to say how her father had died suddenly, leaving her with all the care. "You've had a mother"—she saw the man wince a little—"perhaps a little sister—"

Into the man's eyes crept a tinge of sadness. Only for a second, then he shook himself into his former rough self.

"That mother and — and sister stuff don't go any more with our profession, sis. Overworked. Hand out your money."

Tremblingly, Anne emptied out the money and laid it on the table. Then she bowed down her head and cried: "What will they do?"

The man watched her. He counted the money, then he did a strange thing. He took from his pocket a \$20 bill and shoved the whole pile toward her.

"Here, goiley, you ring true. Swag comes easy. This is all yours."

The door was softly opening. Hugh Sanborn entered.

Anne, about to leap toward him, heeded the warning of the young man's eyes and a secretly levelled revolver.

He rose. Anne said: "Hugh, this is my last customer. I'm nearly ready." She laughed tremulously.

The fellow slouched off into the night. "You've said it, Anne; he is your last customer. We get married right away. It's not safe here with guys like him. Lucky I came."

"Oh—he's—all right." Then, soberly, "Oh, Hugh, I'll take such good care of you." Hugh looked inquiringly. "Why, of course you will, little goose. How have you done today?"

"Oh, things have turned out much better than I expected." She laughed blissfully.

"Welsh Rabbit"

There is every reason for supposing that "Welsh rabbit" was the original name for melted cheese served on toast; that it was so called as a joke, or for some whimsical reason, just as buttered eggs on anchovy toast are called "Scotch woodcock," and Irish potatoes "Munster plums." The term "Welsh rabbit" instead of "Welsh rabbit" is often seen on restaurant and hotel menus, but is incorrect.

Secrets of Successful Meat Cookery

Whether you are dealing with the choicest cuts of meat or with the more economical and coarser fibered cuts the success of the result depends entirely upon the methods used in preparation. It is easy to spoil the finest steak by neglecting certain procedures in preparation and still easier to render unpalatable the cheaper cuts.

Tender meats such as sirloin and porterhouse steaks, rib roasts and chops should retain their rich juices—this is accomplished

by applying intense heat in broiling, parbroiling or roasting. The cheaper cuts with their coarser fiber should be seared on the outside and then subjected to long slow cooking with sufficient moisture to keep the meat tender and juicy. In making stews and soups the meat should always be placed in cold water and cooked very slowly for a long time.

Naturally the cheaper cuts are made more succulent and flavorful by the use of a variety of seasonings and condiments. The following recipes suggest methods of preparing different cuts of meat in ways calculated to bring out their fullest flavor.

Savory Pot Roast

Chop 1/4 pound of salt pork into bits. Roll the pieces in a mixture made of 1 teaspoon of salt, 1/2 teaspoon of pepper, 1 tablespoon finely chopped onion, 1 tablespoon finely chopped parsley and

1 teaspoon dry mustard. With a sharp pointed knife cut gashes in a 5-pound rump roast of beef and insert the seasoned salt pork. Place in a bowl and roll the meat in 1/4 cup vinegar. Let stand 3 or 4 hours before cooking, turning the meat occasionally. In a Dutch oven cook until yellow 1 small onion in 2 tablespoons of fat. Add the roast browning it well on all sides. Then add 4 medium size carrots, sliced; 2 turnips, quartered and 4 cups cooked tomatoes. Cover tightly and simmer for 3 hours on top of stove or in a moderate oven.

Italian Steak

Pound a round steak and cut in pieces for serving. Dip in bread crumbs and beaten egg to which salt and pepper have been added. Brown quickly in hot olive oil. Remove from pan and fry together 1 onion, 1 clove of garlic, parsley and a sprig of fresh sage. When half done add contents of one can of tomatoes. Add salt and pepper to taste. Simmer about 3 hours then add meat. Cook slowly for about 45 minutes or until the meat is tender.

Stuffed Pork Tenderloin

Slit the tenderloin the entire length. Brush the meat with salt, pepper and cut clove of garlic. In the cavity place parboiled carrots and celery in equal amounts. Wrap up and skewer or tie. Place in a baking dish to roast with sliced onions and apples. Baste during roasting and serve the onions and apples around the meat.

Baked Round Steak

2 1/2 pounds round steak, 1 inch thick
1 thinly sliced onion
1 green pepper
1/2 teaspoon horseradish, grated
1 lemon
Salt and pepper
1 cup strained tomatoes
2 cloves, parsley
Place steak in roasting pan and top with a layer of onions. Add a layer of green pepper cut in rings. Dot each green pepper with horseradish. Top each ring with thin slice of lemon. Sprinkle with salt and pepper. Pour tomato juice over all. Bake uncovered in a moderate oven for 2 hours. When done garnish with parsley.

Plans for Bridge Over Valley Creek To be Completed

A survey will be started and plans and specifications prepared soon for a new bridge over Valley Creek on the Ballinger-Bronte highway and for the surfacing of ten miles of farm-to-market road in the Winters precinct. D. W. Hooper, state resident highway engineer, thinks work will begin in a short time on the surveys and is preparing plans so that the projects can be advertised for bids.

Mr. Hooper stated Tuesday that plans for the bridge would require about four or five weeks to finish as test holes would have to be drilled to determine the location of the bridge and that dirt approaches would have to be included in the specifications.

The resident engineer has received no definite information regarding the general type of the bridge, but it will be of steel and concrete construction. He stated that after plans were prepared it would require several weeks to advertise the project for bids and that actual construction probably would not begin before some time in 1938. The Winters road project includes

5 miles west and 5 miles east of the town. Grading and some of the small drainage structures have already been constructed and the final contract will be for topping with asphalt.

Meaning—the Most Modern Automobile in the World is the new 1938 Buick—with DYNALASH ENGINE and TORQUE-FREE SPRINGING

If YOU'VE put a sparkling 1938 Buick through its thrilling paces—

And tried to say in words what this standout car's got—

And found to your surprise you couldn't begin to do it justice—

Listen, don't think you're the only one!

"It's gotta lotta ummph!" say trier-outers vainly trying to express all the marvelous things they've felt.

"Ummph!" meaning zip—flash—power. "Ummph!" meaning all you ever expected to find in a car—and a great deal else in addition!

Fact is—demonstration, not conversation, is the thing to describe this new Buick.

To say it's quick—nimble—agile is to do only fractional justice to its DYNALASH engine and what it does every time you touch off its thrifty power.

To call its TORQUE-FREE SPRINGING ride velvety is only to participate its ride. Use the words jarless, level, floating, serene—and you come a little closer.

But still you neglect the directability this car gets from its new rear springing, the reduced risk of skidding, the simpler maintenance, and longer rear tire wear that go with it.

Nyra's Tambourine

By CLARA C. HOLMES
© McClure Newspaper Syndicate.
WNU Service.

"TRULY, I don't know where it can be, Rosabel," Dolly declared, casting a puzzled look around the neat attic. "Maybe Aunt's catalogue will tell; see, everything that's put away in trunks is set down in this book. T-t-tambourine; it isn't here, is it? And Aunt Ada's at the missionary meeting."

"I can use a tin pan at today's rehearsal," Rosabel answered. "Are you sure Aunt Ada has a tambourine?"

"Yes, at least Nyra Leonard thinks she has. Nyra says that because there was a 'bizarre' incident connected with her once using the tambourine, she doesn't like to ask for it again. I wonder what that 'bizarre' incident can be, Dolly?"

Dolly led the way downstairs. "I never heard Aunt mention anything extraordinary," she replied.

"Since I may not see your Aunt tonight, I will leave her a note," Rosabel concluded, seating herself at Ada's desk.

"Aunt Ada is making me a rainbow voile dress," Dolly chattered, displaying a novelty. "Put your note on her sewing table."

Whereupon the girls went out, leaving the house alone.

Ada returned as her parlor clock was chiming five. She began to prepare the supper for herself and her niece then, having to wait, she went to the sewing table. Discovering Rosabel's note, she read:

"Dear Miss Ada—Nyra Leonard is to be a Sicilian dancer at the garden party. I can assist in the dance if I can get a tambourine. If you have one, please may I take it?"

"Sincerely yours,
"Rosabel Lamb."

Ada reflected, "Good land, I thought I had that bygone affair buried forever!"

In spite of an effort to think of the supper of sliced hamburger loaf, homemade bread, pancakes, and iced tea, and of the beautifully tinted rainbow dress which she was sewing, Ada now only could hear Nyra's tambourine jingling persistently in her ears. Years ago Ada's Uncle Joe, a sea-captain, had brought the wonderful tambourine, with its silvery bells, from Italy.

Because Nyra had had the instrument so much in her possession, Ada associated the dancer's name with it. Again Ada vividly saw the tambourine in the pretty hands of the raven-haired, dazzling Nyra King, who always, since girlhood, had been a beautiful, wild butterfly.

"She was only a flapper who learned the use of her wings 10 years ahead of the times," Ada observed, trying to be considerate. "And maybe Dolly'll learn to be a flapper, too, in this gay-colored gown. I don't want Dolly to be the plain, old-fashioned girl I was; I want her cute and lively and able to hold her own with any of 'em; but I want her good, too."

"Maybe I've set too high an ideal for Dolly, expecting her to have the strong points Nyra and I both had, and be beautiful both within and without."

But Ada's practical contemplation came to a shadowy end, in meditation, her thoughts were lured backward, backward by the silvery jingle of Nyra's tambourine. Again it was field day; Ada was roving the escarpment with John Leonard, her fiance. They came at last to the brightly decorated fortune teller's booth, where Nyra King, in an Italian peasant costume, sang and danced as she skillfully droned in a beribboned tambourine.

"Isn't she cute?" John commented, watching the movements of the winsome entertainer. Although Ada declared that they had best move on, John lingered and lingered.

Ada smiled as she remembered how willing John was to see her home early in order that he might return to the field and seek Nyra. No one might have known of this clandestine meeting had not John's car turned turtle late that night. Because the car was wrecked, although its occupants, John and Nyra, were picked up unhurt, but sadly stupefied, folks shook their heads suspiciously.

Nyra courteously returned the tambourine and Ada graciously received it; but Nyra never borrowed it again. The episode ended when Ada returned John his ring.

Nyra became the butterfly wife of John. She frisked the years away, her cottage always being in a state of untidiness. It was in order to deepen the contrast between herself and Nyra that Ada kept her house so scrupulously clean.

"She aroused a fire in John which I could never have awakened, that vital flame which alone makes married life worth while," Ada meditated. Then, laying aside her sewing, she mechanically went up two flights of stairs, and methodically looked at her catalogue.

"N—Nyra's tambourine, north end of attic, Uncle Joe's chest, lower left-hand corner." Directly she placed her hand upon the disturbing memento.

She paused a moment, thinking, "I'll change it to the R's, Rosabel's tambourine will be more sweetly suggestive," she bravely soliloquized.

Going downstairs, she began to stir the pancake batter vigorously and to fry the cakes.

CREWS SCHOOL NEWS

By Elvin Mathis

Examinations will start Tuesday, November 9, and most of the pupils instead of finding what they know will find out what they do not know.

Two former Crews students, Winnie Pearl and Curtis Martin, are reported to be doing well at Mozelle.

It was reported that the morning after the Crews boys were beaten by Burkett that every boy in Coleman asked the ones they met, "Did you hear that Crews was beaten by Burkett last night?" We were beaten but we can and will come back.

We went to Novice and came back with two wins. The girls won in a fast game 23-18 and the boys copped a one-sided affair which

ended 42-7. Martin and Rainwater led in the offensive with 18 and 17 points, respectively.

In the girls' game Bradley, Rainwater and Fortson were forwards and Sybil Simpson, King and Kelly were guards. The girls played a good game and they show that if they do not let up they will win more than their share of the basketball games this year.

Martin, Rainwater, Faubion, Berry, Morrison, Fuller, Jesse Ray Klutts, Bill Barmore, Eldred Davis, Elvin Mathis and Speedy Fortson played in the boys game. We played at Novice Tuesday night.

Friday afternoon the Content girls' team came over to our gym and went back beaten, 32-23. Elms, Lucille Simpson, Betty Belcher, Winona Faubion, Ariene Schwartz and the first string played with Content.

Rehearsals will soon be started on a play to be presented by the Crews high school.

The girls' coach is Mr. T. J. Whitley and not Mrs. T. J. Whitley. If the boys lose to Novice this week we intend to play the Eola sixth grade who recently lost to Hess 4-2 in a very, very fast game.

Winchester Location Of Old Landmarks, Famed 'Round Table'

WINCHESTER, England, Nov. 10.—King Arthur's Round Table is still one of the attractions which brings tourists to this city. The fact that Winchester is more truly the city of Alfred the Great, or that it has one of the finest cathedrals of England, seems to mean less than the fact that in the old castle hangs a "wheel of fortune" known as King Arthur's Round Table.

The table here was first mentioned by the poet Hardy in 1378, and Henry VIII brought the Emperor Charles V to see it when Charles visited England in 1522.

proudly displaying it as one of the most interesting sights in England. Guides who do not reside in Winchester, however, are likely to say that it is a "fascinating piece of carpentry."

The table, painted in Tudor days, shows Arthur sitting crowned but in robes which were worn much later than in his legendary time. Perhaps the chief thing in favor of its claim to authenticity is the fact that it is large enough to seat the king and all his knights.

Winchester, however, feels that those who come seeking the prison of Toss of the D'Urbervilles here, or scenes in Trollope's "Barchester Tower," are seeking something more authentic than the table, and today it is as proud of its nineteenth-century literary landmark as it is of the older relic.
