Runnels County Water District Gets Approval

The bill creating the Runnels County Colorado River Water and Soil Conservation District has passed both houses in the state legislature and was signed by the governor Monday. This puts all of Runnels county in the district and will make possible a number of benefits which can be taken in the future for storing of water and possible irrigation.

The next step will be the forming of a board of directors. According to the bill, the governor will name two men from each of the four commissioners' precincts and one man to serve at large on the board of directors.

Names will be provided from each precinct in the county and a list to be considered for the member at large and these will be sent to the governor to make nine selections. As soon as the board is appointed a meeting will be called and members will draw for the length of their terms in office, elect a chairman and begin consideration of the benefits offered in the district. A study of potential water projects will be made and as soon as possible they will be given to the public and a plan of action outlined.

SEA OF DESTRUCTION—Captain Virgil Bailey, 34, of Falkville, Ala., stands at the prow of the good ship Storm Cellar, surveys the sea of destruction which poured over him while he was safely below decks. At least three persons were killed and many buildings leveled along the storm's path.

Sheriff Don Atkins will go to Haysdale within a few days to bring Howard L. Walker and Ross Erwin here to be tried for felony theft. Their cases are docketed at the next session of 119th district court.

Several investigations were conducted the past week-end in which no arrests have been made.

Club Stockholders' Meeting to be Held Monday at 8 p. m.

The annual stockholders' meeting of the Ballinger Country Club will be held at 8:00 p. m., Monday, June 6. At a recent meeting of the board, a nominating committee was named to submit three names for new directors. These will serve during the next twelve months with the holdovers.

The club property is in excellent condition at present, the golf course being especially good. Considerable interest is already being shown in the golf tournament which will be held on July 4. On this date also will be the annual get-together of members and their families and besides golf will feature a barbeque dinner, a bridge tournament, fishing events and a dance at night.

Stockholders who are unable to attend the meeting Monday night are asked to give other members their proxies for voting on business.

Sunday will be the last day of the conference year for the First Methodist Church. Rev. Wayne Reynolds, pastor, will deliver the final sermon before going to Fort Worth for the annual meeting. The conference sessions will start June 8 and continue through June 12.

Bishop William C. Martin will conduct the conference and appointments of ministers will be announced Sunday, June 12. Rev. Reynolds will give the biggest report for the Ballinger church in its history. The building program of the past year plus a year of numerous activities will make up one of the largest completed budgets to be heard at the conference.

W. E. Middleton is the official delegate for the local church and several others are planning to attend all or part of the conference program.

An item of importance at the conference will be a plan to realign the ten districts in the conference.

Following the conference, pastors will be in their assigned pulpits on June 19.

Those who attend the district encampment will have charge of recreation and crafts at the county encampment, scheduled June 29 and 30.

Library Board Plans To Improve Building

A called meeting of the Ballinger library board was held Tuesday evening with full attendance and a number of representatives of civic clubs present. The board is making an effort to carry on a big program of work and is asking for full support of all local organizations and individuals.

Mrs. C. A. Bissett has been named coordinator to classify and catalogue all the books. The Dewey decimal system will be used and the board will call on a large number of volunteer workers to assist in the undertaking. At the present time there are about 8,000 volumes on the shelves and some of these will be discarded when the cataloguing is completed.

The Shakespeare and Fannie Stephens Study clubs are working jointly on a project for the improvement, redecoration and repairing of the building and making it more suitable for a community center. The two clubs will enter a statewide contest and the library modernization will be their project. They will seek the assistance of all citizens of Ballinger in the hope that the building can be restored and put in full use, especially for the young people of Ballinger and vicinity.

Mrs. Paul Petty is the representative of the Shakespeare Club and Mrs. H. G. Agnew represents the Fannie Stephens Club. It is hoped that through some plan the walls can be repaired and painted, windows that have been damaged by weather replaced and finished and floors sanded and varnished.

Joe Forrester, high school principal, was present at the meeting and pointed out the location of the building and how it was needed for many school functions.

The complete job needed will be expensive and unless volunteer workers can be secured for part of the work, it will be impossible. All groups contacted so far have shown interest in the plans and have agreed to assist in every way possible.

Curbing Started For School Lots; Will Pave Later

The summer program of improvements for the Ballinger schools will include some new work.

Concrete men have started curbing at the junior high school which will take in all sides of the block on which the elementary building is located and where the new school will be constructed. This is the first step towards paving all three unpaved sides of the site.

Some base work has been done on Eighth Street and this pavement will be extended to the intersection with the Bronte highway. School officials also are considering paving around the football field but details have not been worked out with the city and property owners.

A large amount of dirt is being spread to fill in low places on the high school and elementary school campuses. Some of this dirt was excavated when new tennis courts were built early the last term and will take care of most of the new soil needed on the school grounds.

A crew refinished the walls of the gymnasium last week.

Contract to Berry For Hauling Excess Trash in Ballinger

The Ballinger city commission made an arrangement Tuesday with E. E. Berry to haul off excess trash, not in containers. During the spring many citizens pruned trees and have large amounts of limbs and other trash to be removed. Practically all city trucks are being used on street work and it has been impossible to keep up with the demand for hauling.

Hereafter, all trash in containers will be handled by city trucks at the regular monthly fee. Those who have excess trash may call the city hall to leave orders. These will be turned over to Mr. Berry and he will haul for a charge to be agreed on according to the amount. He has a minimum charge of \$1.50 for each job, however, and when the amount is more than that covered by the minimum, he and the property owner will agree on the price.

Three building permits were approved at the commission meeting, as follows: Cameron Roofing Co., \$9,000, for a residence on Eighth Street between Sargent and Sharp avenues.

W. M. Turner, \$500, for an addition to a house on Sixth Street between Park and Phillips avenues.

Trail Estate, \$250, for a carport on Eighth Street between Pou and Snapp avenues.

PRESBYTERIAN SCHOOL WILL SHOW HANDCRAFT

The vacation church school being held this week at the First Presbyterian Church, U. S. A., has had good attendance.

Using the Westminster series theme, "Jesus Christ," the kindergarten department is learning about "Our Friend Jesus," the primary department, "In His Way," and the juniors "We Would See Jesus."

The three groups will present the closing program Sunday evening at 7:45. Handcraft will be displayed and refreshments will be served.

Visitors are invited to attend this program.

Mr. and Mrs. Mark Davis, of Lubbock, visited relatives and friends here and at Miles the past week-end.

Four Producers Weekly Report On County's Oil

G. M. Heinselmann, trustee, No. 1A-Claud Brookshier is a Serratt sand discovery, ten miles northeast of Ballinger. It was finalized for a daily pumping potential of 9634 barrels of 47 gravity oil, top of pay being found at 2310 feet. The operator has requested a discovery allowable and suggested that the field be designated the Brookshier (Serratt sand) field.

The P. W. C. (Serratt sand) field has been extended one location north on the eastern side with completion of Investors Producing Co., of Dallas, No. 6-A N Hoffman. The well was gauged at 17234 barrels of 44 gravity oil on the initial flow.

Skelly Oil Co. No. 2-Hans Gottschalk, a step-out to the Norton, North (lower Fry sand) field, will be drilled to a depth of 4700 feet. The location is 4 1/2 miles northeast of Norton.

Superior Oil Co. No. 1A-Nora McCaughan has been completed for a daily pumping potential of 35 barrels of 44 gravity oil. The discovery indicates production from a lower section of the Palo Pinto than was found in other wells of the area.

Lone Star Producing Co. has filed an application for a permit to drill a 5,900-foot wildcat, two miles north of Wingate on the Duncan Hensley place. It will be an offset to the company's No. 1-Voss, which was completed in March for 2,250,000 cubic feet of natural gas daily.

G. W. Strake No. 1-Lucy Bryan is projected for 5,100 feet in the Sanford (Gardner) field, 1 1/2 miles northeast of Wingate. Tours will begin work when the permit is approved.

Baseball League Interest Lagging; Few Boys Signed

Leaders sponsoring the Little and Pony leagues for local boys are undecided just what steps to take. To date only about 40 boys have signed up to play in the Little League and just 10 have signed up for the Pony League.

At least 60 boys are needed for the Little League to have four teams and unless these come in soon, the proposal probably will be dropped for this year. At present there are not enough boys 13 through 15 years of age interested to have one team in the Pony League bracket.

Several meetings for players and parents have been held and each one has been poorly attended.

Recently the Ballinger Jaycees voted to sponsor the movement here and H. B. Edmondson, chairman of the youth activities committee, was detailed to organize the two leagues.

If there are other boys who want to play baseball this summer, they are asked to sign up at once at the Ballinger Chamber of Commerce office.

Reports on Lions' District Convention Heard by Members

Ballinger Lions heard a report on the annual district convention at their meeting Friday noon.

Price Middleton, incoming president, gave the official report for the local delegation and told of the highlights of business sessions which were attended by 70 per cent of the registered delegates.

Ballinger was well represented at the model luncheon, 27 members from here being present. The nine voting delegates attended all business sessions and voted as a unit on all questions.

At the conclusion of the meeting Friday, Jimmy Hamner gave a short program of piano numbers, playing his arrangements of several popular song hits.

Rev. Felix Keys, Ed Curry and Alvin Holbrook were named to serve on a food and menu committee and confer with the cafe management on all matters dealing with club meals.

Mr. and Mrs. John S. Miller and children, formerly of Eldorado, have moved to Ballinger.

\$350,000 Bond Election Set for Saturday, July 2

The Runnels County commissioners' court called a \$350,000 road bond issue election Monday for road district No. 3 of Runnels County. The date of the election was set for Saturday, July 2. This is the election on which a number of public hearings have been held in recent months. It would provide funds for the commissioners' court to provide right-of-way and other expenses in a highway improvement program which would eventually cost between five and six million dollars.

Road district No. 3 takes in all of county commissioner's precinct No. 1 and that part of precinct 3 south of the Colorado River.

The election will be submitted in two issues. One is for \$275,000 and would take care of the district's part of the cost for right-of-way on highway 67 from the Coleman to the Tom Green county line. This would also include some costs on the proposed new bridge across the Colorado River at Ballinger on highway 67.

The other issue is for \$75,000 and would be used to purchase new right-of-way for highway 83 from Hatchel south to an intersection with highway 67 just east of Ballinger.

There are 11 voting boxes in the district. These include the four Ballinger boxes, Nos. 1, 24, 28, and 29, and Benoit, Hagin, Brookshire, Miles, Rowena, Olfen and Bethel.

All eligible voters who reside in and own property inside the district may vote in the election. A two-third majority is necessary to authorize the bonds.

Supplies have been ordered for the election and a total of 2,200 ballots will be printed and distributed to the 11 boxes. Citizens may vote for one issue and against the other or

for or against both issues. A recent public hearings a number of people have opposed various parts of the proposed highway program for the district.

One of the first projects which would be contracted by the state highway department would be the new bridge across the Colorado River and a four-lane highway for 8 of a mile west. During the period of construction, traffic would follow a detour on highway 83 south to the Horseshoe Theatre and then on a road back to highway 67 just west of Ballinger. The detour would be paved by the department and would be in service about a year.

The second project on which money has already been appropriated is the new route from Hatchel to Ballinger on highway 83. The other projects have been approved but funds for actual construction have not been made available by the state highway department.

County officials will make a statement soon on valuations in district No. 3 and the probable tax levy which will be necessary to retire the bonds.

County Judge W. H. Rump has been informed by state highway department engineers that the department is agreeable to reducing the width of the right-of-way at Rowena to 150 feet. This is with the provision that the district take care of the curb and gutter through the town, which it has agreed to do.

This would make it necessary to acquire 70 additional feet, and if this can be obtained from the Santa Fe Railroad, it will not be necessary to move gins and other buildings which a 200-foot right-of-way would make necessary. Cost of the curb and gutter work is estimated at \$8,000 to \$10,000 but the road district would make a big saving in other ways.

Ballinger Junior Rodeo Will Open With Parade

More contestants are needed for the junior rodeo to be held here on June 16 and 17. All boys of high school age in this section are urged to enter the various events as soon as possible.

A huge downtown parade will be staged at 4:00 p. m. on June 16 to officially open the program. Every person riding a horse in the grand entry at the first performance will be given a free pass to the show.

The two-day show is being sponsored by the Ballinger Rodeo Association and will be held in the arena on the Bronte highway, just northwest of town. All livestock has been secured and men to direct the acts have been named. Buster Berryhill will clown the show to add fun at the two performances.

Leaders are trying to obtain other acts, which probably will be announced next week.

Admissions will be 75 cents for adults, 50 cents for children 12 years or older, and those under 12 will be admitted free. Entry blanks may be obtained at the Ballinger Truck & Tractor Co.

BANKS WILL BE CLOSED SATURDAY AFTERNOON; NO HOLIDAY TOMORROW

The local banks will be open tomorrow (Friday), Jefferson Davis' birthday anniversary which has been a regular closing date in the past. The institutions will be open because Memorial Day was observed Monday.

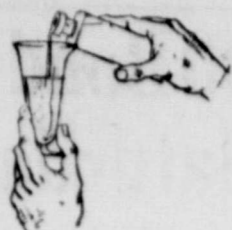

Patrons are asked to take notice of the first Saturday afternoon closing this week and attend to banking business before noon.

PRAYERFUL BEGINNING—Divine guidance and protection of the working girls was the earnest supplication of the small group of women who first met in London, England, in 1855 to found what is today the Young Women's Christian Association. Three years later, in 1858, Y.W.C.A.s were opened in Boston and New York City. They provided housing, spiritual comfort and recreation for working girls, such as the Civil War millions workers pictured above, who were swept into industry on the tide of the Industrial Revolution.

**Joel McCrea Stars as Justice Dealer
 In Colorful 'Stranger on Horseback'**

The struggle to impose law and order on a raw, reckless western frontier town supplies the plot elements of "Stranger on Horseback," new color film to be presented at the Texas Theatre Sunday, Monday and Tuesday, June 5, 6, 7, through United Artists release. Specifically, "Stranger on Horseback" concerns the determination of a young judge to uphold the dignity of the United States by conducting a murder trial despite the lawless and violent interference of a powerful ranchman. In the young judge's uphill fight for justice, his six-shooter is as much of a help as his copy of Blackstone. Joel McCrea plays the role of Judge Thorne, and co-stars are

Kevin McCarthy and Miroslava. The large supporting roster includes John McIntire, Nancy Gates, John Carradine, Emilie Meyer and James Bell. "Stranger on Horseback" was filmed in Anasco Color on location in Arizona.

Public interest is currently so high in the possibilities of man's occupation of other planets, that Paramount and George Pal have produced a film which can be considered more science-fact than science-fiction. The film, "Conquest of Space," is to be shown at the Texas tomorrow and Saturday. The New York Mirror recently released a story on the angle, "Space Satellite Possible by '57." "Conquest of Space" takes the audience right aboard that satellite. The AP offered the headline, "Can Man Live in Space?" Paramount's adventure thriller shows how he might.

On the same program is "The Silver Star," starring Edgar Buchanan and Marie Windsor.

"The Barefoot Contessa," to be shown on the twin-bill at the Texas next Wednesday and Thursday, June 8, 9, was filmed in Technicolor in Italy. It tells of the dramatic rise from obscurity to world-famed stardom of a dancer discovered in a Madrid night club. Starred are Humphrey Bogart and Ava Gardner, and others in the cast include Edmond O'Brien, Elizabeth Sellers, Marius Goring, Valentina Cortese, Mari Aldon, Rossano Brazzi and Warren Stevens.

"The Outcasts of Poker Flat," 20th Century-Fox's suspenseful western based on the classic Bret Harte story, is the second feature at the Texas Wednesday and Thursday of next week. A sharply-titled story of men in conflict with the elements of nature and the sadistic brutality of a half-crazed gunman. "The Outcasts of Poker Flat" is one of the most frequently anthologized classics of American literature and is recognized as the forerunner of the modern western. Millions of copies of the book have been sold and the tale has been translated in nine different languages. Supporting players include Miriam Hopkins, Cameron Mitchell, Craig Hill, Barbara Bates and Billy Lynn.

When it comes to Protection ... it pays to have the BEST

Christian Home Program Theme Of Church Council

The May fellowship program of the United Council of Church Women was presented at the regular meeting Monday afternoon in the First Christian Church. Mrs. Bill Stultz, president, directed the business routine.

Mrs. E. H. Crawford, organist, played the prelude, the offertory and the accompaniment for the opening hymn, "For the Beauty of the Earth," with Mrs. Troy Simpson directing. Mrs. Jessie Collins gave the opening prayer and Mrs. Carl Fouts read the scripture from Deuteronomy 31-7.

Mrs. Stultz introduced the guest speaker, Mrs. Grady Mitchell, of San Angelo, presi-

dent of district 10, whose subject was "The Responsibility of the Christian Home." Mrs. J. W. Barr read "Oh, Happy Home" as a gift was presented the speaker.

It was announced that the used clothing drive would be concluded by June 11, and anyone wishing to contribute may leave bundles at the home of Mrs. Estes Lynn, 300 Eleventh Street, before that date.

The next regular meeting will be held on August 28 in the First Methodist Church. Mrs. A. B. Stobaugh, Mrs. Billy Jordan, Mrs. B. H. Erwin, Mrs. Joel Bates and Miss Bonnie Clark will arrange the program. Mrs. Stultz, who represented the local council at the annual state meeting at Waco, reported on the meeting, held in March.

Mrs. Stobaugh and Mrs. W. H. Beard were in charge of the offertory and Mrs. Stultz gave the dedicatory. It was announced that the

Ballinger council has been placed in district 21. Redistricting was required because of the growth of the Texas Council of Church Women.

Church parlors were decorated with a profusion of garden flowers where a social was held following the program. Mrs. Stultz ladeled punch, and sandwiches and cookies were served by the committee. Mmes. Sam Behringer, Doyle Riley, Jessie Collins and J. O. Satterwhite.

Among the 50 women attending were guests from Rowena and San Angelo.

The Runnels County 4-H council voted and made the following agreement with the F. F. A. chapters of the county:

1. All projects or demonstrations will be declared to one organization or the other, 4-H or F. F. A., within two weeks after obtaining the project or demonstration.
2. Any boy showing exhibits in any show will indicate

whether he will be sponsored at the show by the 4-H or F. F. A., at least one week prior to the show.

3. The 4-H and F. F. A. sponsors will submit a complete list of their respective exhibitors to the Winters high school principal at least one week prior to departure for the show.

4. All boys who are members of both 4-H and F. F. A. will declare prior to November 1 which organization they will represent on judging teams.

Charles Wetzel, Truett Bryan and Bernard Halfmann learned how to caponize their cockerels the past month. Truett Bryan plans to show capons this year and will make an effort to improve his work. James Engler tried an injection to caponize his cockerels. It caused a puff about the size of a walnut to appear under the head at the wattles. About 60 cockerels have been caponized by 4-H club boys this spring. The predominant breed being Cornish.

James Schroeder, Bob Webb and James Bryan are feeding calves for the shows next spring.

The following 4-H members have feeding lambs for the state fair at Dallas this fall: Gordon Hays, Patricia Wessels, Harvey Wessels, Sammy Folsom.

INDIAN INFLUENCE—Khaled Gamal Abdel Nasser, son of Egypt's premier, makes like an Indian during an Egyptian adaptation of the gymkhana at the Khalifa El Mammoun preparatory school in Cairo, Egypt.

JUST DREAMIN'—Ensign Brian Lewis, disbursing officer, dreamily contemplates 154 thousand dollars, all in two-dollar bills. The "race-track" money will be used to pay officers and men of the Glenview Naval Air Station, near Chicago, Ill., in order to determine how their money is spent in the community.

Glenda Folsom, Charles Wetzel and Stanley Book.

The Drasco girls' 4-H club met on May 26 in the clubhouse. New members are Dana and Anda Bishop. All girls reported they had finished their pajamas and made huck towels with Swedish embroidery.

Eight of the nine girls' clubs were represented at the council meeting, accounting for 24 girls and club leaders.

The group discussed summer encampments and it was decided that separate camps for boys and girls would be held. The council also discussed suggestions for finances, activities and other entertainment. It was voted to hold an all-day picnic for the 4-H boys and girls of the county. The date probably will be in the last half of July and the place will be decided later. Recreational and adult leaders will hold a meeting with the county agents to plan the picnic.

Mrs. Raymond Berryhill and daughters, Delphine and Betty, left last Thursday for Snyder, where they will visit relatives several days.

WEST TEXAS NOTES

Family reunions are getting to be big business in Ballinger and should receive more attention and support. Each year many groups, ranging from 60 to 300 people, gather in Ballinger one to three days and a considerable amount of money is spent here. A number already are booked at city park for the summer and ten or twelve groups will meet at the American Legion hall. These meetings really require more facilities than are offered. While the Legion hall is good so far as it goes, it needs refrigeration, sleeping quarters and several other accommodations. The park is fine for a one-day gathering but most groups that hold longer meetings want to be indoors away from flies and mosquitoes and have comfortable chairs and air-conditioning. One nearby city has provided all these facilities and reservations are more than a year in advance, every day of the summer months being booked. Ballinger civic clubs would do well to give study to plans for attracting out-of-town visitors.

City officials are considering local traffic problems and find that some changes could be made to insure more safety. It is believed that a large number of stop signs should be set up on streets and avenues where it is doubtful who has the right-of-way. Yield right-of-way signs also are believed needed where streets intersect highways and that there should be stricter enforcement of the ordinance provision governing stop lights. As the number of cars increase new regulations to handle the heavier traffic are becoming necessary. City officials have this in mind and are trying to make plans which would be beneficial to all. Regardless of what is contained in an ordinance, the cooperation of the public is necessary. The small police force cannot oversee every danger point. Full enforcement would require a number of police far beyond the ability of the city government to provide. When signs are erected and an ordinance passed it is

It was learned at Eden last week that Gwin Henry, 70, had died at his home in Albuquerque, New Mexico. A former Eden resident, Mr. Henry was the town's first national celebrity. He made home there when he broke the world's record for the 100-meter race in Madison Square Garden on July 4, 1911. He continued in track for a number of years and later coached football for a number of schools in the Southwest. His speed on the cinder path first came to attention while he was a student at Howard Payne College, Brownwood.

Committees arranging the 1955 July Jubilee promise one of the best programs ever presented at Brady. Thirteen entries have been made in the queen's contest, which will be the opening feature of the celebration, and the queen and her court will be seen on numerous occasions during the four days. Practically all organizations and clubs are sponsoring girls in the contest, the results of which will be announced the opening day of the jubilee.

A school landmark at Winters, the elementary building, is being razed and the ground will be levelled and made ready for a new structure. Work began the day after the 1954-55 term ended. The old building was constructed in 1911 and housed all students until 1922, when a primary building was erected. The elementary building was considered unsafe and a fire hazard. A new cafeteria was

up to the people to see that the plan is effective.

School administrators have started the usual summer routine here which will keep men working on the various campuses and athletic fields and preparing buildings for the term which begins in September. In addition, they will sell bonds for the new building, approve the architect's plans and let contracts. Dirt already has been moved to the elementary school location on Eighth Street to start improvement of the campus. Other work will be done during the summer as needs arise.

opened two weeks ago. Mrs. J. B. Arthur, Jr., has tendered her resignation as home demonstration agent for Comanche County, effective on June 15. She intends to leave at that time to join her husband, who is stationed with the armed forces in Alaska, and expects to do civil service work there. Miss Annie Lane, district agent, will assist the commissioners' court in securing a successor for Mrs. Arthur, who has made an outstanding record in club work while serving Comanche County.

S. L. Mullins, of Robert Lee, assumed the duties of Menard County extension service agent on June 1, succeeding Paul Newton, who resigned to become livestock supervisor for the state prison system. Mullins is a graduate of Texas Technological College, Lubbock, and while there was a member of the international livestock show judging team. At the American Royal Livestock Exposition, Kansas City, he was high point man in wool judging. He has held three posts for the extension service as assistant agent in other counties.

Randy Owens, a former football star at Brady, has been elected coach at Melvin and is to assume his duties September 1. He succeeds Dale Johansen, who resigned to coach at Fredericksburg. The Melvin school was closed last week and immediately following the commencement exercises the sen-

Under postal laws newspapers and periodicals must pay postage due for notices of any change in address furnished by the post office. The best plan for all concerned is to send the change of address in advance.

lors and faculty sponsors left for a trip through southern Louisiana. They had a fine trip, no trouble of any kind being reported. While in New Orleans the students were guests of the "Louisiana Hayride."

A petition was being circulated at Monahans last week which would require that the Ward County commissioners' court call a bond issue election for \$160,000. If the bonds are authorized the money will be used to construct a county auditorium and show barns adjoining the present rodeo arena. The money also would provide for the purchase of the grounds from the rodeo association. Leaders in the move are officers of the Monahans Livestock Association.

The Miles Lions Club conducted its first broom and mop sale last week and realized a net profit of \$95. All members served as salesmen and citizens of the community were very liberal in their support. After the sale a meeting was held, 19 answering present. Reports on the forming of a softball league for summer play disclosed that teams would be ready in a short time. The Lions also agreed to give financial assistance to Boy Scouts in their summer projects.

Erl Mayoy, resident state highway engineer at Coleman, states that work is progressing on the "cutoff" on highway 67

south of the county seat. Approaches are being built for the overpass near Santa Anna and 150 million cubic feet of dirt will be required. Work also has been started on a 50-foot cut through a hill just west of Santa Anna and dirt from the cut is being used at each end. The largest bridge across Loss Creek, has been completed with the exception of the side railings.

At a business session and drill of the Rowena fire department last week 15 members were present. The department has received a new siren which will be used for alarms in town. The telephone company has agreed to allow the siren to be erected at its office and the operator will sound the alarm when a call is received. Firemen have asked the public not to rush to fires and block firemen and equipment. They request just a few minutes in order that the truck and firemen may have open streets to reach the scene.

Many ex-students of Howard Payne College, Brownwood, were there the past week-end to attend a special, "Tom Taylor Day," honoring the man who served so long as president of the college on the occasion of his retirement. A number of speakers paid tribute to the former president in response. Dr. Taylor said he was retiring but not quitting and pledged

his support and efforts for the good of the school. Commencement was also part of the week-end activities, 104 receiving degrees.

Bronte Boy Scouts have made an appeal for jobs so that they can attend the summer encampment. The 21 boys who expect to attend camp would like to earn the \$12.50 each, which will be needed for the one week at Camp Sol Mayer. Last week they asked citizens through the Bronte Enterprise for jobs of any kind. The encampment opens next Sunday and all Bronte scouts hope to enter at that time.

The 2,500th telephone was put in service at Colorado City last week. This reflects the growth of the city since oil development started in the area. Civic leaders boasted last week that the city's population was now near the 9,000 mark. Telephone company officials stated that from January through April 30, 69 new patrons were added. Requests for new telephones speeded up last fall when oil companies moved a number of families into the city. School enrollment also has increased and 78 seniors were awarded diplomas in the final program of the term.

Former citizens of Sanco assembled Sunday for the annual homecoming program. The celebration was sponsored

'A Man Called Peter,' Cinemascope Production, at Horseshoe Five Days

"A Man Called Peter," in which 20th Century-Fox departs from its usual movie formula, a Cinemascope production in DeLuxe color, opens a five-day engagement at the Horseshoe Drive-In Theatre today, closing June 6. This picturization of Catherine Marshall's biographical novel, which enjoys the distinction of being a story told in terms of God's intimate participation in the affairs of man, unfolds a poignant love story and is, at the same time, a success story in the best Horatio Alger tradition. Richard Todd and Jean Peters head an imposing cast of 41 supporting players. Others prominent are Marjorie Rambeau, Jill Esmond, Les Tremayne, Robert Burton, Gladys Hurlbut, Richard Garick, Gloria Gordon and Billy Chapin.

The picture was filmed in Coatbridge, nine miles from Glasgow, Scotland, where Peter Marshall, whose life inspired the story, was born, and in Washington, D. C., at the U. S. naval academy, Annapolis, Atlanta, Covington and Decatur, Georgia. In these places Rev. Marshall wove the pattern of his life which left its impact on America. "A Man Called Peter" is a bold, vivid story of a man whose relation with God was more intimate than any chronicled in modern times.

Also to be presented at the Horseshoe Saturday only, June 4, is a Technicolor western, "High Lonesome," starring John Barrymore, Jr.

Booked at the Horseshoe next Tuesday and Wednesday, June 7, 8, is "Titanic," starring Clifton Webb, and "New York Confidential."

"New York Confidential," which stars Broderick Crawford, Richard Conte, Marilyn Maxwell, J. Carroll Nash and Anne Bancroft, tells the inside story of the top echelon of the international crime cartel and how the organization operates. Release is by Warner Bros.

Crawford plays the role of Lupo, boss of the international cartel. His portrayal is said to be his strongest since his academy award winning performance in "All the King's Men."

for this wide-open beauty

It's the new kind of hardtop—
The 4-Door Riviera!

A HARDTOP is a car that looks like a Convertible with the top up—but has a solid steel roof overhead—and no center posts in the side window areas.

Up until just recently, it could be built in volume only with two doors—not more—because it would take wholly new structural principles to hinge another set of doors without floor-to-roof center posts.

But Buick came up with those new structural principles and is now building—in volume—hardtops with four doors.

You see one pictured here. It's the 4-Door Riviera. And it's taking the country by storm...

Because here, at long last, is an automobile

with the sleek and sporty styling of a true hardtop—but with separate doors for rear-seat passengers, plus the added room of a full-size Buick Sedan.

On top of that, this beauty is all Buick—with the buoyant ride of Buick's all-coil springing—the wallowing might of Buick's record-high V8 power—the whip-quick getaway and sizable gas savings of Buick's spectacular Variable Pitch Dynaflo.

And it's available in Buick's two lowest-priced Series—the budget-tagged 188-hp SPECIAL, and the high-performance 236-hp CENTURY, illustrated here.

Come visit us for a first-hand meeting with the 4-Door Riviera—and see how quickly and how easily the last word in automobiles can be yours.

*Dynaflo Drive is standard on Roadmaster, optional at extra cost on other Series.
