## Area Around Thalia Is Flooded

### COLD FRONT BRINGS ADDITIONAL MOISTURE

More winter weather, this time a heavy winter rain, visited Foard County Saturday night and early Sunday, and measured 1.5 inches by the government gauge in Crowell.

The rain Saturday night was accompanied by high winds, lightning, thunder and a mixture of hail and sleet. The rains, coming on the tail-end of about 1.5 inches of snow and ice, literally flooded parts of the east section of the county. Paradise Creek just east of Thalia was out of its banks and across the highway for a time Sunday and water was also across the highway in Thalia where the farm-to-market road intersects U. S.

70. Cecil Carpenter estimated that Thalia received two inches, while up to three inches were reported around Archie Campbell's place on US 70 between Crowell and Thalia.

Calls to residents over the county Monday gave the following totals of rainfall:

An estimated 2 inches at the Halsell ranch, 2 inches at I. J. Jackson's place north of Crowell, 1 1/2 inches at the home of Mrs. W. O. Fish at Vivian and 2.4 inches at the Jack McGinnis farm in the Margaret community.

Mr. and Mrs. T. F. Lambert, Jr. of the Rayland community reported a heavy rain at their home with extra large snowflakes falling about noon Sunday.

Highway Department maintenance personnel were on duty at Thalia Sunday slowing down traffic before the vehicles reached the water across the highway.

The cold front which triggered the moisture did not drop the mercury much below freezing Monday, but by Tuesday morning, the temperature dropped to about 25 degrees.

## Former Crowell Residents Subject of Magazine Story

Two former Crowell residents are featured in the "How America Lives" section of the February, 1973, Ladies' Home Journal. The two are Mr. and Mrs. Henry Lee Sapp of Wichita Falls. She is the former Miss Barbara Ann McGee, daughter of Mr. and Mrs. Robert McGee, and granddaughter of Mr. and Mrs. Will Sillemont, all of Crowell. Both she, 23, and her husband, 25, are former Crowell residents.

The article in the national magazine deals with efforts by Mr. Sapp, a black veteran of the Vietnam war, to obtain a job following his return to civilian life. He is presently enrolled in Draughon's Business College in Wichita Falls, and his wife, a graduate of Draughon's, is now employed by Channel 6 television in Wichita Falls.

## Water Main Breaks in Middle of U. S. 70 West of Square

City and State Highway Department personnel were busy all day Thursday cutting through the concrete in the middle of US 70 and repairing a break in a water main.

The break was located less than a half-block west of the signal light.

Water Supt. Melvin Dishman added that a number of other breaks around town were caused by the extremely cold, bad weather week before last. He said that the unusually low temperature causes the water lines to contract causing a leak in the joint which has contracted.

## Total of 3,870 Bales Foard Cotton Classed at Altus

## Housing Authority Units Still Not Ready for Occupancy

Mrs. Wilma Cates, executive director for the Crowell Housing Authority, said Monday that a final inspection of the new 33 units is set for Monday, January 29.

Mrs. Cates said that if the weather permits, the inspection is made and the units approved, she should begin renting by February 5.

Delays in final completion of the units have been caused by a shortage of certain materials, as well as the inclement weather.

## Little Dribblers Basketball Is Organized for '73

The nostalgia of basketball is beginning to brew and the familiar "thump" of basketballs all over Foard County is beginning to fill the air.

Little Dribblers Basketball is beginning its third year in Crowell and last year's six-team league was the most successful ever. The 1972 all-star team placed second in the district tournament held at Anton, losing only to a tall Hale Center team.

"Everyone gets to play in Little Dribblers" is the motto and this one rule is what makes Little Dribblers Basketball such a success. Each team member present must play at least one full quarter.

The following League officers have been selected for 1973: Roy M. (Ace) Whitley, president; Floyd Borchardt, vice president; Warren Haynie, player agent.

The Crowell Rotary Club will again be the sponsor and will furnish score keepers and time keepers and assist in any way possible to make 1973 a banner year for LDB.

Registration of all players will be conducted in the local school beginning on Monday, January 29, and run through Friday, Feb. 2. Boys in the fourth, fifth and sixth grades will need to register; a fee of \$3.50 will be charged.

Decals will again be sold by the boys and the money they raise will be used for team charter, insurance and other expenses involved. Prizes will be awarded to top salesmen, as was done last year. Gordon Erwin and Mrs. Edith Cash will be in charge of registration.

Boys will remain on the team they were with last year; a draft of new players will be held at 7:30 p. m., Monday night, Feb. 5, at the community center.

The coaches are Bud McLain, Marion Crowell, Randy Adkins, Harvey Ward, Ike Everson and Gary Hobson. Anyone who would like to coach or assist is asked to contact any of these men or Mr. Whitley.

## FOARD COUNTY HISTORY TO BE AVAILABLE AGAIN IN FEBRUARY

### Pioneer Foard Resident Returns for Visit Last Week

An early day resident of Foard County came back to Crowell last Wednesday after an absence of about 70 years. He is Ebb Comper, 87, of Abilene, son of a pioneer family. He accompanied the Roscoe Blankenships, who frequently visit their Rotary friends, Mr. and Mrs. Grady Halbert.

Interestingly, Mr. Blankenship's father was the first superintendent of Crowell School—always known as the Crowell College and built soon after the county was organized. This school burned the night before Thanksgiving, 1897.

Roscoe's mother was a sister to Mrs. Comper and when they were here last year, the Halberts brought them to see Mrs. N. J. Roberts and on leaving he said, "I'm going home and get Uncle Ebb and come back." This visit was realized on Wednesday of last week.

Mrs. Roberts is one of the few living who attended the Old Crowell College. Mr. Blankenship was born in Crowell in 1897.

Mr. Comper said in passing the Thacker building (now home of Gentry's Grocery) he remembered his father hauled the rock from "somewhere up Peace River." That was in 1899, and nobody seems to be able to locate that quarry.

### Thousands of Starlings "Take Over" Cemetery

An invasion has taken place in Foard County! It is an invasion of birds at the local cemetery south of town.

James Welch said Monday that the birds are starlings, and they literally blacken the sky as they come in to roost shortly before dark each night. Welch and Doris Gentry, another observer of the bird invasion, both said they first saw the birds in such huge numbers last Friday.

They are actually weighting down and breaking limbs in trees in which they roost in such prodigious numbers.

## County of Foard and City of Crowell Receive Revenue-Sharing Checks

City of Crowell and Foard County received their second and final 1972 revenue sharing checks last week and will start receiving them every quarter during this five-year plan.

The City of Crowell received a check for \$3,281.00, Mrs. Wilma Cates, city secretary, said and she added that this was the exact amount of the first check received late last year.

City employees have been given a pay raise with part of the money with the remainder to be used for

### Cage Teams to See Action Friday, Saturday, Tuesday

Basketball season for Crowell is going into its final phase this week and next as the district race nears its conclusion with Knox City boys and girls both leading in the district race, as of last Friday night's action.

On Friday night at Wildcat gym, the next-to-the-last home games will be played as the Wildcats from Foard County host the Wildcats from Archer City.

Two games are scheduled with the girls' game set to begin at 6:30 and the varsity boys to play at 8.

On Saturday night, the Crowell teams go to Knox City for a make-up game, postponed during the recent bad weather. These are very important district games, and Coach Bob Cook is hoping a big crowd of local fans accompanies the team to Knox City.

Next Tuesday night, the three Wildcat teams travel to Paducah to take on the ever-dangerous Dragons. JV play at 5, girls at 6:30 and varsity boys at 8.

### "No Interest" Is Blamed for Halt to "Wildcat" News

The Wildcat news column in The Foard County News is being discontinued.

Mrs. Kenneth Halbert, advisor for the Wildcat news column for the past several years, said Tuesday a complete lack of interest on the part of elected reporters is the cause of the discontinuation of the weekly feature.

### Martin Jones Family Moves to Hale Center

Mr. and Mrs. Martin Jones and daughter, Angie, moved from Crowell to Hale Center Monday where they will make their new home.

Mr. Jones will be employed by Bill McClain, formerly of Crowell, at his Super Save store in Hale Center.

Angie will be a third grade student at Hale Center.

### Community Betterment, Mayor Robert Kincaid Said Monday

Foard County received slightly less in the last check than in the first. This last check, County Judge Leslie Thomas said Monday, was \$15,020.00, while the first check was \$15,652.00.

Judge Thomas said that two heater-cooler units were purchased with a part of the first revenue sharing money. These heater-cooler units were installed in the jail where the boiler for heating the building was going to have to be replaced.

The units were purchased from West Texas Utilities Co. in Crowell.

Also, the county plans to buy a motor grader with revenue sharing funds and is advertising for bids for a grader in this week's paper.

### Michael Eubanks on Dean's Honor List at Texas Tech

Michael L. Eubanks of Crowell, wildlife management major, was one of 365 students in the College of Agricultural Sciences at Texas Tech University in Lubbock to qualify for the dean's honor list for the 1972 fall semester, according to Dean Anson R. Bertrand.

Eubanks is the son of Mr. and Mrs. Earl Eubanks of Crowell.

The history of Foard County, "They Loved the Land," will make its second appearance in early February with a 112-page supplement including 125 more family histories following the second printing by the publishers, Nortex Offset Publications, Inc. of Quanah and Wichita Falls.

The massive 432-page book, printed on an 8 1/2 x 11-inch format, and bound in a gold colored cloth, is being re-issued for the Foard County Historical Survey Committee.

Orders for the book are now being taken for the Committee at The Foard County News in Crowell or at the Quanah Tribune-Chief in Quanah. The book will sell for \$15 plus the sales tax.

More than 1,000 copies of the first printing of "They Loved the Land" were sold with a limited number of the second edition to be available.

Paper bound copies of the 112-page addition to the original Foard County history containing the 125 family histories as well as scores of early day photographs and other historical data, will also be available. The 112-page supplement will be on sale at \$5 per copy plus tax as long as they last.

The Foard County history, authored by Rev. Bailey Phelps, former Quanah minister, with the cooperation of members of the Foard County Historical Survey Committee, originally made its appearance in 1969.

Mrs. Virgil Johnson, chairman of the Committee, said the response to the book has been remarkable, not only from Foard County residents, but from a host of former citizens whose families had a part in the history of the county.

In addition to the new supplement, Mrs. Johnson pointed out that errors appearing in the first printing have been corrected.

With the original 320 pages and the additional 112, a total of 432 pages, the Foard County history will prove to be one of the most complete county histories published in Texas.

In the 68 pages containing the new list of family histories, more than 140 photographs of current and early day residents are included.

Elsewhere in the 112-page addition are such features as "how dates were made," photos and biographies of Foard County judges, a history of Foard County hospitals, a spread on early day agriculture with rare pioneer photographs, photo sections of early day schools and classes and modes of transportation and a special photo section entitled "Looking Back" with 62 unusual photographs of early days scenes.

Under the miscellaneous section of the new supplement are features on "The Dugout Era," "Good Mail Delivery Service," "Oldest Cattle Brand," "The Buffalo Road," "George Cates and the Pony Express," "A Doctor's First Experience," "Candidate Speakings," "Crowell's Two Oldest Business Firms," "Old Margaret" and others.

In all, the new supplement contains more than 300 photographs in addition to the family histories and historical features.

Members of the Foard County Historical Survey Committee, whose years of work made the history book possible, include Mrs. Johnson, chairman; Mrs. L. A. Andrews, Mrs. N. J. Roberts, Mrs. Monroe Karcher, Mrs. John S. Ray, Mrs. Leon Solomon, Mrs. Ed Huskey, Mrs. Maude Hinds, Mrs. Gordon Cooper, Mrs. Grace McLaughlin, Mrs. Otis Gafford, who also illustrated the book, Mrs. Bill Bell, Mrs. Darvin Bell, Frank Cooper, Duane Johnson and County Judge Leslie Thomas.

The late W. A. Dunn was a member of the committee when the book was first published in 1969.

### 1973 Texas Public Schools Week Is March 5-9

Youth is the period of building up habits and hopes and faith.—Not an hour but is trembling with destinies; not a moment once passed, of which the appointed work can never be done again, or the neglected blow struck on the cold iron.—Ruskin.

Youth is a time for growth and imagination; creativity and something new to be learned every day. Isn't it nice there are schools?

Yes, schools are good. But schools are there because—first—there were parents who cared; parents who worked alongside education 119 years ago in Texas to build Texas schools and work to see them thrive.

Now, schools will remain because, as a parent, you feel a responsibility to know the kind of education your child receives; because, as a parent, you take time to keep our schools in check; because, as a parent, you care enough to visit your child in his classroom, March 5-9, Texas Public Schools Week in Texas.

Take an interest now. Your child will appreciate and remember it.

Visit a school during Texas Public Schools Week March 5-9.

ternal Revenue Service for North Texas, said this week.

Employers are reminded that the deadline to give employees their 1972 W-2 forms is Wednesday, January 31, 1973. The form should show earnings, income tax withheld and social security information. January 31 is also the deadline for reporting social security and withheld income taxes for the calendar quarter ended December 31, 1972. If employers make timely deposits of the full amount of the tax due, ten additional days are allowed to file the return. The director said that employers who received a pre-addressed form 941, "Employer's Quarterly Federal Tax Return," should use this form to report their tax liability. Other employers can obtain blank copies from IRS offices.

The last day of January is also the last day to report and pay any balance of federal unemployment tax not over \$100 for 1972, using form 940. If the balance of tax due is over \$100, the employer must make a deposit with FTD form 508. If the full amount of the tax is deposited on time, employers may then file the return no later than February 10, 1973.

Texas farmers and fishermen who did not file a declaration of estimated federal individual income tax by January 15 may have a tax deadline of March 1, 1973. Mr. Coppinger said that if at least two thirds of the gross income was earned from farming or fishing, and no estimate was filed by January 15, 1973, these taxpayers must file their 1972 federal income tax return and pay any tax

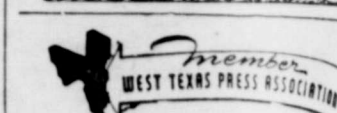

due by Thursday, March 1, to avoid penalty for underpayment of estimated tax.

Texas still cotton king... Weather and agriculture... Milk production is down but also shows gain... Planting dates set.

Texas will produce almost one-third of the total cotton grown in the nation during 1972. The Texas Crop and Livestock Reporting Service notes that upland cotton production in the state during 1972 is now estimated at 4,950,000 bales. Nationwide, the total for 1972 is now estimated at 13,472,500 bales.

For Texas, production in 1972 is almost double that of 1971. Yield per acre for 1972 is set at 377 pounds per acre compared with 263 pounds in 1971. Harvested acres are expected to total 5,150,000 compared with 4,700,000 acres in 1971.

The Southern High Plains—crop reporting district 1-S—is expected to produce 1,700,000 bales for 1972, or almost 400,000 more bales than the previous season. The Blacklands—district four—is in second place with an expected production of 475,000 bales compared with 356,000 bales the previous season.

Weather of recent days and weeks has delayed harvest on the High Plains. But even so, more than 80 per cent of the crop has been gathered compared to only about two-thirds completion a year ago.

Production of American-Pima cotton in Texas is expected to reach 31,000 bales compared with 35,300 bales in 1971. Yield is expected to average 431 pounds of lint per acre compared with 478 pounds in 1971. Harvest of the crop is virtually complete.

FULL effects of the worst snow storm in Texas in 100 years which occurred recently are still not known regarding agriculture. But losses will be heavy. The oat crop, which had been showing some improvement, suffered from the ice and snow. Citrus harvest has been hampered by the cold weather. Rainy weather halted harvest of cabbage and carrots.

In the coastal bend, spinach harvest is at hand. Vegetable growers in Central Texas are preparing land and applying fertilizer when field conditions permit.

Wheat seeding for the state is complete, and wheat grazing has been restricted due to wet fields. Soybean, grain sorghum, and pecan harvesting are all virtually completed.

The cold, wet weather has been hard on livestock throughout the state. Supplemental protein feeding and haying is widespread over the state.

MILK production in Texas during December was four per cent below a year earlier, but still two per cent above the previous month's production. Milk production per cow kept for milk averaged 730 pounds per cow during December, which is 30 pounds below a year earlier but 15 pounds above the previous month. Nationwide, milk production during December was virtually unchanged from a year ago. Milk cows on farms during December

He pointed out that due to the administration's orders, funds for a number of programs which could benefit this area have been cut. He pointed out that Mainstream funding has been frozen (this includes the LVN program planned to begin in the foreseeable future); economic development assistance funds have been stopped and Foard County has just recently been declared an economic

development area. It was being hoped by local authorities that the EDA designation for the county would bring in more federal funds, but apparently, Mr. Brown said, that has been stopped.

Housing loans in the rural areas have also been stopped, Mr. Brown noted.

He was introduced by his uncle, Rotarian Hubert Brown. Other guests were Rotarian Dick Slaton of Quanah and Norman Britts of Vernon.

# STATE CAPITAL Highlights AND Sidelights

By Bill Boykin  
TEXAS PRESS ASSOCIATION

AUSTIN, Tex.—Legislation to strengthen the open meetings law cleared the House State Affairs Committee promptly and landed as the first bill on the House calendar Monday.

The measure by Rep. Carl Parker of Port Arthur would delete from present law an exemption for conferences among staff members of a governmental body. It would also remove authority for the governing body to hold closed discussions with its attorney unless ethical obligations of the lawyer are involved.

The bill, backed by Speaker Price Daniel, Jr., would further increase the violation penalty to \$100-to-\$500 fine or imprisonment in county jail for a month to six months, or both.

A measure to guarantee access to public records was detoured to sub-committee.

**GOVERNOR ANNOUNCES PROGRAM** — New Gov. Dolph Briscoe swept into office last week laying down a wide-ranging program to the Legislature his second day on the job.

Briscoe emphasized the need for cooperation with legislators and other officials and said he intends to be "the most persistent lobbyist" lawmakers will see this year.

Tone of the Governor's inaugural address and initial legislative message (several supplements are promised to fill in specific details) appeared to impress legislators favorably.

Another alteration in which newspaper executive Hobby had a strong interest will require Senators to vote in open meeting on confirmation of appointments by the governor. They will still debate qualifications and character

of wiretapping as permitted under federal law and admission of oral confessions in criminal trials.

Briscoe's assertion that lowering of first offense marijuana possession penalties to misdemeanor status should await general revision of drug laws also brought some complaints. He planned to present his narcotics law revision to the Legislature this week.

Among the Governor's priority proposals:

Strengthening the lobby registration act and adoption of a new code of ethics, early creation of a constitutional revision commission, penal code revision, laws to curb "fences" of stolen property and give courts power to deny bail to dangerous offenders, requiring convicts to serve more of their sentences before becoming eligible for parole, more emphasis on vocational education and a requirement that spending bills be accompanied with long-range cost estimates.

**SENATE RULES ADOPTED** — Lt. Gov. Bill Hobby easily won his first big test of authority in the Senate when rules he favored were adopted 24-6.

One of the most significant rules for Hobby restored his power to appoint all Senate committees. A change adopted last September fixed appointments on the basis of seniority, leaving the lieutenant governor authority only to fill vacancies.

Another alteration in which newspaper executive Hobby had a strong interest will require Senators to vote in open meeting on confirmation of appointments by the governor. They will still debate qualifications and character

of appointees in closed sessions unless two-thirds of Senators vote otherwise.

Still another change in the rulebook will make it more difficult to resurrect bills on "minority reports" which have been "killed" in committee earlier. Two-thirds of the Senate must vote to permit substitution of minority reports for majority reports of committees. Hobby broke a 15-15 tie in favor of the two-thirds rule.

The Senate rejected amendments to permit shutting off filibusters after 24 hours, to permit Senators to elect their own committees and to throw debate on appointments wide open. They also turned down by a close margin an amendment to retain executive sessions for voting on appointments.

**COMMITTEES NAMED** — Hobby named veteran Senators to head Senate committees, but he gave vice-chairmanships and sub-committee chairmanships to freshmen.

Chairmanship assignments are: administration—Sen. Jack Hightower of Vernon; economic development—Sen. Tom Creighton of Mineral Wells; intergovernmental relations—Sen. Jim Wallace of Houston; education—Sen. Oscar Mauzy of Dallas; finance — Sen. A. M. Aikin of Paris; jurisprudence—Sen. Charles Herring of Austin; human resources—Sen. Chet Brooks of Pasadena; state affairs—Sen. Bill Moore of Bryan; and natural resources—Sen. Max Sherman of Amarillo.

**APPOINTMENTS** — Governor Briscoe named Mark W. White, Jr., 33, a Houston lawyer, as his Secretary of State, ending wide speculation.

Just before he left office, former Gov. Preston Smith named the new Texas Offshore Terminal Commission to plan a superport. Members are Joe Albritton of Houston, chairman; Floyd L. Dellinger of Sugarland; R. H. Pruett of Baytown; Sherman S. Ficks of Deer Park; George R. Brown of Houston, Pete S. Miller of Galveston, H. H. Reynolds of Beaumont, Cap. William F. Fredeman of Port Arthur and P. Burgess Griesenbesk of Austin.

Smith also named V. F. (Doc) Neuhaus of Mission to the North

of appointees in closed sessions unless two-thirds of Senators vote otherwise.

Smith also named V. F. (Doc) Neuhaus of Mission to the North

Texas University Board of Regents and Thomas F. Jenkins of Winnie and Dr. Frank L. Jennings (reappointment) to the Gulf Coast Waste Disposal Authority.

**WELFARE LAW COST TOLD** — New federal legislation may cost Texas another \$66 million in fiscal 1975, a special study committee reported.

"Findings indicate consequences for Texas are of far greater magnitude than those which might be supposed from federal estimates thus far," the committee said.

The federal government will pay cost of adult welfare recipients, but relaxed eligibility for medical care more than offsets state savings.

The committee estimated adult caseloads will more than double under the federal program.

**Short Snorts**

Big city school district enrollment has declined slightly.

Texas Supreme Court held illegal aliens from Mexico can collect job injury benefits just like U. S. citizens.

Texas State Teachers Association presented the Legislature its proposals to equalize educational opportunities among districts.

Texas Criminal Justice Council executive committee endorsed statewide prosecution authority for the attorney general, an electronic surveillance law patterned after the federal act and increased penalties for organized crime acts.

Speaker Daniel is backing legislation to curb the power of lawyer-legislators to delay trials by entering cases while a legislative session is in progress.

## Two Minutes with the Bible

by Cornelius R. Stam, Pres.  
Berean Bible Society, Chicago

Can the Law Save?

This writer does not wear clerical garb, but somehow when he visits a church away from home, someone is apt to step up to him and ask: "Are you by any chance a minister?"

Acts 13 tells how this once happened to Paul and Barnabas. They had entered a synagogue as strangers and simply sat down to listen. After "the reading of the law and the prophets," however, the leaders of the service sent someone to ask them: "Ye men and brethren, if ye have some word of exhortation for the people, say on" (vers. 14, 15). Somehow Paul and Barnabas had been recognized as men of God.

The custom at that time was to read a passage from the law and then some passage in which the prophets urged the people to observe the law. This was followed by an exhortation by one or more of the religious leaders present.

Well, Paul did have a word of exhortation for the people, but it would be somewhat of a surprise. Getting to the point of his message, he preached to them Christ and the resurrection, and closed his talk with the words: "Be it known unto you, therefore, men and brethren, that by this Man is preached unto you the forgiveness of sins; and by Him all that believe are justified from all things, from which ye could not be justified by the law of Moses" (vers. 38, 39).

This was the gist of his "exhortation": Don't trust in the law for salvation — trust in Christ, who died for your sins. This makes sense, and it agrees with the Bible as a whole. "By the law is the knowledge of sin" (Rom. 3:20); "it was added because of transgression" (Gal. 3:19); "for as many as are of the works of the law are under a curse" (Gal. 3:10); but "Christ hath redeemed us from the curse of the law, being made a curse for us" (Gal. 3:13). "Therefore we conclude that a man is justified by faith, without the deeds of the law" (Rom. 3:23).

It should be obvious that the law can only condemn sinners, but it is also a fact that Christ died for sinners, to save them from the condemnation of the law. "Therefore, being justified by faith we have peace with God, through our Lord Jesus Christ" (Rom. 5:1).

## Winter Storm of 1930 Is Recalled

Several comments have been received relative to a story in last week's News about the storm the preceding week being the worst winter storm in memory.

All those who refer to that statement point out that 1930 was a worse storm—in fact, snow stayed on the ground six weeks during that particularly bad winter.

**PLAIN TALK . . .**

All of us have at birth an abundance of time before us. When we attain maturity, most of us are willing to work eight hours a day. The competition for eight-hour-a-day jobs is, therefore, tremendous, and the rewards are correspondingly meager.

Eight-hour workers seldom get anywhere. How can they, when the rest of the world is willing to match their efforts? A hundred million men lined up, fairly started, and limited to a three-mile-per-hour speed will in eight hours cross the finish line 24 miles away exactly even.

Eight hours a day is a mental time limit that most of us set upon our success efforts. As a matter of fact, that is the minimum when we are without any objective save existence. Those who are going anywhere have no time limit, but have an objective. —James E. Wilson.

**Wildcat Cage Teams Win Games with Munday**

The Crowell basketball teams swept a triple bill night of basketball here last Friday when the local teams hosted the Munday Mogul teams.

The CHS varsity boys defeated the Moguls 70 to 38, with Jackie Houck leading the Wildcat scoring with 15 points. He also was outstanding on defense and rebounding. Philip Bell and Emmitt Newman each added 12 points to the Wildcat scoring effort. This win left Crowell 2-2 in district play.

The CHS varsity girls easily defeated the Mogul girls by a 72 to 35 score. Sandy Whitfield turned in a strong 26-point performance for the girl Cats. Carolyn Sparkman and Sharon Brown did a good job on defense with nine rebounds each. All the local girls saw action, Coach Bob Cook said Monday.

Like the boys, the girls, at the end of this game, were 2-2 in district.

The Crowell junior varsity squashed the Mogul JV 61 to 34. The 14-point performances of Dee Finley and Rayford Dorsey aided the Wildcat cause. Ricky Coleman and Ernie Myers mastered the boards. The local JV had a 7-6 season record at the end of the Friday night encounter.

**Admire the Youngster**

One cannot help but admire the youngster about whom this story was written in the Milwaukee Journal: 'David, a second-grader, was bumped while getting on the school bus and suffered a two-inch cut on his cheek. At recess he collided with another boy and two of his teeth were knocked loose. At noon while sliding on ice he fell and broke his wrist. Later at the hospital, his father noticed David was clutching a quarter in his good hand. "I found it on the ground when I fell," David said. "This is the first quarter I ever found. This sure is my lucky day."

# Correct Home Influence May Prevent Juvenile Delinquency

(Editor's note: The following article is reprinted from the Matador Tribune. Herman Fox, mentioned in the article, is a son of the late Herman Fox of Crowell. His subject is especially timely.)

A survey has shown that the average parent spends only seven minutes each week with his child and records show that 77 per cent of juvenile children in Texas are from divorced homes.

The starting figures are from an authority, Herman Fox, State Juvenile Parole Officer for a 16-county area, including Motley County.

He was the principal speaker at the first 1973 regular luncheon meeting of the Matador Lions Club, and was introduced by Lion Judge Forrest Campbell.

Previous to his talk, Vice President Ervin Willard acting as Boss Lion in the absence of President Pat Seigler, had announced that the club directors had voted \$40 to Girls Town.

Fox said Boys Ranch is the greatest institution in Texas for boys under 14 years of age and that Girls Town is doing an equal job in restoring young girls to society. He said that Boys Ranch has a long waiting list and asked, "What are you going to do with a boy while waiting to get him admitted to Boys Ranch?"

The speaker said people need to spend more time at home with their children, and need to see that they attend school and church regularly. He placed great emphasis, based on experience, on regular church attendance, to prevent boys and girls straying into delinquency.

The dedicated young officer pointed out that young people who break laws become wards, first of the county and then of the state, as their offenses increase. He pointed to the danger of youngsters losing interest in school to the point where they are behind others in the same

age group. Following his talk he answered several questions from the audience.

He said the greatest increase in juvenile delinquency is among young girls and he blamed it on the growing use of drugs, and the fact that more girls run away from home.

In conclusion he said: "But kids are good generally, with only three out of every 100 becoming juvenile delinquents."

## Space Program Set at School

Crowell Public School will host the National Aeronautics and Space Administration's mobile lecture-demonstration program at 9:30 a. m., January 31.

Representing the Manned Spacecraft Center, Houston, the program will be conducted by Thomas J. Hill. A member of the Oklahoma State University faculty, he has served as a space science specialist for four years, in addition to 10 years as a science teacher in public schools.

The NASA Space Science Education Project or "Spacemobile," as it has commonly become known during the past nine years, is a national program which is taken directly to students in their schools. Transported in a conventional panel truck, many scale models of launch vehicles, spacecrafts, satellites, electronic equipment, audiovisuals, and other equipment items are used for realistic and understandable demonstrations of many scientific principles and concepts involved in space exploration.

A typical program lasts for about an hour and following the auditorium program, the lecturer is available for classroom visits for further in-depth discussions of space topics directly related to specific disciplines or to the special interests of the students.

## Engravings Still Not Back After 10 Days in Mail

On Monday, January 15—about ten days ago, the News mailed two pictures to the engraver for engravings to be used in the News. Due to two things—slowness on the part of our engraver and the unavailability of the U. S. mails—the pictures have not yet been returned to the News.

We apologize to those people who have probably decided we are not going to use their pictures. We'll use them when we finally get them.
