years, and stocks of cotton on hand at the beginning of the 1947 season are very low, especially in the United States. World wool production for 1947 is expected to be the smallest since 1935; wool stocks. however ,are still unusually large Dividend No. 111 although 10 per cent smaller than Deposits _____

Nearly one and one-half billion acres of land in the United States are used for crop and livestock production. With 260 million acres in timber, land in crops, pasture, and other timber accounts for about 90 per cent of the nation's land area.

Census figures show more southern farmers owning farms, with the number of tenants the smallest in half a century. From 1940 to 1945, the number of owneroperated farms increased 10 per

cent in 16 southern states. Grain sorghums equalled corn in feeding value in three years of tests at the Fort Hays, Kansas, experiment station. Fattening steers fed grain sorghums showed no significant difference in amount of gain, selling price, dressing percentage and carcass grades from those fed straight corn in the grain ration. Sorghum-fed steers showed a slight advantage in cost of feed per 100 pounds of gain. All steers received 1% pounds of cottonseed meal daily to supply needed protein.

Total meat production of 23 billion pounds in 1947 is expected to be about the same as last year, and the fourth largest on record. Concentrated feeds are especially important for pigs because the mature pig has a stomach with a capacity of only about 8 quarts, compared with a total capacity of over 250 quarts in the four-fold stomach of the mature cow, Fred Hale, Texas experiment station,

Recent research has not unlocked all the secrets of cotton quality says the U.S. department of agriulture, "but much has been done to improve the quality of the world's most dominant fiber, to utilize more effectively varying fiber properties, and to improve the competitive position of American cotton."

Americans today eat less grain products and potatoes, more fruits, vegetables and dairy products and about the same amount of fats and meats, figures for 1945 compared with 1910 show.

Cottonseed ranks among the first ten crops of the United States as a source of agricultural income and usually ranks third, exceeded only by lint cotton and tobacco, in the South. During the period 1940 to 1944, the farm value of cottonseed averaged 222 million dollars

A dinner was served by Mr. and Mrs. Frank Block on June 29 to honor Rev. Eugene Knoff, of Sufiaco, Ark., and Rev. Leonard Knoff, of Fort Worth.

Present were: Rev. G. A. Boeckman, Rev. LeRoy Matthiesen, Mr. and Mrs. Bruno Block, Mr. and Mrs. Paul Block, Mr. and Mrs. Walter Hoelscher, Mr. and Mrs. J. F. Havlak, Mr. and Mrs. Joe Matthiesen, Joe Knoff, Mrs. Lucy Rollwitz, Mrs. Henry Shertz, Mr. and Mrs. Andrew Block, Alex, Robert, Eleanor, Peggy and Helen Ann Block, Grace, Jerry, Clarence, Marilyn, Joyce, Francis, Patricia, LeRoy, Benedict and Leon Hoelscher, Jimmy Block, Arnold and Norbert Matthiesen.

The honor guests are on a five weeks' vacation and are visiting relatives and friends here.

Miss Dorothy Lue Harral Becomes Bride of Joe Royce Camp

Miss Dorothy Lue Harral, daughter of Mr. and Mrs. J. E. Harral, was married Friday afternoon at 2:30 o'clock to Joe Royce Camp, son of Mr. and Mrs. C. C. Camp in a double ring ceremony read by the Rev. J. R. Lawson, pastor of the Grace Babtist Church, at the Lawson home on Twelfth Street. The bride wore a suit of white inen with white accessories and a pink carnation corsage.

Miss Mildred Hash attended the bride as maid of honor, and wore a dress of blue crepe. She wore a corsage of white carnations. Winston Burks was best man.

Mrs. Camp was a member of the Bearcat Band while attending Ballinger High School. Mr. Camp is a graduate of Ballinger High School and served two years in

the Navy. After a short wedding trip the couple will be at home at Amharst, Texas, where the bridegroom is

employed in the AAA office. Virginia Douglass Class Entertained in Agnew Home

Mrs. H. G. Agnew, Mrs. H. M. Benefield, and Mrs. M. E. Mc-Clenney were hostesses to the First Methodist Virginia Douglass Class members and guests Tuesday evening, entertaining in the

Agnew home on Sixth Street. Summer blossoms decorated party rooms where Mrs. Marvin Davies presided for the business routine. Mrs. McClenney gave the devotional, and the patriotic theme of the program was concluded with the group singing

"God Bless America." At the social hour, Mrs. Benefield directed games, and the hostesses served cake and coca colas. Others present were: Mmes. W. O. Irby, Bill Bell E. L. Rampy, Sam Connor, A. A. Howeth, J. G. Douglass, J. W. Guynes, Leonard Scales, J. W. Jones; Misses Wyanie Byler, Ann Midgley and Bonnie Clark. Guests were Mrs. Docia Copeland and Mrs. Rainey Elliot of Tulsa, Oklahoma, and Mrs. W. K. Wheat-

Mrs. Davies Honors House Guest

Mrs. George Atkinson, of Albuquerque. New Mexico, who has been the house guest of Mrs. Marvin Davies for the past week, was complimented with a contract party Tuesday afternoon when Mrs. Davies entertained a few close friends in her Sixth Street

Arrangements of garden blossoms gave added beauty to party rooms where Mrs. Earl Barr was awarded high score prize, and bingoes went to Mrs. John Bradley and Mrs. Leonard Scales.

A salad plate was served with coca colas. Others present were: Mmes. George Newby, Edward Sommer, W. O. Irby and W. K.

Beta Rho Meets in Rayburn Home

The regular meeting of the Beta Rho Club was held in the garden of the home of Mr. and Mrs. John Rayburn on Tenth Street, Tuesday

LaRita Price conducted the business routine during which the monthly project was postponed until a later date. Sue Hampton reported on her trip to the Metho-

dist Assembly at Georgetown. Mrs. Rayburn assisted the hostess in serving ice cream and cookies. Others present were: Mary Wright, Betty Lou Stuart, and Dorothy Daugherty.

Cub Pack to Meet at City Park July 17

Mr. Paul Petty, Cub master, announces that there will be a meeting of Cub Pack No. 30 at the City Park Thursday, July 17.

Members and their parents are asked to bring picnic baskets, and a supper will be served following the meeting at which time several of the boys will be advanced in

AUTOMATIC FLOOR FURNACE

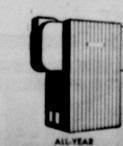

CLOSET-TYPE CENTRAL FURNACE

Gas floor turnaces with automatic controls are miracle workers when it is cold and wet outdoors. When the weather demands - just the right amount of warmed air automatically flows from the space-saving floor grille to every nook and corner of the room.

This gentle, even warmth means no frigid floors, no chilly corners, no cold feet in a floor furnace warmed house. Properly installed throughout the house, each room is given its individual, controlled warmth.

Gas is burned in a sealed chamber that is vented to a flue. Venting eliminates wall sweating and stuffy air and assures you of the safety and savings enjoyed only with vented heating appliances. Floor furnace installations during summer are prompt and more convenient. Select Flue-Vented Floor Furnaces with automatic controls.

> See Your Gas Appliance Dealer or Lone Star Gas Company

Nothing adds more to the comfort, health and modernity of your home than good heating. Whether you are building or modernizing, plan for flue-vented gas heat. Flexibility and compactness of the illustrated appliances make one of them ideally suited to your home heating needs.

Moore Produce Co.

WHO WILL RUN THE NATION'S LARGEST BUSINESSES IN 1974?

JOUNG MEN back from war wonder about the I country's future and their own future. What will they be doing 27 years from now?

The 143 top men who manage 50 of the nation's largest businesses can help answer that one.

Twenty-seven years ago, most of them came back from a war, too.

All of them, after the war or before, began their business careers at the bottom.

One started work for \$1.50 a week-11 others for less than \$5 a week. 43 others started work for less than \$10 a week.

Eighty-one others received between \$10 and \$25 a week. Only 7 received more than \$25-the highest getting paid \$69.23 a week.

The average first wage of all 143 was \$13.40 a week. Who will manage the nation's largest businesses in 1974? Exactly the same kind of men.

Then, as now, they will be leaders with courage, ambition and initiative enough to come up the business

ladder, rung by rung.

Neither the men and women in industry nor the money in industry can be effective without good management. Nothing else is so important to the workers' welfare, the investors' welfare, or the public welfare.

T. Youngblood, blue, red. Ink pad ink, etc. Ballin- which show productiveness and 13-tf fruitfulness. He takes special care of the plants until time to harvest! the seed.

Time of harvesting seed differs with the plant, the horticulturists explain. On English peas and beans, the harvest sign is a browned pod; field peas and corn are left in the field until ready harvest and store; cucumber, quash, cushaw, watermelon and cantaloupe seed can be taken when the plants are fully mature on peppers and tomatoes, the seed is ready when the fruit is dead ripe and brilliant red. Mustard, lettuce, radishes, collards and the like can be cut as soon as the seed pods are well matured, and hung in a coolo dry spot.

TIME OF HARVESTING, CURING AND STORING HAY IMPORTANT IN PRODUCING GOOD QUALITY

COLLEGE STATION, July 9. Better methods of harvesting, curing and storing could mean a big rise in the quality of hay that is produced on Texas farms at this season every year.

The time of harvesting a hay crop, says E. A. Miller, extension agronomist of Texas A. & M. College, has more to do with turning out good hay than many producers realize. When the crop is

A. O. STROTHER LAWYER

Pearce Drug Co. Building Ballinger, Texas Office Phone 685

allowed to get too ripe, it becomes hay shocked before the leaves coarse and loses a great deal of begin to shatter. its feed value, especially protein. Sudan grass and Johnson grass

begins to bloom. Curing has a lot to do with the way hay turns out too. Grass hay may be left in the swath until fairly well cured, Miller explains, but legume hay, like alfalfa, clovers, and cowpeas, will suffer a big loss of leaves through shattering if it is not raked into windrows soon after cutting. The leaves contain most of the feed value, the agronomist says, so it's the wise farmer who gets his legume

TO KEEP YOUR ENGINE HEALTHY Hange FILTER ELEMENTS

The oil filter on your McCormick Deering tractor protects the engine against wear caused by dirty oil. But unless the filter element

is periodically replaced its purpose is defeated and no protection results. For your engine's sake . . . and the sake of your tractor investment . . . be sure to renew the filter element each time you change oil. Remember, the newstyle "umbrella" element keeps oil clean and your engine protected for 120 hours of hard use (100 hours for Diesel engines).

Take home a supply of these protective elements the next time you are in town.

HOW THE "UMBRELLA" FILTER ELEMENT WORKS

The element is made of two large sheets of special creped, impreg-nated cellulose - accordion-folded form a double-walled cylinder Oil from the crankcase is pumped under pressure into the filter housing where it completely envelopes the element. The oil is forced through tiny pores in the element and all sludge and dirt is retained on the outer surfaces. The clean oil passes down between the two sheets and

THE COMFORT OF SELF-DELUSION

★ The best advice is often more than we can bear. It takes courage to face the impact of truth, and firm resolution to form new habits to fit the facts.

Your doctor is sometimes confronted with the stern necessity of advising restrictions in your usual routine. Your favorite dessert or that comforting cigar may be denied you. There is a strong temptation to treat such advice lightly, to feel you know your needs better than your doctor.

Such self-delusion may be comforting, but it defeats the very ends you seek. Carefully follow your doctor's

Looks that stay looked at

-and Ability to match

GIVE yourself five seconds, and you know that here's car styling as up to the minute as the time of day.

Spend a few fast minutes to see why - and you spot both smartness right from tomorrow's designing boards and everything that should go with it. Measure the reach and spread of that Buick bonnet, brim-filled with Fireball power.

Sweep your glance over the broad beam that spells room, the stretch that means easy-riding wheelbase, the size that tells of enough roadweight to end jounce and jitter.

Here, you tell yourself, is something to see. Here are looks to hold the eye for seasons to come - and lively, durable ability to match:

. . . Rich abundance of smooth, hushed Fireball horsepower from a

... Riding poise from two steadying tons of roadweight - ease of handling from balance to draw a ballet dancer's envy. Soft, roomy cushions seating three apiece - finish that's the very

vard smoothness.

last word in richness and taste. Yes, it takes no time at all to show that you and Buick belong together, should go together steady - so what's holding you back?

straight-eight kept young and lively

.. Tireless coil springing on all four

wheels, leveling all roads to boule-

by Accurite cylinder finish.

After all, we can't do much about getting one to you till you make your wishes plain. You do that simply by placing your order - which will get equal consideration whether or not you have a car to trade.
