engagement with the team there. Local captains expect to take a large delegation to Brady as there are a number of grudge matches to be played.

Philpeco players will be here for matches Sunday afternoon, September 1, and the group probably will number 15 to 20.

The league season will close here on Sunday, September 8, when all four teams, Coleman, Brady, Philpeco and Ballinger will assemble in the morning eat barbecue at noon, and start 18-hole matches soon after the meal.

These games will be medal play with all four No. 1 men composing the first foursome, No. 2s in the next, and so on until all players have been matched. Games will get underway at 1 p. m. and the public will be invited to witness the matches in which some of the best players of West Texas will be seen in the top brackets.

Upper Lake Water Increases Supply; Rain Badly Needed

The flood gates on the upper city reservoir were opened Monday morning in an effort to drain all available water there into the lower lake where it can be pumped into the filtering plant and settling basins for local consumption.

This week the pipes were lowered in the lake in order to reach the fast dwindling water supply and not pull air. The water from the upper lake will help considerably but there is not enough there to create a supply that will last long at the present rate of consumption.

Tests have been made on the large hole of water on Elm Creek below the city park. By placing a line in a position near the Santa Fe Railroad bridge on the creek considerable water could be made available.

K. V. Northington, city secretary, stated Monday that wells in South Ballinger would not provide enough water to run lines to and start pumps. At best, only about 86,000 gallons daily could be obtained from this source and the secretary said this would be only "a drop in the bucket" to supply Ballinger.

Rain on the watershed of Elm Creek is the only thing that will give immediate relief here and create a supply that will permit continued and unrestricted use of water.

Wilson and Adair Home from School For Texas Coaches

Coaches Wayman Wilson and Dillard Adair returned Saturday morning from Corpus Christi where they attended the Texas coaching school. The Ballinger men stated it was the best school held in many years with attendance about 1,000.

They remained until after the North-South game of all-stars Friday night and then left for home.

Coach Wilson will close the summer recreation program here on September 15 and get ready for the opening of the fall football training program on September 1. With a game at Pecos on September 13, the Ballinger coaches will have a hard time getting the players ready for the season's opening.

The summer program has reached a large number of Ballinger boys and girls and some adults. It was the first year for this program in Ballinger and those who sponsored it are pleased with the results.

Ballinger juniors paid a return engagement to Coleman this week for contests in softball, basketball, tennis, boxing and touch football.

Second Primary Ballot for County To be Very Short

Printing of the ballots for the second Democratic primary was delayed in Runnels county until after the meeting of the state executive committee Monday, J. M. Williams, county chairman, stated that he felt unsafe in printing the ballots until certified by the state committee.

While applications for absentee ballots have been taken at the court house by County Clerk John B. Rayburn, no tickets were issued. All who applied to vote absentee ballots will be mailed tickets this week and will return them in time to be counted in their boxes on August 24.

All election supplies will be made ready for each precinct in the county and voting on August 24 will be during the regular legal hours. Results of the election are expected to be tabulated soon after the polls close as the ticket for this county will be very short.

Candidates for only four state offices will appear on the Runnels county ticket. All district county and precinct races were settled in the first primary.

Following is the ballot each voter in this county will be handed:

Next Sunday afternoon Ballinger fans will have an opportunity to see the Bethel club in action on the local diamond when it clashes with the Voss nine here at 2:30.

J. R. Whitworth, manager of the Bethel club, stated he would have a good lineup ready and one of the best pitchers in West Texas on the mound. He invites all local fans to turn out for the game.

How women and girls may get wanted relief from functional periodic pain

Cardul is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

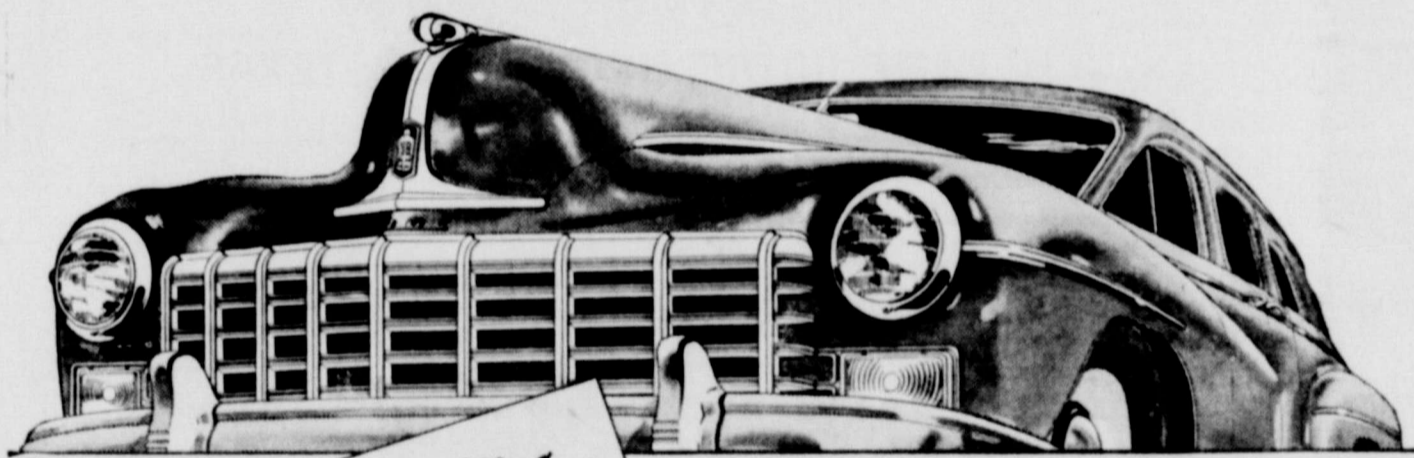

- 1 Taken like a tonic, it should stimulate appetite, aid digestion, thus help build resistance for the "lame" to come.
- 2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardul. If it helps, you'll be glad you did.

Miss Esther Block Becomes Bride of John F. Havlak in Officiation

Miss Esther Block, daughter of Mr. and Mrs. Frank Block, was married to John F. Havlak, son of Mrs. Anna Havlak of Rowena, in a ceremony read in the St. Boniface Catholic Church at Officiation Tuesday morning at 8 o'clock.

The double ring service and the nuptial mass was read by the Rev. Fr. F. M. Kaminsky, pastor, before an altar banked with arrangements of fern and pink gladioluses. Branched candelabra held white tapers.

Miss Dorine Halfmann, organist, played the pre-nuptial music as candles were lighted by acolytes, Eugene Kahlig, nephew of the bride, and James Block, cousin of the bride. Miss Halfmann played

the traditional wedding marches.

Miss Eleanor Block, sister of the bride, served as maid of honor, and wore a suit of powder blue wool with scrolls of embroidery for trim. Her accessories were brown and she wore a pink carnation corsage. Frank Havlak, brother of the bridegroom, was best man.

The bride wore a suit of gray wool gabardine fashioned with winged sleeves. Her corsage was of white carnations and she carried a silver rosary.

After the mass, Misses Pauline Block, sister of the bride, and Mary Ann Halfmann presented the bride with a statue of the Blessed Virgin Mary, which was a gift from the Children of Mary Sodality.

The wedding reception was held by the parents of the bride in their home. The bride's table was laid with linen and centered with a white decorated wedding cake which was topped with a miniature bride and groom. Other floral arrangements were baskets of gladioluses.

A brown linen dress, white accessories and a white carnation corsage was chosen as the going away costume of the bride. After a short wedding trip, the couple will live in San Angelo.

Knight-Campbell Marriage Told
Miss Betty Jean Campbell, daughter of Mr. B. B. Campbell of Hatchel, and James E. Knight, son of Mr. and Mrs. J. P. Knight, also of Hatchel, were married by John Lindell, minister of the Church of Christ. Mr. Lindell read the double ring service in his home Saturday evening, July 27.

Attendants were Mrs. Lindell and Ross Campbell, brother of the bride.

Doty of Abilene, exchanged vows in the presence of relatives and close friends, in the home of the bride's parents on Tenth Street.

The Rev. B. J. Martin, pastor of the First Baptist Church, was officiating clergyman for the double ring service. The improvised altar was decorated with pink gladioli and fern.

Miss Joanne Rayburn attended her sister as maid of honor. She wore a dress of white eyelet embroidery linen with white accessories and a corsage of white carnations. Jack Doty, of Abilene, attended his brother as best man.

ADVICE TO DIABETICS

● Beware of patent medicines advertised as cures or remedies for diabetes! They often are not reliable. Diabetes was first recognized about 1552 B.C. This was about the time of Moses, or 200 years before the birth of King Tut. Ever since that time, at intervals, some faker comes up with a cure. A dependable treatment for diabetes was discovered only twenty years ago. It will not cure the disease, but it will enable the diabetic to live a normal life. The discovery is known as Insulin. Your doctor knows all about it. If he finds it necessary in your case, we can supply it in just the right strength.

Ann Sheridan, Dennis Morgan Star in 'One More Tomorrow'

Smart dialogue and sophisticated comedy sound the keynote for "One More Tomorrow," Warner Bros. picture presented at the Texas Theatre next Sunday, Monday and Tuesday, August 18, 19, 20.

Co-starring five of Hollywood's topnotch stars—Ann Sheridan, Dennis Morgan, Jane Wyman, Jack Carson and Alexis Smith—and featuring an important company of supporting players including Reginald Gardiner, Marjorie Gatenon, John Loder, Thurston Hall and John Abbott, the film depicts the struggles of a handful of talented young people whose business and romantic entanglements would doubtless discourage any generation other than today's.

Based on a play by Philip Barry, "One More Tomorrow" was adapted for the screen by Charles Hoffman and Catherine Turney with additional dialogue contributed by Julius J. and Phillip G. Epstein. Max Steiner composed the original music featured in the picture.

of Mr. and Mrs. Malcolm Morgan the past week when she returned home she was accompanied by Miss Morgan who will visit in Comanche for a week. Several informal affairs were given Miss Conner while here.

Mr. and Mrs. Malcolm Morgan were in Dallas this week to drive a new Pontiac back home.

Allan Shivers Is People's Favorite

Senator Allan Shivers, in thanking the voters of Texas for the heavy lead they gave him in the July primary to make him the

favorite candidate for lieutenant governor, also warned citizens that attempts will be made by "scheming minority pressure groups" to defeat him in the August 24 runoff.

The Jefferson County legislator, lawyer and farmer, pointed with pride to the overwhelming support which he received in his present home county and in the county where he was reared to manhood, Shivers, a World War II combat war veteran (the only veteran in this race), polled approximately 75 per cent of the votes in Jefferson County, his present home, and was a 25 to 1 favorite over his runoff opponent in Tyler County, where he spent his youth. Senator Shivers led his runoff opponent by approximately 100,000 votes in Texas.

"I am deeply grateful for the confidence the people of Texas have shown in me and the progressive program for Texas which I advocate," Shivers said. "I shall strive even harder to work for the welfare of Texas."

"Because I represent the masses of the people, there will be those in the runoff campaign who will conspire to defeat me," Shivers predicted. "I will not be swayed by these radical minority groups—the C.I.O. noisemakers in particular. My opponent is welcome to the support which they are giving him. I will continue to fight for the right and welfare and progress of our people who make up the backbone of Texas."

"Texas Jamboree," Action Musical, and "Joe Palooka" Comedy Week-End at Texas

"That Texas Jamboree," Columbia Pictures' action musical, and adaptation of Ham Fisher's comic strip, "Joe Palooka, Champ," are the two films of the double-feature program at the Texas Theatre tomorrow (Friday) and Saturday, August 18, 17.

"That Texas Jamboree" is said to be a jumpin', jivin', joy-jammed festival with eleven song hits spotlighted throughout the film. The Hoosier Hotshots from the National Barn Dance; Ken Curtis, romantic singing star; and the Dinning Sisters are some of the musical favorites who give out with numbers ranging from ballads to swing tunes, from sentimental pieces to homespun, bucolic ones.

Ham Fisher's comic strip, read by millions of Americans every morning, comes to life in Monogram's comedy, "Joe Palooka, Champ." Leon Errol stars as Knobby Walsh, manager of Joe Palooka, who is played by Joe Kirkwood. Elise Knox is seen as Palooka's girl friend, Sarah Padden. Michael Mark and Sam McDaniel have important roles. Joe Louis and other champions of the prize ring contribute to the familiar personages seen in the well-known comic strip.

Three Screen Newcomers Vie with Famous 'Names' in Romance, 'Her Kind of Man'

Hard-hitting melodrama and sweeping romance sound the keynote for Warner Bros. newest film drama, "Her Kind of Man," which is the feature attraction at the Texas Theatre Wednesday and Thursday of next week, August 21, 22. Co-starring a triumvirate of bright screen newcomers—Dane Clark, Janis Paige and Zachary Scott—the film also features an important cast of supporting players, among them Faye Emerson, George Tobias, Howard Smith and Harry Lewis.

Based on an original story by Charles Hoffman and James V. Kern, the screenplay, written by Gordon Kahn and Leopold Atlas, presents the exciting life of the late 20s and 30s, just before President Roosevelt went into office and prohibition went out, when gamblers flourished and high and dangerous living was the watchword of the day. Against this background, "Her Kind of Man" depicts the stirring case history of a man who flouted convention and the woman who loved him in spite of herself.

U.S. civilians will have from 135 to 140 pounds of meat per capita in the year that began July 1, the department of agriculture estimates, as compared with 145 to 150 pounds last year. Reduction is due to a smaller pig crop in sight and the marketing of animals at lighter weights.

FOOD SPECIALIST SAYS
FRESH EGGS MAY BE
FROZEN SUCCESSFULLY

COLLEGE STATION, Aug. 14.—Fresh eggs, now seasonally abundant, can be frozen successfully for future use if a few simple steps are followed in preparation and packing. Gwendolyn Jones, specialist in food preservation for the A. & M. College extension service, offers the following suggestions to homemakers:

Use fresh clean eggs. Break them into a clean bowl and beat or churn them thoroughly until the yolks are broken and well mixed with the whites. Beating prevents gumminess of the yolk during storage. However, be careful not to whip in air. Whites may be separated from the yolks and packaged without churning, but the yolks should be slightly beaten. If eggs are to be used for cakes or sweets, add 1 teaspoon sugar, corn syrup, or honey for each cup. If they are to be used for salad dressing or scrambled eggs, add 1 teaspoon salt for each cup.

Plain tin is the most desirable container for eggs. Air-tight and leak proof paper cartons also may be used. Freeze in small amounts so that they can be used soon after thawing.

One good way to have a small amount of frozen eggs is to use a refrigerator tray. Put about 3 tablespoons of the egg mixture in each cube section. Quick freeze, then wrap each cube in cellophane. Several wrapped cubes may be packaged in one carton or bag. Small paper cups may be used as molds instead of the ice cube tray.

After wrapping and freezing, store at 0 degrees Fahrenheit.

When using: one tablespoon yolk equals one egg yolk, one and a half tablespoons whites equals white from one egg.

THANK YOU
for waiting for delivery of your
NEW CHEVROLET
We are doing our best to see that you get your new car as quickly as possible

We want to thank our customers and prospective customers for your friendly patience while awaiting your new Chevrolet.

We know it is a hardship to wait for needed transportation; but we believe you will understand that we, and Chevrolet, are as eager to deliver cars as you are to obtain them. Unfortunately, production so far this year is far under expectations. Chevrolet Motor Division sums up the situation thus:

"Even though our rate of production normally exceeds that of any other manufacturer, we have been able to build, up to July 1, only 12.4 per cent as many cars as we had built up to that date in 1941. Production is still far below normal, because of frequent shortages of essential materials and parts. Strike after strike at the plants of our suppliers has seriously impeded our progress toward full production, and the cumulative effect severely hampers every manufacturing and assembly plant. In June we were able to build only 29.2 per cent as many cars as we produced in the same month in 1941."

While production is restricted, so—in proportion—are shipments of cars to us. As production increases, we are assured of getting our proportionate share of the total—and as quickly as cars are received, we will speed deliveries to our customers.

HAS YOUR ADDRESS CHANGED RECENTLY

Ledger subscribers are requested to notify the publisher of any change in their address promptly.
 Under the new postal laws newspapers and periodicals must pay postage due for notices of any change in address furnished by the postoffice. Besides, there always is the probability that your paper will be delayed or fail to reach you altogether if you do not give immediate notification when you move.
 The best plan for all concerned is to send the change of address in advance.

Another school year is approaching with a large number of vacancies on the faculty. These positions must be filled between now and September 9 from teachers who are not now employed or from those who at this late date hold contracts with other school districts and are looking for a desirable change. The practice of teachers signing contracts and waiting a month before the term begins to resign makes it very difficult for a superintendent and board to secure capable instructors. At least six vacancies exist in the Ballinger schools now and there probably will be more before the term begins. There are few if any good applications on file with the local board. School officials hesitate to take good teachers from other schools at this late date so it means that most of the vacancies must be filled with teachers who have been unable to secure jobs because of lack of experience or some other handicap. Ordinary classroom instructors

can be found but those for technical positions are scarce.

This year will test the second primary system in Texas. In most counties there is little political interest and there probably will be few voters. Some of the run-off candidates probably will not get as many votes as they did in the first primary. In Runnels county only three state races are to be decided and the governor's race is the only one of general interest here. Every qualified voter should cast a ballot on August 24 so that the second primary will really express the majority opinion of the entire state for Democratic nominees to go on the general election ticket.

September 10 is an important date for citizens of Ballinger. On this date they will vote on three separate bond issues which for several years have been leading proposals. Now comes the time to put up the money for the construction. First is the providing of an adequate water supply for which \$325,000 is asked in revenue bonds. Second is the building of a sewerage system to serve all homes in Ballinger, for which \$225,000 in revenue bonds will be required. Bonds for these two projects would be retired from the charges made for service and would not affect taxes or property valuations. Water rates probably would be raised to provide operation costs and money for a sinking fund to retire the bonds. Sewer rates would be the same as those charged by the company now serving about one-third of the city and would be sufficient for operation and retirement of the bonds. The third issue would provide \$50,000 in funds for the city to continue the paving program. This would call for taxable bonds and probably would increase the city rate to retire them. Paving, if the bonds are approved, would be continued on the same basis and heretofore, the city and the property owners paying one-third of the cost each per front foot and the city paying for all the costs of intersection paving.

MISS MCGREGOR TO TAKE PART IN BATHING BEAUTY REVUE

 In connection with the revue, Stars of Showtime will be presented from the stage in which stars of stage, screen and radio will make appearances.
 Harley Sadler, veteran West Texas showman, will be the guest master of ceremonies and present the two-hour program.
 All cities in West Texas were asked to send representatives and the local B. C. D. selected Miss McGregor to be "Miss Ballinger" in the revue. She will be there for the performance and for the social events to follow. A number of Ballingerites will witness the show.

Directors of the Brownwood chamber of commerce and junior chamber of commerce last week voted to seek a number of Camp Bowie buildings for use in the annual livestock show held in that city. If secured, the buildings would be remodeled to make suitable livestock barns, show arena and sales pens. Citizens and civic groups at Brownwood are seeking ideas on some plan whereby Camp Bowie could be used by the city or county after August 31 when it goes on the surplus list.

One of the biggest small grain crops in its history has been shipped from Santa Anna this year and grain dealers are now engaged in the heaviest maize movement ever experienced there. About 70 cars of maize has already been shipped and dealers stated this week that more than 100 carloads would be shipped before the movement ends. Maize is producing from 1,400 to 3,000 pounds per acre with an average yield of about 1,900 pounds per acre for the trade territory.

The veterans' administration established a contact office at Eastland on August 1 and a large number of workers will be served from there. A staff of workers, well schooled in veterans' affairs, has been sent to Eastland and already many calls have been received from ex-service men and members of their families.

Jim Phillips, president of the board of the May Cooperative Hospital, has announced a ground breaking ceremony next Monday. All people of the area have been invited to attend the special program and to bring well filled baskets so that dinner can be served on the ground at the noon hour.

Announcement was made last week by Howell E. Cobb and W. C.

Jones, Brady businessmen, that ten new houses would be constructed in the South Park addition at Coleman in the near future. The Brady men recently purchased 35 building lots from Ray Gilliam and contemplate further building as soon as materials are available. The first ten homes to be constructed will cost from \$7,000 to \$10,000 each.

Three planes took off from the Winters airport last Saturday with six local men aboard to fly to Lovington, New Mexico, for a ranch party sponsored by the Aeronica Airplane Company. A thousand Texas guests were invited and in addition to the ranch style barbecue, the party featured competitive flying among Texas pilots. Those attending from Winters were: Bill Lang, Wilton Reynolds, Riley Jackson, James H. Conlee, Gordon Barnes and Jack Seay.

C. R. Smith, water commissioner at Bronte, tendered his resignation last week asking the city council that he be relieved of his duties at once. In resigning, Mr. Smith expressed the belief that more water was available in Bronte than ever before. He stated that increasing duties in private business made it necessary for him to resign.

The A. & M. College extension service has announced the appointment of Miss Ann Joiner, of Lott, as Concho county home demonstration agent. For the past two years, Miss Joiner has been employed by a Beaumont hotel as a dietitian. She will meet with each home demonstration club in Concho county during August to plan the work for the fall.

Brady school trustees stated last week that only two teachers were needed to complete the faculty for the opening of the fall term on September 9. Henry Hill has been elected junior high school coach and another board meeting is to be held soon to fill other places.

Greghardists and farmers in nine counties surrounding Stephenville exhibited samples of their prize fruit in the annual fruit show in that city last week. The affair was well attended and the exhibits were the largest in several years. Most interesting of the program events was the selection and crowning of a peach queen the closing day of the show.

The new migrant labor camp at Sweetwater is about completed and will be ready before the rush of fall laborers in that area. The new camp is arranged to operate as a clearing center where work-

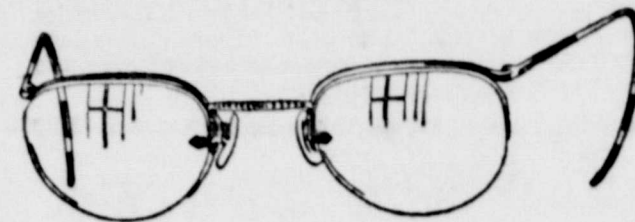

ers can register and be assigned to jobs and will also provide housing when laborers are in Sweetwater for week-ends or during bad weather.

The annual Comanche rodeo will be held this week-end and interest is high. Directors of the program have added 1,000 extra seats, to take care of the expected crowd and the city was being decorated today in western style. Purse have attracted some of the best rodeo performers in the business and a fine program is anticipated. Officials stated that 4,000 people could be entertained at each performance.

Farmers Encouraged To Destroy Ragweed By New Spray Method

Demonstrations carried out by the county farm agent's office show that the use of 2, 4-D on ragweeds kills them, roots, top and all. The action is that the mixture is absorbed by the plant, causing it to die by depleting or burning up the food reserve. It is a slow kill, according to Mr. Barton, and at times will take from four to six weeks to completely kill the plant.

Mr. Barton states that the material will be a great help to those whose fields are infested by ragweed. He adds that a dry year, such as is being experienced, is a good year for producers to check and find out the damage that is being done by this most serious pest.

He and co-workers hope that by next year, spraying rings will be organized to kill this destructive weed. The material is getting cheaper and where 2, 4-D is purchased in quantities it will decrease further the cost of spraying and killing the weed. There are other weeds that this 2, 4-D will kill, but the ragweed is the one doing the greatest damage in this section.

Farmers are asked to make an estimate of the number of acres infested on their farms so that under a cooperative effort is made in 1947 it can be determined how many acres will need to be sprayed in the county.

It was also pointed out that the destruction of this destructive weed would be a relief for those who suffer with hay fever.

Mr. and Mrs. Walter Atwell and son, of Lufkin, are here for a visit with Mr. and Mrs. W. F. Atwell and other relatives and friends.

Local Scout Court of Honor Shows Many Advancements

F. F. A. Boys Have Fun, Plan Program At Two-Day Camp

Senior members of the Ballinger chapter of Future Farmers of America returned home Saturday noon after a two-day camp on the Concho River. The group left here Thursday afternoon and spent Thursday and Friday nights on the river in a fun and planning program.

H. B. Edmondson, vocational agriculture teacher, stated that the chapter had good attendance and all the boys had a great time. They caught lots of fish and had two meals of fish while away. The highlight of the encampment was Friday noon when a barbecue dinner was served.

Games and contests provided recreation along with swimming and boating. The group held sessions at which planning was done for the school year with special emphasis on the livestock feeding program for spring shows.

Mr. Edmondson said he could not determine the exact number of livestock to be fed out during the fall and winter until after he had met with the junior boys. He expects a full program however, with perhaps an increase over last year's work.

At present there are about fifty boys in the chapter and a few more probably will join when school opens September 9. Officers of the chapter are:

Charles Dankworth, president; Don Murphy, vice-president; Charles Mapes, secretary; Johnny Hays, treasurer; Alton Patterson, farm watch dog

Judge O. I. Parick presided over two troops tied on the number of the court and local leaders made the special awards.

Two eagle scouts, Charles Miller and Carl Black, of troop 30, were given gold palms for work completed this summer. Bronze palms went to Edward Kevill, of troop 30, and Rev. Edward B. Postert, scoutmaster of troop 42. K. V. Northington presented the awards.

A special feature of the ceremony was the advancement of five scouts to the rank of eagle. Estes M. Lynn made these awards to Walter Hill, Billy Hart, Lanham Flynt and Oscar Batts, of troop 30, and John Reese, of troop 42.

Life awards were presented by Carl Black to M. J. Cole, C. W. Jennings, Dwan Baxter and John Soff, of troop 30.

Wellington Pearce made the star scout awards to Jim Erwin, Delmon Calvert, of troop 30, and to S. C. Chrisco and Kenneth Lanfers, of troop 42.

First-class scouts were recognized by C. R. Stone, Jr., awards going to Jim Read and Jackie Rudder, troop 30, and Blaine Edmond, Derrell Morris, Lange Hoffman and Elroy Payne, troop 42.

S. C. Chrisco made the second class awards to Graham Payne, Zane Branham, Eldon Bogges, troop 30, and Harold Merrifield, troop 42.

There were 113 merit badges presented to members of troop 30 and 74 to members of troop 42, showing much activity during the summer. Two members of troop 29 were present for merit badges. Allen Davis presented all badges of this classification.

Rev. H. B. Loyd left Wednesday for Corsicana, where he will conduct a ten-day revival. Supply preachers will occupy the local pulpit for the next two Sundays.

If you're inclined to fret because the good news hasn't come that your Buick's ready, just remember this:

The best is never easiest to get. And top-notch goods always pull the biggest buy-lines.

So it isn't just parts and material shortages that keep our waiting list long, though they have plenty to do with it.

It is also the plain fact that Buick stands today as the most wanted car in America.

It's wanted for style that puts you right out in front of the motorcar fashion parade.

It's wanted for the abundant power of big Fireball straight-eight engines, built to precision standards not even Buick ever achieved before.

It's wanted for the matchless comfort of BuicOil springing, three-person seats,

Foamtex-covered cushions — and for the good, husky, time-defying bulk that means a car that's good for years.

It's wanted because it's a car that is solid Buick character all the way through — a standout performer that's right to the last fine detail and complete in every way when you get it.

Fact is — every new Buick delivered seems to bring in more orders.

Demand is actually growing — not just because new cars are needed, but because this Buick is so far, far ahead of what people expected.

So it's smart to act quickly. We can't deliver cars faster than the factory can make them — but the sooner your name's on our order sheet, the shorter your wait will be.

What Other Car Has So Much That Clicks For Forty-Six!

SMARTNESS — that sets the style pattern with coil-length Airfoil fenders and built-on rear wheel shields.
POWER — from a Buick Fireball valve-in-head straight-eight engine.
OIL SAVINGS — from non-scuffing Accurate cylinder bores.

FLASHING ACTION — of Pitweight pistons.

STEADINESS — from full-length torque-tube drive in a sealed chassis.

GLIDING RIDE — from Panhard coil springs.

COMFORT — of soft Foamtex cushions in roomy body by Buick.

SURE FOOTING — of Broadwin wheels.

CONTROL — through Firm-Turn steering.

CONVENIENCE — of high-leverage StepOn parking brake.

PROTECTION — of Buick-origined fender-shielding front and rear bumpers.

Tired, "All-In"— Listless Feeling Brought To Halt

As Vibrant Energy is Released To Every Muscle, Fibre, Cell

Do you get up in the mornings still tired, feel down-and-out all day? Have you checked-up on your blood strength lately? Overwork, undue worry, cold, flu or other illness often wears down the red-blood-cells.

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that BSS Tonic is steadily effective in building up low blood strength in non-organic nutritional anemia. This is due to the BSS Tonic formula which contains special and potent activating ingredients.

Also, BSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is non-organically too little or scanty—thus the stomach will have little cause to get balky with gas, flat and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on BSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh fill out hollow places. Millions of bottles sold. Get a bottle from your drug store. BSS Tonic helps build sturdy health.

Multer-Moeller Wedding Vows Read at St. Joseph's Church

Miss Gladys Moeller, daughter of Mrs. Frances Moeller and the late Ben Moeller of Rowena, became the bride of Roman Multer, son of Mr. and Mrs. Leo Multer of Olfen, in a double ring service Monday morning, August 5, at 8:00 o'clock in St. Joseph's Church at Rowena. Rev. Fr. W. F. Bosen performed the ceremony and was celebrant of the nuptial high mass.

The altars were decorated with Pickardy gladioli and cathedral tapers in branched candelabra. Baskets of gladioli were also in the sanctuary.

Mrs. William Jansa, organist, played the traditional wedding marches and accompanied the church choir when they sang the Mass of the Angels, and also "Ave Maria" at the offertory.

Miss Magdalene Koelch was maid of honor and wore a dress of pink net over taffeta, fashioned with a fitted bodice and full gathered skirt. Misses Alice Moeller, sister of the bride, and Jean Multer, cousin of the bridegroom, were bridesmaids. Their gowns of blue net and yellow marquisette over taffeta were identical, and all attendants carried arm bouquets of pink asters.

Norbert Moeller was best man and Curtis Multer, brother of the bridegroom, was usher.

The bride, given in marriage by her brother, Norbert Moeller, wore a gown of white marquisette designed with high, round neckline. The fitted bodice, with long sleeves and glove fitting wrists, was joined to a full gathered skirt which was adorned with lace inserts terminated in a deep pleated ruffle which formed a graceful train. Her fingertip veil of illusion, edged with lace, was caught to clusters of gardenias. For something old, she wore a gold brooch belonging to her mother, and her only ornament was a strand of pearls, a gift from the bridegroom. The bridal bouquet was fashioned of white California asters showered with fern and white satin streamers. After the mass, Misses Elaine and Bernice Lange presented a statue of the Blessed Virgin Mary to the bride, as a gift of the Children of Mary Sodality. Rev. Bosen presented the bridegroom with a crucifix, which was given by the Children of Mary Sodality of Olfen.

Following the ceremony a reception was held in the home of the bride's mother, including a number of relatives and friends.

Chester Cherry is Featured in Story In 'Electric News'

The Electric Times, published at Abilene, presents a feature article in a recent issue with pictures of Chester Cherry, telling of his early life and his connection with the electric business in this region since 1909.

Mr. Cherry came to Texas in 1900 and for a time was located in Hunt county and at Temple where he operated a thresher, was guard at a smallpox detention camp, and served as a railroad employee. He came to Ballinger on April 1, 1909, after receiving a telegram from Oscar Pearson asking him to come here to take over the distribution system of the Ballinger Power & Light Company.

Many interesting incidents are related of the early days in this

U. S. CAVALRY PARADES IN TOKYO . . . The U. S. 1st cavalry division is shown parading down one of the main streets of Tokyo during celebration held in the Japanese capital. Lt. Gen. Robert Eichelberger, commanding officer of the 8th army, and Maj. Gen. William Chase, commanding officer of the crack cavalry unit, reviewed the display of U. S. might from a stand in front of the Imperial hotel in Tokyo. Many G.I.s watched from the sidewalks.

section, but under his planning there were few interruptions for the customers. Employed with the power division of the cottonmill plant had a run of two years and 17 days without any trouble. On the 746th day the little steam engine blew up, taking part of the engine room with it, and brought on the first interruption of any consequence.

In 1916 he was employed by the

Interstate Electric Corporation which supplied Ballinger with current with a line from San Angelo to Winters. In 1919 when the West Texas Utilities Co. purchased the municipal light plant here Mr. Cherry was employed by the company and has served as district G distribution superintendent ever since.

Due to recent illness he was on vacation recently, the third he has taken with the company. He is feeling fine from the rest and expects to be back on the job soon.

Mr. Cherry's activities with the electric business in Ballinger coincides with his diligent and loyal service for the Ballinger fire department. He joined the department when he arrived here and is still a member, serving as chief since 1932, and he also served as chief in 1917 and 1918 while Chief L. Cohen was in the military service. His work in fire prevention has been carried to every school child in district G over a long period of years.

TREES AND SHRUBS SHOULD BE WATERED WELL BUT NOT OFTEN, SPECIALISTS ADVISE

COLLEGE STATION, Aug. 14—Many trees and shrubs which

were set out in West and Central Texas last fall have been lost due to lack of moisture. J. F. Rosborough and C. R. Heaton, horticulturists for the Texas A. & M. College extension service, say that these losses are due largely to improper watering methods.

The tight soils of West and Central Texas must be watered very slowly in order to get deep moisture penetration, the horticulturists say. Every 10 to 14 days is often enough to water if it is done properly.

A soil covering placed around the trees will hold the moisture in the soil. Hay, weeds, or any cured material that will make a mulch may be used for a ground covering. Experiments have shown that a mulch will cool the soil as much as 20 degrees.

ORCHARD CULTIVATION ADVISED DURING SUMMER

COLLEGE STATION, Aug. 14—Texas fruit growers must cultivate their orchards continuously during the summer months in order to produce a good fruit crop, warns J. F. Rosborough horticulturist with the Texas A. & M. College extension service.

Fruit buds must have foliage to maintain proper health

RESEARCH ON EXTRACTION OF CEDAR OIL UNDERWAY AT UNIVERSITY OF TEXAS

AUSTIN, August 7.—Research in the extraction of oil from cedarwood needles and cedarwood is now underway in the chemical engineering department of the

University of Texas. Aided by a \$750 scholarship from Trubek Laboratories of East Rutherford, N. J., the study will be started on a wide scale, with the cedarwood area of Central Texas as the basis for study. An area estimated at 3,000,000 acres is covered by the cedar of two types: eastern red cedar, and Mexican juniper.

Cedarwood oil is valuable as an odorant, Dr. K. A. Kobe, chairman of the chemical engineering department, said.

The answer to housewives' desert problems lies in the estimated 2,613,000 bushel Texas peach crop. Good for breakfast, dinner and supper or between meals.
