## High Winds and Light Rain Hit Crowell Friday

Spotted showers dotted Foard County again last week, and the government gauge showed a total of .39 inch.

Most of this fell last Friday afternoon about 6 p. m. when a storm cloud passed over Crowell, dropping the moisture in a very few minutes, and accompanying winds did damage in parts of Crowell.

In the northeast part of town, the high wind levelled several tv antennas, split and broke several trees and did some damage at the school. A number of windows which had been replaced at school during the summer and stacked near the bus shop on North Third Street, were literally picked up and carried to the streets where they were smashed, shattering glass across the street.

All of the showers received lately have been very spotted. Another rain fell before dawn Tuesday morning, amounting to .4 inch in Crowell.

The Crowell school board, in a called meeting Tuesday night, August 15, adopted a budget for state and local funds totaling \$357,671.00 on anticipated revenue of \$358,393.00.

Not included is the \$30,449 to be received in Title I funds nor the \$22,813 furnished by the federal government to operate the nursing program now in progress.

The board also adopted the amended budget for the 1971-72 year which saw the board spend a total of \$428,154.00.

Valuations for the year are \$10,799,730.00, down some \$100,000 from the preceding year.

Anticipated revenues are based on 90 per cent tax collections, while last year collections were nearly 95 per cent.

A check of budgets of the school since 1961 reveal that the budget adopted last week—in the black—is the only balanced budget for the district since 1961 except for the year the patrons of the district voted bonds to build the new gym.

A plan to make Logan Street running east and west in front of the school campus into a one-way street during school hours was announced this week by the Foard County Sheriff's Department.

Plans call for the street to be one-way with traffic moving west on the street, and no parking on the street to be permitted during school hours.

Deputy Sheriff Jackie Walker announced the new plans and said that it is hoped that this will eliminate at least a part of the congestion of traffic around the school. It is extremely dangerous for all the students especially the smaller pupils who are walking in the area at the time.

Plans are for a sign to be erected in the street at the southeast corner of the campus where Third Street meets Logan Street informing drivers they cannot proceed east on Logan during school hours and signs will be erected at the intersections of 3rd and Logan and also 4th and Logan, telling drivers that no right turn is permitted onto the one-way Logan Street during school hours.

Speed limit on Logan in front of the school is 10 miles per hour. The sheriff's department is asking the cooperation of all drivers in observing these regulations, so that maximum safety for all students can be maintained.

GRAHAM PURCELL BOB PRICE

WASHINGTON — U. S. Rep. Graham Purcell, veteran Democratic Congressman of the 13th District of Texas, issued the following statement immediately after the House of Representatives gave its approval (329-7) to the President's Strategic Arms Limitation Treaty with the Soviet Union.

"The House of Representatives has passed the President's requested approval of an agreement intended to freeze Soviet and U. S. levels of offensive weapons development.

"Public opinion in Northwest Texas was widely split on this issue. Some concern was expressed that our national security interests would be jeopardized. In light of this I offered my support to the President only upon the assurances which I received from the Secretary of Defense, the Secretary of State, the director of the CIA and the joint chiefs of staff—that Soviet cheating would not be tolerated. U. S. participation hinges upon full compliance—or we pull out at once.

"As I said on the floor of the House a few moments ago, it is essential to accompany our approval of this Agreement with a strong resolve to maintain a powerful strategic posture. In today's times of volatile and tenuous global relations, our position must continue to be firm in the eyes of the world."

In separate actions, Congressman Bob Price today (Aug. 16) sought to rescind the ban on the use of diethylstilbestrol in animal feeds recently ordered by the Food and Drug Administration.

Price contrasted the ban on DES to the use of other products in society which have a definite benefit-risk ratio. "Automobiles have killed more Americans than have been lost in all the wars this nation has ever fought combined, and contribute to pollution, congestion, and urban decay—and yet who among us will propose legislation to abolish the automobile, especially those of us who drove to work today?"

The Price bill would allow the Secretary of Health, Education and Welfare to set levels for food additive residues at limits which would permit the continued use of DES in animal feeds but would not induce cancer in humans.

In another action, Congressman Price called on Commissioner Charles Edwards of the Food and Drug Administration to reconsider the decision not to hold hearings on the announced ban on DES. In a letter to Edwards, the congressman emphasized, "In view of your own candid admission that DES in amounts being detected constitutes no known threat to human health, the decision to go ahead and hold hearings would allow a more thorough and open consideration of this whole issue and would help focus needed attention upon the advisability of amending the highly restrictive Delaney cause. We must apply the rule of reason to the law if we are to maintain public respect for those who enact and administer the law."

### Wheat Allotment Notices Mailed to Foard Producers

The August newsletter of the Foard County ASCS committee, published by Mrs. Jean Reeder, executive director, says that all wheat allotment notices were mailed August 18, 1972, with a pamphlet explaining the program for 1973. The notice also shows the required set-aside and the conserving base acreage. The following provisions of the 1973 wheat program are:

1. A required set-aside equal to 86 per cent of the farm domestic allotment.
2. An option to set-aside additional acreage over the required 86 per cent. This additional set-aside can be up to 150 per cent of the 1973 allotment.
3. Wheat producers choosing the additional set-aside option must agree to limit their total 1973 wheat acreage planted for harvest. The limit is the 1972 wheat program acreage, plus the 1972 additional set-aside, minus the 1973 additional set-aside acreage.
4. The payment rate for the additional set-aside is 88 cents per bushel, times the established yield, times the additional acres set aside.

"We have prepared examples for each farm and will be glad to explain the program as it relates to your individual farm," Mrs. Reeder said. She added, "If you desire to request an adjustment in your conserving base, you may file a request any time through sign-up."

Most payments under the 1972 programs have been completed and Mrs. Reeder says that anyone who has not received payment should check with the local office. "Remember, set-aside acreage is not to be grazed before October 15, 1972, and must be kept clean of noxious weeds," Mrs. Reeder concluded.

### Two Grass Fires Extinguished During Last Week End

Grass fires over the week end on two occasions brought out the Crowell Volunteer Fire Department to rural areas.

The first was late Friday afternoon southwest of Crowell on the Dick Todd place. Second was Saturday afternoon when the local department was called about eight miles west of Crowell to extinguish a fire along US 70.

### Jake Dentons Make Visit to California

Mr. and Mrs. Bob Little and Cara visited his sister, Mrs. Jake Denton, and husband in Crowell the latter part of July and Mr. and Mrs. Denton went back to California with them. They went by way of Amarillo to visit another brother, Floyd Little, and wife. En route to California they visited the Painted desert, petrified forest, Hoover Dam and Las Vegas.

The Dentons then went to the Bob Littles' home in Dos Palos and also their cabin in the foothills of Yosemite National Forest Park. There they spent five days touring on a tramway the valley, village and the mountain tops of Yosemite National Park.

The Dentons then visited Forestiere Underground Garden in Fresno. From there they visited their daughter, Mrs. Edgar Johnson, and family in Sunnyvale. San Francisco was the next stop, visiting the Golden Gate Bridge, China Town, Golden Gate State Park aquarium and museum of natural sciences. In San Jose they visited the Winchester Mystery House, one of the oldest, oddest, and famous houses.

The state capitol, Sacramento, was next to be seen, sighting Sutters Fort, on their way to Marysville to visit the families of Mart Denton and Ulis Denton in Grass Valley. They then went to Lake Tahoe, Nevada, and toured the Ponderosa Ranch (famed location of tv series of Bonanza), the famed Carson City and famed mining town of Virginia City; then to Reno, Nevada.

They left California from the San Francisco airport, and flew to Phoenix, Ariz., then Amarillo, and by car on to Crowell, Mr. and Mrs. F. C. Little spent the night here and attended Bethel Church with the Dentons Sunday morning.

### Headlights Are Installed on County Maintainer

Headlights have been mounted on one of the county's four maintainers so the vehicle can be used if needed in fighting range fires. A county maintainer, driven by Bill Bell, was credited by Deputy Sheriff Jackie Walker as being a big factor in saving many thousands of acres of grassland in the fire on the Waggoner estate last week. Bell cut fire guards with the maintainer.

Walker said plans are to mount headlights on all four of the county's maintainers.

## Studies 2 Semesters at German University

# PAUL STAPP TELLS OF STAY IN GERMANY

Paul Stapp, who has recently returned after studying at a university in Bonn, Germany, for two semesters, highlighted his experiences and showed slides he had made to members of the Women's Service League last Thursday. He was introduced by Ora Mae Fox.

He stated that classes were very different from those of American colleges. State supported, the education facilities have large classes, no social clubs, no

grading system and students are not obligated to attend lectures as no roll is kept. At the end of four years, the student is quizzed. Paul had taken three years of the German language before leaving the states, but still had difficulty communicating. He resided with a German family the first term.

He noted that the Rhine River is very polluted, but the residents often dressed in their best, paraded the walks and boat rides were available during holidays. Many sidewalk markets appear throughout the country.

The people are very interested in American politics and the Vietnam encounter. Stapp feels that English is recognized as the international business language. He classified the mail service as 'outstanding.' He pointed out that the American embassy in Germany is this nation's largest. One of his prized slides is that of the Beethoven House.

The son of Dr. and Mrs. Walter H. Stapp, Paul was able to visit surrounding parts of Europe including Amsterdam which he labeled "the rich capital of the world." Many of the young people are operating businesses in parts of the city.

## Remelle Marlow Is Speaker at Rotary Meeting

Miss Remelle Marlow, Crowell High School student and daughter of Mr. and Mrs. Bill Marlow, gave a very interesting talk to members of the Rotary Club Wednesday of last week. She told of a trip she made this past summer with a group of forty-nine other 4-Hers and their seven sponsors to Washington, D. C.

Remelle told about visiting the Senate and House chambers, the President's office, having lunch in the Supreme Court dining hall, Mount Vernon, the Washington monument, Lincoln memorial, the Smithsonian Institute and colonial Williamsburg, Va.

Marion Crowell was in charge of the program and introduced Miss Marlow.

Visitors in addition to Remelle were Rotarian Bob Knowles of Quannah and Colonel Wayne Steele, a former Crowell resident and brother-in-law of Rotarian Glen Goodwin. Col. Steele has returned to the States after two years duty in Guam, and will now be stationed at Omaha, Nebraska.

## Jacquelyn Brown Is New Correspondent in Truscott Community

Miss Ruth Brown, who has done an excellent job as news reporter in the Truscott and Gilliland communities for several years, has resigned that job, due to the many other activities of high school.

Her younger sister, Jacquelyn, is now writing the news from that area.

The girls are the daughters of Mr. and Mrs. Jack W. Brown, and are granddaughters of Mrs. Jack Brown and Mr. and Mrs. E. J. Jones, all of Truscott.

sisting at the reception table were Miss Beverly Nason, sister of the bridegroom, and Miss Beth McLellan.

After a short wedding trip, the couple will live in Electra.

Both the bride and bridegroom are 1971 graduates of Electra High School. The bride is presently employed at Centra Leather Goods in Frederick. The bridegroom is employed at Lincoln Tank Co. in Electra.

## STATE CAPITAL Highlights AND Sidelights

By Bill Boykin  
TEXAS PRESS ASSOCIATION

AUSTIN, TEX. — A recent statewide survey shows 22 per cent of Texans, or 2.5 million, are poor compared to a nationwide rate of 13 per cent.

Further, Texas accounts for nearly 10 per cent of the nation's

poor. Texas Office of Economic Opportunity submitted the 300-page report to Governor Preston Smith, terming it the most comprehensive study ever undertaken among the Texas poor.

The Rio Grande Valley area was shown as having the highest incidence of poverty in the state — 42.2 per cent of the population. East Texas was next with 29 per cent poverty rate.

The East Texas and Lower Rio Grande Valley areas also have the smallest proportion of persons completing high school.

About 55 per cent of the heads of poor households are employed, and 70 per cent of those have fulltime permanent jobs, according to the study.

Guidelines for the report set poverty level for a family of four at an annual income of \$3,800.

More than one-third of the Texas poor are children under 15, and four out of five are black or Mexican-American.

George P. Taylor, TOEO director, said the report will be the basis of programs to alleviate poverty in the state. Recommendations include bringing in new industry to decrease unemployment, housing expansion and better health care and food programs.

A proposed four-year anti-poverty plan for Texas would seek \$6.3 million in aid from national and regional OEO.

**SHOW DECLINE**—for the first time in three years, the number of Texas families with dependent children on welfare rolls declined last month.

There are 1,555 fewer AFDC recipients than a month before, the State Department of Public Welfare reported.

Welfare Commissioner Raymond W. Vowell attributed the reversal to a number of factors, including tighter controls on

AFDC program eligibility, vocational training and expanded day care programs to help mothers get to work.

The decline was the first in AFDC caseload since July 1969. Drop-off was from 447,967 recipients to 446,412.

A steady increase in recent years has been attributed to liberalized eligibility standards as ordered by federal courts and altered federal regulations. In late 1970 and early 1971, AFDC rolls swelled at a rate of 10,000 to 12,000 recipients a month. Growth slowed significantly in recent months.

Vowell directed caseworkers to return to the practice of holding personal interviews with AFDC applicants and recipients, verifying income, child support, domicile, household composition, and other factors affecting eligibility and the amount of assistance granted.

A massive recertification effort also has been ordered by which AFDC cases are being checked individually to determine whether a family situation has changed so as to affect the monthly assistance payment. A new policy also has been instituted requiring applicants to provide documentary evidence of child eligibility by birth or baptismal certificate or hospital record.

Fraud detection efforts have been stepped up, and 130 of 205 suspected cases have been referred to local prosecutors or grand juries.

**HIRING COMPLAINTS AIRED**—Texas state agencies were warned they don't have enough minority group employees.

Dr. Luther Holcomb, federal Equal Employment Opportunities Commission vice chairman, briefed the agencies on legislation making state governments subject to anti-discrimination regulations.

Six of the state agencies already face hiring complaints under the new law. Practices found discriminatory include asking of questions on job applications about race, religion, or arrest record, use of standardized tests, requirement of a high school diploma and insisting on photographs of job applicants.

## Jet Helicopter Visits Copper Breaks State Park

A Bell Jet-Ranger helicopter, stationed in Lubbock for the Texas Department of Public Safety, paid a visit to Copper Breaks State Park last Thursday.

Area Safety Officer Chester Fant said the visit had been planned to familiarize the helicopter crew with the park area for possible emergency work in the future.

The craft is used by the DPS for rescue work, traffic surveys and manhunts and would be available for emergency service relating to the park.

Bob Martin, park superintendent, made an air tour of the park area with the helicopter crew and other DPS officials, including Lt. Fred Marshall, service commander for safety education for Region 5; Lt. Carl Mullens, pilot; and Lt. Bill Meadows, co-pilot.

The helicopter is equipped with litters and other first aid equipment while the crew is trained in first aid work.
