Closed July 5th

The social security office in Vernon will be closed on July 5 in observance of the July fourth holiday.

Edward Howard Begins New Duties As Foard Sheriff

Edward Howard, who was appointed as Foard County Sheriff, tax assessor-collector to replace Dan Callaway, who resigned, began his new duties here Thursday morning, July 1. Mr. Howard moved to Crowell Wednesday of last week.

Mr. Howard, a Foard County native and son of Mrs. E. D. Howard of Crowell, is a 1957 graduate of Crowell High School. Following three years of Army service, he moved to Odessa where he has been employed in police and detective work prior to receiving the sheriff's appointment here.

In addition to the years of police work experience, Howard took 140 hours of basic police training at the Odessa Police Academy, spent a month in Dallas in 1970 at a police supervisor's school sponsored by the Southwest Legal Foundation; took police science courses at Odessa Junior College; attended police school at Texas A&M University and has 120 hours training in narcotics work. Howard has received his advanced police certification certificate.

He said this week that he expects to announce his selection for his deputy in the near future.

Paul Stapp Will Study in Germany

Paul A. Stapp, son of Dr. and Mrs. Walter Stapp, will be one of three Texas Tech University students studying abroad at the University of Bonn, Germany, this fall.

Participation in the program, aimed at enabling well-qualified students "of serious academic purpose" to improve language proficiency while gaining an understanding of German culture, is limited to a total of just 20 students from selected universities across the nation.

Austin, Tex.—Gov. Preston Smith, in an unprecedented veto action, turned the job of re-writing the entire 1973 state budget to a special legislative session next year.

Smith took the axe to \$3.1 billion in state spending which he found "unnecessary and unwarranted" for the second half of the biennium. He announced his decision on a statewide television program and said he will submit to the lawmakers, before September 1972, a new 1973 budget proposal which will require no new taxes.

Smith made it clear that a 1972 special session is inevitable, anyway, because the Legislature did not appropriate welfare funds for the second year.

Governor's action may accomplish the following regardless of whether a new tax bill can be avoided next year (Texas Research League estimates a \$474 million biennial tax bill will be required in the 1972 special session):

—Legislators will have to take a sober second look at spending items in an election year when many are faced with general election contests.

—Fact that little additional federal aid is available for welfare spending, in spite of predictions by Smith, Lt. Gov. Ben Barnes and others, will be partially obscured, since the special session will not be confined to welfare but opened to the entire area of government spending for 1973.

—Smith declined to reveal his future political plans but left dangling the prospect of a third term race.

Governor claims the public response has been almost 100 per

cent favorable to his historic veto. Lieutenant Governor and House Speaker Gus Mutscher pledged cooperation.

CITIES COLLECT \$35.5 MILLION—Texas cities which levy a one per cent local option sales tax received nearly \$35.5 million from January-March collections from sales within their boundaries.

Collection for the first quarter of 1971 compared with \$39.6 million for the final quarter of 1970 and \$36.5 million for the third quarter of 1970.

More than 400 cities levy local option sales taxes. Money goes to the state comptroller and is handed back to cities of origin. During the quarter ending March 31, the state retained \$719,756 as its service fee.

INSURANCE RATE HIKE ASKED AGAIN—Auto insurance companies were expected to request rate increases of more than 25 per cent at a hearing before the State Insurance Board June 30. Companies six months ago were granted a 14 per cent increase, but were far from happy and insisted on more. They wanted a 27 per cent boost.

A new law permits motorists to purchase deductible liability insurance if they are willing to assume the risk of the first \$250 damage their car may do to property. Another new act gives the State Insurance Board direction to promulgate rules for cancellation and non-renewal of policies.

Marvin Myers Attends Electrical Workshop in June

Marvin Myers of Crowell was among those attending the ninth annual Texas Education Agency-West Texas Utilities sponsored electrical workshop at WTU Lytle Shores in Abilene June 17 and 18. Vocational agricultural teachers from 17 counties of Area 4 registered for the two-day sessions.

Curly Hays, WTU farm and ranch representative, said that the 1971 workshop featured new equipment, including special wiring boards for teachers to take back with them for use in classrooms.

Registration got underway on Wednesday at 9 a. m. and in addition to the workshop sessions, activities included a barbecue, breakfast and lunch on the terrace of Lytle Shores and an evening social time. Teachers, instructors and their wives were guests of West Texas Utilities, with many of them housed at WTU Lytle Shores overnight.

Instructors were Bob Jaska and W. E. (Bill) McCune, assisted by WTU officials. Jaska of College Station is head of adult education specialists of the Texas Education Agency and holds a Phd degree in electrical engineering. McCune is with the agricultural engineering department of A&M, a position he has held for 13 years. Prior to that time he served 15 years with Central Power & Light Company of Corpus Christi.

Workshop instruction is designed to keep vocational agricultural instructors informed about the latest trends and equipment for home and farm use. Courses of study covered control devices, remotes, relays, farmstead wiring, motor repair, maintenance and protection and related subjects.

Enrollment in vocational agricultural classes in Area 4 has shown an increase in 17 of the 19 counties represented at the workshop, Hays said.

Four of the vocational agricultural teachers registered have attended all of the TEA-WTU sponsored workshops. Each stated that they found the instructions given at the workshop sessions extremely valuable for use in classroom teaching, Hays said.

Ed Lehman Jr. Tells Rotarians of Plans for Lake on Pease River

Ed Lehman, Jr. of Vernon was speaker for the Rotary Club's meeting Wednesday, June 23, and he spoke on the possibility of a fresh water lake on Pease River from which water could be obtained for irrigation purposes in this area.

Mr. Lehman has been extremely active in pushing this project and stated last week that "things are looking real good." He believes that the U. S. Army Corps of Engineers will find the project feasible—that is, its benefits will outweigh costs. The lake would give flood protection for the area, irrigation, domestic water, and recreation facilities, Lehman said.

In his talk, Lehman referred frequently to a 1927 study made by the Pease and Red River Valley Irrigation Association, which stated that the lake—which has been under consideration since that long ago—would contain a total of 390,000 acre feet of water and cover a total of 11,700 acres of land. The dam would be 90 feet high and 1.6 miles long.

Mr. Lehman was introduced by W. F. Statser. Other visitors attending were F. B. Thomas of Crowell, Miss Cathy McLain of Crowell, James Stubblefield of Quanah and Ross Hendrick of Vernon. Miss McLain is a former pianist for the club.

Warren Haynie, president, paid special tribute to Walter Driver, who has published the club bulletin this past year.

TSTA Gets 8 New Laws Passed

The Texas Legislature passed 8 of the 11 bills proposed by the Texas State Teachers Association:

Teacher retirement — signed Feb. 25 for immediate effect. . . Provided an extra \$737,000 per month in retirement benefits for 33,000 retired teachers, beginning March 1 . . . Gave all retired teachers at least 10 per cent increase in benefits, some receiving larger increases . . . Increased benefits for teachers retiring this year and later.

Duties of principals — signed April 1, for immediate effect . . . Sets forth duties of principals . . . Prevents erosion of their responsibilities . . . Protects them in lawsuits related to their performance of duty.

Loitering on school property — Signed April 26, for immediate effect. Prohibits loitering on school property. Makes it a misdemeanor punishable by a fine of not less than \$25 or more than \$200. Defines "school property" as grounds of any public school or any grounds or buildings used for school-sponsored assemblies or activities.

School disruption — Signed on May 18, for immediate effect . . . Prohibits disruption of the education process on school property or on public property within 500 feet of school property. Defines "school property" and "public property." Makes violation of the law a misdemeanor punishable by a fine of not more than \$200. Defines "conduct which disrupts the educational activities of a school" as including: 1. Emission by any means of noise of an intensity which prevents or hinders classroom instruction; 2. Enticement or attempted enticement of students away from classes or other school activities which students are required to attend; 3. Prevention or attempted prevention of students from attending classes or other school activities which students are required to attend.

Proprietary School Bill — Signed June 4, effective 90 days after end of session. Gives the State of Texas authority for licensing and regulation of private vocational schools and their solicitors. Designed to eliminate fly-by-night proprietary schools which might misrepresent the facilities and programs they offer.

Personnel duties — Signed June 9, effective 90 days after end of session. Requires local boards of education to prescribe duties of their professional school personnel. Protects school personnel in lawsuits arising out of incidents they might be involved in while performing their official duties as educators.

Teacher certification reciprocity — Signed June 9, effective 90 days after end of session. Provides that an out-of-state teacher holding a valid teaching certificate from another state—earned in a properly accredited institution of higher education—will be eligible to receive from the Texas Education Agency an appropriate Texas teaching certificate. This certificate will be issued with the provision that the teacher shall remove the requirement for three semester hours of Texas history within 12 months.

Use of CTU Allotment—Signed June 9, effective 90 days after end of session. Provides that the allocation of professional classroom teacher units (CTU's) within local school districts shall be made on the same basis as it has been done for the last 20 years. Allows districts to include their highest-paid personnel (with advanced degrees and longest service) under the CTU allocation program (An attorney general's opinion had invalidated this long-standing allocation policy. This bill restored it and prevented the loss of an estimated \$5 million annually for the schools of Texas.)

A drive to complete Foard County's quota of \$150 in the campaign to raise \$10 million in the United States which will be used by the USO is now underway.

Edwin Edgin left Monday morning for Panhandle where he will be for several weeks working in the wheat harvest with J. H. Lanier, Jr., who is operating a combine in West Texas.

Mr. and Mrs. Karl ten Brink returned to Crowell Sunday after taking a trip to Old Mexico and to points in Texas following their marriage in Houston last week.

Buster Davidson arrived at home from Fort Sam Houston in San Antonio Wednesday. Buster was injured in an automobile accident several months ago and has been discharged from the Army.

Vegetable Research Center at Munday to Be Dedicated July 16

Dedication of the new quarter-million dollar Texas A&M Vegetable Research Center at Munday will be held on Friday, July 16.

The modern brick facility is located at 811 North Ivy Street in the northeastern city limits of Munday, and is one of the best equipped facilities in the state.

The dedication ceremony will get underway at 10 a. m. State officials included on the program will be Senator Jack Hightower of Vernon, State Rep. W. S. "Bill" Healy of Paducah, Speaker of the House Gus F. Mutscher, John C. White, Commissioner of Agriculture, a host of Texas A&M officials, including Dr. Jack Williams, president; Clyde Wells, chairman of the board of directors; Dr. H. O. Kunkel, Dean of Agriculture; Dr. John E. Hutchison, director of the extension service, and Dr. M. E. Bloodworth, head, Soil and Crop Sciences.

After the formal dedication ceremony, tours of the building facilities, the 10-acre research site, the 40-acre research farm, and the site of the water quality study will complete the day's activities.

Airplane service was begun between New York and Chicago in 1919.

From the News . . .

THIRTY YEARS AGO

News items below were taken from the Thursday, July 3, 1941, issue of The Foard County News:

Harvest in Foard County was again stopped by rains this week, but 46,529 bushels of wheat harvested brought the total for the 1941 crop up to 306,172 bushels.

Born to Mr. and Mrs. Joe Fox, a boy, Donald Roy, June 30.

The summer term of Crowell High School ended today with two students completing their work for their high school diplomas, according to Miss Mildred Cogdell, who has been the instructor during the term. Those who received their diplomas were Mrs. Glen Goodwin and Mrs. Coy Ward. Others who attended summer school were Glendon Hays, T. L. Owens, George Cates, Mary Evelyn Edwards, Jean Orr, Alton Roark, Joyzelle Tysinger, Donald Ward, Sammy Gene Mills, Ann Favor and Virginia Higgs.

Cotton farmers of Foard County who are issued red marketing cards because they have overplanted their 1941 cotton acreage allotment will be required to pay a penalty on the excess cotton they market equivalent to one-half the basic loan rate for cotton, A. V. Sheppard, secretary of the Foard County ACA, has announced.

Governor W. Lee O'Daniel came from behind in a most sensational manner this week to win the seat of U. S. Senator from Texas when late returns from the special election Saturday from rural sections of the state gave him a 1,095 vote margin over Lyndon Johnson.

The total rainfall for Foard County for 1941 was put well over the 31-inch mark by the rains which totaled one and one-half inches on Tuesday morning and afternoon, according to the records at the Crowell State Bank. May rainfall was 12.25 inches.

Coke R. Stevenson of Hill County will probably become the 33rd governor of Texas as final tabulations from the Texas Election Bureau indicate that Gov. W. Lee O'Daniel will go to Washington as Senator from this state. Mr. Stevenson is now serving his second term as lieutenant governor of Texas.

A drive to complete Foard County's quota of \$150 in the campaign to raise \$10 million in the United States which will be used by the USO is now underway.

Edwin Edgin left Monday morning for Panhandle where he will be for several weeks working in the wheat harvest with J. H. Lanier, Jr., who is operating a combine in West Texas.

Texas Emerges as International Industrial Power

Texas emerged as an international industrial power at a recent "Invest in the U. S. A." conference in Munich, Germany, through the efforts of Texas Industrial Commission officials. Sponsored by the German Institute of Economic Affairs, the conference was prompted by a growing demand for expanding German industry to the United States. After presenting the Texas industrial story at the meeting, Texas Industrial Commission executive director Jim Harwell and Jim Havey, director of international trade, expressed satisfaction at the German industrialists' positive response. "They are shying away from the Eastern seaboard because Texas has the ports, resources and growing room industry requires," Harwell said. "We are convinced that Texas is becoming a front-line international trade power."

More than 200 West German and English industrial leaders attended conference sessions exploring U. S. investments, legal procedures, taxes and other corporate areas. Export development came under conference scrutiny, and the Texas team assessed the German market as "virtually wide open."

"The expanding German economy is ripe for importing Texas products," Harwell said. "Texas manufacturers are limited only by their vitality and ingenuity."

Harwell said a trade mission to cement West German industrial contacts has reached the drawing board. Similar commission efforts in Mexico and Australia netted new industry for the state while expanding its export markets.

The Screwworm Situation

Texas livestock producers recorded nine screwworm cases during the two-week period of May 30-June 12, compared to six cases reported during the corresponding period a year earlier. Larvae samples submitted for identification at the Mission lab have been declining in recent weeks, and this is causing concern for program officials. Livestock producers are urged to submit samples of suspected worm cases for positive identification.

Total of 48 Deaths Forecast in Traffic Accidents Over July 4th Week End

Colonel Wilson E. Speir, director of the Texas Department of Public Safety, this week estimated that traffic accidents over the long July 4th holiday week end will claim 48 lives in the Lone Star State.

In addition, Speir said it is expected that between 6 p. m. Friday and midnight Monday, July 5—the official holiday week end—these same collisions will result in hundreds, perhaps thousands or more injuries, and monetary loss running into the millions of dollars.

The DPS Director, in a special appeal, said, "We urge Texans to reduce the toll by obeying the laws of safety, driving defensively, avoiding fatigue while driving, and, above all, by not drinking while driving. The ultimate solution to lessening the toll obviously lies in the hands of each driver."

Speir said as many DPS patrolmen would be on duty as possible, including some from uniformed services other than the Highway Patrol. He noted that many local law enforcement agencies will place similar special emphasis during the holiday period.

The Department of Public Safety will also conduct its "Operation Motorcade" program during the holiday which, in cooperation with local police agencies and the news media of Texas, attempt to focus public attention on accident hazards through the rapid compilation and release of information on fatal traffic mishaps during the period.

"We are hopeful," Speir said, "that all street and highway users will make the slogan 'Drive Friendly' a reality during the July 4th week end."

Men Can Join Armored Divisions

FORT HOOD, TEX. — It is now possible to enlist in the Army for assignment to either the 1st or 2nd Armored Divisions. It was announced by Maj. Gen. William R. De Sobry and Maj. Gen. Wendell J. Coates, commanding generals of the two Ft. Hood-based units.

Under the enlistment plan, young men who sign up for the 1st or 2nd Armored can spend up to 20 months of their first three years of service with the unit.

Enlistees will take basic and advanced training at one of the Army's training centers. Upon completion of advanced training, the enlistee will either join the 1st or 2nd Armored Division, or go overseas for a short tour. Those who go overseas will, upon completion of the short tour, rejoin the unit for which they enlisted.

This enlistment opportunity enables a young man to pick the unit, and location where he would like to spend what could be a major portion of his enlistment.

Young men who join the 1st or 2nd Armored Divisions will become members of two of the Army's most colorful units. The 1st Armored was the first tank division organized in the U.S. Army. The 2nd Armored had one of America's most famous generals as its first commander — Gen. George Patton.

TEXAS HANDLE WITH CARE

ARCHITECTS' DRIVE—This symbol is the identifying mark supporting the statewide public education campaign on environmental opportunities announced by the Texas Society of Architects, TSA President Tom Bullock, Houston, said his group intends to encourage the participation of all Texans in a campaign to motivate active concern for the environment. This symbol will remind Texans to make it a habit to ask this question: "Am I handling Texas with care?"

Two Minutes With the Bible

What Shall We Do?

When John the Baptist appeared as Christ's forerunner, God's chosen people had lived under the Law of Moses for 1500 years but had not kept it. Hence John's call to repentance and baptism for the remission of sins (Mark 1:4).

John was in earnest, too, for when the thoughtless multitude came to him to be baptized, he sent them back, saying: "Bring forth fruits worthy of repentance" (Luke 3:7-8). Their lives were to be changed and they were to show it.

When the people asked: "What shall we do, then?" he told them to live for others rather than for self. (Luke 3:10-11). When the tax collectors asked, "What shall we do?" he demanded that they stop cheating the tax payers and live honestly (vers. 12-13). When the soldiers asked: "What shall we do?" he told them to forbear violence, false accusation and bribery (ver. 14). Clearly, righteousness was demanded under John's message. His hearers were to repent, be baptized and bring forth the fruits of true repentance.

When our Lord appeared, He proclaimed the same message as John (Matt. 3:1-2; 4:17). A lawyer asked: "What shall I do to inherit eternal life?" and He replied: "What is written in the Law?" When the lawyer recited the basic commands of the law, our Lord answered: "This do and thou shalt live" (Luke 10:25-28). God was still demanding righteousness. They were all under the law (See Gal. 4:4; Matt. 23:1-2; etc.).

Some suppose this was all changed after Calvary by the "Great Commission." This is not so. When, at Pentecost, Peter's hearers were convicted of their sins and asked "What shall we do?" Peter commanded them to "repent and be baptized... for the remission of sins" just as John had done (Acts 2:38). He did not tell them that Christ had died for their sins.

It was not until later that St. Paul was sent to proclaim the death of Christ as the payment for sin. He was the first to say: "But now the righteousness of God without the law is manifested... We declare His righteousness for the remission of sins" (Rom. 3:21-26). When the Gentile jailer fell on his knees and asked: "What must I do to be saved?" Paul replied: "Believe on the Lord Jesus Christ and thou shalt be saved" (Acts 16:30,31). This is God's message for sinners today, "for we have redemption through Christ's blood, the forgiveness of sins according to the riches of His grace" (Eph. 1:7). "Believe on the Lord Jesus Christ and thou shalt be saved."

Pickup Damaged In One-Vehicle Mishap Friday Night

A one-vehicle accident about 2 mile west of Thalia last Friday night, caused about \$300 damage to the 1966 Chevrolet pickup owned and driven by a Clovis, N. M. resident. There were four occupants in the vehicle, and Foard County Sheriff Edward Howard, who investigated the accident, said no one was seriously injured in the accident.

JUDGE TOM DAVIS

Judge Tom Davis Named to Criminal Appeals Post

New Appointment To Be Effective September 15th

District Judge Tom Davis of Vernon Wednesday of last week was appointed effective Sept. 15 as one of two commissioners of the Texas Court of Criminal Appeals. The announcement was made in Austin by John F. Onion, Jr., presiding judge of the Appeals Court.

Judge Davis, younger brother of Foard County Attorney Foster Davis of Crowell, and his family will move to Austin as he takes his new post, which has responsibilities that are co-extensive with those of the five elected appellate judges. Commissioners also receive the same salaries.

Other members of the Court of Criminal Appeals are Judges Leon Douglas, former 46th District Attorney, and W. A. Morrison, Truman E. Roberts and Wendell A. Odum.

A second commissioner, Carl E. F. Dally of Houston, an attorney, was also appointed at the same time Judge Davis was designated.

Authority to make the appointments was provided by act of the regular and special sessions of the 62nd Legislature and was designed to assist the five judges in writing appellate opinions.

Judicial records reveal that the Texas Court of Criminal Appeals has the heaviest case-load of any state appellate court in the nation.

Judge Davis, 49, has been district judge of the 46th Judicial District, comprised of Foard, Hardeman and Wilbarger counties, for 12 years.

Prior to that time, he was county attorney of Wilbarger County. He is a graduate of the University of Texas School of Law, where he obtained his LL.B. degree and was licensed to practice law in 1946. He attended North Texas State University before entering law school.

Judge Davis, associated with Vernon attorney John Storey, engaged in private practice from June, 1946, until Jan. 1, 1949, when he took office as county attorney, a post to which he won successive re-election until his election as district judge.

On the district bench, Judge Davis presided for a number of important cases. Probably the most widely publicized was the litigation in which the heir to half interest in the W. T. Waggoner estate was determined.

He recently served as faculty adviser at the National College of State Trial Judges at Reno, Nevada.

Judge and Mrs. Davis, the former Jeannine Brown, have three children: Leslie Ann 18, Tommy 11 and Mark 9.

Because of residence requirements of two years within the county for the appointment of a successor to Judge Davis, only attorneys presently practicing within Foard, Hardeman and Wilbarger counties will be eligible for consideration by Gov. Smith.

Foard County has two attorneys: Foster Davis and Leslie Thomas. Attorneys in Hardeman County are Rex Sullivan, Lark Bell and Jim Sowell. Attorneys in Wilbarger county include Marvin C. Culbertson, Gene N. Heatly, Jack Hightower, Jim Hughes, John H. Mikkelsen, Bill Neal, Thomas A. Neely, Cleddie Palmer, Warren Pruitt, Curtis Renfro, Ney Sheridan Jr., James G. Souris and John A. Storey.

Vernon attorney Ney Sheridan, Jr. on Thursday night of last week was endorsed by the 46th Judicial District Bar Association to fill the position of district judge to be vacated by Davis.

District Bar president Jim D. Hughes said the endorsement will be communicated to Gov. Preston Smith "as being the recommendation of this Bar Association."

The governor may appoint to fill the unexpired term any attorney who has been a resident for

Social Security Pays Over \$47,000 a Month in Foard County

Social security benefits were being paid to residents of Foard County at a rate of \$47,000.00 a month at the close of 1970, Wayne Klipping, social security manager in Vernon, said Monday.

A benefit increase signed into law by President Nixon on March 17 raised the monthly rate of payment by 10 per cent for most of the 516 social security beneficiaries in Foard County, Klipping said. A small number of beneficiaries over age 72 who are not receiving regular social security case benefits received a 5 per cent increase.

The increased benefit amounts were made effective back to Jan. 1, 1971, and first checks in the new monthly rate reached beneficiaries on June 3, Klipping said.

Of the social security beneficiaries living in Foard County, 385 are retired workers and their dependents. Another 97 are receiving benefits as the survivors of workers who have died, and 27 are getting benefits as disabled workers or their dependents.

Total of 86 4-H Members Attend Annual Rally Day

A total of 86 4-H'ers attended the Foard County 4-H Rally Day held Thursday, June 24, at the community center in Crowell. Officers of the county 4-H Council, along with members of the Foard County Junior Leaders 4-H Club, were in charge of the activities for the day.

Jerry Martin and Pat Cates, chairmen of the county 4-H Council, were master of ceremonies for the various activities throughout the day. Cindy Wisdom, Trudy Bird and April Werley were in charge of registration.

For recreation, the 4-H'ers were divided into five groups and were led by Jerry Martin, April Werley, Cindy Wisdom, Trudy Bird, Remelle Marlow and Harold Myers.

Bob Berry, area plant pathologist, and Emory Boring, area entomologist, both with Texas A&M University, brought programs in their respective fields.

Sharla Haynie brought a program on citizenship and told about her trip to Washington, D. C., to the National 4-H Citizenship short course.

Serving on the planning committee for the Rally Day were the following 4-H'ers: Trudy Bird, Remelle Marlow, Pat Cates, Jerry Martin, Harold Myers, Cindy Wisdom and Joe Haynie.

After a barbecue supper, a vespers ceremony was given by the 4-H'ers, led by Jerry Martin, to conclude the 1971 Rally Day.

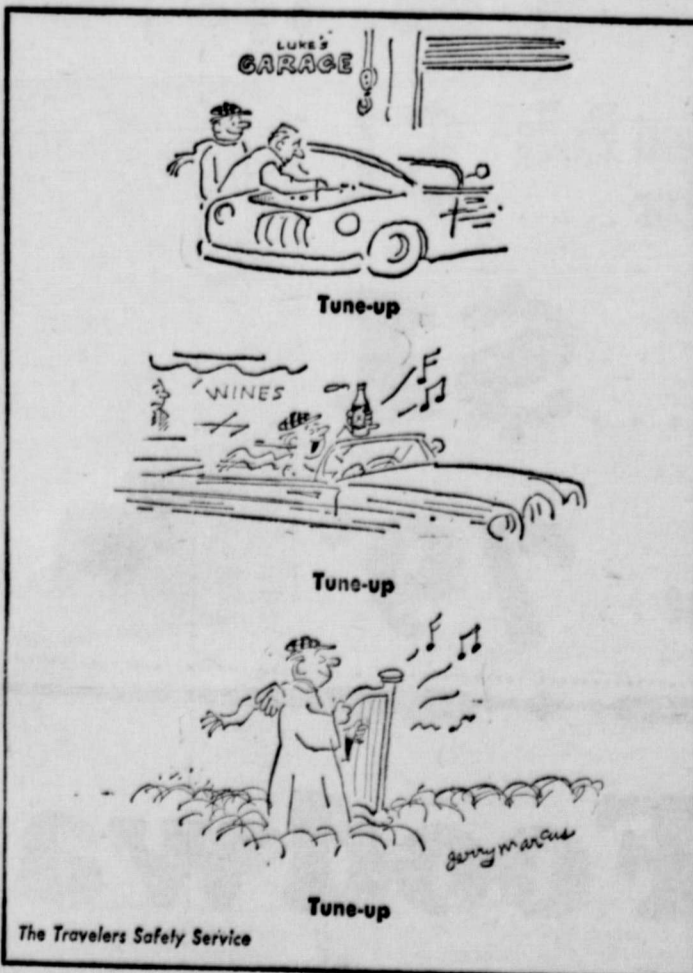

Baylor College of Medicine is the Houston area's leading institution in volume of research grants, with grant-supported projects amounting to \$16.3 million in 1970, according to the Houston Chamber of Commerce.

IN THE KITCHEN—Bright cotton fabrics give the kitchen a touch of springtime all year 'round. Flower-printed cotton in green, white, and black is used for short draperies and decorative panels on cabinet doors, dishwasher, refrigerator, and wall oven. Adding another dimension to the room scheme is the use of a color-coordinated cotton plaid on the soffit and window shade. The Waverly fabrics are treated with Scotchgard for protection against grease and stains. Featured in McCall's You-Do-It Decorating Magazine.

Mourning Doves "Need Suitcase"

The San Angelo regional office of the Texas Parks and Wildlife Department receives telephone calls every day from persons wondering why mourning doves are nesting so early.

In reality it isn't early at all, according to biologists.

Biologists say mourning doves nest in Texas all year round. In fact, there isn't a month in the year that doesn't account for nesting doves somewhere in the state, depending upon habitat and weather, according to biologists.

One dove banded in North Texas in Archer County was taken by a hunter in Desconocido, Mexico, and five birds banded in Texas were found at extremes in Mexico. Eleven other birds banded by Texas game management officers were found in Oklahoma, Kansas and Iowa, and one strayed over into Mississippi.

Most doves, however, are harvested by hunters within a few miles of the nest site.

Estimates place the mourning dove harvest in the United States at about 25 million birds, approximately half of which are killed in Texas.

Sales and Shipments

Cattle and calves marketed through Texas auctions during May numbered 645,000 head, 14 per cent above a year ago and three per cent above the previous month, according to the Texas Crop and Livestock Reporting Service. During April 24-May 23, health certificates as tabulated by the Texas Animal Health Commission show that 101,804 cattle and calves were shipped from other states to Texas.

The 1970-71 enrollment at Baylor College of Medicine, Houston, is currently 395 M. D. candidates, 89 graduate students, 70 interns, 300 residents and 157 post-doctoral research fellows.

Down Town Bible Class Observes 20th Birthday

A total of 65 members, former members and visitors attended the 20th birthday meeting of the Men's Down Town Bible Class at the community center Sunday morning, June 27.

Following group singing, several special music numbers were presented by Mmes. Leo Cates, W. W. Lemons, Ella Ann Garret and Frances Cates.

George Self gave a brief history of the class and said that early in the summer of 1951, Rev. Melvin Walker, the new Methodist pastor, suggested the organization of a men's class to Mr. Self and J. W. Bruce. With expenses to be underwritten by the Methodist Church, a building was rented for \$15.00 a month from the late L. D. Fox on the north side of the square. Present at the first meeting, Mr. Self said, were M. S. Henry, Ed Cates, L. Kamstra, N. J. Roberts, T. B. Klepper, J. A. Stovall (all deceased) and Jeff Bruce, Hubert Brown, M. M. Welch, Ray Duckworth and Mr. Self. Following its first year of existence, the class became independent of its church affiliation.

The class later moved to the Graham building on North Main and stayed there a few years before moving to its present location in the community center.

The class reached its peak in attendance in 1956 with a Sunday average of 60, and 150 were present for the Easter meeting that year. Leslie Thomas was the class teacher for five years and was present Sunday to again bring a message.

Also present Sunday were 7 past presidents, 3 past secretaries, one past teacher and 2 past song leaders.

Mr. Self pointed out that during the first few years, roll call was made each Sunday, but it was discontinued as the calling of some 150 names proved too time-consuming.

Mr. Self said that the class has become an "institution" here and has started many men back to regular Sunday school attendance, first in the class, and later in the church of their choice.

Bill Bell, song leader for the class, presided at the meeting in the absence of Dick Todd, president of the class; and Criss Moody served as secretary-treasurer in the absence of Glenn Jones, regular secretary treasurer.

Illegal Fish Are Confiscated

Several species of exotic fish, outlawed in Texas because they may be harmful to natural fisheries in the state, are still finding their way into home aquariums, according to Texas Parks and Wildlife Department officials.

Game management officers for the department recently had to confiscate several walking catfish, an Asiatic species which has become somewhat of a problem in Florida.

Several gar-pike, another illegal fish, were confiscated in Big Spring and ended up as study specimens in formalin at the department's laboratory in San Angelo.

Aquarium owners are advised to check the law before adding exotic species to their collection.

The Trouble With Politics

"In scanning a little more the other day as I went through my mail, I came across the following item that I would like to pass on to each of you... trouble with politics is not thousands who are in it, but millions who are out. That's so much truth in that statement. It is a shame that so many people refuse to get involved in politics. They either take George do it' attitude or they cover up by saying 'dirty' politicians... what sically, they are to blame member... 'bad' public officials are elected by good people refuse to vote or 'porter' —Hebron, Ind., Fort Co. Herald.
