Notices were mailed out last Friday to property owners in the Crowell Consolidated Independent School District, notifying them of a 20 per cent increase in property valuations in the district.

In letters accompanying the notice of increase, the board cites the rising cost of plant maintenance and teacher pay raises, as the principal reasons for the increase. The district has operated at a deficit for the past three years, and a similar deficit can be expected this year. "Under these circumstances, we are forced to appropriate more funds for our school, and the only way we can do this is to raise all real and personal property by 20 per cent in our school district," the letter to property owners said.

The board appointed an equalization board composed of E. C. King, W. R. Moore and C. A. Bullion. The equalization board will meet on May 13, 15 and 16.

The board, in its letter to the property owners, explained the tax raise as follows:

"Our tax rate has been \$1.80 per \$100 valuation. Of this, \$1.50 was designated for local maintenance, and 30c for sinking fund (bond indebtedness). Since the valuation raise will give us more funds for the sinking fund, we will lower the tax rate to \$1.75 per \$100 valuation, \$1.50 for local maintenance and 25c for sinking fund.

"The following will help you figure your tax raise: take 1967 value of \$1,000, multiply this by \$1.80; this will give you \$18.00 for taxes paid in 1967. For 1968, take \$1,000 value, multiply by 20 per cent to get the raise in valuation. This will give you \$200. Add it to the \$1,000 and multiply this \$1,200 by \$1.75 tax rate, and you will pay \$210.00 in taxes in 1968."

Auto Repair Shop

Bill Foster of Crowell has opened an automotive repair shop in the east part of the Aydelott Laundry building on the southeast corner of the square.

Borchardt-Goodwin Building Heavily Damaged by Fire

A fast-moving fire, which started when gasoline fumes ignited, raced through the Borchardt-Goodwin Chevrolet Co. in Crowell last Wednesday morning, and practically destroyed the building and its contents.

B. J. Halenack, shop foreman, said that he had taken the gasoline tank from an automobile when fumes apparently were ignited by another mechanic who

was welding on a vehicle nearby. Halenack said that before he could get to a fire extinguisher, the entire east wall of the building where the mechanics' tools and work benches were located, was aflame. Another mechanic said he felt heat on his back and turned to face a wall of flames. All those in the building ran to safety.

Two automobiles and a pickup in the repair shop were destroyed, and a new truck also in the service department was damaged by fire, smoke and water.

The fire moved so rapidly through the building that it was not possible for personnel of the auto agency to remove all the new vehicles from the show room and two new cars in the display room suffered smoke, heat and water damage. Three vehicles were removed from the show room before the smoke got too thick.

The Crowell Volunteer Fire Department did an excellent job in bringing the blaze under control and confining the fire to the one building. Fire fighting units from Vernon, Quanah and Paducah, also assisted.

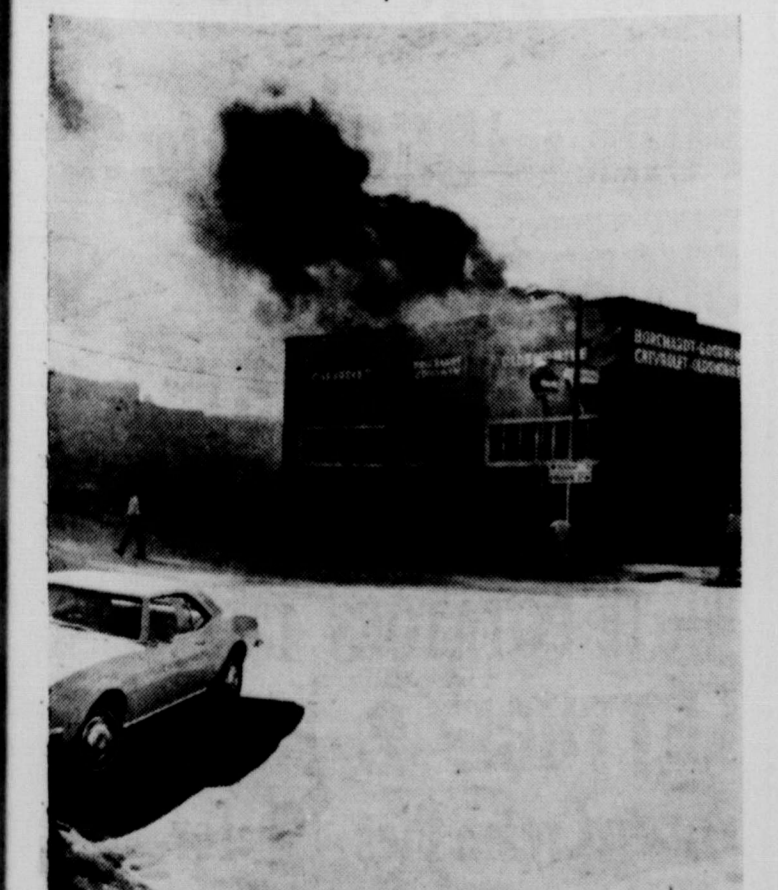

Bill Nichols, bookkeeper for the company, said that members of the Vernon Fire Department donned gas masks and entered the building to place tarps over the office section, and helped prevent heavy water damage to the books.

Still in Business

Henry Borchardt and Glen Goodwin, owners of the Chevrolet and Oldsmobile dealership here, said Monday they are still in business. They have moved their mechanics to the building on North Main Street which formerly housed the company's body shop.

"We still have new and used cars, and would like to stay in business with your help," the two owners added.

The business was insured, and the owners and employees are still in the process of taking inventory of the fire damage.

May 10-25 Called Suitable Time for Planting Cotton

May 10 to 25 was designated the most suitable planting period for cotton in Foard, Wilbarger and Hardeman Counties, this according to a statement Friday night in Vernon by Lehman, Jr., president of the Belt Cotton Improvement Association.

Lehman announced the designated period at the second annual meeting of the association at which almost 500 persons from the three counties attended the barbecue and chicken dinner and heard a talk by cartoonist and humorist Ace Reid, Jr., of Kerrville.

Mr. Lehman, in a report to the membership, said the association is seeking cooperation of farmers again this year for two early-season insect control applications, and added that the association board hopes to see the applications completed prior to July 1, if at all possible.

He said that 4,330 acres were sprayed under the association's program last year, and cotton leaders hope for even larger participation this year.

The spraying program will be

again handled through gins, with applicators to pick up their orders and their checks after work is done at the gins in the various communities in the three-county area.

In a report on the boll weevil outlook, leaders of the association feel the weevils are "definitely on the decrease" as a result of the producers' cooperative efforts.

New officers are Mr. Lehman, president; Otto Streit, vice president; J. Z. Munn, secretary, and directors Henry Streit, Raymond Thompson, Bert Presley, Roy Haynes and Doyle Graham, representing Wilbarger County gin communities; and Lester Patton of Crowell and J. F. Matthews of Thalia.

Otto Streit is the retiring president, and Newell Hofmann of Crowell is the retiring secretary.

According to figures released at the banquet, Foard County will be planting almost 1,400 more acres of cotton this year than last. In 1967, the county had an allotment of 12,467 acres, with 32 per cent diverted, and 8,478 acres planted.

HEALTH and SAFETY TIPS

Is A Silent Killer Loose In Your Home?

A silent killer may be loose in your house.

The deadly criminal is carbon monoxide—CO—a colorless, odorless, tasteless gas produced every time a carbon-containing material burns.

A leaflet from the American Medical Association reports that CO combines with blood 200 times more easily than oxygen. If you breathe air containing a normal amount of oxygen and a moderate amount of carbon monoxide, your blood will be starved for oxygen. When blood cannot supply oxygen to your brain, permanent brain damage or death may result.

Dangerous quantities of CO usually accumulate when a cool, slow fire burns in limited air. Since you can't see, smell, or taste it, the gas is hard to detect except by your symptoms—drowsiness, headache, tightness across the forehead, confusion, nausea, and muscular weakness. CO poisoning may confuse you so that you cannot reach fresh air to relieve the symptoms and prevent serious injury.

To prevent a carbon monoxide attack in your home—

- Have all heating systems checked annually for operating efficiency. Make sure that vents, pipes, flues and chimneys are tight.
- Make certain that your heating plant is not starved for air.
- Be sure that all heating devices designed for venting are properly vented to the outside.
- Provide additional fresh air for charcoal grills and hibachis used indoors.
- Never tamper with ducts or vents of a heating device to get more heat out of it.
- Be sure that heating devices have been tested by a reputable firm. Follow the manufacturer's recommendations for installation and use.
- When changing types of fuel, ask a qualified serviceman to adjust all appliances involved.
- Don't close your fireplace damper until you are certain the fire is out.
- Be sure that your garage is sealed from the house. Never run the car in a closed garage.

THANKS

I am truly grateful to the people of Pre. No. One for the wonderful vote of confidence given me in my campaign for re-election as Commissioner of such Precinct. To all of you and to all others who may have helped in any way, I say a big "Thanks" and will endeavor to merit the confidence shown.

CYGON* 267 stops early-season cotton insects

Only 1/3 of a pint per acre of Cygon 267 insecticide goes to work

- on contact
- as a residual on foliage
- systemically inside the plant

to control cotton thrips, aphids and mites. In Texas and Oklahoma, Cygon 267 is also accepted for control of fleahoppers. Control lasts twice as long as other spray materials—for less than 85¢ per acre!

This year, be sure your cotton

- gets off to a fast start
- fruits sooner
- produces a larger, higher quality, early yield.

Mother's Day

Make it "for real" with an electrical gift for "her day."

Nobody is a greater beneficiary of electrification than Mother. Nobody stands to gain more from it in the future.

Gone are the old household drudgeries of the past. Electricity is the Magic Wand that made the difference. You can wave it to produce new thrills as new and exciting appliances come on the market.

Be nice to mother on Mother's Day, and she'll have more time (and inclination) to be nice to you.

KEY TO A LANDMARK—Dr. Chas. F. Jones (left), president of Humble Oil & Refining Company, receives the ceremonial key to one of San Antonio's pioneer stores from Mayor W. W. McAllister, Sr. The weathered building, known to generations of Texans as the Schultze Stove and Hardware Company, is being restored and will become the Humble Pavilion containing a travel center, transportation exhibit, and theater at HemisFair '68, the first world's fair ever held in the Southwest, April 6 to October 6.

Daughter of Ex-Crowellite to Go to Europe in July

Miss Debbie Farley, daughter of Mr. and Mrs. Fred Barker of Dallas, is a member of the Chapel Choir of the First Baptist Church in Dallas which will attend the Baptist World Youth Conference in Europe in July. This is the same conference which Miss Virginia Stapp of Crowell will attend with a group from Baylor University.

The Chapel Choir of the First Baptist Church in Dallas is composed of teen-agers ranging from sophomores in high school to sophomores in college. The Dallas group will tour five different countries over a three-week period giving concerts, etc.

The First Baptist Church in Dallas, of which the Barker family are members, is the largest Southern Baptist Church in the world. However, even with a membership of this size, this trip is a tremendous undertaking. There will be about 200 choir members and sponsors making the trip at a conservative cost estimate of around \$150,000. The men of the church voted to contribute \$50,000 and the rest will be made up from the members themselves and their activities. The cost for each child is \$450 and the remainder is being made by the choir's having paper drives, car washes, etc.

In a letter to the News, Fred said, "We are very glad that Debbie is going to have this opportunity to visit these foreign countries and meet Christian young people from all over the world. It should be one of those 'once in a lifetime' type experiences."

"We are very happy in our church here. My wife and I are teaching junior age classes in the Sunday school and our boy, Mike, is a member of the Chiron Choir which is the age group just below

Harriet Halbert Wins Second in R. E. A. Essay Contest

Judging was completed April 17 in the Southwest Rural Electric Association's Essay Contest, and first place winners were selected from the Texas and Oklahoma areas of the cooperative, according to J. M. Maddox, manager.

The first place winner from the Texas area was Marjorie Wilhelm of Lockett with Harriet Halbert of Crowell placing second. One of the other finalists was Leslie Hopkins of Crowell.

All high school juniors in the operating area of the Southwest Rural Electric Association were invited to participate in the contest with an essay on the subject, "Power for a Good Life . . . Out Where There's Room to Grow." The finals of the contest were held in the association's auditorium in Tipton and about 90 people attended. A delicious meal of barbecued beef and all the trimmings were served to the group.

Prizes awarded to Marjorie Wilhelm and Dale Elsener, first place winners from Texas and Oklahoma, were eleven-day all-expense-paid trips to Washington, D. C. June 7-17. Transistor radios were presented to all the contestants.

Last year's winner in the contest for the Texas area was Jan Carroll of Crowell, daughter of Mr. and Mrs. Cecil Carroll.

Abilene spent Sunday with the Glen Swan family.

of Amarillo and Charlie Hathaway have returned from Gainesville where they attended the bedside and funeral of their aunt, Miss Ola Johnson, who died there last week. Charlie Blevins was admitted to General Hospital in Wichita Falls Sunday and was scheduled for surgery Tuesday.

The Church of Christ parsonage has been furnished and the grounds mowed and will be used by the Minister, Sonny Guild, and wife of Abilene as a holiday and week end retreat. The Guilds commute from Abilene each week end to fill his regular appointments at

the church. They expect to be here next week end and any other opportunities they have.

Week end visitors of Mrs. Buna McKinley were her brother, Otis Burson, and wife of Levelland. They left Sunday for a family reunion at Whitewright and a visit with relatives in the southeastern states.

Mrs. Mildred Roseberry and Mrs. Mary Ruth Ingram of Amarillo and their father, Milton Adkins of Vernon, spent Sunday with Mrs. Buna McKinley. They reported the death of their sister, Mrs. Anna Mark Woodward of Richmond, Va. Death came to her Friday, May 3, after a two weeks illness.

Mr. and Mrs. Wesley Chism, who were married April 30, are at home in the M. C. Adkins residence after a few days honeymoon. We are very happy to have them and hope they will be as happy living among us.

There was an excellent turnout at the two voting places in Thalia Saturday. It was a near-perfect spring day—a factor which may have contributed to the large turnout.

She had spent most of her married life in this section and had a host of friends and neighbors. It was very common to hear some one say, "Mrs. Jones was the best neighbor anyone ever had." She is held in highest esteem by all who know her. We hope she can have a bigger and better party next year.

Regulations Amended on Brucellosis

Brucellosis regulations governing the interstate movement of cattle have been amended to provide further safeguards to animals moving through markets, the U. S. Department of Agriculture has announced.

Previously, cattle could move interstate when they had been tested for brucellosis at a market and found negative. Now, in addition, these animals must be from herds not known to be affected with brucellosis. This applies to animals moving through markets the same safeguards that have been in effect for many years on the interstate movement of cattle directly from one farm or ranch to another.

Mr. and Mrs. Bruce Casada and Coleen of Lockett and Mrs. Celeste Johnson of Vernon visited Miss Irene Doty Sunday.

Mrs. J. F. Ewing and son, Clarence Cook, of Crowell visited John Warren Sunday.

Mrs. J. C. Taylor of Vernon was on hand to vote in the Democratic primary election here Saturday.

Delmar McBeath of Vernon visited his parents, Mr. and Mrs. J. L. McBeath, and his brother, Homer McBeath, and wife Saturday.

A NEW EMPLOYEE

FOR OUR SHOP

Loy Hopkins is our new mechanic in service dept. He will replace Joe Meyer, who resigned recently.

Loy worked in our shop for several months (about 3 years ago) under Joe Pat's supervision. He has been doing mechanic work (on the side) for some time.

He has worked for Brooks Auto Supply for the past 3 years, where he gained a good knowledge of parts and business in general. Loy is 26 years old, married, and has a small daughter. He says he likes to work on tractors and wants to learn more and advance in tractor mechanics. Having been raised on a farm (Margaret-Thalia community) will be helpful to him in dealing with farmers and their problems.

We appreciate the patience of the farmers who have been inconvenienced by our temporary shortage of mechanics. Charlie Huskey has been working with us for the month and we plan to hire more summer time help, in effort to take care of our customers.

Tractors, plows and drills are our only business, and we assure our customers we plan to keep it that way. Case tractors always come first in our shop.

We have become very fond of Joe Glover and his family in the past 12 years he has worked with us, and wish him the very best in his new endeavors.

Soldier Salutes Close Air Support

A1C David N. Denton, who is serving in Vietnam, sent the following article to his parents:

"How important is the close air support provided by the planes and pilots of the U. S. Air Force to the men on the ground?"

"Captain Emmett E. Craver, an F-4 pilot with the 557th TFS, received a graphic demonstration recently.

"I was on the flightline," Craver said, "when I saw a young soldier pacing up and down in front of the F-4 revetments. As I watched him, he looked hard at one of the aircraft, then broke into a run towards it.

"When he reached the plane, he put both hands on the 'bird' and kissed it. Needless to say, this was somewhat strange, so I walked over to him and asked what the problem was."

"He said, 'Well, Sir, I was over at the air terminal waiting for my flight home. I had a couple of hours to spare and I decided to look for this plane.

"Three weeks ago I was at Dak To. The North Vietnamese attacked and had us pinned down. They were trying to overrun our position. A flight of F-4s came over and began dropping bombs directly on top of the enemy, and this stalled the whole attack. As the planes pulled up, I saw the tail number on one—it was this one, No. 663.

"This plane, and the crew who flew it that day, saved my life and the lives of several of my buddies. I found out later that the plane was stationed at Cam Ranh Bay and before I left I wanted to see it again.

"If it weren't for that plane and its crew, I wouldn't be going home today, or ever, most likely."

"Craver concluded, 'To hear and see such testimony of gratitude for our close air support missions was the most memorable and moving experience of my 18 months and 300 missions in Vietnam.'"

In his letter to his parents, David said, "About the article, I've loaded this plane many times and could have loaded it that time. It gives everybody a good feeling to hear things like this."

His address is A1C David N. Denton, AF18765454, 557 TFS, Box 27, APO, San Francisco, 96326.

Lake Greenbelt Opening Set for May 29-June 2

Clarendon—Lake Greenbelt, a blue oasis in a sea of picturesque rolling green hills and cottonwoods will become the mecca for an estimated 25,000 visitors from a two-state area expected to visit Texas' newest lake in the eastern Panhandle soon.

The occasion will be a five-day celebration marking the grand opening and formal dedication of the lake during the Memorial Day week end, May 29 through June 2.

Greenbelt Lake—owned and operated by the Greenbelt Municipal and Industrial Water Authority—will be open to the public for fishing on May 29. A three-day fishing contest will follow with a colorful Greenbelt Queen Contest on Saturday night and formal dedication and nationally sanctioned boat racing on Sunday afternoon.

Mike McCully, Clarendon postmaster, heads a special Greenbelt celebration committee which will help sponsor the affair in cooperation with other Greenbelt member towns, Hedley, Memphis, Childress, Quanah and Crowell. The celebration is being underwritten by the Clarendon Chamber of Commerce.

The lake, already half of its total 60,000 acre feet capacity, is now open for boating, swimming and picnicking. The Texas Parks and Wildlife Department, which recently authorized its first expenditure for improvements at the lake, has set May 29 as the first day for fishing. In addition to such popular game fish as bass, crappie and catfish, Lake Greenbelt is the only public lake in Texas where northern pike is stocked.

Located four miles north of Clarendon on the Red River, Lake Greenbelt features deep, blue water and white sandy beaches. Already half full, the lake will be some 88 feet deep at the dam and back up water for some four miles when filled.

Sherwood Shores No. 9, a fabulous lake-side resort on the north

side of the lake, was opened last September and hundreds of lots have already been sold with home construction underway. George D'Armond, developer of the Greenbelt resort, said plans call for several swimming pools, parks, and paved streets, water and utilities over the some 700-acre estates. Sherwood Shores will be adjacent to the new 18-hole Clarendon Country Club to be constructed on the lake shores beginning in the near future.

More than 1,000 dollars in prizes will be awarded visitors during the grand opening week end. Prizes will go to winners in the fishing contest with door prizes to be presented at intervals during the celebration.

Beauties from the six Greenbelt towns will compete in the beauty contest scheduled for Saturday night, June 1, in the Clarendon Junior College gymnasium. Contestants will be unmarried, from 17 to 22 years of age and sponsored by a civic or social club. The young ladies will be judged in formal gowns and bathing suits by Amarillo television personalities. Following the contest, area high school and college youths will be invited to a dance at Clarendon's Electric Theatre.

Dedication of the lake has been scheduled for Sunday, June 2, at 1 p. m. Judge Otto Dent of Austin, a member of the Texas Water Rights Commission and one of the state officials who worked with the Greenbelt project since its inception, will be the principal speaker. Following the dedication will be the boat races sponsored by the National Outboard Association. Plans call for 16 heats of four boats to the heat in races over a half mile area with quarter mile turns. A thousand dollars in purse money has been posted by the Clarendon Chamber of Commerce.

Civic organizations from the various Greenbelt towns are invited to have concession stands at the lake for the week end.

Mrs. M. H. Jones Honored Sunday on 90th Birthday

About 150 relatives and friends gathered at the Thalia gymnasium Sunday, May 5, to honor Mrs. M. H. Jones, Foard County pioneer, on her ninetieth birthday.

A family dinner was served at noon and the many friends of Mrs. Jones and her family called during the afternoon.

USE THE WANT ADS TO BUY TO SELL TO RENT TO TRADE TO HIRE

HAVE YOU BEEN HUNGRY?

Did you know that Foard, Motley and Cottle Counties are three of the 256 counties in the United States listed as having a prevalence of chronic hunger and malnutrition. Authority for this startling news is a "Citizen's Board of Inquiry into Hunger and Malnutrition." The board was created in July after a Senate subcommittee heard testimony from six doctors of cases of starvation in Mississippi. It was formed on the recommendation of Walter P. Reuther, president of the United Auto Workers and chairman of the Citizen's Crusade Against Poverty, which financed its investigation. The release was from Washington by wire services and carried in this area by at least three daily newspapers and one national magazine. One statement in the release said: "If you will go look, you will find that America is a shocking place." In the 20 states declared suffering from chronic hunger, Georgia led with 47 counties, and Mississippi was second with 36. Of the 20 "hunger counties" in Texas, three are in West Texas (Foard, Cottle and Motley.)

The Tribune is concerned. How was this survey made and when? Was it made by Russian or Cuban agents, why was it published without confirmation? There is no hunger in Motley County except people on a diet and trying to reduce, and the Tribune is certain the same condition exists in Foard and Cottle Counties. County Judge Forrest Campbell says this county receives about 7000 pounds of surplus foods per month, and at times it is difficult to find people who can qualify for them. Farmers are having difficulty finding anyone who is willing to work. A carpenter spent half a day trying to find a helper last week. If anyone is hungry in Motley County, he or she is unable to work (in which case needs would be supplied) or they have not told anyone but the "Citizens Board of Inquiry" in Washington.

There is the classic story about the old cowboy who said he had attended a lot of funerals in West Texas, but never one in which the deceased had starved to death. The serious question is, why are these releases printed by reputable news sources? Certainly they can not improve the image of the area or of the nation. The Tribune does not believe any inquiry was made in Motley County. If it is untrue here, it is reasonable to assume it is untrue in the entire United States.

(The preceding article was published in last week's edition of the Matador Tribune and was written by Douglas Meador, publisher of the paper.)

Dr. Walter Hamilton Stapp of Crowell has been re-elected to active membership in the American Academy of General Practice, the national association of family doctors.

Re-election signifies that the physician has successfully completed 150 hours of accredited post graduate medical study in the last three years. The Academy, founded in 1947, and headquartered in Kansas City, Mo., currently is spearheading a movement to create a new specialty of family medicine that will enhance the ability of the family physician to provide comprehensive, continuing care to the public. THANKS

We do not have the words to express our appreciation for our local fire department which went beyond the call of duty to help in our disaster. The out-of-town fire departments from Quanah, Vernon and Paducah were so wonderful, also.

Our shop boys have set up in the body shop building on North Main and need your business.

We still have new and used cars and would like to stay in business with your help.

We also appreciated very much the words of sympathy and encouragement. They mean a great deal to us.
