# Large Crowds at Crowell Public School

The Public School Week in Texas, a state-wide observance held each year, was very successful here this year. Large numbers of people attended the open house Tuesday night, and many parents took the opportunity afforded last week by the observance to visit classrooms and eat in the school cafeteria.

The goal of every person within the local school district should be to make the Crowell system one of the best. To achieve this, YOU, our citizens, are urged to take an active interest in the school. Our school needs your constant interest and support.

In order to make this interest a year-round experience, rather than a one-week-a-year activity, the News calls your attention to the following excerpts from the "Handbook for Texas School Board Members," published by the Texas Education Agency; which is a guide for school board members and a copy of which should be in the hands of every school board member in

"On the average, school boards have one regular meeting per month at a definite meeting place which will seat all citizens who might care to observe the board in its proceedings. An efficiently conducted meeting rarely, if ever, lasts more than two or three hours. The inefficiency and inconvenience of longer meetings can be eliminated by meeting more frequently and by better planning of meetings.

"The desirable procedure for board meetings is to announce them in the press in addition to notifying the members. This encourages citizen attendance at board meetings and invites public confidence in the school board and its administration. The press should be invited to the meeting.

"To avoid the disruption of board meetings, the board might establish a policy requiring delegations and complainants to request placement on the meeting agenda. The advance scheduling of groups or individuals who wish to communicate with the board not only expedites board meetings, but gives all such visitors a chance to present their suggestions. The chairman should maintain order at all times through the use of a business-like procedure.

"A board is confronted occasionally with an item of business which, if discussed in public, might result in unwarranted embarrassment or unfair advantage to one or more persons. Among the very few such cases are: the employment of a superintendent, discussion of certain personnel matters, the discussion of new building sites to be purchased by the district. When confronted with such a matter, the board might excuse itself briefly from the meeting room to discuss the matter or it might meet as a "Committee of the Whole" prior to the public meeting.

"An efficient board will require that an accurate and complete record of each meeting is made and that copies of the minutes of each meeting promptly reach the board members. A copy of the minutes should also be placed in the school office as a public record open to inspection of any interested citizen."

So, remember that all school board meetings are open to the public and are held the first Monday of each month, at 7 p. m.; school board secretary's office in the court house.

> The Project Show has been sponsored by the Rotary Club of Crowell for many years, but the hearty support and cooperation of the business men of Crowell and surrounding areas and farmers and ranchers and other citizens of the county and surrounding areas has meant much to the grand success of the show each year.

Marvin Myers, Vocational Agriculture teacher, and Joe Burk- gan, Jesse Barrera. ett. County Agricultural Agent, boys and girls, have expressed hard to make this year's show the most successful ever held.
