Mr. Hugh Jackson left, last Thursday, for Topeka and Kansas City, expecting to locate in one of said cities. Mr. Jackson is one of our most highly respected citizens, and his estimable wife was reared in this city, and the people of this city and county will regret to lose them from their midst; but wherever they may locate when they leave here, the best wishes of the entire community will be with them. Mr. and Mrs. Brockett were among the pioneers of the west, and have lived in this city for seventeen years, and during their residence here Mr. Brockett has done much to improve the live stock interests of this county, especially in the way of draft horses; and in his leaving our midst, the people of this county lose one of its most honorable and upright citizens, and Topeka will gain a modest and unassuming gentleman; and when he and his estimable wife will have left here two vacancies will be created in the social and religious circles of this community, that will be hard to be filled; and their children will be missed by their school mates, with whom they have studied and played for so many years. When Mr. Brockett and his family will have taken their departure from among us, the best wishes of this community, where they have so many friends, will go with them to their new home, wherever it may be. ROTATION OF CROPS.

A Matter Whose Importance Should Not Be Underestimated.

The importance of a judicious rotation of crops should not be ignored, notwithstanding the asserted ability of chemical fertilizers to supply all that is required for any crop for any number of years.

No doubt our very narrow rotation of three grain crops and one of grass and clover is too exhaustive for the most profitable culture of the soil.

—Sweet Omelet.—Grease a small baking dish with fresh butter. Beat the whites of six eggs to a froth and add to the beaten yolks; mix in very gently two ounces of powdered sugar and the juice of a lemon; heap into the dish quickly and lightly; sprinkle with powdered sugar and grated nutmeg, and set in a very hot oven until a golden brown. Serve immediately in the dish in which it is baked.

—A Pretty Tidy.—Take a piece of coarse white net, the size you wish the tidy, which is for the foundation. On this sew alternate rows of dark satin ribbon and white oriental lace.

—The deepest coal mine in America is at Pottsville, Pa. The shaft is 1,576 feet deep.

USEFUL AND SUGGESTIVE.

Do not slam the oven door if you would have light cake.

—A thick coating of flowers of sulphur over the affected limb for one night is said to cure the sciatica.

—Coffee Cake.—One cup coffee, two cups sugar, one cup molasses, four cups flour, one cup butter, four eggs, reserving whites for frosting; two cups raisins, two teaspoons soda, two teaspoons cinnamon, two teaspoons cloves, one teaspoon nutmeg.

—Mountain Dew Pudding.—Three crackers rolled fine, one quart of sweet milk, two-thirds of a cup of sugar, yolks of three eggs, salt and nutmeg; bake twenty minutes; beat the whites of the eggs to a froth, add two-thirds of a cup of sugar and spread over the pudding; brown slightly in oven.

—Those who are in the habit of indulging in raw onions, says a medical man, may be consoled for the social disadvantages which ensue by the fact that onions are the best nerve tonic.

—Delicious filling for a pie is made by stewing some prunes until they are very soft; remove the stones, sweeten to your taste, and add for one pie the well-beaten whites of two eggs; beat with the prunes until thoroughly mixed; bake with two crusts, or if you can get it, use whipped cream in place of the upper crust.

—For potato chowder take six large potatoes, one onion, one quart of milk, one tablespoonful of butter, two ounces of salt pork and one egg. Cut the pork in small pieces and fry, add the potatoes and onions sliced, cover with boiling water and cook until potatoes are tender; add the milk scalded and the seasoning, and lastly the egg beaten light.

Potato Lemon Pudding.—Three ounces of potatoes, the grated rind and juice of two fine lemons, three ounces of white sugar, two ounces of butter; grate off the lemon peel with lumps of sugar, beat them and add to the other ingredients; boil the potatoes and peel them, mixing all together with the lemon juice and two beaten eggs; bake it slightly.

—Sweet Omelet.—Grease a small baking dish with fresh butter. Beat the whites of six eggs to a froth and add to the beaten yolks; mix in very gently two ounces of powdered sugar and the juice of a lemon; heap into the dish quickly and lightly; sprinkle with powdered sugar and grated nutmeg, and set in a very hot oven until a golden brown. Serve immediately in the dish in which it is baked.

HEAD-GEAR FOR MEN.

What Hat Manufacturers Have Prepared for This Year.

Here is what the straw hat manufacturers have prepared for this year. The style will run mostly to yacht hats. Straight, narrow brims they have, crowns three to four inches high and tops as flat as hat-presses can make them.

But the one to which the prize should be awarded is the panorama band. To get the good of this hat one must imagine a sweet little face under it, a cigarette and a moustache like the bluish of dawn.

The "colonel" hats are a rushing success and cargoes of them are going to all parts of the South. In Texas they are immensely popular and it is said that even the children cry for them.

—A Pretty Tidy.—Take a piece of coarse white net, the size you wish the tidy, which is for the foundation. On this sew alternate rows of dark satin ribbon and white oriental lace.

—The deepest coal mine in America is at Pottsville, Pa. The shaft is 1,576 feet deep.

Wretched Zulu Babies.

When a Zulu child is first born, it is of a light hue and does not get the darker tint of the parents for some years. As soon as it enters the world the "medicine man" is sent for, and, contrary to the custom of the civilized "medical man," he takes no notice whatever of the mother, but devoting himself entirely to the child, makes a number of small gashes in various parts of the poor infant's body, into which he rubs medicine and goes on his way rejoicing, returning next day to make the incisions deeper and rub more medicine into them; this second operation being performed, the child is washed and dried by being moved around in the smoke of a wood fire, eventually being dabbed all over with a red paint, which is renewed as fast as it wears off for a period of several months.

—Mrs. Mary Mallen, noted as the only woman miner in Colorado, is the sole tenant of a lonely cabin that stands on the summit of Gold Hill, opposite Buena Vista. She has lived alone on the mountain for several years, spending her time in prospecting for gold, but thus far without apparent success.

THE GENERAL MARKETS.

Table with columns for Market (KANSAS CITY, ST. LOUIS, CHICAGO, NEW YORK) and various commodities like CATTLE, SHEEP, HOGS, FLOUR, etc.

—A PLUMBER never asks: "Is it warm enough for you?" Just hands you his bill and watches the preparation trickle.

Nothing Like It!

Every day swells the volume of proof that as a specific for all Bilious Disorders, Dr. Pierce's Golden Medical Discovery equals Dr. Pierce's Golden Medical Discovery.

The Demon of the Marsh.

The evil spirit that hovers about stagnant pools and inundated lowlands, is no material being, no phantasm of a disordered imagination, but a power of evil far more malignant than any familiar anatomized by Cotton Mather.

To Householders and Farmers.—It is important that the Soda you use should be pure and of the best quality.

The Lessons of "Unser Fritz" Case.

The greatest doctors in Europe don't seem to know what ails "Unser Fritz." Thus are the Garfield and Grant episodes repeated, and public confidence in "expert" medical knowledge is again shaken.

The treatment of many thousands of cases of those chronic weaknesses and distressing ailments peculiar to females, at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adjusting and thoroughly testing remedies for the cure of woman's peculiar ailments.

Dr. Pierce's Favorite Prescription is the outgrowth, or result, of this great and valuable experience. Thousands of testimonials received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a cure-all, but as a most perfect specific for woman's peculiar ailments.

Dr. Pierce's Favorite Prescription is a powerful, invigorating tonic, it imparts strength to the whole system, and to the womb and its appendages in particular.
