Gold Rush Centenary

In search of gold the Forty-Niners crossed the continent in covered wagons just one hundred and six years ago. A few found wealth, but all found danger, hardship and adventure.

One unwritten law of the long trail was that all passed that way were to be helpful to each other. The spirit of cooperation played an important part in the early development of our country and we still have need of it today.

Men still strive toward wealth and independence but more reach their goals by wise money management than by any other way. A bank account helps. Your business is invited.

of the most effective, widely-pre-scribed drugs known, to relieve all rapid relief from miseries of all kinds

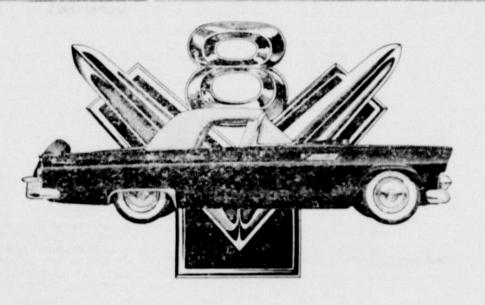

Lush Promises of Sudden Health

MUCH of the advertising on subjects pertaining to health which we see and hear these days is misleading. Investigation will prove that many advertisers of medicinal products have no training in medicine, pharmacy, or chemistry. Thousands of dollars are wasted every year on asthma cures, oral treatments for diabetes, cancer remedies, and countless other nostrums. Please remember that there are no secrets in clinical medicine. As soon as the value of a remedy is satisfactorily proved, it becomes the common knowledge of all physicians. Don't be misled. When you need medical care, consult your own physician. When he writes a prescription, bring it to us to be filled.

Where Pharmacy is a Profession

Yes, you actually get The Thunderbird Y-8 engine in the '56 Ford

And this Thunderbird Y-8 is the standard eight in all Ford Fairlane and Station Wagon models, at no extra cost!

Now you can have the power you've always dreamed about . . . and in a family-size Ford! When you order an eight-cylinder Ford Fairlane or Station Wagon model you get the Thunderbird Y-8-the very same engine that made Ford's Thunderbird famous.

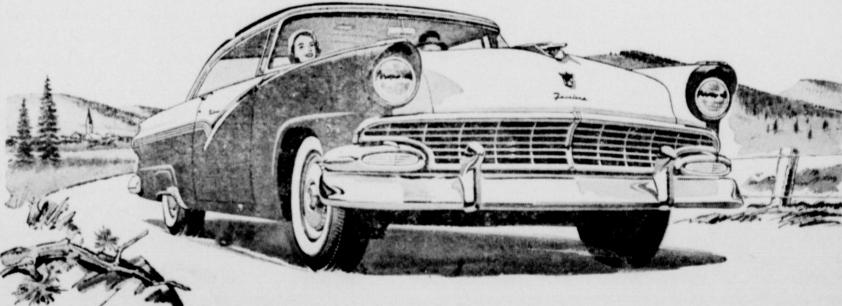

Thunderbird Y-8 power makes uphill feel like

downhill . . . distances disappear. You pass in instants when instants count. And when you want take-off power you get it . . . and now!

You get a 4-barrel carburetor and dual exhausts. As in all Ford engines, you get a 12-volt ignition system for fast all-weather starts . . . low-friction, high-compression design for more miles from less gas. And, above all, the new Thunderbird eight is a Y-8 engine with deepblock build for quieter, smoother performance ... longer engine life.

In addition to Thunderbird lightning, Ford for '56 offers you the Thunderbird look! In every long, low line-every graceful contour-you can see it's a blood brother of the fabulous Thunderbird, America's most exciting car! What's more, you get Ford's exclusive Lifeguard Design for added protection. Come in and Test Drive the fine car at half the fine-car price.

Gas Mileage goes up <u>AGAIN</u>

And so does the thrill - with Buick's new Variable Pitch Dynaflow!"

With all the big excitement of Buick's 1956 styling and power and ride and handling – it's easy to overlook this fact:

Gas mileage in the '56 Buicks takes a big step upward.

One reason, of course, is the new power plant itself.

Every new Buick cradles an advanced 322-cubic-inch V8 engine with the highest horsepowers, Series for Series, in all Buick history. Yet every engine delivers more efficiency, and more usable power to the rear wheels-because each one has a new double "Y" manifolding, and a new high in compression ratio.

But the major reason for the happy news in gas mileageand for the new step-up in safety and thrills-is Buick's latest version of Variable Pitch Dynaflow.

In this airplane-principled transmission, you always had a

gas-saving cruising range-and, at a switch of the pitch, a full-power getaway range.

Now Buick engineers have brought to this cruising range what they call "double regeneration." It simply means a new way to make flowing oil add to its own velocity to build up

So now, you merely nudge the pedal to part throttle and get new breakaway getaway. And since you get this quicker, safer response in your normal cruising range-where you don't use full power-you get plenty more miles from every tankful

But when you do need sudden safety-surge for emergencies, you just floor the pedal to switch the pitch. Instantly, you're at full-power acceleration-and it's the most thrilling safety measure in the land.

How about coming in to try the most modern transmission yet?

The absolute smoothness of this new Dynaflow is worth a visit in itself. So you can be sure you're in for a wealth of wonderful surprises-for that's just the start of the best Buick yet. Can you make it this week?

*New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

Best car manufactured in America today"

That's what Floyd Clymer, famous automobile authority, said about Chrysler in Popular Mechanics (October)

"I have tested many fine automobiles over all kinds of terrain," writes Mr. Clymer, "and in my judgment Chrysler is the best automobile manufactured in America today."

When you compare this Chrysler with the other two major cars in its price class, you will be in for an electrifying awakening. Because this is power driving as it was meant to be.

You push the "D" on the Pushbutton PowerFlite Drive and a mighty airplanetype engine whisks you away in an instant. There's a new, wonderfully easy feel-of-the-road with full-time PowerPilot Steering . . . a straight, sure, velvety sense of safety in the stops you get with PowerSmooth Brakes . . . a world of authority in the tremendous response of Chrysler's exclusive airplane-type Fire-Power V-8 engine!

Just one look at this car tells you the power's there. You see it in the flairing "PowerStyle" lines . . . in the flightswept look of its rear deck and fenders. Let us put you behind the wheel of the "PowerStyle" Chrysler for just 15 minutes this week. Compare its all-around per-formance with its two price competitors. Then you'll know why "the best car manufactured in America" is your best buy! Come in or call us today!

"PowerStyle" CHRYSL

MRS. ROBINSON TEACHING JAPANESE HIGH STUDENTS

A former Texas school teacher, Mrs. Zane Robinson, is carrying on the "good neighbor" policy by instructing Japanese high school students in English

Mrs. Robinson's husband a second lieutenant, is a pilot in the 37th troop carrier squadron, stationed at Ashiya AFB. Her parents are Mr. and Mrs. Stanley Price, of Ballinger; and Lt. Robinson's parents are Mr. and Mrs. W. S. Robinson, of Win-

Mrs. Robinson instructs about 50 students at Ashiya-Machi high school each Thursday from 3:30 to 4:30 p. m., and although she was offered pay for her services, declined.

A native of Ballinger and a graduate of the Ballinger high school and Baylor University, Waco, Mrs. Robinson gained a bachelor's degree with a double major in English and education in 1953. She taught at Brownfield a year and a half before going to the Far East.

Mrs. Robinson joined her husband in Japan last March and studied Japanese in a class taught by "Pop" Sugano, of the civilian personnel. Sugano told her of the need for an American to instruct the Japanese students in English pronunciation. Mrs. Robinson volunteered

Stanley Book, of the Miles 4-H club: Louis Sneed, Jr., of the Drasco club; and Michael were chosen to receive the Sears been bred to Clifford Frey's poultry for 1956. They will get boar and the boys are expect-

chicks the first part of March. The boys were chosen on the basis of equipment, interest in club work and participation in 4-H club activities. The birds are furnish free through the Sears Foundation and when they reach eight to ten weeks of age the cockerels are sold or used for home consumption. Each boy then puts \$15 into a fund that is used for prize school. money for those doing the best

The Sears swine program is well underway in Runnels Priddy, of the Cochran club, County. The eight gilts have

since the boar won the grand championship in the district show at San Angelo in October.

The county agent's office sent letters to all county 4-H club nembers inquiring as to what udging team they wanted to e on the coming year. The answers show that a large number of boys plan to participate in one or more contests. Approximately 20 boys have igned up for livestock judging. About 20 others have signed for the grass team, some of these being on the grass team last year. Obie Dee Bradford, an outstanding club boy and a former winner of several grass judging contests, will help the agents in training the boys. Texas A. & M. specialists also will help train the team members. The judging team training will be somewhat different than in the past in that boys from all over the county will meet for training rather than individual teams. Other contests being entered by 4-H club boys are: poultry, entomology, tractor naintenance and electricity.

Ralph Gerngross, local leader or the Olfen club, will take Joseph Busenlehner and Johnny Mokry to Brownwood December 12-14 to attend the tractor maintenance school. After completing the course these boys will give tractor maintenance demonstrations to other 4-H lub members in the county.

The Wingate club met Monday and visited James Hardy 300 White Leghorn day-old Bryan's beef calf demonstration. C. T. Parker: county agent, explained how to judge beef cattle and talked to the boys about feeding management practices on beef cattle. Bryan has his Angus steer entered in the Houston show and at Abilene and Winters. The Wingate club will have its Christmas party on Decem-

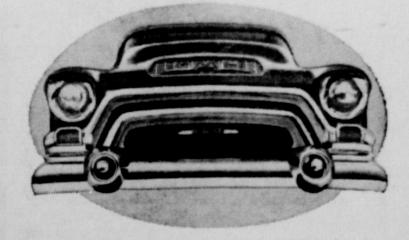

ber 20 at the Wingate high Coming Events Deadline to enter stock in

ob of managing the laying the Houston show through the local office is December 10 The same date applies to the San Antonio show Deadline for entering the Winters show is December 16.

The first settlers in Marylanded at St. Marys in 1634.
