Use Preaddressed Tax Form 1040A

Dallas, Texas—Taxpayers who received a 1966 preaddressed Form 1040A are urged to file that form if it fits their needs and they are eligible to use it.

Ellis Campbell, Jr., District Director of Internal Revenue for northern Texas, said this week that substantial savings will be realized if the form provided is used because fewer key-punch operations are necessary to process the return. "It also helps us utilize the full capabilities for which the Automatic Data Processing system was designed," he said.

If your name or address has changed, make the necessary corrections and strike through lightly the preprinted information. If you have a refund due, this will help insure delivery of the check to the correct address.

Taxpayers should also verify that their correct social security number is entered on the return they file.

Do you habitually take a 25 or 30 per cent discount on the personal checks you write?

- ◆ Many people do . . . without realizing it. It's the hidden penalty they pay for the privilege of taking their trade to some other city or town.
- ◆ Take a moment to consider the facts: Only about 70 cents of each dollar we spend goes to pay for the actual goods or service

that we get. About 30 cents of that dollar has to cover the expenses of the community where the sale is made . . . to pay the people who work there . . . to return something on the capital invested . . . to help support the civic facilities such as churches, schools, fire and police protection, road and street maintenance, etc.

◆ Of course, when we spend our

money away from home we get no personal benefit whatever from the 30 per cent of it which goes for community business and social improvement.

◆ Doesn't it follow, then, that when we give checks or money for out-of-town purchases, nearly one-third of the amount goes for something we don't get? Isn't that very much the same as discounting our checks or money?

Self Employed
Tax Returns Due
by April 17th

Many people in business for themselves are now turning to the business of preparing their income tax returns and their social security self-employment tax returns for 1966.
 Edwin Draughon, social security manager in Vernon, said this week that his office has had numerous inquiries concerning the correct deadline date for the filing of 1966 tax returns. He explained that since April 15, the usual deadline date, falls on a non-work day this year, Monday, April 17, 1967, will be the final date for filing timely tax returns on 1966 earnings.
 Mr. Draughon pointed out that some self-employed people are not required to pay income tax because their net earnings are too low, but those who have net earnings of \$400 or more in a year must report their earnings and pay social security taxes. The tax rate for 1966 self-employment net earnings is 6.15 per cent.
 It is extremely important, Mr. Draughon said, to file complete correct tax returns on all self-employment income, since future social security benefits are based upon the amount of net earnings reported. In some cases, where self-employment tax reports were incomplete or where no tax return was filed, self-employed individuals and their families have lost social security benefits.
 For persons who for one reason or another have not reported their self-employment income for the last several years, April 17, 1967, will be their final opportunity to get credit for 1963 self-employment income, Mr. Draughon said.

Booklet No. 22 explains the self-employment tax reporting responsibilities and can be obtained at the social security office located at 1728 Fannin Street in Vernon. Additional information is also available at your Internal Revenue office.

Miss Fay Balch of Seymour was the guest of her grandparents, Rev. and Mrs. Fay Hinton, at the saddened by the loss of one of its beloved citizens, our sheriff, W. F. Bradford. He fulfilled one of his most wished-for ambitions. He served the community as a respected law enforcement officer and left behind two sons to carry on in his stead. I had the pleasure of spending an hour talking to "Shootie" about his job as a lawman shortly after he was elected. He said, "Mrs. Robertson, I hope I can be the kind of a man who can enforce the law justly without fear, favor, regardless of race, color or creed. My great concern is teenagers and how to deal with them: when to be lenient, when to make an example and how to judge their character to know which method to use. That will be my biggest problem." To me he has done a good job. May God bless his family.

Historical Survey Group Makes Tour in Northwest Foard Co.

Six women of the Foard County Historical Survey Committee made a field day excursion Monday to points of early history in Northwest Foard County.

There's probably no spot in the West that has attracted more curious speculators than the old copper mines which flourished in 1871.

In this area, there's an old rock building and rock corral which at one time was the old Yamparika post office and stagecoach stop—so early that no one has any knowledge of the era. At the old Whately place 23 miles northwest of Crowell, there is an altitude marker showing height above sea level of 1692 feet.

In line with the Women's Service League's sincere interest in subjects of a vital nature to the public, the club featured George Taylor, counselor with the Rehabilitation Center of Texas as the principal speaker at their meeting of Thursday, March 23.

He told of rehabilitating the physically handicapped into useful members of society, and the important part that citizens can play in making this possible.

The introduction of remedial reading in the public school system, the purpose, benefits and results of such courses was interestingly explained by Mrs. W. F. Statser at the W.S.L.'s luncheon on Thursday, March 30.

Mrs. Statser, a teacher of this course in the Crowell Public School, displayed a film and slides which showed the teaching methods used.

A short business session was transacted in which some details of the coming general store were discussed. The final plans for this enterprise will be thoroughly discussed at this week's meeting.

The general store will be held in the building which formerly housed Lennie Smart Shop on April 15 between the hours of 9 a. m. and 3 p. m. The league hopes the public will help make the store an even better success than the one held last year.

Meats, Vegetables Attractively Priced

Look for best beef and pork values on chuck roasts and steaks, ground beef, round steaks and hams, says Gwendolyn Clyatt, extension consumer marketing specialist with Texas A&M University.

Mrs. Clyatt points out that this week's specials feature fresh fruits and vegetables. In good supply at low prices are oranges, pink grapefruit, bananas, apples, avocados, potatoes, head lettuce, celery, eggplant, cooking greens, cabbage, carrots, dry yellow onions, tomatoes and green onions. Cauliflower, asparagus, and broccoli are available at slightly higher prices.

Last year's peanut crop hit a new record high, resulting in an abundant supply for current use. Crushed peanuts can add much in flavor, nutrition, and crunchiness to most casseroles. Then, too, peanuts are always good choices for snacks, cookies, breads and sandwiches.

Wichita Falls Woman Gives Book Review at Baptist Meeting

Women's Missionary Society met Wednesday, March 29, at 10 a. m. at which time Mrs. Clyde Childers, wife of the area missionary of Wichita Falls, gave a review of the mission book, "Forest Trails in Urban Jungles."

The book describes the Great Lake area including six states, Minnesota, Wisconsin, Michigan, Illinois, Indiana and Ohio. The book gives history and progress of Baptist work in these areas.

Mrs. Childers stated that these areas are quite congested, as one-fifth of the states' population is here, and if Pennsylvania and New York areas were included, it would be one-third of the total population of the states.

Baptists have been in these areas since 1787. It was interesting to learn how the pioneers would start churches in small places, then move on to teach others about Christ and start more churches.

In 1910 there were 226 Baptist churches. By 1935 there were 504 with an average increase of one church every 152 days. By 1945, there was one new church every 12 days, and by 1955 there was an increase of one new church every five days. These challenging fields have great needs as well as great possibilities.

A covered dish luncheon was served to Mrs. Warren Haynie, Earl Ford, John McAlister, Glenn Jones, Johnnie Marr, Glenn Willson, Chester Ford, Claude McLaughlin, W. F. Statser and J. E. Woods of the local society, and E. S. C. T. Murphy and Mrs. Hugh Shultz of Margaret and the guest speaker, Mrs. Childers. After the lunch, Mrs. Childers brought some highlights of the area and how the work is being carried on by showing the women film strips.

Riverside H. D. Club

One of the most interesting and informative programs this year was on kitchen floor coverings and their care which was given by Mrs. Grover Moore at the March 21 meeting of the Riverside Home Demonstration Club.

Mrs. Moore displayed samples of various types of floor coverings and told the bad, as well as the good, features of each type. This was followed by a very spirited round table discussion.

Mrs. L. H. Hammonds, recreation chairman, conducted two very interesting contests appropriate to the Easter season. Next meeting will be April 4 with Mrs. Hiram Gray.

The hostess served delicious refreshments, after which the women spent half an hour or more viewing Mrs. Johnson's antique furniture and some of her beautiful handwork.

Henry Circle

The Henry Circle met Monday, April 3, with Mrs. Jack Welch.

Mrs. Jim Lois Bursley opened the meeting with prayer, Dorothy Erwin, chairman, directed the business session. The nominating committee presented the new slate of officers for the ensuing year:

Mrs. Ruth Kenner, chairman; Mrs. Elizabeth Davis, vice chairman; Mrs. Ila Borchardt, secretary and treasurer; and Mrs. Fern McKown, reporter.

The devotional was given by Mrs. H. M. Black. Mrs. Eva Sloan brought a very interesting talk on "The Church People and the

Changing World." Mrs. Vera Manard brought the special feature on "Old and New Ways of Living." The hostess served a refreshment plate to twelve members.

Pioneer Circle

The Pioneer Circle of the Woman's Society of Christian Service of the Crowell Methodist Church met for its monthly social hour Monday, April 3, at 3 p. m. in the home of Mrs. R. J. Thomas.

Mrs. A. R. Sanders, president, opened the meeting with the group singing of two hymns. Mrs. Thomas brought the devotional by reading from the John 10:24.

Mrs. Sanders gave the opening prayer. Mrs. Ruby Ribble, the leader for the day, brought the program on the beginning of Methodism and the life and work of John Wesley. Her talk covered particularly the work of British Methodism.

At the conclusion of the program, a delicious refreshment plate was served by Mrs. Thomas to eight members.

T. E. L. Class Meeting

The monthly meeting of the T. E. L. Sunday school class of the First Baptist Church was held in the home of Mrs. Curtis Ribble March 30 with Mrs. Ada Burkett assisting.

Mrs. C. L. Cavin, class president, called the meeting to order. Mrs. Mary Moore led the opening prayer. Devotion was brought by Mrs. Rogers with scripture readings from James 4:6, John 8:12, Hebrew 13:15.

Refreshments were served to 14 members and two visitors. Mrs. Mae Solomon had charge of the social hour. Inez Spencer showed slides of various places she had vacationed. Mrs. Glenn Willson led the closing prayer.

ELECTRIC CONDITIONED LIVING ● ELECTRIC CONDITIONED LIVING ● ELECTRIC CONDITIONED LIVING

What people are saying about...

A CLEAN BREAK WITH THE PAST

"I would have nothing but an electric Gold Medallion home," says Mrs. Bob Corkins of Alpine, Texas. "I like the low operating cost," says Mr. Corkins who thinks the electric bill a good value. Kathy, age 5, and Greg, age 10 months, smile contentedly, and that means they like the comfort of total-electric living.

The Corkins' Early American style home has 7 rooms, 2 baths, and a covered patio—2,000 square feet of living space. The only fuel used for all purposes is electricity. It operates a 4-ton heat pump with 15 KW Auxiliary Strip heating, 4-ton refrigerated air conditioner, electric range, washer, dryer, disposal, dishwasher, refrigerator, freezer, two 1.3 KW bath heaters, and Medallion light for living, yet operating cost averages only \$38.03 per month—22.8c per square foot per year!

The Corkins have been living better electrically since 1959 and are well pleased with it all. "I love electric cooking," Mrs. Corkins says. "It's much better, faster and cleaner." The Corkins especially like the even heat throughout the house, and let the temperature stay at 70° year-round.

Would you like to live in total-electric comfort? Then see your electric contractor or visit WTU.

YOUR PUBLIC NOTICES

Is your home "advertised" for sale on the court house bulletin board? It could be. It could be if your home is being sold by a mortgage holder under the deed of trust. This is the only "notice" it may get and a good chance is the only "bidder" for your distressed property will be the mortgagee. He's usually the only one, outside of the sheriff, who probably knows this notice has been up.

Did you know that some real estate in Texas has been taken from owners by unscrupulous lenders using just such a horse and buggy system of "legal notice" to sell property? Current Texas law requires notice of deed of trust sale in three "public places." That could be on a utility pole, a tree in the park and the courthouse bulletin board.

There is a way to prevent this, and in fact, help the real estate owner obtain more bidders, therefore a better price for the property sold in distress. This is to obtain a law for an effective public notice, one published in the hometown newspaper. Such a law has been proposed. It is House Bill 343, by Reps. Jack Hawkins and Bill Rapp. In addition to helping prevent distressed sale of a home, it would also:

- Provide adequate notice to the owner, giving him three weeks to round up the necessary funds with which to take up any delinquent payments.
- Increase the sale price of the property. This would be because it would build up the buying audience, increase competition for the property and bids would be more in keeping with the property's true value.

In days of old when people hung around the courthouse, the day long, for news—posting was important and really served a purpose. But this is not true today. News is brought to the people via their hometown newspaper. Every city of any size has one or more newspapers. There are 100 dailies and 556 weeklies in Texas.

Today, unless they are suing or being sued, the great majority of the people visit the courthouse only once or twice a year . . . to pay taxes or buy a license. Even then very, very few ever stop to read bulletin boards "jam-packed" with tacked-down notices.

It is a common occurrence at such sales for no bidder to appear except the mortgagee who then bids the property at the balance due on his mortgage, or some other figure which may not be the market value.

Proper notice is printed notice, distributed as widely as possible among the general public and the more widely the information is circulated, the better.

Dissemination of public notices was the reason for the start of newspapers in the 13 original colonies . . . and that reason exists in even greater importance today. People look to newspapers for such information and people look to our legislators to see to it that such notices are made a mandatory part of our laws.

Another aspect of this same courthouse bulletin board are the un-noticed announcements of estate administrators. Each asks those who have debts owed by
