

STATE CAPITAL Highlights AND Sidelights

by Bill Boykin
TEXAS PRESS ASSOCIATION

Legislators have more left to do than they have done so far in almost four years. The nearly 1,700 House bills and almost 1,000 Senate bills introduced, fewer than 100 actually reached the Governor's desk. The 63rd Legislature accomplished as much as the 62nd did numerically (more than 1,000 passed), about 99 per cent of the floor action must be capsuled in the brief period before the May 28 adjournment deadline.

Slow-moving debate in the House—where more than 200 amendments were offered—on the \$9.7 billion appropriation bill fanned some speculation that a special session may be necessary to complete mandatory work.

Gov. Dolph Briscoe, who holds the key to calling such a session, has made clear he doesn't want one.

Senators banged through their \$9.5 billion version of the state budget in an hour and 21 minutes. In spite of the two weeks spent on the House spending bill, Speaker Price Daniel Jr. maintained "plenty of time" remains to consider other "must" legislation.

Daniel predicted House passage of these measures before May 28:

- Mass transit.
- Drug law reform.
- Bills to improve fiscal responsibility in government appropriations.
- Restoral of capital punishment.
- Penal code revision.
- Water district reform.
- Public school finance.
- Competitive insurance rating.

While the work load appears staggering, Texas legislators are used to concentrating most of their floor action in the last month of their sessions.

CONSTITUTIONAL HEARINGS BEGIN—The Constitution

Revision Commission began the first of its three-months' series of hearings in the Panhandle and Far West Texas.

Initial hearings were held in Amarillo, Lubbock, El Paso, Midland-Odessa and San Angelo before moving South to San Antonio. A total of 18 hearings will hear citizens' views on how the constitution should be revised.

Witnesses offered suggestions on everything from dipping cattle in cold weather to legislative pay and the rights of individual citizens. Some told the Commission it should move cautiously in changing the constitution.

Further hearings are slated at Arlington, Texarkana, Tyler, Lufkin-Nacogdoches, Houston, Laredo, Corpus Christi, McAllen, Beaumont-Port Arthur-Orange, Abilene, Wichita Falls, Waco and Austin between now and the end of June.

FEE, JURY BILLS PASSED—Higher hunting and fishing license fees and lower age limits for jury service are virtually assured.

The Senate passed amended bills authorizing both and returned them to the House where they originated.

The hunting license will cost \$5.25 instead of \$3.35 and the fishing license \$4.35 instead of \$2.15. A combination license is available for \$8.75. Out-of-state hunters visiting Texas may pay \$37.50 for their licenses. A special, three-day, non-resident salt water fishing license can be obtained for \$1.25.

Under the new juror age legislation, 18-20-year-olds can serve on any Texas state court trial jury.

A bill to provide full maturity rights to the 18-20-year-olds finally passed the Senate and went to the House.

SCHOOL LAW REVISION PORDERED—Governor Briscoe said he is "optimistic" the Legislature can still turn out a bill revising the present system of financing public schools.

Briscoe emphasized he would discourage the idea of a special session on the school law revision, and prefers to meet the issue this year if a method can be found to defer new taxes to foot the bill.

Efforts are being made to "phase-in" the program over a six-year period to avoid an \$812 million tax bill which the contemplated revision would force in 1975.

Students Report on CHS Activities

by Babs Streit and Rhonda Vecera

The State FFA president, Frederick McClure, visited Crowell High Monday morning of last week during an assembly, and talked with the students. Everyone thoroughly enjoyed his speech, found him very interesting, and certainly welcome him back anytime.

The Student Council met Monday to discuss various projects. President Doug Pharis appointed committees for the intramural volleyball games held Tuesday and Wednesday, plus committees for the upcoming slave sale and all-school party. The council decided to give Remelle Marlow and the one-act play members money to help defray expenses on their respective trips to state meets. We wish everyone luck, and CHS is proud of you all!

The J. J.'s Heroes (those junior girls) won the girls' division of the intramural volleyball tournament, while Bob's Barons (sophomores) were the winners of the boys' division. In the girls' division, the Blue Jeans (seniors) ended up second, while Bob's Barons (sophomores) were third, and the Demons (freshmen), were last. In the boys' division, the Demons were second, the Blue Jeans third and J. J.'s Heroes fourth. The Student Council sponsors the annual tournament and the proceeds are used by the council to improve the school in some way.

Wednesday morning, recruiters from three branches spoke to the seniors. They were Chief Gerald Williams, Navy; Sgt. Bradley, Army, and Gunner Sgt. J. R. Lyselling, Marine Corps. The Air Force recruiter was unable to come on that day. Each man explained the basic training, educational opportunities, job opportunities, and pay as it is applied to each particular branch of service. They answered several questions that the seniors had concerning service in the armed forces.

The senior spotlight is Babs Streit. Babs is the 5'5" green-eyed, brown-haired daughter of Mr. and Mrs. James Streit. She is a member of the First Baptist Church of Vernon.

She has participated in basketball, volleyball, FHA and band for four years, chorus for three years, and Spanish Club and Student Council one year.

Babs was a cheerleader her junior and senior years. She was a chorus officer three years, band officer three, and FHA officer two. She was junior class reporter, senior class president, and Spanish Club president.

Babs was freshman class favorite, junior class favorite, most courteous her sophomore year, football sweetheart junior year, basketball co-captain senior year, and Miss CHS her senior year.

Babs has been a member of All-District, All-Region and All-Area bands her junior and senior years, and All-State band her junior year. She was also a member of the Tri-State Honor Band her junior year. She has participated in regional solo and ensemble contests for four years and in state solo and ensemble contests for the past three years.

Babs was who's who in English her junior year, and also received a letter of commendation for her PSAT score. This year she was the Betty Crocker homemaker of tomorrow, and a member of the Outstanding Teenagers of America, Who's Who among American High School Students, and American High School Students' Honor Society.

This week it was announced that Babs is salutatorian of the 1973 CHS graduating class.

Her favorites include: food—steak; color—yellow; song—Brian's Song; actor, Rock Hudson; actress, Susan St. James; subject—band; and hobbies—playing the flute, reading, and sewing.

She plans to major in music education at either the University of

Rains Clouding Sreworm Outlook

Screwworms like lots of moisture, so recent widespread rains over the state are clouding the outlook that has been generally bright up to now.

"The next few weeks will be critical as the weather gets warmer," points out county agent Joe Burkett. Warmer temperatures and a surplus moisture situation are a dangerous combination for screwworm development.

A case confirmed April 17 in DeWitt County indicates that screwworm flies are beginning to move northward from overwintering areas.

"In order to stay abreast of the situation and to initiate sterile fly drops where they are needed, screwworm program officials must depend on reports from individual farmers and ranchers," emphasizes Burkett. "That's why it's so important to check animals regularly and to submit any worm samples to the screwworm lab for identification. Prompt reporting is essential for sterile fly drops to be effective."

Sterile fly production at the Mission lab continues at a high rate, Burkett says. Almost a billion flies were released during March—70 per cent to Mexico and the remainder to Texas. All locations with confirmed cases are "hot spotted" with 200,000 flies a week for six weeks. In addition, regular grid patterns of fly releases are made weekly in southern Texas areas and overwintering areas of Mexico.

You and Your Lungs . . .

Most of the organs in your body are protected deep inside you. Your lungs are not sheltered.

Your lungs are almost directly in contact with the world—the air—outside. Every time you inhale, the outside world comes inside, exposing your lungs to millions of invisible particles and some harmful gases. Whether you live in the city or the country, there are dirt, dust, and plenty of pollutants in the air you breathe. Once pollutants get in your lungs, many stay there; there is no way to scrub them out. The only alternative is to keep them out in the first place, to clean up the air you breathe.

Most lung diseases—except for a small percentage that develop from inherited factors—are triggered by the germs and irritants you breathe in. TB germs and cold viruses are hazards you can inhale, for example. And each drag on a cigarette contains harmful gases and particles. Smoking, in fact, is the major cause of chronic lung diseases. General air pollution also contributes.

Preventing and controlling lung diseases is the goal of the North Texas Lung Association, the new name of the North Texas Tuberculosis and Respiratory Disease Association. The Association is working to give everyone's lungs a better break. Including yours. It's a matter of life and breath.

Mr. and Mrs. Grady Chapman of Wichita Falls visited the Tom Westbrooks Saturday.

Charles Welch of El Paso visited Mr. and Mrs. E. D. Welch, Jr. last week end.

Sue Brown of Crowell visited Mrs. J. R. Brown Sunday.

W. T. Short of Oklahoma City visited Mr. and Mrs. W. O. Solomon Saturday.

Several Truscott 4-Hers entered the District III 4-H demonstration contests in Wichita Falls Saturday. Michael Daniel and Billy Brown won second place in the junior team natural resources contest, Ruth Brown won first in the senior natural resource contest, Harold Myers and Christy Shaw were part of a team which won seventh in quarterhorse judging, and Jacquelyn Brown won second in the foods and nutrition demonstration contest. Congratulations to everybody! Also attending the contests from Truscott were Mmes. Don Daniel, Jack W. Brown, J. R. Brown and E. J. Jones.

Statistics Given on Drivers License Suspensions in County

The Texas Department of Public Safety has released its 1972 statistics on accidents and drivers license suspensions.

In Foard county, two persons were denied drivers licenses during the year and three had their licenses suspended.

The Highway Patrol investigated 37 accidents last year on roads in the County and seven persons received injuries in these accidents.

- Miss Barbara Swearingen.
- Mrs. Ora B. Russell.
- Morgan Price, Vernon.

iff Gerald King was patrolling the Lockett community area about 11 a. m. Tuesday in search of a 1971 Cadillac owned by Dr. M. J. Moore of Vernon, which had been stolen just minutes earlier, when he observed the Danny Reynolds residence near the Five-in-One community being burglarized.

Gras and Holley, seeing Deputy King approaching, raced away in a car bearing Tennessee license plates in the direction of the Pease River.

Deputy King then radioed for assistance and in minutes officers from Hardeman and Foard counties, Vernon and Texas Highway Patrolmen joined in the case.

The car bearing Gras and Holley missed a turn at a "T" intersection near the Pease River, at which time Deputy King captured Gras, driver of the car, but Holley escaped to the wooded river area.

A search was then organized which led to the capture of Holley about 3 p. m. Tuesday near Vernon.

Gras and Holley were charged in connection with seven burglaries of homes and four auto burglaries in Wilbarger County, four break-ins in Foard County, and one burglary in Foard County.

The Altus pair was charged with burglary before 46th District Court Magistrate Ruth Gobin who set bond at \$10,000 each. Gras and Holley were also charged with similar offense in Foard and Hardeman counties.

The home belonging to Mr. and Mrs. A. L. McGinnis east of Margaret was one of those burglarized.

Taken from the homes were guns, radios, old coins, money, stereos, jewelry, polished rocks and two-way radios.

Robert G. Cooper Wins Merit Scholarship

High School Senior Is Grandson of J. G. Cooper of Crowell

Highland Park High School senior Robert Glenn Cooper has been named a 1973 National Merit Scholarship winner. Son of Rev. and Mrs. Robert O. Cooper of 2904 Yale, Dallas, he has attended schools in the Park Cities from the elementary level.

The HP Student Council vice president placed second in the Hockaday Math Tournament and first in the W. T. White Level III Math Contest. He also won the National Math Association Award.

Physics Club vice president, he is a member of Round Table and of the German, math, government and physics clubs.

He was active in the McGovern campaign and is presently on the business staff of the school newspaper.

His other honors include placing second in the District Number Sense, and writing competitions, and third in spelling.

Glenn plans to major in physics in college. He has not yet decided which college he plans to attend.

His scholarship is sponsored by the DeLux Check Printers Foundation of St. Paul, Minnesota. This is consistent with the company's philosophy of helping the communities in which it resides.

Over 1100 high school seniors were named winners of four-year Merit Scholarships by Edward C. Smith, president of the National Merit Scholarship Corporation, in the first of three major announcements of Merit Scholarship winners to be made by NMSC this year.

The Merit Scholarships awarded provide between \$400 and \$6,000 for each winner (\$100 to \$1,500 per year), based upon the individual student's financial need.

Merit Scholarship winners were chosen from among a group of about 14,000 highly qualified students who became finalists in the 1973 Merit Program.

Other recent honors which have come to Glenn include first place in science at the District UIL meet and second place at the regional meet. He will go to Austin for the State meet early in May.

Also, he was recently given a special award by the Engineers Club of Dallas as the outstanding student in mathematics and science at Highland Park High School, and was chosen for membership in the National Honor Society.

Glenn is a grandson of Cooper of Crowell.
