Rabies Is Near Epidemic In County

Vet To Be Here Friday

According to Health officials rabies is at a near epidemic stage in Lynn County. Cases have been found in skunks, cows and reportedly even in a possum. Skunks have been reported over the County trying to break into houses and a rabid possum was found attacking cattle.

Persons over the County are urged to take every precaution against stray animals and wild animals along with un-vaccinated pets that are acting strangely. If you have been bitten or possibly even touched a animal that might have rabies you will have to take the rabies shots.

Dr. Smith of Lamesa will be at Tahoka City Hall again this Friday from 1 to 6 p.m. to vaccinate animals for rabies. Dr. Smith was here last Friday but ran out of vaccine before he completed his vaccines. The penalty for not vaccinating your animal will be from \$10 to \$100 fine and it will be enforced by the city of Tahoka. You also stand a chance of having your animals destroyed.

Jack Miller, Richard Brooks and Tuffy White are now taking the painful rabies shots after handling a rabid skunk.

CHARGE CONFERENCE. A Charge Conference for Tahoka-Grassland United Methodist Churches was conducted Thursday, April 30, in Tahoka. A reception was a surprise for Dr. and Mrs. Jordan Crooms of the Brownfield District Supt. A money tree was presented to them. They will be leaving since this district has been consolidated. Shown here are Rev. Hugh B. Daniel, pastor; Harold Green, charge lay-leader for Tahoka; Dr. and Mrs. Grooms, District Supt.; and Mrs. Lucille Walker, Treasurer for Grassland.

Top Winners Named In 4-H Contests

South Plains 4-H'ers in 17 of the 20 counties in District 2 of the Texas Agricultural Extension Service today (May 2) qualified to compete in the State 4-H Roundup by taking top honors at the district contests held at Texas Tech.

Hockley and Hale County 4-H'ers captured the most qualifying wins. Hockley is eligible to compete in eight events and Hale in seven events at the state contests which will be held June 3-5 at Texas A&M University.

To qualify for the state competition, a team or individual must win either first or second place in the senior division which is for 14-year-olds and older.

Some 500 4-H boys and girls competed in the annual contests.

Other counties taking a large portion of senior division honors included Howard and Lubbock with five qualifying wins each.

Floyd, Swisher, Lynn, Scurry and Yoakum each came up with three qualifying wins.

Other counties who will be

competing in the state contests include Bailey, Borden, Crosby, Dawson, Gaines, Lamb, Mitchell and Terry.

Hockley County's senior division wins included first places in Safety Demonstration and Vegetable Preparation and Use, and second places in Clothing Educational Activity, Cooperative Demonstration, Money Management, Natural Resources Demonstration (team), Tractor Operator and Horse Demonstration. Qualifying wins for Hale County included first places in Clothing Educational Activity, Entomology, Farm and Ranch Management (individual), Field Crops Demonstration, Foods & Nutrition Educational Activity, Money Management and a second place in Share-the Fun.

Howard County chalked up first place honors in Dairy Demonstration, Landscape Horticulture, Natural Resources (team), Share-the Fun and a second place in Field Crops Demonstration.

Lubbock County's qualifying wins came with a first place in Public Speaking (boy) and second place wins in Dairy Cattle Judging, Livestock Judging, Public Speaking (girl) and Rifle.

In the junior division, Howard and Hale tied with five first places and Hockley had four. James Halsey, agricultural representative for Pioneer Natural Gas Co, presented ribbons to all winners at an awards assembly in the Lubbock Municipal Auditorium following the contests. The gas company donates the ribbons for the district contests each year.

Teams placing from Lynn County were Kevin Wood and Mark Flippin, winning second place on Safety team. Also placing first in Electric Demonstration team were Harriet Cook and Gayle Neugebauer.

"TWO BITS WORTH" BY JOHNNY VALENTINE

The Country Editor says that silk stockings were first worn in the 13th century, but weren't seen until the 20th.

TBW Rabies is at a near epidemic stage in Lynn County and we would like to urge citizens of the county to take every precaution with this dreadful disease.

TBW This is the middle of Clean-Up and beautify week and your help and cooperation in Tahoka will be appreciated. We urge each citizen to do their part in this city wide endeavor.

TBW Who is the Real Boss? Here's a question we'll bet you could ask a thousand working people and get the right answer. The question is "Who's the Boss?" There's only one boss and whether a person shines shoes for a living or heads up the largest corporation in the world, the boss remains the same. It's the customer. Here is a person who pays everyone's salary and decides whether a business is going to succeed or fail.

And he doesn't care if a business has been around a hundred years. The minute it starts treating him badly, he'll put it out of business.

The customer has bought and will buy everything you have or will have. He's bought all of your clothes, your home, your car, pays for your children's education and your vacation.

He pays all your bills and he pays them in exact proportion to the way you treat him. The man who works deep inside a big plant on an assembly line might think he's working for the company that writes his pay check, but he is not.

He's working for the person who buys the product at the end of the line. In fact, the customer will fire everyone in the company from the president down.

And he can do it by simply spending his money someplace else. This is one of the reasons why taking pride in our work is so important to us personally.

Aside from the joy that comes from doing an exceptionally good job, it will help get more customers, keep the ones we've got, and insure the weekly pay check.

Some of the largest companies that had flourishing business a few years ago are no longer in existence. They couldn't... or didn't... satisfy the customer. They forgot who the boss really was.

NO SUBSTITUTE FOR WORK.. A brief news item may help explain why it is so difficult in some places to obtain repairs on a car or home appliance. It says, this country loses 50,000 more auto mechanics each year, but the actual net increase is only about 16,400. The figures are taken from findings of the U.S. Department of Labor. Another news report says that college students with the highest academic degree of philosophy are among the hardest hit by the shrinking job market. Demand for college graduates in many fields is declining, and one college placement official observes, "...young people are going to have to work a little bit harder."

After the millennium of a college education for everyone has been reached, the old virtues of willingness to work and common sense will reassert themselves, and those who possess them in the greatest measure will find opportunities on every side - including the re-arming of automobiles.

Highlights AND Sidelights

TEXAS PRESS ASSOCIATION

State Board of Mental Health- Mental Retardation accepted the resignation of State MH-MR Commissioner John Kinross-Wright and appointed a committee to look for a new commissioner.

Committee consists of MH-MR Chairman Ward Burke of Lufkin; Dr. Charles H. Brown, a Wichita Falls psychiatrist; Dr. Robert S. Tate Jr., pastor of the First Methodist Church of Austin, and Edwin R. Van Zandt, Beaumont newspaper executive.

First three appointees were among the six board members who had requested Kinross-Wright's resignation. Van Zandt was one of three board members who wanted the commissioner to continue heading the massive (27,000 patients, 13,000 employees) state MH-MR care and treatment system.

Finding a new commissioner will not be an easy task. When the old Texas Board for State Hospitals and Special Schools was converted into the Board for Mental Health-Mental Retardation in 1963-and the new law charged that a commissioner should dictate everything but basic policy-it took many months to find a commissioner. Law also says the commissioner must be a physician.

Finally, Dr. Shervert Prazier of Baylor University Medical College was persuaded to take the job on a part-time basis. That didn't work out well for

Fraizer, or the system, and Kinross-Wright was lured from the Texas Research Institute for Mental Sciences in Houston three years ago.

His tenure was ridden with strife as a segment of board members lead by Dr. Tate charged that the commissioner neglected the community mental health center program. Controversy flared into a firing when Kinross-Wright asked for the resignation of Deputy MH Commissioner Dr. Gary Miller, and Kinross-Wright ultimately bowed out.

Miller literally was waiting in the wings this week (having refused to accept his firing) as a hopeful for the vacancy. Gov. Preston Smith's comprehensive health planning director, Dr. David Wade of Austin, a psychiatrist who formerly headed the Texas Medical Association was being mentioned as a possibility. But Wade insists he is committed to his present health planning pursuit. Whatever the committee does will be subject to criticism by some segments of state mental health and state mental retardation organizations.

AG OPINIONS -- Attorney General Crawford Martin ruled that Hidalgo County voters who signed a petition to nominate Raza Unida Party candidates for county and precinct offices signed a valid document, but could invalidate it if they par-

ticipated in any other party primary. So, the candidates may not have a clear path until the primary lists are checked against the petition signatures. Martin also held that:

An independent school district may deduct union dues from the wages of its custodial and maintenance employees with their authorization.

New Texas Commission for Rehabilitation is the legal successor to all functions of the Texas Education Agency's divisions of vocational rehabilitation and vocational determination.

In Harris County, probate instruments must be filed under the direction of the county clerk.

Funds subject to escheat and held in trust by a district or county clerk are subject to being reported to the state as abandoned personal property.

PARKS & WILDLIFE--State Director of Wildlife Services E.A. Walker informed the Parks & Wildlife Commission that LBJ State Park will be completed by June 15. Only the National Park Service's exhibits and amphitheater in the state park remain to be completed. Walker said the federal services making exhibits and taping former Pres. and Mrs. Lyndon B. Johnson for "accents" for exhibits.

Commission approved construction of a \$3-million Corpus Christie water exchange pass across Mustang Island, and estimated that construction will begin in August.

"TALKING LICENSE"--Texas Public Safety Commission is considering possible future use of a "talking driver's license." Project is under development by DEK Processes Division, the firm that makes pictorial licenses for the state.

Proposed "talking" license would resemble a credit card, and provide DPS officers with an instantaneous method of having a magnetic number on the back (in computer code) which would be fed to a computer center over police radio.

Computer would send a print back to the apprehending officer within 30 seconds, indicating whether a person is wanted, the number of previous traffic violations, and so forth.

NATURAL FIBER STUDY.... Chairman Charles Scruggs of the Interim Committee on Natural Fibers appointed subcommittees to assault the problems of the state's natural fiber in-

dustry. "Our goal is to add a billion dollars to Texas' farm income in five years," Scruggs said. "That's why we don't just want to write a report. We hope this will be an action committee."

Scruggs named the following to the subcommittee on cotton, wool and mohair export development: Rep. Hilary Doran of Del Rio, Sen. Wayne Connally of Floresville, Hillisboro Cotton Farmer Dan Pustejovsky and Natural Wool Growers Pres. James Powell of Fort McKavett.

To study textile industry development he appointed Sens. J.P. Word of Meridian and W.E. (Pete) Nelson of Midland, Rep. Charles Fennell of Holliday and Scruggs.

To study producing and marketing systems development, he appointed Rep. Delwin Jones of Lubbock, Sen. Snelson, Powell and Pustejovsky.

JUDGES' VIEWS ON MARIJUNA SOUGHT--While other politicians and state officials argue about what penalties should be applied to persons possessing marijuana, Governor Smith decided to ask the men who mete out the punishment.

So, he had Harold K. Dudley, director of the Governor's State Program on Narcotics and Drug Abuse, send a six-part questionnaire to every district judge in Texas. Query asks if the penalty for possession should remain a felony or be changed to a misdemeanor. And-if a change is advocated-should it be changed on the first offense, or the second and subsequent offenses.

SHORT SNORTS--Dr. E.S. Cox, U.S.D.A. Animal Health Division Regional Director announced the lifting of federal hog cholera quarantines form Bosque-McLennan, Falls, Lavaca, and Lee counties.

Texas Association of Sigma Delta Chi, the professional journalism society, named Rep. Russell Cummings of Houston "Friend of Journalism for 1969" in recognition of his sponsorship of the 1969 Open Meetings Law.

Mrs. Patti Lynn Glenn of Corpus Christi and Mrs. Vicki Jean McArthur of Houston were highest scorers in the Texas Board of Vocational Nurse Examiners' examination. They scored 718 when only 350 was required for passing. A total of 785 persons took the exam.

Governor Smith appointed Jim T. Goodwin, currently with the Texas Water Development Board, to be his Natural Resources Coordinator for the Interagency Natural Resources

LAW PROTECTS WHOM? Just who is protected? Recently, a farmer in Iowa rigged up a device to fool burglars who had been breaking into his house at a rapid rate. A burglar climbed through a window one evening and was shot in the ankle by a shotgun that was rigged up to a string. The burglar was arrested and fined \$50 for entering a house at night. He turned around and sued the owner of the farm for \$35,000 for getting shot in the ankle. He was awarded the money through court action and the farmer had to sell his farm to make a down payment to the burglar. What will be next???

Mrs. Otto Austin is reported to be doing fine now. She has gone to Galveston for plastic skull surgery. She is expected to be home in a week to 10 days.

Regional Director Dean Mathews of the National Air Pollution Control Administration informed the Texas Air Control Board that the federal government is preparing to declare a Federal Interstate Air Quality Control Region in the East Texas, Arkansas and West Louisiana section encompassing Texarkana and Shreveport.

SOIL CONSERVATION NEWS

By Richard L. Christie

Lynn County farmers are developing plans to treat the land in keeping with its needs for protection and improvement. A part of this plan is to use the land within its capabilities. Each place is made for a particular place and because they are all different, it is a costume operation tailored to fit the farming enterprise.

When a farmer begins to develop a plan, he must first make an inventory of the resources that are available. He needs to consider the resources nature has provided first then the other resources he has available. This would include the soil, water and plants. Along with this appraisal a farmer should consider his equipment, financial, labor and management resources which are a part of his farming operation. Following a complete evaluation of these factors, we proceed to the second phase of the planning process.

A farmer needs to be able to recognize the conservation problems that exist on his farm. This job is easier, if a complete appraisal is made before hand. The soil and water conservation needs and plant management problems make up the major part of this step in planning. The identifying of these needs is not an easy job. A farmer must stay updated and be alert because these problems are not always evident.

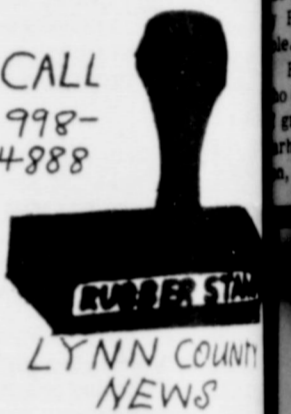

A farmer then considers the treatment alternative and the alternative land use which will correct these problems and take advantage of the potentialities of the resources involved. Then

the alternatives must be evaluated as to their effect on the operation and income. Following a proper evaluation a farmer can then make a decision on what to do. This is a procedure that a farmer goes through to develop a conservation plan.

This is one of the major phases of the Soil Conservation Service here in Lynn County. Tom Wells has recently assisted Singleton, D.E. Warslow, Basinger, E.V. Cook and Basinger. I have worked with E.A. Howle, Billy Weaver, Armes and Hal Singleton in developing a conservation plan the past few weeks. If you would like to develop a conservation plan contact the Conservation Service in Tahoka.

Tahoka's first Trade Day
drew quite a good-sized crowd
of farmers from many com-
munities of the county Monday
afternoon and the Auction Sale
conducted by Col. Talmus Bow-
den was a pronounced success
for the first one.

Col. Bowden described it as
a Five Hundred Dollar Sale and
he was well pleased with the
results. He said that it was
attended by the largest crowd
he had ever had at a first
day sale.

A Second Monday Sale and
Trades Day is scheduled for
the second Monday in June.

Farmers are invited to bring
anything and everything they
may have for sale and it will
be sold at public auction free of
charge. Businessmen of Tah-

and he stressed the point that
the sale was being sponsored
by the businessmen for the con-

The prospects are that this
Trades Day and Auction Sale
will soon become a big event
each second Monday in Tahoka.

"Demand"

"Demand" is an ugly word!

It is reining financial and social chaos on these United States.

How many times - let's say in the past month - have we read and heard that imperative, forceful word?

Postal carriers "demand" more money . . . and additional fringe benefits. Same goes for the Metal Trades Council. The Professional Air Traffic Controllers Association "demand" that the Federal Aviation Administration rescind an order transferring traffic controllers from one area to another, although not all PATC members are going along. A \$1 an hour pay hike spanned over three years is "demanded" by the Teamsters Union, employees of the nation's trucking industry.

All have walked off their jobs, except the Teamsters. Their turn doubtlessly is coming.

Black students at a major university "demand" that the school's total enrollment be comprised of 10 per cent of their race. Exactly how they propose to achieve such "balance" is not clear.

Minority groups "demand" this and that, primarily more government benefits.

Trash collectors have been striking in Atlanta, Georgia, the same situation which prevailed not many months ago in New York City. Their "demand" naturally is more pay. Atlanta's mayor had the courage to fire the entire group which refused to return to work. There is little doubt that these men will be allowed to return . . . without penalty and with a raise.

University students across the nation have for the past couple of years voiced - sometimes violently - unreal "demands" to their peers. "Demands" have ranged from more studies in a particular subject to unmarried students rooming together on campus to the type of foods served in cafeterias, and anything else their wild imagination happens to land upon. Radicals protest the draft and war in Vietnam. Dissenters - definitely in the minority - have shed reflection upon the nation's younger set as a whole.

Tahoka Latin American students were banned from the Tahoka public schools earlier this year for wearing arm bands after the school board failed to adhere to their parents' "demands." The youngsters, of course, were innocent tools of their elders.

One can elaborate at length about the "demands" . . . some realistic; more often not! Americans nurture the sick belief that this ugly word is a must if their desires are to be met.

"Demand" is contagious. Stable individuals and groups are abandoning normal tactics to achieve pay hikes, social betterment, racial harmony because they know that others are receiving because of "demands."

Rarely does any organized group any longer "request" or "ask." They "demand!" This forceful attitude is the reason so many Americans are fast coming to despise - even hate - the sound and significance of that word "demand."

The Lion's Line

A small group of Lions gathered Saturday, April 25th, to conduct the club's annual Caravan for the Blind Broom Sale. A small van from Fort Worth arrived stacked to the windows with merchandise ranging from brooms to dish towels, all made by the blind. Texas Lions take this project annually to help the blind sell their wares. The goods sold were made in many various "Light-houses for the Blind" and included cities such as Lubbock, Waco, Houston, Austin and Fort Worth.

After all was said and done, the small group had collected \$541, a percentage of which will stay in the club for local projects. Sale workers included: Al Lehman, Wendall Patterson, Bill Chancy, Jerry Slover, Jack Jaquess, Ed Redwine, and Milton Ehlers. Gale Hartman served as Sale Chairman.

Two more outstanding programs were presented during regular meetings in recent weeks. Bill Craig, Tahoka Electrician, displayed oil paintings and pastels and told about his techniques in displaying color on canvas. The remarkable thing about this local artist, is that he has only been painting seriously since Christmas, and has never taken a lesson. Bill has already sold several of his paintings to local art lovers. The club thoroughly enjoyed the 'one man show' and Bill was several hours late getting away from the cafeteria. Many people came in afterwards to view the paintings and talk to Tahoka's newest art talent. This program was arranged by Lion Pat Patterson.

Football was the topic on April 29th as Texas Tech coach Richard Bell presented the program. Bell's topic was mainly Coach Jim Carlen's policies of clean living for Tech athletes but also included reports on recruiting and Tech's new Astro Turf. Bell was introduced by

Maurice Small of the Local Red Raider Club.

Several visitors were in attendance April 29th including Rev. and Mrs. Hugh Daniel, of the First United Methodist Church, Rev. Jim Turner of the First Baptist Church and Rev. Mack Farrington, a Baptist minister from San Angelo in Tahoka to hold revival services at the First Baptist Church. Other guests included Rufus Slover and Mill Draper.

What type person is a skim milk fancier?
He can be a weight watcher, convenience product fan, budget stretcher or culinary artist. These are some of the many users of nonfat dry milk and skim milk - two fine milk products which are actually forms of whole milk with most of the fat removed.

Non fat dry milk, the powdered form of skim milk, is convenient to store on the pantry shelf, safe to tote on warm weather outings, easy to use at a moment's notice - and usually a choice buy for the economy-minded shopper. When reconstituted with water, it can be used in place of whole milk.

Or the powder may be added to a recipe along with the other dry ingredients while the water is added with the liquid ingredients. For this reason, nonfat dry milk is ideal in homemade mixes which can easily and quickly be transformed into delicious springtime dishes.

Skim milk is sold in containers just as other fluid milks, and needs to be refrigerated to stay at its fresh best. Skim milk may be used just as whole milk, particularly to reduce calories and cost of the finished dish.

High quality and wholesomeness in instant nonfat dry milk are assured in packages bearing the "U.S. Extra Grade" shield on the label. Manufacturers who use this USDA grade shield on milk packages operate their plants under the continuous inspection program of USDA's Consumer and Marketing Service... This voluntary, fee-for-service program is designed to assure consumer protection through all production steps.

RECIPE OF THE WEEK CHERRY CHOCOLATE MILK

6 cups whole of skim milk
1/2 cup juice drained from maraschino cherries
1/2 cup chocolate syrup
1 1/2 cups instant nonfat dry milk
6 maraschino cherries
Combine all ingredients, except cherries. Beat or shake until smooth. Garnish with maraschino cherries. Serves six.

Rites Held For Miguel DeLeon

Miguel DeLeon, Sr., 79, of Tahoka died Thursday, April 30, in the Tahoka nursing home. He was born Sept. 29, 1890 in Mexico. DeLeon and Miss Victoriano Serba were married in 1919 in Mexico. They came to Lynn County in 1940 from Roundrock. He was a member of St. Jude's Catholic Church in Tahoka.

Services were held in St. Jude's Catholic Church at 2 p.m. Sunday, May 3, with the Rev. John Dillon officiating. Burial was in Tahoka Cemetery under the direction of White Funeral Home.

Survivors include his wife; 2 daughters, Mrs. Sammy Jaso and Mrs. Dan Garcia, both of Tahoka; 6 sons, Maragarito, Mike, Jr., and Cristino, all of Tahoka, Robert of Guadalupe, Calif., and N.S. of Gillette, Wyo.; 1 sister, Mrs. Margitta Olivarias of Sandusky, Ohio; and 39 grandchildren and 19 great-grandchildren.

Nursing Home Week May 10-17

Governor Preston Smith has proclaimed May 10-17 as Texas Nursing Home Week.

The Texas Nursing Home Association and its members have provided leadership and made important contributions to raising the quality of care with modern facilities and new techniques, the dedication of its people has earned this progressive and rapidly growing profession our confidence and respect.

The nursing homes in this state are participating in National Nursing Home Week, May 10-17, 1970.

Land D. Wall, of Lubbock, President of the Texas Nursing Home Association, voiced these comments, "I want to join the Governor in inviting everyone to visit our facilities and see for themselves what the modern nursing home of today has to offer the Senior Citizens of this state".

Mrs. Thomas Host Phebe K. Club

Phebe K. Warner Club met Tuesday, April 28, in the home of Mrs. Skiles Thomas with Mrs. N.M. Wyatt as co-hostess.

Mrs. Ray Adams who had charge of the program introduced the speaker, Bobby Strait, who is the music, education, and youth director of the First Baptist Church. He spoke on music, one of the fine arts. He gave a very interesting and informative discussion on the different periods of music, and played records representing each period.

Twenty members and three guests, Mrs. Otto Thomas, Mrs. C.A. Thomas, and Mrs. Ralph Bell, were present.

The next and last meeting of the year will be in the home of Mrs. Bryan Wright, May 12.

Mrs. Wyatt Honored

Mrs. Louise Wyatt, outgoing District Deputy president, district 18, was honored with a tea at the L.O.O.F. Hall Sunday, May 3rd.

A short program was presented by Lamesa Rebekah Lodge No. 90 and Tahoka Rebekah No. 209. The program was enjoyed very much. There were also members of Brownfield Rebekah No. 56, attending.

Mrs. Wyatt was presented her past District Deputy jewel. Special guests were F.A. Wyatt, her father, John Anderson of O'Donnell, and Mr. and Mrs. N.M. Wyatt of Tahoka. Refreshments of tea, coffee and cake were served.

Bill Griffin, County Agent, Says.....

Calibrating spray equipment, to make sure it is putting out the amount of chemical you think it is takes little time but is very important.

Calibrating insures that costly chemicals are not wasted; that excessive amounts of chemical are not present to harm the environment; that damage to crops and livestock is prevented; and pest control is most effective.

Use an old tooth brush or a toothpick to clean nozzle because the size and shape of the openings are very critical and must not be damaged. Flush the sprayer thoroughly with nozzles off, then replace the nozzles and check for leaks in connections while the sprayer is operating.

SPRAYER CALIBRATION FOR ROW CROPS:

1. For 40-inch rows measure 100 feet in the field. Then time the number of seconds it takes your tractor to travel 100 feet, driving the speed to be used while spraying.
2. Collect the fluid and measure, in ounces, the liquid from all nozzles used on one row for the number of seconds required to travel 100 feet. If it takes 21 seconds to drive 100 feet and you have 2 nozzles per row, collect from 2 nozzles for 21 seconds.
3. The number of ounces collected is equal to the number of gallons applied per acre of cropland. A household measuring cup is excellent for this. If gallonage is not suitable, small adjustments can be made by changing pressure. Larger adjustments in gallonage must be made by changing tips.
4. When treating bands, the amount of chemical required per acre is reduced depending on the band width. For example: To apply 1.5 pounds of herbicide per treated acre, with 15-inch bands on 40 inch rows, the chemical rate per acre is 15/40 x 1.5 lbs. needed per acre of cropland. With 36-inch rows the fraction of acre will be 15/36.

Colonial Nursing Home Will Participate In Nursing Home Week

Dwain Glass, administrator of Colonial Nursing Home of Tahoka, said that his home will be participating in Texas Nursing Home week, especially the open house activities scheduled for the first day of the week, May 10, Mother's Day.

"Nursing Home week is very important to my patients," Glass said, "because it means that members of the community will be coming in for a visit. When you're ill and aged, and sometimes feel all alone in the world, it's not only good to have new friends in the community, it's essential," he said.

We have many wonderful programs here at Colonial Nursing Home, all designed for rehabilitation and recuperation, but unless the patient wants to

get well, he won't. In many instances he needs someone to help him. That's why he has to know that people in the community are concerned about him. Community concern is something that only members of the community can provide, Glass explained.

Theme for this year's Texas Nursing Home Week is "Nursing Homes: working together for Today and Tomorrow." It emphasizes the role that nursing homes are filling now in meeting the nations needs for long-term health care, as well as the role they will be filling in the future. "Most important is that the theme shows that people inside the nursing home - administrative and nursing personnel therapist, dieticians, physicians, and others - all are working together to help

Workers Needed For Community Action Program

At a meeting of the Lynn County Community Action Committee Monday night in the County Courtroom a decision was made to employ two neighborhood aides. The meeting was chaired by Robert Abbe, president.

A job description indicated that these employees would be trained to give information and assistance to persons and families in need and that they would assist the Community Action Committee in its efforts at community betterment in moral, economic and social matters.

The Lynn County Community Action Committee is governed by a board of directors consisting of: Mrs. Fred Molina, O'Donnell; Mr. Sam Ortiz, O'Donnell; Mr. Tino C. Moreno, Wilson; Mr. Lupe Arellano, Wilson; Mr. Willie Benitez, Tahoka; Tomny Graves, Tahoka; Mr. Melvin Burks, Tahoka; Judge V.F. Anyone interested in applying for the positions open may acquire application blanks from Melvin Burks at the Federal Programs Office at the High School or by writing to Box 1575 Tahoka.

meet the patients immediate needs today while working in an overall rehabilitation program for the patient's better tomorrow," Glass said. "It must be understood that members of the community are part of the word - together" he added.

Open house at Colonial Nursing Home of Tahoka will begin at 2 p.m. and run through 5 p.m. May 10.

Glass said he and his staff have hopes of making this Mother's Day the most significant ever for the patients they serve.

"Three Coins in a Fountain" was the theme for the Junior-Senior Banquet last Saturday night. The school cafeteria was decorated with a real fountain and a red carpet. The welcome was given by Robert Montemayor, and the response by Jim McCord. After a steak dinner, Pam Raindl read the class history; Robert Montemayor, the prophesy; and Buddy Knox, the will. The senior class presented Mrs. Ann Dove a plaque which read, "To Mrs. Dove, Our Second Mother" In appreciation for all you have done. We love you. The Senior Class of 1970." After the banquet, the "Bitter End" played for the prom.

The encyclopedias that the seniors of 1969 left to the school have arrived. This set, the Encyclopedia American, has a 1970 copywrite. The seniors

What makes the Buick LeSabre sell such bargains? We're dealing, for one thing, Spring is here and we're making up for lost time during those cold winter months when everybody stayed home by the fire.

We're going to make it real easy for you to get into a Buick and celebrate Spring. But that's only part of what makes a bargain a bargain.

What about the car? Can you believe it?

Every Buick is built with integrity. You get things like a cooling system that should never overheat, even with air conditioning.

You get Buick's unique suspension system - AccuDrive - that makes this LeSabre one of the best handling Buicks ever.

You can even order a 350 cubic inch V8. With four-barrel carburetion. That delivers 285 horsepower. Yet runs on regular gas.

So, let's put it this way. If you want a bargain, we've got the ingredients. The car. And the deal.

Wouldn't you really rather have a Buick?

Club Awards Scholarships

Phebe K. Warner Club awarded two scholarships to outstanding Senior girls during Awards Assembly in the High School Auditorium on Tuesday, May 5. The Lady Dobbin Stewart Scholarship, based on Service, Scholastic Ability, and Character, was presented to Miss Betty Owen, daughter of Mr. and Mrs. Wes Owen. Betty, an honor graduate, has been a member of National Honor Society for three years, serving as President this year. She was elected to Who's Who, has served her class as nearly every officer, has received awards in Geometry, Home-making I, P.E. and Algebra 2. Betty is active in the Band, Pep Squad, Spanish Club, and Future Homemakers of America, having earned her Junior degree, Chapter degree and State degree. She has served on the annual staff, was elected Senior class Favorite and has entered UIL informative speaking for two years. Betty plans to attend Texas Tech, majoring in

Home Economics. Because of an anonymous donor the club was able to present another scholarship in the same amount to another outstanding Senior girl, Yolanda Chapa, daughter of Mr. and Mrs. John Chapa, Jr. Yolanda has been a member of National Honor Society for three years, was elected to Who's Who, and received the P.E. award her Junior year. She played basketball during her Freshman and Sophomore years, has been active in the Pep Squad and Spanish Club. She has been a member of Future Homemakers of

America for four years and is serving as President this year. She earned her FHA State degree this year. She is also active in the Library Club and is serving that organization as President, as well as being secretary of her class for both the Junior and Senior years. Yolanda plans to attend Texas Tech and become a teacher. Mrs. Warren Embree is President of Phebe K. Warner Club while Mrs. J.D. Atwell, President-elect, is serving as Projects Chairman. Mrs. Harold Green made the presentations for the club.

The Souped-Up Adding Machine

Olivetti's Quanta Electric—think of it as a car. It's fast. It's made for extra mileage. It needs less repair. It has push-button clearance, 2-tone printing, simplified dashboard controls, 2-shift multiplication and is easy to park. It has a metal interior and a crash helmet body. It's a machine with drive.

Now stop thinking of the Quanta as a great car and see it for what it is—the most souped-up adding machine in the world.

O'Donnell Young Farmers Met

A very interesting and educational program was presented to the O'Donnell Young Farmers by Wendell Edwards and Bobby Joe Furlow on Rattlesnakes. Wendell showed slides of a recent hunt and Bobby Joe gave a report on how the snakes are captured. Wendell Edwards is the Local Young Farmer President and Bobby Joe Furlow is the Vice-President.

Places hunted are in the rocky area around the caprock. A 10 foot copper tube is connected to a pressure tank of gasoline. About one quart of gas is put in a den. The fumes drives the snakes from the den. As the rattlesnake comes from the den they are caught with a snake catcher and placed in a barrel or wire cage. Treatment for snake bites was presented. The group felt that Bobby Joe was well qualified to give instructions on the care and treatment since he has had practical experience. He was with his brother-in-law when he was bitten.

Several visitors were in attendance along with the Young Farmers. The student teacher Mr. Mike Read of Texas Tech University, was introduced to the group. Discussion was held on the possibilities of having a short course. Two courses will be applied for; namely

electric motors and oxy-acetylene. Visitors and prospective members are always welcome to the meetings.

Church To Have All-Day Services

Rev. E.L. Tyler, pastor of the Assembly of God Church in Tahoka announces there will be all day services Sunday May 10. There will be dinner on the ground and visiting preachers will do the speaking. Everyone is invited to attend.

Democratic Convention To Meet Saturday

The Lynn County Democratic convention will be held Saturday, May 9, at 10:00 a.m. in the county courtroom. The platform will be adopted and the elections of delegates to the state convention in Dallas will be held.

Mr. and Mrs. D.R. Proffitt spent 3 days in Dimmitt last week visiting their son, Jasper Proffitt, and family.

THE PHILOSOPHER Strike Problem

(Editor's note: The Sandhills Philosopher on his Johnson grass farm considers the strike situation this week.)

Dear editor: According to all the newspapers I've seen out here lately, everybody is in a turmoil over strikes and what to do about them, and I'll get to that later, but first I'd like to point out that things are not all bad. For instance, when a neighbor asked me why I wasn't at work, I told him I keep up with the news and was fully aware of everything that is a standstill on account of the New York mail strike. My hands were tied.

They were tied again when the air controllers fouled up the airplane schedules and by the time this gets into The News they may be tied by half a dozen other strikes. I'll miss any, let me know.

However I realize everybody isn't as adaptable as I am to work stoppages and I notice that the politicians across the country are attacking the problem from every angle you can manage with a speech without ever getting around to an answer.

I have thought the problem over carefully and have a suggestion. Like things are now, nobody knows when the next strike will break out. Nobody knows in the morning whether his entire activities will be paralyzed by nightfall.

If the airlines aren't struck, it could be the post office, the trucking industry, the railroads, the tractor companies, the public schools, the fire department, the police department, the sanitation department, newspapers, television stations, the long-skirt designers, the kindergartens, the colleges, and maybe even, right in the middle of the season, baseball itself.

Therefore it seems to me what Congress ought to do is to establish a National Strike Week. Set aside one week out of the year, probably in the spring when the sap is rising, when everybody who's going to strike, strikes.

During that week everybody ought to throw his hat in the air and quit, and the last one off the job is a rotten egg.

Yours faithfully, J. A.

Locator Labels Sure To Make Tough Job Easy

NEW YORK (A) It's that time again... time to take your window screens out of winter storage and put them up for summer comfort.

Putting up screens is one job. Pitting them on the windows to which they were originally fitted is another. This can be a tough, time-consuming, frustrating job.

To take the trouble out of this annual task the weavers of aluminum screening have developed a series of locator labels. With these labels, getting the right screen on the proper window is no longer a trial and error ordeal.

The labels are printed in a series of matching numbers. Because they have a pressure sensitive backing, they are simply peeled from a sheet. Then a numbered label is applied to the screen frame. The pressure sensitive backing keeps the labels affixed to the window and screens.

Sets of the locator labels are available free from local building supply outlets, hardware stores and by writing the Wire Weavers Association at 441 Lexington Avenue, N.Y. 10017.

HOW TO MANAGE YOUR MONEY

In spite of rising prices, wise money management can make your resources go further—and more slowly—than you might guess. What to do? Surprisingly, you've already taken the first step (the title tells what it is). If you find budgets easier to break than make, the "must have" budget system described in this story. Banks are helping more than ever, and there really are ways to get some things for nothing, but wives, anger not at your husbands. She tells why, and gives many useful tips.

The student council met last Thursday and appointed chairman for the events on Activity Day. The events that the students will participate in are tennis, softball, tug of war, 50 yard dash race, three-legged race, volleyball, sack race, weight lifting and teachers egg-throw. Activity Day will be Friday May 8, and the Jr. High students are really looking forward to it.

The student council candidate speeches for 1970-71 were heard last Wednesday. Kim Brown and Trent Leverett are candidates for President; Lisa Atwell and Johnny McDonald for Vice-President; Marilyn Thomas for Secretary; Betty Curry for Treasurer; Mitch Raindi and Jerry Owen for Reporter; and Wayne Crowell for Parliamentarian. I wish these candidates the best of luck. The results of the campaign speeches and elections will be in next weeks news. Mr. Pittard's eighth grade science classes went to Lub-

Softball League Begins Tuesday

The Tahoka Softball League has chosen teams and will begin play next Tuesday night, May 12. The teams were chosen last Tuesday night by the team managers.

If you want to play softball it is still not too late to get signed up. You can sign up at Tahoka Auto Supply or at Bill Chancy Service Station. If you were not at the Tuesday night meeting you can call any manager and find out which team you will be playing for. Practice sessions are now under way for the teams.

This is Oldsmobile's year at Indy.

Isn't it your year for an Olds?

The knowing folks at Indy just named Olds 4-4-2 official pace car for this year's 500. For good reason. Olds is not only an excellent performer it's a winner in looks and ride as well.

The fact is, every 1970 Olds is a pace setter. And it goes far deeper than performance.

You find it in great engineering in exceptional comfort in ride and handling that are outstanding. And in the solid quality and dependability you've come to expect from Oldsmobile.

In fact, it's this quality that leads many people to believe that Olds is priced out of their reach. A mistaken notion that might keep you in an ordinary car instead of an Olds.

The truth of the matter is that many Olds models are priced right: down with the low-price names.

Now that you have the facts, isn't this your year to go Oldsmobile? You can probably do so for no more than what you've been paying. See your nearest Olds dealer!

*Card of Thanks

To the voters of Lynn County I want to thank the voters of Lynn County who voted for me in the Democratic Primary Election. I also want to take this means to tell you that I bore my own expense and am under obligation to no one. E.A. Hargrave

We wish to express our appreciation for the support and the votes given our cousin, Judge Truman Roberts on May 2nd. The response of our friends during this campaign was heartwarming. Thank you so much. Frances E. Dunagan and Elnora Curry

I would like to express my appreciation to the voters of Precinct one for the confidence shown me in the Democratic Primary by your votes. L.B. Thompson.

I would like to take this opportunity to thank everyone for food, flowers, cards, gifts and many visits during my stay in the hospital. May God bless each of you. Caroline Redwine and family.

*Lodge Notes

STATED MEETINGS of Tahoka Lodge No. 1041, the first Tuesday night in each month. Members are urged to attend. Visitors welcome. Donald G. Williams, W.M., J.W. Inklebarger, Secretary.

I.O.O.F. Lodge No. 167 of Tahoka meets every Thursday at 8 p. m. at Corner of S. 1st. and Ave. G. Billy Stroud, Noble Grand, Joe Beckham, Sec't.

Service Men's Club to Meet

The Lynn County Service Men's Club will meet Monday, May 11, at 7:30 p.m. at the community center. We hope that each parent and wife will be present at this meeting. This is a time when we should remember the men in service and support them in every possible way. Please bring us up to date on addresses and any information you have of your man in service.

The club is organized solely to back the men in service and let them know we think of them and appreciate them. We need more members and more interest.

Mrs. Harold Reynolds will speak on "The Threat to the American Way of Life" at this meeting. If you have not heard her you will want to attend. The Public is invited and urged to come.

Mrs. Jean Cunningham remains about the same in Methodist Hospital, suffering from injuries received in a car accident several weeks ago.

T-BAR BRIDGE

Four tables were in play at T-Bar Country Club Duplicate Bridge Tuesday night, April 28. Mrs. J.M. Small and Mrs. Melton Leslie placed first, Mrs. Roy LeMond and Mrs. Oscar Roberts were second, and Mrs. Cecil Clem and Mrs. D.W. Gaignat were third.

Corpus Delicti

Suppose that a man walks into the police station one day and announces that he has committed a murder. He says he hid the body in the woods, but can't remember where. If no corroborating evidence can be found, may the man nevertheless be sent to jail for homicide?

No, because the case against him lacks a "corpus delicti." And without that, generally speaking, there can be no conviction for a crime. A confession might be either erroneous or involuntary, or might even be induced by some psychological motive other than a desire to tell the truth.

The phrase "corpus delicti" is often mistakenly thought to mean

a dead body, perhaps because "corpus" sounds like "corpse." Actually, it just means "the body of the crime"—the physical evidence that a crime has been committed.

It may indeed be a body, but it may also be a burned-down house, or an altered check, or a black eye. Before punishing someone, the law wants to be reasonably sure that a crime really did occur.

It is true that in homicide cases, the victim's body. However, a murder conviction is possible even if no body is ever found. Take this case:

On the second night of an ocean voyage, a member of the crew vanished from the ship. Another seaman, charged later with murder, defended himself on the ground that the missing man's body was never found—hence, there was no corpus delicti.

However, the prosecutor countered with the following points:

1) that the defendant had been alone on the deck with the missing man just before he disappeared;

2) that the deck bore fresh bloodstains;

3) that a bloodstained knife had been found in the defendant's possession; and

4) that the missing man should be presumed dead, because there had been no other vessel nearby that could possibly have picked him up.

The court thereupon ruled that, even with no body, there was still a corpus delicti—that is, a body of evidence indicating that the dastardly deed had been done. Result: the defendant was found guilty of murder.

Mrs. Burks To Attend Institute

Three teachers from the South Plains area were named to receive fellowships to attend the Thirteenth Annual Petroleum Institute for Educators to be held June 1-19 at the University of Houston.

The teachers from the South Plains Texas area are Mr. Travis D. Brown, Lubbock; Mrs. Thalia Burks, Tahoka; and Mr. Thomas C. Fryar, Denver City.

Mrs. Burks teaches seventh and eighth grade social studies at Tahoka Junior High. She earned her B.S. degree at Sam Houston State University.

The Petroleum Institute, designed particularly for science, social studies and mathematics teachers will be coordinated this year by Dr. Silas Schirner, professor of education, University of Houston. Lectures, provided by experts from the oil industry, will include transportation, exploration, marketing and research. Three hours of graduate credit in education are granted upon successful completion of assignments.
