**PRESENTS "E. KENNER AWARD"**—Mrs. Clyde Russell of... is pictured above as she presented the "E. Kenner Award" to Odell Anders of Midland for being the most congenial person on the seventh annual "Grand Ole" Tour" for antique and classic autos held in Lubbock the first of the month. The award is given annually in memory of Mrs. Russell's father, the late E. Kenner of Crowell, one of the most active members of antique car groups during his lifetime.

## Mrs. Russell Makes Presentation of "E. Kenner Award"

Mr. and Mrs. Clyde Russell and son, Ken Randell, attended the seventh annual "Grand Ole" Tour" for antique and classic autos in Lubbock July 31 and August 1 and 2.

The tour, sponsored by the South Plains Region of the Antique Auto Club of America and Monterey Shopping Center, attracted entrants from the Midland-Odessa region, San Angelo, Abilene, Eastern New Mexico, Lubbock and surrounding towns. All of the 66 cars, with the exception of a classic 1948 Continental, were made between 1902 and 1942. They ranged from a 1902 Galloway (owned by Ike Kenner) with a top speed of 18 to 20 miles per hour, to exotic Pierce Arrows, Cadillacs and Packards.

The caravan toured to Lake Ransom Canyon on Friday. Braving the heat, many of the families attended the tour dressed in antique clothes. A 7:30 p. m. style show awards banquet followed the tour and Mayor W. D. Rogers welcomed the participants, bestowing honorary citizenship to Ike Kenner of Odessa on behalf of all the club members.

Saturday morning's activities consisted of a swap meet at Monterey Center and driving events at 2 p. m., which included a cranking contest, an electric start contest, a potato-stabbing contest and a parking contest for women.

The final awards banquet followed at 7:30 p. m. in the Red Raider Inn—in which trophies and prizes for the top cars in the show and the best dressed family were given. The spirit of the week end's activities was climaxed by the presentation of the "E. Kenner Award" which is given annually to the most congenial person on the tour. This award is the highest honor bestowed at the "Grand Ole" Tour" and the one most sought after. Dick Brightwell, tour chairman, asked that Mrs. Russell, daughter of the late Mr. Kenner, participate in the presentation of the memorial trophy of her father. The award went to Odell Anders of Midland, who also won it last year in San Angelo.

## Donations Come in to WSL to Buy Christmas Scene

**More Funds Are Solicited from Interested Citizens**

Some \$160.50 has been contributed recently to the Women's Service League's life-size nativity scene project. The sponsoring organization started the fund with a \$250.00 donation.

Slated to be erected on the court house lawn during the Christmas season, the 16-piece set of simulated hand-hewn wood will be dedicated to servicemen of all wars.

Contributing toward the \$950 goal have been Mrs. Mary Foster, Mrs. J. H. Minnick, Mr. and Mrs. E. C. King, Crowell Super Save, Mrs. A. R. Sanders, M. L. Hughston, Rev. and Mrs. Walter L. Driver, Mrs. Anne E. Long Hakala, Welch Butane Co., Crowell Booster Club, The Foard County News.

As the WSL has a September deadline for ordering the decoration, additional contributions are needed immediately.

**C. H. S. CHEERLEADERS**—Pictured above are the six Crowell High School cheerleaders for the coming school year as they were photographed at a cheerleaders school in Lubbock. On top is Linda Gray; standing are Mickie V. Owens, Rhonda Vecera and Nancy Looney; and in front are Kristi McLain and Sara Collins.

## AC-Sponsored Senior Citizen Program Employees Are Hired

Economic Opportunities Development Corporations of Crowell, Hardeman and Wilcox Counties has announced the program for the senior citizens is underway. The staff of the "Senior Opportunities and Services" project has been employed and is in the process of collecting information to decide what type of programs should be conducted for the participants in this program.

Mrs. Wanda Whitaker of Chillicothe, a former Crowell resident, is coordinator of the program, and Mrs. Betty Jane Gibson has been named as the aide in Crowell. Other members of the staff are Mrs. Carol Sue Martin, nurse; Mrs. Frankie Gilbreath, aide in Paducah; Mrs. Bobbie Gholson, aide in Quanah; Mrs. Norma Bradshaw, aide in Chillicothe; Mrs. Helen Powell, aide in Vernon, and Mrs. Ida Margaret Farbau, secretary in Vernon.

Anyone in Foard County wishing any information about this program should contact Mrs. Gibson.

## Funeral Services Held for Brother of Mrs. Joe Smith

Early B. Cato, a former resident of Vernon, and a brother of Mrs. Joe Smith of Crowell, died Wednesday, August 6, in the Veterans Hospital at Fayetteville, Ark. He was born Sept. 16, 1907, in Elmwood, Okla., the son of the late Mr. and Mrs. Ralph Cato, who were long-time residents of Vernon. He was also preceded in death by a brother, Guymon Cato, Sr.

He was married December 17, 1938, to Miss Oleva Noyes.

He served in the Navy during World War II, later making his home in Wichita Falls. For the last 15 years, he and his family had resided in Rogers, Ark., where he farmed until he retired because of ill health.

He is survived by his wife and one son, Eddie Earl of New York City; and one sister, Mrs. Smith of Crowell.

Rev. John Gillispie of Crowell was in charge of services at the Henderson-Fields Funeral Home Chapel Saturday afternoon.

Interment was in East View Memorial Park.

## Free Will Baptist Church Planning Revival Services

The Free Will Baptist Church of Crowell will conduct revival services August 17 through 22, the pastor, Rev. M. L. Crosby, announced Tuesday.

Rev. H. H. Haston of Paducah, a former pastor of the local church, will be the evangelist for the services each night. Sunday evening services will begin at 7 and services during the week will start at 8 o'clock.

Rev. Crosby will speak Sunday morning. He and his congregation invite everyone to attend these services.

## Department of Labor Representative Is Speaker at Meeting

The Neighborhood Center's advisory board held a meeting on Tuesday, August 5. This board meets the first Tuesday of each month.

Featured speaker for this meeting was Marvin Moon from the U. S. Department of Labor in Wichita Falls, who explained wages on different types of work. Mr. Moon also showed a film pertaining to his talk.

There were 51 persons attending the meeting. The board invites everyone to attend their meetings. Ben Byrd is president of the organization.

## Jimmy Dean Werley Buys Half-Interest in Mills Barber Shop

Jimmy Dean Werley, who closed his barber shop on the north side of the square several weeks ago, announced Monday that he has purchased a one-half interest in Mills Barber Shop on the west side of the square.

Mr. Werley invites all of his old customers to visit him in his new location.

## Lake Turnover Named Culprit of Water Problems

The annual summer "turnover" at Lake Greenbelt near Clarendon has been named as the culprit for the water troubles being experienced by Greenbelt users. The water has been muddy with an unpleasant odor and taste.

The lake is doing what is known as "thermal revision," an annual summer ailment common to all lakes.

The temperature of the water in the lakes alter about this time of year causing the water at the bottom of the lake to rise and the surface water to sink. The upshot is muddy water and in older lakes a profusion of "algae," the microscopic plant life that causes bad odors and taste in lake water.

The Quanah Tribune-Chief said in last week's edition that filtration operators at Lake Greenbelt are working around the clock trying to adjust their plant to filter most of the lake silt out of the water.

## Truscott Reunion Set for August 30

The annual Truscott reunion will be held on Saturday, August 30, at the community house in Truscott.

All residents and former residents are invited to bring a basket supper and enjoy the visiting.

## Hot, Dry Weather Continues in Area

Foard County continues to be in the midst of a heat wave, with the mercury topping 105 degrees every day this week.

Last week, some scattered showers fell over parts of the county, but was insufficient to give any relief from the heat.

## Deputy Sheriff Attending Training Course in Vernon

Deputy Sheriff Joe Don Brown has been attending a law enforcement training school being conducted in Vernon last week and this week. Sessions are from 1 to 5 p. m., Monday through Friday.

This is the second in a series of law enforcement training sessions that Brown has attended during the past several weeks.

## Car Strikes Calf on US 70 East of Crowell

A vehicle driven by Jimmy Way of Waurika, Okla., struck and killed a calf on US 70 about 8 miles east of Crowell one night last week, Sheriff Dan Callaway said Tuesday.

Callaway said Way was uninjured in the accident and about \$75.00 damages to his car resulted from the accident.

## Baby Boy Born on Wedding Anniversary of His Grandparents

A baby boy, Derric Neland, was born August 7 to Mr. and Mrs. Ted Bork of Bandon, Ore.

The baby was born on the thirty-second wedding anniversary of his grandparents, Sheriff and Mrs. Dan Callaway of Crowell.

Mrs. Callaway left from Dallas by plane Saturday to visit her daughter and family. Mrs. Bork is the former Miss Dannie Callaway.

## Fire Department Extinguished Grass Fire Tuesday Morning

The Crowell Volunteer Fire Department was called out Tuesday morning to extinguish a grass fire at the home of Mrs. Jeffie Webster in the southwest part of town.

## EOAC Employee Takes Job at Health Center

Mrs. Bill Neal of Quanah, wife of the district attorney of the 46th District, is one of seven new professional staff members of the Vernon Center of Texas Department of Mental Health and Mental Retardation.

Mrs. Neal will continue her duties with the Economic Opportunities Advancement Corporation as director of programming, planning and evaluation and will work in the evenings until her replacement is named. The office serves Wilbarger, Hardeman, Foard and Cottle Counties with headquarters in Crowell.

Mrs. Neal is a graduate of the University of Texas in Austin and was employed by the State Department of Public Welfare in Austin before moving to Quanah. She assumed her new duties at the Vernon Center Monday of last week.

## School Board Hires Bus Drivers at Monthly Meeting Monday Night

At a meeting of the Crowell School board Monday night, August 11, board members hired the following bus drivers for the 1969-70 school term:

Marcus Mills, Fred Collins, M. L. Crosby, Ray Glasscock, Mrs. Edith Cash, George Fox, Clyde Russell, Joe Smith and Vinson K. Hicks. Allen Taylor and Carl Cox are also bus drivers, but they are full-time employees. Hicks, Smith and Mrs. Cash are the new bus drivers.

The board also made plans to air condition the band hall. Plans were also discussed for a suitable entrance for the Dick Todd Stadium. Jeff N. Bell is the school board representative on the stadium committee.

In other action, the board awarded the milk contract to Oak Farms; the bids on bread for the school cafeteria have not been received yet. Supt. Henry Black said Tuesday morning.

The board also set September 8 as the date for the school's budget hearing.

School secretary J. H. Gillespie announced that parking tickets for home football games are now on sale in his office in the court house.

## Latin American Association Holds Dinner Here Sunday

The Latin American Association held a dinner at the Foard County Neighborhood Center on Sunday, August 10, with the price charged being \$1.25 for adults and 75c for children.

A spokesman for the association said, "We would like to thank each one who came and extend an invitation to the public to come back August 24 at 12 noon for dinner. We would like for everyone to attend all the activities which we will be having in the future. Advance notice will be posted to inform everyone."

## Swimming Pool to Close for Season Wednesday, Aug. 20

Wednesday, August 20, will be the final day for this summer's operation of the swimming pool, Gordon Erwin, manager, said last Monday.

Mr. Erwin added that attendance at the pool this year has been the best in several years.

Perhaps the many days of 100-plus degree mercury readings helped interest county residents in "taking a dip."

## Social Security to Have Representative in Crowell August 21

Jack L. Ashcraft, representative of the Vernon Social Security office, will be at the community center in Crowell on Thursday, August 21, at 10 a. m. to take applications and answer questions pertaining to social security.

All people in Crowell and Foard County desiring to file applications for social security benefits or ask questions about social security are invited to meet Mr. Ashcraft at this convenient location. He is available to speak to interested groups about social security at any time. There are no charges for these services.

## Three New Vehicles

Three new vehicles were registered here last week:

August 6, Virginia Sue Smith, 1969 Chevrolet 4-door, August 6, John Carl Borchardt, 1969 Chevrolet pickup; August 6, Walter E. Ramsey, 1969 Chrysler 4-door.

## Noel Wilkins Accepts Teaching Position at Pasadena Jr. College

Noel Wilkins, a former resident of Crowell, has accepted a teaching job with the Pasadena Junior College where he will be teaching music and theory.

Noel was reared in Crowell and graduated from Crowell High School. His mother, Mrs. M. A. Wilkins, now makes her home in Liberty.

Austin, Tex.—Water development leaders already are talking about another try with the \$3.5 billion water bond authorization in the wake of last week's constitutional amendments elections.

Water bonds—to finance the state's share of the \$9 billion Texas water plan—were defeated by only a few thousand votes out of some 700,000 cast.

Meanwhile, say water experts, the master plan is not dead. Preliminary negotiations for out-of-state water can continue, and another vote can be scheduled on the bonds in 1971. Hopefully by then, some of the major objections will be resolved.

Texas, in the amendments election, solved one of the state's pressing problems, for the time being at any rate. They voted nearly two-to-one in favor of raising the welfare aid ceiling \$20 million a year, to \$80 million.

This will get aid to families with dependent children (AFDC) payments back to par, and stave off any more cuts in the near future.

Voters also favored issuing \$200 million more in college student loan bonds to continue the Texas Opportunity Plan of aid to needy youngsters bent on higher education.

Elimination of deadwood from the state constitution met strong favor. So did payments to survivors of volunteer firemen, reserve or auxiliary police and other state or local government employees killed in line of hazardous duty.

On the other hand, voters were antagonistic toward four other proposed amendments on the August 5 ballot.

They overwhelmingly rejected pay raises for state legislators and annual sessions of the legislature. They disapproved property tax exemptions for non-profit water supply corporations by a fairly strong margin and narrowly rejected lifting the constitutional interest rate ceilings on state bonds.

Defeat of the annual sessions amendment put an end to hopes of many legislators that another single-year, no-tax state budget can be passed in the current special session and accepted by Gov. Preston Smith.

**TAX BILL GOES TO SENATE**—Now it's the Senate's week to wrestle with the tax bill.

House passed its \$341 million version of revenue raising to balance a biennial budget and sent

it across the rotunda. From comments, it is an overstatement to say seniors don't like it, but hearings are under way in an attempt to come up with an acceptable compromise—and that won't be easy.

Here is what the House bill does (all levies effective January 1):

- \* Raises the sales tax rate from three to 3.5 per cent.

- \* Boosts the cigarette tax five cents a pack, to 16 cents.

- \* Launches a new 3.5 per cent tax on telephone and telegraph, auto repairs, appliance (except washing machines, dryers and refrigerators) and jewelry repairs, parking, laundry and dry-cleaning (except self-service coin-operated) and professional entertainment services.

- (Included in the latter would be admission charges to professional athletic contests, night clubs, dance halls, amusement parks and scenic attractions.)

- \* Levies a 10 cent transactions tax on each sale or purchase of stocks, bonds, warrants and other securities, with few exceptions.

- \* Cuts the gross receipts tax on telephone and telegraph companies from 2.5 per cent to 1.9 per cent (which would reduce the industry's direct taxes about \$5.7 million per biennial fiscal period.)

City officials are angry because, while new sales and services taxes would be levied at 4.5 per cent rate in those municipalities which levy local option sales tax, they would get none of added revenue.

One thing seems certain: what comes out of the Senate is unlikely to bear much resemblance to what came over from the House.

**LOAN BONDS SOLD**—First \$14 million in new college student loan fund bonds were sold here last week (Aug. 7).

First National City Bank of New York and Associates were successful bidder at a net effective interest rate of 5.4162 per cent. Announcement came from Tom Sealy of Midland, chairman of the Coordinating Board, Texas College and University System. Board administers the program.

Bonds will be formally authorized and awarded to the purchaser at the meeting of the Coordinating Board on September 2. Funds will be available for fall semester loans. About 36,000 needy Texas resident students have benefited from a total of nearly 100,000 loans since the program went into operation in 1966.

**HOSPITAL AID CUT LOOMS**—Texas hospitals get warning from Texas health authorities that federal building funds may be sharply curtailed under White House budget proposals.

Twenty-eight Texas applicants for Hill-Burton hospital construction aid were notified that the State Health Department received a tentative allocation indicating a "drastic reduction" in U. S. money for the state.

Tentative allotment is reportedly about \$2.1 million for general construction and \$689,000 for modernization of Texas hospitals in 1970. About \$1 million would go to public health centers, according to health officials who said they hope Congress will raise White House recommendations. About \$8 million was allotted Texas for general construction this year and \$2 million for modernization.

**FOOD-MEDICAL GRANT APPROVED**—A \$474,000 emergency and medical services grant has been awarded Texas Office of Economic Opportunity and approved by Governor Smith.

Program will start Sept. 1 to supplement the existing commodity distribution program for 71,000 Texas families. It will operate in 26 counties with highest percentage of poor. Outreach, basic food stuffs and medical services will be used to counteract conditions of starvation and malnutrition among poor.

These counties will benefit directly: Austin, Burleson, Caldwell, DeWitt, Falls, Fayette, Freestone, Goliad, Gonzales, Grimes, Houston, Lavaca, De Leon, Limestone, Madison, Milam, Newton, Orange, San Jacinto, Trinity, Tyler, Upshur, Walker, Waller and Washington.

**'TREASURE' RETURNS**—Last of the material recovered from the Spanish galleon sunk off Padre Island arrived at the Texas Memorial Museum in Austin Wednesday night from Gary, Indiana.

It may be a while before the inventory committee gets through with its checking of the material. Gaylord Armstrong, law partner of former U. S. Rep. Joe Kilgore, (one of the inventors), said that the inventory lists and the artifacts seem to tally pretty well, but the committee will have to go through step-by-step, piece-by-piece, to make sure. Nobody is sure when that check will be made, since Kilgore is on vacation on Padre Island—and Dr. W. W. Newcomb, head of the Memorial Museum, also is vacationing, and the third committee member, Rep. Don Cavness of Austin, is likely to be tied up with the Legislature for a while yet.

**Short Snorts**  
Sen. H. J. (Doc) Blanchard

of Lubbock is scheduled to be governor-for-a-day Friday (August 15).

Grain Sorghum Producers Association of Lubbock will hold a referendum in a 29-county High Plains-Panhandle area at which grain sorghum producers will vote on assessing themselves for promotion-research purposes and election of a board to handle funds.

County commissioners cannot pay the premium for insurance to protect the public against errors and omissions of county clerks, Atty. Gen. Crawford C. Martin has held.

Bill before the legislature would create a Texas medal of valor for moon explorers Neil Armstrong, Edwin Aldrin and Michael Collins.

Harrison and Panola county commissioners unanimously petitioned Governor Smith to withdraw all VISTA (Volunteers in Service to America) workers from their areas immediately.

Atheist Madalyn Murray O'Hair filed suit in federal court here to keep the astronauts from quoting the Bible or praying aloud over radio equipment used on moon-shot space flights.

E. L. Short of Tahoka has taken his seat in the House of Representatives after winning the runoff contest with Jim Clark of Andrews on August 5.

Dr. Robert Montgomery of Abilene was selected as assistant commissioner for special education and special schools by the Texas Education Agency.

More than \$1.3 million in state and federal grants have been accepted to extend services for Texas mentally ill and retarded.

## Two Minutes With the Bible

A Forgiveness That Can Never Be Rescinded

Centuries before Christ, the Psalmist said: "If thou, Lord, shouldst mark iniquities . . . who shall stand? But there is forgiveness with Thee . . ." (Psa. 130: 3,4).

It is doubtful whether the Psalmist understood the basis upon which a just God, through the ages, has so graciously forgiven sins, but this has since been explained in the epistles of Paul.

There we read: "God for Christ's sake hath forgiven you" (Eph. 4:32). But this is only part of the truth, for God forgives sinners, not merely because Christ desires this, but because Christ paid for their sins and purchased their redemption. Thus Eph. 1:7 declares: "In (Christ) we have redemption, through His blood, the forgiveness of sins, according to the riches of His grace."

And thus Paul could proclaim to his hearers in the synagogue at Pisidian Antioch: "Be it known unto you, therefore, men and brethren, that through this Man is preached unto you the forgiveness of sins."

Obviously such forgiveness can never be rescinded, for it is based upon the full and complete payment of our whole debt of sin by "the precious blood of Christ."

Sad to say, many people do not feel they need forgiveness, for they have not seen themselves as they truly are in the sight of a holy God, but those who are conscious of their sin and are willing to say with the prodigal son: "I have sinned," may experience the wonderful peace and joy of sins forgiven by faith in Christ who paid sin's penalty for us.

Over 3,442,000 thefts were reported to the police in 1968 with an average loss of \$100. Total loss exceeded \$344 million.

Let's face it.  
All is not perfect in this land  
of ours.  
America has taken some  
lumps and quite frankly it hurts.  
But maybe we should step  
back and take a long hard look  
... take inventory of how we  
are and how we got here.  
Maybe we should inspect our  
brighter side as well as some  
of our ills.  
And maybe, just maybe, we'll  
come out thinking this country's  
good side far overshadows  
its bad.  
Then maybe we'll start to do  
something to make it better.  
Rather than knocking it, which  
ends up making it worse.

Now comes the big question.  
What can you do? You're  
only one little individual among  
over 200 million people. How  
can you help?  
For one thing, you might  
think about investing in your  
country. Showing your faith in  
its future.  
That's exactly what you do  
when you sign up to buy U. S.  
Savings Bonds. You're simply  
buying a share in America.  
You're also socking away  
some money for yourself.  
Money that grows at a guaran-  
teed rate, to pay you back \$4  
at maturity for every \$3 you've  
saved.  
Of course, Savings Bonds are  
not going to cure all our head-  
aches. But they'll help to pro-  
vide the economic strength we'll  
need for the job.  
And at the same time, they  
can cure a lot of your financial  
headaches in the years to come.  
Any way you look at it, they  
make good sense.  
And that's just  
what we need in  
this country  
right now.

If they're lost, stolen, or  
destroyed, we replace 'em.

The law also places the responsibility with the Texas Department of Public Safety to certify breath testing equipment and persons authorized to administer breath tests.  
Consistent with its policy of assisting local authorities whenever possible, the DPS will offer at least three schools to train city and county officers in operation of the Breathalyzer. These schools, which will be conducted at the Law Enforcement Academy in Austin, will be limited in enrollment to key personnel from localities which now possess, or plan to obtain, breath testing instruments.  
Currently, the DPS is utilizing breath testing equipment in a voluntary program. The Breathalyzer instruments are located at central points in some 90 counties, and are operated by DPS officers who have completed an intensive training course. The instruments are checked and serviced weekly by qualified DPS chemists.  
"With the advent of the new law, we hope to obtain at least one breath testing instrument for each county, and plan to train additional personnel in their operation," Speir noted.

### "Implied Consent" Law Explained

Part 2 of 5 Parts:  
THE IMPLIED CONSENT LAW

Austin—Colonel Wilson E. Speir, director of the Texas Department of Public Safety, said this week that the state's new implied consent law which becomes effective September 1, 1969, gives law enforcement a much-needed weapon to combat drunk drivers.  
"Depending on area, drinking drivers figure in 40 to 50 per cent of the fatal rural traffic accidents in Texas," Speir said. "This is especially significant when you consider that traffic mishaps claimed 3,481 lives in the state last year."  
Under terms of this law, a motorist is "deemed to have given consent" to a breath test if arrested for any alleged offense arising out of his actual operation or physical control of a motor vehicle while under the influence of intoxicating liquor.  
If the suspect refuses the breath test, the officer certifies this fact in an affidavit, together with his probable cause for stopping the person, to the Department of Public Safety. This affidavit, when it reaches the DPS, forms the basis for a petition filed by the Department in the corporation or justice court of the county of residence of the person refusing the test to determine if the officer had prob-

able cause for thinking the person was driving while intoxicated.  
Should the judge find the officer had probable cause to arrest the person for driving while intoxicated, the Department of Public Safety, acting on the court's finding and the officer's sworn statement that the subject refused the test, suspends the subject's driver license for the period set by the judge. The suspension, which may run for as much as one year, is subject to appeal to a higher court.  
The implied consent law allows the person detained the right to have a test of his blood alcohol taken by his own physician, qualified technician, chemist or registered professional nurse, if taken within two hours after his arrest.

**Annual FBI Report Says Crime Shows Big Jump in U. S.**

Attorney General John N. Mitchell last week released the FBI's Uniform Crime Reports—1968, a detailed nationwide summary of police statistics made possible by the voluntary cooperation of local, county and state law enforcement agencies.

**Volume and Trend**  
According to FBI Director J. Edgar Hoover, there were almost 4.5 million serious crimes committed in the United States in 1968, a 17 per cent increase over 1967.

The number of violent crimes exceeded 588,000, a 19 per cent rise over the previous year. Crimes against property totaled more than 3,877,000 offenses, up 17 per cent over 1967.

According to the FBI's Uniform Crime Reports, in 1968 robbery increased 30 per cent, forcible rape 15 per cent, murder 13 per cent, and aggravated assault 11 per cent over 1967.

Specifically with respect to the property crimes, larceny \$50 and over in value increased 21 per cent, auto theft 19 per cent, and burglary 14 per cent.

Mr. Hoover pointed out that the trends in serious crime were consistent in all areas and geographic regions. Suburban communities continued an upswing with a 17 per cent rise in the volume of crime. The large cities were up 18 per cent and the rural areas 11 per cent. The Northeastern States recorded a 22 per cent increase, the Western States 18 per cent, Southern States 16 per cent, and the North Central States registered a serious crime increase of 13 per cent over the previous year.

From 1960 to 1968 the volume of serious crime in the United States climbed 122 per cent, with the violent crimes up 106 per cent and crimes against property up 124 per cent.

**Crime and Population**  
According to the FBI Director, in 1968 there were 2,235 serious crimes per 100,000 population in the United States, a 16 per cent increase in the crime rate over 1967.

The violent crime rate in 1968 was 295 victims per 100,000 population, up 18 per cent. The property crime rate was 1,940 victims, up 16 per cent over 1967.

Since 1960 the serious crime rate, or the risk of becoming a victim of crime, has nearly doubled. From 1960 to 1968 the volume of crime has risen 122 per cent and the United States population 11 per cent. Thus, crime continues to outstrip population growth 11 to 1.

The FBI Director observed that the sharply rising crime rates in the 1960's are most significant with respect to the rapid rise in violent crime over the last several years. He expressed greatest concern with the fact that arrests for the young age population have outstripped their population group increase more than four to one during this period. He noted that this was particularly true in connection with arrests for violent crimes in our large metropolitan population centers.

In summary the FBI Director stated, "There is no comfort in the cold statistics contained in Uniform Crime Reports—1968. While it is true the crime volumes of the 1960's are a disgrace to our way of life, they represent the acts of a relatively small minority. In this connection, it is well documented that the recidivist plays a large part. Continuing increases in our young age population, in urbanization, and social conflict are realities. Any crime reduction must depend on our young people, the vast majority of whom are honest and decent citizens. They, however, cannot afford to be indifferent to the crime problem but must actively dissuade more of their peers from criminality."

**Advertising Advice . . .**  
By a Banker  
in  
American Bankers' Magazine

"No business man in any town should allow a newspaper published in his town to go without his name and address being mentioned somewhere in its columns. This does not mean you should have a whole, half or even a quarter page ad in each issue of the paper, but your name and business should be mentioned, even if you do not use more than a two-line space.

"A stranger picking up a newspaper should be able to tell what business is represented in a town by looking at the paper. This is the best possible town advertising. The man who does not advertise his business does an injustice to himself and to the town. The man who insists on sharing the business that comes to town, but refuses to advertise his own, is not a valuable addition to any town . . . The life of a town depends on the live, wide-awake and liberal advertising man."

The Eudale Olivers visited Mrs. Mamie Shultz in Vernon several times last week.

## Traffic Accidents in July Cost Texans \$67 Million

Traffic accidents in the Lone Star State during the past month picked the pockets of Texans to the tune of over \$67 million, the Texas Safety Association reported last week.

While preliminary reports indicate that rural fatalities, injuries and property damage cost Texans some \$25 million in the past four weeks, urban accident costs rang up a staggering \$42 million tab.

When all reports are in, the Safety Association further reported, July automobile crashes on Texas' streets and highways are expected to put traffic costs for the first seven months of the year over \$475 million.

Costs of accidents are based on a formula supplied by the National Safety Council.

Noting an 18 per cent increase in fatalities and an 11 per cent increase in accidents on Interstate Highways in Texas during the past month, as compared to a similar period in July, 1968, the Safety Association called on the state's drivers to observe the following rules when traveling on high-speed roads:

\* On entering a freeway, pick up speed quickly to match the flow of traffic.

\* Choose a lane and stay with it. Signal well in advance if you must switch lanes.

\* Keep right if you have to drive slower than other traffic.

\* Leave plenty of space between your car and the vehicle ahead for emergency stopping. At 60 miles per hour, you need at least 450 feet to stop safely on dry roads.

\* If you have car trouble, get your vehicle well off the highway to make repairs.

\* Watch for changes in speed limits. Decrease speed when driving at night.

\* On long drives, take a break in driving every hour. Many safety rest areas are provided along Texas highways.

\* Plan exits in advance. Decrease speed sharply once you are on the exit ramp.

## G. I. Roll Call Has Passed the 27 Million Mark

The GI roll call has passed the 27,000,000 mark.

In announcing the new total of enrollees, Jack Coker, manager of the Veterans Administration regional office in Waco, said that Vietnam veterans discharged to August 4, raised the ledger count to the highest peak in history.

In reviewing the veteran population, the VA manager noted that the average age of all 27 million veterans has increased to 44.3 years.

Broken down by wars, the average age of veterans on the active rolls are:

Spanish-American War (6,000 veterans) 90.3 years; World War I (1,647,000) 74.7 years; World War II (14,592,000), 49.7 years; Korean conflict (5,847,000 veterans) 40 years; and Vietnam era (3,169,000 veterans) 26.2 years.

Also on the VA rolls are 3,134,000 who served in the armed forces between the Korean conflict and Vietnam. Their average age is 30.7 years.

The totals above tops 27 million since some veterans served in more than one period.

While most of the nation's veterans have taken advantage of some rights during the 25-year history of the GI Bill, Coker pointed out, major participation was four million in education and another 7.5 million for on-the-job training.

Millions including many of those who received education and training benefits, also have received other benefits such as loan guarantees for purchases of homes, businesses and farms, and compensation or pensions.

The VA manager pointed out that Vietnam veterans who did not complete high school have an opportunity veterans of other wars did not, in that the VA will pay them a monthly subsistence while they earn their high school diploma. This does not reduce their entitlement for other educational or training benefits.

Complete information on GI Bill benefits is available at any VA office.

Armed robbery, 1964-1968, up 113 per cent, says the FBI.

## Social Security System Notes 34th Anniversary

This month, with over 24 million Americans receiving \$2.5 billion a month in social security benefits and 20 million people insured by Medicare, the Social Security Administration will celebrate its 34th anniversary, Mrs. Helen Rigdon, branch manager of social security in Vernon, said this week.

The anniversary is being observed with ceremonies and special displays in many social security offices throughout the country, as well as at the national headquarters in Woodlawn, Maryland, just outside of Baltimore. At the headquarters, an historical room is being opened this week showing mementos of the agency's history including the desk used by all the heads of the social security system since 1935.

When President Franklin D. Roosevelt signed the Social Security Act into law on August 14, 1935, he called it "the cornerstone of a structure which is being built but is by no means complete."

"The original law," continued Mrs. Rigdon, "provided for old-age benefits to retired workers in industry and commerce only. Over the years, the social security program has expanded so that it now provided financial protection for virtually everyone in the country."

The first benefits to retired workers were paid in 1940. By that time amendments to the law had been passed to provide additional benefits for the dependents and survivors of insured workers. In 1950 and thereafter, cover-

age was extended to millions of other people who were not covered under the original law—farm workers, state and local government employees, domestic workers, ministers, self-employed doctors, professionals, and members of the armed forces.

In 1956, disability protection was added to cover the thousands

of people who could not work because of serious illness or injury.

In 1965, Congress created Medicare to help people 65 and over pay hospital, doctor and medical bills. In just 3 short years Medicare has covered 17 million hospital stays of elderly people.

In 1967, still other changes made. Disabled widows became eligible for benefits at 50, previously 62. Disabled widows disabled before 31 needed no work to qualify for benefits. Children became eligible on mother's earnings record on same basis as on their father's.

Today's average monthly benefit to a retired worker is \$85, compared to \$63 ten years ago. Average benefit for a retired male is \$166 a month, compared to \$111 ten years ago.

Police solution rate decreased 7 per cent in 1968 when compared to 1967, the FBI says. Drop in clearance rates appears in all crime classifications in all geographic areas. Since the police solution rate has declined 32 per cent.

Purcell Moves Dallas Office into His Own District

U. S. Rep. Graham Purcell had to move his Dallas office 6 miles north and 28 stories up to get it in his own district.

The move—made about the middle of June—was from the old Santa Fe Building at 1114 Commerce in downtown Dallas to the plush Preston Tower apartments at 6211 W. Northwest Highway.

The congressman was able to take the new quarters on the 28th floor of the crescent-shaped luxury building after the Federal Housing Authority paid \$9.3 million to the New York Life Insurance Co. at a foreclosure sale earlier this summer.

An FHA official said the government will attempt to sell the 3-year-old building, perhaps within a year. The FHA had guaranteed the loan to the mortgagee, New York Life.

Purcell was glad to make the move because his office is now north of Northwest Highway, the southern boundary of the portion of his district in Dallas County.

"The new location makes us a lot more accessible to the congressman's North Dallas constituents," said William T. Hanes, Jr., Purcell's executive assistant. "Business has picked up lately because our people can get to us more easily."

Hanes said about 32 per cent of Purcell's constituents live in Dallas County. The district stretches from Dallas through Wichita Falls, Purcell's home, all the way to Childress in the Panhandle.

The legislator's assistants in Dallas, besides Hanes, are Mrs. Ellen Schaeffer, Lee Halford and Peggy Battles.

A spokesman for the manager-broker running the apartment house for the FHA said the goal is to retain a preponderance of private residents in the building, rather than attempt to rent to commercial interests or fill up the space with government offices.

Hanes said no decision has been made yet on whether Purcell's office will remain in the high-rise apartment once the property passes back to private ownership.

TANE Comments on Liquor, Beer State Taxes

Beer and liquor taxes would have to be more than doubled just to pay for the cost of alcohol-related crime, according to a report by Texas Alcohol Narcotics Education (TANE).

The report on "Alcohol-caused costs, compared with taxes paid in by beer and liquor," says that 76 per cent of crime in Texas is alcohol-related. Crime costs, police, courts, prisons, etc., cost the State \$150 million a year. Alcohol beverages' share of that, 76 per cent, would be \$114 million. The industry pays in approximately \$51 million in taxes, less than half that figure, according to the TANE report.

The report further states that alcoholic drinks cause 62 per cent of admissions to state mental institutions; 38 per cent of financial loss due to auto accidents; 93 per cent of the cost of picking up throw-away drink containers littering Texas highways, and that on-the-job alcoholism costs Texas industry \$350 million a year.

Using the figures furnished by TANE, some 150 "Committees for Fair Taxation," located across Texas, are asking that beer and liquor taxes be increased, and that they be put under the sales tax. Texas beer taxes of \$4.30 a barrel have not been increased in 14 years. Liquor taxes of \$1.68 a gallon have not been increased in 10 years. Both are exempt from the sales tax.

TANE is a non-profit organization, supported financially by Texas churches and by individual contributions. Results of its research into alcohol and drug problems are made available to the public. The organization's programs include publishing books for students and teachers, production of film strips, a free motion picture lending library, public school lectures and demonstrations, a 100-man speakers bureau, legislative information, research, and an annual seminar on alcohol and narcotics for teachers and church leaders held at Baylor University in Waco.
