## HEIDENHEIMER'S

. the fruit of unceasing labor

Between 1911 and 1935, a baief span of twenty-five years, extraordinary progress was made in public health. According to figures released by the Metropolitan Life Insurance Company, the duration of human life during this period was extended by almost fourteen years. It is all the more remarkable in the light of the history of this period, which included the first World War, the worst epidemic in recent history, and America's most severe depression.

Many agencies have contributed to make America a more healthful place in which to live. Not the least of these are scientific medicine and pharmacy, which work unceasingly for better methods of prevention and treat-
