# Why not put your name on this mail box?

Just about the only thing that hasn't changed in the country is the rural mailbox. People who once fled from muddy roads, oil lamps, coal and wood heaters and man-powered pumps are now dreaming wistfully about a home in the country.

Why? Because all the comforts and conveniences are there, including freedom from the hustle and bustle of city traffic and monoxide gas. But, the most important of all is a dependable supply of low cost electric power to pump water for the kids' shetland pony and to irrigate mother's flower garden.

#### Texas Has Over 1,000

Football Teams Texas is the first and only state

to have 1,000 or more high schools playing football. This number was reached during the 1968 school year. In 1919 there were two

classifications-B and A. After their district or county play, which consisted of four to six games, a champion was declared. The champions of both B and A proceeded in the playoffs, but not in separ-ate divisions. The two classes were

merged together in one with an eventual single state champion. Presently there are seven classes

of football schools: six-man, eight-man, B, A, AA, AAA, and AAAA. B, six-man and eight-man football teams play to a regional championship. Classes A through AAAA
