Two Crowell Band Students Winners Of State Honors

Babs Streit in All-State Band; David Stapp in Symphony

Miss Babs Streit, flutist, made All-State Band during area try-outs in Fort Worth this past Saturday. She will attend the Texas Music Educators convention in Fort Worth on February 9, 10 and 11. A few weeks ago, David Stapp made All-State Symphonies and he will perform with the All-State Symphony during the same convention. Wichita Falls was the only other town in this area to qualify students for the all-state band. Holiday with 2 and Crowell with 6 were the only Class 8-A schools to qualify any students for the district band. Crowell then qualified 3 for regional and the one—Miss Streit—for all-state. James Streit is director of the band program for the Crowell School System.

Foard County Taken Out of Purcell's District

What was shaping up as a heated race for Congress between Graham Purcell and Bob Price, melted away last week as a federal court threw out the redistricting made by the last session of the legislature, and gave Price the entire Texas Panhandle and paired Purcell with Omar Burleson of Anson. Things were still very much in an uproar this week, but as of this week, Foard County is in the 13th District which covers the entire Panhandle now represented by Price. Counties to the east of Foard are in the Purcell-Burleson district. Counties in the new 13th district are Armstrong, Bailey, Briscoe, Carson, Castro, Childress, Collingsworth, Cottle, Crosby, Dallam, Deaf Smith, Dickens, Donley, Floyd, Foard, Gray, Hale, Hall, Hansford, Hardeman, Hartley, Hemphill, Hutchinson, Kent, King, Lamb, Lipscomb, Moore, Motley, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Sherman, Stonewall, Swisher, Wheeler, all of Knox except the southeast corner, the western half of Haskell, and all of Hockley except a small southeastern triangle.

Are Young People Hypocrites?

Today's youth is actively fighting against hypocrisy. However, the only way to fight hypocrisy is to demonstrate our ideas with our life. If we are against pollution, why do we act like the highway is our personal litter disposal? If we love nature and are against the mess that man is making of earth, and if we are against man's wickedness and his "copping out," why do we seek escape from our problems and situations with drugs, popularity, or material possessions?

As young people with good ideas, we must examine ourselves before we look at the faults and shortcomings of others. The best way to begin to stop the hypocrisy in the world is to destroy the hypocrisy in ourselves.

English III and History Classes Study Historic Document

Sophomores, juniors and seniors

have been busy memorizing the Declaration of Independence. In world history and civics, the students have a deadline of Feb. 10 to learn the Declaration, while English III students have already recited the speech. The memorization of this important writing shows the students the quality of the writing during the Revolutionary period, and also familiarizes the students with the principles on which our country was founded. The students and teachers as well should dedicate themselves to the principles that "all men are created equal, that they are endowed by their Creator with certain inalienable rights, that among these are life, liberty, and the pursuit of happiness."

The Junior Journal

Juniors received their PSAT test scores last Thursday. Mrs. Drabek, who administered the test last October, explained the scores and what they meant. Of course, everyone got excited, upset, and very confused. The test is to give juniors an idea of what the SAT and ACT tests will cover for seniors planning to enter college.

Last week both English III classes finished a section of American literature, the revolutionary period. Great writers during this period were studied, some of which are Benjamin Franklin, Thomas Jefferson, and George Washington. A lot of their writings were recognized by juniors who recently covered this same time period in American history.

Good luck to all of the Wildcat basketball teams in their remaining district games!

Sophomore News

Sophomores are finally becoming aware of the fact that homework is just as much a part of their lives as their teachers. Who wants to get homework when they could go to a basketball game?

In Homemaking II, sophomores are studying the different types of kitchens, and, as a treat, are getting to visit in various ones around town.

Freshman Frolics

Can you believe that we've been back in school for almost a month?

In that month, even those who were anxious to get back to school to see their friends are counting the days until summer. In that month, we've learned about things ranging from face shapes to what Edgar Allan Poe considered his best short story to what we all looked like when we were babies.

Future Homemakers of America

The Future Homemakers of America met in the homemaking cottage on January 11. Mrs. Cook brought a very interesting program on her trip to Panama. We discussed going to the Area IV meeting in Stephenville. Ruth Brown was voted our nominee for Area IV secretary and we wish her luck. We also made plans for daddy-date night, which will be Feb. 17 in the school cafeteria. President Betty Linda Whitfield appointed several committees for the annual event. Our next meeting will be February 8. We will go see Mrs. Otis Gafford's museum.

Student Library Club News

The Student Library Club met Tuesday, January 18. The president called the meeting to order and business was discussed. All members are urged to be present at the next meeting when Mrs. Vigil Johnson will be the guest speaker. Refreshments were served by Margaret Foster.

The next meeting will be on Feb. 1.

Talent Show

Plans are now in the making for our all school talent show. The show is sponsored by the CHS Drama Club each year. This is our main money-making project, therefore much preparation is being made for it. Any grade school or high school student interested in performing must fill out an application sheet and be auditioned on February 2. The talent show will be on Friday night, February 18. Mark it on your calendars now, so you won't miss out on all the fun and excitement!

Sports

Tuesday night the A girls and the junior varsity boys went to Paducah. The girls lost a heart-breaking game with a score of 55-55. The junior varsity came home with a winning victory. Paducah will come here January 28 and our girls are really ready to get a victory. All three teams will play. The games start at 5:00.

Friday night the Wildcats traveled to Munday and came home with three proud victories. The junior varsity won with an amazing score of 71 to 27. Philip Bell paced the court with 20 points. The girls game turned out to be a 50-28 victory. Jo Ann Gerhardt was high with 20 points. The varsity boys game ended with a 63-59 score. Rex Driver was high with 16 points. Crowell will meet with Munday again Tuesday, Feb. 1, at 5:00. All three teams play. Let's all go and get our spirit up!

Cafeteria Menu January 31-Feb. 4

Monday: fish with tartar sauce, blackeyed peas, candied yams, cabbage slaw, rolls, milk, pineapple cobbler.
 Tuesday: sausage links, pinto beans, spinach, carrot sticks, corn bread, milk, Jello salad.
 Wednesday: fried chicken with gravy, English peas, tossed salad, rolls, milk, prune cake.
 Thursday: country fried steak with gravy, mashed potatoes, green beans, celery stick, rolls, milk, peaches and whipped cream.
 Friday: hamburgers, French fries, lettuce, tomato, onion and pickle slices, milk, cherry cobbler.

Important Word

Recently I spent a few days with a woman who had been acclaimed in the press as the most outstanding wife and mother of her community. . . . When a reporter who came in to interview her asked if she had any advice to offer young couples, she said, "No, I never have offered any of my children advice on how to raise their babies or plan their budgets. I have given them just one word, 'Smile!'"—Ruth Collins.

Rolling Plains PCA Loans \$41.5 Million in Area During '71

Farmers and ranchers from a 17-county area borrowed more than \$41.5 million from Rolling Plains Production Credit Association in 1971, according to J. L. Hill, Jr., the association's president. This amount represents loans to 981 stockholders, he said.

Loan volume for 1971 is up \$3.7 million or 10 per cent over the same period a year ago, Hill reported.

Rolling Plains PCA is one of 34 Texas associations that together loaned more than \$942 million to the state's farmers and ranchers in 1971, he said.

The association, with offices in Stamford, Childress, Matador, Munday and Spur, makes agricultural loans in Briscoe, Childress, Collingsworth, Cottle, Dickens, Donley, Foard, Hall, Hardeman, Haskell, Jones, Kent, King, Knox, Motley, Shackelford and Stone-wall counties.

Brother of Crowell Man to Speak at Conference at A&M

Texas Assistant Attorney General J. C. Davis, a brother of Foard County Attorney Foster Davis, will discuss the laws affecting county government during the 14th annual County Judges and Commissioners Conference at Texas A&M University February 9-10. Theme of the conference is "High Noon for County Government." More than 600 county officials from across the state are expected to attend.

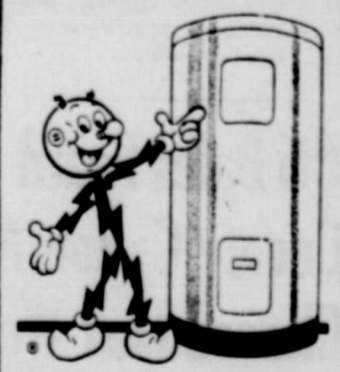

Ear's a Deer Trivia Item

How long is a mule deer's ear? Depends on the individual deer? Wrong.

Texas Parks and Wildlife Department biologists have discovered a universal truth, to wit: every desert mule deer buck over two years of age examined on the Black Gap Wildlife Management Area has had ears exactly 11 inches long.

This news may not revolutionize mule deer management practices, but it may furnish sharp-eyed hunters with a point of reference when studying a prospective trophy through a scope-sighted rifle.

The USDA Cotton Division Classing Office at Altus graded 26,000 samples for the week ending January 21. This may be the peak week of the year, according to C. E. Cox, office in charge. The season total stood at 113,500 samples classed. Last year at this date 193,300 samples were reported.

Total classed from North Texas counties this year stood at 17,700 samples, compared with 25,900 to this date last year.

Grades on North Texas cotton classed during the week were 73 per cent light spotted. The predominant grade was 42, accounting for 50 per cent. Twenty-six per cent was reduced in grade because of bark or grass.

Staples were predominantly 30, 31 and 32. Twenty-seven per cent was staple 30, 36 per cent staple 31 and 16 per cent staple 32. Micronaire readings were in the 3.5 to 4.9 range on 81 per cent of the samples. Presley readings showed fiber strength mostly in the range 75,000 to 89,000 pounds per square inch, with the average being 81 thousand pounds.

The Consumer and Marketing Service reported market activity increased over the previous week and demand continued good on all qualities. Prices ranged from 29.25 to 33.10 cents per pound with the average 31.80 cents, up 25 points from the previous week.

They Should Respect Us

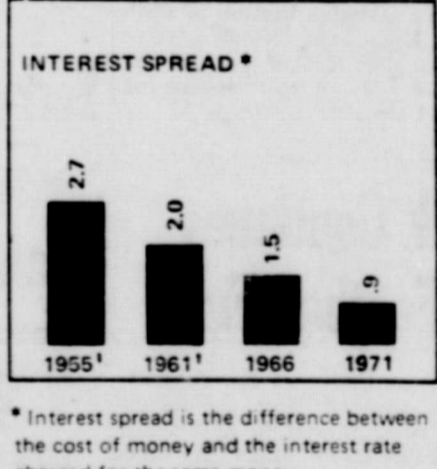

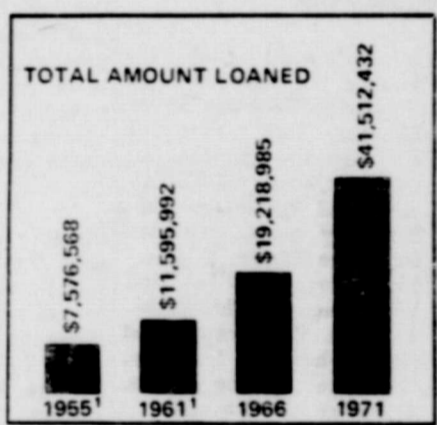

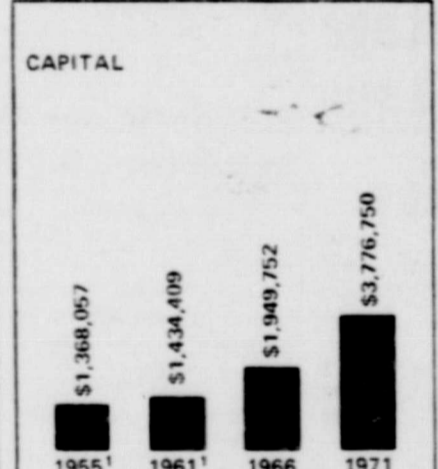

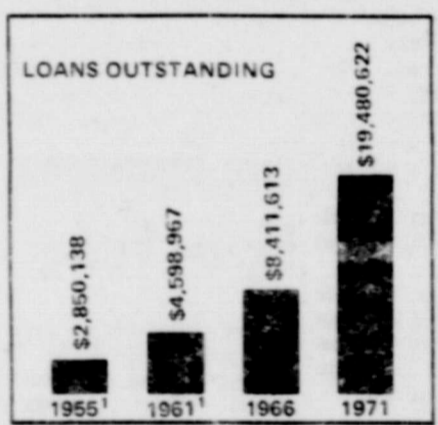

"Our country has spent billions trying to make others love us," says the Arizona Farm Bureau Federation. "Rather, like a big rugged football player, we should be respected for our strength and our sense of justice. Others don't have to love us, but they should certainly respect us."

Farmers and Ranchers GROW With Rolling Plains Production Credit Association-- The Go Ahead People

That's another good thing about Production Credit. Rolling Plains PCA has grown. The figures speak for themselves. And you can bet that our Rolling Plains PCA members, who are stockholders and sole owners of their credit source, have grown too.

Look at the growth rate. Loans outstanding and total amount loaned have more than doubled in the past 5 years. Association capital has increased almost 100 percent.

Still another good thing about Rolling Plains PCA is that all this time, we've been reducing the amount of difference between what money costs us and what it costs our stockholders.

You've seen us grow. Now find out how you can grow. Come in and talk to the go ahead people at any one of our offices in

Austin, Tex.—Another federal court ruling—voiding the new postal filing fee law—jarred state officials and posed the possibility of an emergency special legislative session soon.

While an earlier decision invalidating the old filing fee law was on appeal to the U. S. Supreme Court, three judges in Dallas knocked out a back-up statute last year.

If rulings stand, Texas will be without any method of financing May and June party primary elections. The filing deadline is February 7.

In the original 1970 decision the old law, fees were declared unconstitutional because they were used for revenue-collecting and were an absolute requirement to get on the ballot.

Legislators in 1971 passed a law effective January 1, 1972, setting maximum filing fees amounting to four per cent of a candidate's term salary. Another provision provided for getting on the ballot by pauper's affidavits of inability to pay, together with a several other provisions.

Those who get refunds of the federal excise taxes (repealed on August 16) can also put in for refunds of the state tax (calculated on the total amount paid for a car) averaging about \$8.

In another recent opinion, Mar-

tin concluded: * The Board of Pardons and Paroles has authority to hire two deputy rules-revising deputy compact administrators at \$600 a year.

COURTS SPEAK — Court of Criminal Appeals upheld state marijuana laws against attack that they are unconstitutionally vague.

State Supreme Court found The University of Texas at Austin used "undue influence" on a 90-year-old retired professor to get him to leave valuable property to the institution. The decision determined the old professor's home should go to an attorney who signed a \$35,000 purchase contract for it, and that his other property, on his death, should go to a nephew.

A February 16 hearing was set by the Supreme Court on a Houston barber's damage suit which involves a claim that freon cans should contain printed warnings they may blow up if attached to the wrong part of an auto air conditioner. The barber was injured when a can exploded as he was attempting to "recharge" his air conditioner.

DEMOCRATS IN QUANDRY — Just about the time a controversy over party rules appeared to be settled, Democrats found themselves with a leadership dispute on their hands.

State Democratic Executive Committee Chairman Roy Orr of DeSoto accepted appointment as a Dallas County commissioner, setting the stage for the new wrangle.

Secretary of State Bob Bullock said he would not issue a certificate of appointment as a commissioner to Orr until he resigned his SDEC place because election duties of the two offices may prove incompatible.

Orr was quoted as saying he would resign, then that he wouldn't, then that he might in 30 days and again that he wouldn't.

Meanwhile, Gov. Smith asked William R. Anderson, Jr. of Corpus Christi to seek the chairmanship. Anderson said he would agree to be a candidate, if and when Orr vacated the job.

RETROACTIVE PAY APPROVED — State employees and school teachers will receive retroactive pay increase for the September 1-November 13 period in mid-February.

The extra money represents pay raises approved by the 62nd legislature but stalled during the presidential wage-price freeze.

State officials have notified the federal pay board of intentions to go through with the raises that would have been granted September 1 had the freeze not been in effect. Since the pay board has until February 1 to challenge payments, Comptroller Robert S. Calvert said he would not accept retroactive payrolls until February 2.

HOG CHOLERA ATTACK IS PLANNED — State and federal animal health officers plan to send a task force of inspectors into South Texas to try and destroy the virus which causes cholera in hogs.

Texas Animal Health Commission drafted stringent quarantine rules to restrict movement of breeder and feeder hogs in 54 counties to stop spread of the disease.

Success of the operation, according to Dr. E. S. Cox of the U. S. Department of Agriculture animal and plant health services division, could mean complete elimination of the virus in the U. S. Dr. Cox said the virus is not known to exist in this country outside South Texas.

Short Snorts

Beer drinkers consumed the equivalent of 21.47 gallons for every man, woman and child in Texas last year, according to Texas Alcoholic Beverage Commission figures.

R. G. (Randy) Pendleton, formerly of Andrews, resigned as director of the office of state-federal relations in Washington to run for state comptroller.

Texas Building and Construction Trades Council withheld endorsement of political candidates, and angered former Sen. Ralph W. Yarborough, a senate candidate.

W. S. (BILL) HEATLY

Two Minutes With the Bible

Washed, Sanctified and Justified

"And such were some of you, but ye are washed, but ye are sanctified, but ye are justified, in the name of the Lord Jesus, and by the Spirit of our God" (I Cor. 6:11).

The preceding verses of I Cor. 6 contain a long list of vile sins and vices into which men have fallen, and the apostle adds: "And such were some of you." God's Church is not made up of "good people" who have never fallen into sin. It is rather made up of sinners, saved by grace, through the infinite payment made for sin by Christ on Calvary's cross.

"And such were some of you." Had the apostle included the more "refined" sins, such as pride, self-righteousness, etc., he would have had to say: "And such were all of you."

Note further that the apostle says: "And such were some of you."

Thank God, he goes on to say of those who had been stained with sin: "But ye are washed, but ye are sanctified, but ye are justified, in the name of the Lord Jesus, and by the Spirit of our God."

How beautiful these three phrases: "But ye are washed, but ye are sanctified, but ye are justified." The word "but" appearing before each phrase indicates that each should be considered separately. Such vile creatures were some of you, "but ye are washed," cleansed from the sin that contaminated you. "But ye are sanctified." Having been cleansed you are now set apart as sacred for His glory. "But ye are justified." When God justifies us, who can condemn? "Who shall lay anything to the charge of God's elect? It is God that justifieth; who is he that condemneth?"

All this is done for the believing sinner, as our verse says, "in the name of the Lord Jesus, and by the Spirit of our God." It is because Christ died for us that we can now claim cleansing, sanctification and justification, and it is "by the Spirit" that all this is applied to our lives.

Are you ready?

Are you ready to provide the funds to send your children to college?

Are you ready with the necessary funds for your retirement?

Is your family adequately protected should something happen to you?

If you answered no to any of these questions, then it's time you called your local Farm Bureau Insurance agent—he's a good man to know!

The seventh grade girls won their division championship by defeating Chillicothe 17 to 10. The members of this team are Gay Schmoker, Molly Wisdom, Mary Barrera, Kathy Whitfield, Bernadette Greening and Calgerly.

The Crowell eighth grade girls won 23 to 17 over Northside to take third place in the tournament in their division. Crowell players are Vickie Tole, Kimberly Norman, Vickie Pharis, Terry Eavenson, Kristi Shirley and Kathy Whitfield.

Printiss Gidney is coach of the eighth grade teams and Harvey Ward coaches the two seventh grade teams.

District Action
 Coach Gidney said that in district games with Paducah Monday night of last week, the Crowell eighth grade boys won while the eighth grade girls lost.

City crews were busy last week repairing the streets in Crowell. They used melted tar to fill the cracks which have developed over the years in the pavement.

The tar has also given undercoating jobs to many cars in town.

Some resolutions just go in one year and out the other.

Farmers Have Jan. 31 Deadline to Send In 1971 Wage Reports

Farmers and crew leaders who employ farm workers have until January 31 to send 1971 wage reports and social security contributions to the Internal Revenue Service.

According to Wayne Klipping, social security manager in Vernon, a farm worker is covered by social security if an employer paid him \$150 or more in cash wages for farm work in 1971—or if the employee did farm work for the employer on 20 or more days during the year.

Social security contributions include 5.2 per cent of the employee's covered wages, plus a matching amount paid by the employer.

Crew Patching Local Streets

City crews were busy last week repairing the streets in Crowell. They used melted tar to fill the cracks which have developed over the years in the pavement.

The tar has also given undercoating jobs to many cars in town.

Some resolutions just go in one year and out the other.

Former Foard Resident Died in Abilene Thursday

Lloyd W. Owens, 62, of Abilene, district supervisor of the Texas Alcoholic Beverage Commission for the past 16 years, died at the Veterans Administration Hospital at Big Spring. He was transferred there from West Texas Medical Center in Abilene where he had been for the past several weeks.

Born Dec. 5, 1909, in Bonham, he married Vonna L. Simmons at Albuquerque, N. M., in 1954. He moved to Abilene from McAllen in 1955. He was a member of the Southwest Park Baptist Church and a veteran of World War II.

Owens was a graduate of Crowell High School and had worked in Crowell, Dallas, San Antonio, in Bartlesville, Okla., and in Wichita Falls before joining the Navy in 1942.

In 1942 he went to work at a manufacturing plant in Amarillo, but within a year he was employed as a traffic policeman for Amarillo. He worked as a policeman in Amarillo until 1949, when he was employed as an inspector by the Texas Liquor Control Board (now Alcoholic Beverage Commission) and was stationed in Big Spring. During the next three years, he was transferred to Odessa, Borger and then to Lubbock where he was promoted to deputy supervisor for that area.

In 1952 he was transferred to McAllen as a deputy supervisor, and then in 1955 he was transferred to Abilene as supervisor for the Abilene district.

He is survived by his wife of the home; one son, Richard of Ft. Worth; and one daughter, Mrs. Barbara Sneider of Kirksville, Mo.

Grass Tetany

Grass tetany in beef cows can be a problem during the winter season, says Dr. James Armstrong, extension service veterinarian. The condition results from a lack of magnesium and calcium in the animal's diet and affects cows most often in late pregnancy or when nursing calves. Mineral blocks containing magnesium oxide should be provided, and some supplemental feeding may be needed to provide cows with additional energy.

Acorns as a Food?

Several graduate students at Texas A&M University are studying acorns for potential human use. And they are using a panel of squirrels as taste testers. The study involves two approaches — finding nuts of top taste and nutrition, and developing a processing technology to cheaply and quickly remove bitterness found in nearly all acorns.

Miss Elaine Jackson Becomes Bride of Ray Aydelott Saturday

Mr. and Mrs. I. J. Jackson announce the marriage of their daughter, Cathie Elaine, to Ernest Ray Aydelott, son of Mr. and Mrs. Harvey Aydelott. Vows were exchanged Saturday evening, January 22, at 7 p. m. in the home of the bride's parents. The ceremony was performed by Rev. Warren Everson.

The candlelight ceremony was performed before a tier of candelabras with an arrangement of yellow gladioli. The bride was attired in a street-length white double knit lace empire dress trimmed in yellow. She carried the traditional bride's bouquet, and carried out something old, some-

thing new, something borrowed, and something blue.

The bride chose the song, "A Time for Love," theme from Romeo and Juliet, which was sung by her sister, Vlinda Alexander.

Miss Carolyn Moore attended the bride as maid of honor. She was attired in a yellow street-length dress.

Dennis Dobbs served as best man.

A reception was held immediately following the ceremony. Mrs. Wayne Richardson, sister of the bride, registered the guests. Mrs. Roy Lee Aydelott served refreshments.

The three-tiered wedding cake was designed by the bride's mother. It was a traditional wedding cake trimmed in yellow roses, the bride's chosen color. The top of the cake held two white doves.

Mrs. Aydelott is a 1971 graduate of Crowell High School. Mr. Aydelott is a 1963 graduate. He is presently employed by the Santa Fe Railway in Plainview where the couple will reside.

Columbian Club

On Wednesday, January 19, the Columbian Club met at the home of Mrs. N. J. Roberts for a regular meeting.

After routine business, a guest, Mrs. Hubert Brown, was introduced who gave a splendid program on Mexico. For her opening she gave the highlights of the history of Mexico from the Toltecs to the present, telling what each, Toltecs, Aztecs, Spaniards and other European emigrants had contributed to the culture of Mexico.

Then she showed slides, beginning with the Mexico City airport, the city square from various sides,

the cathedral and other historic churches, the opera house with its famous Tiffany glass curtain, the University of Mexico City and its murals by Diego Rivera, the floating gardens and the castle of Chapultepec. The various views of the pyramids with an account of the research about them was intensely interesting.

There were also slides of some of the beautiful homes and their landscaped grounds, scenes of the bull ring and race track. Mrs. Brown's comments were interesting and informative.

During the social hour, the hostess served cherry pie a la mode and coffee to eleven members and two visitors, Mrs. Brown and Mrs. David Johnson.

The next meeting will be Feb. 2nd with Mrs. Roy Barker.

Adelphian Club

The members of the Crowell Adelphian Club met at 3:30 p. m., Wednesday, January 19, at the Adelphian Club House.

During a short business session, with Mrs. Lewis Sloan presiding, the club voted to have a bake sale on Friday, January 28.

The program, concerned with the universal challenge of making improvements, began with the group repeating "A Collect for Club Women" and the "Pledge to the Flag," led by Mrs. Vera Marnard, program leader, and Mrs. Curtis Barker, respectively. Then the group joined in the singing with "America the Beautiful" with Mrs. V. A. Johnson as leader and Mrs. Guy Bounds as pianist.

Speakers were Mrs. W. B. Johnson and Mrs. Loraine Carter. Mrs. Johnson, the state chairman of beautification, spoke on the subject, "Beautification, an Aspect of Conservation." She gave a resume of the many projects sponsored by federated clubs of Texas that have helped to conserve the land as well as to make Texas a most beautiful state in which to live.

Mrs. Carter, Foard County Neighborhood Center director, gave first-hand information about the various programs available for interested persons from age 3 through adulthood.

The program for February will be a film and lecture by the Wichita, Mrs. Paul Cargill, regional director of the American Health Association. Members of the Greenbelt School of Vocational Nursing will be guests.

Delicious refreshments were served to twenty-four members with Mrs. W. A. Dunn and Mrs. Bob Thomas as hostesses.

Rev. Holt Preached at Baptist Church

Rev. Rex Holt, associate pastor of Fairway Baptist Church in Wichita Falls, preached at the First Baptist Church here Sunday morning, January 23.

A group of young men, Rickey Burton, Robert Baker and Dennis Birkhead from Paducah, had charge of the services Sunday evening and presented a very inspiring program.

New Baby

A baby daughter, Kristen Lee, was born to Mr. and Mrs. J. R. Wiskur January 12 in Kansas City, Kansas. Mrs. Wiskur is the former Miss Joy Traweck of Crowell.

Mr. and Mrs. Harry Traweck of Crowell, the baby's maternal grandparents, have just returned from a visit with the Wiskur family.

THE INFORMED CONSUMER

BY CRAWFORD C. MARTIN
Attorney General of Texas

"What can I do to get out of this contract? This gyp outfit came by and talked me into signing up with them, and I am really unhappy with the deal."

The Consumer Protection Division of the Attorney General's office hears this plaintive plea all too often, but the sad truth of the matter is that there is not much anyone can do about a situation like this. When you put your signature on that dotted line, in the eyes of the law you've had it. It is almost impossible to "get out" of the contract as the many consumers contacting our office desire, and if consumers want to try to break the contract they need to get their own private attorney. This is not something which the attorney general's office can do for them.

If the above seems to put the consumer in hot water, remember we are talking about his plight after he has signed the contract. Happily, he does have options prior to signing on the dotted line. The informed consumer will, of course, always be wary when entering into a contract. This is the first rule of survival in the world of legal contracts and red tape. Anytime you are asked to sign an instrument in a business deal, you can be pretty sure that there is a reason and that the person asking you to sign is not just an autograph collector in the sense that that term is normally used. Any instrument may be a contract, so read it thoroughly . . . read every single word, even the small ones. Many times the small ones are the ones that cause you the most trouble later on. The second rule for survival then is to read every instrument carefully before you sign.

The third rule is that if you don't understand something you have been asked to sign, refuse to sign it. Don't take chances. Don't take the word of the person with whom you are dealing unless you know personally of his honesty and reliability.

Even then take what he says with a grain of salt. You will be far better off if you get help from your own lawyer, from a legal aid agency, or from someone upon whom you can rely before you jump into any legal deal.

The next rule for survival would be to refuse to be rushed. Take your time and determine that the contract you are entering into is one by which you wish to be bound. If you have any doubt, do not sign the contract until you have fully resolved it. Remember, after you sign the contract you are bound. It is too late to back out of it then. You should also remember that it is what is written in the contract that counts and not what the salesman tells you. Often times the salesman will advise you to go ahead and sign the contract and if you decide to back out that he will tear it up. Many times the salesman "forgets" that he has said this and you are bound by the contract.

Be firm and don't be the victim of a fast talking salesman. Our office receives many letters in-

Although men are accused of not knowing their own weakness, yet perhaps few know their own strength. It is in men as in soils, where sometimes there is a vein of gold which the owner knows not of.—Swift.

forming us of contracts that were signed as a result of a "rush job" by the salesman much to the consumer's regret. If the purpose of the contract is legitimate and valid and the person with whom you are dealing is reliable, in nearly all cases the opportunity will be available in the morning the same as it is tonight. It is a good policy to refuse to enter into a contract which must be signed then or never.

Another rule to follow is never sign a contract just to get rid of a persistent salesman. Many times we get letters from people who sign a contract "just to get rid of that salesman" only to find out that they have obligated themselves to a legal and binding contract. You should never sign a contract until you know the total cost of the goods you are buying. Demand an itemized account of all charges. If the salesman refuses to give you one, refuse to sign the contract.

A cardinal rule in the area of contracts is never sign a contract which contains blank spaces "to be filled in later." Remember, the dishonest salesman can fill the blanks in any way he wants to after he has gone, and you have no way of proving that you did not agree to the terms that the salesman inserted. If a business deal is important enough to require a contract, it is important enough to fill out the contract completely before signing it. Under no circumstances should you be rushed into signing a contract with blank spaces.

A contract that reads "as is" means that there is no guarantee of any type given with the sale of the merchandise. If you believe you are getting a guarantee, be sure to get a copy of the guarantee in writing. Read and understand the guarantee. Know what is covered by the guarantee, who is to make the necessary repairs or replacement, the period for which the guarantee runs and other salient points.

Another rule to follow is don't be fooled or confused by legal double-talk. As pointed out above, it's what's on the paper that counts regardless of what the salesman says or promises. Even if he intends to keep his promises, his boss may not let him. He may not be around or he may say that there was a misunderstanding. It is virtually impossible to prove that the salesman made any oral promises. It is just a swearing match between you and the salesman and you have the burden of proof. Besides he has that contract with your signature on the dotted line to back him up.

Finally if you do sign on the dotted line, get a copy of the contract then. Don't wait for one to be mailed to you at a later date and once you get a copy of the contract keep it. It is for your protection if questions or difficulties arise at a later date.

Attorney General Warns About Bogus Home Employment Schemes

Attorney General Crawford C. Martin this week issued a warning for Texas citizens to be on the alert for bogus home employment schemes. Elderly people and housewives who are anxious to supplement the family income, but because of children or other obligations find it impossible to hold a part-time job, are usually the victims of such operations, Martin said.

Martin pointed out that the companies engaging in this practice typically place advertisements in the "want ad" section of newspapers which tell of the chance to earn money at home. "Normally there is no disclosure of the type

of work, but the pitch is made to send in a small sum of money, usually less than \$5, to show good faith or cover expenses. The work generally turns out to be addressing envelopes or some other similar activity," the attorney general added. While the "work" offered may vary, a common theme found in all of the plans is that the prospect is required to buy something from the advertiser. This purchase by the consumer is the gimmick, and this is what the company is interested in, not in providing employment, Martin continued.

Recently the James Bliss Company of Pennsylvania has been

enjoined by the attorney general of Pennsylvania from using such false advertising practices, Martin said. "The court decree provided that individuals that have been victimized by this scheme may obtain refunds of their money from the company," he added.

Martin asks that anyone who has paid money to the James Bliss Company and desires a return of the money to contact his Consumer Protection Division at P. O. Box 12548, Capitol Station, Austin, Texas 78711. Martin said these requests will be forwarded to the attorney general of Pennsylvania for processing.

Futher, Martin asks people who have been victimized by other such ploys to forward the information to his consumer protection division. Martin noted that many people do not complain to his office since the amount of money involved is so small. "Unless we are made aware of the vicious rackets, however, such activities on the part of unethical promoters may go on for some time before they are stopped," Martin concluded.

Batteries Lose Power When They Are Cold

"The Sample Case" notes that batteries lose a lot of their power when they get cold. So much, in fact, that a healthy, fully charged battery at 80 degrees will have only 65 per cent of its power at freezing, and only 40 per cent at zero. To keep your battery up and in top shape, the publication recommends the following: keep the top of the battery clean; be sure the cables are free of corrosion (a greenish-white build-up that is easy to see); coat the connections with grease or other corrosion inhibitor to prevent this build-up, and make certain the engine is in good condition. Even a strong battery cannot start an engine that needs a tune-up.
