23 Farmers, Ranchmen Approved for Practices

The Runnels soil conservation district this week approved plans of 23 farmers and ranchmen to establish conservation practices on their land as a part of a complete soil and moisture program in the district.

The board of supervisors in a special meeting Monday afternoon in Ballinger signed individual agreements with the land owners and operators to assist in establishing the initial practices as planned and to further develop complete plans for each farm or ranch.

"We are pleased with the progress made during the first six weeks of operation of the district," Herman Giesecke, Jr., chairman of the board, said. Other members of the board attending Monday's meeting, who also reviewed and approved the plans, were Kirby Robinson and Ralph Burns.

Operations of the district started July 1, when the soil conservation service established a work unit in Ballinger in accordance with a formal memorandum of understanding between the Runnels Soil Conservation District and the secretary of agriculture, which was completed in June.

The work unit includes a professional soil conservationist and an engineer to assist farmers in planning and designing conservation practices to fit the individual needs and conditions of each field or pasture. The services of a soil scientist and other specialists are available as needed. Other personnel will be available to stake out and check engineering practices.

Agreements with the following farmers were formally approved by the board Monday, making a total of 10,743 acres eligible to receive technical services and other assistance available through the district: Henry H. Lewis, Winters, 90 acres; Louis F. and Eugene J. Loka, Ballinger, 751 acres; Norval S. Alexander, Winters, 223 acres; Isaac W. Conway,

Hatchel 250 acres; John W. Norman, Winters, 90 acres; Marvin D. Stephenson, Bronte, 333 acres; Dunn and Sanger, Winters, 4,484 acres; Bennie W. Wilde, Ballinger, 936 acres; William J. Fowler, Ballinger, 168 acres; Harvey G. Bradley, Ballinger, 110 acres; Emil J. Urban, Miles, 265 acres; Emil J. and Edwin Urban, Miles, 110 acres; Henry B. Edmondson, Ballinger, 570 acres; A. J. Bishop and son, Winters, 220 acres; Harold Mueller, Ballinger, 25 acres; James F. Mackey, Norton, 148 acres; J. L. Williams, Ballinger, 339 acres; J. T. Routh, Ballinger, 254 acres; William D. Duke, Ballinger, 203 acres; Ernest Aycock, Ballinger, 304 acres; Cyril J. Zly, Ballinger, 340 acres; Andrew Englert, Winters, 182 acres, and Charles W. Humphries, Talpa, 348 acres.

Twenty of the new district cooperators planned to apply one or more practices this year which would be eligible for assistance under the agricultural conservation program of the department of agriculture. In planning and applying the practices in accordance with district standards, farmers are assured of technical adequacy to qualify for ACP payments, Mr. Giesecke pointed out.

Eighteen of the 23 district cooperators made their initial requests through the PMA office and were given an opportunity to enter the district program when soil conservation technicians visit the farms to make the required technical determination for approval of permanent-type practices by PMA.

Requests for the services of the soil conservation service technicians assisting the district may be made either at the soil conservation service or production and marketing administration office in Ballinger, or by contacting one of the supervisors. Requests for ACP assistance on terraces, diversions, or earthen dams may be made at the PMA office either before or after they have been planned by the soil conservation service.

Citizens Approve \$60,000 Bond Issue For Swimming Pool

Ballinger voters Tuesday expressed their approval of the \$60,000 bond issue, earmarked for construction of a swimming pool, by an unofficial count of 316 for and 68 against.

The city commission submitted the issue to the citizens after it received petitions bearing about 700 signatures. Civic clubs and young people took an active part in the campaign, helping to circulate the petitions and also in getting voters to the polls Tuesday.

The city has not received any estimates on building the pool but those who initiated the movement here investigated cost and believe that the \$60,000 will make possible a pool adequate for a town the size of Ballinger.

City officials will proceed with the project at once and will discuss location, size and numerous other items at a meeting to be called shortly. If all the money is not needed, only the required amount of bonds will be sold and the remainder voided.

Ready Next Year
Members of the city commission and leaders who sponsored the swimming pool project were swamped Tuesday with inquiries as to when the pool would be built.

City officials stated that there were numerous preliminaries before work could be commenced. In the first place the bonds must be printed, approved by state authorities, and sold. Details as to location, size of pool and other matters will have to be decided. Approval of several groups must be secured to obtain materials and the spending of money for the project.

After these matters are attended to, the city must advertise for bids several weeks before a contract can be let. All this will require considerable time and it will be next spring before the pool can be opened.

Many Activities Listed by Sheriff During Past Week

The Runnels county sheriff's department completed a busy period the past seven days, making a number of arrests, numerous investigations and received many complaints.

Sheriff Don Atkins stated that complaints have been received from adults in regard to youngsters driving fast and recklessly. He added that some do such driving that some have been stopped and given lectures. The sheriff points out, however, that anyone who will park for one hour and watch traffic will find more adults speeding than young people.

Rev. Joseph Emery To Begin Pastorate Here September 2

Rev. Joseph L. Emery, one of the youngest Baptist pastors in the city of Houston and former pastor of the Riverside Baptist Church there, has moved to Ballinger and will begin his active pastorate of the First Baptist Church Sunday. Announcement has been made that he will be in all services of the church Sunday.

Rev. Joseph L. Emery

Rev. Emery, 26 years of age, held the pastorate of two Baptist churches when he was 18 years old. He went to Houston in May, 1951, and the membership of the Riverside church grew from 221 to 400 in the one year. The membership, which had just completed a new church, has now added a \$20,000 parsonage. In accepting the call to the Ballinger church of 1,400 members he stated that he realized the opportunity for service would be much greater.

A native of Temple, the minister preached his first sermon in the First Baptist Church there at the age of 17. The next year he received a call to serve the Sparks and Heidenheimer churches in Bell county.

While preaching at these churches he entered Baylor University, where he met and married Miss Ann Snider, of Beckley, West Virginia. Upon graduation from Baylor he entered Southwestern Baptist Theological Seminary, Fort Worth. During the latter part of his education he served the Goldthwaite church as pastor. The couple will be at home in the Baptist parsonage on Broadway.

Local Schools to Open Tuesday Morning 8:30

School registrations are underway here this week for all high school classes and will be concluded tomorrow. Students in other schools will report at their rooms Tuesday morning at 8:30.

Students in the first, second and third grades will report at the elementary building on the high school campus. Those in the fourth, fifth and sixth grades will go to the new elementary building on the junior high campus and all others will report at the high school.

All faculty members will assemble next Monday for a general meeting with Supt. Ernest Caskey and later will attend meetings with principals. At the two meetings general operation of the schools will be outlined and principals will discuss classroom work and schedules.

Buses will run Tuesday morning but it has not been decided whether full day sessions will be held. In elementary buildings classes will be formed, books issued and students given a list of supplies which they will need.

For a time all students in the school system who take

their meals at school will be fed at the cafeteria on the high school campus. Within a few weeks the new cafeteria on the junior high campus will be completed and in operation.

Negro School Opening

The new negro school will hold open house and dedication rites Monday evening. Students will report there at 8:30 Tuesday morning to begin classwork.

All Ballinger citizens are invited to attend the open house at the negro school Monday.

For the past two weeks, Principal Joe Forester has been meeting new high school students who will attend Ballinger schools for the first time. He has received a considerable number and stated Monday that he expected an even larger number this week before regular registration starts. He stated that while a sizeable number were entering the high school, a number were leaving Ballinger. Indications are that all lockers in the high school will be assigned and that more will be needed.

All faculty positions have been filled and all are expected to be here by Monday morning.

Schools to Employ 93 People to Start Year

The Ballinger schools will have 93 people on the payroll next Tuesday when the 1951-52 term gets underway and others may be added during the year as needed.

Supt. Ernest Caskey stated Monday that 63 people would be on the faculty of all schools starting Tuesday. At the present two teachers are needed due to last minute resignations.

Resignations were received from Mrs. B. V. McNeill, a teacher in the elementary school, and from Mrs. Bonnie

Daugherty, teacher of girls' physical education. Mr. Caskey stated that he expected to be away from Ballinger most of the week and hoped to replace the two by the end of the week and have them here next Monday for the faculty meeting.

In addition to the teaching staff 6 janitors, 12 workers in the lunch room, 10 bus drivers and two in the downtown office will be employed. It is probable that additional workers will be needed when the two lunch rooms are in operation and the peak load is reached.

\$4,010,169 Tax Rolls OKed by Commission

Dedication Rites For Negro School Monday Evening

Ballinger school officials have announced an acceptance and dedication program at George Washington Carver school Monday evening. The program is to begin at 7:00 p. m. and an open house will follow from 8:00 to 10:00 p. m.

The new school for negroes will be ready for classroom work on September 4. Pupils will register that morning at 8:30 and work will get underway at once.

The program arranged is as follows:

Master of ceremonies, M. A. Foy
Song, "America"
Invocation
Song
Presentation of building
Acceptance of building, C. A. Bissett, president of board of trustees
Dedication, District Judge O. L. Parish
Appreciation, F. A. Jernigan, principal of school
Benediction.

The public is invited to attend the program and the open house, 8 to 10, to inspect the new building. Honor guests will include the entire board of trustees, C. E. Maedgen, J. G. Tuckey, Tom Agnew, Claude Thompson, M. A. Foy and Jack Hampton.

The Parent-Teacher Association will serve refreshments.

Mr. and Mrs. O. C. Sykes have returned home after a vacation in Colorado; Cheyenne, Wyoming; Fort Sumner, New Mexico; and Lawton, Oklahoma, where they visited Lt. and Mrs. Bobby R. Sykes.

Ross Murchison, Jr., student at Sul Ross College, Alpine, is here for a visit with his parents, Mr. and Mrs. Ross Murchison, and other relatives and friends.

The city commission in session Monday inspected and approved the new tax rolls for the current year.

The new rolls as approved have city property valued at \$4,010,169 as compared with \$3,680,775 last year. This represents an increase of \$329,394, which is largely from new construction here the past year.

City Secretary Fred Underwood stated that about \$250,000 of the increase is for new residences. The rest is from improved business property and from boost made by the board of equalization.

The \$4,010,169 values this year with a tax rate of \$1.90 will bring in \$76,193 to the city funds. Last year the \$3,680,775 values with a tax rate of \$2.40 brought in \$88,338.

The decrease in the proposed needs of the city this year is because of the fact that deficits have been wiped out and less money will be needed to meet operational costs and requirements of the interest and sinking funds.

City employees are busy now making out tax receipts in order to have them bound and ready for collections which start on October 1. All property owners will receive notices by mail showing the amount owed the city. These notices will be mailed in September so they will be received before the collecting period.

Rotarians Launch Ticket Sale Here For Dallas Singers

The Ballinger Rotary Club at its meeting Tuesday noon spent considerable time in launching a ticket sales campaign for the Dallas Rotary Glee Club which is to appear here in concert on the night of September 25.

The concert is being sponsored by the Ballinger Rotarians and they plan an intensive ticket selling campaign during the next few days. A supply of tickets was handed each member present Tuesday and they will be expected to start selling at once. A goal of 750 has been set. Adult tickets are \$1.20, including tax, and students will be admitted for 60 cents.

The glee club of 30 voices will come to Ballinger on September 25 by chartered bus and will return home after the program. The group has been together for a number of years and is rated as one of the best singing ensembles in the state.

Joe Forester was speaker for the program Tuesday, talking on the back-to-school theme. He gave information on the type of records kept for each student in the school system and showed how the data is used during the 12 years the student is passing from one building to another. Mr. Forester gave information on the cost of new buildings and equipment which have been added to the system and expressed appreciation to property owners and voters who made these facilities possible.

Mr. and Mrs. Jack Pridden returned home the past week-end after a vacation trip to Colorado and other states.

Miss Helen Brewer left the first of the week for Odessa, where she is a member of the school faculty.

Dove Hunt Season To Open Saturday; Hours are Limited

The open season on mourning doves begins in this zone Saturday noon. A radical change in the hunting law permits only hunting from noon until sundown.

According to a statement from the state game commission, finding doves in the droughty region will be doubtful this year, reports revealing many are moving into areas where grain is earlier and feed is better. Local farmers and ranchmen here the past week-end said they had noticed fewer birds the past two weeks.

Sporting goods houses have an ample supply of shells and guns. Ammunition is higher this year but most orders have been filled and will be ready for retail sale.

The bag limit remains ten birds a day and with only ten in possession at any time. People who plan to hunt outside the county will need hunting licenses. The new license blanks have been received here and can be obtained at sporting goods stores. The licenses are good from September 1, 1951, to August 31, 1952.

Many think the season is being opened too early here as many doves are still nesting and some of the young birds are not grown. The date was changed in the southern zone after most hunters expressed a desire to see the date set later. Those in the northern zone, of which Runnels county is a part, indicated they wanted the dates to remain as in the past, in a survey conducted earlier in the year.

Mr. and Mrs. Jim Dunean returned the past week-end from two weeks spent in Yellowstone National Park, the Grand Canyon and other places of interest.

Miss Hattie Mae Dunlap left Saturday for Seminole, where she teaches music, after a very brief visit with her mother, Mrs. G. W. Dunlap, and aunt, Mrs. Annie Arterburn.

Mr. and Mrs. J. L. Thomas and son, Homer, of Carlsbad, New Mexico, visited Lloyd's parents, Mr. and Mrs. Joe Thomas, several days the past week.

when the ounce of prevention fails

WARNING AGAINST ACCIDENTS in the home and on the highways is old stuff to most of us. Many industries have made real progress in accident prevention, but our homes continue to produce minor and major injuries on an ever-increasing scale.

In spite of every precaution, accidents will occur. When the "ounce of prevention" fails, it is wise to have "the pound of cure" ready and at hand. See that your medicine cabinet is amply stocked with standard first-aid materials. Keep a first aid kit in the pocket of your car. We shall be pleased to help you select the essential items from our complete stock.

Don't let "little things" get you down!

The wisest truckers in town rarely come to us for major repairs. That's because they make a practice of turning their equipment over to us at regular intervals—let us catch the "little things" that go wrong before they can eat away performance and run up operating expenses.

We specialize in giving truckers more "run" for their maintenance money. Our repair department is staffed by veteran mechanics who know how to arrest truck troubles before they mushroom into full-grown breakdowns!

The service is fast, the work done right—and the savings? 3-Way Thrift for truckers! You (1) cut down the possibility of costly repairs, (2) get better performance with less "down time" and (3) get more years of service from the trucks you now run.

Isn't that mighty important to you today?

Get more 'run' for your money!

ANDES WHALERS . . . The war scare in the world today has created a great demand for whale oil, and Chile has entered the world's most thrilling profession—catching huge 74-foot, 69-ton mammals like this one. At Quintay, a fleet of eight boats is catching 1200 whales a year. Chile's whaling industry produces about 5000 tons of oil, the finest for precision machinery, and about 1000 tons of nitrogen fertilizer, with a total value of \$4 million. The industry is non-stop the year around. From December to May, the whaling takes place 70 miles off the coast, and from June to November it goes on in the polar regions.

The Rev. Monroe J. Matthiesen read the service at 7:30 o'clock on Wednesday morning, August 22. The Rev. Leroy Matthiesen was celebrant of the nuptial high mass. Deacon was the Rev. Monroe Matthiesen. Sub-deacon was the Rev. James Comiskey. Hugo Braden was master of ceremonies.

For the service, the altar was decorated with gladioli.

Given in marriage by her father, the bride chose a gown of nylon marquisette designed with a fitted bodice and yoke of Chantilly lace. The high Victorian neckline was complemented with a brief standing collar. Small covered buttons extended down the front. Sleeves tapered to points over the hand and bands of lace trimmed the full skirt, which extended to a cathedral-length train. The finger-tip veil of illusion fell from a coronet of pearlized orange blossoms. She carried a bouquet of white carnations, centered with an orchid.

Mrs. Kenneth Fuchs, sister of the bride, was matron of honor. She wore a double skirt of aqua and white nylon net over aqua taffeta slip. Her headdress was of ruffled aqua and white net. She carried a bouquet of pink asters.

Bridesmaids were Misses Evelyn Englert and Ethel Halfmann. Joann Halfmann was junior bridesmaid. Their gowns were of shrimp and aqua nylon net over rose taffeta. Their gowns and headdresses were identical to that of the matron of honor. They carried bouquets of blue asters.

Dorothy Jean Halfmann was flower girl. Wayne Mazue was ring bearer. Norbert Matthiesen, brother of the bridegroom, was best man. Kenneth Fuchs and Lee Allen Halfmann were groomsmen.

Immediately following the ceremony the bride was presented a statue of the Virgin Mary. A crucifix was presented to the bridegroom by David Fuchs and Curtis Multer.

A reception was held after mass in the Parish Hall. Refreshments of cake and punch were served to relatives and close friends. Mrs. Floyd Frerich presided at the guest register.

An all-day reception was held in the home of the bride's parents. The three-tiered wedding cake was served by Mrs. Jerome Hoelscher and Mrs. Floyd Frerich. A dance was given in the Oifen Community Hall in the evening.

For a trip, Mrs. Matthiesen chose a navy suit with navy and pink accessories. Upon returning the couple plans to live at Oifen.

Mrs. Matthiesen is a graduate of St. Joseph's School at Rowena. The bridegroom attended Oifen School and Josephinum College at Worthington, Ohio.

To compliment Miss Gladys Davis, bride-elect of Gladden Bedford, of Winters, a gift shower of lingerie and other personal gifts was given Tuesday evening by Mrs. E. B. Underwood in her rural home in South Ballinger, with her mother, Mrs. E. E. Avey, assisting.

Mixed bouquets of zinnias and other garden flowers were arranged in party rooms where guests were received by the hostess and the honoree.

A miniature bride encircled with dainty white flowers and ferns formed the centerpiece for the dining table where frosted lime punch was served with cookies.

Mrs. Morris Stokes registered guests in the bride's book which listed about forty friends of the honoree. From out of town were Miss Gladys, Mary Margaret and Russell Bedford, and Mrs. David Carroll, all of Winters.

Dexter Eoff and Mrs. Lee Maples were hostesses at a beautiful gift tea in the home of Mrs. Wright on Sharp Avenue, including 150 friends of the honoree.

The late summer colors were given attractive emphasis in all details with gladioli in shrimp tones being used to decorate the entire reception suite.

Little Linda Wright, sister of the honoree, extended greetings at the patio and directed guests to the receiving line in the living room, where Mrs. Jim Mac Wright welcomed guests and presented Mrs. Daugherty, Mrs. J. W. Wright, Jr. and her daughter, Mary, Mrs. Bob Allen of Norton, the bridegroom-to-be's mother, and Mrs. J. W. Wright, Sr., the bride-elect's grandmother.

Mrs. Maples directed guests to the dining room. The tea table, which was laid in Normandy lace, was centered with an arrangement of shrimp gladioli which was reflected. Green punch and individual cake squares iced in white and decorated with green florals, green mints and salted

nuts were served by Misses Bobbie Marie Eoff, Dorothy Daugherty, Evelyn Ray, Nita Sikes and June Graham.

Miss LaRita Price registered guests in the bride's book and gifts were displayed by Mrs. Eoff and Mrs. Gus McMullin, of Menard. Mrs. O. B. Love, of Brownwood, spoke the adieu.

STERN GREETING FOR CZECH AMBASSADOR... Czechoslovakia's new prime minister, Dr. Vladimir Prochaska, faced an angry reception as he arrived in the United States. Pickets from the Czech National Council of America marched along the docks in New York carrying placards which protested the imprisonment of A.P. correspondent William Oatis and the disappearance of Czech Archbishop Beran. Also, Prochaska was faced with a chilly reception when he made diplomatic calls upon the President at the White House and at the state department, which has entered diplomatic requests for the return of the imprisoned American citizen.

SERVICE

Watch for My Picture Here

SERVICE is something we all like and appreciate.

When dining out we leave tips by our plate to show our gratitude for a well-served dinner.

PEOPLE will go out of their way to patronize the workman who gives them good service.

MY DEFINITION for service is—Promptness and care in doing your work—courtesy toward you—doing a little bit more for you without any extra charge.

SO I consider service as important as quality. This combination not only gets customers but makes friends of them as well. I contend that there are more important things in this life than money, and service is one of them.

WEST TEXAS NOTES

There have been numerous reports of speeding and reckless driving on city streets during the summer. The opening of school will make this menace greater, and while Ballinger has been fortunate in the past, both Broadway and Eighth Street are dangerous routes over which heavy traffic pours at all times. As in the past, junior deputies will be on duty at cross streets in the vicinity of the high school and elementary school to help make the crossings safer for the little folk. They will be under the supervision of the sheriff's department and city police and all car drivers are asked to be on the lookout for them and cooperate. Those who fail to stop when the red flags are down will have their license numbers reported and tickets will be issued for appearance in city court. Officers and school officials are doing everything possible to make the streets safe during the school term.

The dove season for this zone will open Saturday and while birds are scarce this year, many hunters will be out for a kill the first day. Peace officers in this section declare the most open violation is shooting from the road. It is a violation of the law to shoot from a road, along a road or across a road. Many drive down rural roads and shoot from their cars, which is not legal, and a closer watch is promised this season. Land owners have been urged to report anyone violating this section of the hunting law. Hunters are also warned that only half-days are permitted this year. Heretofore hunting could start at sunrise and continue until sunset. This year it will be from noon until sundown, with the bag limit ten birds. Any person who hunts outside his home county must have a license.

Runnels county people are to be praised for responding so readily to the Red Cross' appeal for flood relief. When asked for \$1,000 double that amount was contributed, only to receive word a short time later that twice as much as originally asked was needed. The second call did not bother county Red Cross officials since they already had the money in hand. Runnels county people are always willing to contribute of their means for a worthy cause and especially when others are in distress.

The palm tree is so named because its leaf was thought to resemble the palm of a person's hand.

Graduates of the Brady Hospital school of nursing held their first homecoming at Richards Park Saturday. The school was established in 1917 and has graduated about 100 nurses. At the first meeting 63 guests registered. An organization was formed and it was voted to meet at Brady again in 1953. After registering at the nurses' home, the group went to the park where a barbecue dinner was served.

The city of Melvin will receive insurance rate adjustments at once, according to information received from George C. Hawley, chief engineer of the state fire insurance commission. After a recent survey the city was promised the rate change with a number of provisions. The city will begin purchasing new fire hose and continue until 1,000 feet are acquired. The county-owned fire truck will not leave the city limits too often and will soon be replaced by a new city-owned truck. The department will remain organized and meet regularly for drills.

Vocational agriculture will be offered in the Menard high school for the first time this fall. Approximately 35 to 40 boys are expected to enroll in the classes. Burl Hendricks, instructor, stated. The course will include farm shop work, classroom study, field trips to local farms and ranches, individual projects, and participation in other Future Farmers of America activities. Boys' work in agriculture and livestock has been carried on through 4-H clubs heretofore.

A wildcat oil well will be drilled on the D. G. Bishop place near Doole in Concho county. Operators stated drilling would begin around September 1 and would go to 1,900 feet or production. Reese Weinsard, of Eugene, Oregon, and Clyde Stuart, of Brownwood, hold the lease. A wildcat completed on the Bishop place about a year ago was a failure.

HAS YOUR ADDRESS BEEN CHANGED?

Ledger subscribers are requested to notify the publisher of any change in their address promptly.

Under postal laws newspapers and periodicals must pay postage due for notices of any change in address furnished by the post office. Besides there always is the probability that your paper will be delayed or fail to reach you altogether if you do not give immediate notification when you move.

The best plan for all concerned is to send the change of address in advance.

The annual Mission Festival was held at Trinity Lutheran Church in Miles Sunday. For this occasion, Rev. Fred Henkel delivered the sermons. Ordained 25 years ago, Rev. Henkel came to Miles then as pastor. Rev. Henkel and his family will remain in Miles for a week or more visiting friends. He recently established a church at Auburn, Nebraska, and at present is organizing a church at Great Bend, Kansas.

The Dublin Pre-Madison Square Garden rodeo is on this week and will be concluded Saturday night. Record breaking crowds are attending and special nights have been arranged with Stephenville citizens guests for tonight. Rodeo performers were on hand early to register and take part in the show which will be climaxed in New York city. Outstanding bands, clowns, parades and the appearance of a motion picture star are features.

The Stephenville and nine other schools in Erath county have complete facilities and are ready for openings on September 3 and 4. There are still nine schools operated in the county group at Alexander, Bluffdale, Daffau, Huckaby, Lingville, Morgan Mills, Selden, Purves and Three Way. All schools have been repaired during the summer. At Alexander the Parent-Teacher Association has cleared the grounds and made other improvements.

Legion officers stressed that it was a gathering of the entire community and all citizens were invited to inspect the new clubhouse. Speaker for the program was State Senator Dorsey B. Glen Cove, Coleman county, is the scene of much oil interest as two new wells were brought in last week, extensions to the Jennings sand field. The discovery, Luling Oil & Gas No. 1-Whittington, was brought in three weeks ago and is good for 422 barrels daily. No. 2-Whittington was estimated at 400 barrels and the Galloway No. 1 was flowing at 25 barrels an hour. Numerous locations are being made in the new field.

You never tried a fine car like This One

YOU'VE a right to set your sights higher when you buy a fine car.

You can rightly expect more room—more comfort—more performance—and a lordly smoothness in the way it carries you.

So we present these facts:

You'll find, in a ROADMASTER, more usable room than you'll find in any other six-passenger car in America.

You'll find the extra comfort of double-depth Foamtex cushions in ROADMASTER only.

You'll find that the ROADMASTER has a high-compression, valve-in-head power plant that is also Buick's own—a mighty Fireball

Engine endowed with more performance than most owners will ever need.

And you'll find that a ROADMASTER rolls with unsurpassed levelness and poise, thanks to coil springs on all four wheels—which is still another feature found on no other car in the fine-car field.

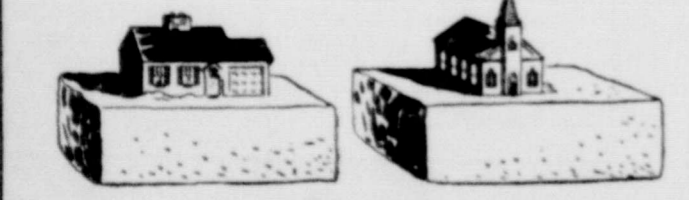

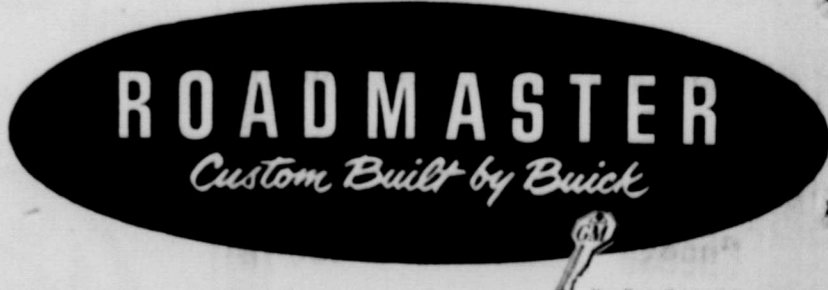

But the thrill that is yours, when you get this willing beauty out on the open road, is something that can't be summed up in any listing of features, one by one. It's a "feel" which, we honestly believe, no other car can approach. It's the sure way this dazzling performer holds the road—the way it

responds to your slightest wish—the quick answer you get when you nudge the throttle—the extra security you feel in the velvet grip of the brakes—the complete freedom from tension you find in Dynaflo Drive—the sense of mastery that makes every mile a joy.

And, confidentially, there's one more important way in which ROADMASTER stands alone, and that is in the modest cost of its pounds and performance.

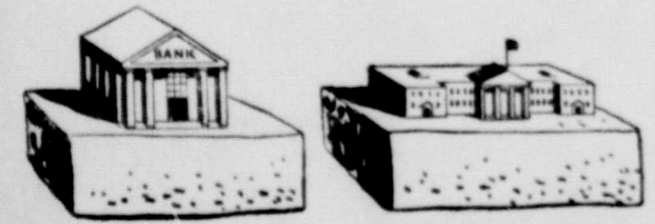

Better come in soon and check for yourself what a great car and a great buy this one really is.

Equipment, accessories, trim and models are subject to change without notice.

Horseshoe Offerings for Ensuing Week

The West's most fabulous gun-totin' beauty, Calamity Jane, tangles with six feet of fighting he-man in the Columbia release in Cinecolor, "The Texan Meets Calamity Jane," to be shown at the Horseshoe Drive-In Theatre tomorrow and Saturday, August 31, September 1, in conjunction with "Stage to Tucson."

Evelyn Ankers has the role of "Calamity Jane," the gal who was a match for any man who tried to cheat her, either with a gun or with a kiss. James Ellison portrays the lawyer from Texas, just as handy with a six-gun as he is with fine legal points. Featured are Lee Lassie White, Ruth Whitney and Jack Ingram.

"Stage to Tucson" is the film version of a best-selling novel, "Lost Stage Valley," and is based on incidents which were current in the Southwest in 1861, just prior to the Civil War. Rod Cameron and Wayne Morris head the cast, and featured are Kay Buckley, Sally Eilers and Carl Benton Reid.

A colorful, hard-fighting regiment of U. S. cavalry that battled and fought its way to fame in the rugged Black Hills of Dakota serves as the exciting focal point for "Warpath," billed at the Horseshoe Sunday, Monday, Tuesday, September 2, 3 and 4.

With Edmond O'Brien, Dean Jagger, Forrest Tucker and Harry Carey, Jr. starred, and lovely Polly Bergen heading a big featured cast, this Paramount production excitingly recreates the story of the most savage and widespread Indian warfare that the West ever saw.

The parole system affords an unusual background to the drama and romance of "The Company She Keeps," RKO Radio release which is to be shown at the Horseshoe next Wednesday and Thursday with Elizabeth Scott, Jane Greer and Dennis O'Keefe in the stellar roles.

Miss Greer is cast as a girl released on parole from prison, and Miss Scott portrays the parole officer to whom she reports. Suspicious of everyone, the parolee faces adjustment to her new life as a nurse's aide. This process is endangered when she falls in love with O'Keefe, a newspaperman who, up to that point, had been regarded as Miss Scott's private property.

Labor Day . . . 1951

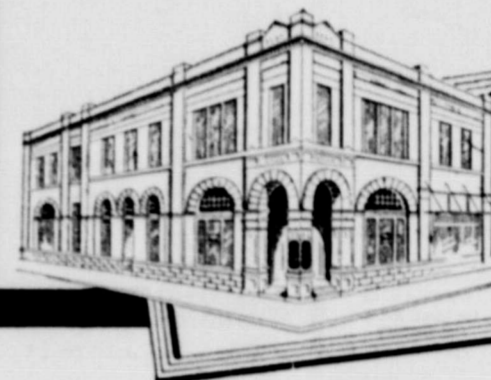

America's strength is its capacity for production. Men and machines, under our free enterprise system, have turned out vast quantities of things for defense and for our daily needs. Other nations have also been aided in their fight against aggression.

On Labor Day we honor those who work to produce more and better things. Their remarkable record of progress and higher standard of living were made possible by our free institutions. In other lands we can see how the liberties of the people are lost when representative government is overthrown.

Individual freedom is a priceless asset which we must ever endeavor to preserve.

HOUSE JOINT RESOLUTION NO. 2

proposing an amendment to Section 49-b, Article III, Constitution of Texas, so that the total amount of bonds or obligations that may be issued by the Veterans' Land Board is increased to One Hundred Million Dollars (\$100,000,000); providing for the issuance of said bonds and certain conditions relating thereto and the use of the Veterans' Land Fund; providing for an election and the issuance of a proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 49-b, Article III, Constitution of Texas, be amended so that the same will hereafter read as follows:

"Section 49-b. There is hereby created a Board to be known as the Veterans' Land Board, which shall be composed of the Governor, the Attorney General, and the Commissioner of the General Land Office. The Veterans' Land Board may issue not to exceed One Hundred Million Dollars (\$100,000,000) in bonds or obligations of the State of Texas for the purpose of creating a fund to be known as the Veterans' Land Fund. Such bonds shall be executed by said Board as an obligation of the State of Texas, in such form, denominations, and upon the terms as are now prescribed by Senate Bill No. 29, Chapter 318 of the Acts of the Fifty-first Legislature, provided that when the limitation of Twenty-five Million Dollars (\$25,000,000) is used in said Senate Bill No. 29, the same shall hereafter be construed as One Hundred Million Dollars (\$100,000,000), or as said Act may be hereafter amended, or by other laws that the Legislature may hereafter enact, provided, however, that said bonds shall bear a rate of interest not to exceed three per cent (3%) per annum, and that the same shall be sold for not less than par value and accrued interest.

"In the sale of any such bonds, a preferential right of purchase shall be given to the administrators of the various teacher retirement funds, the Permanent University Funds, and the Permanent School Funds; such bonds to be issued as needed, in the opinion of the Veterans' Land Board.

"The Veterans' Land Fund shall be used by the Board for the sole purpose of purchasing lands suitable for the purpose hereinafter stated, situated in this State, (a) owned by the United States, or any governmental agency thereof; (b) owned by the Texas Prison System, or any other governmental agency of the State of Texas; or (c) owned by any person, firm, or corporation.

"All lands thus purchased shall be acquired at the lowest price obtainable to be paid for in cash, and shall be a part of the Veterans' Land Fund.

"The lands of the Veterans' Land Fund shall be sold by the State of Texas Veterans of the present war or wars, commonly known as World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945, as may be included within this program by legislative act, in such quantities, and on such terms, and at such prices and rates of interest, and under such rules and regulations as are now provided by law, or as may hereafter be provided by law.

"All moneys received and which have not been used for repurchase of land as provided herein by the Veterans' Land Board from the sale of lands and for interest on deferred payments, shall be credited to the Veterans' Land Fund for use in purchasing additional lands to be sold to Texas Veterans of World War II, and to Texas Veterans of service in the armed forces of the United States of America subsequent to 1945, as may be included within this program by legislative act, in like manner as provided for the sale of lands purchased with the proceeds from the sales of the bonds, provided for herein, for a period ending December 1, 1959; provided, however, that so much of such moneys as may be necessary during the period ending December 1, 1959, to pay principal of and interest on the bonds heretofore issued and on bonds hereafter issued by the Veterans' Land Board shall be set aside for that purpose. After December 1, 1959, all moneys received by the Veterans' Land Board from the sale of the lands and interest on deferred payments, or so much thereof as may be necessary, shall be set aside for the retirement of said bonds and to pay interest thereon, and any of such moneys not so needed shall not later than the maturity date of the last maturing bond or bonds be deposited to the credit of the General Revenue Fund to be appropriated to such purposes as may be prescribed by law. under the Constitution of Texas. Of the total One Hundred Million Dollars (\$100,000,000) of bonds herein authorized, the sum of Twenty-five Million Dollars (\$25,000,000) has heretofore been issued; said bonds are hereby in all respects validated and declared to be obligations of the State of Texas. This amendment shall become effective upon its adoption."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held through out the State of Texas on the second Tuesday in November, 1951, at which election all voters favoring the proposed Amendment shall write or have printed on their ballots the following words:
