Wildcats Lose Non-District Game With Memphis

The Crowell Wildcat football team was defeated by the Memphis Cyclones here last Friday night for the Wildcats' first defeat of the season and also their last non-district game. Final score for the Friday night contest at Dick Todd field was 47-28.

The Memphis team scored first early in the first quarter on a 16-yard run by Louis Davis. He scored again a few minutes later on a six-yard carry. Davis rushed for 191 yards in 22 carries to lead the Memphis ground game, and quarterback Mike Browning was almost flawless with his passing.

Crowell battled back with fullback Terry Farrar going over from the 1. Rocky Bachman kicked for the point-after.

The Cyclone scored in the second period on a 15-yard pass from Browning to Larry Jeffers. Then, Crowell came back with another TD by Randy Dorsey on a 1-yard plunge. Davis scored again for Memphis late in the second quarter on a 13-yard run and then Browning passed 37 yards to Otto Rodgers for another score.

In the third quarter, Davis scored his fourth tally of the night on a two-yard run. Billy Ray Neal ran two yards for a Crowell score in the fourth quarter and also carried for the Wildcat 2-point conversion. The final Memphis score came on a 10-yard pass from Browning to Terry Wynn.

Oil Production Adds \$1,310,173 to Foard Economy

Petroleum production continues to play a significant role in the economy of Foard County with a direct input of \$1,310,173 last year.

According to the latest compilation of Texas Mid-Continent Oil & Gas Association, the county in 1970 produced 376,360 barrels of crude oil valued at \$1,241,988 and 467,019 thousand cubic feet of natural gas valued at \$68,185. It ranked 163rd in value of petroleum produced.

In addition, the county received the stimulation of \$163,772 in royalty payments to landowners and others with mineral interests. "Foard was one of 187 Texas counties that had petroleum production valued at more than \$125,000," says Kenneth E. Montague, Texas Mid-Continent president. "Its ability to produce helped Texas meet a record demand with record production of both oil and gas in 1970. This demand has again diminished Texas petroleum reserves as additions failed to offset withdrawals. In Texas, we only drilled 8,114 wells—the smallest number since 1946."

Texas state government benefited from the county's petroleum, receiving \$57,131 in production taxes on crude oil and \$5,114 on natural gas. Drilling expenditures in the County totaled \$121,716 with \$54,096 being lost on dry holes. Drillers completed three oil wells and three dry holes. Three wildcats were drilled with all of them dry.

Deposits are up some \$420,000 over the same period two years and slightly over a million dollars more than was on deposit three years ago at this time.

Tommie McRae Is New Teacher in Dallas Junior High School

Tommie McRae has accepted a teaching position with the Dallas School System. He will teach classes of math and science in the W. H. Gaston Junior High School.

Vernon Man Named Adult Probation Officer for Area

Appointment of Pat Shelton, seventh grade coach at Vernon Intermediate School, as adult probation officer for the 46th Judicial District was announced last week by District Judge Rex Sullivan, Jr. of Quanah. Judge Sullivan said the appointment is effective Nov. 1.

Mr. Shelton fills a newly-created \$10,000 a year post. Adult probation work was formerly done by sheriff's offices in the three counties of the district.

Mr. Shelton will maintain an office in the Wilbarger County court house as he serves all three counties — Foard, Hardeman and Wilbarger.

Captain George P. Taylor of Austin, director of the Texas Office of Economic Opportunity, presented a plan to be implemented during the coming year in the Special Technical Assistance Program (STAP) recently adopted to help this four-county area of Foard, Hardeman, Cottle and Wilbarger Counties in recovering and reversing the out-ward migration of its people. Captain Taylor last Wednesday stated that 146 Texas counties lost population during the past 10 years and these four counties lost 30 per cent of their population—at the same time in which Texas was gaining 2 million people.

Through the State Office of Economic Opportunity, Keith Vaughn, an economic development expert, has been employed for a year's work in this STAP program, which Captain Taylor said, is the first in the state. In selecting this particular area, Taylor listed the following points which caused this selection: 1. The need exists here. 2. A strong Community Action Agency is here to assist. 3. Total involvement of community and support from business and elected officials, all of which Captain Taylor, found, and 4. the people are willing to try it.

According to the plan submitted last Wednesday night, Mr. Vaughn will be working in three primary areas:

1. Minority self employment.
 2. Sheltered workshop project.
 3. Rural economic development.
- Minority Self Employment
- There are several persons in the four-county area desiring to establish their own small businesses. There is presently no program in the EOAC designed to assist these people. Mr. Vaughn will therefore:
1. Examine development and establishment of possible "financing packages" for self-employment enterprises.
 2. Assist in designing intensive education and technical assistance programs for low-income people in the following areas: management, purchasing, inventory and marketing. These will be linked to the self-employment programs and projects.
- Sheltered Workshop Project
- To promote this, Mr. Vaughn

will:

1. Research information from potential participating foundations.
2. Aid in securing a planner from the Regional Council of Government in Wichita Falls to help conduct the feasibility study for a sheltered workshop for low-income people.
3. Work with EOAC and State Mental Health and Mental Retardation Hospital in Vernon to conduct a survey as to the feasibility of a joint venture to establish a manufacturing sheltered workshop.

Rural Economic Development

A labor survey in the four-county area has already been taken. Buildings will be analyzed and sites studied for the purpose of plant locations.

Mobilize local, state and federal resources in technical and financial assistance for low income families.

Evaluating manufacturing and business expansion with specific interest toward employment of low income people by utilizing Job Opportunities, NAB, JOBS and other programs as an incentive.

Conducting major prospecting program in new plant location section of economic development plan based on natural, human and man-made resources.

Researching natural resources of the area to enable low-income families to develop some type of business or manufacturing concern.

Conducting in-depth study of ways in which the elderly people in the area could form a corporation and manufacture small items to be sold on a yearly contract to a large chain. This would be a maintenance income project.

Also working in the four counties in the same type of work is Ernest Larmer who is working under a state grant to the area to assist in obtaining industry. Mr. Larmer was at the meeting last week.

Captain Taylor, in his concluding remarks, said that welfare as a way of life is detrimental to the person and to the nation. The OEO's aim is to help people help themselves, with the goal of an honest day's work for a day's wages.

PADUCAH COMES HERE FRIDAY FOR 8-A OPENER

The Crowell Wildcats and the Paducah Dragons will open the District 8A race here Friday night at Dick Todd field in a game set to get underway at 8 o'clock.

The Dragons will be going for their second consecutive win as they won 8-0 over Turkey Friday night.

James Griffis of the Vernon Army recruiting station, the Army has announced that beginning Nov. 1, men between the ages of 17 and 35 can enlist for duty with the III Corps Artillery, located at Fort Sill, Okla., near Lawton. Men enlisting for this option may choose to take their basic combat training

Did an ancestor of yours scratch "G.T.T."—Gone to Texas—on his log cabin door in 1840. If so, you may want to join local, church and family historians who will meet in Austin Nov. 26-27; Friday and Saturday after Thanksgiving; at the Stephen F. An outstanding program has been planned for the convention. Genealogy is one of the fastest growing hobbies in the United States. It is something everyone can be interested in as they all have grandparents, great grandparents, etc. It is inexpensive as much information can be gained by writing elderly kinfolks. Membership is open to anyone interested and free society folders and pedigree charts are sent to all who write TSGS, 2528 So. University Drive, Fort Worth, 76109. Weekly Schedule October 11-15

Monday: Wildcat staff meeting.
Tuesday: FHA, 3:30.
Friday: varsity vs. Paducah, here, 8 p. m.

Communication Is Our Business

Class and organization reporters are special students. They are under stress from their fellow students, the editor, and the sponsor to present their news accurately and without bias. This year, the Wildcat has students who are dedicated to their task of presenting factual, interesting bits of information to the readers. The Wildcat staff held a meeting to discuss ways to better our school newspaper. It was decided that we would benefit from a field trip to The Vernon Record News. Plans will be announced later.

Senior Sidelines

This week, I'd like to introduce the senior members of the football team to you. They are Bob Burkett (80), Bill Erwin (54), Terry Farrar (31), Ronny Naylor (67), Billy Ray Neal (33), Harry Lee Swan (84), Bill Taylor (82), and Mance Nelson, manager. Watch for these boys each Friday night as they, along with the rest of the team, lead us to a Wildcat victory.

Seniors would like to congratulate Rhonda Vecera, the band sweetheart for 1971-1972. She was crowned Friday night during the half-time ceremonies of the Crowell-Memphis game. Her escort was Daryl Halenack. Senior nominees were Bette Sue Barry, escorted by Trey Autry; and Beth Welch, escorted by Ricky Lopez. Band president, Nancy Looney, crowned the sweetheart and drum major David Stapp presented her with red roses. Ya'll sure looked pretty.

The senior book reports were due Monday. Now, the big question is: "Did they or did they not really read the entire book?" Seniors 'thought for this week is: PAW PADUCAH!!

The Junior Journal

The magazine sales party was held Saturday night in Rocky Bachman's barn. A scavenger hunt led most of the juniors by the grave yard before they returned to the barn for hot dogs. Rhonda Vecera and Ronny Naylor won

slowpokes for being the first team to complete the hunt. Rhonda, high salesman, threw a pie in the face of the losing captain, Daria Bell. After the pie throwing, everyone participated in doing the "limbo." John Urquiza proved to be the most lithe and won the contest. Everyone termed it a success.

A group of important persons in the junior class are the members of FFA. They keep busy throughout the year with various activities. They already have a hayride planned for October 23. Two juniors are officers: Rex Driver, vice president; and Rocky Bachman, secretary. Other junior members include Jackie Blackburn, Johnny Daniel, Bob Gillespie, Grover Reed, John Urquiza, Doug Pharis, Louis Lopez, Randy Swearingen and Joe Tomaneck. Backing the Wildcats all the way, the juniors say: Pickle Paducah!!

Sophomore Scoop

The sophomore pizza party was held after the Crowell-Memphis game Friday night and we would like to thank everyone that helped to make it possible. Special thanks to our room mothers, Mmes. Whitfield, Autry, Branch and Streit. Thanks to Mr. and Mrs. Buster Borchardt for having us in their home. Everyone had lots of fun. The Wildcats play Paducah this week, so the sophomores say: DOWN THE DRAGONS!!

Freshman Frolics

The freshmen had an unusual week last week. Except for the usual class work, home work, clubs, and band, football and pep squad practice, we weren't very busy. That spare time won't bother us for too long. There will probably be extra band practices to involve band members. The band contest is right around the corner, and we are working hard to get our show in shape. The pep squad has been backing the Cats all year and has done a very good job. The freshmen in the pep squad are Rita Hodges, Rita Washburn, Trenna Cash and Bertha and Betty Letja. They will be cheering our mighty Wildcats Friday when we play Paducah. In closing, we would like to say: POUND PADUCAH!!

Cafeteria Menu October 18-22

Monday: hamburger steaks, creamed potatoes, blackeyed peas, cabbage slaw, apple cobbler, hot rolls, milk.
Tuesday: jumbo franks, pinto beans, macaroni and tomatoes, stuffed celery, cornbread, Jello, milk.

Thursday: steak and gravy, English peas, mashed potatoes, carrot sticks, butter cake, hot rolls, milk.

Doug Chowning Has Letter Published in Lubbock Newspaper

As an assignment, students in a class at Texas Tech University were assigned the job of writing a letter to the editor of the Avalanche-Journal in Lubbock. Doug Chowning, freshman student from Truscott and son of Marion Chowning Jr., was a member of the class and his letter was published in the newspaper. It follows:
Editor, The Avalanche-Journal:
I am a Tech student and have just recently moved to Lubbock. In reading your paper, I have found that it is your policy not to advertise X-rated movies. I think this is a very admirable step on your part to help raise the moral standards. I am not against passionate love scenes that are shown in some movies, but I think that the nude scenes that are now being shown in other movies are vulgar and distasteful. I think nudism should be kept in the home and in private, and not on the movie screen for the whole world to see. I think that if more papers would follow the example you have set, many of our moral problems would decrease.

Redistricting
Board Is Busy
Writing New Bill

By Bill Boykin
Texas Press Association

Austin, Tex. — The State Leg-
islative Redistricting Board, or-
dered by the Supreme Court to
reapportion the House of Repre-
sentatives as well as the Senate,
is in the process of writing its
bill under deadline pressure.

Finding of the court that the
board should take over the un-
finished legislative reapportionment
task was doubly significant.

Aside from setting a precedent
as to responsibility of drawing
new district lines, the decision
eliminated the necessity of an
early special legislative session.
This pleased both House Speaker
Gus Mutscher and Gov. Preston
Smith.

Mutscher, under bribery indict-
ment, escaped an early showdown
with legislators who want to force
him to step down as speaker and
replace him with another.

Although speculation was wide-
spread he would hand his duties
to a speaker pro tempore, he an-
nounced four days after the
court's decision he had decided
to stay on the job, confident he
will be found innocent of charges.

Gov. Smith applauded the
court's decision. He said he wants
to wait "as long as possible" to
call a special session on budget
matters so the Legislature will
have full advantage of data on
available revenue which might
curb the tax bill.

Indications are there will be
no special session now until June,
1972, after the primary elections.

The five-member redistricting
board held a hearing September
30 and heard only testimony of
big-city residents debating the
merits of single-member vs. multi-
member (or county-wide) House
districts.

Apparently, the board is divided
two-and-two, with Atty. Gen.
Crawford Martin undecided on the
metropolitan district issue. Which-
ever way it rules, another lawsuit
challenging the decision seems
likely. The board has only until
October 23 to complete its work.

GOVERNOR'S RACE WARMS
—There is official competition in
the governor's race with the en-
try of Uvalde rancher and banker
Dolph Briscoe. Lt. Gov. Ben
Barnes announced last June he
would run.

Briscoe made clear the stock-
loan scandals (which resulted in
three state-house indictments on
September 23) will be a major
issue in his campaign.

He focused attention on quick
passage by the Senate of the same
bank deposit insurance bills which
figured in the indictments of Mut-
scher, Rep. Tommy Shannon of
Fort Worth and S. Rush McGinty
of Austin. And, he maintained,
Barnes "helped push them (the
bills) through the Senate."

Barnes declined to reply. He
said there will be "plenty of time
to set the facts straight" within
the next seven months before the
election.

Briscoe also emphasized need
for innovations in mass transporta-
tion and further environmental
protection.

A new year-round voter regis-
tration law went into effect for
Texans on October 1.

Predictions are that it will make
significant changes in the political
structure of the state. New rules
governing the operation of politi-
cal party conventions also will
begin operating next year.

These major provisions in the
new voter registration act are not-
ed:

* Voters can register at any
time (except for a temporary out-
off 31 days before each election).
Registration is good for three
years, and is automatically renew-
ed by participation in an election
during that period. The old regis-
tration period, one of the shortest
in the nation, was October 1-Jan-
31.

* Eighteen-to-21-year-olds may
register and are eligible to vote
in local, state and federal elections
under a new U. S. constitutional
amendment.

* Roving or resident registra-
tion deputies may sign up voters
anywhere — apartments, union
halls, club rooms, dormitories, in-
dustrial plants, office buildings,
supermarkets or private resi-
dences. The law provides that "no
voter registrar shall refuse to de-
putize a person." This is expected
to increase sharply the use of
deputies to round up voters.

Predictions range upwards of
five million total eligible voters
in 1972, an increase of a million
over 1970.

Voters must have resided in the
state a year and in a county for
six months to qualify for local
election participation. Those who
have lived in Texas more than
30 days but less than a year be-
fore the November 1972 general
election can vote for presidential
and vice presidential candidates
under special residency registra-
tion with county clerks.

Former Crowell Man
Joins Chamber of
Commerce Staff

J. L. (Jimmie) Martin of Abi-
lene, former editor of the Electric
Times and a former resident of
Crowell, has joined the staff of
the West Texas Chamber of Com-
merce in Abilene. He will be in-
formation director and will serve
as editor of the chamber's publi-
cation, This Is West Texas, and
the monthly newsletter, West Tex-
as Action.

The new information director
was born in Hale, Mo., and moved
to South Texas with his family
in 1910. His father, the late J.
L. Martin, was publisher of the
El Campo Citizen until 1913 when
the Martin family moved to Crow-
ell where the elder Martin was
publisher of The Foard County
News.

Martin spent his early life in
Crowell and Royse City where he
graduated from high school in
1924. He attended Hardin-Sim-
mons University and received his
Bachelor of Arts degree in 1928.
Following his graduation from H.
S. U., Martin joined his father
in the newspaper business and
during the next fifteen years they
owned and operated newspapers in
Brady, Childress and McCamey.
Following the retirement of the
elder Martin in 1943, Jimmie was
employed at Curtis Field in Brady
until 1945 when he moved to
Abilene to join West Texas Utili-
ties Company.

Martin served as publications
editor for WTU for more than
twenty-five years and retired in
May of this year. While serving
as editor of The Electric Times,
he was awarded six George Wash-
ington Honor Medals presented
by Freedom's Foundation at Val-
ley Forge, Pa. On two occasions,
The Electric Times received first
place honors in the Better Copy
Contest sponsored by the Public
Utilities Advertising Association.

Martin was named to Who's
Who in the South and Southwest
in 1968. He is a long-time mem-
ber of the West Texas Press As-
sociation and is an active elder in
the First Central Presbyterian
Church.

Since 1960, daytime burglaries
of residences in the U. S. have
increased 337 per cent while all
burglary offenses during the same
period have risen 142 per cent.
During 1970 residential burglary
losses amounted to \$407 million
and nonresidential losses totaled
\$265 million.

Mrs. Gerald Denton is Speaker at Rotary Club Meeting

Mrs. Gerald Denton, who with Mr. Denton attended a three-day convention of the Texas Affiliate, American Heart Association, in San Antonio last week end, told members of the Rotary Club some of the high points covered at the convention when the club had its Wednesday noon luncheon last week. Mrs. Denton said that money donated to the heart fund each year goes for research and public education.

Something new in the field of public education are the mobile blood pressure units which set up in a town or city, and people stop in and have their blood pressure taken free of charge.

Mrs. Denton stated that plans are being made to have a workshop here in the near future for the teaching of mouth to mouth resuscitation.

Mrs. Denton added that heart disease accounts for 54 per cent of the deaths in the U. S. each year, and is the nation's biggest killer.

Other guests at the meeting in addition to Mrs. Denton were Sam Breedlove of Quanah, George Taylor of Austin, Felix Taylor and Keith Vaughn of Crowell, and the three new student guests: Harry Lee Swan, Bob Burkett and Bill Erwin.

Local Delegation Planning to Attend Conservation Meeting

The role of conservation districts in environmental improvement is the theme of the 31st annual statewide meeting of conservation district directors to be held in McAllen October 19-21. J. A. Marr, chairman of the board of the local Foard County Soil and Water Conservation District, said plans are being made to send a delegation from the local district.

"Our district is involved in a wide range of activities which benefit the environment," Marr said. "Conservation measures reduce sediment, the state's biggest pollutant. Sediment fills lakes, streams, bays and estuaries; it kills fish and ruins their spawning grounds. Treatment of land subject to wind erosion cuts blowing dust, the state's worst air pollutant."

Among the speakers at the convention will be David Brune, general manager of the Trinity River Authority. Mr. Brune is a nephew of Mrs. S. H. Ross and a cousin of M. M. Welch, Jack Welch and James Welch, all of Crowell.

Conservation districts are local subdivisions of state government. They utilize and coordinate assistance from the U. S. Soil Conservation Service and other local, state and federal sources. Their goal is to conserve and develop land, water, forests, wildlife and related resources for maximum benefit of all citizens.

Food Nutrition

In addition to convenience, foods should also be chosen for their nutritive value, remind extension home economists. Foods represented in the four food groups become the basis for well-balanced meals and the foundation for good health.

Local Residents Attend Ranch Headquarters Association Meeting

Mr. and Mrs. V. A. Johnson, Mrs. L. A. Andrews and Mrs. N. J. Roberts went to Lubbock Saturday where the women attended the second annual meeting of the Ranch Headquarters Association. The three are charter members of the organization.

The ranch headquarters is an outdoor museum located on a 12-acre tract near the new university museum. It provides a history of the development of the West. Approximately 20 historic ranch buildings are being assembled and restored. Each building tells its past in the story of the growth of the ranching industry. Mrs. Roberts says "It's the kind of place that makes you remember what it was like in the early days of ranching."

A barbecue lunch was served in the outdoors and a program was provided by the Albany Fandangle.

Cabbage Cookery

Cabbage should be cooked the shortest time possible and with as little water as necessary, say extension foods and nutrition specialists. That's the way to save its high nutritive values.

Come live in the electric climate

There's more time for your family there.

Electric living is so clean and comfortable, and there is so much less toil, because Reddy Kilowatt works so hard for you. You start your days brighter and live every day more enjoyable, because there is so much more time for enjoyable things—like relaxing with your family. Whether you plan to modernize, buy or build, it will pay you to learn more about the electric climate, and how easy it is to enjoy it. Electric living costs no more—it's just more for your cost.
