MR. AND MRS. BENTON WESTBROOK

(See story on page 6)

## Three of Crowell's Little League Teachers Enroll in Reading Workshop

Three Crowell Public School teachers have enrolled for a two-weeks workshop in reading at Wayland Baptist College in Plainville. They are Mrs. Bill Cates, Mrs. Floyd Thomas and Mrs. W. C. Smith. The course, which offers three hours college credit, concludes Friday.

Luke Munn, field editor for the Economy Company of Oklahoma, sponsor of the workshop, is offering a concentrated study of basic reading instruction.

The workshop gives special attention to the role of phonics in the program of reading, techniques of phonetic analysis, and methods of teaching phonetic elements. Children who will enter the first grade in the fall are participating in the clinical aspect of the workshop. Teachers work with them in practice sessions as they develop skills in phonics.

Munn did his undergraduate college work at the University of Texas and Bethany (Oklahoma) Nazarene College. He received his master of education degree from the University of Oklahoma and has also done work toward a doctorate there. For the past six summers, he has conducted college-credit workshops similar to the one at Wayland in Arkansas, Oklahoma, Arizona and California.

## Little League All-Stars Lose to Munday All-Stars

Despite getting off to a great start in the first inning, an inning that saw the locals score seven runs, Crowell's Little League All-Stars lost a heart-breaker to Munday's All-Stars in area tournament play last Thursday night at Munday, with the final score reading: Crowell 7, Munday 8.

Crowell scored all its runs in the first inning and was featured by a grand-slam home run by Rocky Bachman and a perfect bunt by Bob Burkett, as the locals had twelve men at bat, and runs being plated by Rex Driver, Jackie Thomas, Lee J. Whitley, Bill Erwin, Johnny Urquiza, Bob Burkett and Rocky Bachman.

Munday pitcher Bob Walker then came in and allowed only one hit throughout the balance of the game, a single by Bachman, while Walker's mates came through with five hits in the final two innings which, coupled with a complete collapse of the Crowell defense, let the ball game slip away.

Starting pitcher Bill Erwin of Crowell pitched shut-out ball for three innings, allowed two runs in the fourth; then, everything went sour in the fifth for both Erwin and Johnny Urquiza as Munday scored six runs to take the victory. Munday's hitters were confined to singles by the Crowell pitching, but throwing errors built them into terrific run-producers.

**Party Tonight**  
This closes out the Little League season for 1966 in Crowell except for the annual ice cream-swimming party which will be held at the local pool at 7 p. m. tonight (Thursday), July 26. All players are urged to bring their uniforms in with them to this affair and turn them in to procurement agent Mike Bird.

This season-end party includes Pee-Wees as well as Little Leaguers.

## Revival to Begin Sunday at First Methodist Church

A week's evangelistic campaign will begin at the First Methodist Church in Crowell on Sunday, July 31, and continue through the following Sunday, August 7. Rev. Ed Robb, conference evangelist, will do the preaching, and Mr. and Mrs. Gene Moore will be in charge of the song services and special music.

Rev. Merriel H. Abbott, pastor, announced the following schedule of services for the revival: Morning worship will be at 7 a. m. each week day, with coffee and doughnuts being served; prayer meeting and youth and children meetings at 7 p. m., and evening evangelistic services each night at 7:30 p. m.

Rev. Robb is a nationally-known evangelist and the Moores are outstanding singers, having recorded a number of hymns. The local church is inviting all residents of this area to attend the services of this evangelistic campaign.

## Scattered Showers Bring Some Relief from Extreme Heat

Scattered showers fell over portions of Foard County during the week end and brought welcome relief from the extremely dry, hot weather of the past few weeks.

Although only .13 of an inch was officially recorded in Crowell, the showers brought up to 1 1/2 and 2 inches to parts of the northeast section of the county. One-half inch was reported in the Thalia, Foard City received about .8 inch and the Antelope Flat community received 1 inch.

The showers were extremely spotted, but will be of great benefit wherever they fell.

## Wildcat Staked on W.B. Johnson Land

Bright & Schiff have staked their No. 1 W. B. Johnson, eight miles northwest of Crowell, 1320 feet from east and 3173 feet from south lines of section 13, block A, SPRR survey. Total depth of the venture will be 6250 feet.

## Game Warden Jack Young Speaker at Rotary Club Meeting

Foard County Game Warden Jack Young was the speaker at the Rotary Club meeting Wednesday of last week, and told the club about the new laws concerning water safety—boating, skiing, etc.—that are now being enforced on Texas lakes.

Miles Welch was installed as a new member of the club. District Judge Tom Davis of Vernon was a visitor.

## Two New Vehicles

Two new vehicles were registered here last week, as follows: July 18, Philip Welch, 1966 Chevrolet sport coupe; July 19, Margaret Curtis, 1966 Chevrolet 4-door.

## School Board Okays Tentative Title I Budget

The Crowell School Board, in a called session Monday night approved a proposed budget to be submitted for the 1966-67 Title I program in the Crowell Schools. The local school received a total of \$42,147.77 during the last school term, and the board was informed that 85 per cent of that amount—\$36,960.35—will probably be available for the coming school year.

The budget as approved would involve the hiring of two teacher aides, two reading teachers, one physical education instructor, one secretary-clerk, one cafeteria worker, one visiting teacher and one nurse, with a total of some \$24,130 to be paid these workers.

The proposed budget calls for a sum of \$12,830 to be spent for the following services: transportation, in-service school, food service, clothing, supplies, testing, evaluation, and community services.

Supt. Henry Black told the board that he attended a workshop on Title I in Wichita Falls last Thursday and he was informed that children who may participate in Title I activities are "educationally deprived" children, those who are handicapped in learning, and that the annual income of their parents need not be of a set minimum. Any child in the system who is experiencing difficulty in learning is eligible to be helped under the program.

In a discussion of the Headstart program, board members learned that children who are 5 years of age, and their parents have an annual income of less than \$3,000 will be eligible to enroll in Headstart, should the local district desire to start such a program.

The board approved the use of a school station wagon to take six cheerleaders to a cheerleaders school to be conducted at S. M. U. in Dallas during August. Mrs. Welton E. Nickel will drive the vehicle and be chaperone for the girls.

**To Meet Monday**  
The board will have its regular August meeting next Monday night. Two items to be handled are the hiring of bus drivers for the new school term, and formulating a pass list for athletic events during the coming school year.

**Mrs. Abbott Attending School of Missions at McMurry College**  
Mrs. Merriel H. Abbott is in Abilene this week attending the Woman's Society of Christian Service School of Missions being held at McMurry College from July 25 through 29.

Mrs. Abbott's three children, Kenneth, Mark and Paula, are visiting their grandparents, the H. O. Abbotts and W. E. Mayhews, at Winters.

## W. M. Cox Family Has Reunion Here

Mr. and Mrs. W. M. Cox had at home all their 3 children and their families for the past week: Mr. and Mrs. Bill J. Cox and son, Gregory, from Tia Juana, Venezuela, Mr. and Mrs. Boyce Cox and baby son, Timmy, from Childress and Doris and Melissa Burdsmith from Crowell. It was the first time in 7 years since they had all been together at home.

## Down Town Bible Class

Twenty men were present at the Sunday morning meeting of the Down Town Bible Class and heard Rev. E. L. Stanley, pastor of the Assembly of God Church, bring the lesson.

Freddie Wehba led the group singing and also sang a solo, accompanied by Mrs. W. W. Lemons who also played accompaniment for the group singing.

## Subscriptions to News

Subscriptions to the News received since July 19 follow: Jesse Tate, Crowell; Thomas E. Hamilton, Knox City; W. Frank Land, New Hope, Ark.; J. M. Russell, Amarillo; Mrs. T. M. Haney, Vernon.

## SCHOOL ELECTION TO BE HELD SATURDAY

An election within the limits of the Crowell Consolidated Independent School District, will be held at the City Hall in Crowell on Saturday, July 30.

The voters of the former Thalia district, which has been consolidated with the Crowell district, will also be voting in this election, which has been called in connection with the consolidation of the two districts.

There will be two ballots for voters to mark in Saturday's voting. One will be on levying the local maintenance tax, and the other will be on bond assumption.

Since, according to law, the consolidation of Crowell and Thalia creates an entirely new district, the election is necessary to set the local maintenance tax for the new district. The bond assumption election will be for the assuming of the new district's indebtedness. Since the old Thalia district was debt-free, this means that Thalia voters will be assuming their fair share of the indebtedness of the Crowell district.

Balloting will be from 8 a. m. to 7 p. m.

Those eligible to vote in this election are those persons who have rendered property for taxes in the district, and are qualified to vote in state elections.

Election officials will be Otis Gafford, Mr. and Mrs. L. A. Andrews, Mrs. Clarence Garrett and Mrs. Marion Crowell.

## Former Crowell Man New President Letter Carriers' Association

Leroy Gibson, a former Foard County resident and now a rural mail carrier out of the Quanah Post Office, was elected president of the Texas Rural Letter Carriers' Association at the annual convention in Houston July 17-20.

Mr. Gibson started his postal career in Vernon as a substitute clerk. He transferred to a rural route out of Goodlett and later his route was moved into the Quanah office. He has taken an active part in the Rural Carriers' Association since he became a rural carrier.

He is a deacon in the First Baptist Church of Quanah and works in the young people's department in Sunday School.

His wife is the former Miss Iva May Bradford of Crowell and she works for the First National Bank in Quanah. They have two sons, football standout Ridley Gibson, a junior in Baylor University, and Mike Gibson, a senior in Quanah High School.

Mrs. Gibson is a former officer in the Texas Ladies Auxiliary to the Texas Rural Letter Carriers' Association and Mike is president of the Juniors of the Texas RLCA.

## Second Class Citizen

Robert P. Griffin, U. S. Representative from Michigan, said: "To force a worker to join a union, and then to use his dues for politics, is to make him a second-class citizen."

Both families have been active in the local Methodist Church. Gifts of appreciation were presented to the honorees. Refreshments of home made ice cream and cake were served.

## Margaret

MRS. L. B. ROBERTSON

Mrs. August Rummel spent last Tuesday visiting her sisters, Mrs. Emma Schulz, Mrs. Ella Zoch, Mrs. Selma Schulz and Mrs. Otto Obenhaus, all of Lockett.

Mr. and Mrs. R. A. Miller and Mrs. Carr of Riverside visited the R. L. Hudgens Sunday.

Loran Robertson visited his mother, Mrs. G. W. Neel, and Bob and Walter Gabler in Lockett Thursday.

Mrs. Loran Robertson visited Mrs. N. A. McNabb in Vernon Wednesday.

Mr. and Mrs. Bennie Smith of Crowell visited her parents, Mr. and Mrs. R. L. Hudgens, Saturday.

Mrs. Mary Armitage of Oklahoma City arrived Tuesday for a visit with her niece, Mrs. Coy Payne, and husband.

Ricky Eavenson of Thalia visited his grandparents, Mr. and Mrs. Coy Payne, Saturday.

Irene Doty and Mrs. B. J. Eavenson and Regina of Thalia visited the Coy Paynes Tuesday.

Mrs. J. W. Sollis and family

of Petersburg visited Mrs. Valeria Owens and Mr. and Mrs. A. B. Owens and Mr. and Mrs. J. S. Owens Sunday.

Mr. and Mrs. J. T. Tamplin of Vernon visited his parents, Mr. and Mrs. Will Tamplin, Sunday.

Mrs. Billy Joe Halenack has been in the hospital the past week. Her sister, Mrs. Tommy Powers, and family of Denton visited her.

Mr. and Mrs. Brian Gleaton of Odessa spent the week end with her mother, Mrs. C. R. Roden, and her son, Robert Reinhardt, and wife of Lubbock visited them Sunday. Mrs. Inez Statser of Wichita Falls and Mr. and Mrs. W. H. Sellers of Crowell visited them Saturday night.

Mrs. Billy Joe Halenack is in the Wichita Falls hospital.

Mrs. Frankie Halenack and children and Mrs. Clarence Ross visited Mr. and Mrs. Jack Lacy in Turkey Friday.

Mr. and Mrs. Frankie Halenack visited Mrs. B. J. Halenack in the hospital in Wichita Falls Sunday.

Mr. and Mrs. Earl Ingle visited Mr. and Mrs. Carl Ingle in Quannah Thursday night.

Mr. and Mrs. Cecil Ingle of Quannah and Mr. and Mrs. Luther Denton of Crowell visited their mother, Mrs. Ella Ingle, Sunday.

Mr. and Mrs. Earl Ingle visited their nephew, Hardy Swan, and

## Savings Bond Program Is 25 Years Old

If you are more than 35 years old, you may remember those uncertain months leading up to Dec. 7, 1941. Americans hoped fervently that war would not reach these shores, but government leaders saw the need for urgent preparations—just in case.

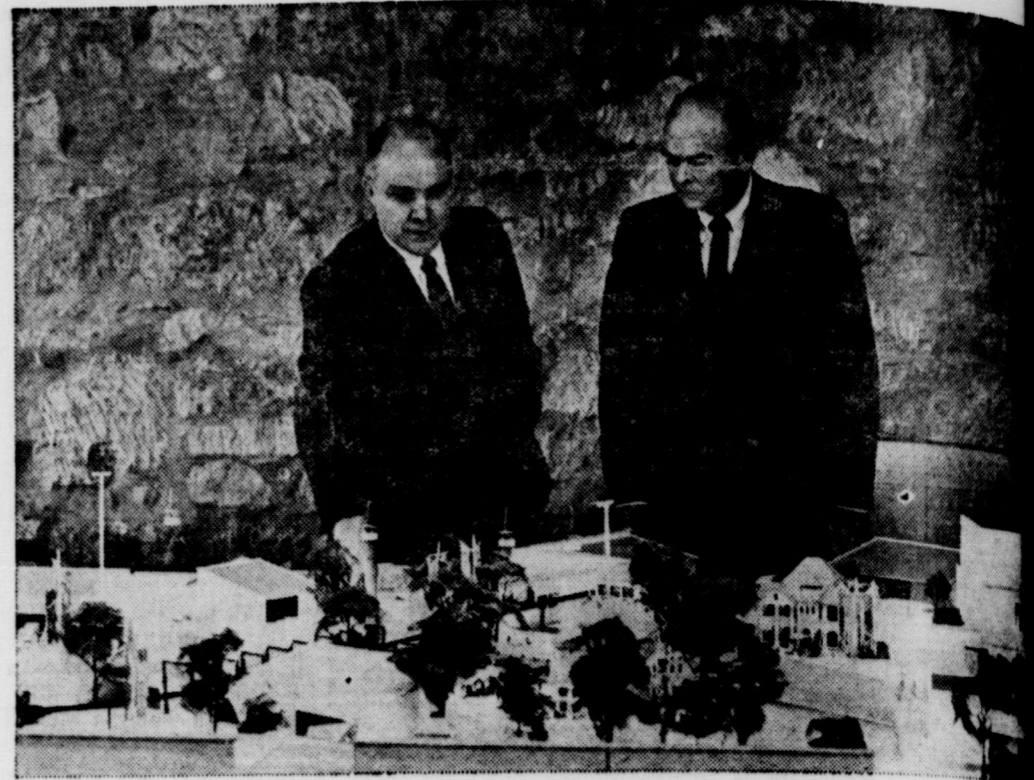

This meant the raising of additional funds—quickly—in order to finance defense needs. And it was important that Treasury borrowing should be the type that would least upset the money markets.

That's when the Series E Savings Bond came on the scene. Patterned after the "baby bonds" of earlier years, it was designed for the small saver, and could be bought in any bank or post office. (Bonds are no longer sold in most post offices.)

To say that the E Bond was an overnight success would be a slight exaggeration. First day sales on May 1, 1941, were only \$60,000, even with President Roosevelt leading the way with the first purchase. The second day brought in \$301,000, however, and the daily figure went over the million dollar mark by May 5 and exceeded two million by May 7.

After 25 years, average daily sales of E Bonds hover in the neighborhood of \$15,000,000. People who first bought them to help the war effort now make them a part of their regular savings plan. Some three billion dollars worth are sold each year on the Payroll Plan, whereby employees ask their employers to deduct fixed amounts each payday.

It has been estimated that about one person in every four or five owns some United States Savings Bonds. This has created a backlog of quickly-convertible savings in every community throughout the country.

**HEMISFAIR PREVIEW**—HemisFair president Marshall Steves (left) points out features of a HemisFair scale model to Nelson Jones, a director of Humble Oil & Refining Company. Mr. Jones announced that Humble will restore one of the historic buildings in the area. He said the building, which will be a place for fair-goers to relax, will also have a restaurant, a movie theatre, and space for art and cultural exhibits. Domestic and foreign governments and major industries and services from throughout the world will be represented with exhibits at HemisFair's 92-acre downtown San Antonio site. The first major international exposition ever scheduled in the Southwestern United States, HemisFair will run from April to October 6, 1968.

**JUST RECEIVED MY FALL AND WINTER CATALOGUE OF SHOES!**

Your feet actually float on thousands of tiny air bubbles!

D. C. ZEIBIG, Sales Manager of Mason Shoes of Chippewa Falls, Wisc.

## Thalia

MRS. MAGGIE CAPPS

Alton Abston and daughter, Andrea Kay, of Wichita Falls visited Mrs. H. W. Banister Saturday. Wednesday visitors in Mrs. Banister's home were Mrs. Naomi Nichols of Crowell; her daughter, Mrs. Lois Bursley, and son, Seth, of Plainview. They also visited the O. C. Hollands.

Mr. and Mrs. Allen McBeath and 3 children, Gary, Lisa and Kathy, of Los Angeles, Calif., visited the McBeath families here Friday.

Mrs. Fay Whitman and her guests, Mr. and Mrs. Gaylon Whitman and children of Arizona visited Mrs. Gaylon Whitman's grandparents, Mr. and Mrs. Geo. Bouldin of Leuders and her aunt, Mrs. Sue Miller, and family of Stamford. Mrs. Miller was ill in a Stamford hospital.

Mrs. Duane Naylor and children and Mrs. Oran Ford and Mrs. Maggie Capps were visitors in Wichita Falls Monday. Mrs. Ford and Mrs. Capps visited Clyde Self in the General Hospital.

There will be a bridal shower honoring Miss Jimmie Moore, bride-elect of Neal Johnson of Vernon Friday afternoon, August 5, from 3 to 5 p. m. Everyone is cordially invited.

Clyde Self underwent surgery at General Hospital in Wichita Falls Friday. He expects to be back home within the week. Mrs. Self accompanied him there and is visiting in the home of her daughter, Mrs. Elmer Laurence, and family. A daughter, Mrs. T. R. Cates, was with them Friday and the Cates family visited them again Sunday.

Visitors of Mrs. Cap Adkins Sunday were her daughter, Mrs. Mary Matthews, and Pete of Wichita Falls and Mr. and Mrs. Gene Speer of Olney.

Mrs. F. A. Brown and Mrs. Maggie Capps visited Mrs. W. J. Jones, Mrs. Isa Belle Thompson and Mr. and Mrs. Z. S. Mason in Vernon Thursday morning.

O. C. Holland visited Clyde Self in a Wichita Falls hospital Friday.

Mr. and Mrs. W. A. Johnson were visitors in Breckenridge last Thursday.

Roy Self and Maggie Capps visited Clyde Self and the Elmer Laurence family in Wichita Falls Saturday.

Lauri Laurence of Wichita Falls came Saturday for a visit with the T. R. Cates Jr. family and other relatives.

B. F. Tarver returned home from the Crowell hospital last week after spending several days there as a patient.

Miss Onita Cates of Abilene spent the week end visiting her parents, Mr. and Mrs. T. R. Cates Sr. She also visited the Gaylon Whitman family who are visiting in the Fay Whitman home.

Mr. and Mrs. Cecil Carpenter, Mary Sue and Tommie, visited their new granddaughter and niece, who was born last week to Mr. and Mrs. Gary Carpenter of Mesquite. Mrs. Carpenter remained for a week's visit there.

Visitors of Mrs. Fay Whitman through the week end were her sons and families: Mr. and Mrs. Gaylon Whitman and children of Tucson, Ariz., Mr. and Mrs. Rufie Whitman and children of Abilene and Mr. and Mrs. Eldon Whitman and son of Thalia.

Mrs. Willie Garrett of Crowell visited Mr. and Mrs. W. A. Johnson Thursday.

Mr. and Mrs. Bruce Casada of Lockett visited Miss Irene Doty Sunday.

Floyd Bice of Vernon visited

in the Fay Whitman home Sunday with Mr. and Mrs. Gaylon Whitman of Tucson, Ariz.

Mr. and Mrs. Reggie Pittillo of Crowell visited Mr. and Mrs. Lee Shultz Sunday.

Mr. and Mrs. Lee Shultz spent Sunday night with their son, Ralph Shultz, and family of Vernon.

Melinda Nell and Sidney Rhea McBeath and friend of Paris have been visiting relatives here.

Sunday visitors in the home of Mrs. G. A. Shultz included Mr. and Mrs. David Carpenter and children of Quannah, Mr. and Mrs. Curtis Schoppa and daughter of Lockett, Mrs. Eva May Woods and Mrs. Irene Campbell of Wichita Falls.

Mrs. G. A. Shultz spent last week with her mother, Mrs. Eva May Woods, in Vernon.

## Report Tips for Social Security

Starting with 1966 workers whose income includes tips are beginning to build more social security protection for themselves and their families, according to Edwin Draughon, social security district manager in Vernon.

The social security office has a free booklet that explains how tips are to be reported for social security, and how the income can be credited for disability, survivors, or retirement insurance benefits under social security.

Both the social security office and the Internal Revenue Service have copies of a special record book that employees with tip income can use to keep track of their tips. The book also includes the forms needed to report tips to employers.

Mr. Draughon reminded employers that they don't have to match their employees' tax on

tips as they do the tax on wages.

The quarterly tax return of employers has been revised to count for tips separately.

Employees with cash income—and their employers—have any questions about coverage of tips for social security are urged to inquire at their social security office. They will avoid errors and corrections.

The social security office in Vernon is located at 1728 Street, telephone LI-2-304.

Is that typewriter ribbon New ones at the News for \$1.50.

cek, and family.  
 Mr. and Mrs. T. H. Matthews visited his daughter, Mrs. Jean Lanham, and family of Vernon Saturday.  
**Walleyes Tested in Second Lake**  
 Buffalo Lake, near Umbarger, has been experimentally stocked with 400,000 walleye fry by the U. S. Fish and Wildlife Service, according to Leo Lewis, regional fishery supervisor for the Texas Parks and Wildlife Department.  
 Buffalo Lake was stocked about a year ago with northern pike fry, but the fighting predators failed to become established.  
 If the experiment is successful, Golden-spread sportsmen will have two walleye lakes in their immediate area.  
 Two weeks ago the Parks and Wildlife Department flew in 2 million Iowa walleye fry for Lake Meredith.  
 The walleye fry, about the size of mosquito larvae were distributed in protected coves in all portions of the new lake.  
 Walleyes released in Meredith now total 2,500,000 counting the 500,000 released last year.

**BLACKWELL ROOFING KETTLE WITH PUMP**

Pictured above is one of the most modern pieces of Roofing equipment available today. It is the Blackwell Roofing Kettle, with pump. This Kettle has a capacity of 230 gallons of Roofing Liquid. The Pump will lift the liquid up to 150 feet. It saves time as is also a safety measure, years ahead of the old bucket, rope and hand pulled system. Arthur Mullins (above), kettle man, has been with James Condon 12 years. See this equipment in operation at the Vernon High School Gym today.

**\$16.6 Billion in Social Security Benefits Paid Out in 1965**

A record high of \$16.6 billion in social security benefits was paid out in fiscal 1965, \$788 million more than in the previous year, according to the 1966 annual report of the trustees of the Social Security Trust Funds, published last week following submittal to Congress.

Income of the trust funds also reached new highs in the fiscal year, with total income exceeding outgo by about \$225 million.

Robert M. Ball, commissioner of social security and secretary

of the board of trustees, said that the assets of the old-age and survivors insurance trust fund totaled \$20.2 billion at the end of June 1965.

As of the same date, the disability insurance trust fund, set up in 1956 and now paying benefits to over 1 million disabled workers and their families, had total assets of \$2 billion.

He noted that the 1965 amendments to the social security act provided two new programs of health insurance for persons 65 and over, along with a 7 per cent increase in social security benefits and other important changes in the existing program.

The legislation created two new trust funds—the Federal Hospital

Insurance Trust Fund and the Federal Supplementary Medical Insurance Trust Fund. A fixed part of the combined employer-employee social security tax contribution (.70 per cent of the first \$6,000 of annual earnings for 1966) is earmarked for the hospital insurance trust fund, beginning January 1, 1966. This is the fund that will be used to help pay the costs of hospital and related benefits for persons 65 and over, beginning with July 1966. Contributions will be made from general revenues for a transitional period to finance the payment of hospital benefits to people uninsured for social security benefits.

The supplementary medical in-

urance trust fund will consist of the \$3 monthly premiums paid by those who sign up for that part of the health insurance program that relates primarily to helping to pay doctor bills, plus matching contributions out of general federal revenues.

**Sound Pollution Poses New Threat**

Sound pollution may soon take its place with air and water pollution as a danger to the health and well being of our citizens, says Dr. Lee Farr of Houston.

Dr. Farr, professor of Nuclear and Environmental Medicine at the University of Texas, is locat-

ed at the Texas Medical Center, M. D. Anderson Hospital. He defines sound pollution as "unwanted noise which has increased in volume as our mechanized urbanized society uses more and more machines in closer and closer quarters."

"For example, it's the combination of your spouse running the vacuum cleaner, your daughter playing records, your neighbor's TV turned up very high, and a lawn mower operating down the street on an afternoon when you have a headache or are trying to get the baby to sleep. Air conditioners add to the din when you close the windows to reduce the outside noises," Dr. Farr explains. Sound pollution is a hazard to

the well-being of the family and the individual in today's complex society, says Mrs. Patsy R. Yates, Texas A&M University Extension specialist in family life education. People rush around under such pressure that tensions, ulcers and nervous disorders frequently develop. Doctors prescribe a quiet, calm, relaxed atmosphere for such ailments. Often, however, the home is not as quiet as the office or factory.

Most factories, offices and public buildings have been engineered acoustically at small additional cost to increase industrial efficiency. Home design, however, seems to have been concentrated upon style as a status symbol and appearance without thought of

Crowell, Texas, July 21, 1965

quality control of sound. "If home is to be the best for families to build strong, effective human relationships and rest, we need to take seriously to Dr. Farr's words," says Mrs. Yates.

## Miss Fairchild and Mr. Stubblefield Wed Saturday Evening

Marriage vows were repeated by Miss Beverly Faucine Fairchild of Crowell and Gerald Malcolm Stubblefield Jr. of Fulton, Miss., in a ceremony solemnized at 8 o'clock Saturday evening in the First Baptist Church in Crowell. Officiant for the double ring rites was the pastor of the church, Rev. Glenn Willson.

The bride is the daughter of Mr. and Mrs. J. B. Fairchild of Crowell and parents of the groom are Mr. and Mrs. Malcolm Stubblefield of Fulton.

The bridal path was illuminated by single aisle votive candelabra accented with smilax and white bows. An aisle cloth led to the prie dieu and bridal arch, adorned with greenery and white chrysanthemums. In the background were two impressive tree candelabra garlanded with smilax and holding white tapers. The arch, flanked by white columns entwined with smilax, held cathedral candles which were used by the bride and groom in lighting a memory candle. Arrangements of white gladioli and smilax in chrysanthemum placed on white columns were flanked by two smaller tree candelabra with white tapers entwined with smilax and at each side was a spiral candelabra garlanded with greenery. Completing the decor were white tapers and greenery in the windows.

Nuptial selections were by Jon Ann Carter, organist; Mrs. Terry Garrett, pianist; Darrell Dick, soloist, presented "Because" and "The Lord's Prayer." The harpist's selection was "Clare de Lune."

Presented in marriage by her father, the bride wore a formal gown of candlelight peau de soie and French rose design lace. The gown was fashioned with an elongated bodice and portrait neckline traced with seed pearls and iridescent sequins. The skirt was accented with appliques of lace and seed pearls and featured a wide lace panel inset extending to a full court train.

A six-tiered veil of imported illusion was held in place by a matching crown of lace encrusted with sequins and pearls. The veil was worn by the bride's two

older sisters at their weddings. The bride's jewelry, a single strand of cultured pearls, was a gift of the bridegroom. A traditional cascade bouquet of stephanotis and ivy, centered with a white orchid, was carried on a white prayer book.

Mrs. L. H. Wall Jr. of Crowell and Mrs. Billy Ryan of Denton, sisters of the bride, were matrons of honor. They wore formal gowns of aqua peau de soie designed with empire waistlines complemented with white bugle beads and shoulder bows from which fell floor-length wattleau panels. They wore headpieces of matching peau de soie and three-tiered veils of silk illusion fashioned by Mrs. B. T. Juvenal of Vernon.

Bridesmaids were Miss Dawn Johnson of Rolling Fork, Miss.; Miss Patty Eddy of Quanah; Miss Suzanne Stubblefield of Fulton, sister of the groom; Miss Judy Sandlin and Miss Ely Wehba of Crowell, and Mrs. Guy Todd Jr. of Denton. They wore identical attire as the matrons of honor and their cascade bouquets were formed of white fuchsia mums centered with aqua and accented with streamers of white satin ribbon tied in love knots.

L. H. Wall Jr. of Crowell and Billy Ryan of Denton seated the guests and served as candlelighters. Ring bearer was Jay Leman Wall of Crowell, nephew of the bride, and Miss Patty Wishon of Garland was flower bearer. She was dressed identically as the other bridal attendants.

Serving the groom as best man was his father, Malcolm Stubblefield. Groomsmen were Pat Davis and Major Bowen of Fulton, Jack Towns of Grenada, Miss., Butch Lambert of Tupelo, Miss., Bill Stubblefield of Oxford, Miss., Mike Hartwell of New Maridan, Mo., and Gerald Warfield of Gulfport, Miss.

Mrs. Fairchild chose for her daughter's wedding a David Morris original of Dior blue Chantilly lace, matching pillow box hat and accessories. She wore an ostrich cymbidium orchid with mauve throat. The mother of the bridegroom chose a dress of garden green styled with a chiffon skirt and matching lace bodice. She wore a hat and accessories in the same shade of green and her corsage was a green cymbidium orchid.

The bridal party was honored at a reception in the banquet room

of the church. The bride's table was covered with a white satin cloth frosted with an overlay of white net applied with white wedding bells and doves embellished with sequins and bugle heads. Centering the table was a five-branch silver candelabra holding an arrangement of white gladioli and greenery accented with white tapers. Wedding bells decorated the three-tiered wedding cake with columns separating the layers. Adding to the setting was a silver punch service.

Coffee and chocolate cake were served at the groom's table which featured a silver coffee service and silver candelabra. Guests registered at a table covered with a white satin cloth and overlaid with white net, and decorated with a silver epergne holding a floral arrangement. An arch of greenery centered with wedding bells provided a background for the receiving line and the room was illuminated by tall white tapers in spiral candelabra.

Music during the reception included piano selections. Reception assistants were Mmes. Gordon Bell, Lorraine Carter, Cecil Driver, George Fox, Warren Haynie, James Sandlin, E. M. Sollis of Crowell, Miss Judy Listow of Wichita Falls, Miss Scherry Goodwin and Miss Jo Wynn Ekern of Crowell, Mrs. Bob Borchardt of Norman, Okla., and Miss Linda Atkins of Upora, Miss.

When the bridal couple left for a honeymoon to Las Vegas, Nevada, and points of interest in California, she was wearing a green silk suit with matching accessories and the orchid from her bridal bouquet. After their wedding trip, Mr. and Mrs. Stubblefield will make their home at Oxford, Miss., where they will continue their studies at the University of Mississippi.

The bride is a senior student at the University of Mississippi where she is a member of Alpha Omicron Pi and an officer of the sorority. She served as head majorette and assistant drum major with the Ole Miss Rebel Band, was elected an Army ROTC sponsor for three years, and was a finalist in Miss University Pageant for two years.

Also a senior at the University of Mississippi, the groom is majoring accounting. He is a member of the Rebel football team and "M" Club. He is a graduate of Itawamba Agricultural High School where he received the athletic award and was elected Mr. IAHS.

Mr. and Mrs. Malcolm Stubblefield were hosts for the rehearsal dinner Friday night at Duteh's

Restaurant in Quanah. The focal point was a large cupid candelabra with an arrangement of red roses, pink snapdragons and stephanotis. Highlighting the arrangement were love birds carrying wedding rings. U shaped tables were adorned with small cupid arrangements of red sweetheart roses and stephanotis entwined with ivy.

Prenuptial courtesies extended to Miss Fairchild included a personal shower at Alpha Omicron Pi sorority house at the University of Mississippi and a luncheon given by Mrs. Harold Stubblefield, aunt of the groom-elect.

Mrs. Lloyd Chamber, Mrs. Julian Davis and Mrs. Manuel Gordon of Fulton entertained at a luncheon on the poolside terrace of the Country Gardens Restaurant in Tupelo, Miss., honoring Miss Fairchild and Mr. Stubblefield. The home of Mrs. Leo Cates in Crowell was the setting for a bridal shower.

## Mr. and Mrs. Benton Westbrook Observe Golden Anniversary

A reception was recently held by the children of Mr. and Mrs. Benton R. Westbrook of the Round Mountain community, Fayetteville, Ark., honoring them on their 50th wedding anniversary.

Mr. Westbrook was from Truscott and he and Mrs. Westbrook were married June 28, 1916, at Cordell, Okla. They moved to Arkansas from Texas in 1946.

The couple are the parents of four children, all of whom were present for the occasion: Granville Benton Westbrook and wife of Fort Worth, Dorcas Deane Starnes and husband of Texarkana, Mrs. J. W. Netherton and husband and Mrs. T. Jack Leinis and husband of Tulsa, Okla.

There are 12 grandchildren, nine of them being present. Seventy-two guests attended.

Refreshments were served of punch and portions of sheet cakes, each serving topped with a "50." The serving table was centered with a four-tiered wedding cake which was left intact. On either side were golden and white candles in gold candleholders.

The spacious room was decorated with white and gold wedding bells, flowers and gold garlands. A table for the display of cards and messages was centered with a pot of golden mums sent as a gift from the Church of Christ, Elkins, Ark. There was a six-foot-long table covered with photos of the old "horse and buggy days" as well as of western cowboys. Mr. Westbrook grew up on a ranch in North Texas.

## Bridal Shower Honors Miss Paula Sparks Saturday Morning

Miss Paula Sparks, bride-elect of Woody Frank Lemons, was honored with a miscellaneous shower Saturday morning, July 23, at the Adelpian Club House.

The guests were greeted by Mrs. Henry Borchardt, and presented them to the receiving line composed of the honoree; her mother, Mrs. Doyle Sparks; Mrs. W. W. Lemons, mother of the groom-elect; and Mrs. Frank Moore and Mrs. Della Stubblefield, his grandmother and great grandmother.

The bride was attired for the occasion in a blue printed voile sheath. Her corsage of white carnations was a gift of the hostesses.

Mrs. Philip Welch registered the guests, Mrs. Jon Lee Black served from a table laid with a linen cutwork cloth centered with an arrangement of white gladioli. Punch, tiny doughnuts, and nut bars completed the refreshments.

Displaying the many lovely gifts were Mmes. Nelson Oliphant, Leo Cates, Jackie Walker and Walter Ramsey. Other hostesses were Mmes. W. L. Johnson, Jon Lee Black, Henry Borchardt, Homer Ketchersid, H. B. Sanders and Howard Ferguson.

## Miss Osborne and Billy Gene Everson to Wed August 26

The engagement and approaching marriage of Miss Barbara Nell Osborne to Billy Gene Everson has been announced by Mr. and Mrs. Sam Osborne of White Deer, parents of the bride-elect.

The prospective bridegroom is the son of Rev. and Mrs. Warren Everson of Crowell.

Vows will be exchanged on August 26 in the First Baptist Church in White Deer.

## State Governments Spent \$45.5 Billion

According to a report issued by the U. S. Department of Commerce, state governments spent \$45.5 billion in fiscal 1965, including \$4.2 billion paid in unemployment compensation and other insurance trust systems.

## Two Minutes With the Bible

Paul the Pattern

Many religious people take the Lord Jesus Christ as their pattern in life. They call Him "The Great Example." When problems arise they ask themselves: "What would Jesus do?" They seek salvation by "walking in His steps."

While our Lord's moral and spiritual virtues were indeed worthy of emulation, there were many details in His conduct which we should not imitate. For example, none of us would be in a position to pronounce upon the religious hypocrites of our day the bitter woes which our Lord pronounced upon the Pharisees of His day—simply because we all have so much of the Pharisee in us.

Certainly we cannot be saved by "following Christ" or striving to live as He did. His perfect holiness would only emphasize our unrighteousness and condemn us. He came to save us, not by His life, but by His death. "Christ died for our sins" (1 Cor. 15:3), and sinners are "reconciled to God by the death of His Son" (Rom. 5:10).

But God has given us a pattern for salvation. It is none other than the Apostle Paul, the chief of sinners saved by grace. Hear what he says by divine inspiration:

"This is a faithful saying, and worthy of all acceptance, that Christ Jesus came into the world to save sinners, of whom I am chief" (1 Tim. 1:15). Paul, as Saul of Tarsus, remember, had led his nation and the world in rebellion against God and His Christ. He was "exceedingly mad" against the disciples of Christ and "breathed threatening and slaughter" against them. Why then, did God save him? He goes on to tell us in the next verse:

"But for this cause I obtained mercy, that in me first Jesus Christ might show forth all long-suffering, for a pattern to them that should hereafter believe on Him to life everlasting" (ver. 16). The moral: Take your stand with Paul. Admit you are a sinner and His Savior will save you too.

## Features Given of Insurance Program

Increased production guarantees and a new premium discount feature will highlight the federal crop insurance wheat program in Foard County for 1967. Gene Hamilton, local representative, says guaranteed wheat coverages have been increased 9 per cent in the county.

In addition, Hamilton says, a new premium discount feature is being introduced this year. Farmers interested in details of the program may contact Hamilton in Knox City.

## Would Fail Inspection

The Portland, Oregon, Traffic Safety Commission says one out of six cars on the average would fail to pass a vehicle safety inspection.

## FOARD COUNTY FARM BUREAU

- CARGO INSURANCE—Trucks.
- HAIL INSURANCE on wheat and growing crops.
- COMMERCIAL INSURANCE—Buildings and contents.
- HOSPITALIZATION—Blue Cross, Blue Shield and C. I. E.
- TAX REFUND ON GAS.

## Fatal Trap Traced to Drifting Boat

Two tragic drownings already this summer from trying to retrieve drifting boats prompted the Texas Parks and Wildlife Department to caution water recreationists on this hazard.

In the latest case, an adult man leaped into a lake when his unfettered boat began drifting away from a dock.

His intention was to swim to the craft.

In this instance, like the previous one also involving an adult, the speed of the boat exceeded that of the swimmer. Finally, exhausted, he sank.

The Department emphasized the buoyancy of an unoccupied boat since such light craft sits high in the water and thus catches the full impact of any breeze.

"It requires a pretty fast and well-trained swimmer to catch up with a drifting boat under these circumstances," said a department spokesman.

Another common cause of drownings noted by the Department involves swimmers setting up a distant target and then on arriving finding a non-buoyant floating object instead of a fixed resting place.

"The surprise under such circumstances borders on shock and can well trigger fatal panic," said the Department spokesman.

"Of course, the only recourse then is to utilize rest tactics, such as rolling over on the back and

simulating a resting pose." The drowning rate, officially counted by the department, is running substantially ahead of the 1965 Texas total of 200 persons perished in recreational accidents.

Game wardens are now atating in enforcing a new safety code that stresses the use of life preservers.

## Tax Man Sam Seizes

Each year thousands of students work in summer jobs, employers, in accordance with law, withhold taxes from wages. A lot of students, earn enough during the year to require them to file an income tax return. However, it is important that they file a return shortly after January year, so they can get the refund. If a student does not file a return and claim the government doesn't have a refund coming. In the case of many students, filing a return can be a profitable

## WTU NOTEBOOK—PATTERNS FOR PROGRESS

### INDUSTRIAL SITES AND BUILDINGS ...basic for new and expanding industry

Industries' requirements for land and buildings are one of their most important interests when selecting a town in which to operate. Each industry has its own peculiar needs. Therefore, a wide variety of different type industrial sites gives a community increased chances of obtaining new industry as well as helping its existing industry to expand. Planning and zoning by a community is important to the community as well as to industry. Land is now available in West Texas. Wise planning for the future can easily be accomplished.

INDUSTRIAL SITES — range from industrial parks, planned industrial districts, individual sites (with all utilities) to raw land to be developed. Communities desiring new industry should have the following information on firmly committed industrial sites . . .

PLATS — Showing size, shape, location of utilities, access to transportation and topography.

LOCATION — Inside or outside of the city and any zoning restrictions.

PICTURES — Aerial photos tell an excellent story on an industrial site.

INDUSTRIAL BUILDINGS — existing buildings are very important as they are usually available at a lower cost than building new ones. In addition to the above information on sites, a community should have the following information on buildings. . .

FLOOR PLAN — Showing the size and dimensions of building, wall and ceiling heights, floor bearing capacity, office space, whether it has sprinkler system for fire protection and what type heating and air conditioning would be available.

PICTURES — Show the type construction of the building as well as many other items of information that industry would be interested in.

VIP (Very Important Part) — Have firm commitments in writing on all industrial sites and buildings as to sale price and/or lease price, cost of extending utilities or roads and basic construction costs in the area for new facilities.

Ask your WTU local manager for additional information and services available.

Prepared by Area Development Department, West Texas Utilities.

**From the News**  
**THIRTY YEARS AGO**

News items below were taken from the Thursday, July 23, 1936, issue of The Foard County News:

Claude Callaway was appointed Foard County chairman of the Red Cross Roll Call Friday of last week by F. D. Sanderson of St. Louis, field representative of the Red Cross.

One hundred and twenty-one absentee ballots had been cast by voters in Foard County by 5 o'clock Wednesday afternoon.

Fire caused by lightning destroyed a 16x16-foot log house on the John S. Ray farm in the Rayland community last week. The house was bought by Mr. Ray's father from an early settler in that community 55 years ago.

Sunday, July 19, was probably one of the hottest days in the recent history of Crowell, with street thermometers registering as high as 117 degrees in the shade.

Twenty-two horses and one mule were purchased by government buyers here Saturday for use in the United States Army. The stock was shipped Saturday afternoon to Fort Reno, El Reno, Oklahoma.

A \$90,000 fire which destroyed three two-story brick buildings raged in Vernon Sunday morning sweeping about a quarter of a block.

Two small comets recently have come into view of the earth and are visible from here each night after 9 o'clock.

The pace-setting nine of the Cotton Belt Baseball League, Truscott, took a two-inning batting spree to trim the Crowell nine 8 to 2 at Truscott Sunday on a near-blistered diamond.

The regular business and social meeting of the Business and Professional Women's Club of Crowell was held Thursday night of last week on Pease River north of Crowell.

Mr. and Mrs. C. C. McLaughlin and Mrs. S. P. McLaughlin left Tuesday morning for a visit to Carlsbad Caverns and other points in New Mexico.

Mr. and Mrs. T. S. Haney and small daughter, Sharon Sue, left Sunday for Dallas to attend the Centennial.

Kenneth Halbert and Blaine Barker of Foard City and Grady Johnson of Thalia are attending the annual farm short course at Texas A&M College this week.

Fifty checks as the final payment of the 1935 Corn-Hog contracts for the farmers of Foard County were received at the county agent's office Monday. The 52 checks amounted to \$3,273.19.

Ivie's Service Station has been leased by Ward Motor Service and will now be under the management of Joe Ward.

Mrs. W. A. Dunn and Billy Jake Middlebrook returned from Lorenzo Sunday of last week after accompanying Mrs. Melvin Moore and little son, Billy Ray, to their home there the day before.

**Wants to Stop This Frightening Slide into a Totalitarian State**

Ernest G. Swigert, chairman of the board of directors of the Hyster Company, has said, "Personally, I want to stop our frightening slide into a totalitarian state and I am not particularly interested in the party label of the candidate. But if either or both political parties succumb to the temptation of placing expediency above principle, they had better remember what a Frenchman said over one hundred years ago: 'The American Republic will endure until politicians discover they can bribe the people with their own money!'"

**Lots of Oil Pipelines**

The total length of the oil pipelines in the United States—estimated at more than 213,000 miles—could encircle the earth more than eight times, Oil Facts reports.

## Summertime Is Fishing Time; Hints Given on Carrying Minnows

Summertime is fishing time. If you plan to carry minnows on your next fishing trip, here are a few ideas that might come in handy, says County Agent Joe Burkett.

Minnow pails with built-in aeration are the most satisfactory for carrying your minnows and keeping them alive. However, if pails without aeration are used, the water should be dipped and poured back at frequent intervals to pick up oxygen from the air, says Burkett.

Cool water retains more oxygen and minnows consume less than in warm water. So, for long summer trips, putting ice into the container to hold the temperature around 55 degrees F. is generally a good practice. But the angler should gradually increase the water temperature in the pail to that of the pond before using the minnows.

Sudden temperature changes make the minnows less active on the hook, therefore, less appetizing to that big fish lurking somewhere in the water.

It's best not to use the young of undesirable fish for bait in farm ponds or lakes where they are not wanted. Undesirable fish sometimes get started in, and take over, farm ponds when fishermen dump left-over bait fish into the ponds, or when several escape from the hooks.

## Good Education Is Key to Leadership

Texas young people should prepare for their future leadership roles by getting the best education possible, according to Ben Barnes, speaker of the Texas House of Representatives.

Barnes, who visited Texas A&M recently to address the Texas 4-H Roundup awards dinner, told the young people that "tomorrow is yours, but the destiny of the entire world also rests in your hands."

He commended the young people and their volunteer adult leaders for the "excellent leadership work you have done here." He then challenged the 4-H members to do an even better job in regional and national competition.

"You young people are fortunate to be living in this decade of the space age. Some of you may even go to the moon. Education is the key that opens the door for your tomorrows. Texas provides fine facilities for a good education, so don't stop until you have completed yours and fully prepared for future leadership roles," Barnes said in his talk, "A Citizen's Responsibility."

"To be born free may be mere happen chance; to live as a free person is your responsibility, and to die a free person is your obligation," Barnes said.

## Hints Given on Cooking Round Steak

Round steak, one of the more popular and available beef cuts, requires different treatment from its broiling cousins: club, sirloin and tenderloin steaks, says Gwen Clyatt, Extension consumer marketing specialist at Texas A&M University.

Round steak may be best known when served as Swiss steak. Swiss steak is a beef dish that is given long, slow cooking. The meat is first thoroughly browned, then seasoned and covered with liquid, often canned tomatoes. It is cooked from two to three hours.

There are innumerable ways to vary Swiss steak. Beef bouillon, canned soups, tomato sauce or dairy-sour cream thinned with milk or water may be used as the liquid. Suitable seasonings cover a wide range from herbs, spices and bottled meat sauces to diced "seasoned vegetables" which may include carrots, celery, onions, green peppers and potatoes.

## "Times Were Never Better"—If

According to The National Education Program Letter, "We're told 'times were never better.' Yes—if we just forget our local, state and federal government indebtedness of approximately \$500 billion (all of our names are on the borrowers' notes, our property is the collateral); if we ignore the relentless month by month inflationary destruction of our dollars' purchasing power; if we blot out of our mind's eye the storm and strife of our internal disorders and the continued agitation to further ignite and explode them into a holocaust."

The term "crow's nest" was derived from the cage which housed ravens at the top of the mast of Norse ships. When the Norsemen lost sight of land, a raven was released and followed.

## There Are Good Insects, Too

Insects which destroy destructive pests are commonly known as beneficial insects, and may become even more important in Texas cotton fields, say entomologists at Texas A&M University. R. L. Ridgway, A&M based entomologist with the USDA's Agricultural Research Service, says "evidence continues to mount to support the importance of beneficial insects and spiders in regulating bollworm and tobacco budworm populations."

Ridgway said laboratory work during the past two years has studied ten different beneficial insects. With a constant supply of the cotton pest eggs and larvae to feed upon, the various predators could destroy from 5 to 100 pests per day. He emphasizes, however, that laboratory conditions were unlike field conditions where the predators have to spend time searching over the plants for their prey.

In a field-cage test, however, using 1x6x36 foot cages and no insecticides, the insect predators gave a remarkable 99 per cent control of the offspring of 12 pair of tobacco budworm moths. During the past season's field studies, the phenomenon of increasing numbers of pests were apparent as the number of predators were decreased.

Some of the beneficial insects studied were the flower bug, damsel bug, big-eyed bug, assassin bug and the green lacewings, plus lady beetles, red cross beetles and spiders. Ridgway says spiders may have a more important role as a beneficial insect in cotton fields than has been previously noted.

The study of beneficial insects has been done in connection with other research on systemic insecticides. Systemic insecticides, he said, are designed to work from the inside of the cotton plant and be effective on plant-feeding insects. Many of the systemics are selective and will kill only certain insects.

Ridgway said, "If we are to take full advantage of the expected selectivity of systemic insecticides, we must know which beneficial species are the most important and the numbers required to prevent economic levels of certain injurious pests from developing. Indications of adverse effects of some systemic insecticide treatments on certain beneficial species have intensified the need for a better understanding of their behavior. Additional information of this type will aid considerably in integrating systemic insecticide applications with beneficial insects and spiders for cotton insect control," he said.

The researcher's work so far has been with predatory insects, but he is now in the process of identifying parasites collected in field work.

## Most Homes Contain Hazardous Materials

Most homes contain a plentiful supply of hazardous materials. They include such commonly used materials as shoe polish, oven cleaner, wax, hair-waving lotion, kerosene, bleach, toilet cleaner, medicine, turpentine, lighter fluid, deodorant, dry cleaning fluid, plant spray and many others.

Each of these products contains some hazardous substance that could cause illness or even a fatality if taken internally. It would be inconvenient, if not impossible to stop using them in the home, but, explains County Agent Joe Burkett, we can use them with caution and keep them away from young children. Safe and proper storage can do this, he says.

Know what you are buying. Examine the label and read the small print. Look for these words—"caution" or "warning"—they indicate the material is a hazardous substance.

"Danger" refers to products defined as extremely toxic, and labels will carry the skull and crossbones.

Labels also give an indication of the principal hazard in such words as "flammable," "vapor harmful," "causes burns," "absorbed through the skin."

Home chemical products are needed and can be safe when properly used. But accidents can happen through careless use, storage and disposal, explains the county agent.

## Most Important Problem in Nation

U. S. Sen. Frank J. Lausche (D-Ohio) said the battle against water pollution is the most important problem facing the nation today.

## —Page 8— Foard County News Crowell, Texas, July 28, 1966

## Behind the Scenes with the Red Cross Bloodmobile

The Red Cross trailer and the word "Bloodmobile" on the side is a familiar sight in this area. Many also know about registration, weight recording, temperature-taking, inquiry into medical history, and other procedures that are routine to frequent blood donors.

Not to well known even to gallon givers is what happens before the bloodmobile arrives—how people and equipment are coordinated to collect the "gift of life."

Once the recruiting plan for donors is completed, key volunteer recruiters must be alerted in each locality. They, in turn, begin promotion campaigns and ask other volunteers both to start telephone canvassing and making personal visits to encourage donors.

Long before the bloodmobile comes to a locality, the mobile unit site must be selected. For an effective donor belt line, officials must choose the best combination of space, entrances, appearance, lighting, privacy, ventilation, and kitchen and lavatory facilities.

In addition to donor recruiters, many other volunteers will participate in the preparations for a blood collection. Volunteers act as receptionists, register donors, assign whole-blood numbers, or escort donors. Volunteer nurse's aides may record weight and temperatures and assist in the donor room. Canteen workers who serve light refreshments to donors also arrange for ordering and picking up their supplies.

Blood program aides also perform these jobs on the donor belt line. The medical and nursing staff may be volunteering their services, too. All of these people must be notified and their activities must be scheduled well in advance of the bloodmobile visit.

The usual mobile unit staff of the Red River region consists of a physician, three nurses, and a mobile clerk. The professional staff has been specially trained in venipuncture procedure, is skilled in obtaining accurate, complete medical histories from prospective donors, and has been schooled in the entire bloodmobile operation.

These are the people who may be involved. What about the equipment?

The nursing division at the blood center assumes responsibility for packing nurses' supply boxes and donor table boxes. The task may seem a simple one. However, the boxes contain 73 different categories of equipment with an inventory of over 6,000 items for a bloodmobile expecting 100 donors.

The mobile clerk, who drives the bloodmobile, has the final responsibility for putting all necessary items aboard. All concerned with the preparation of equipment must provide him with appropriate checklists.

Before he starts the bloodmobile engine, he must double check to be sure that refrigerated chests are properly iced and that the technical equipment is in its proper location. In addition, he must load folding beds and chairs, wastebaskets, lamps, and other necessary non-technical items. He even has to check such details as liners for wastebaskets. One can't forget on a bloodmobile!

Equipment must be placed on the bloodmobile so that it can be efficiently removed and put into position at a mobile unit site in an average time of half an hour. After blood is donated, it must be refrigerated immediately and maintained at an even temperature until it is transfused. At the end of the day, all blood is brought to the blood center for processing and delivery.

Such is the background and preparation for one bloodmobile visit. The activity you notice when you donate is like the top of an iceberg—there is much more underneath.

All blood collection activity is repeated over and over throughout the year across the nation as 1,570 Red Cross county chapters participate in 56 Red Cross blood programs. Indicative of the importance of the bloodmobile is the fact that last year 83 per cent of the blood donated through the Red Cross was collected by mobile units.

## New Bridge in Texas Receives Bridge-Builders' "Oscar"

A new Texas highway bridge has received a bridge-builder's "Oscar" in ceremonies preceding monthly public hearings of the Texas Highway Commission.

John K. Edmonds, executive vice president of the American Institute of Steel Construction, presented prize bridge awards to designers and builders of the Devils River bridge. The bridge is on U. S. Highway 90, west of Del Rio.

The structure was judged best of the medium-span, high-clearance bridges built in the United States in 1964. It was one of five top winners in the annual AISC competition which included a total of 67 new bridges. Judging was based on outstanding achievement in technology as well as esthetics.

Stainless steel plaques to be mounted at the bridge site were presented to the Department.

The Devils River Bridge is one of 19,281 bridges in place on the Texas Highway Network as of February 1. New bridges are being built at the rate of about one per day to meet demands of Texans for more and better highways. In the past three years, the Texas Highway Department has built more than 1,200 bridges. These are bridges in the strictest sense—no overpasses or underpasses are included.

To the Highway Department, a bridge is a structure at least 20 feet long—it's a culvert if it is any smaller—that spans a body of water, a stream or a stream bed.

The highest bridge in Texas is the Pecos River Bridge, soaring 273 feet above the bottom of the channel. The longest bridge measures 11,901 feet and spans Lavaca Bay.

## Beef Market Takes on a New Look

Noteworthy shifts are taking place in the beef market, according to a recent talk at College Station by Ed Uvacek of the A&M Extension Service.

Uvacek was speaking to the National Advisory Commission on Food and Fiber.

For years, cattlemen have aimed at producing prime grade carcasses to get greatest profit. But today, with increased emphasis on cutability, the lower grades of choice and good may be worth more, said Uvacek.

He said in the Southwest there is a noticeable shift toward a heavier weight slaughter calf. At the same time, in the North and East, the shift is toward a lighter weight heavy beef carcass. But, he said, both of these trends are for good and choice grade carcasses. The beef carcasses of the future may be somewhere in between—about a low choice quality.

There is a strong demand for low choice carcasses already, he said. The word "choice" itself has some merchandising ability, and of course, the grade designation has a value too.

In the past, he said, feed grains have been in surplus, so the trend was to feed as much of the grain through an animal as possible. The picture now, however, has almost reversed itself, and we can possibly even see some feed grain shortages developing.

This means the emphasis will

## Lodge Notices

**Crowell Chapter No. 916, OES**  
Meets second Tuesday night of each month. The next meeting will be August 9, 8 p. m.

Members please take notice. We welcome all visitors.

**LONA PITTMAN, W. M.**  
**MARIETTA CARROLL, Sec.**

**THALIA LODGE NO. 666**  
**A. F. & A. M. Stated Meeting**  
Fourth Monday of each month.  
August 22, 8:00 p. m.

Members urgently requested to attend. Visitors always welcome.

**FRED GRAY, W. M.**  
**J. F. MATTHEWS, Sec.**

**CROWELL LODGE NO. 840**  
**A. F. & A. M. Stated Meeting**  
Second Monday each month.  
August 8, 8 p. m.

Members urged to attend and visitors welcome.

**ROBERT TAYLOR, W. M.**  
**ROBERT KINCAID, Sec.**

**Gordon J. Ford Post No. 130**  
Meets every third Tuesday in each month at American Legion hall at 7:30 p. m.

**H. E. MINYARD, Commander.**  
**RAY SHIRLEY, Adjutant.**

**Allen-Hough Post No. 9177**  
Veterans of Foreign Wars

Meets every 1st and 3rd Thursday evenings at 7:30 o'clock in the Community Center.

**CHAS. BRANCH, Commander**  
**BILL NICHOLS, Quartermaster**

shift from marketing grain through the animal to feeding the most efficient animal possible.

The type of animal that is efficient in the feedlot, and produces a desirable type of carcass at the least cost, will be the animal of the future. This will be a meat type steer, the A&M specialist said.

The industry trend toward the goal of this light weight low choice carcass also conforms with the standards required to get the federal grade, he concluded.

## Nothing New About Vending Machines

There's nothing new about the automatic vending machine. In fact, it's 3,000 years old. A recent article in a magazine titled "Food Marketing in New England" pointed out that in 219 B. C. a Greek priest introduced a form of automatic vending. He devised a machine that dispensed holy water when activated by a coin. And, in the 10th century, a Chinese inventor rigged up a bamboo pole so that a coin dropped in a slot released a pencil.

There is a strong demand for low choice carcasses already, he said. The word "choice" itself has some merchandising ability, and of course, the grade designation has a value too.

In the past, he said, feed grains have been in surplus, so the trend was to feed as much of the grain through an animal as possible. The picture now, however, has almost reversed itself, and we can possibly even see some feed grain shortages developing.
