### "A WAR MESSAGE TO THE BANKS OF AMERICA"

"The success of one of the most vital of our country's war efforts is in your hands.

"To date, your unstinted contributions to the United States War Savings Bond program have been magnificent. You have been doing a proud job. What you did even before the outbreak of war has become one of the finest testimonials to our Democratic Way.

"That over 14,000 commercial and savings banks - without a cent of compensation - voluntarily launched a great and successful drive to sell War Savings Bonds is a glowing tribute to the quality of the patriotism of America's financial institutions."

> H. Morgenthau, Jr. Secretary of the Treasury

part of a plane"

needed for War

In the barnyards and gullies of farms and in the basements and attics of homes is a lot of Junk which is doing no good where it is, but which is needed at once to help smash the Japs and Nazis.

Scrap iron and steel, for example.

Even in peacetime, scrap provided about 50% of the raw material for steel. It may be rusty, old "scrap" to you, but it is actually refined steel-with most impurities removed, and can be quickly melted with new metal in the form of pig iron to produce highest quality steel for our war machines.

The production of steel has gone up, up. UP, until today America is turning out as much steel as all the rest of the world combined. But unless at least 6,000,000 additional tons of scrap steel is uncovered promptly, the full rate of production cannot be attained or increased; the necessary tanks, guns and ships cannot be produced. The rubber situation is also critical.

In spite of the recent rubber drive, there is a continuing need for large quantities of scrap rubber. Also for other waste materials and metals like brass, copper, zinc, lead and tin.

The Junk which you collect is bought by industry from scrap dealers at established, government-controlled prices. Will you help?

First-collect all of your waste material and pile it up.

Then-sell it to a Junk dealer, give

it to a charity, take it yourself to the nearest collection point, or get in touch with your Local Salvage Committee. If you live on a farm, consult your County War Board or your farm imple-

COME IN GINGHAMS AND OVERALLS

# WE THANK YOU

Naturally we are proud of our boys in the service, of the job we are doing, and prouder still to be a vital part of America's great transportation system. We are also proud of the way you are co-operating with us in making our civilian transportation efforts less difficult. Your patience and understanding of these problems are aiding us immensely in our war effort.

Today, Uncle Sam comes first ... Troop trains that transport our fine boys to their own particular jobs, and important freight shipments consisting of raw materials and finished products, that constantly glide across the country for our fighting forces, naturally come first and we know that is the way you want it.

### Timely Hints for All Travelers

time and money.

- Plan your trip as far in advance as pos-
- · Whenever you can, travel on midweek
- · Purchase round-trip tickets and save
- Cancel reservation promptly if travel plans are changed.
- · Allow ample time at the station to buy tickets and check your baggage.
- Take as little luggage as possible, then there'll be more room and comfort for everybody.

Timely Hints for Freight Shippers

- Order Freight Cars Properly
- · Load 'em Quickly Load 'em to Capacity
- Unload 'em Promptly
- Unload 'em Completely

Take advantage of our LCL Pick-Up

and Delivery Service store door to store door, with popular early morning delivery.

### **Cut Grasses Before** Mature to Make Best Quality Hay

COLLEGE STATION, Aug. 12 .-Gibson, assistant dairyman of the Texas A. & M. College extension service. Sudan, Johnson and other follows. grasses cut for hay before they Despite his eccentric nature, the more palatable and higher in freighting purposes. This crass digestible nutrients than if cut between the horse and the ass is of President Roosevel hardier than either, requires less the CIO to return to after heading, he adds. But in order to obtain quantity as well as quality, growers should wait until as near heading time as possible before cutting.

On the other hand, the crop should be mature to make good silage. As the greater part of the Johnson grass now is ripening it will be best to put it into the silo. Johnson grass stubble will sprout and produce another crop if rain comes. The second growth will make extra quality hay if it is cut before heading. Hay cut during September and October is more palatable because spring and early summer cuttings dry excessively. Gibson suggests that the early

crop of grain sorghums should be put into the silo. In some cases, he explains, it may be advisable to cut off the heads and put the stalks into the silo. The second crop of grain sorghums, and also Evening evangelistic service, the late crop, could be cut and cured for dry bundle feed.

Cattle need some hay or dry bundle feed along with green pasture and with silage. The better the quality of hay and dry bundle feed the more good it will do

"There is plenty of room for improvement in the quality of the hay and dry bundle feed in

"Can I buy a Gas-steam Radiator, without a priority?"

# 1 es, 11 you need 1t

### Steam Heat Without a Basement

Imagine the pleasure of steam heat on a small investment. These Radiators make their own thrifty steam, and you may have them vented or unvented.

# Also Floor Furnaces, Circulators, Radiant Heaters

If you positively need them, you can buy them now

F course we're going to be short on heaters! We've got to stop the enemy, and it takes that metal for ships and planes. But you can buy right now from the heater stock on hand, for those houses that have no heating at present. (Also, you can buy a Gas Range, if you haven't one). Down Payment, Monthly Terms.

Get ready for a war-time winter, with a house that's healthfully warm. Have you been wanting modern built-in heaters? ... Floor Furnaces, Gas-steam Radiators, or Circulators? They were built to last for many years; they add definitely to the sale value of a place; and when you have a vented firebox, it means no sweating walls. With your cheap Natural Gas, the operating cost is especially economical. Simple installation, in houses old or new.

Uncle Sam needs the money to keep planes, tanks, guns, ammunition and other implements of war going to the soldiers.

Our part is small compared with those actually in combat with the enemy.

Do your share. Buy regularly. Make Runnels county exceed her quota.

# Leaf Worms Damage

Cotton growers from widely separated points in Runnels county visited the county agent's office from leaf worms and to get direc-Smiley Burnette, rotund comic tions for killing them. John A. urged all farmers to make careful inspections of their fields.

He also offers the following suggestions where worms are found IN AUGUST, SEPTEMBER Dusting with from 5 to 7 pounds of calcium arsenate to the acre American Legion posts and civic will usually kill the worms. If a Chief V. L. Ryan, recruiter in leaving it moist like a good dew

> buds and even attack the young bolls and squares.

When leaves are stripped from the stalks before the bolls mature The regulations of the Board of it prevents full development and 7-8 inch lint and under, and there is actually a shortage of good 13-1t grade of 1 inch staple and above.

### URGENT APPEAL MADE FOR SKILLED ARTISANS AT PEARL HARBOR YARDS

Another urgent appeal came today for skilled artisans needed at once in the navy yards at Pearl Harbor, according to Edwin C. Schuchard, local civil service secretary at the Ballinger post office. Uncle Sam will pay wages from 1.99 to \$1.49 an hour for aircraft mechanics, aircraft instrumen mechanics, blacksmiths, boiler makers, boxmakers, coppersmiths aviation electricians, instrument makers, joiners, outside machinists, bombsight mechanics, aviation metalsmiths, torpedo ordnancemen, patternmakers, shipfitters riggers, and shipwrights.

Only men between the ages of 20 and 62 years will be accepted. except for helper positions where the minimum age is 18.

First class transportation will be furnished from the home of the appointee to Pearl Harbor. No dependents will be allowed to make the trip. Cantonments operated on a cost

basis offer accommodations at reasonable prices regulated by the ommandant. Mr. Schuchard urges qualified men to see him at his office in the Ballinger postoffice today for

. . . Local Baptist Girls Attend Annual Houseparty

The annual houseparty for the Baptist girls auxiliary of intermediate age and young women is being held in Brownwood this week at Howard Payne College. The program began Tuesday and will continue through Thursday

Mrs. Ernest Moody, district director of young people; Miss Mary Elizabeth Truly, returned missionary from Nigeria, Africa; the Rev. and Mrs. Clarence A. Morton, Loretta Parks, Dorothy Ann Holliday, Anna Sue Hembree, Elizabeth Wear and Betty Jean Lengefeld are in attendance from

In the barnyards and gullies of farms and in the basements and attics of homes is a lot of Junk which is doing no good where it is, but which is needed at once to help smash the Japs and Nazis.

Scrap iron and steel, for example. Even in peacetime, scrap provided about 50% of the raw material for steel. It may be rusty, old "scrap" to you, but it is actually refined steel-with most impurities removed, and can be quickly melted with new metal in the form of pig iron to produce highest

quality steel for our war machines. The production of steel has gone up, up, UP, until today America is turning out as much steel as all the rest of the world combined. But unless at least 6,000,000 additional tons of scrap steel is uncovered promptly, the full rate of production cannot be attained or increased; the necessary tanks, guns and ships cannot be produced.

The rubber situation is also critical. In spite of the recent rubber drive, there is a continuing need for large quantities of scrap rubber. Also for other waste materials and metals like brass, copper, zinc, lead and tin.

The Junk which you collect is bought by industry from scrap dealers at established, government-controlled prices.

Will you help? First-collect all of your waste material and pile it up.

Then-sell it to a Junk dealer, give it to a charity, take it yourself to the nearest collection point, or get in touch with your Local Salvage Committee.

If you live on a farm, consult your County War Board or your farm implement dealer.

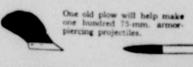

Throw YOUR scrap into the fight!

This message approved by Conservation Division WAR PRODUCTION BOARD This advertisement paid for by the American Industries Salvage Committee (representing and with funds provided by groups of leading industrial concerns).

COME IN GINGHAMS AND OVERALLS

# WE THANK YOU

Naturally we are proud of our boys in the service, of the job we are doing, and prouder still to be a vital part of America's great transportation system. We are also proud of the way you are co-operating with us in making our civilian transportation efforts less difficult. Your patience and understanding of these problems are aiding us immensely in our war effort.

Today, Uncle Sam comes first.... Troop trains that transport our fine boys to their own particular jobs, and important freight shipments consisting of raw materials and finished products, that constantly glide across the country for our fighting forces, naturally come first and we know that is the way you want it.

### Timely Hints for All Travelers

- · Plan your trip as far in advance as pos-
- Whenever you can, travel on midweek
- Purchase round-trip tickets and save time and money.
- Cancel reservation promptly if travel plans are changed.
- · Allow ample time at the station to buy tickets and check your baggage.
- Take as little luggage as possible, then there'll be more room and comfort for everybody.

Take advantage of our LCL Pick-Up and Delivery Service-store door to store door, with popular early morning delivery.

Timely Hints for

Freight Shippers

· Load 'em Quickly

Load 'em to Capacity

Unload 'em Promptly

Unload 'em Completely

### Cut Grasses Before Mature to Make Best Quality Hay

COLLEGE STATION, Aug. 12 .-Texas A. & M. College extension desired direction and he usually service. Sudan, Johnson and other follows. grasses cut for hay before they head will be higher in protein, mule is by far the best animal for digestible nutrients than if cut between the horse and the ass is after heading, he adds. But in hardier than either, requires less order to obtain quantity as well as quality, growers should wait until as near heading time as possible before cutting.

On the other hand, the crop should be mature to make good silage. As the greater part of the Johnson grass now is ripening it will be best to put it into the silo. Johnson grass stubble will sprout and produce another crop if rain comes. The second growth will make extra quality hay if it is cut

You are cordially invited to all before heading. Hay cut during September and October is more palatable because spring and early summer cuttings dry excessively. Gibson suggests that the early

crop of grain sorghums should be put into the silo. In some cases, he explains, it may be advisable to cut off the heads and put the stalks into the silo. The second crop of grain sorghums, and also the late crop, could be cut and cured for dry bundle feed.

Cattle need some hay or dry bundle feed along with green pasture and with silage. The better the quality of hay and dry bundle feed the more good it will do

# Superintendent **Mertzon Schools**

George E. Stowe, high school principal here for the past five years and connected with the Ballinger schools for ten years, resigned Friday to accept the superintendency of the Mertzon schools. He and his family will move there as soon as they can find living quarters and he will spend the rest of the month preparing for the opening of school near the first of September.

Mr. Stowe came to Ballinger ten years ago as a teacher. During this period he has served in a number of positions. He was principal of the elementary school for several years and later at junior high school before going to the senior high school as principal. He has taught during the entire ten years in some department of the local schools and for a time was assistant football coach.

"Can I buy a Gas-steam Radiator, without a priority?"

# Yes, it you need

### Steam Heat Without a Basement

Imagine the pleasure of steam heat on a small investment. These Radiators make their own thrifty steam, and you may have them vented or unvented.

# Also Floor Furnaces, Circulators, Radiant Heaters

If you positively need them, you can buy them now

F course we're going to be short on heaters! We've got to stop the enemy, and it takes that metal for ships and planes. But you can buy right now from the heater stock on hand, for those houses that have no heating at present. (Also, you can buy a Gas Range, if you haven't one). Down Payment, Monthly Terms.

Get ready for a war-time winter, with a house that's healthfully warm. Have you been wanting modern built-in heaters? ... Floor Furnaces, Gas-steam Radiators, or Circulators? They were built to last for many years; they add definitely to the sale value of a place; and when you have a vented firebox, it means no sweating walls. With your cheap Natural Gas, the operating cost is especially economical. Simple installation, in houses old or new.

Community \*/ Natural Gas Co.

Uncle Sam needs the money to keep planes, tanks, guns, ammunition and other implements of war going to the soldiers.

Our part is small compared with those actually in combat with the enemy.

Do your share. Buy regularly. Make Runnels county exceed her quota.

ONCE CAPTAIN OF CHINESE GUERILLAS FIGHTING JAPS. MONTANAN JOINS MARINES

BUTTE, Mont., August 12.—Gene Delano La Beau, who fought ger against the Japanese for two years as a captain of Chinese guerrilla fighters, is after the Nips again. He has joined the U. S.

La Beau was an employe of an American oil firm when the Japs sank the Panay and moved into the Chinese oil lands. The Japanese invasion put La Beau out of work so he went into action against them when he joined General Chiang Kai Shek's forces.

Wounded in the battle of Lower Tibet, La Beau returned to the United States two years ago.
