WHEELS SQUEEZE CHUTE—Joe Haynie, 18-year-old son of Mr. and Mrs. Warren Haynie, pictured above standing beside the squeeze chute he has recently completed for use by his father in their cattle operations. Joe completed the chute early in the year, and almost completed it before he graduated from Crowell High School in May. An FFA project

under Marvin Myers, VA instructor, Joe spent literally hundreds of hours in building the chute and he said this week that he used about \$150 worth of materials. The chute has an automatic catch head gate and is mounted on wheels for easy mobility. It is designed for maximum convenience in the handling of cattle and calves.

Truscott Reunion Set for Aug. 31

The annual Truscott reunion has been scheduled for Saturday, August 31, by the sponsor of the annual event, the Truscott Home Demonstration Club.

Residents and former residents are invited to bring a basket supper and renew old acquaintances.

A1C George Eavenson Now in Germany

Bitburg, Germany—The son of a Crowell couple has been assigned to Bitburg AB, Germany, for duty with a unit of the U.S. Air Forces in Europe. Airman First Class George E. Eavenson, son of Mr. and Mrs. Earl E. Eavenson of Crowell, is a passenger and household goods specialist with the 36th Transportation Squadron. Previously assigned to Goodfellow AFB, Tex., the airman is a 1971 graduate of Crowell High School.

Football Booster Page Coming Soon

With football practice getting underway early next month, it will soon be time for the annual Wildcat football booster page which appears in the Foard County News each week during football season.

Let the Fighting Wildcats know you are a supporter by having your name on the page each week. It's only \$1.50 a week.

Call us at 684-4311 or come by and tell us soon.

Gilliland Plans Reunion on September 1st

The Gilliland community homecoming has been scheduled for Sunday, September 1, Mrs. Arthur Horne announced last week.

Residents and former residents of the community are invited to attend and bring a basket lunch. "Everyone has an invitation to come be with us and renew old acquaintances," Mrs. Horne added.

FOUR NEW VEHICLES

Four new vehicles were registered here last week, as follows:

August 5, Guillermo Rodriguez, 1974 Chevrolet pickup; August 6, S.W. Nichols, 1974 Chevrolet pickup; August 9, Elmer Davis, 1974 Chevrolet pickup; August 9, G. M. Moore, 1974 Ford pickup.

Football Practice Underway; Schedules Listed for Teams

Football practice getting underway here this week. Coach Ed Gidney has released the schedule for games this fall. The varsity schedule is as follows:

September 6, Quanah, here, 8 p.m.
September 13, Seymour, there, 8 p.m.

September 20, Memphis, here, 8 p.m.
September 27, Chillicothe, there, 8 p.m.

Swimming Pool Now Closed

With the start of school today, the Crowell swimming pool has been closed for another season. Gordon Erwin, manager, reported a good year for the pool, with the poorest attendance coming during the past week or two as cooler weather kept swimmers away. Most of the summer has been extremely hot and dry, which has been good for attendance.

Students Report for First Band Practice

The biggest first-day attendance ever reported for band practice greeted CHS Band Director James Streit at the meeting Monday night. A total of 79 young people attended the first band meeting.

and Mr. Streit said Tuesday he expects several more to begin practice this week, as they return from vacations.

The band was issued music Monday night. Practices were held Tuesday night and Wednesday morning. School will start Thursday, and in addition to the regular band practice during school hours, the band will hold additional practice sessions on Tuesday and Thursday nights during football season.

Jimmy Werley Family Buys Werley Home

Mr. and Mrs. Jimmy Dean and children, Dean and Beverly, have moved to Crowell to their new home. They recently purchased the brick house owned by Mrs. Paul Shirley on North Main Street. The family resided at their home on the Seymour highway east of Crowell.

Boll Weevil Damage Is Reported

Boll weevils are causing 5 to 15 per cent square damage in many cotton fields in Foard County is the report of Emory P. Boring, area entomologist, in his ninth insect report of the current season.

Mr. Boring cautioned cattlemen that increased horn fly activity can be expected on cattle as temperatures become cooler during August and September, and he advised producers to continue to inspect their cattle for screwworms.

Mr. and Mrs. Jimmy Russell Building Home

Mr. and Mrs. Jimmy Russell are moving soon to their new home being completed at their farm southeast of Crowell. The new house has a den, kitchen and bath. Mrs. Russell's former home was practically destroyed by a tornado which went through that area early in the year. The new home is being completed by Jim Henry.

Aug. 18-19 Best Time to Kill Johnson Grass

Clarence Garrett, Foard County farmer, said Monday that August 18 and 19 are the best times to kill Johnson grass this year.

Speech Courses Are Offered at C. H. S.

For the first time in a number of years, speech will not be offered in Crowell High School. Mrs. Jean Halbert had been teaching the speech courses, but she is not qualified to teach the new course, due to a new state law requiring that a teacher must

spend the majority of the school day teaching the subject which was the teacher's major. Mrs. Halbert's major was English. Mrs. Halbert would need at least 24 college hours of speech to be qualified to teach one class of speech. She currently has 6 college hours of speech.

Tell Us About Your College Student

With the beginning of the local schools today, colleges across the country will also be beginning their fall terms shortly.

As is usual in the fall, the News wants to publish a list of Foard County and Truscott students who are or will be attending college this fall.

If you have a college student in your family or know of someone who will be going away to college soon, call us at 684-4311.

TORNADO SIGHTED SUNDAY; SOME AREAS RECEIVE RAIN

Foard County received some scattered rains over the weekend, as well as a tornado or two which dipped down in the area east of Margaret. The rains were extremely spotted with the

heaviest amounts falling in the Thalia section. A tornado dipped down in the northeast part of the county about 1 p.m. Sunday out of a cloud which built up rapidly.

The first reports were of a tornado sighted in the Copper Breaks State Park area and it apparently moved in a southeasterly direction through the Margaret area. Several families congregated at the Tom Smith house east of Margaret to go to the storm cellar, and the funnel cloud was seen to the west of the Smith residence. Mr. and Mrs. J. G. Vaughn spotted the long funnel as they approached Highway 70 from the Seymour highway and several Crowell residents reported seeing the tornado to the northeast of town. No damage was reported from the cloud, which apparently struck only in fields and pastures.

Rainfall was extremely spotted. Friday night and early Saturday, over an inch fell in Crowell, the first measurable rainfall for the government gauge in over sixty days. The rainfall was heavier in the Thalia and Margaret areas. Mr. Vaughn said no rain fell at the Halsell Ranch where he lives. Four Corners reported about .3 inch, and Duane Johnson received about .3 at his farm in the Vivian community.

"Not enough to settle the dust" was reported from the Truscott area. Although coming later than was hoped for, the rains will undoubtedly benefit the cotton crop, which in most areas has spent the entire season trying to stay alive, and most of it has not grown very large.

School Board Hires Two More Bus Drivers

In a called meeting Monday night, members of the Crowell school board approved the payment of \$3,779 in current bills for the district. The group also made a preliminary study of the new budget. The budget as to be presented at the public hearing next Monday night will show about a \$50,000 increase in spending over the current

year—from \$352,000 to about \$405,000. It was reported to the board that the current year's budget will probably end up in the black.

The board, in other action, employed Daniel Navarro as school custodian and bus driver. Mr. and Mrs. Navarro and four children have recently moved to Crowell from Vernon and they are residing in the school rent house east of the elementary school. Also employed as bus driver Monday night was Ronnie Denton.

Other bus drivers include Lupe Santos, Pat McDaniel, Ray Quintero, Willie Rodriguez, Charles Nelson and M. L. Crosby.

A 5 cent raise in prices for the school cafeteria brings the cost at the beginning of school to 50 cents for kindergarten through fifth grade; 55 cents for sixth through twelfth grades; and 70 cents for staff. The board agreed to purchase a 1964 Chevrolet four-door for Borchardt-Goodwin Chevrolet as a feeder bus out of Truscott.

Football Field Parking Tickets Now on Sale

Parking tickets for the 1974 football season have been printed and are available at the school secretary's office in the court house.

As in the past, the season parking spaces are being reserved for the holders of last year, and they are urged to pick up their 1974 tickets as soon as possible or notify J. H. Gillespie, secretary, if they do not desire the parking space this year.

Price of the season parking space ticket is \$5.00 each.

Veterans recently separated from military service should follow a government time-table designed to assist their readjustment to civilian life, the Veterans Administration suggests.

Students Return to Classes Thursday

At 9:02 Thursday morning (today) the students in the Crowell Schools will begin the first period of the first day of the 1974-75 term. Buses will be arriving at the school between 8:35 and 8:40. According to a schedule of activities released last week, the

first bell rings at 8:57. Following is the daily schedule for high school:

9:02 to 9:57	First Period
10:00 to 10:55	Second Period
10:55 to 11:02	Break
11:05 to 12:00	Third Period
12:00 to 12:30	Noon
12:30 to 1:28	Fourth Period
1:31 to 2:26	Fifth Period
2:26 to 2:32	Break
2:35 to 3:30	Sixth Period

High School Principal L. H. Wall says when the bell rings for the end of class, students will have three minutes to get in the next class. Tardy bell will ring at the end of these three minutes. He added that class meetings and conference periods will be scheduled between 8:35 and 8:57 a.m.

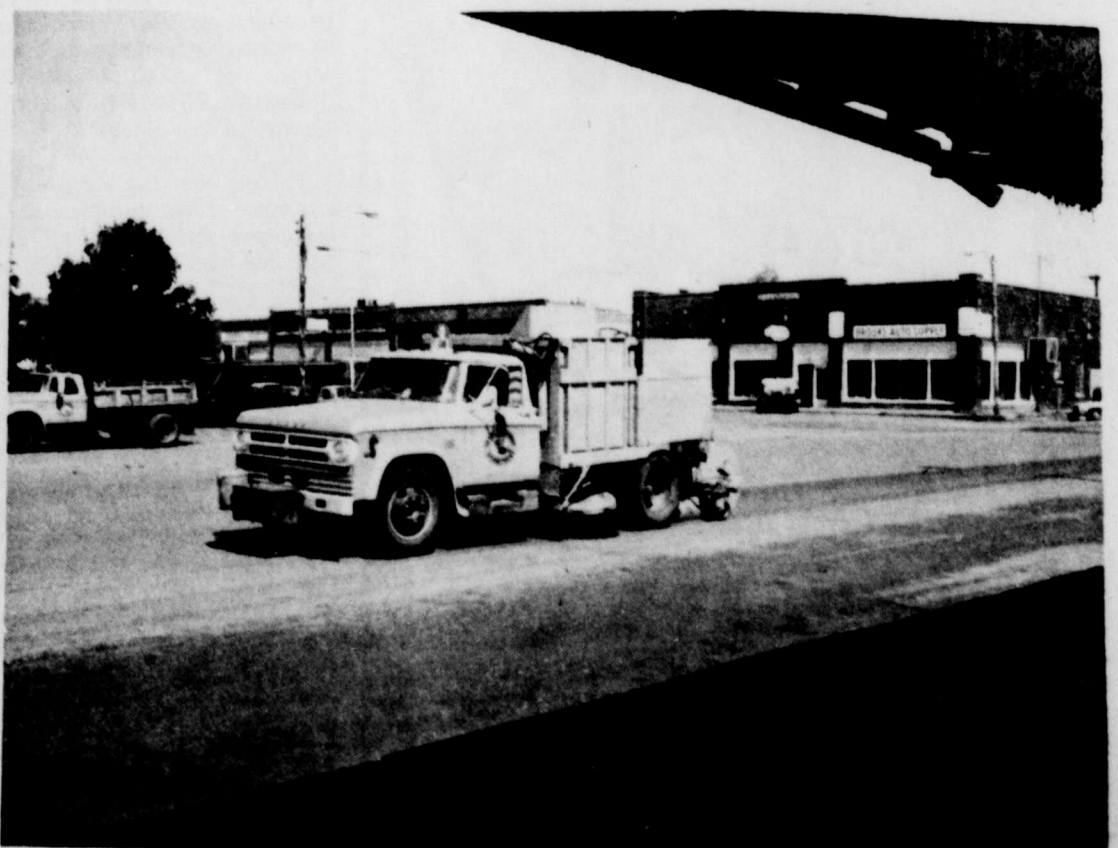

Gerald Ford Takes U. S. Presidency

Although it has been in the newspapers, on television and radio for a week, the following item is published in this week's News for the benefit of whoever writes the 30-years-ago column in 2003:

Gerald Ford, vice president of the United States, last Friday took the oath of office as President, following the resignation of Richard Nixon. Ford was appointed vice president about 8 months ago following the resignation of Spiro Agnew.

New Pastor Named at Thalia Baptist Church

Rev. and Mrs. Wallace Pierce have moved to Thalia to make their new home. Rev. Pierce is the new pastor of the Thalia Baptist Church.

SWEEP STREETS—This Texas Highway Department sweeper is pictured above on the east side of the square Tuesday morning as it

cleaned the streets and gutters around the square. The work did a great deal to improve the appearance of local streets.

Ross Mitchell of Plainview visited Marion Gentry Saturday morning.

Mr. and Mrs. A. Z. Pittman of Jacksboro visited Mr. and Mrs. Tom Smith and other Foard County friends Tuesday afternoon.

MONTROSE, CALIF., LEDGER

"It was discouraging, even for optimists, when the United States wrote off a few billion dollars 'loaned' to India to feed the starving people, and even more discouraging when Madame Ghandi (the peacemaker) used the money to develop an atomic bomb. People wondered, 'Why can't we have charity begin at home?' Well, in a way we have. Recent dispatches have it that Spiro Agnew has agreed to pay the government \$1,100 in settlements made to his home in Kenwood, Maryland, while he was Vice President. Feel better...?"

OLDEST — Charlie Smith, 132 years old on July 4, takes the sun in front of his candy store in Bartow, Florida. The Social Security Administration established his age by searching old slave

News from... THALIA Maggie Capps

Mrs. Eunice Banister Corzine of Fresno, Ca., is here visiting her sister, Mrs. O. C. Holland and husband and other relatives and friends and attending the series of meetings at the Church of Christ which is being conducted by her brother, John H. Banister of Dallas.

Mr. and Mrs. Jesse Moore visited their daughter, Mrs. Mike Herrington, Mr. Herrington and children in Hobbs, N.M. last weekend.

Mrs. Maggie Capps accompanied Mr. and Mrs. Duane Capps and Marshall and Mr. and Mrs. Bill Bearden of Vernon to Canyon Friday where they attended the pageant "Texas" in the Palo Duro Canyon. While there they saw Mr. and Mrs. Ray Eavenson of the Waggoner Ranch near Seymour. They were enroute to Colorado for a vacation trip.

Mr. and Mrs. Ira Tole, the John Toles of Tulsa, Mr. and Mrs. Raymond Grimm, Murl and Wilbur Eden, Mr. Fulton Davis, Mr. and Mrs. Morris McCarty and Mr. and Mrs. Roy Shultz all of Vernon, were visitors here Sunday.

Rev. and Mrs. Wallace Pierce, new pastor of the Baptist Church moved here Wednesday and has begun his work with the local church.

Billie Short of Kinsley, Kansas, spent the weekend with his mother, Mrs. Flora Short and other relatives and friends. He became ill and was taken to the Foard County Hospital in Crowell where he will remain for tests, etc.

Clinton Davis of Midland conducted the song services for the meeting at the Church of Christ held by John H. Banister of Dallas. He and his family are visiting his father in Vernon. The meeting closes Thursday, August 15.

Mr. and Mrs. Will Wisdom and Phyllis and Mrs. Tommie Patterson of Medicine Mounds visited the Wisdom families Sunday. They reported the death of Otis Burson of Levelland who died Tuesday of last week. He was the brother of the late Mrs. Buna McKinley and was known by many here. They had attended the funeral. He was an uncle of Mrs. William Wisdom and Mrs. Patterson.

Mrs. W. A. Johnson was returned home Sunday after a few days in the General Hospital in Vernon.

Mrs. Willie May (Doug) Tucker of Lockett visited Mrs. Maggie Capps and Mrs. Fred Brown Monday.

Mrs. Flora Short spent Monday with Mrs. Lana Glover in Crowell and visited her son, Billie in the hospital there.

Death Claims Thalia Woman

Mrs. Mary Zacek, 89, of Thalia, died Tuesday, August 6, in a Wichita Falls nursing home after an illness of several weeks.

Rosary was at 8:30 p. m. Wednesday, August 7, at Henderson-Fields Chapel and funeral mass was at 10 a. m. Thursday at Holy Family Catholic Church with Rev. Richard Beaumont of Wichita Falls officiating. Burial was in the Crowell Cemetery.

Mrs. Zacek was born Dec. 8, 1884, in Czechoslovakia as Mary Kventon. She came to this country in 1907, moving to San Angelo. She married Ignac Zacek May 23, 1907, in San Angelo. The family moved to the South Lockett community in 1912, and in 1925 moved to Thalia. She was a member of Holy Family Catholic Church.

Survivors include two sons, Ernest Zacek of Floyd, N. M., and Joe V. Zacek of Vernon; two daughters, Mrs. Elizabeth Coufal of Crowell and Mrs. Carl Davis of Wichita Falls; one brother, Fred Kventon of Abernathy; a sister, Mrs. Edward Zimbrick of Vista, Ca.; one grandson, Joe William Coufal of Thalia, and two great grandchildren.

She was preceded in death by her husband in 1966. Serving as bearers were John Matus, Robert Matus, John Kajs, Robert Kubicek, J. F. Matthews and J. J. Hrnctrik.

CARD OF THANKS

We would like to thank everyone who sent cards and flowers, brought food and who prayed for us in our time of sorrow. We would like to thank those who took care of him, Dr. Stapp, Recie Womack and the hospital staff for everything done to help our father and brother. It was so comforting to know how many friends he had. May God be with each and every one of you.

The family of Ed Gafford. 7-1tc

CATTLE FEEDING GROWTH PREDICTED

Cattle feeding in Texas should mushroom from 4.3 million head in 1972 to 7.3 million head by 1980, a 70 per cent increase, predicts a livestock marketing specialist for the Texas Agricultural Extension Service. Demand for beef should continue to rise steadily due to a larger population and a substantial increase in per capita disposable income. The cattle feeding industry is also expected to grow throughout the nation, so that Texas' share of the national

Bradford Family Meets Park for Reunion

Descendants of John B. Bradford met at the Club House in Park recently for family reunion. Five surviving sons were Ben Bradford, Curtis John Bradford, Buell and R. Y. Bradford. Bradford of El Paso was attending.

On Sunday morning spent visiting and re-acquainted. On morning, a short service conducted with G. C. Laney invocation. J. M. G. C. Laney read scriptures from Psalm 118:1-4 and 7:8-16. R. Y. Bradford read "God's Love Is on J. B. Bradford's face."

Family will meet next same place on the weekend in Aug. and all invited to visit with

Glen Conway, Brad, Brent and Barbara of Wichita Falls; Mr. and Mrs. Bob Bradford, Karen and Warren of Ada, Okla.

Attending from Vernon were Mrs. Ralph Bradford, Mr. and Mrs. Henry Bradford, Mr. and Mrs. J. W. Bradford, Tommy, Jay, Robert and Larry, Mr. and Mrs. Jimmy Bradford, Jimmy Ray, Jeff and Julie; Mrs. Florence Bradford, Mr. and Mrs. James Downes, Mike and Angela; Helen Brackeen and Mr. and Mrs. John Y. Bradford.

Friends attending were Judy Fondy of Slaton; Mr. and Mrs. G. C. Laney of Paducah, Mrs. Pearl Taylor of Los Angeles, Calif.; Mike Warden, Hobbs, N. M.; Mattie Boyd and Myrtle Murphy, Mr. and Mrs. Jim Owens and Mr. and Mrs. Ray Hysinger of Crowell; Jamie Lances of Oil Center, N. M.; Mrs. S. J. Boman, Mr. and Mrs. Ira Tole, Mike Marlow and Mr. and Mrs. Frank Gamble of Vernon.

Tastier Tomatoes Ahead For Shoppers

Tastier tomatoes are in the offing for consumers as the result of a new variety developed by agricultural scientists in Florida.

The new tomato can be harvested when it's fully ripe. Most present varieties are usually picked when pink-ripe to prevent spoilage before reaching consumers.

Called the Florida MH-1, the new variety is reported to hold up well in harvesting, packing, and shipping.

Market tests on the new red type showed strong customer preference for it over pink-ripe varieties.

Pork liver—the economy buy—is stronger in flavor and richer in iron than calves' liver. The outside membrane, blood vessels and connective tissues can be easily removed with a sharp knife before cooking.

Envelopes to fit every mailing job. Up to size 10x15 at the News office.

Former Crowell Man Electrocuted at Dumas

Melvin P. Jones, 52, of Dumas, and a former resident of Crowell, was electrocuted Friday morning of last week in an accident at the ensilage pit of the feedyard where he worked at Dumas.

Mr. Jones had been employed by Dumas Cattle Feeders since June, 1972. He was a 25-year resident of Dumas and had worked 22 years at the American Zinc Company smelter. He was reared in Crowell, and attended Crowell schools.

Funeral services were held Monday morning in the Bible

Baptist Church in Dumas with Rev. Jerry Clark officiating.

Surviving are his wife, Dorothy; one son, Danny Paul of the home; three daughters, Mrs. Connie Hamrick of Knowles, Ok., Mrs. Judy McDonald of Whitesboro, Ok., and Miss Jo Ellen Jones of the home; one brother, James Jones of Goodnight, and one sister, Mrs. Ellen Owens of Fort Worth.

Attending the services from Crowell were Mr. and Mrs. Clint Simmons, Mr. and Mrs. L. G. Simmons and Mr. and Mrs. Junior Pierce.

Northern Pike Grow Fastest in Texas

Few freshwater fish have inspired more controversy than the northern pike.

Opinions of their value range from considering them useless to valuable predators in lakes and rivers.

Texas Parks and Wildlife Department biologists placed 150,000 northern pike in Greenbelt Lake in 1967.

Greenbelt Lake in Donley County is typical of smaller Panhandle impoundments with populations of stunted white crappie and black blueheads.

The idea behind this stocking is an attempt at a "biological control" of overpopulations of less-desirable game fish such as stunted crappie and rough fish like gizzard shad. An added trophy fish for Texas anglers might be developed also.

In the comparatively warmer climates of the Texas Panhandle, the pike grew rapidly during the five years of the department study.

When compared with similarly aged fish from northern U.S. waters, the Texas pike far outgrew their northern cousins during the first few years of life.

After one year of growth in Greenbelt, a sample of fish was analyzed by department biologists Bill Rutledge and John Prentice. One of the largest fish taken after one year was some 21 inches long.

In the colder waters of Fort Randall, South Dakota, and Clear Lake, Iowa, fish of about the same age were only 12 inches long.

Up at Lake of the Woods, Minnesota, a pike after one year of growth was only eight inches in length.

Much the same comparison continued for the five years of sampling: a five-year-old Greenbelt fish averaged almost 35 inches in length; a Fort Randall fish, 32 inches; a Clear Lake pike, 28 inches; and a Minnesota fish, 22 inches.

Of course, as the fish increases in length, it grows heavier.

The current Texas State Fish Record northern pike taken by rod and reel weighed 13 pounds, four ounces and was 37 inches long. It was taken from Greenbelt in 1973.

Last May, TP&WD biologists netted a 38-inch 17½ pounder there.

Rutledge and Prentice's work

indicates that pike do not promise to be good biological controls for so-called "hard-rayed" fish such as sunfish but "soft-rayed" fish such as gizzard shad.

At the same time, Rutledge and Prentice think the northern pike shows promise as a "trophy" fish for Texas anglers.

"Specific lake conditions are required to provide self-sustaining populations of the fish," states their report. "The very restrictive reproduction requirements of the northern pike are probably the most important factors governing the success of this introduced species."

"Candidate lakes must have a rise in water level in early January and February that inundates dense stands of grasses and sedges. This increase must remain stable for at least one month."

During the first two years of the Parks and Wildlife Department's work with pike on Greenbelt, such water level conditions did come about and reproduction occurred.

Since then, biologists have found pike of such sizes that they must have come from natural reproduction.

During 1974, the department stocked some 32,000 pike in 12 Texas lakes: Bellwood, Cleburne State Park Lake, Eastland, Inks, Jacksboro, Marlin City, McCarty, Raven, Ratcliff, Sunshine, Town Lake and Tucker.

Another 5,000 pike/pickrel hybrids were stocked in Bounton Lake in Jasper County.

STATE HAY SHOW

October 9 is the date of the Texas State Hay Show. This year it will be held on the Harold Green Ranch east of Austin. The show will feature the judging of hay samples from throughout the state plus exhibits of the latest hay making equipment, according to Jack Doby, Travis County agent for the Texas Agricultural Extension Service.

September 20 is the deadline for submitting entries. These should be mailed or delivered to Doby at the Travis County Extension Office, 1000 San Antonio, Austin 78701. Each entry must be accompanied by a protein analysis or \$3.50 to cover the cost of a laboratory analysis.

When West Texas business profits, West Texans profit.

A lot of people in other parts of the country are saying business makes too much money -- too much profit. Luckily we don't hear it much in West Texas.

It's that kind of talk that can cost us all a lot -- maybe a lot more than we realize.

Profits in American business have been, for over 200 years now, the basis on which the American standard of living has evolved.

If a business isn't making a good profit it isn't going to be able to expand. And expansion is what provides more jobs and job advancement opportunities.

If a business isn't making a profit it can't feed its share of taxes into the economy. Taxes that help pay for things like better schools, hospitals, libraries, parks, recreational facilities and vital police and fire protection, as well as provide funds for hospitals, churches, museums and other civic projects.

But, most of all, if a business isn't making a profit it isn't going to be able to issue paychecks very long.

When West Texas
business profits,
West Texans
profit.

Foard County News—3 Crowell, Texas, August 15, 1974

STATE CAPITAL

AUSTIN, Tex. — Views of citizens on how to save current assets of the Texas coast while permitting its orderly economic development are being sampled in a series of public hearings.

Hearings are a major initial step in development of a Coastal Zone Management Plan.

More than 150 representatives of business, labor, agriculture, industry and environmental groups outlined expectations for the plan at a workshop here last week.

Need for a balance between economic development and protection of natural resources emerged as the key element for the CZM plan.

CZM is concerned with economic development, urban population growth, water supply, local control, residential and resort home development and power plant siting.

Hearings are slated for August 13 in Harlingen, August 28 in Corpus Christi, September 5 in Victoria, September 12 in Beaumont, September 23 in Houston, September 24 in Galveston and September 27 in Austin.

The technical phase of the program starting in the fall will seek to arrive at estimates of demands on coastal resources, assess capability of resources to support the demands and to evaluate possible management mechanisms.

After more hearings in 1975 and 1976, final recommendations resulting from the plan will be made to the legislature in September, 1976.

DPS CHECK ASKED — Gov. Dolph Briscoe asked a full report on intelligence activities of the Department of Public Safety.

Briscoe said he would not rule out a separate citizens committee inquiry into DPS surveillance of individuals, but he will look at a DPS report before asking any further probe.

Surveillance activities of DPS came under critical scrutiny due to an agent's report on Robert W. Pomeroy, who led a citizens' group opposing a nuclear power plant near Fort Worth. DPS Director Wilson Speir has apologized for the Pomeroy report, and noted that it was never made a part of DPS permanent files since Pomeroy was not engaged in illegal activity.

Meanwhile, the state Senate's Jurisprudence Committee will have a select sub-committee headed by Sen. Oscar Mauzy of Dallas checking into the Pomeroy case and, generally, into invasion of privacy issues.

AG OPINIONS — Atty. Gen. John Hill held the state Office of Traffic Safety isn't authorized to sell T-shirts with a "drive friendly" logo to finance a traffic safety program.

In other recent opinions, Hill concluded:

- Willacy County cannot use federal revenue sharing funds to support its hospital district or a non-profit clinic for low-income residents.

- Texas Tech University can purchase group term life insurance from mutual companies by its faculty and staff.

- Blood donors over 18 are entitled to the same compensation as those over 21, regardless of a state statute.

- Parttime employment as social workers is not prohibited under the dual employment prohibition of Texas law.

- A statute exempting from forced sale for taxes homesteads of persons over 65 is constitutional.

- A county may locate its juvenile detention facility in the same building as its county jail, as long as juvenile and adult offenders do not come in contact with each other.

- A district judge may assess as court costs reasonable investigators' fees for social studies called for in the family code.

APPOINTMENTS — Dr. Hugh Meredith has been named president of Sul Ross State University, effective September 1.

Kenneth Decker has been promoted to agent-in-charge of the 122-member DPA narcotics service, and Benny C. Boyd is assistant agent-in-charge.

Robert G. Welsh of Corpus Christi will succeed J. C. Roberts as Texas Highway Department district engineer in Abilene.

Rights Commission adopted a final determination of water rights in the Cibolo Creek Watershed of San Antonio River Basin.

The area was the first in the state to receive a complete adjudication of water rights under the 1967 Water Rights Adjudication Act.

The determination and the entire record of the proceedings will be filed in district court in San Antonio. The watershed contains parts of Kendall, Bexar, Comal, Guadalupe, Wilson and Karnes Counties.

INSURANCE OF ALL KINDS

Hughston Insurance Agency

PRISON PLAN CARRIED OUT — Agreed - on procedures were used to handle the Fred Gomez Carrasco siege at Huntsville prison.

according to Governor Briscoe.

Briscoe said a variety of contingency plans had been approved for any emergency at the prison.

Conserve & Save Energy

...Use it wisely

Reddy's consumer tips on... washers

Plan Ahead
Sort clothes according to type of fabric, color, fastness, degree of soil and garment construction. You'll save both hot water and electricity by doing similar items together. Accumulate a full load before running your washer.

Be Selective
Choose the cycle that is precisely appropriate for the clothes you are washing. Is a "hot" temperature setting really necessary? Except for heavily soiled items, most loads will come clean in either a cold or warm wash. Toss into cold wash detergents.

Use the least amount of detergent that will get your clothes clean—most loads require only an ounce or less! Overloading causes extra strain and wear on your equipment; check the manufacturer's recommendations for load weight. Balance your load by alternating small and large items.

For Safety Sake
Be sure control is "off" before reaching into your washer. If one is necessary, use only a heavy-duty extension cord. Be sure your washer is grounded. Keep dry cleaning agents, color remover and Filter-glas out of your washer. It's a good idea not to wash clothes containing cleaning fluids in your washer.

Remember Reddy supplies the energy—but only you can use it wisely!

Farm-facts

A Weekly Report Of Agri-Business News

Farm-facts

Compiled From Sources
Of The Texas Department of Agriculture
John C. White, Commissioner

Historical Renewal... Weather Typical... More Red Meat... Broiler Production Up

ALMOST 1,000 farmers and ranchers have written for application blanks in Texas Department of Agriculture's Family Land Heritage Program. Possibly that should be a surprising figure considering the fact that Texas farm population has been declining for the past quarter century; but the number of applicants indicates that there are many Texans who have loved and love the land enough to stay with it 100 or more years and to engage in the basic industry of the world, raising food and fiber. The Heritage program has stimulated a renewed interest in the history of our farms and ranches, not only among history buffs but also in many of the people who live on those farms and ranches. Some have gone to the trouble to look up the historical records of their farms and ranches and of their ancestors who started on them and made the earliest developments in our State. Records in county clerks' and county tax assessors' offices and probably in the State Archives are being searched for historical data. The research has been a rewarding experience for those doing the digging.

TYPICAL SUMMER weather is the way Texas Crop and Livestock Reporting Service describes the weather the past few weeks. Showers have dotted a portion of the state, relieving a few areas temporarily from dry conditions and heat. Peanut harvest is getting underway in South Texas, and sorghum harvest is 36 per cent complete and rice harvest about 25 per cent complete. Most corn from the Low Plains southward is mature, and is tussling on the High Plains. The western half of the State continues to suffer from the drought and many herds are being culled closely. Stock water is short in some areas, necessitating hauling, and is getting short in other areas. Range conditions are fair in the Eastern section of the State, depending on the amount of rain that has fallen, and hay crops have been good in a few areas. However, most sections need more rain for a third cutting of hay.

TEXAS RED meat production in June totaled 195 million pounds, an increase of six per cent over the same month last year but three per cent less than during May, 1974. Texas Crop and Livestock Reporting Service says that 1,130 million pounds of red meat were produced in the State during the first six months of this year, an increase of four per cent over the same period last year. During this time, 1,789,000 head of cattle were killed, 715,000 hogs, and 722,500 sheep and lambs. The number of hogs slaughtered was 15 per cent below the number slaughtered during the first six months of 1973; and the number of sheep and lambs killed for food was three per cent more than for the same period last year. Stocker cattle on farms and ranches July 1 were estimated at 6,447,000 head compared to 6,495,000 on the same date in 1973.

Hints for Homemaker

SALLY SOWELL
Assistant County Extension Agent

Time for school to begin is just in sight. What better time to start a new habit or re-examine the old habit of eating a nutritious breakfast?

Can you pass the breakfast test? A 3 point test of a good breakfast is:

1. It gives you protein, vitamins, and minerals needed to build and repair the body and

to keep you healthy.
2. It provides energy fuel for the body.

3. It tastes good.

Breakfast is an important meal. It provides a fourth of the day's nutritional requirements. It should include a good source of protein, a cereal product, a fruit, and milk. These foods contribute to the over-all health of young and old alike.

The bad habit of skipping breakfast causes a loss of efficiency to work, much ill health, and a lot of bad manners. In the morning our body stores are depleted after the long fast since the evening meal. If they are not replenished with a good breakfast, certain functions become impaired. Hunger, whether felt or not sets in and with it comes weakness and irritability.

The ideal situation at breakfast time is for all the family to enjoy a leisurely meal together, but sometimes this isn't possible. This is no reason to skip breakfast completely. A cafeteria-style breakfast can be a blessing for the family with different time schedules. The menu includes fruit juice, frozen pancakes or waffles, sausage or ham, syrup, margarine, milk and coffee. The fruit juice "waits" in the refrigerator ready to be poured in the help yourself meal. The frozen pancakes or waffles "wait" in the freezer too. They may be heated in a toaster or broiler to be restored to their good taste and crispness. The cooked ham or sausage may be wrapped in foil and left in the oven to keep hot.

Remember a good breakfast starts a good day.

Quartet Gives Program at WSL Meeting

A male quartet comprised of Doug Pharis, Rickey Nichols, David and Steve Stapp sang a medley of religious selections at the Women's Service League meeting last Thursday. They were accompanied at the piano by Mrs. Peggy Nichols. Mrs. Fern McKown introduced the group.

They also presented a well-received rendition of "Good Night, Irene". The young men first sang as a group while they were painting the garage of the Baptist parsonage. They soon became aware of an audience.

This week's WSL meeting will be devoted to business.

Plenty of Foard County history books and supplements still available at the News office. Get yours before they're all gone.

The above rates are All Existing Certificates of Deposit in force with this bank.

Federal law and regulation prohibit the payment of a time deposit prior to maturity unless three months of the interest thereon is forfeited and interest on the amount withdrawn is reduced to the passbook rate.

Water Purchases From Greenbelt Set Record

The hot and dry month of July saw the Greenbelt Municipal and Industrial Water Authority sell the largest amount of water in its history and Crowell purchasing the largest amount

of water ever during the month of July.

Total consumption from the Greenbelt was 168,021,000 gallons and Crowell's purchase was 15,350,000 gallons which is

some 3 million gallons more than the city bought during the first year of Greenbelt—12,715,000 gallons in 1970.

For the first time since the Greenbelt, Clarendon became the second largest user with 34,284,000 gallons. The largest consumption moved Quannah into third place with 29,373,000 gallons.

Comparison usage of the member cities with the same month a year ago is as follows, with 1973 listed first: Childress, 39,195,000 and 60,485,000; Quannah, 19,428,000 and 29,373,000; Clarendon, 18,568,000 and 34,284,000; Crowell, 14,776,000 and 15,350,000, and Hedley, 3,001,000 and 4,797,000.

The Red River Authority, which provides water for the rural areas, continued to show tremendous growth in consumption. In July of 1973 Red River purchased 10,751,000 and a total of 17,440,000 in 1974.

For the Copper Breaks State Park bought from the Greenbelt for the first time and purchased 225,000 gallons.

Consumption at Bestwell went from 5,796,000 to 6,067,000 gallons.

"The tremendous increase in consumption of water from the Greenbelt shows further the immediate need for additional reservoirs," said Jimmy Kuhn, general manager.

The Authority has requested a grant from the Farmers Home Administration to erect reservoirs at Childress and between Quannah and Crowell.

Get in Shape for Fall Hunting Seasons

Fall dove hunting in Texas heat can be exhausting work, according to Texas Parks and Wildlife Department officials.

The exertion of walking combined with September heat can drain the hunter's energies quickly. For this reason, Texas

Parks and Wildlife Department officials stress physical conditioning before the season starts in September.

Hunters, they say, should try to spend some time outside their air conditioned confines and try to get in some walking.

If they have been sedentary most of the summer, hunters should start slowly with any exercise program. A check with the family doctor is a good idea preceding the new fitness regimen.

The better fit the hunter, the more he can enjoy the sport because of better endurance. And if he is physically fit, the hunter can recover faster from a fatiguing day tramping the fields.

Former Resident Died

Mrs. M. T. (Floy) Carter, 76, of Vernon and a former resident of Foard County, died Wednesday, August 7, in a Wichita Falls hospital after a brief illness.

Funeral services were held at 10 a. m. Friday, August 9, in Henderson-Fields Chapel with Rev. M. W. Reynolds, pastor of Texas Street Methodist Church, officiating. Interment was in Wilbarger Memorial Park.

Mrs. Carter was born April 21, 1898, in Dundee and moved to Wilbarger County in 1918 from Post. She married Mr. Carter Feb. 15, 1920, in Foard County. He preceded her in death March 25, 1958.

She was a member of the Methodist Church.

Survivors include two sons, Bud Carter of Vernon and Mack Carter of Electra; one daughter, Mrs. Guinn Simons of Denton, six grandchildren, four great grandchildren and several nieces and nephews.

Bearers were G. A. Shivers, Jack Mints, Herbert Hawkins, Karl Karcher, Lee Roberson and Leroy King.

The Chief of Medicine at the Veterans Administration hospital in Philadelphia, Pa., Dr. Truman G. Schnabel Jr., was installed as President of the American College of Physicians at the 55th annual meeting of the 21,000 member organization.

House Cleaning Needed in Four Winds RC&D Area

by Von Kleibrink,
Project Coordinator

A house cleaning can aid the Four Winds area to attract new industry and improve overall social conditions. The 1970 census indicates that over ten percent of the houses within the Four Winds area towns are vacant, for sale, or for rent. The same percentage of houses lack some or all plumbing facilities. These houses are vacant, for sale, or for rent due to their not

being in a livable condition. Due to deterioration, neglect or vandalism, these houses are falling apart, have windows out, and are decaying. In most cases, grass has grown up around the houses and litter has not been removed. This results in an unsanitary, unsafe, and unattractive situation for residence and individuals trying to locate within the area for living quarters or for business

location. These homes should either be restored to a usable condition or should be destroyed having the space cleared of litter that would provide an attractive open space area or location for future building.

The City of Quannah is presently having a house cleaning. Richard Hope, Assistant Fire Marshall, is heading up the project by requesting permission from owners to destroy houses that are in a deteriorated condition, unsafe, and are a fire hazard to the community. This clean up project is a joint effort of the city and county personnel and equipment to remove old structures and getting the lots cleaned so they can be moved or shredded to provide a more attractive and safe community for local and new residents within the area.

Houses destroyed that were not being occupied, sold, or rented can be replaced with modern dwellings. Financing is available through local sources or Farmers Home Administration for individual housing units. Loans can be obtained from Farmers Home Administration, Housing and Urban Development and other sources for now housing projects.

More Beef Cow Farms Is Current Trend

The current trend in the beef cattle industry is toward more beef cow farms, says a livestock marketing specialist for the Texas Agricultural Extension Service. But the farm owner is changing.

"This is of significance to the purebred breeder because it means an expanded market for bulls and heifers," explains Ernest E. Davis.

Texas' commercial farms with beef cows and heifers that have calved increased in number by more than 17,800 from 1964 to 1969. Texas' Census data indicate a 35 per cent increase of medium sized farms of 20 to 99 cows and a 13 per cent increase of farms of 100 to 499 cows while ranches of more than 500 cows remained constant.

What has brought the increase in beef cow farms?

"Many new landowners who bought land for other reasons have decided to raise cattle," explains Davis. "There's that urge to run a few cows. There is a prestigious image associated with being a rancher or cowman, especially in Texas and the Southwest. Furthermore, some supplemental income can be derived from cattle."

This new breed of cattlemen is generally a cattle hobbyist who knows little or nothing about any breed of cattle, says the specialist. He must be introduced to and convinced of the merits of the breed he eventually chooses. Thus breeders must implement awareness and educational programs to reach and sell to this new client.

Of course, the purebred breeder should not forget his other customer, the commercial cow-calf operator, cautions Davis. These cowmen are producing beef to meet the demands of consumers, retailers, packers and feedlots. "So, not only must cattle breeders recognize the role a breed has in producing the market animal of today and tomorrow, but they must also be cognizant of new customers or new trends affecting the market," adds Davis.

A new Veterans Administration center specializing treatment for amputees, opened recently at the Denver VA hospital, increased to 20 the number of these centers operating in the country.

Why should you join the Payroll Savings Plan now? Maybe you'll find out later.

The future can be too late for saving. So if you want security, you'd better start today.

The Payroll Savings Plan makes it easy. Because an amount you choose is automatically set aside from each paycheck to buy U.S. Savings Bonds. That way, your savings build, year after year.

So start today. Because tomorrow, today will be yesterday.

Note: Bonds pay 4% interest when held to maturity of 5 years. After the first year, bonds are registered if lost, stolen or destroyed. When needed, they can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Take stock in America. Join the Payroll Savings Plan.

We are licensed to sell Pre-Need or Pre-Arranged Funerals by the State Banking Commission.

See us soon for detailed information.

Bayer Family Has Reunion

The eighteenth annual Bayer reunion was held at the Coleman Park in Brownfield, August 8th, 9th, and 10th. Ninety-eight relatives and friends gathered to celebrate the reunion. This was the largest crowd ever to attend. Seven of the ten living children of Emil and Agnes Bayer were present to renew old memories and make new acquaintances. The Halencak family was the second largest family with most members present, five children and 10 grandchildren.

Ray Krichke of San Antonio displayed the Bayer family tree with the latest additions. Three days of togetherness, home cooked food, picture taking, and color slides were enjoyed both nights. Time was spent visiting, playing games, bowling and swimming. The old folks played 42 like in the old days. The Bayer children exchanged gifts and collectables were enjoyed. One brother and one sister were unable to attend.

Attending the reunion from this area were Mr. and Mrs. Anton Kubicek, Mr. and Mrs. Lonnie Halencak of Rayland, Mr. and Mrs. B. J. Halencak and family of Margaret, Mr. and Mrs. Ray Halencak and family of Wichita Falls, Mr. and Mrs. Nile Bryant and family of Floydada. The reunion has been held each year for eighteen years and this is the first time Mrs. Frank Halencak, now of Vernon, has been unable to attend. Mrs. Kubicek said.

Drouth, Other Problems Besetting Trees

Drouth conditions are combining with disease problems and construction damage to cause the demise of some shade trees in many areas of Texas, reports a plant pathologist for the Texas Agricultural Extension Service. Oak decline, caused by a fungus, is the most common disease affecting shade trees in the state. It weakens root systems, and this is aggravated by dry conditions. Post oaks are sensitive to

construction damage. Oaks are more tolerant than other trees, and fill soil equipment should be used especially around post oaks.

30 Years Ago in The News

News items below were taken from the Thursday, August 10, 1944 issue of The Foard County News:

Mrs. G. L. Scott is in receipt of several mementos of the conflict in the South Pacific sent by her son, David Scott, MM 1-C, who is at present located in the Admiralty Islands. She has a dagger, with the handle made in an attractive manner from the decorative features of a Japanese bomber.

According to The Stars and Stripes, T-5 Fred R. Vecera of Crowell is a guy who looks for trouble. As an armor artificer in the Second Division, Vecera has a comparatively safe job but has volunteered several times for sniper hunting patrol duty. He is the son of Mr. and Mrs. Tom Vecera.

According to instructions received in the county AAA office from State AAA officials, the lumber situation is becoming more critical from day to day, due to heavy demands of the military forces and less lumber being manufactured due to labor conditions, etc., according to Clinton McLain, county AAA chairman.

County Agent D. F. Eaton makes a final appeal for farmers and ranchers to go to the polls Saturday and cast their ballots for the creation of a soil conservation district in this county.

The official tabulation of the Fifth War loan campaign has just been released by the Federal Reserve Bank, county chairman George Self said Wednesday. With a quota of \$145,000, Foard County bought \$217,131.50, exceeding its quota by \$72,131.50.

Sgt. Jack W. Thomas and Mrs. Thomas of Dalhart are here visiting relatives.

Sgt. L. G. Simmons, who is somewhere in New Guinea, has recently been promoted to staff sergeant, according to information received by his parents, Mr. and Mrs. Clint Simmons.

Miss Wanda Cobb, who has been counselor at Kiwanis Girl Scout camp in Dallas, arrived home last Saturday for a visit with her parents.

More than 35,000 trains run in the United States every day, seven days a week and 365 days a year, and with very few exceptions they run without accidents, local Santa Fe officials announced this week.

Miss Mildred Marlow of Fort Worth became the bride of Delmar Paul McBeath, S 2-C, who is stationed at San Diego, Ca., in rites performed on July 31 in the parsonage of the First Baptist Church with Rev. Otis Strickland, pastor, officiating.

Paul Cooper was honored on his eighth birthday Tuesday with a party given by his mother. Refreshments were served to Robert Graves, Gordon Graves, J. C. Kincheloe, Fred Barker, Clovonne McKown, Billie Smith, J. Don Brown, Martha Gray, Jimmy Harper, Carolyn Bell, Sherbourne Male, Rebecca Calvin and Paul and Mary Ermine Cooper.

Lee Echols has returned to Camp Meade, Md., after spending a furlough with his wife and baby at Margaret.

DANGEROUS...
As reported in a Kansas Power and Light Company publication, "Keeping an extra gallon or two of gasoline in the trunk of your car... can be anything but smart. According to Hans Grigo, the National Safety Council's technical consultant, 'The explosive power of one gallon of gasoline has been compared to the explosive force of 14 sticks of dynamite. Gasoline vapors expand to fill the available space they are confined in,' he said. 'The expansion can split the seams of an unvented can or plastic container and can cause vapor leakage from a vented "safety" can. Sparks from the light switch, electrical appliance, car ignition or short in tail light or brake light circuits can then trigger an explosion.'"

PUBLIC EDUCATION SERIES BEGINS ON ORGANIZED CRIME IN TEXAS

by John Hill
Attorney General of Texas
 Editor's Note: In this second signature story, Attorney General Hill talks about the immediate threat of organized crime in Texas. "Supporting organized crime is easy," he advises, "you just look the other way. Stopping it is the challenge." The Texas Department of Public Safety developed

this 12-part series to educate and involve the Texas public in law enforcement's effort to eradicate criminal conspiracies. The stories are based on interviews with state law enforcement officials and representatives from the ten Texas Organized Crime Task Forces. The Texas Organized Crime Prevention Council, co-chaired by DPS Director Colonel Wilson

E. Speir and Attorney General John Hill, sponsored the series in conjunction with the Governor's Criminal Justice Council, the Law Enforcement Assistance Administration, the Texas Department of Public Safety, the office of the Attorney General of Texas, and local law enforcement agencies.)
 When I am asked, "What is our greatest potential problem in law enforcement?" the answer comes quickly: the threat of organized crime in Texas.

We have already seen gangland killings, open warfare between police and racketeers just across the Mexican border, shadowy visits to Texas by known mobsters from other states, the capture of massive shipments of narcotics.

This is the better publicized evidence of organized criminal rings within Texas and their possible links with out-of-state syndicates.

The more immediate threat is not from the so-called "families" of crime made popular in books and movies, but from home-grown crime confederacies which specialize in various lucrative activities. While it can be argued that some of these are independent from outside control, it is no longer valid to say that the real Mob—with a capital "M"—has somehow overlooked Texas in its zeal to corner the market in big-money crime. It is here, it is trying to expand, and it is reaching out to corrupt everything it touches.

The State of Texas, through the Organized Crime Prevention Council, has established a means to coordinate anti-crime programs of metropolitan police, district attorneys, the Texas Department of Public Safety and the Attorney General's Office. I am co-chairman of this Council along with Colonel Wilson E. Speir, Director of the DPS.

What we observe is that the more profitable an illegal activity becomes, the more apt it is to move from small-time to big-time crime. Greed brings the organizers in. Once here, they will seek to consolidate and expand, fueled by an ever-growing avalanche of money and taking full advantage of human frailties.

Until more people understand that crime flourishes best in a climate of apathy, our society will silently sanction its growth. There must be greater public awareness of the insidious threat to all of us and stronger support of effective police and grand jury action against it. Supporting organized crime is easy—you just look the other way. Stopping it is the challenge.

Hunting, Fishing Licenses Go on Sale

Somewhere in the recesses of your wallet is a crumpled, soiled piece of paper which should bring back memories of crisp fall days.

It's last year's hunting license.

To replace the license which expires the last day of August, Texas Parks and Wildlife Department officials have already mailed one-half of some 2½ million total hunting and fishing licenses for the coming year.

The new licenses will be available Aug. 16 at all TP&WD Enforcement offices and bonded license sales deputies such as major sporting goods stores.

Fees are the same as last year: \$8.75 for a combination resident hunting and fishing license, \$5.25 for resident hunting, \$4.25 for resident and

non-resident fishing and \$37.50 for a non-resident hunting license.

This year's fishing license will be valid for one year from the date of purchase.

Three turkey tags are on the new hunting licenses and must be used much the same as are deer tags.

New licenses are printed on a special paper which is resistant to tears and water—something which should prove useful to both outdoorsmen and game wardens trying to decipher licenses dunked in water and otherwise roughly handled.

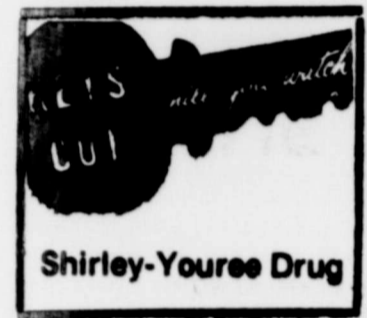

Both deer and turkey tags are easily separated from the rest of the license by perforations and there is also a perforation on the edge of each tag where a string or wire can be inserted for attachment to harvested game.

Sept. 1, 1974, is the date when new hunting and fishing licenses will be required.

CARD OF THANKS

We sincerely thank all those thoughtful people who in any way showed their love and concern for us at John's death.

Edna Sanders,
 Reed Echols,
 Hardy Sanders.

NOTICE

Notice is hereby given that pursuant to Article 689a-11, Revised Civil Statutes of the State of Texas, that on the 26th day of August, A. D. 1974, beginning at 10:00 o'clock A. M. in the office of the County Judge of Foard County, Texas, in the courthouse thereof, the budget as prepared for Foard County, Texas, by the County Judge will be considered by the Commissioners' Court. Any and all taxpayers of such county shall have the right to be present and participate in said hearing.

LESLIE THOMAS

COUNTY JUDGE

FREE SCHOOL LUNCH GUIDELINES

The Free Lunch Eligibility Income Scale has been established for the Crowell School Lunch Program. It is as follows:

(FREE LUNCH ELIGIBILITY INCOME SCALE)
 ((Minimum Guidelines Increased by 25%))

Family Size	Family Annual Income
1	\$0-2910
2	0-3830
3	0-4740
4	0-5640
5	0-6480
6	0-7310
7	0-8060
8	0-8810
9	0-9510
10	0-10,190
11	0-10,860
12	0-11,530
Each Additional Family Member	\$670

Each family will be provided an application to apply for free lunches for their school children.

Special hardship circumstances may permit eligibility if case comes under Federal Guidelines.

6—Foard County News TRESPASS NOTICES

Crowell, Texas, August 15, 1974

POLITICAL ANNOUNCEMENTS

For State Senator, 30th District:
RAY FARABEE (D)
MRS. MARY VIRGINIA KIRCHOFF (R)

The above political announcements were paid for by the candidates listed.

Fertilizer Outlook Bleak

Most producers will probably take a "wait and see attitude" as far as fall fertilization of crop land is concerned, says a soil chemist for the Texas Agricultural Extension Service. Fertilizer prices are high now and supplies are generally short. In most cases complete fertilizers (those with nitrogen, phosphorus and potassium) are all that are available, and the percentage of active ingredients has been reduced. This means a larger volume is needed, adding to transportation and handling costs. Soil testing will be especially important in determining profitable fertilization practices for each field and each crop.

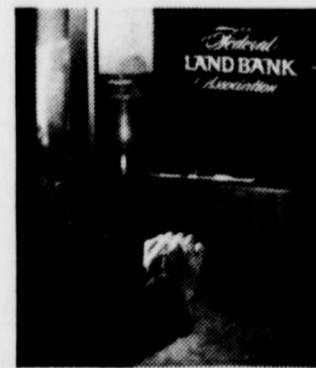

Retirement Needs Planning

A successful retirement must be planned, contends an economist for the Texas Agricultural Extension Service. Retirement planning is especially important for farmers and ranchers and other self-employed people who often work past the age of 65. When they retire, it's often due to poor health or adverse business conditions. With Social Security providing only for the bare living essentials, additional income may come from renting the farm or ranch, selling the farm and investing the money from the sale, or making an installment sale of the farm or ranch.

FARM EQUIPMENT SALES LEVELING

Although demands for farm equipment have been strong this year, sales have generally leveled off due to a shortage of available equipment, notes an economist for the Texas Agricultural Extension Service. For instance, unit tractor sales in the first quarter of 1974 fell slightly under the first quarter 1973 rate while sales of other lines of farm machinery declined more sharply. Farm equipment sales surged up during 1972 and 1973 due to increased crop production and record high farm incomes.

Come to the Land Bank for a long-term loan at reasonable cost

...and for other advantages you might find even more important.

Extra years in which to repay and an interest rate kept as low as possible are big reasons farmers and ranchers choose Land Bank financing. But your Land Bank also recognizes that each borrower needs a loan carefully planned to meet individual needs. A better loan—and better loan service. Come to us for both.

2 Minutes with the Bible

ONENESS WITH CHRIST

"I am crucified with Christ" (Gal. 2:20).

Salvation is actually coming into oneness with the Lord Jesus Christ.

"The wages of sin is death" and "the soul that sinneth shall die," but Christ was not a sinner. After having examined Him carefully, even Pilate said: "I find no fault in Him" and "I find no cause of death in Him."

It was therefore not His death that He died at Calvary. It was ours. He had come from heaven to be born into the human race as one of us to die our death.

It is when we view that death at Calvary and say: This is not His death He is dying. It is mine—it is then that, by an act of faith, we become one with Him. His death was ours; the penalty for our sins, but it is not applied to us until by faith we accept His death as ours. Thus the Apostle Paul declares by divine inspiration:

"I have been crucified with Christ" and he adds: "the life which I now live in the flesh I live by the faith (the fidelity) of the Son of God, who loved me and gave Himself for me" (Gal. 2:20).

Since the believer has been united with Christ in death, he is united with Him in resurrection life too. Col. 2:12 says that believers are "buried with Him in baptism." This is not baptism by water. This is a divine baptism, the work of the Holy Spirit, for he goes on to say: "wherein also ye are risen with Him through the faith of the Operation of God."

Little wonder the apostle begins this lesson for believers with the declaration: "For in Him dwelleth all the fullness of the godhead bodily, and ye are complete in Him" (Col. 2:9,10).

TIMBER LAKE, S.D., TOPIC

"It was interesting to note some of our...legislators are complaining about the 'club' the federal government holds over the state—you know, 'if you don't do it, you'll lose federal funds.' If more people all across the nation would get sick of the 'club', maybe we could reduce the federal debt, pay less federal income tax, and have more freedom to do things 'our way.'"
