Warner Bros. Drama, 'Breakthrough' Has Brian, Agar, Lovejoy, Suzy Dalbert

Unfolding upon the screen as a rousing war drama rarely before duplicated for its true depiction of our G.I. heroes, their loyalties, their battles and ability to laugh in the face of the constant dangers of combat, the heralded Warner Bros. war drama, "Breakthrough," begins its two-day local engagement at the Texas Theatre next Sunday.

"Breakthrough" follows a platoon

of infantrymen from the period of early training, preliminaries in invasion tactics and finally the big invasion itself. It's these stirring experiences of the G.I.s in war, highlighting their bazooka and tank encounters, which form a vivid part of this great epic.

David Brian, memorable for his role in "The Damned Don't Cry," was the overwhelming choice to portray hard-bitten Capt. Hale, a

man of deep emotions well-hidden beneath a rugged exterior. Second in command, John Agar plays the sensitive lieutenant who proves his mettle during the bitter invasion. Frank Lovejoy rounds out the stellar trio as the battle-wise sergeant with an earnest respect for his captain.

Beautiful Suzanne Dalbert supplies the romance in this rugged film, which also features Edward Norris, Greg McClure, Dick Westerson, William Campbell, Richard Monahan.

Stephen McNally and Alexis Smith are starred in Universal's "Wyoming Mail," which begins a three-day run at the Texas today. This Technicolor action picture features Howard Da Silva, Frankie Ed Begley, Dan Riss, Whit Bissell and Roy Roberts.

A star-studded cast brings to life the story of "Two Flags West," historical adventure spectacle based on a little known irony of the Civil War, to be shown at the Texas Tuesday, Wednesday and Thursday, February 27 through March 1. In the starring roles of this 20th Century-Fox drama are Joseph Cotten, Linda Darnell, Jeff Chandler and Cornel Wilde. Sup-

Viveca Lindfors, Kent Smith, Janis Paige and Robert Douglas are the leads in "This Side of the Law," new Warner Bros. mystery drama, to be shown at the Hillcrest Drive-In Theatre tomorrow and Saturday, February 23, 24. The story is that of a great impersonation that led to love and violence.

Vaughn Monroe, popular favorite on radio and records, makes his screen debut in Republic's "Singing Guns," also on the Hillcrest's film fare for tomorrow and Saturday. Co-stars are Walter Brennan, Ella Raines, Ward Bond.

Universal's "Under the Gun," starring Richard Conte and Audrey Totter, and to be shown at the Hillcrest Sunday and Monday, February 25, 26, deals with a primitive prison system whereby a trustee who kills another convict attempting an escape is automatically eligible for a pardon. Featured are John McIntire, Sam Jaffe and Shepperd Strudwick.

A spectacular era in the history of railroading in the days of the pioneer West, is the setting for Republic's film in Technicolor, "Rock Island Trail," billed at the Hillcrest Tuesday, Wednesday and Thursday, February 27 through March 1. Forrest Tucker, Adele Mara, Adrian Booth and Bruce Cabot are starred.

Dolores Del Rio and Richard Dix are co-starred in "Submarine," the second offering on this double-feature program.

'Born to be Bad,' 'Outrage' Newest Billings at Runnels

The age-old argument as to whether it is better to marry for love or for money is an underlying motive in RKO Radio's startling drama, "Born to be Bad," the main attraction at the Runnels Theatre Saturday, Sunday, Monday and Tuesday, February 24, 25, 26, 27. Joan Fontaine, Robert Ryan and Zachary Scott have the top roles, with Joan Leslie and Mel Ferrer featured in this absorbing story of a scheming woman.

Mala Powers, talented newcomer, won the coveted leading role in the Ida Lupino production of "Outrage," mid-week attraction at the Runnels, from a field of 300 contestants. Tod Andrews, also a new "find," shares top honors in this dramatic story of a girl's reactions to violent assault, and her flight from the past. Lillian Hamilton, Raymond Bond, Rita Lupino and Kenneth Patterson have important supporting parts. "Outrage" is billed at the Runnels February 28 through March 2.

The present drought in Texas should be evidence enough that livestock producers seldom ever get too much feed on hand. Producers who have stored silage, hay, other roughages and feed grains are now cashing in on their stored crops.

worry and indifference

OVERANXIETY, particularly about health, is a disease in itself. Physicians call it hypochondria. Those who "enjoy" ill health only make themselves and those about them miserable.

Opposed to chronic worry is complete indifference, to the point of disregard of common-sense health rules and contempt for medical care.

Between these two absurd extremes lies the sane middle road. Petty, transient discomforts need not cause grave concern and frequent trips to the doctor. When symptoms persist or recur with annoying frequency, it is then time to seek professional assistance. Indifference under these circumstances only invites more serious trouble.

Another feature-length picture is booked on the same program.

In Republic's "O. **WEST TEXAS
NOTES**

Public School Week will be March 4 through 11. Governor Shivers has issued a proclamation and Texans have been asked to visit their public schools during this week and see the children in classwork. The theme is "The Public School—Democracy in Action." Visiting the schools will make people realize the great step from the little red school house to the standard elementary and high schools. All has been done to make possible a sound basic education for our children and to make better leaders for tomorrow. In Ballinger the educational system is being expanded to make it meet local requirements and state standards. Two new buildings will be in service next year to alleviate the crowded condition. Ballinger has excellent schools and visits by local people will be informative as to just the kind of training offered.

The need for house and modern furnished apartments becomes more serious every week and at this time a large number of people working in this immediate section are having to live in other

A strong oil leasing movement has started in Menard county since a 102-barrel producer was brought in in southwest Concho county two weeks ago. Much acreage has been leased by independent operators in Menard and Kimble counties with prospects of getting a number of wells drilled. Practically all of the ranch land west of Menard is now under lease but very little has been sought to the east. Several wells have been drilled in Menard county in the past two years but no major production was found.

The Bronte school board is towns and make daily trips of 70 to 90 miles. Most of these people are here from several weeks to two years or more and do not have their own furniture. What they need is modern furnished living quarters where they may keep their children. After two weeks of door knocking, several families have gone to Coleman, where quarters were available. Others are still here in hotels and motels, trying to locate something. If an air school is located here the need will be even more urgent and it appears that some type of defense housing will be necessary.

Runnels countyans have shown their appreciation of the National Foundation for Infantile Paralysis by their contributions. Every community in the county has given liberally to the March of Dimes and probably \$7,500 to \$8,000 will be tabulated. Much of this appreciation results from the numerous polio cases in this county and the generous way treatment was provided, hospitalization being followed by providing braces and other equipment. Some communities have given as much as \$1.00 per capita and that is higher than the national average.

completing a general program of improvement to the property which has cost approximately \$20,390. Bonds were voted in the amount of \$20,000 and they sold for a premium of \$426. Practically every building on the campus has been repaired, painted and given better lighting, heating and other needed equipment. Work started last summer and within a few days the last job will be completed.

Grass fires near Dublin charred six sections of pasture land last Sunday week. Fire departments were called from Comanche and DeLeon after the Dublin department had fought the fire for more than an hour without success. More than 100 men helped the firemen, farmers and ranchmen coming from many miles to lend assistance. The blaze was brought under control after about five hours. Humble Oil Co. and Texas Oil Co. used large convey trucks to haul water to the scene.

The executive committee of the Stephenville Chamber of Commerce has named a large number of workers on committees to carry on projects during the year. Special attention will be given to agriculture and livestock, conventions, highways and roads, industry, membership, merchant activities, publicity, and community betterment. Officials stated that special committees would be appointed as need arose to look after new projects.

Coleman county is expected to make an effort to produce 25,000 bales of cotton in 1951, four times as much as grown in 1950. County Agent Cloyce Huckabee has scheduled a series of meetings so farmers may hear a general discussion of the need for a 16,000,000-bale crop in the United States. All acreage limits have been lifted for 1951 and a price guarantee of 90 per cent of parity as of July 15, 1951, established. The guaranteed price is expected to aver-

Members of the Rowena Lions Club held a discussion on the matter of securing a town night-watchman at their meeting last week. During recent weeks petty thefts have been reported on several occasions and just last week three stores were entered and small amount of cash and merchandise stolen. Several Lions expressed the belief that a night-watchman might save most of the store over a period of time.

Lion President J. K. Webb, of Miles, announced at a meeting of the club last week that the debt incurred by lighting the high school football field had been paid

Banking---Just Banking

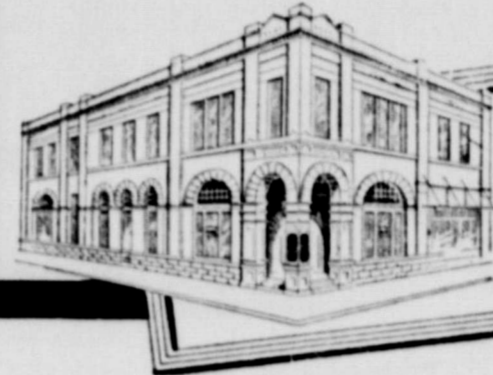

The banks of this country operate under strict laws and when these regulations are followed their continuation is secure. Individuals provide the capital and a large part of the bank's profits are absorbed in taxes. Affiliation with a conservative bank is more helpful than some of us realize—building credit in a conservative bank is a source of pride and may be relied upon when funds are most needed.

The banks are in position to give support, not only to financial needs, but they are often called upon to appraise the character and credit standing of their customers. To be well and favorably known at your local bank may give support to programs of individuals and business which many have thus far failed to recognize.

This bank is favorably known throughout the country—for this reason we are in position to perform in many ways so often necessary to success.

in full. More than \$3,000 was raised by the club in providing illumination for night games and the last of the obligation was paid after recent programs. Lion C. H. Ray, Jr., chairman of the March of Dimes campaign, stated that a grand total of \$710.75 had been contributed. A program presented at the school auditorium was responsible for more than half the entire amount.

The Brady school board has signed a contract with C. A. Reynolds, who will become superintendent at the end of the present semester. Mr. Reynolds has been superintendent at Eldorado the past three years, previously serving as principal. A graduate of Abilene Christian College, he later received his master's degree from Sul Ross State College. Alpine, W. E. Workers in the building fund campaign for Howard Payne College launched the drive Tuesday at a "kick-off" breakfast in Brownwood. The group will seek \$75,000 in Brown county, which will be part of the \$235,000 to be raised in district 16 of West Texas. The money will be used for building the Walker memorial library and a girls' dormitory. The groundbreaking ceremony was held last November 11 and plans are being made to rush completion of the buildings.

Gaston Alford, son of Mr. and Mrs. Carl Alford, of Rising Star, has recently been promoted to the rank of a full colonel in the air forces. He had been stationed in Florida for some time and recently was sent to Okinawa as flight commander. In his high school days at Rising Star he was a star football player and later played on the Daniel Baker College, Brownwood, team.

Mayor C. S. Jackson stated last Thursday that paving work would be started at Winters around April

1. The statement followed approval of a bond issue for \$150,000 last week by a majority of 4 to 1. The mayor said he and other members of the city council would visit Anson, Haskell, Albany and Graham to inspect paving being done there. Contractors will be contacted and arrangements made to start the street improvements as soon as the 30-day waiting period required by law is passed. Other items included in the bond issue were \$40,000 for a city hall and \$20,000 for sewer improvements.

A Salvation Army service unit was formed at Comanche last week and plans made for a fund campaign to be conducted at once. Seven Comanche men are officers of the new service unit. A quota of \$1,700 was set for the county, \$900 to be raised in the county seat.

INTERIOR CITY HALL GETTING REPAINTING

Painters started Monday on the interior of the city hall and will continue until all rooms and offices have been painted. First work was started in the fire station and after the ground floor has been painted, the city auditorium and apartments on the second floor will be redecorated.

It has been a number of years since anything has been done to the city hall and the painting will add much to the interior appearance.

Dr. Wharton Speaks At Rotary Meeting

The Ballinger Rotary Club in a short business meeting Tuesday noon, distributed ballots to the membership and elected three new directors. Those receiving the highest number of votes and announced as successful candidates were Ewell Jones, Raymond Berryhill and Allen Davis.

take over their duties at the first meeting of the club in July. Newly elected officers will serve as delegates to the district conference to be held this spring.

Dr. Conway T. Wharton was guest speaker for the program Tuesday. He brought a very interesting talk on his 20-year stay in the Belgian Congo as a Presbyterian missionary.

Dr. and Mrs. Wharton went into the heart of Africa as bride and groom back in 1915 before any civilization was known in the region. A high point of his talk was contrasting conditions in 1915

and on a later visit in 1944 when the country resembled our modern cities in many respects.

The speaker related many interesting experiences of his 20 years work with the natives, their habits, beliefs, language and the capabilities of the people.

HEALTH FACTS

ABOUT "SICK HEADACHE"

Migraine is a very severe headache which begins at the base of the skull and radiates upward and forward on one side of the head. The pain is intense and throbbing and is increased upon stooping or hearing loud noises. The eyes are sensitive to light and feel heavy. The patient is much depressed, feels weak and suffers from indigestion. Vomiting occurs frequently. The attacks may last for hours or even days. It is often spoken of as "sick headache." The disease chiefly affects women and is always associated with digestive disorders. The attacks usually occur at times when the patient is under some heavy nervous strain.

The vomiting and pain are due to the presence of bile in the stomach. There is much discussion going on just now with regard to the question of whether normally there is not a small amount of bile admitted into the stomach during the process of gastric digestion, and good authorities on the subject of physiology can be quoted in support of that view. However,

it is recognized by all authorities that a considerable quantity of bile in the stomach is always abnormal and will cause headache and vomiting.

In order for bile to enter the stomach it has to pass upward through a ring of muscle fibers which closes the opening from the stomach. This ring acts as a valve, opening and closing in response to nerve impulses. This is how the movement of food from the stomach to the intestines is regulated. Inordinations in the nervous control of the valve may permit its opening, and passage into the stomach of excessive quantities of bile and until this passes out again or is vomited, the headaches persist.

Migraine is a disease which usually responds readily to Chiropractic adjustments. Many cases are on record of complete cure after suffering with the condition over long periods of time. A number of such patients have become Chiropractors because they were enthusiastic over what Chiropractic had done for them.

"WONJU" SIT BY MY FIRE? ... Says one of these G.I.'s in the Wonju area of Korea to the cameraman, showing the native propensity of the American soldier to wisecrack in any situation. There isn't much to laugh about in the 25-degree-below-temperature that is driving these Americans to huddle close to their pitiful heating arrangements. It is early morning, and the temperature has dropped during the night from a rather comfortable zero. Wonju had been a contention point for Communist and U.N. forces for about two weeks.

SOCIAL SECURITY MAN TO BE HERE TUESDAY
George Clark, manager of the San Angelo social security office, has announced that a representative of his office will be in the Ballinger post office at 9 a. m. on February 27.

This is a regular service for local residents to give them an opportunity to file claims for social security benefits, obtain original or duplicate social security cards, or discuss any question they might have in connection with the new social

security law. The new law gives protection to the families of hundreds of workers in this area because of the greatly liberalized qualifying requirements, according to Mr. Clark. Those with questions or any

business regarding the operation of the security plan are invited to be at the post office next Tuesday and talk to the representative.

Maturing E Bonds May be Retained Another 10 Years

The U. S. Treasury department has received so many inquiries regarding the series E bonds, which will become due in the near future, that publicity is being given to inform holders of these securities regarding a new plan where by the bonds purchased during World War II may be left in effect and not cashed on maturity date.

The house has already passed legislation and the senate is expected to ratify it shortly, which would make three provisions for bond holders.

1. Accept cash. Bonds are cashable any time.
2. Continue to hold the bonds with an automatic interest-bearing extension. Owners who exercise this extension will receive 2 1/2 per cent simple interest for all or any part of the next 7 1/2 years and 2.9 per cent compounded for the final 2 1/2 years.
3. Exchange his matured series E bond for a current income savings bond of the series G.

Dollar-wise, this means that a savings bond buyer has the opportunity to receive \$133.33 for the bond which he originally purchased for \$75.

The treasury department emphasizes these two things: 1. Holders of matured bonds may cash them any time; and 2. the holders of maturing E bonds has the privilege of retaining them for all or any part of another ten years, but he is under no obligation to do so.

Miss Bryan, M. L. Forgey, Jr. United in Marriage

Baskets of white gladioli, palms and white tapers in nine-branched standard candelabra decorated the altar and the chancel at the First Methodist Church for the wedding of Miss Nella Fay Bryan, daughter of Mrs. Alma Bryan, and M. L. Forgey, Jr., son of Mrs. M. L. Forgey.

Vows were repeated at 5 o'clock Saturday afternoon, the Rev. C. D. Wooten, church pastor, officiating at the double-ring service.

Mrs. Earl Cope, organist, played a recital of nuptial music as guests were assembled in the church. Included were melodies by Tchaikowsky, "I Love Thee," (Grieg), "At Dawning," (Cadman), and accompanied Mrs. Jack Nixon, Jr. who sang "Because" (d'Hardelot) before the ceremony and "The Lord's Prayer" (Malotte) as the benediction. The organist gave the traditional marches.

Wearing a gown of imported Chantilly lace and ivory taffeta, the bride was given in marriage by her brother, Alton Bryan. The flared ballerina-length skirt was finished at the hemline with a

pleated ruffle of French illusion. The close-fitting bodice was fashioned with long tapering sleeves and high Victorian neckline with a slightly rolled collar, and fastened in the front by tiny self-covered buttons. The short veil of hand appliqued illusion was attached to a lace covered helmet.

The bride carried a cascade bouquet of gardenias and lilies of the valley, which topped a white Bible.

Her only ornament was a triple strand of pearls, and she carried an heirloom handkerchief belonging to her aunt, Mrs. Kirby Robinson.

The same flowers outlined the base of the three-tiered all-white wedding cake, which was topped with a bridal couple. Miss Virginia Hennigar served the cake and Miss Evah Jo Payne presided at the punch bowl. Mrs. Alton Bryan registed guests in the bride's book.

When the couple left for their wedding trip to Austin and Galveston, the bride was wearing a two-piece suit of navy silk faille

by Gas of course, because Gas is fast!

FASTER than any other clothes dryer. Lightweight fabrics are ready to iron in 15 minutes. Dry in 20. Compared with old haul-and-pin way . . . a Gas dryer is 15 times faster.

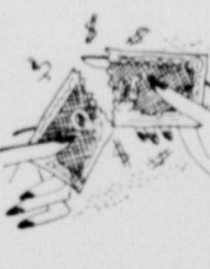

LESS & EASIER IRONING. Gas clothes dryer damp-dries, no sprinkling. Also, towels, sheets and knits come out so unwrinkled you do not have to iron them at all!

SAFER, MORE SANITARY. Gas dryer does not over-dry and weaken fibres. It sweetens, purifies better than sunshine. . . without danger of sun fading and clothes pin rips.

NO WEATHER WORRIES. Ice fingers, mud splattered sheets, laundry mildewing . . . you'll never have these. With a Gas dryer you can wash any day . . . even at night if you want to!

COSTS LESS per load than any other dryer. What's more, you don't have to keep such a big supply of children's clothes. A Gas dryer makes it easy to wash more often.

FASTER FOR WATER-HEATING, TOO. Gas is only fuel fast enough to keep up with hot water demands of any washer . . . yet flexible enough to give right temperature water for any job.
