Whether your home is old or new, you can keep it young looking with Cook's Companionate House Paints-six lovely hades made especially to harmonize with roof colors. With these Companionate Colors, it is next to impossible to "go wrong." All the colors look well together, and the five basic hues may be blended with gray or any of the six colors may be blended with white to produce variety on the different areas of your house without disturbing the appropriateness of the color. All of Companionate Colors: April Yellow
 Rosetone Red
 Cream
 Spruce Green the colors are delightfully neutralized to avoid harsh, garish effects and you can achieve an excellent harmony either by choosing a color related to your roof color, or one that contrasts with it. Like all Cook's House Paints, these Companionate Colors are designed to age by chalking—the only satisfactory method for providing a sound foundation for future repainting. Come into our store today and ask to see the shades, mixtures, and tints as they are shown on the color panels. We're sure you'll like these "young" colors-colors that bring distinct in-

dividuality and perfect harmony to your home.

If you prefer white, use Cook's OUTSIDE WHITE House Paint for gleaming beauty and protection

-LINTZ'S First Floor

CHRYSLER FirePower is so much more than HORSEPOWER

- It's worth remembering that today's Chrysier V-8 is not a "warmed-over" engine, but basically brand new . . . the first truly new type engine of modern times. It does, indeed, open new horsepower potentials, but what it can mean to you goes way beyond just that . . .
- + FirePower gives your gasoline a better place to work . . . the first hemispherical combustion chamber in a stock-car engine. It makes possible more power from every drop of gas. You feel it the minute you open up a Chrysler, in greater accelerating power than you've ever had at your command ...
- + FirePower is also a better-built engine throughout. It doesn't require premium fuel. It runs with less waste, less heat, less wear, less carbon deposit than other type engines can do. More of your gasoline's energy is turned into actual road power, greater reserve for passing and top speeds when needed . . .
- + Why not drive this revolutionary new-type engine, and feel its wonderful difference for yourself? Let your Chrysler dealer show you how much more than horsepower your money can buy in the engine Chrysler has designed from scratch to do an engine's job better, longer, and more efficiently than previous engines can hope to do!

Give the little lady a helping

THIS ad is addressed to husbands—husbands who've yearned for the thrill of sitting behind a broad hood packed with horsepower -and the pride of rolling down the street in a car that tells the world, "Here's a man who knows the finest thing on wheels."

But husbands have wives. And wives have been known to say, "No big cars for me. They're too hard to handle."

Well, we have an answer for that one. It's a ROADMASTER with Buick's new Power Steering.† And Power Steering takes over any time the steering gets tough-works like a helping hand-reduces the effort of turning the wheel of a car at a standstill to about the same effort it takes to pick up a mink coat.

DUT out on the open highway-with a clear D straight stretch before you-your hands still have command of the wheel-you can feel that sure, firm, easy and eager responsiveness that's a part of the fun of driving.

The rest of the fun is in something else that's new this year - the highest horsepower that a Buick Fireball Engine has ever delivered—and an Airpower carburetor that lets loose an extra reserve of power when needed, and still adds extra miles to your cruising range on each tankful of gas.

So we suggest a family demonstration.

You'll both like the hushed and restful silence of this superbly able traveler. You'll like the harmonious beauty of its interior, and the deep

and luxurious softness of its seats.

You'll like the velvet-gloved grip of its Wide-Band brakes, and the most capacious trunk in Buick history.

You'll like the smooth surge of Dynaflow Drive, and you'll like - but why waste time talking, when you could be finding out more than we can ever tell you? How about making a date to do that right now?

White videwalls optional at extra cost when a Optional at extra cost on ROADMASTER only

EASY FINANCE TERMS

Ballinger, Texas

Ahead-the Nicest Miles in the World!

Well, the day has come! You have your beautiful Golden Anniversary Cadillac-and are off on that cross-country journey you've so eagerly awaited.

You're full of hope and anticipation-but almost afraid it's too good to be true. Can any car perform and handle the way people say this one does?

You come to the end of the street that opens into the crosstown thoroughfare-and the big, easy-acting brakes settle you down to the softest, smoothest stop you ever experienced in all your life.

You touch the throttle, and the great engine starts you out like the flight of an arrow-smoothly and swiftly and quietly.

Almost before you know it, a light turns redand, once again, that easy, velvety stop. And then the green-and again that swift, eager move into action.

Stop and go-red and green . . . and pretty soon it dawns upon you that you never dreamed of driving a car that handled and performed like this.

Wonderful in city traffic-no doubt about it!

And then the cars thin out about you-the traffic lights stretch farther and farther apart - and you find yourself on the open road.

Instinctively, your foot goes down on the throttle; but, quickly, it eases up again. For you find yourself really rolling in a couple of hundred feet! So you do a little experimenting until you find the spot where the accelerator belongs for sane and sensible drivingand then you settle back and relax.

You scarcely seem to be moving at all. You handle the wheel with the weight of your hand. You're comfortable-resting-at peace with the highway! The sun rises higher and the road beckons on.

"Where did we plan on stopping tonight?

"Better take a look at the map and see what's on down the line. We're going to get a lot farther than I ever dreamed we could!

Yes, it's true what they say about Cadillac. Better come in and see it-and drive it-while you're in the mood!

Ballinger Motor Sales, Inc. finth and Hutching

WE GIVE

YOU PROOF!

You'll enjoy using the free "Show Down" booklet. It's a real eye-opener. It gives you the straight facts you need to know to judge car value and get the most for

our money. Stop by for your copy today.

Let the "SHOW DOWN" way show you exactly how much extra leg room, headroom, hip room Dodge gives you!

WHEN A CAR is big enough inside to let you sit relaxed and at ease . . . without squeezing, crouching or jack-knifing your knees that's when comfort begins.

The new '52 Dodge is big, extra big inside hundreds of dollars more. This is a fact . . . a fact that the free "Show Down" booklet lets

you prove beyond doubt. With the "Show Down" booklet in your hands, you can make other comfort feature comparisons as well . . . such as the sensational Dodge Oriflow Ride that irons out bumps and

ruts and makes every road boulevard-smooth. You can make "brass-tack" comparisons on such Dodge safety features as smoothersuch Dodge safety features as smoother-stopping Safe-Guard brakes, Safety-Rim wheels that hold tire to rim in case of blow-out, con-stant speed electric windshield wipers . . . and other features that mean dependability and economy, day in and day out.

Why not stop by for your free copy of the "Show Down" booklet soon? Then get behind the wheel and try this great Dodge for yourself. We're sure that when you do play it wisely and get a dependable Dodge

@Vew, dependable 52 DO
