good records are meant to be beaten

THE INFANTILE DEATH RATE in the United States is very low. From 1934 to 1936 we ranked seventh in the world, led only by New Zealand, Holland, Australia, Norway, Switzerland, and Sweden.

Yet 70,000 infants die annually in the first month of life, and 53,000 more from the second to the twelfth month. How many of these precious infants might have lived had their mothers had adequate prenatal care under the direction of a competent physician?

It is now up to the mothers to take advantage of the knowledge and skill of the physician during the trying months of pregnancy. We are ready to supply the needed dietary supplements and other medication ordered by

A memo from the U.S.A.

We pitch in and turn out guns, tanks, planes and ships faster than anybody on earth.

But nobody boots us into line. No commissars. No bayonets. No slave labor. We just get to work because we've got something to work for ... our liberties and our individual freedoms.

And back of our men and machines is electric power - as much as all the rest of the world has.

It's steady, dependable power - the kind produced only by free men - the kind that helped perform production miracles in World War II. Today, the business-managed electric companies have doubled the supply of electric power available before that war - and they're stepping it up all the time.

Yessir, we have power - with more on the way and we know how to use it. That's a good thing for everybody to remember right now. And it's a good thing for some people here at home to remember that America's tremendous electric power was developed by the free enterprise system which has made America greater than any other nation.

the least you can do

THE EARLY GREEK PHYSICIANS believed that it was not possible for a man to enjoy perfect health unless he carefully organized his life to accompaish this single objective. This meant the meticulous ordering of each day. Proper nutrition, exercise, and rest were perfectly balanced. Physical constitution, age, and even the seasons of the year were considered.

For a man of affairs, such a regimen is out of the question. When your work is done, you play and exercise when you can. But this little you can do. See your family physician at least once a year. Follow his advice. In case medication is required, we are prepared to serve you, promptly and economically.

will be announced later. The Billie Burke and George Cleve-The public is cordially invited tracks and the people behind them brings to the screen the famed quarter horse Texas

The quarter horse gets his them.

name from the fact that he can attain tremendous speed and maintain it for a quarter of a mile. In this class, it is said, he can outrun anything on four legs, including thoroughbred racers. Equally skilled at cutting out cattle, ranch or rodeo work, he can also be used for polo or as a gentle saddle horse. His chief advantage on the ranch is that he can work six days a week and gallop home to victory in a Sunday

The film translates to the screen the spine-tingling thrills of quarter horse racing which forms the background for the gay romance between the prin-

Victor Mature Stars In 'Gambling House'

Romance and drama of an unusual kind keynote "Gambling House," RKO Radio's starring vehicle for Victor Mature, Terry Moore and William Bendix, as played against the background of the New York underworld. Showing dates for this film at the Texas Theatre are next Tuesday and Wednesday August 7, 8.

Portraying a foreign-born gambler who has never bothered to take out naturalization papers. Mature finds himself acing deportation when his tatus is revealed during the ourse of a murder trial. His udden awakening to the value f citizenship, and his stormy ove affair with a pretty socialservice worker, are complicated by his feud with another gambler, with the result that there s plenty of suspense before the limax is reached.

Zachary A. Charles, Donald * Randolph, Basil Ruysdael, Ann "Boy from Indiana" co-stars Doran, Damian O'Flynn, Cleo Lon McCallister and Lois Butler. Moore, Eleanor Audley and Betty Underwood are seen in upporting parts.

No doubt about it—you'll make a mighty handsome picture in a strapping new '51 Buick.

But it isn't the way you look, but the way you feel that's really important.

We'd like you to discover a Buick's ease and comfort, a Buick's power and performance, a Buick's steadiness and control - just to see if maybe you have been missing a travel treat.

We'd like you to discover what a valve-in-head engine - gingered with Fireball combustion - can mean in pulse-pounding thrill and in big miles-per-gallon figures.

We'd like you to learn what coil springs on all four wheels-not just the front ones-can do in the matter of smoothing a rough road and keeping you on a level keel.

We'd like you to see what generous roadweight and a rigid torque-tube mean in solid steadiness of ride what Dynaflow Drive* does for you in downright comfort and convenience-what a breeze it is to handle so big and roomy and impressive a

Most of all, we'd like you to note the easy-to-take price tags our cars wear-what a whale of a lot more automobile you get for your money

in today's Buicks than you'll get elsewhere.

So-come in for a sitting soon, won't you? Whether you try a Special, SUPER or ROADMASTER, you'll find it the top buy in its field-and a beauty from any angle.

Equipment, accessories, true and models are subject to change with out notice. Standard on ECADMASTEE, optional at astro sort or other Section.

NO OTHER CAR PROVIDES ALL THIS:

FIREBALL ENGINE — high-compression, valve-in-head —gets more miles from every tank of fuel PUSH-BAR FOREFRONT - combines smart style and

WHITE-GLOW INSTRUMENTS—greater clarity at night TORQUE-TUBE DRIVE - seals the chassis, steadies ride,

4-WHEEL COIL SPRINGING - cushions ride, soves

DUAL VENTILATION — outside air fed separately to SELF-ENERGIZING BRAKES - hydroulic - multiply

DREAMLINE STYLING - topered, car-length fenders,

Pfvs: Self-locking luggage lid, StepOn parking brake, two-way ignition lock, Safety-Ride rims, Hi-Poised engine mounting, Body by Fisher

Farm Bureau Area To Have Field Man

Bob A. Lilly

Bob A. Lilly has been named field representative for the Texas Farm Bureau Federation and will serve 36 counties in this part of the state, it was announced today by Ben J Frerich, president of the Runnels County Farm Bureau. This county is in Lilly's district.

In announcing the field man' assignment to this area, Mr Frerich said he would be able to give Runnels county needed assistance in organization work and program and planning activities throughout the year, which will expedite the Bureau CHUCK program in this county and area. Lilly, formerly farm agent in Calhoun county, assumed duties with the Bureau on July 15 and is presently meeting with the boards of directors in 36 counties of his area. Lilly will make his headquarters at Zephyr, Brown county.

Marvin Carter, director of organization for the state federation, in assigning Lilly to this area, stated that the organization was adding four additional field men to its staff divided into seven areas. Lilly's territory has 25 organized counties, with a membership last year of 9,944. The thirty six counties comprising his area
