Bank and Mill Win Opening Little League Games

The Little League season got underway Tuesday night of last week with Crowell State Bank winning the early game 7-0 over VFW. In the second game, Foard County Mill took a 7-2 win over Farmers Elevator.

In the first game, Steve Graves, Dwayne Crosby and Ricky Coleman got hits for the Bank and Dean Hofmann, Don Morgan, Rickie Hammonds and Richard Naylor all hit safely for VFW.

Lane Simmons went all the way as VFW pitcher, and Dwayne Crosby and Dwayne Finley shared pitching duties for the Bank. One of the fastest games played in L. L., lasting only 70 minutes, the opening-night jitters did not seem to bother either team very much as only a few errors were made by either side.

Foard County Mill, in its 7-2 victory, managed to get only one hit all night—a double by Stephen Stapp.

For the Elevator, Rudy Rodriguez hit 3 of 3, and the following boys each hit safely: Jack Whitley, David Bell, Allan Tapp and Milton Maston. Numerous walks and errors proved to be the deciding factors in the score of this game.

Pitchers for the Mill were Randy Prince and Rocky Glascock, while Allan Tapp, Jack Whitley and David Bell shared pitching duties for the Elevator.

Friday Night While the opening night games were well-played contests, Friday night's contest were high-scoring affairs with many errors.

In the first game Friday night, Foard County Mill took an 18 to 2 win over Farmers Elevator. Getting hits for the Mill were Randy Prince 3; Keith McDaniel, Steven Stapp and Hal Williams, one each, and Bob Brown, who garnered two hits.

For the losers, Allan Tapp swatted the first and only home run hit in Little League park thus far this season. Jack Whitley also got a hit for the Elevator.

Pitchers for the Mill were Randy Prince and Rocky Glascock, and Jack Whitley, David Bell and Allan Tapp shared mound duties for the losers. The Elevator gave up 10 walks in the contest, and a number of errors were committed by both sides. Due to players being absent, the Elevator was forced to use three PeeWees in this game.

The last game that night was even more one-sided than the first with the Crowell State Bank pasting a 23-1 defeat on VFW. The VFW team was also short-handed and used 3 PeeWees.

Getting hits for the Bank were Dwayne Finley, Steve Graves, and Ricky Coleman, two each; and Tommy Tamplin, Duane Crosby, and Jon Coffey, one each. The Bank got 15 free walks.

Lane Simmons got the only VFW hit of the night. Pitching all the way for the two teams were Don Morgan for VFW and Steve Graves for the Bank.

Public Hearing on Game Regulations to Be Held Today

Foard County landowners and sportsmen are reminded again this week that the public hearing by the Parks and Wildlife Department on hunting regulations for the county next year, will be held Thursday afternoon, June 5 (today) beginning at 2 o'clock in the county court house in Crowell.

All interested persons are urged to be present.

Loaded Wheat Truck Overturns East of Crowell Saturday

Heavy damage to a wheat truck was reported last Saturday afternoon just east of Crowell.

According to Sheriff Dan Callaway, a loaded wheat truck driven by Buddy Louis Rader overturned when the brakes on the vehicle failed as Rader reached the intersection of Highway 70 and the first farm-to-market road from Highway 70 to the south.

Rader was not injured in the accident, but the truck, belonging to Herman Gentry, was heavily damaged. Sheriff Callaway reported that most of the wheat was salvaged.

Fire Destroys House in Margaret Vicinity Tuesday

The house on the Raymond Kubicek farm in the Margaret community, which was occupied by Mr. and Mrs. N. M. Barrera, was destroyed—along with all the contents—in a fire about 10:45 a. m. Tuesday.

Leonard Tole, fire chief, said that the Barrera family was unable to remove anything from the house and lost all their furnishings and clothing.

The Crowell Volunteer Fire Department rushed to the scene, but was unable to extinguish the blaze in time to save the house or contents.

Pasture Fire

The fire department was called out about 6 a. m. Sunday to extinguish a pasture fire on land belonging to Mrs. C. C. Ribble just west of the city lake. Only a small part of the pasture was burned off. It is thought that lightning started the fire.

Rev. Walter Driver Returned as Local Methodist Pastor

Rev. Walter L. Driver was returned for his second year as pastor of the First United Methodist Church in Crowell as a result of annual conference of the Methodist Church held in Lubbock last week. The appointments were announced Sunday afternoon.

Other appointments included Rev. Irl Holt as pastor of the Thalia Methodist Church, and Rev. Charles Spence as pastor of the Truscott and Vera Methodist Churches.

Rev. Bill McQueen will be pastor of the Margaret and Goodlett churches.

Bax Callaway on Dean's Honor Roll for Spring Semester

Bax Callaway, son of Mr. and Mrs. Dan Callaway of Crowell, was named to the dean's honor roll for the spring semester at Southwestern Oklahoma University at Weatherford. Callaway had a 3.38 (out of a possible 4.0) grade average.

He received his pharmacy degree from the University Friday, May 30, and his parents attended the commencement exercises.

He is in Houston this week taking his state pharmacy board examination. He will be employed by Ideal Drugs in Plainview.

With almost perfect weather during most of the past week, the harvest of the Foard County wheat crop got into high gear for a few days and before a rain Tuesday, a total of 599,700 bushels had been brought to the county's three elevators.

Elevator men estimated Tuesday that the harvest was about half-completed, and they reported that farmers of the county were making all the way from 19 to 36 bushels per acre this year.

Contract price for wheat just before harvest was \$1.21 and on Tuesday, the market price per bushel was \$1.18.

Generally, the 1969 wheat crop was showing an average or above test weight, with most testing over 60 pounds per bushel.

The high winds over the week end kept the night-time moisture away and combine crews were cutting until midnight or past.

An ample supply of combines was on hand last week end as the bulk of the wheat cut thus far came in during this period. However, as the rain began falling Tuesday, a number of combine crews were beginning to move out.

Word Received on Condition of Accident Victims

Mrs. Harold Fish of the Vivian community and co-administrator of The Foard County Hospital, said Tuesday she had talked with Mrs. Prentiss Fields of Paducah, a neighbor of Wanda Reynolds, who was critically injured in a wreck west of Crowell May 4.

She said Miss Reynolds has been in the intensive care unit of a Lubbock hospital every day except 2 since she was rushed to Lubbock the day of the accident. She underwent her seventh major operation and is reported to be in extremely critical condition.

Miss Sharon Nelson, the other survivor of the accident, is improving slowly and will be able to have surgery on her leg in about a week, Mrs. Fish said.

Seth Halbert Is 1969 Graduate of University of Texas

Kenneth Seth Halbert of Crowell was one of more than 1,500 University of Texas students receiving degrees from the College of Arts and Science of the University at May 31 commencement exercises in Austin.

Halbert received a Bachelor of Arts degree. He is the son of Mr. and Mrs. Kenneth Halbert of Foard City.

NO MORE FREIGHT LINE THROUGH CROWELL?

The News learned this week that the I. C. X. freight lines have asked the Texas Railroad Commission for permission to cancel its daily freight line run from Vernon to Plainview.

Should the Railroad Commission grant the freight line's request—and if no other freight company could obtain the permit—Crowell and all the towns on US 70 between Vernon and Plainview will be without freight service and freight coming here would have to be picked up in either Vernon or Quanah. Likewise, outgoing shipments would have to be delivered to these out-of-town points.

It has been suggested that petitions signed by local businessmen in the towns that would be affected by this discontinuing of service be sent to the Transportation Division, Texas Railroad Commission, Austin, protesting this action, and requesting that the Commission, if it grants ICX's request, make arrangements with another freight line to provide service to these towns.

Rain Falls in County Tuesday

Rain Tuesday brought a sudden halt to the wheat harvest in Foard County. Official measurement here for the rain which began about noon and lasted for about two hours, was .45 inch.

Jon Lee Black Receives Degree from Texas Tech

Jon Lee Black of Crowell was one of more than 2,000 students who received degrees at Texas Tech's commencement exercises on May 31 in Lubbock's Memorial Coliseum.

Dr. Fred Harvey Harrington, president of the University of Wisconsin, delivered the principal address.

Jon Lee, son of Mr. and Mrs. Lee Black of Crowell, graduated from the School of Business Administration.

Bill Wilson will continue fill the pulpit at the First Christian Church both mornings and evenings, on a temporary basis.

Do You Want to Demonstrate?

The CHS auditorium buzzed with activity Monday night as area teenagers began working on the 1969 version of "Sing Out, America." This was the first of the practices planned throughout June on Mondays and Thursdays at 8 p. m. The patriotic show, scheduled in early July, is to be the same type as the show presented here last July 6. All young people are invited to participate. Anyone having any old lumber they would donate for the set is asked to call 684-4171.

If you're having trouble finding something to demonstrate about that really suits you, try singing out for America and all that's right in this country.

You don't sing? Bring your ideas and enthusiasm to a group that does. America is built on ideas and enthusiasm. The violence that has swept our nation can be countered by young people banding together to say through their perspiration and discipline that the greatness which is America is still respected and cherished. Ride high this summer; be proud that you can stand for something that is really free—sing out for America!

Conditions Favorable for Screwworms

Highly favorable weather conditions throughout much of Texas is expected to worsen the already serious screwworm situation, says officials of the Screwworm Eradication Program.

County Agent Joe Burkett said all livestock producers are urged to cooperate in efforts to hold the destructive pest in check. Producers are asked to check their animals regularly for cuts, wounds and scratches and to manage them to reduce injuries.

Foundation officials are asking each livestock producer to talk with his neighbors about the seriousness of the screwworm situation and to follow the recommended management practices.

las, is a fascinating book about
the frontier Red River country.
Bowers, district clerk of Red
River County for more than 20
years, began collecting interest-
ing tales about the settling of
the area many years ago. He asked
Miss Oppenheimer, well known
as a literary critic and radio com-
mentator, to work with him in
preparing a book about the half-
forgotten names and places
around Clarksville.

The co-authors went through
court records, newspaper files, old
diaries and personal letters to
find stories of human drama and
humor for "Red River Dust." They
came up with material about long,
raging court battles, love trian-
gles, vigilante hangings, the
Civil War and the coming of the
Iron Horse.

Miss Oppenheimer and Bowers
wrote about the man wanting the
malaria pills, as well as chewing
tobacco with the slogan, "Chew
Star Navy, Spit Ham Gravy;" the
library on which Andrew Carneg-
ie lost money; Dalby Springs
with its healing waters; debates
between Baptists and Campbel-
lites; and the numerous river
journeys on the Red River.

to observe the law but to let it
be known that he is opposed to
its violation." Mr. Hoover fur-
ther elaborated, "An overwhelm-
ing majority of present-day Amer-
icans obey the law, but far too
few indicate that they are seri-
ously concerned with its violation
... If we are to live as civilized
men and women, then we must
make the law a paramount issue
in our daily lives. In short, we
must live by the spirit as well as
the letter of the law. We must
oppose crime with all the means
at our command. Our cherished
principles of freedom, liberty, and
justice cannot flourish where fear
is dominant."

Mildew Stains
If soap and water does not re-
move mildew stains from white
washable clothes, moisten stain
with mixture of lemon juice and
salt. Bleach in the sun and rinse
thoroughly and dry. For other
hints on removing mildew stains

STUBBLE MULCHING—Pictured above is a stubble mulch
plow in operation. This plow is used to maintain wheat straw
on the surface of the soil which aids in maintaining high wheat
yields.

**TRASH
FARMING**

**By Louis Killingsworth
Soil Conservation Service**
Are you, as a wheat farmer,
interested in increasing your in-
come from wheat? Be a litter
bug! Yes, stubble mulching, or
trash farming as some people call
it, can increase your wheat yield.
Some farmers might ask, what is
stubble mulching? It is manag-
ing your wheat straw as trash.
Using sweeps and chisels to leave
the straw on top of the ground
from harvest through the planting
of the following crop.

As most farmers know, this
helps improve the condition of
the soil, protects the soil from
wind and water erosion, allows
more to enter the soil by prevent-
ing crusting, and reduces the
rate of decline of organic matter.
All of these things are important
for above-average wheat produc-
tion.

Mercy to All
Years ago, during Mussolini's
invasion of Ethiopia, I asked a
class of boys: "Who is the most
respected, most honored, most
loved man of all history?"
Immediately hands shot up, as
one said this one and another
that. One boy said Mussolini was
the most beloved and honored,
but the others laughed at that
idea. Finally, one sincere-looking
lad said, "Jesus." But he was
as far off as the one who had
suggested Mussolini.

News items below were taken
from the Thursday, June 15, 1939,
edition of The Foard County
News:
As the harvesting of wheat from
approximately 45,000 acres in
Foard County continues, tabula-
tions released by the elevators in
Foard County Wednesday after-
noon revealed that about 350,600
bushels of wheat had been deliv-
ered this season. The yield to date
is slightly higher than the report-
ed figures due to the fact that
farmers are storing wheat in gran-
aries.

The first government wheat
loan to be made in the United
States is believed to have been
transacted in Crowell last Friday,
according to information from
Dallas officials. No contradictions
to this statement had been made
Wednesday night. The first loan
of this type to be made in the
United States was made by Self
Grain Company of Crowell to
George Self on 1,383 bushels of
No. 1 dark hard wheat which test-
ed 63 pounds and had a protein
test of 14.85. Mr. Self received
a loan of 64½ cents per bushel,
which totaled \$892.03 for the
loan.

A plate window of the M. S.
Henry & Co. was broken by the
high winds early Wednesday
morning, at which time a wind
and electrical storm swept over
Crowell.

The L. K. Johnson No. 18, lo-
cated on the Leslie McAdams
ranch about three-quarters of a
mile from the gas plant in the
Texas Company field 20 miles
west of Crowell blew in Monday
night after 240 quarts of nitro-
glycerine had been exploded in
the hole Monday morning, and is
reported to be producing between
75 and 100 barrels of oil per day.
The hole was being bailed out
when the gas pressure broke loose
and the bailer was blown about 60
feet out of the hole.

The Foard County News won
state recognition for the fifth
time last week when it was award-
ed second place in best set ads of
30 inches and under, which was
announced at the close of a three-
day convention of the Texas Press
Association in Lubbock Saturday
at noon.

**Girls' State Gives
Valuable Training**

More than 8,000 young Texans
have been trained in city, county
and state government and democ-
ratic processes in the 25-year
history of Bluebonnet Girls' State,
to be held this year June 11-20
at St. Edward's University. From
the program's inception, except
for two years, it has been head-
quartered in Austin.

Sponsored by the American Le-
gion Auxiliary, with some addi-
tional backing from various local
civic clubs, Girl's State accepts
young ladies who have completed
their junior year of high school.
These "citizens" then return to
their home high schools to spread
the beneficial knowledge they
have gleaned from this two week's
experience.

Miss Frances Goff, special pro-
jects supervisor for the University
of Texas M. D. Anderson Hospi-
tal and Tumor Institute at Hous-
ton, is the volunteer director. She
has served in this post since 1952.

Citizen representatives are se-
lected by various approved pro-
cedures after being recommended
by their schools on the basis of
leadership, character, scholarship
and physical fitness.
The more than 450 girls who
attend the '69 session will study
and actively participate in the
processes of city, county and
state government, as these are
structured through Texas by Tex-
as statutes. The citizens are di-
vided into two political parties in
order that they may learn about
the American democratic system.
After the citizens have chosen
their form of city government,
they then file for city, county and
state offices. Upon election, the
state officials are "inaugurated"
at the Texas Capitol, where their
real counterparts will escort them
to their inauguration.
City and county "officials" visit
the Austin city hall and the Trav-
is County court house.
The entire assemblage will tour
the State Legislative chambers
and the Governor's Mansion. Dur-
ing one day, the citizens will con-
duct their own legislative sessions

..... to the country**

Today, thousands of American families
are deserting the congested treadmills of the
cities for the "good life" in the country—
without sacrificing the conveniences of mod-
ern living. This is now possible because of
an abundant supply of electric power from
your electric cooperative.

But, electric cooperatives are doing much
more. Their leaders are working with other
local organizations to help insure improved
community facilities such as water and sewer
systems . . . better schools . . . new job
opportunities . . . more and better housing
. . . improved medical facilities and expanded
recreational areas.

Ask your members about the "good life"
in the country—then call the moving van.

Warning to U. S.

Appearing on the cover of the
April, 1969, issue of "The Free-

tion for Economic Education, Inc.,
was the following thought-provok-
ing statement: "Uruguay's warn-

the world, is that governmental
welfarism, with its ever-increasing
army of pensioners and other ben-
eficiaries, is fatally easy to launch
and fatally easy to extend, but
almost impossible to bring to a
halt—and quite impossible polit-
ically to reverse, no matter how
obvious and catastrophic its con-
sequences become. It leads to run-
away inflation, to state bankrupt-
cy, to political disorder and dis-
integration, and finally to sup-
pressive dictatorship."

Granddaughter of Vivian Resident Wed in Vernon Saturday

The Wilbarger Street Church of Christ was the setting at 8 p. m. Saturday for the double-ring wedding ceremony uniting Miss June Elaine Henderson and Jerry Franklin Wood. Eugene Gilmore, minister, officiated.

Parents of the bride are Mr. and Mrs. William R. Henderson, 1701 Nabers, and the groom is a son of Mrs. Virgie Wood, 2403 Cumberland, and the late Frank Wood. The bride is a granddaughter of Mrs. W. O. Fish of Vivian.

To form the nuptial scene, an arch of candles was centered between arrangements of eramurii and fugii mums which were flanked outwardly by a brass spiral candelabra on each end. Musical selections by Wilson Collins, soloist, were "Whither Thou Goest," by Gounod and Malotte's "The Lord's Prayer."

Presented in marriage by her father, the bride selected a gown of white silk cloud satin topped with handclipped Chantilly lace. It was designed with a softly-lifted waist and a slightly flared A-line skirt. A center panel of satin from the high round collar to the hemline enhanced the front of the dress. A satin sash marked the raised waistline and formed a back bow with wide streamers extending the full length of the built-in train. Long fitted sleeves were unlined and extended to scalloped ruffles at the wrists. The gown was designed and made by the bride's mother.

The bride's three-tiered elbow-length veil of imported illusion was held in place by a cluster of lace-covered satin petals topped with an organdy bow. Each petal was edged in tiny seed pearls and was strewn with pearls and crystals. The petals and bow were enhanced by a delicate crown of pearls and crystals. Her only jewelry was a pearl and diamond drop, a gift of the groom, and a

gold band ring which belonged to her maternal grandmother, Mrs. W. O. Fish, and was given to the bride's sister as a family heirloom. She carried a lace handkerchief which was a wedding gift, a blue garter and a sixpence in her shoe. An elongated bouquet of pikie carnations and strands of Hahn's ivy centered with a catelija orchid was carried on top of a Bible covered with lace over satin.

Miss Suzanne Henderson served her sister as maid of honor. She was attired in a formal length gown of exotic apricot satin, styled on empire lines with a sleeveless bodice. The skirt fell straight in front with soft gathers on the sides and back. Tapering to a low "U" in back, the high round neckline was complemented by a self-fabric ruffle which was repeated in the hemline. Her headpiece was a large double bow of the same fabric with a short tiered veil of illusion. Short white leather gloves and matching shoes of exotic apricot completed her ensemble. She carried a nosegay of enchantment lillies in shades of apricot.

Other bridal attendants were Miss Isla Wood, sister of the groom, and Miss Vicki Daniel. Their gowns were identical to that worn by the maid of honor.

Miss Leslie Ann Lee served as flower girl. She wore a long gown of satin matching the other attendants. It was styled with a round neckline and an A-line skirt, and was accented by butterfly stand-up ruffles which extended over the shoulders from front to back. She wore a tailored bow in her hair with a long streamer which was almost floor length. She carried a basquette of enchantment lillies.

Kenny Krebs served the groom as best man. Candelights were Harvey Ward and Joe Mike Fish, cousins of the bride, of Vivian. Another cousin, Randy Fish, also of Vivian, served as ring bearer.

For her daughter's wedding, Mrs. Henderson chose a mint green crepe dress with matching jacket and white accessories. She wore a white glabella corsage. Mrs. Wood was attired in a royal blue dacron knit dress with white accessories, and she also wore a white glabella corsage.

Reception
A reception in the church immediately followed the wedding ceremony.

The bride's table was covered with a white linen cloth with a floor length ruffled flounce of nylon. A floral arrangement of eramurii and snapdragons with Woburn Abbey roses in a silver candelabra decorated the table.

The all-white wedding cake with Grecian columns between each of the four tiers was topped with white satin wedding bells. The cake was decorated with white roses. Assisting with serving were Misses Brenda Erdmann, Peggy Doherty, Brenda Dunson, Sandra Kieschnick, Jo Ann Wheeler and Cecily Tooley.

Other members of the house party were Mmes. John Fish and Bill Fish of Vivian, Joe Lee, Loyd Gray and Carl Swanson of Vernon and Misses Rosalie Fish of Abilene and Bernita Fish of Vivian. Rice bags were distributed to the guests by Misses Leslie Lee, Nancy and Sarah Fish.

For the wedding trip to Washington, D. C., and other points of interest in the East, the bride selected a coat-dress ensemble of rayon and Irish linen. The dress was a solid lime green shift styled with bracelet length sleeves and was complemented with a full length sleeveless coat of lime, dark green and white plaid. She completed her attire with cream colored accessories and wore the orchid from her bridal bouquet.

The bride is a 1969 honor graduate of Vernon High School and was a member of the National Honor Society. She received the Senior Home Economics award in 1969. The bridegroom is a 1963 graduate of Vernon High School. He is presently employed by Meads Oil Company.

After June 15, the couple will be at home at 2703 Texas Street, Vernon.

Miss Judy Whitley and Robert Lee Taylor Wed in Dallas

Miss Judy Kay Whitley became the bride of Robert Lee Taylor Monday evening, May 26, in a ceremony performed by Judge Tom Naylor in Dallas.

The bride was attired in a white and pink A-line dress with matching accessories.

The former Miss Whitley is the daughter of Mr. and Mrs. J. W. Whitley of Crowell. She attended Crowell High School and graduated in 1968. During her school years, she was active in the pep squad, F. H. A. and Sub-Junior Columbian Club. She is presently employed in the bookkeeping department of the First National Bank in Dallas.

The groom, nephew of Mr. and Mrs. Robert W. Justice of Bonham, was graduated from Bonham High School in 1966. He was active in football, basketball, track, Spanish and art clubs, and served as senior play director. He has now left for San Diego, Calif., where he will serve his basic training in the U. S. Marines.

Bridal Shower Last Saturday Honors Miss Zerne Gafford

The Adelphi Club house was the setting Saturday afternoon for a bridal shower honoring Miss Zerne Gafford, bride-elect of Raymond Lance, Jr. of Fort Worth.

Mrs. Woodrow Lemons greeted the guests and presented them to the honoree who alternated introducing them to other members of the receiving line which was composed of Miss Gafford; her mother, Mrs. L. E. Gafford; the prospective bridegroom's mother, Mrs. Adel Lance; and his grandmother, Mrs. Emma Schulz of Lockett.

Miss Gafford's chosen color of pale yellow was featured in the entertaining room. Miss Michelle Gafford, sister of the bride-elect, presided at the bride's book. The register table had a decorative floral arrangement of tiny yellow roses beside the bride's book.

The serving table was laid with a beautiful yellow table cloth outlined with a number of glowing candles and an arrangement of white pompons and gladiolas encircle the candles with ivy.

Miss Terri Cates and Mrs. John Anderson presided at the serving table.

Refreshments of iced punch, yellow mints, and yellow and white party cookies, in keeping with the bride's color scheme, were served. Crystal dishes were used.

Included in the gifts was the hostess gift of a set of avocado green teflon cook-ware.

Hostesses were Mmes. Houston Adkins, W. W. Lemons, T. R. Cates, Jr., Leo Cates, Guy Todd, Jeff Bell, Sonny Eddy, Dayton Everson, Loraine Carter, Bob Thomas, Robert Rummel, Ewald Schulz, Warren Haynie, Rusty Russell, Glenn Shook, J. B. Fairchild and Sybil Bell.

Could Subsist

Today's housewife can choose from over 8,000 food items on supermarket shelves. But, if necessary, she and her family could subsist for many months on just four foodstuffs, according to San Francisco internist Dr. Albert H. Behnke. All man really needs to survive, he says, is powdered milk, cooking oil, fortified cereal and multi-vitamin capsules. But he also adds that a bottle of whiskey might be needed to help endure such a stringent diet.

West Side H. D. Club

The West Side Home Demonstration Club met May 27 in the home of Mrs. L. G. Simmons.

Opening exercise was "If You Can Remember When," read by Mrs. Henry Ross. Roll call was answered by "what do you think makes a person seem younger." Ten minutes of fun was led by Mrs. Homer Ketchersid, in the absence of Mrs. Charlie Wishon, the recreation chairman.

The program was given by Mrs. Dick Ballard on "Forty Isn't Fatal, It's Fulfillment." Some of the points she brought out were that "you are as old as you eat and there are no homely girls, only lazy ones. Stop, look and listen to the way others see you. Your grooming speaks before you do. After 40, you can laugh at tragedies because you know they often turn out to be comedies."

Refreshments were served to 13 members and 6 children. The next meeting will be a county-wide meeting on food preservation, the date and time to be decided later.

Tax Man Sam Sez

Internal Revenue employees will tell you that it is a very common occurrence to have taxpayer say, "I can't itemize my deductions—I have to take the standard deduction because I haven't got time to fool with keeping books and records." A well-known trade secret is the fact that most major oil companies spend a great deal of time and money training service station operators to replace those operators who did a fine job of running the station, but didn't follow the company's system on keeping books and records. You had better believe that the highly publicized million dollar a year income folks who don't pay any taxes kept their books and records. You might do well to consider doing a little better job on those books and records yourself. You probably won't get out of paying all of your taxes, but every dollar helps.

Two-in-a-Row

Crawford community in McLennan County, for the second year in a row, has been named state winner in the Texas Community Improvement Program. Runner-up communities were Goben, Fannin County; Quitaque, Bristow County, and Haskett, Tarrant County. Each will receive a cash award and silver trays from the sponsors—the electric utility companies operating in Texas. Reagan Brown, extension sociologist and program coordinator, announced the winners and said the final scores couldn't have been much closer. Each community has done a tremendous job during the past year to make their communities a better place to live.

Career Opportunities

A recent Texas A&M University survey indicates an immediate need for 2,000 qualified farm machinery mechanics. According to Dr. Earl S. Webb, professor of agricultural education, the figure is expected to jump to 7,000 within the next 5 years. He said the Texas Education Agency was giving high priority to training programs in the field of farm mechanics.

No Forms Required to Buy Ammunition

Dallas—Hunters and sportsmen need only identify themselves to be able to purchase ammunition under the 1968 federal gun control law, B. Frank White, Southwest Regional Commissioner of Internal Revenue, said this week. There are no forms to fill out, but a person must show some identification such as a driver's license to indicate he meets the age requirements set forth in the gun law. The 1968 Gun Control Act limits the sale of ammunition for pistols, revolvers and other handguns to persons 21 years of age and over. Ammunition for rifles and shotguns may be purchased by persons 18 years of age and over.

White said that unlike the restrictions on the sale of firearms, a person can buy ammunition outside his home state. Thus, a hunter on a trip or a sportsman attending a shooting match will have no problem obtaining ammunition.

Dealers are required to keep records of ammunition sales including the name and address of the purchaser.

White said the federal gun legislation enacted in 1968 was designed to help law enforcement officials at all levels of government fight crime. The legislation

Austin, Tex.—Texas lawmakers have written the record of the 61st regular session, but their toughest job—levying the taxes to pay for what they have ordered—remains to be done.

In adopting a \$2.8 billion one-year state budget (for 1970), they invited a special session to complete appropriations for 1971 and to decide on the inevitable major tax bill. Legislative leaders, Lt. Gov. Ben Barnes and House Speaker Gus Mutscher, claim the latter will be smaller if the finance showdown can be delayed until next year.

Gov. Preston Smith, who holds the key to the timing of the special session, has made clear from the start that he feels the Legislature should face up to a biennial budget and the raising of needed revenue. He could veto the single-year bill and call another session immediately—or accept it and schedule the remaining financial work whenever he pleases.

Many all-time legislative records have topped at this session. Certainly, the 61st session passed more legislation than any before it, and it was committed in advance to spending more money.

A multitude of laudable ends were attained. Giant strides were made in the field of education. Teachers got a \$61.9 million pay raise. Overhauls were ordered in the field of vocational and technical education. Three new medical schools, a dental school and two new nursing schools were authorized. Also, three new universities, plus an experimental upper level branch college in Laredo. Never have so many new higher educational facilities been launched in a single session.

A master water plan got all the legislative support it could expect. Workmen's compensation laws were updated. Sweeping changes were approved over air and water pollution. A constitutional amendment to legalize the sale of liquor by the drink was submitted, along with many other proposed changes in the constitution. State employees got a 6.8 percent pay raise.

Texas' 61st Legislature was a busy, productive session. It was a liberal-spending one with the bills yet to be paid.

"The citizenship of Texas will applaud our work at this session and give us their full support when we return to appropriate and finance the second year of the biennium," concluded Speaker Mutscher.

LAW ENFORCEMENT PLAN ADVANCED—Texas' new State Criminal Justice Council has recommended a comprehensive \$1.1 million law enforcement plan that covers a wide scope of activities.

Gov. Smith will analyze it before it goes to the U. S. Department of Justice for approval and funding under the Federal Omnibus Crime Control and Safe Streets Act of 1968. Funds for a two-year operation must be committed by June 30.

Texas received \$234,000 for riot control and \$830,350 in plan-

ning money six months ago.

Council voted priority funding to these programs: Prevention of juvenile delinquency, education and training in all elements of the criminal justice system, regional and statewide information and communication systems, community relations programs, experimental and demonstration projects to test and evaluate new approaches to solving problems in criminal justice system.

Approved funds will be disbursed to 21 geographical planning regions of the state. Congress now is considering funding which would provide Texas more than \$11 million in action money, plus planning aid for next year to develop a long-range plan and begin putting it into effect.

W. S. L. to Have Covered Dish Meals in June

Monthly Socials Being Planned for July and August

At last week's meeting of the Women's Service League, members decided to have covered dish luncheons during June with monthly socials in July and August. Mrs. Ethel Barker, who has been preparing the meals, will be assisting her family during the summer. Regular meetings will resume in September.

Pictures of a Christmas scene that the organization hopes to erect on the court house lawn during the holiday season were shown to those present. Individuals and other groups are urged to assist the WSL in this undertaking.

Mrs. Loraine Carter, director of the Foard County Neighborhood Center, will be guest speaker at this week's meeting.

Proving Your Age for Social Security Payments

Nationally, about 45 percent of the people applying for social security retirement benefits have a birth or baptismal certificate to prove their age.

Here in the Crowell area, Edwin Draughon, social security manager in Vernon said, the percentage is a little lower than the national average. In many areas of the country, he said, the keeping of the birth records was not systematic or well organized at the time today's retirees were born.

While the best proof of your age, Mr. Draughon noted, is a birth or baptismal record recorded before your 5th birthday, other records can be used if neither of these documents is available.

Mr. Draughon said he had seen some very unusual documents that have been used in establishing the age of a beneficiary. One of the more unusual ones was a picture of a headstone over the grave of a claimant's deceased wife, on which the claimant's name and date of birth had been carved. The only thing missing, he added,

was the date of death.

Most people need not go to that extreme to establish their age, Mr. Draughon said. There are a number of documents that may be readily available. Among these are school or church records, federal census records, employers or unions records, fraternal organization records, old insurance policies, children's birth certificates, immigration records, and others, he said.

If you are nearing retirement age and do not have a record of your age, call or visit your social security office to learn what documents you will need.

The social security office for this area is located at 1728 Fanning Street in Vernon, phone LI2-9346. The office is open from 8:30 a. m. to 4:45 p. m. daily and on Saturdays from 10 a. m. until noon for the convenience of those who are unable to visit the office during the regular hours of operation.

Total annual teenage spending in the U. S. passed the \$20 billion line last year, according to extension home management specialists.

Social Security News

The Social Security Administration can help pay the burial expenses of a deceased worker. This payment can be made if the worker was fully insured under social security or if he had as many as 6 quarters of work during the 13 quarter-period before his death.

Retirement

Retirement is having a hobby, for one thing, says Minnie Bell, extension specialist for aging. Choose one that you like, avoid one that will "play out" soon. Select something which requires some knowledge or skill. Reading and writing are almost inexhaustible hobbies.
