Polio Cases Cause Check On City Sanitary Work

A polio scare broke out here this week after one death last Friday, two patients hospitalized this week, and at least two others being observed as suspicious.

Wednesday morning a group of local women met with the city commission to discuss sanitary measures. Only Commissioner Malcolm Morgan attended the meeting as Mayor J. W. Moore was in a hospital.

City authorities stated that workers would start spraying the city Wednesday afternoon and would cover all the community this week-end. Other clean-up measures will be launched at once to help in every way possible to prevent an epidemic.

Nancy Evans, daughter of Mr. and Mrs. Lucius Evans, was taken to a San Angelo hospital the first of this week. Stephen Holloway, 6-year-old son of Mr. and Mrs. J. H. Taylor, was taken to San Angelo Tuesday for an examination and was held for observation. At least two other cases were described as suspicious and

a careful check is being made.

The women meeting with the commission Wednesday questioned city officials in regard to spraying the town which was started early this year when a charge of 25 cents was added to each water bill, the money to be used for this purpose. They also asked questions in regard to the enforcement of other provisions of the sanitary ordinance passed last year.

City Secretary Fred Underwood stated following the meeting that the city had collected a total of \$1,650.50 for spraying and that to date a total of \$1,735.95 had been spent. The 25-cent charge was put in effect in April when \$377 was paid by water consumers. The take decreased each month, collections being \$335.75 in May, \$345.75 in June, \$327 in July, \$265 in August, and nothing in September.

Expenses for spraying listed by months were as follows: April, \$677.81; May, \$39; June, \$365.07; July, \$35; August, \$461.90; September, \$159.17.

Capt. Miller Flies Supplies to Cut-Off Ground Force Unit

Capt. Q. V. Miller, Jr., of Ballinger, pilot of a C-47 in the Korean sector, has flown a mission which has received much publicity. The three transport planes took water, ammunition and other supplies to a unit of the first cavalry division which had been cut off behind enemy lines.

While little enemy action was expected, Mustang fighters escorted the transports to the target where supplies were dropped by parachute. After the first trip over the target area, rifle and machine gun bullets from North Korean guns made the low advance, 300 feet, dangerous flying, and each of the ships were well scattered by bullets.

It took three of these low trips over the target before all supplies had been received by the ground unit.

Capt. Miller is a son of Mr. and Mrs. Q. V. Miller, of Ballinger. He received his wings in 1942 and has been in the air force since 1940. In August, 1943, he was wounded while on a bombing mission over Germany during World War II. He is holder of the purple heart, the flying cross, the air medal and oak leaf clusters.

While serving in Japan and Korea, Capt. Miller's wife and daughter are living at Denver, Colorado.

Multiple Insurance On '50 Crops to End Saturday, October 30

Runnels county farmers have until 5:00 p. m. Saturday, September 30, to sign applications for multiple crop insurance. To sign an application now, no money is involved and premiums may be paid October 31, 1951.

Multiple insurance is offered for the first time in Runnels county. It covers four crops—cotton, oats, wheat and grain sorghums. These four crops may be insured against losses by drought, flood, hail, wind, frost, freeze, fire, winterkill, lightning, excessive rain, snow, wild life, hurricane, insect infestation, plant disease and other unavoidable causes.

Farmers who have wheat or cotton insurance under the old program should convert those policies to multiple insurance because it is cheaper and gives more coverage. A landlord, owner, operator, share-cropper or tenant may insure his share in the crop. In most cases where there are four insured crops the premiums are about 5 per cent of the coverage.

Interested farmers may sign applications at the Wingate bank, Rowena bank, Miles bank, Runnels county PMA office in Ballinger, or may see Earl Black, John Onken, Alfred McAulay, Ernest Black, Doc Kemp, or any other PMA employee.

Those who take out applications have until midnight Saturday, September 30, to sign them and put them in the post office. The PMA office here will remain open until 5:00 p. m. Saturday.

Soil Conservation Meeting at Rowena To Elect Supervisor

All land owners who live in Runnels county soil conservation district No. 232 and sub-district No. 2 are invited to attend a meeting at Rowena on October 7 for the purpose of electing a supervisor for this sub-district. The meeting will be held on the second floor of the Rowena bank building at 2 p. m. on the above date.

Those eligible to vote are all land owners in sub-district No. 2, which comprises the area from highway No. 83 from Ballinger to the Colorado River enters Runnels county, and along the river to Ballinger, where highway 83 crosses the Colorado. Communities embraced are: Olfen, Greenwald, Rowena, Miles, Cross Roads, Kristoff, Sweet Home, Dry Ridge, Spring Hill and Brookshier.

Louis Rohmfeld is now supervisor of the sub-district. For the past 32 years he has practiced soil and water conservation on his farm and believes in this work. This year he had an aerial picture made of his farm after a big rain to show how the water can be retained.

Olen Fenner, district supervisor for the state soil conservation service, will talk at the Rowena meeting on the progress made in this county.

Mr. Rohmfeld is making a special appeal to all land owners of the district to be present for this meeting.

West Ballinger Oil Field Tops Interest in Activities

Davis & King No. 1-I. M. Turner, in the West Ballinger field, continued to highlight oil development in this section during the past week. While an official gauge had not been run Wednesday, storage was ready and only a small amount of water remained before this test. Operators and other observers estimate production from 500 to 1,000 barrels.

Storage tanks were set the past week-end and connections made with the well.

The rig from the No. 1-Turner has been moved east just across the road to the D. R. Russell place and a 4,500-foot hole is projected. Drilling was around 1,300 feet Wednesday.

A slush pit has been dug north of the Russell well on the Turner place for Davis & King's No. 2. A rotary rig will be moved here at once.

E. K. Burt and E. M. Burt have announced a 4,000-foot test on the I. M. Turner place to bring locations to three since the first well came in. Leasing and royalty sales in the area have been fast the past six days.

Jay Kirkman No. 2-A. W. Malone is being prepared for a test of production in the Serratt sand. Oil was found in this well the first of the week, casing set and cemented, and the plug was being drilled out Tuesday night and

Wednesday in preparation for an official gauge. The No. 2-Malone is expected to be about as good as the No. 1.

Two producers were added the past week-end in the Cree-Sykes Gardner sand field.

Saxon Exploration Co. No. 1-Sam Mathis was finished for a 12-hour rating which showed a daily flow of 208 barrels of 44 gravity pipeline oil. This well is southeast of the discovery.

Saxon No. 1-O. C. Sykes, east offset to the discovery, was completed for a natural flow of 120 barrels.

Humble No. 4-Mrs. M. J. Arnold, in the Winters Strawn field, flowed 297 barrels a day after completion at 3,940 feet.

Mid-Continent Petroleum Co. No. 1-Mary E. Sykes has been completed, believed in the Strawn sand, for a daily flow of 57 barrels.

Earl Wells, Sr., of Ballinger, No. 1-Harper, in the Cree-Sykes field, has been finished for the largest producer in that vicinity. Initial flow for 24 hours was 1,056 barrels, from between 3,920 and 3,940 feet.

Fred M. Manning, Inc. No. 10-S. L. McNay was completed last week for a daily production of 202.86 barrels.

A large number of drilling locations were made during the past week.

Collectors to Start Issuing Tax Receipts on October 1

Three tax collecting offices in Ballinger will begin accepting 1950 taxes next Monday, October 2. All three offices were ready this week for the beginning of the collecting period except the city and work was being rushed at the city hall in order to have receipts ready for issuing.

Delay in the city office was brought about recently when it was decided to discard appraised property values and go back to the 1949 rendition values. This forced new tax rolls to be prepared and receipts made out.

The office of Dalton Crockett,

in the court house, will collect state and county taxes and some school taxes this year. This is the only office which offers a discount for early tax payments. State and county tax accounts paid during October will bear a 3 per cent discount.

The school board office is ready and the same values and rate will be followed as for last year. The only difference at this office will be collections for a much larger district, caused by recent consolidations and the annexing of districts to the Ballinger district with a uniform tax rate.

Rat Extermination Campaign is Slated in Downtown Area

Dr. A. T. Taylor, chairman of the health committee of the Ballinger Chamber of Commerce, has made a number of contacts in regard to conducting a rat extermination campaign here immediately.

With cool weather, large rats are moving from the city dump grounds and other places into town where they can find harborage for the winter. For that reason a drive is deemed necessary at this time to properly protect the community health.

Members of the committee discussed the matter with Roy Hull, who holds a state certificate for putting out 1070 poison. Mr. Hull stated that the city has plenty of poison and would furnish the poison and cups. Only a state certificate man is allowed to handle this poison and look after the rodents that are killed. Mr. Hull stated that for a small service charge he would be glad to work in any local store after requirements are met.

It is necessary that owners sign a waiver giving permission to use the poison in the building. Only a certificate man can place the baits and these must be kept under lock. Mr. Hull would be at the building at closing time to put out the poison and again at opening time to remove the baits and check up on the dead rodents.

Those interested in entering this campaign are asked to contact the chamber of commerce and enter their stores. They will be called on later and arrangements made.

Lions Committee On Swimming Pool Planning for Work

The Ballinger Lions Club swimming pool committee met Monday afternoon to make plans for immediate work.

A letter was received from George W. Cox, state health officer, in which regulations for operations were given and towns in this section with state approved pools were listed.

Members of the committee probably will visit some of these pools to study construction, size and other details. Later they will secure approximate costs of building and then make plans for financing the project.

The Lions committee is: Ed Curry, Dr. W. K. Wheatly, Doyle St. John, Jack Moore, Max McCrary, Jr., J. T. Gregory, Malcolm Morgan and Gay Edwards.

This committee will be joined by a swimming pool committee from the chamber of commerce. Membership of the C. of C. group is: Sam Behringer, Cal Adair, Rev. B. J. Martin, Dr. E. W. Stasney, C. A. Bissett, Mrs. Joe Forester, Mrs. W. O. Irby, Mrs. Hill Hampton.

Membership Drive For Farm Bureau Set October 10-14

Farmers from a number of communities in Runnels county met in the home of Ben J. Frerich, of Rowena, last week to plan a membership drive for the Runnels County Farm Bureau. October 9 through 14 has been designated Farm Bureau Week in Texas and during this period every effort will be put forth to increase the membership.

Mr. Frerich, president of the county organization, presented plans for the drive in this county, and W. J. Lippe, of Miles, was named county membership chairman. The campaign will be started October 10 with a kick-off breakfast in each community of the county, workers going from the breakfast into their assigned territories at once to sign up members.

Wayne L. Little, of Waco, state organizer, attended the meeting at Rowena and told those present that industry on a national basis was organized 80 per cent while agriculture is only 30 per cent organized and in Runnels county only 15 per cent.

All farmers attending the meeting will serve as membership committee chairmen in their communities and will secure helpers to make the campaign. Others present at the Rowena meeting were: R. L. Beach, Miles; Edward G. Hoelscher, Charles Kvapil, William Jansa, Rowena; Gilbert Ocker, Ballinger; Raymond McElrath, of Coleman, state director; and Joe C. Johnson, assistant county farm agent.

President Frerich announced that the next meeting of the Bureau would be held at the court house in Ballinger at 8:00 p. m. September 28.

National Research Bureau Gives Ledger AAA Rating

A report on the evaluation of newspapers released last week by the impartial Community Research Bureau, of Ridgeport, New Jersey, gives the Ledger a AAA rating, the highest given by the bureau and one which designates this newspaper as "one of the best weekly publications in America."

The Community Research Bureau is an independent organization working in cooperation with the American Weekly Newspaper Council to provide large national advertisers with a reliable guide as to which weekly newspapers are the best advertising mediums.

Only 107 of Texas' 519 weekly newspapers were given the AAA rating.

The bureau rates newspapers on four factors:

1. Reader Interest. Each newspaper is gone over, page by page, by the bureau and rated on the volume of contents weighed by known and accepted reader interest values which have been reduced to an arithmetic of values for purposes of accurately measuring comparative reader interest of newspapers.
2. Verified Circulation. All circulation figures of the newspaper are checked carefully and verified.
3. Advertising Value. The advertising and the advertising rate are checked to determine the average cost of placing one inch of advertising before 1,000 readers.
4. Market Index. Each newspaper is checked to determine the cost of one inch of advertising to reach \$1,000,000 in annual spending income.

The Ledger shows the lowest cost of advertising per 1,000 readers in the group, 15 cents, while the average for AAA papers is 21 cents. It rates with the best in reader interest.

This is the first year The Ledger has achieved the highest rating and every effort will be put forth to maintain it during the ensuing year.

When the award and ratings were made The Ledger carried some front page advertising which reduced the grade slightly. This has been discontinued and will eliminate one of the criticisms made by the bureau.

Little Interest Shown in Dog Law by Owners of County

A recent check-up revealed only about 100 dogs registered in Runnels county this year, as compared with 1,450 last year. Price Middleton, county treasurer, and in charge of this work, stated that so far the registration fees would not pay for the tags, receipts and registration papers.

The commissioners' court was asked to pass this law more than a year ago and the first year it worked fine. This year few people have paid any attention to the law and as a result very few dogs have been registered.

Strict enforcements of the law would be a big item for the sheriff's department and it was estimated that it would require two additional men full time to seek out the dogs of the county not registered and enforce the provisions.

Many dogs are still wearing the tags issued last year which complicates the matter of checking up on animals without new tags for the current year.

The law was passed at the request of ranchmen and farmers after many reported serious damage to sheep from stray dogs.

The parish of St. Mary's Catholic Church will sponsor its second annual fall festival Saturday, November 11, Armistice Day. The noon meal will highlight the day. The dining room will be opened at 11:30 a. m. and remain open until everyone has been fed. For this meal 700 pounds of country smoked sausage and 25 turkeys have been purchased. The parish has recently placed orders doubling the amount of china, silverware and other items used in serving. The meal will be served family style with ten people seated at each table.

Following the noon meal will be the auction of cotton and merchandise and there will be games on the parish hall grounds.

Baseball Association Sells 25 Acres Land

The Runnels County Baseball Association has sold 25 acres of land on the extreme western side of the Ballinger park, 10 acres going to the local rodeo association, 5 acres to Zid Herring, and 10 acres to Guy Swann. Another deal is pending to sell five to seven acres to the club boys for a livestock barn.

The livestock barn would be located on the eastern side of the park next to the auction barn and would be used for the annual spring shows, feeding projects and other purposes of the 4-H clubs and F. F. A. chapter.

Proceeds from the sale of the land will be used to clear up all outstanding indebtedness against the baseball association.

After these sales are consummated the park site will still contain about 46 acres, which is considered ample for handling large crowds during the baseball season and for special attractions.

Sample Ballot for General Election Shows 4 Columns

County Judge E. C. Grindstaff has received a proclamation from Governor Allan Shivers ordering a general election for November 7, 1950. The proclamation was the sample ballot for state officials with nominees for district, county and precinct offices to be added.

The ballot this year will be four columns wide, Democratic, Republican independent and one column for write-ins. The Democratic column is the only one with a full slate of nominees, however there are state candidates in the Republican column.

There are no constitutional amendments on the ballot this year and a very light vote is expected in this section where there is no competition and very little interest.

Judge Grindstaff will prepare the ballot within the next few days and turn it over to the printers in order to have ballots ready for the absentee voting period which will start twenty-three days before election date.

Supplies have been purchased for all voting boxes of the county.

First Christians Call Eisenhurth As New Minister

The membership of the First Christian Church extended a call to L. A. Eisenhurth, formerly of El Campo, at a meeting Sunday morning. The call was accepted and Mr. and Mrs. Eisenhurth and their fifteen-year-old daughter will move to Ballinger about the middle of October.

Mr. Eisenhurth has been in the ministry for the past 24 years and aside from his educational qualifications he also has a musical arts degree, is an accomplished pianist and singer. He has served a number of important churches in the state and for the past year has been assisting the El Campo church in the construction of a new building.

As soon as the first six weeks of school are completed at El Campo, the family will move here to make home in the parsonage on Broadway and he will assume the duties as minister of the local church.

He has preached here on two occasions and members of the Ballinger church were extremely interested in securing his services. They have been without a pastor since the resignation of Rawlins Cherryhomes several months ago.

Bank Deposits Now Insured to \$10,000

Bank deposits are now insured up to \$10,000 by the Federal Deposit Insurance Corp. The maximum had been \$5,000 since enactment of the law a number of years ago until September 21 of this year.

Banks were notified this week that the new basis was now in force and insurance of deposits is now doubled.

Good bank management is the underlying factor in the increased protection of depositors' funds. To qualify for this insurance banks must meet rigid standards and adherence to these standards is checked regularly through bank examinations.

Banks pay insurance premiums in the form of assessments on deposits. Federal deposit insurance is just another bank service, supplied at bank expense, for the protection of money deposited in them.

Colorado City Team Proves too Heavy For Bearcat Eleven

It was too much weight in the Colorado City Wolves' forward wall, and the Wolves handed the Bearcats their first defeat of the 1950 season Friday night by the count of 26 to 7. The Ballinger lads were outweighed about 30 pounds each in the line and some 15 pounds in the backfield, and weight was the deciding factor from the kickoff to the last whistle.

The Bearcats were accompanied by the high school band, pep

squad, student body and several hundred adult fans. All the boosters fought with the team until the last, against odds that from the start were plainly in favor of the Colorado Citizens.

Harold Merrifield was the only Ballinger back able to make any yardage. The fleet-footed back was able to chalk up some nice broken field runs on wide plays which outskirted the ends. He also was credited with the only Ballinger score, taking a pass in the fourth quarter from Roland Bell and running 40 yards for the touchdown. Jimmie Parrish added the extra point with a kick from placement.

The score does not indicate the closeness of the game however.

Once Merrifield headed into a broken field and carried the pigskin to the opponents' 10-yard stripe only to have the play called back for some infringement of the rules. In the second quarter, time ran out with the Bearcats in possession of the ball on the Wolves' one-yard line.

The Bearcats will be on the road again next week, going to Stamford Friday night to meet another powerhouse of this section. The Stamford Bulldogs have chalked up three straight wins over teams of considerable ability.

First look at the Bearcats by all the local fans will come on October 6 when the locals clash with the Albany Lions at Bearcat Field.

Overseas Mailing For Men in Service Starts October 15

The post office department is expecting a heavy mailing of Christmas parcels to men serving outside the continental United States with the armed forces this year. Mailing dates set are October 15 through November 15, and a strong appeal is made to mail as early as possible, especially to men serving in Japan, Korea and islands of the Pacific where the distances are great.

Boxes are limited to 50 pounds and packing must be done carefully. Boxes for overseas transmission must be of strong construction on account of the long distances and handling they must undergo. It is necessary that boxes of metal, wood, solid fiberboard or strong double-faced fiberboard be used, testing at least 200 pounds.

Boxes must be tied with strong cord, preferably with four pieces, two lengthwise and two crosswise, knotted at crossings. Articles in the box must be packed with plenty of wrapping to prevent any loose space for moving around.

In addition to the usual articles normally prohibited in the mails, matches of any kind and lighter fluid will not be accepted.

Addresses must be legible and prepared in typewriting or ink. It is preferable that the address be hand printed on the outside wrapper of the box instead of on a label pasted to the wrapper since many labels fall off when subjected to moisture.

Ewell Jones Speaks On Ballinger's Needs At Rotary Meeting

Ewell Jones was the speaker at the Ballinger Rotary Club meeting Tuesday and brought a carefully prepared address on needs of Ballinger and this section. The talk was not based upon his own thinking but was collected after interviews with local people who have lived here for many years and have been instrumental in the growth and development of the region from pioneer days down to the present time.

Mr. Jones pointed out that there was a general belief that more should become interested in civic work and be willing to put their shoulder to the wheel, take some time away from business and help promote projects that are for the good of the community now and in the future. He stated that the idea prevailed that too many were anxious to be named on committees and were ready to make plans but do nothing about their accomplishment.

As a newcomer to Ballinger he complimented the friendly spirit of the citizens and declared that he had more people call on him the first 30 days he lived here than he had contacted in many years before.

From his survey he listed the following projects which might be accomplished:

A road north from the Ballinger-Bronte highway into the oil fields in the Wingate and Fort Chadbourne areas.

A farm-to-market road to Leady via Bethel and also to work for other roads in the county to serve thriving farming sections.

Adequate street cleaning facilities.

Encourage the establishment of a large trailer camp in Ballinger to take care of these in one area where sanitary facilities are inspected.

Encourage the modernization of more store fronts.

Encourage Runnels county citizens who retire from the ranch or farm to make this their permanent home.

Encourage local merchants to use county-wide advertising to build up Ballinger's prestige as a shopping center. He pointed out that full stocks and wide range of selections would also be necessary.

Emphasize beautification of Ballinger.

Mr. Jones suggested the forming of a "quarterly conference" of all citizens to meet once each three months for a full and non-partisan discussion of civic affairs with plans for promoting a progressive Ballinger.

Abilenians Boost West Texas Fair, Visit Lions Club

Members of the Abilene Lions Club visited Ballinger Friday, coming here to advertise the West Texas Fair, which opened Monday and will continue through Saturday evening. The group was traveling in a chartered bus and was accompanied by a car with sound equipment for street programs.

The Abilenians presented a program of music and talks on the streets, telling of the fair program and extending an invitation to all to attend.

At the noon hour they were guests of the Ballinger Lions Club and continued their program. Clyde Penrod, a vice-president of the Abilene club, presided at the program with Sheriff Watson acting as master of ceremonies and making announcements. The West Texas Fair this year is dedicated to Sheriff Watson for fifty years of work with the organization.

Zeke Williams and his band gave a short program in which Murray Jones was featured in special numbers.

The 1950 fair will offer premiums totalling \$35,000. Each night 16 circus acts will be presented in front of the grandstand and each afternoon 8 horse races will be featured. Bill Hames will provide the midway attractions.

Mrs. Steve Roe, formerly a youth worker in Wichita Falls and now of Ballinger, was the guest speaker for the local Lions Friday. Mrs. Roe stated that World War II taught everyone the need of recreation for youth and added that cities with programs for youth showed less delinquency than those with no planned activities.

Mrs. Roe pointed out that the youth of today has become motorized and that the need for juvenile programs is more important than ever before. She said many church groups, service clubs and others were asking, "can we afford such a program?" She declared this was not the question at all, but "can we afford to be without it?"

PRESBYTERIANS TO HAVE SPECIAL SERVICES SUNDAY

Rev. Alvin O. Rue, pastor of the First Presbyterian Church, U. S. A., has announced special services for Sunday morning and a change in services for the evening.

"Three Looks" will be the subject of a brief meditation at the Sunday morning worship hour, after which the Holy Supper will be observed. At this service members will also be received into the church.

The hour of evening worship has been changed from 8 to 7 p. m., following the junior high fellowship meeting at 6:30 p. m.

Can YOUR BRAKES pass these safety tests?

- The eye test.** At 30 miles an hour... with good tires on dry pavement... you should stop in about 45 feet. That is approximately three car lengths or the width of an average city lot.
- The hand test.** On a street free of traffic, try stopping with your hands lightly holding the steering wheel. If brakes "pull" wheel to either side... or "grab" and jerk the car... they need adjustment.
- The foot test.** If brake pedal feels spongy under your foot and continues to move down slowly when depressed... or if pedal requires "pumping"... hydraulic system should be checked.

If your brakes flunk any of these safety tests... have us check them right away!

MATINEE EVERY DAY 2:00 P. M.
 Dear Folks:
 We have seen Hollywood throw everything into a picture from Roman Chariots to Rocket Bombs. But when it comes down to cases, the biggest hits are those that tell the best stories about real people. "Stars in My Crown" is that kind of picture. We don't often go on record but we want to recommend this one. It hasn't (1) any beauty queens (2) the United States Cavalry (3) a couple of dozen song hits or (4) a torrid love scene... but it has plenty to make it a good movie and genuine entertainment. It has a quiet mood although there are moments of great suspense and scenes of action. There is also a believable romance. "Stars in My Crown" is not spectacular except in its insight into a man and his character. Its setting is not a Park Avenue penthouse or a Zulu village—it's a U. S. town called Walsburg—very much like the one we live in.
 All in all, I think this is one of the good films of 1950 and I want to call it to your attention. I think you'll enjoy it.

veteran stage and screen luminary. A strong and colorful story centering about a lonely gold mining camp in a western desert, "Barricade" appears thrilling film fare. Massey is the ruthless boss of the camp into which Miss Roman and Clark, both fugitives from justice, stumble for protection from unexplained pasts.

A super-abundance of laughter, good humored gaiety and light-hearted music is promised in Judy Canova's "Sleepytime Gal." Miss Canova is more than just an actress, or just a comedienne. She is symbolic of the American way of life—full of good humor and courage in the face of any adversity. Her type of humor springs from the soil itself and is as typically American as ham and eggs.

McCrea is Cavalryman Turned Preacher In M-G-M Drama, 'Stars in My Crown'

"Stars in My Crown," M-G-M drama to be shown at the Texas Theatre Sunday, Monday, Tuesday, October 1, 2 and 3, stars Joel McCrea with a cast of screen favorites in the action-filled story of a two-fisted parson whose whisper spoke louder than six-guns.

McCrea, inseparably associated with outdoor roles, plays the Civil War cavalryman turned preacher, who brings law and order, love and laughter to a small Southern community. Appearing opposite the star is Ellen Drew, who portrays that unsung heroine, the housewife and the gentle power behind many a man's success. As their little ward, who contributes much of the laughter to the tale, is Dean Stockwell, popular juvenile star who recently scored in "The Secret Garden."

An outstanding supporting cast features Alan Hale, Lewis Stone, Juano Hernandez, who won wide critical praise for his performance in "Intruder in the Dust," Charles Kemper and Connie Gilchrist. The picture's subsidiary romance spotlights James Mitchell, recruited to films after his success on the Broadway stage, and Amanda Blake, another talented newcomer who makes her screen debut in the role of a pretty school teacher.

No original music was composed for the film, which draws entirely on songs and folk tunes, both popular and sacred, existing in the post-Civil War period.

"Barricade," top rank western drama in Technicolor, and Judy Canova's re-released comedy, "Sleepytime Gal" make up the double feature program at the

Talent from World-Wide Places Went Into the Filming of 'The Red Shoes'

A lot of international talent was recruited to make the international hit, "The Red Shoes," spectacular Technicolor dance-and-drama romance to be shown at the Horseshoe Drive-In Sunday, Monday, Tuesday, October 1, 2, 3. In fact, the places connected with those involved in "The Red Shoes" sound like a small geography.

Mira Shearer, beautiful dancing-and-acting star, was born in Scotland, but began ballet studies in South Africa, then went to England to dance.

Anton Walbrook, who plays her ballet-mentor in the picture, commenced his career on the Vienna stage.

Marius Goring was born in Britain, but studied in Germany, France and Austria before he began his dramatic career at the Old Vic Theatre in London.

Leonide Massine was born in Russia, where he rose to fame in the fabulous Diaghilev ballet troupe. He has been choreographer for the Roxy Theatre in New York and a dancer in Hollywood.

Robert Helpmann originated in

Australia, has worked in Britain as dancer, choreographer and stage-screen actor.

Albert Basserman was a luminary of the German screen before Hitler. He has appeared in several Hollywood films.

Ludmila Tcherina, prima ballerina of the Monte Carlo company, was born in France of a Russian father. "The Red Shoes" is her first English-language film.

Esmond Knight, last of the eight stars of "The Red Shoes," is unique for purposes of this itinerary. Born in Britain and active there on stage and screen, he has never been outside except for war duty.

"The Red Shoes" is based on a Hans Christian Andersen story.

JUNIORS WILL PLAY WINTERS GRID TEAM

The Ballinger junior football team will open the season here tonight, meeting the Winters juniors in a game at Bearcat Field at 7:30 p. m.

Ballinger fans are urged to attend and see a good game as well as supporting the juniors.

SPORTS

The Ballinger Bearcats will go to Stamford tomorrow (Friday) night to meet the Bulldogs of that city, one of the stronger class A outfits of this region. The Bulldogs already have chalked up three victories this year and will be gunning for the fourth.

After this week the Bearcats stay home and the lights will be turned on at Bearcat Field the first time this year on October 6 when the Albany Lions supply the opposition. Every effort will be made to pack the stands for the opening tilt. All other home games this season will be conference affairs, with Lake View, Brady, Coleman and Winters coming here in that order.

Big "Wart" Hill did not get to make the trip to California where A. & M. College defeated the University of Nevada Saturday night by the score of 48 to 18. Out with an injury, Hill was not ready for duty.

"Potato" Pascual, former third baseman and relief pitcher of the Big Spring Broncs, made his debut in the majors Sunday as a pitcher for the Washington Senators. He set the Philadelphia Athletics down with five hits and beat the As by the score of 3 to 1.

The fall meeting for the Longhorn Baseball League has been set for Sunday, October 8. Due to a controversy started by A. D. Ensy, of Odessa, a number of Ballinger fans probably will be milling around the hotel lobby when the club owners get together. The advance ticket sale asked by the new owner, Dr. Marshall Dyke, ran into a snag here when service clubs declined to cooperate. Just what his reaction will be to this is not known.

The call for fans to sow Bermuda on the infield at Cat Park met with a poor showing. T. J. Mansell took one man from his store and O. L. Huddleston was the only other to show up. The three went ahead and planted the seed. Mr. Mansell will look after watering this fall in order to make as much progress as possible.

A deal has been made in which Charlie Rogers, Cat pitcher, will go to San Angelo next season and Outfielder Serena will become the property of the Ballinger club. Serena was one of the better fielders and hitters of the league but was not kept by the Colt management because the centerfield slot was filled by Bob Cruces.

ABILENE CHRISTIAN COLLEGE ENROLLS 5 LOCAL STUDENTS

Five Ballinger students have enrolled in Abilene Christian College for the fall semester. They are John Carl Davis, son of Mr. and Mrs. J. L. Davis; Bobbie Marie and John Eoff, children of Dr. and Mrs. J. Dexter Eoff; Carey B. Looney, son of Mrs. Ruth Looney; and Arthur Harold McDonald, son of Mrs. Lucretia McDonald.

Tire Rubber Economy Never Possible Before

into the national achievement record has gone this phenomenal tire rubber economy—never known or possible before!

Not an ounce of wasted rubber yet each tire can give every owner years, instead of miles, of safety and service—his one tire investment for years to come.

With local communities solidly backed by extensive dealer investments in service and maintenance equipment, all of the original safety mileage of these unique tires is continuously renewed and renewable—when other tires are giving up their lives.

They are tires that work and serve at the very heart and core of the national economy in normal times, and in every possible rubber emergency.

They have set up entirely new standards of safety and mileage by which other tires are now being judged and measured, everywhere in the United States.

Whether with black, or with whitewalls, they provide their exclusive Protective Carbguard, their new Royaltex Tread and Traction, and they deliver up to 60% more safe mileage.

They have resulted from many years of continuous research, experience and U. S. Rubber investment. They are the only such tires in the world, priced as low as life and safety permit.

They are the tires that now roll and serve with the nation, with tire rubber economy never known before, remaining fresh and new in safety when other tires are giving up their lives.

Miss Lois Magdalene Moreland Weds Joseph P. Clifton

The Norton home of Mr. and Mrs. Tommy Moreland was the scene of the marriage Sunday afternoon at 2:30 o'clock of their daughter, Lois Magdalene, and Joseph Pershing Clifton, son of Lovington, New Mexico, of Mr. and Mrs. W. K. Clifton, of Sulphur Springs.

The Rev. T. P. Patterson, pastor

of the First Baptist Church, Norton, read the double ring rites as the couple stood before an improvised altar centered with a huge silver bell topped with a white satin bow. Tall white tapers in crystal and silver holders which were entwined with ivy were at each side. Ferns dotted with garlands of white chrysanthemums formed the base.

Recordings of organ music

which included "Oh Promise Me," "I Love You Truly," "Because," and "Claire de Lune," were played as a prenuptial program, and the traditional wedding marches were also given.

The bride, who was given in marriage by her father, chose a Kay-Sach original suit of Persian blue wool gabardine with hand applied jacket and an ice blue blouse fashioned with an open scroll-work neckline. Her navy velvet hat with heart-shaped brim was veiled. Other accessories were navy. For something old, the bride wore ear rings, belonging to her grandmother, Mrs. J. T. Ford, which she had worn at her wedding 53 years ago, and for something borrowed she wore a hand carved gold necklace from the Black Hills of South Dakota, belonging to Mrs. J. E. Gaddy, of Norton. She carried a white Bible adorned with an orchid showered with lilies of the valley and white satin ribbons.

The bride's sister-in-law, Mrs. Odell Moreland, of Austin, was her only attendant. She wore a gray gabardine suit with navy accessories. Her corsage was of salmon pink gladioli.

Preston Thomas, of Lovington, New Mexico, served as best man. A reception was held in the home of the bride's parents where the wedding party assisted in receiving guests.

The large silver bell which centered the lace-laid table which served for the improvised altar was lifted and revealed the pretty white tiered wedding cake, deco-

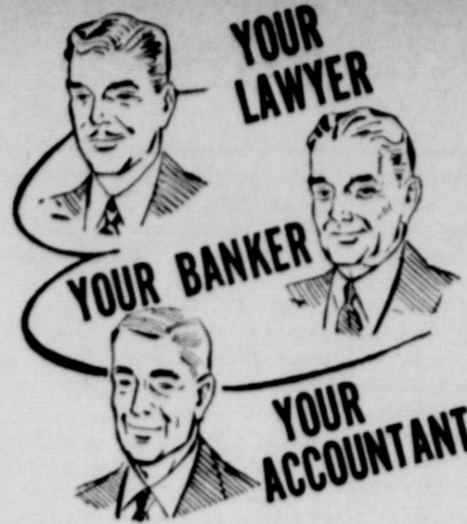

rated with pink rosebuds and topped with a miniature bridal couple. Miss Barbara Davis, of Ballinger, presided at the cake, and Mrs. C. C. Woods, of Fort Worth, ladled frosted lime punch.

Mrs. James Whittaker, of Ballinger, registered guests in the white, leather bound bride's book at the table centered with an arrangement of pink asters.

The couple left for a two weeks wedding trip to California and other West Coast States. They will be at home in Lovington, New

Seeing is believing

which is the cleanest-cooking, easiest-to-keep-clean range

Look. After a month—or a year—of use on a properly adjusted gas range, pan bottoms are so clean they won't soil the daintiest handkerchief. You can see it—you can believe gas is clean.

Only the live gas flames consume greasy vapors produced in broiling. You broil with the broiler door closed so no greasy vapors escape to soil the kitchen. Look. See how, see why it's so clean.

NO matter what kind of range you now cook on, it couldn't possibly be any easier to keep clean than a modern gas range.

Tops are one-piece . . . oven corners are rounded, eliminating dirt-catching, hard-to-clean places. All surfaces, inside and out, are porcelain or chrome

—easy to clean as a china dish. Often-soiled parts such as burners, grids and spill-over trays are plate-size for dishpan sudsing.

Easy? Just the easiest-to-keep-clean range in the world! No wonder 96 out of 100 women in the Southwest area cook with gas!

WEST TEXAS NOTES

Cotton production in Runnels county will be far below that of last year, but the price will offset the lower turn-out to some extent and farmers will realize good returns. While it is too early for many to forecast the final number of bales, some local cotton men are estimating 20,000 to 25,000 bales and the past week-end some cotton sold for as much as 41 cents a pound. This, plus a good price for seed, is giving the grower some profit for his work. Merchants have been helped by the large number of pickers and during week-ends may be rushed for several weeks while the 1950 crop is being gathered. Wet weather kept pickers out of the fields most of last week and will prolong the season.

One of the busiest places in Ballinger is the school cafeteria during the noon hour. More than 600 students are taking their noon meals at this lunch room and school officials state that the load usually mounts when cold weather comes. If that holds true the

The board of supervisors of the Menard soil conservation district has arranged a field day October 3 on the John Royal and Earl Rudder ranches. Part of the program will be a tour of pastures to show reseeding sites, rested pastures, tank construction, brush control and other practices. Those making the trip will be served a barbecue dinner at the noon hour and all landowners and their wives living in the district are urged to make the tour.

Ed Whitesides, Concho county farm agent, said recently that 14 4-H club boys are feeding 81

average daily total this year may reach 750 or more. Serving that many students in the time allotted is a big problem, but the manner in which it is done here is something to watch. Mrs. W. E. Elkins and her efficient staff are doing a magnificent job and besides the speedy service, the meals are tasty and offer well balanced menus. In addition to serving the students, the cafeteria is a community asset that would be difficult to do without.

City officials are drafting a brief to be presented to the state railroad commission asking for field and drilling requirements in the vicinity of Ballinger's water reservoir on Valley Creek. This action is aimed at protection of city water and it is believed the state commission will act speedily to eliminate this hazard. The securing of an adequate water supply for Ballinger has been an expensive matter and pollution would be disastrous. Most oil promoters are more than willing to help protect fresh water, but the setting up of rigid requirements will make all comply. It is possible to create a big oil field around the lake shore and yet do no damage to the city water supply.

lams at this time. Eighteen of the animals, on feed since spring, will be shown at the Dallas fair and others will be groomed for shows in the late winter and spring. All lambs on feed were bred by Marion Sansom, Paint Rock; Dick Hadley, Paint Rock; Sidney Greebon, Millersview; and J. R. Canning, Eden.

About 1,500 people assembled at the Hutchison school in McCulloch county Tuesday of last week to celebrate the opening of the Brady-Liano road, just completed at a cost of about half a million dollars. A barbecue dinner was served by the Liano Chamber of Commerce, a concert was played by the Liano band, followed by popular music by Jesse James and his dance band from Austin. The new road provides a direct route from Brady to Austin and cuts the distance from Brady to Liano by eight miles.

A group of more than 120 business men, students and veterans visited nine grade A dairies in Erath county last week to get first hand information on a business which started as a minor industry and now brings more than \$1,000,000 a year into the county. Development of the dairies has been over a ten-year period during which facilities have been expanded and stock constantly improved. Attention was directed to feed and the growth of new grasses on pastures.

The Santa Anna oil field was extended last week when nine locations received approval and several rigs were on the ground to start immediate work. All the locations were made in the town-site area. Production is reasonably shallow, contracts being made for 1,800 to 2,000 feet.

City revenue at Winters totals \$102,725 as compared with \$91,000 for the same period (eight months) last year. Revenue from

the municipal light plant brought the biggest increase, \$23,845. Revenue from the municipal hospital was \$37,272, compared to \$33,908 for the year before, and water patrons have paid the city \$15,785 for the eight months as compared to \$15,007 for the year before. The Comanche Lions Club followed its annual custom last week when "ladies night" was held and at the same time city teachers were honor guests. High school organizations' music was featured and part of the program was devoted to presenting faculty members in a "get acquainted" social. The club has 75 members and the schools have 46 on their teaching staff.

Coleman citizens will vote October 24 on a \$75,000 sewer revenue bond issue, which if approved, will be spent on extensions of the present system. Most of the new lines will be laid in North Coleman, but a number of improvements will be made in other parts of the city. Bond houses have already placed bids

Looking for honest-to-goodness COMFORT?

Better Buy Buick!

You've probably heard a lot of talk about comfort in 1950 cars.

But we'd like to offer one suggestion, which is—let a Buick speak for itself.

We'd like to have you settle yourself (your family too, if you have one) on a Buick's soft, deep, comfort-angled cushions, and see how restful they are.

More than this, we'd like you to sample that comfort in motion. Slip your fingers around that slender steering wheel, touch toe to treadle and take off in the smooth, unbroken surge of power that Dynaflow Drive® delivers.

We'd like to have you hunt out some of the less-smooth streets or back roads that never seem to get fixed—and put Buick's soft coil springing and solid underpinning to tough and practical test.

All the while, be thinking about what such riding and driving ease can mean on long, all-day trips, and compare it with what you've been used to.

This whole experience is bound to make you want a Buick—and when you ask "how much" you'll get a second pleasant

The Rising Star fall fair, which ended last week, was declared the most successful ever held. While no exact count could be had on attendance, the numbers were said to be larger than in any year of the celebration's history and the opening parade drew approximately 10,000 spectators. Midway shows, horse racing, football games and a huge square dance provided entertainment. All departments were filled with exhibits and competition was keen.

an impressive record

ALTHOUGH TUBERCULOSIS is one of the oldest known diseases, its cause was first conclusively proved when Robert Koch isolated the tubercle bacillus a little over fifty years ago. The success resulting from vigorous public health measures, particularly in the last quarter century, is impressive. At the beginning of the century, tuberculosis led the list of diseases as the most frequent cause of death. Today it has dropped to seventh place. There is no reason why it should not drop completely from the list of important causes of death.

This splendid record has resulted from the combined efforts of many agencies. An enlightened public opinion with respect to the value of the physician's services has contributed immeasurably. Have that long-delayed physical examination today. We are prescription specialists.

Mrs. Glen McFarland was complimented Thursday evening when Mrs. John W. Cody, Mrs. Dee Saylor, Mrs. Martin Benson and Mrs. Lester Ohlhausen were hostesses at a pretty gift tea in the home of Mrs. Cody on the Winters Highway.

The pink and blue theme was used to decorate party rooms with queen's wreath trailers, and pink and blue cornflowers in baby shoe containers. The refreshment plate included cake squares iced in white and decorated with pink and blue roses which was served with fruit punch. Plate favors were miniature baby articles filled with pink mints.

Following the presentation of gifts in a pink and white binnacle, the honoree read an appropriate poem.

Mrs. E. C. Grindstaff was in charge of the installation ceremony when the following officers were inducted into office at the inspiring service: president, Mrs. Pannell Legg; vice-presidents—membership, Mrs. Charles Riddle; fellowship, Mrs. Sue Pippin; class ministry, Mrs. H. K. Dickinson; stewardship, Mrs. H. W. Ketchum; secretary-treasurer, Mrs. James Watson.

At the social hour, hostesses served chocolate cake and ice cream. Others present were: Mmes. Charles Lowery, Melvin Beddo, R. D. Watson, J. T. Bryant, C. R. Owens, Jack McAden.

Gift Shower is Compliment for Bride-Elect

Miss Jeanette Sparks, bride-elect of Aaron Stephens of Winters, was paid a pretty compliment Thursday evening with a miscellaneous gift shower, when Mrs. Otto Wood, Mrs. Wallace Seipp, and Miss Joyce Seipp were hostesses in the Wood home, 203 Twelfth Street, to a group of friends of the honoree.

The bride's chosen colors, pink and white, were given attractive emphasis in all details with pink roses, dahlias and queens wreath being used about the party rooms where the hostesses greeted guests and presented Miss Sparks, and her mother, Mrs. Willis Sparks, and Mrs. C. C. Stephens, of Winters, mother of the bridegroom-to-be.

The dining room table, which was laid in an imported cloth of linen, was centered with a bridal bouquet and a miniature bridal party including the bride and bridesmaids. White net which outlined the table was held in place by clusters of pink rosebuds and streamers of satin ribbon. Mrs. Seipp presided at the punch bowl and other hostesses served cake squares.

Miss Joyce Seipp registered guests in the bride's book and gifts were displayed by Miss Joyce McCorstin.
