How America's red-white-and-blue collar workers help keep America strong.

In May 1941, top representatives of America's labor unions met with Henry Morgenthau, Jr., Secretary of the Treasury, and pledged their support of the Payroll Savings Plan for U.S. Savings Bonds.

Today, organized labor still endorses and actively sup-ports the program. And the Payroll Savings Plan, just an experiment in 1941, now proudly boasts 8 million members, mostly union people, sharing a personal inter-est in their future and their country's. With the Payroll Savings Plan, saving for the future is

ownright easy-and painless. How can you spend money you don't even see? When you sign up, a small part of your money is tucked

away every payday. Automatically, And starts earning you interest of 4.15% on every Bond you buy and hold

Bonds grow quickly. So when you need the money for important, personal things, the money is right there-ready to help pay for them.

Important things like a new home, education, that dream vacation-or your retirement.

Most important, Bonds are helping our men in Vietnam. Buy Bonds on the Payroll Savings Plan where you work and you'll find yourself in pretty good company. And dollars ahead.

Market Report QUANAH LIVESTOCK COM. CO., INC. Quanah, Texas

The demand was good and a full house was on hand to take the 1,360 head of cattle last Friday. Light weight stocker caives were 1 to 2 dollars higher while feeder cattle were steady. Stocker cows and cow and calf pairs were also higher. Warm weather the last few days has caused the wheat pastures to respond.

We will have another good run of fresh country cattle next Friday. There have already been consigned several bunches of calves from surrounding ranches.

Consign your cattle early and come on to Quanah next Friday for another good, lively auction.
