Red Cross Fund Drive Making Good Progress

A check-up Tuesday morning on the Red Cross fund campaign disclosed a total of \$3,820.77 had been turned in for communities in the southern portion of the county. W. B. May, county chairman, was in Winters Monday and stated that over \$1,234.45 had been turned in there to apply on the quota of \$1,700 and that a number of communities in that area had not been reported. Solicitations also have not been completed in the town of Winters.

A few communities in the southern part of the county have not been reported but workers there stated that most of the money had been raised and they would wait until all had been contacted before turning in their reports.

Joe Satterwhite, Ballinger chairman, has turned in a total of \$2,253.10 to apply on the quota of \$2,600. All territories have not been covered and local solicitors expect to attain the quota here within a short time.

The check-up for the southern half of the county Tuesday morning showed the following: Ballinger, Joe Satterwhite, chairman, quota \$2,600, raised \$2,253.10
Miles, C. L. Eckert, chairman, quota \$350, raised \$325.97

White's Auto Store Will Open Saturday

The formal opening for White's Auto Store will be held here Saturday. The new business is located in the Masonic building, at the intersection of Hutchings Avenue and Ninth Street, which has been undergoing remodeling for several months.

Contractors have completed work on the building and a crew arrived here the past week-end to install fixtures and stock the new store.

Mr. and Mrs. Homer Stark have moved here and Mr. Stark is owner and operator of the business. Since arriving here he has been busy preparing for the opening and trying to find living quarters. The Starks come to Ballinger from Wichita Falls.

County's Club Boys to Attend Tractor Maintenance Schools

Joe C. Johnson, assistant county farm agent, returned the past week-end from Coleman, where he attended a four-day tractor maintenance school. Several others from Runnels county attended the school to audit classes on special subjects.

Plans are being made to continue tractor schools in this county for several weeks and a definite program will be arranged in the near future. It is probable that a school will be held at Winters and another at Ballinger with instructions to about two boys from each club in the county. When these are completed, those receiving the instructions will pass on the special training to their own clubs.

County Agent John A. Bartons announced that at the end of the training classes a contest would be held and representatives selected for the district and state contests.

The first tractor schools were held for this county last year and one 4-H club boy was a district, state and national winner.

The four-day school at Coleman was for two districts and was well attended by club leaders, 4-H members and others.

Terracing Boosts Cotton Production In Runnels County

The Runnels county PMA office has compiled figures covering soil conservation work of the past six years in which the office has spent \$850,000 as its part. In addition farmers have used their part of the costs to carry on the big program in this county. Practices have been reflected in the increase in crop production on all land.

During the six years the records reveal that 21,981,453 feet of terraces were constructed on 112,725 acres of land. Terracing is just one phase of soil conservation but one of the most practical on cultivated areas. The yearly increase of terraced land makes Runnels county one of the leaders in terracing in Texas.

A record of production of cotton shows that production has increased over the past 30 years due to conservation practices.

Coach Douglas Cox made the presentation to the boys, who included 12 seniors and 8 underclassmen. Senior boys are one three-year man, Jimmy Parrish; and two two-year men, Roland Bell and Joe Stubbiefield. The holdover group has three two-year lettermen on the squad. They are Elroy Payne, Harold Merrifield and Harlan Forbes.

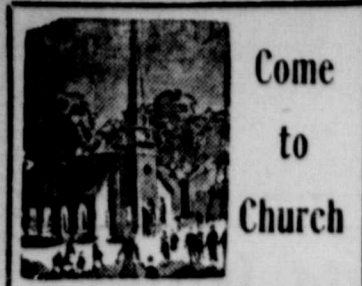

Seniors receiving sweaters are: Jimmy Parrish, Joe Stubbiefield, Joe Selby, Rufus Allen, Lavelle Foy, Frankie Jackson, Carroll Doty, Snooky Herriot, Bobby Horner, Fred McShan, Lewis Zuehke, Roland Bell.

During the training period a squad of from 45 to 50 boys has been at work and coaches are fairly well pleased with prospects for the 1951 team. Good progress was made in replacing senior members on the starting lineup.
Coach Cox stated that baseball and track work would be started this afternoon. A number of baseball games will be arranged here and an effort is being made to play them under the lights at Cat Park.

Ballinger-Bethel Districts Merger Voting Saturday

Voters in the Ballinger and Bethel school districts are urged to go to the polls Saturday and cast ballots on the question of consolidation of the two districts.
Two voting boxes have been set up, one in the school house at Bethel and the other in the downtown office of the Ballinger school board. Any eligible voter can cast a ballot.
The Bethel school is not operating at this time and all students have been contracted to the Ballinger school. Under the Glimer-Aikin act this is the last year the Bethel district can remain dormant and school patrons there recently submitted a petition to the county judge asking that a consolidation election be called.
The date was set for March 24 in order to come far enough before the trustee election that the specific kind of trustee election can be held on April 7. If consolidation is favored in the election Saturday, it will be necessary to elect a complete board of seven members on April 7. Should consolidation fail, only three trustees will be elected and they will serve with four holdovers.

Esther Williams in Revealing Pareu Star of M-G-M's 'Pagan Love Song'

Esther Williams in a pareu (Tahitian version of a sarong); singing Howard Keel in his first role since his triumphant debut "Annie Get Your Gun"—a check of brand new song hits from the talented pens of Cy Warren and Arthur Freed—the exotic background of a tropical Pacific island filmed on location in Technicolor, are the highlights of M-G-M's "Pagan Love Song," to be presented at the Texas Theatre Sunday and Monday, March 25, 26.

Esther Williams, in the role of part-Polynesian girl, shifts from a smart modern wardrobe to the eye-filling pareus, sings, dances and again shows off her famous swimming form, in time against natural pools and lagoons.

Keel, cast as an Ohio school teacher who finds the tropics a world far removed from the classroom, is given an opportunity at romance and comedy and a chance to sing an outstanding collection of hit

melodies. Veteran character actress Minna Gombell, Rita Moreno, who scored as the fiery Cajun dancer in "The Toast of New Orleans," and Charles Manu, a real-life Tahitian chief, who becomes a film personality overnight in his first screen role, head the supporting players. The extras are natives selected on location on the Pacific Island of Kauai, known as "The Garden Island."

IRENE DUNNE, MACMURRAY STAR IN WESTERN COMEDY

Irene Dunne portrays a tenderfoot who is baffled by the complexities of life in the great open spaces in "Never a Dull Moment," RKO Radio's comedy-romance, to be shown at the Hillcrest Drive-In Theatre Sunday and Monday, March 25, 26, in conjunction with "Master Minds," a Monogram feature.

Fred MacMurray co-stars with Miss Dunne in "Never a Dull Moment." William Demarest, Andy Devine, Gigi Perreau,

Greer Garson, Walter Pidgeon Teamed In Heart-Warming 'The Miniver Story'

Natalie Wood and Philip Ober are featured in the fun-filled offering. Miss Dunne is again heard in vocal numbers for the first time in a couple of seasons.

Cattle Progeny Test to be Held At Balmorhea

COLLEGE STATION, Mar. 21.—Results of the 1950-51 West Texas beef cattle progeny test will be announced at a field day to be held March 31 at the agricultural experiment sub-station at Balmorhea.

Differences in the inherent rate of gain in breeding animals are determined in this experimental work, which is being conducted by the Texas experiment station in cooperation with West Texas ranchmen.

There are 290 head of cattle in the current experiment. Of these, 170 are breeding cattle. The balance are crossbred steers on rations to compare the feeding value of three kinds of cottonseed meal.

The various groups of breeding cattle will be shown in separate pens, with a record of their daily gains. Barbecue will be served at noon, followed by a short speaking program.

J. J. Bayles, superintendent of the Balmorhea station,

"The Miniver Story," sequel to M-G-M's "Mrs. Miniver," presents a new picture about the lovable family which worked its way into the hearts of film-goers the world over. Filmed in England against a background of peace instead of war, the sequel picture, to be shown at the Texas Theatre Tuesday and Wednesday, March 27, 28, tells the story of two generations of the Minivers. The theme, as in the first film, is universal. It is the story of the love and warmth and affection of family life.

Teamed as wife and husband for the seventh time on the screen are Greer Garson and Walter Pidgeon in the memorable characterizations they portrayed in "Mrs. Miniver."

Co-starring are John Hodiak, in the role of an American air force colonel who forms a deep attachment for Mrs. Miniver, and the noted British star, Leo Genn, who plays the central figure in an affair involving the now grown-up Miniver daughter, Judy. The latter is played by Cathy O'Donnell. Reginald Owen recreates his character of Mr. Foley, and Henry Wilcoxon once again is seen as the vicar.

By using the rapid milking procedure developed in recent years, dairymen can save as much as an hour a day in milking a 30-cow herd. This procedure is given in extension circular No. 290. Texas breeds the greatest number of Jersey cows.

Rapid Milking Procedure Said Big Time Saver

COLLEGE STATION, Mar. 21.—Next to feed, labor costs are probably the largest expense item connected with the production of milk. Most Texas dairymen, by making changes in their management plans, can do something to cut these expense items, says R. E. Burleson, associate extension dairy husbandman of Texas A. & M. College.

He says if dairymen will use the rapid milk procedure that has been developed in recent years, they can save as much as one hour per day in milking a 30-cow herd. In addition to the time saved, the use of rapid milking procedure will also result in a better milking job and more milk. This adds up to

more efficient production and more income for the dairyman.

Burleson says the entire procedure is outlined in written and picture form in a new bulletin just released by the Texas agricultural extension service and it is available for the asking at all county extension offices. Just ask for C-290, "A Milking Procedure for the Dairy Herd."

Can't stop now!

The daily needs of the American people for oil are at an all-time high. When you add to these the needs of the defense program, you find that U. S. oil production is greater than ever before in history.

The men who search for oil did their part in supplying this record demand 10, 20, even 30 years ago.

But they can't stop now. The search for oil must be continuous, so that the U. S. will have oil for you and your neighbor and for the country's needs in the years ahead. This year's oil discoveries may be producing oil for the vehicles, the flying machines, the industries of the year 2000!

The oil companies look so far to the future because it takes about 10 years fully to develop an average oil field. Then, if production is efficiently managed in accordance with conservation practices, the field continues to produce for another thirty or forty years, or even longer.

This foresight provided the vast quantities of oil required for World War II, and it has established the reserves the nation needs for the emergency of 1951. There is no time, now, to search for the oil we need today; it must be — it is — instantly available.

Miss Petrie, Cecil Hambricht Recite Wedding Vows

Lovely simplicity characterized the setting for the wedding service Sunday afternoon at 3 o'clock in the Crews Methodist Church when Miss Patricia Petrie, daughter of Mr. and Mrs. M. R. Petrie of Crews, became the bride of Cecil Hambricht, son of Mr. and Mrs. Marvin Hambricht, of Winters.

Baskets of white gladioli and fern together with branched candelabra, holding white tapers, decorated the altar where the Rev. Wayne Dunsen read the double ring ritual before an assembly of relatives and friends.

Miss Neysa Petrie, sister of the bride, played the pre-nuptial music and a love melody as candles were lighted by Miss Bonnie Pearce and Miss Paty Dietz, then continued with the accompaniment of "Always," sung by Mrs. Charlie Berry. Miss Petrie also played the traditional wedding marches.

The bride, given in marriage by her father, wore a gown of shell pink nylon organdie. She carried a white Bible topped with a white orchid showered with white ribbons and lilies-of-the-valley.

Miss Evah Jo Payne attended the bride as maid of honor. She wore a blue crepe dress and a pink carnation corsage. Eldon Hambricht, of Winters, brother of the bridegroom, was

best man. Ushers were Benny Hambricht and Gerald Dietz. A reception was held in the church parlors, which were decorated with white carnations. The bride's table was centered with the three-tiered white wedding cake, decorated in pastel shades and topped by a miniature wedding couple. Alternating at serving the cake and punch were Mmes. Arthur Alcorn, Paschal Dietz, Grafton Brookshier and Ethel Bridwell.

Mrs. Hambricht is a graduate of Talpa High School and North Texas State College, Denton. Mr. Hambricht served two years in the Navy after graduating from Winters High School.

After a wedding trip to San Antonio and Port Isabel, the couple will be at home on their farm in the Crews community.

Fannie Stephens Study Club Has Safety Program

Mrs. Barnett Frank was hostess to the Fannie Stephens Study Club at a safety program held in the club room on Eighth Street Wednesday afternoon.

Mrs. Joe Forester presided at the business period at which the resignation of Mrs. Sam Malone, Jr. was accepted; the press art book was reported completed for the Sixth District meeting which convenes at Junction in April. Mrs. J. D. Eoff, Federation counselor, gave a report on interesting articles

in the Club Woman's magazine; Mrs. Jack Scales was appointed chairman of the social committee; and it was voted to contribute \$5 to the Red Cross. The club will endorse Miss Ethel Foster, of Sterling City, as a candidate for treasurer of the General Federation, and will also endorse the candidacy of Miss Pearl Currie, of Paint Rock, as second vice-president of the Sixth District Federated Clubs. Mrs. Lee Parker discussed the ticket sale for the book review the club is sponsoring on April 4 in the high school auditorium. The review will be given by Mrs. L. E. Dudley, of Abilene, who has been associated with educational activities in Texas many years and is one of West Texas' leading reviewers. Proceeds will benefit the swimming pool fund, of which the Lions Club is sponsoring.

For the safety program, Leon Wilson, of San Angelo, state highway patrolman, talked on the many accidents that occur on the highways and showed a film, "Then, There Were Four." Mr. Wilson gave a resume of the accidents that occurred in the 21-county area last year, stating that of the 72 lives lost in traffic accidents the cost amounted to more than three million dollars. During 1950 approximately 35,000 lives were lost in traffic accidents in the United States, and 2,410 lives were lost in Texas. Mr. Wilson concluded by asserting that a good driver can be described in three words, "A Courteous Driver."

Other club members were: Mmes. R. A. Bagwell, Billy F. Brown, Curtis Bryan, Preston Fitzhugh, A. H. Dallinger, M. A. Davidson, W. E. Elkins, Coy Estes, E. C. Grindstaff, R. A. Hanson, W. O. Irby, Malcolm Morgan, Elliott Kemp, Price Middleton, W. E. Moss, M. E. McClenny, Alva Stephens, Jack Moore, Lloyd Downing, Vernon Dankworth and E. Y. Bailef.

Barr, Mrs. Walter Duke, Mrs. Tom Agnew, and Mrs. Price Middleton were hostesses at a gift tea in the home of Mrs. Irby in Wilke Terrace, including more than 150 friends of the honoree.

The spring theme was given attractive emphasis with blooming pot plants being used to decorate the reception rooms where Mrs. Irby extended greetings and presented Mrs. Parker and her mother, Mrs. G. O. McCorstin.

The all-white theme was carried out in the dining room. The dining table, which was laid in an imported embroidered cloth of pineapple linen, was centered with a reflected arrangement of white carnations and stock. Tall white candles burned in two-branched crystal candelabra at each side. Mrs. Barr ladled frosted punch from the crystal bowl, and Mrs. J. F. Currie and Mrs. C. D. Wooten served cake squares iced in white, and salted nuts.

Misses Cordie Lou Forgye and Evah Jo Payne assisted Mrs. Agnew and Mrs. Duke in serving.

Mrs. Middleton displayed gifts. A musical program was given by Mrs. Currie and Peggy Hays.

The honoree was wearing a pink carnation corsage and her mother wore a white carnation corsage.

Its Great Name is Free!

If there were some way to strip a Cadillac of every identifying emblem it possesses, and judge it solely by the way it rides and handles and performs—it would still be quickly recognizable as the "Standard of the World."

But think what a Cadillac brings you in addition to the solid value of its engineering and performance and comfort and handling ease—the wonderful Cadillac name!

Perhaps in all the world, there is no inanimate object which speaks so eloquently as the Cadillac shield. It talks of background, of progress, and of faultless workmanship.

We deeply regret that we are unable to deliver new Cadillac cars without some delay. But the demand for the car is unprecedented—and much of the company's energies and materials are now being devoted to the needs of national security. Once the car is delivered into your hands, however, we know you'll agree that—patience never brought a richer reward.

It proclaims a promise of years and years of the utmost motoring satisfaction. It speaks of its owner, and identifies him as a man of accomplishment and discrimination.

In fact, there is nothing good and wonderful a motor car can bring that isn't promised or implied by the beautiful Cadillac shield. And it speaks a universal language, which is understood and appreciated the world over.

And remember, you pay no extra penalty for the pride and pleasure of having this great and distinguished name. They come as a "special dividend" with every Cadillac car.

PARISH PRESENTED AWARD OF MERIT

Judge O. L. Parish has been awarded the U. S. treasury's award of merit because of his work in savings bond campaigns in this county. The award was made by Nathan Adams, Texas state savings bond chairman.

Judge Parish has served as chairman for this county several years and gave of his time and leadership in the independence bond drive—May 15 through July 17 of last year. That drive was a noteworthy success, nationally as well as in Texas.

Mr. Adams points out three major reasons for the savings bond program. First, that the government for the first time since the end of the last war, needs money to equip and feed its expanding armed forces and to provide the other necessities this county must have in its defense program. Second, that the sale of savings bonds to the people helps keep our economy strong, spreads the huge national debt in the safest possible manner and tends to put a powerful brake on inflation by diverting money from the spending stream. Third, the program encourages people to save.

RIEGER CONDUCTING FISHING CONTESTS

The Rieger Home & Auto Store has started fishing contests which are open to all citizens of this area and during the next several months four contests are to be held, each closing on the 15th day of the month.

Prizes have been posted in two classes. One prize will be given for the largest bass caught and the other for the largest catfish. One contest is underway now and will end on April 15. Others will close on May 15, June 15 and July 15.

Fish must be caught with some type of tackle which meets the requirements of the state law. Weights will be accepted when signed by one witness or when fish are weighed at the Rieger store.

Mr. Rieger invites all fishermen of this trade territory to enter the contests. Several have already registered good catches.

SAM MALONES LEAVE FOR PAMPA MONDAY

Mr. and Mrs. Sam Malone, Jr., and daughter left Monday for Pampa, where they will make home. Mr. Malone will be manager of the Malone-Keel Pharmacy, to open about April 1 in a new office building.

During the next few weeks, Mr. Malone will be busy installing fixtures and arranging stock for the opening. The store is owned jointly by Mr. Malone and Gene Keel, of Ballinger.

Mr. Keel will remain in Ballinger to operate the firm's local store.

Mr. and Mrs. Malone recently sold their home to Roy Jacob and their household effects were loaded on a moving van Monday to go to Pampa.

MANY CARS IN COUNTY MUST BE REGISTERED IF USED AFTER APRIL 1

Motor vehicle registrations are being made slowly, Dalton Crockett, county tax assessor-collector, estimating Monday that 3,000 to 4,000 car owners would have to get their new number plates the last week in March.

Several places have been set up in the county for issuing licenses and a regular office is maintained at Winters.

March 31 is the last date to obtain 1951 number plates. Cars cannot be driven after that date unless they bear new numbers and owners who have not registered their motor vehicles are urged to do so as soon as possible to relieve the rush, almost certain to come at the end of next week.

HAYS CONSTRUCTING HOME ON PARK AVENUE

Marion Hays has begun construction on a modern residence on Park Avenue between Ninth and Tenth streets. A \$12,000 city permit was issued for the construction the first of the week.

Other building permits receiving approval were: Melvin Witter, \$1,500, for an addition to a dwelling on

Sharp Avenue between Third and Fourth streets
L. F. Dodd, \$500, for building a garage at his home on Ninth Street between Sharp and Hamilton avenues.

LARGE CROWD ATTENDS COTTON MEETING HERE

The cotton growers meeting held Friday night in the district court room attracted a large crowd and an excellent program was presented, setting forth reasons why a 16,000,000-bale crop is needed for 1951. Speakers also discussed Runnels county's part in making the national goal.

Representatives of the city of Ballinger, chamber of commerce, PMA office, Co-op Gin and local veterans' classes pledged their full support to the farmers in producing the crop and in labor problems expected during the picking season.

County Agent, John A. Barton stated Monday that no other meetings would be held for growers until a little later when a series of meetings are planned on insect control measures.

Misses Carolyn McClenny, Marilynne Agnew, Wilma Duke, students of North Texas State College; and Miss Josephine Burkhardt, student at Texas State College for Women, Denton, arrived home yesterday to spend the Easter holidays with their parents. Miss Pat Caudle and Miss Nancy Guynes will arrive tonight for an Easter visit.

BALLINGER TEACHERS SERVE ON APPRAISAL COMMITTEE AT BRADY

Joe Forester, principal of the Ballinger high school, and Miss Bonnie Rogers, physical education instructor for girls, were at Brady Monday, Tuesday and Wednesday, serving on an evaluation committee.

The committee was set up for special work in the Brady school system and at the end of the inspections a complete report of the findings will be given. The Ballinger teachers joined other West Texas teachers who had been appointed on the committee.

Mr. and Mrs. L. J. Schoonmaker, of Toronto, Canada, were week-end guests of Mr. and Mrs. C. R. Stone. Mr. and Mrs. Schoonmaker visited in Ballinger in 1943 when a son was receiving cadet training at Bruce Field.

WEST TEXAS NOTES

Sunday is Easter. For this region it is the signal for the beginning of spring and change of attire to the lighter and more comfortable type. In Ballinger it is also an important date for religious activities and all churches that celebrate Easter are planning special services. The day will begin with a union sunrise service at 6:30 a. m. to which all citizens are invited. In addition each denomination will observe the day in its own services and record attendance is expected. The welcome sign is out at all churches and those who are not regular church goers are urged to attend the church of their choice.

Three important elections are to be held in Ballinger soon at which all eligible voters are urged to participate. Sometimes these elections, especially when there is no opposition and not very much interest, go by with few votes cast. Saturday will bring a consolidation election for the Ballinger and Bethel school districts. April 3 will be the date to elect city officials for a two-year term, and on April 7 a trustee election will be held for the Ballinger independent school district. All these are important and should attract many voters.

Ballinger people will have to make a decision in the near future in regard to establishing the Community Chest plan. The movement has received encouragement here because it would reduce the number of financial drives every year and volunteer workers would not be called upon so often to leave their places of business and go out on money-raising expeditions. Some express disapproval of the plan, however, believing citizens will be slow to contribute large enough sums at one time to cover all the organizations included. This is offset to some extent by making possible monthly payments to the chest. The chest plan will not eliminate all the money drives, however. Certain national organizations such as the Red Cross, March of Dimes and Tuberculosis Association do not cooperate with the chest and drives for these would have to be made separately. In addition there are always a number of local causes that come up which cannot be anticipated in advance. Those who have given study to organizing the chest here believe ten or twelve annual drives can be eliminated.

Burglars worked in Paint Rock again last week, entering four business houses and getting away with a small amount of cash, more than 30 cartons of cigarettes and other merchandise. It was the third time in 21 months that the Paint Rock postoffice had been entered, but nothing was missed. Place of business which had losses were the Waide-Crunk Grocery, Paint Rock Cafe and Roach Dry Goods Co.

The Miles dairy show, sponsored by the Miles Lions Club and F. F. A., will be held on April 14. The date was set and plans made at a meeting of leaders last week when J. K. Webb was appointed general superintendent and H. J. Kasberg assistant. A location for the show was secured and the final date for entries was set. All entries to be mailed or handed to Gerald Stewart. No exhibitor will be allowed to enter more than two animals in any one class.

Work was started at Stephenville last week by city and county officials, members of Tarleton State College staff and civic club leaders on a local defense program. National Red Cross representatives aided in launching the program and explained steps necessary in areas which might be damaged by enemy action. Places which might be used as feeding centers, temporary hospitals and living quarters are to be listed and citizens will be organized and instructed in self-help. Defense coordinators will list all information and send it to Fort Worth for study by authorities.

Coke county valuations for tax purposes will reach the \$15,000,000 mark this year. Evaluation engineers presented figures to the commissioners' court showing an increase of \$2,400,000 the past year on oil holdings due to the completion of 53 wells. The survey also revealed that the oil industry provides about two-thirds of the taxes. Some trouble has been experienced in definitely establishing the boundaries between Coke and Runnels counties.

A dedication program for Santa Anna's new 3000-volume library was held last week, various organizations participating. The city has provided a building to house the library and

plans are being made to open the doors on April 1. The library is the result of a book gathering program conducted over a 28-year period by the Self Culture and United Daughters of Confederacy clubs of Santa Anna. The lists include valuable antique editions and first editions along with newspaper files covering many years.

The Eastland County Livestock Association is making plans for the annual county tour and a large caravan will visit some of the most interesting projects. Leaders indicated that about ten stops would be included for the day to inspect some of the best livestock and dairy cattle in the county. The tour is part of the livestock association's program and attracts a large delegation every year.

Virgil Chaffin has announced special retail training courses to be offered at Comanche through the cooperation of the Comanche high school and the chamber of commerce. H. F. Johnson, retail training specialist of the University of Texas, will be in Comanche for two weeks beginning March 22 and will hold classes twice daily. Part of store forces will attend the morning sessions and others in the afternoon. Leaders stated a large number have already been signed for the training.

When Hope is Renewed

Easter is a day of hope—a hope which is eternal, and which will someday unify the world so people of all nations will live in peace and harmony. In this period of uncertainty, the spiritual significance of the glad occasion is even a greater help and inspiration.

Many centuries have passed since the message, "He is risen," brought light into a darkened world. And since that glad day, each year when winter gives way to springtime, our faith is renewed, and we face the future, confident that the time will come when the forces of evil will be banished, and that truth and right will finally prevail.

Claudine Kohutek has been confirmed as postmaster at Rowena as of March 3. Mrs. Kohutek has been acting in that capacity since August, 1949, when she took the place formerly held by H. H. Wagner. She is a life-long resident of Rowena and attended the schools there. She graduated from the Ballinger high school in 1937 and has worked as a clerk in the Rowena office for twelve years.

The Brady Chamber of Commerce's annual membership meeting and banquet will be held on the evening of April 6 in the fellowship room of the First Christian Church. The chairman of the program committee stated that Rep. Harley Sadler will be guest speaker and special entertainment is being arranged. A feature of the business session will be the making of the good citizen award to an outstanding citizen.

Homer J. Hodge, Jr., has announced a complete remodeled and improved project to be started on the State Theatre, Winters, in the immediate future. Work is just being completed on the Queen Theatre which modernizes that showhouse. The State will be remodeled and redecorated inside and out. New sound equipment and

airfoam rubber cushioned seats will be added. A new Queen new sound project, new seats, a snack bar and other feature were added.

Mrs. Velma Slaughter, formerly Hill county home demonstration agent, will take over the work in Brown county on April 1. She succeeds Miss Mayesie Malone, who has served Brown county the past 30 years and will retire. Mrs. Slaughter

has been in extension service work the past twelve years and has served in three counties.

Three years of work will be unveiled at Junction Easter morning when the Bible class of that city presents a 3-act version of "The Easter Story." Under the direction of Rev. James B. Jordan, a cast of 104 Kimble county people will present the program on an 80-foot stage carved in the side of a

hill half a mile south of Junction. The cast has been rehearsing three years. The performance will start Sunday at 2:30 a. m. and be concluded about sunrise.

HEALTH FACTS

The Cause and Effect of Constipation

Constipation or sluggishness of the bowels is one of the most common irregularities and its effects upon the body are very harmful because the bowel contents are constantly being absorbed through the walls of the intestines. If the bowels are not evacuated frequently, their contents undergo chemical changes in which substances are formed which, when absorbed and carried all over the body by the blood stream, produce all the disturbances of the blood. Good health depends on drainage from the bowels of the waste products which are always being formed by the activity of the cells, and these wastes can be carried off only when the blood is in good order. Constipation makes the blood impure so that it can not do its work of draining tissues, it deposits its impurities from the bowels in the tissues and produces general poisoning throughout the body. Bowel movements depend on series of contractions and relaxations in the bowel walls which keep the contents always

on the move. These muscular motions are known as peristalsis, and scientific experiment has shown that they are dependent on nervous control. When the lower part of the spinal cord is severed, peristalsis ceases, because nerve control is cut off. Pressure upon nerves interferes with nerve control to a lesser degree and produces insufficient peristalsis, which in turn means sluggish bowels. Therefore, pressure on nerves is the cause of a majority of the cases of constipation and the only way to obtain permanent relief is to remove the cause, the nerve pressure. It is useless to expect more than temporary relief from any method of treating the condition, if the cause remains unchanged.

The Chiropractor does not treat effects. He is trained to locate and adjust vertebrae in the spine when they are out of alignment and pressing upon nerves, thereby removing the cause and restoring normal bowel action.

Powered for thrills - Priced for thrift!

HERE, packed in 3,615 nimble pounds and 204.8 inches of over-all length, is the car marvel of '51. In the few short weeks since it started to roll off the assembly lines, it has written a bright new page in automotive history for the low-priced field. What Buick engineers have done is come up with a brand-

new high-style body—new in every contour and dimension. They've designed a brand-new, weight-saving frame, exclusively for this SPECIAL. Then they've added the power-packed F-263 Fireball engine—which was new in the 1950 SUPER—and just wait till you see

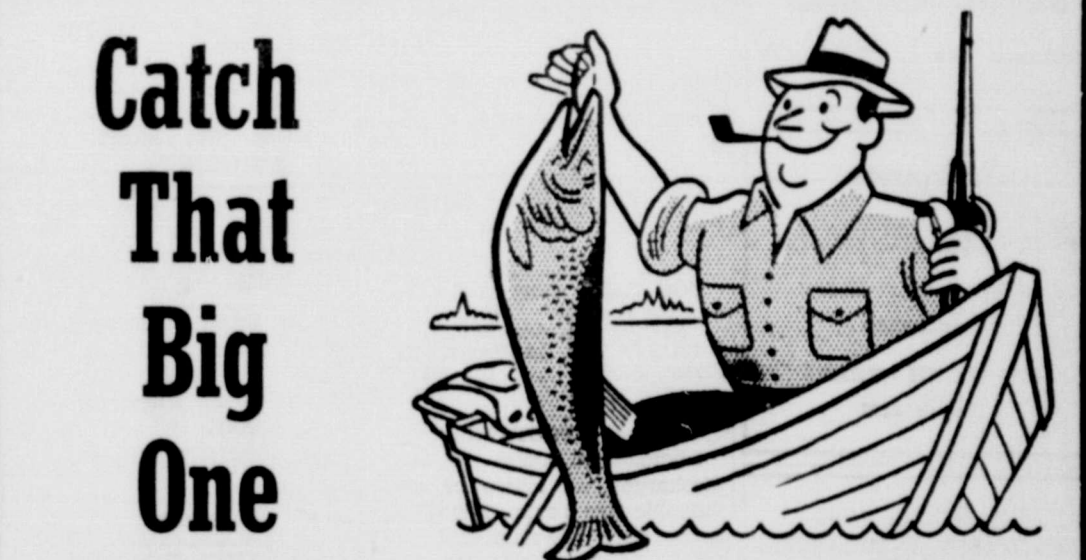

what that does for this nimble performer. There's a power-to-weight ratio that spells thrill and thrift in operation—at a first cost that's just a breath away from the lowest price level. We'd like you to see and drive this newest Buick marvel—find out for yourself what a honey it is to handle, and what a cinch it is to buy. Why not drop in and see us the very first chance you get?

- No other car provides all this!**
- DYNAFLOW DRIVE**—saves strain on driver and car
- FIREBALL POWER**—high-compression, valve-in-head engine gets more good from every drop of fuel

Lamesa Ball Club Prospects Arrive For Spring Work

The Lamesa baseball club will all arrive this week-end and spring training is to get underway Monday. First of the squad arrived yesterday afternoon, others are to come in today, and all hands are to be on deck for work Monday morning.

Some of the club is staying at the Central Hotel. Tex Bullock, manager of the hotel, was ready for the men when they arrived and had special reservations made for negro players

with local colored people who live in the southern part of the city. Skipper Jay Haney said he would have two negroes here for sure and planned to look at two others for one day, probably Sunday.

A one-day session was held at Lamesa last Tuesday when only twenty negroes showed up for trials. Cold weather kept some of the expected sixty from making an appearance. Haney expressed disappointment at the quality of those who did report.

The Lamesa club will be at Cat Park every day, getting in condition, and permitting a look by the management. Inter-squad games will get underway soon and some exhibition tilts

probably will be scheduled a little later.

SOUTH BALLINGER HOME DEMONSTRATION CLUB

Mrs. B. M. Batts was hostess last Tuesday when the South Ballinger home demonstration club met in her home. Mrs. C. L. Smith, president, presided for the business period. Roll call was answered with "The Cleverest Trick I Can Do on My Sewing Machine." Mrs. R. R. Holstead gave the council report.

At the next meeting, members are to bring clothing or any useful article to be sent to the state hospital at Abilene. Members voted to donate \$5.00 to the Red Cross.

Mrs. J. L. Ohlhausen gave a demonstration on the many uses of sewing machine attachments.

The hostess served homemade ice cream and cake to 23 members and two visitors, Mr. Joe Satterwhite and Mr. Don Atkins.

The next meeting will be held in the home of Mrs. E. T. Branham, Jr.

FORD

WINS AGAIN!

V-8 TAKES FIRST PLACE IN CLASS "A" 1951 MOBILGAS ECONOMY RUN

Both Ford V-8 and SIX Deliver more than 25.9 miles per gallon

Grueling 840-mile test proves Ford Economy

Again this year . . . it's high honors for Ford! In the most important economy trial for American stock model cars . . . the famous annual Mobilgas Economy Run . . . A Ford 100-h.p. V-8 equipped with Overdrive took first place competing against all cars in its price class, making 54,587 ton-miles per gallon* and 25,994 miles per gallon. And its companion in quality, the new Ford SIX with Overdrive, was right up there with the winner. In fact, both cars averaged better than 25.9 miles per gallon.

Traditional Ford economy, for the second straight year, has been proved in open competition. Proved on the tough 840-mile grind from Los Angeles to the Grand Canyon . . . a course that included city traffic, below-sea-level desert heat and 7,000-foot mountain passes. Ford's Automatic Mileage Maker, standard equipment on all Ford V-8's and SIXES, contributed to this great achievement by squeezing the last mile out of every drop of gasoline.

Why not "Test Drive" the new Ford at your neighborhood Ford Dealer's? There's no better way to be convinced that "You can pay more but you can't buy better!"

*The AAA Contest Board determines the winner by a "ton-mile per gallon" formula to insure equal chances for all cars in each class regardless of size and weight. "Ton-miles per gallon" equals the car weight (including passengers) in tons, multiplied by number of miles traveled, divided by number of gallons of gasoline consumed.

"captain of the men of death"

PNEUMONIA is a disease which strikes swiftly and proceeds quickly and dramatically to a crisis. Until recent years little could be done to help the patient. The brief decisive struggle between the infection and the patient earned for pneumonia the dreadful title, "Captain of the men of death."

In the parlance of the army, the captain has been "busted." First came antipneumococic serum, which removed one bar. Later, powerful sulfa drugs and, more recently, penicillin teamed up with serum to break the captain completely. All of these powerful weapons are kept in readiness in our prescription department, waiting only for the physician's order.

ASSAULT ON ENEMY HILL . . . Men and tanks move out on an assault on an enemy-held hill north of Wonsok, Korea. Note soldier (lower left) who has stopped to fix part of his gear. Allied troops were pressing gains all along the front when this assault was made. The first marine division was back in the battle. A new Communist drive was expected, but attacks by the leathernecks near Hoengsong were designed to throw the new Red push off balance. The fighting has been characterized by steady but slow advances by UN forces up to three or four miles a day, no spectacular gains being made recently by any side.

Take a look at the only trucks with Fluid Drive!

NEW DODGE "Job-Rated" TRUCKS

The trucks that do the most for you!

MAKES DRIVING EXTRA EASY!

You get smooth-as-silk performance with gyrol Fluid Drive—a Dodge exclusive available on 1/2-, 3/4- and 1-ton models. This proved fluid coupling between engine and clutch eliminates jerky starts, helps prevent stalling. Loaf along in high, slow down, speed up again—without touching gearshift or clutch!

BETTER LOAD PROTECTION!

Fluid Drive assures extra-smooth starts . . . protects your load. There's less chance for cargo to shift—less chance of breakage or other damage. Many owners of Dodge "Job-Rated" trucks tell us that this saving alone can soon pay for the moderate first cost of gyrol Fluid Drive. Experience it on your job!

NEW SAFETY ON SLIPPERY ROADS!

With Fluid Drive, there's less wheel-spinning, less tendency to skid on wet or icy pavements. You can start in higher gear, apply power gradually and get away smoothly and safely. Tires last longer, too—another money-saving advantage of Fluid Drive!

WHAT "JOB-RATED" MEANS TO YOU
A Dodge "Job-Rated" truck is engineered at the factory to fit a particular job . . . save you money . . . last longer.

Every unit from engine to rear axle is "Job-Rated"—factory-engineered to haul a specific load over the roads you travel and at the speeds you require.

Every unit that SUPPORTS the load—frame, axles, springs, wheels, tires and body—is engineered right to provide the strength and capacity needed.

Every unit that MOVES the load—engine, clutch, transmission, propeller shaft and rear axle—is engineered right to meet a particular operating condition.

MORE CONVENIENCE ON HILLS!

Fluid Drive lets you stop on an upgrade and hold your Dodge "Job-Rated" truck in gear, simply by slightly speeding up the engine. And on a downgrade, Fluid Drive gives you effective engine braking. Under all conditions, driving with Fluid Drive is easier on driver and truck.

LENGTHENS TRUCK LIFE!

The "cushioned" power of Fluid Drive saves wear and tear on over 80 vital parts—including clutch, transmission, rear axle. This insures longer truck life—lowers your upkeep costs. And trade-in value stays high! Ask us for interesting Fluid Drive booklet.

COME IN AND BE CONVINCED! TRY A NEW DODGE "Job-Rated" TRUCK WITH FLUID DRIVE!
