Farmers Receive Early Program Payments

Farmers who have contributed to stabilizing markets for food and fiber and to the conservation of soil and water resources by taking part in the 1970 wheat, feed grain, and cotton programs are receiving their program payments earlier this year than ever before, according to Bertice Askew, Chairman of the Lynn County ASC Committee.

The first batch of payments were made beginning July 1, 1970. Additional payments will continue to be made as rapidly as farmers certify compliance with program requirements and as fast as individual farm records can be processed and checks returned to ASCS county offices for distribution to farmers.

"Because of the excellent cooperation between farmers and their local ASCS office, thirteen percent of the participating producers in Lynn County received their payments on or about July 2nd," Mr. Askew said.

Most payments should be completed by mid-August, if farmers who signed up will complete the necessary certification indicating that they have complied with all of the program provisions.

Farm program payments help maintain a balance between supply and demand, the Chairman explained. He pointed out that both farmers and consumers benefit from this balance.

"Agricultural productivity almost doubled in the past 20 years, but farmers' markets take only about a third of this increase," said Mr. Askew.

This means we need new markets. Farm programs help us hold down farm production and maintain farm income until new markets are developed and old ones expanded.

"Huge surpluses must be avoided. They are costly in tax dollars and are wasteful of food and fiber."

"Farm programs help farmers make adjustments in their individual farming operations that in the long run will result in more farm income from the marketplace and less from the public treasury."

"Since farmers are \$50-billion-a-year purchasers of goods and services produced in our

cities and rural towns, the workers and business firms in cities and towns benefit from farm programs, too."

Farm programs also make important contributions to conservation of natural resources and help fight pollution, Mr. Askew said. Acres that are diverted out of crop production under farm programs are put to conserving uses such as the growing of grass and trees. Such practices conserve soil and water, provide habitat for wild life and small game, help prevent pollution of our streams from sediment and agricultural chemicals or waste products and reduce air pollution caused by blowing dust, the Chairman explained.

"When a farmer takes land out of production and puts it to a soil-and-water-conserving use he gives up the value of the production he normally would have received as income. At the same time, the farmer pays taxes on land removed from production even though that land produces no crops. Program payments are designed to compensate him for these voluntary contributions toward a more stable farm economy and a better environment," Mr. Askew said.

In recent years, the U.S. Department of Agriculture had advanced partial payments to farmers during the spring sign up period for the feed grain program only. The balance of the feed grain payment, and cotton and wheat payments were generally made starting in late July and continuing through August and September, or later, the Chairman explained.

"Because of budget restraints partial payments could not be made this year. However, the Department made a commitment to farmers that full payments would be made as early as possible. That commitment is now being fulfilled."

Little League All-Stars Named

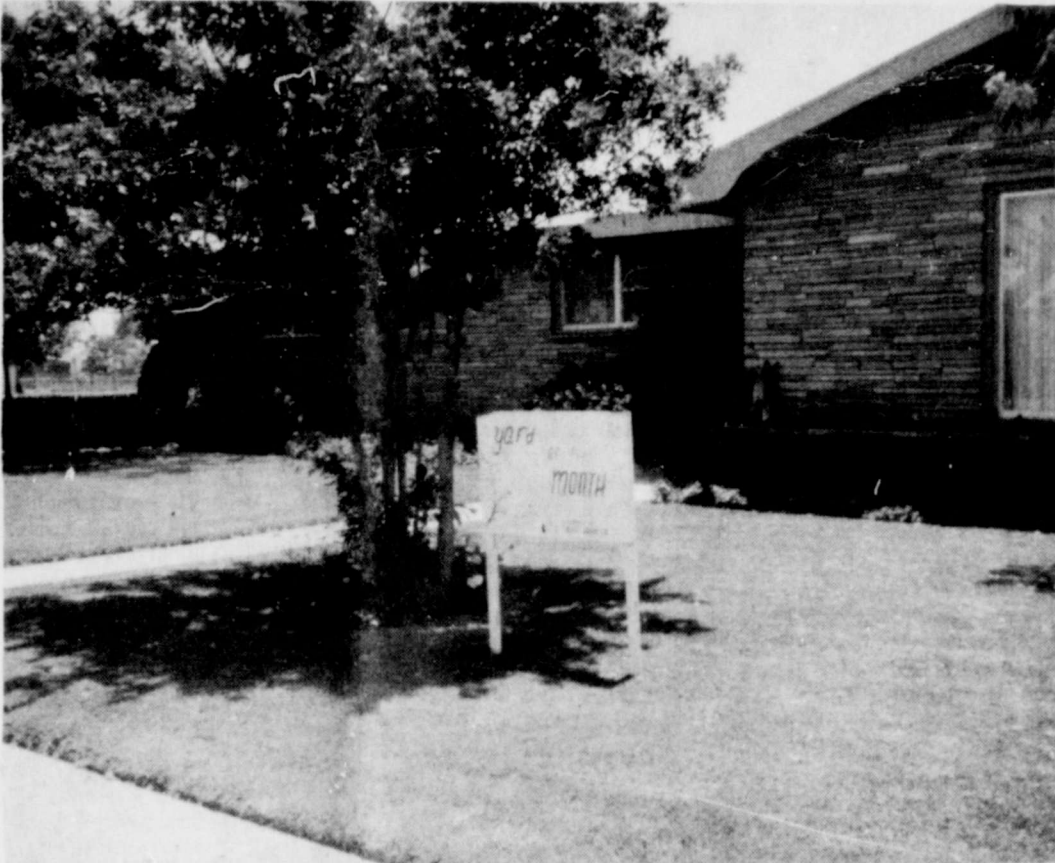

The Tahoka Little League all-stars have been chosen to represent Tahoka. The all-stars play Lamesa at Post, at a date to be announced later.

All-stars chosen were David Glenn, Timmy James, Kent Harvick, Martin Anchondo, Jr., Jimmy Bragg, David Graves, Carl Dunlap, all from the Giants. Mark Tekell and Danny Moore from the Cards. Tommy Botkin from the Yanks. Lindy Thomas, Curtis Stice, Valton Stephens and Jay Kelly from the Cubs. Alternates will be Britt Brooks of the Giants, Ricky Harston and Ernest Bailey of the Cards.

George Glenn, manager of the Giants will be All-star manager and Ronnie Nettles of the Cards will be the coach.

Players for the all-stars were selected by all of the Little League managers and coaches.

The Giants were League champions with 13 wins and 1 loss. They played at Lubbock June 29 against the Keystone Cats of Western L.L. and were beaten by a score of 6-2. The Cats went on to win the tournament.

YARD OF THE MONTH-Shown here is the yard of Mr. and Mrs. E.L. Short, that was chosen "Yard of the Month" for the month of June, by the Tahoka Garden Club. The Short's live at 2029 N. 1st St. Chosen in second place was Dink Lyons at 2300 N. 4th st. Mr. and Mrs. John Witt, 1829 N. 4th, was honorable mention.

Firemen Ask Co-operation

When the fire sirens sound in the city, it means one of two things. There is an emergency in the city or surrounding area requiring the attention of the Fire Department or it is a regular practice night.

Either way, the sirens are the signal for a new game among the younger citizens on wheels, called "Let's beat the firemen to the station."

The end of school has marked a new hazard for the firemen, as well as the motoring public to contend with, that of youngsters on wheels be it bicycles, minibikes or the more powerful motorcycles.

Here's the way the game works: At the sound of sirens, the motorized younger set races to the station to see where the fire is and to watch the trucks. They dart in and out of traffic, cross intersections with minimum or no caution and in general put their lives in great jeopardy. In some recent cases they even race up onto the station driveway itself between the trucks as they are moving out. The game then is to see who can get to the fire first, the motorcycles or the fire trucks. Several firemen have reported narrow escapes as they themselves move to answer the alarm from their home and jobs.

The problem has been outlined. The Tahoka Fire Department needs the help of ALL parents with youngsters on wheels, PLEASE impress upon him or her the seriousness of

hindering emergency vehicles. Since most youngsters will be reluctant to admit being a part of the action, the TFD would again urge ALL parents to talk with their children.

The TFD moves to save lives and property... we certainly would hate to see a child injured or killed during one of the emergency runs. If the current trend continues... it could most certainly happen. Our most precious commodity is our children... PLEASE HELP US STOP THIS DEADLY PRACTICE!

Signed Alton Kelly, Chief.

Lions Club Has New Officers

A new slate of officers has taken over duties in the Tahoka Lions Club as of July 1. President elect Gale Hartman took over Presidential duties and presided over his first regular meeting on July 1. The new board of directors met June 22 and 12 of 13 members were in attendance. Goals for the 1970-71 year were discussed

and Lion Boss Hartman made his new committee appointments during that time. The club has an array of activities planned and will remain a strong club as long as the current trend continues. The Club continues to have a variety of programs for each meeting. Recent programs include:

June 10 - Miss Barbara Specht, National Centennial Football Queen and State Representative R.B. (Mac) McAllister attended the meeting and brought the program on the Coaches All American Game played in Lubbock on June 26. The Lions Clubs of District 3-T-2 were co-sponsors of the game.

June 17 - Mr. Jack Towery, of the Texas Tech Textile Research Center in Lubbock brought the program on a recent trip we made for the State

Department in Indonesia. Mr. Towery brought samples of native 'Batiks' a sarong type garment worn by the majority of people in Indonesia. He also presented slides of the Indonesian country. One interesting aspect of his program was brought out in the fact that he spotted many bales of South Plains Cotton in the warehouses of the textile factories he visited.

June 24 - With the Cafeteria closed for the week, the club decided to visit the O'Donnell Club and 16 members plus Club Sweetheart Suzanne Warren attended the meeting. Lion Bobby Strait gave an impromptu musical program enjoyed by all.

July 1 - Mrs. H.B. McCord Jr. and Mrs. Turner Rogers presented the program dealing with the new Youth Center now underway for Tahoka's Youth. The club was enlightened as to the progress that had been made so far, and was remained to be done before the Center could be opened.

The club would like to invite any prospective member to join them for lunch at the Tahoka Cafeteria, any Wednesday noon.

Ice Cream Supper Saturday

On Saturday night at 7:30 p.m. the Tahoka Rebekah Lodge will hold a Game Party and Ice cream Supper in I.O.O. F. Hall

located at 1429 So. 1st St. The public is invited to bring your own dominoes, cards or other

favorite table games. Donations will be taken at the door and DOOR PRIZES will be given. The Rebekahs assure you all the Ice cream and Cake you can eat. Money raised from the project will go for benevolences.

Kathy Makovy of Amarillo is visiting her parents, Mr. and Mrs. Frank Makovy. She is recovering from hepatitis.

"TWO BITS WORTH"
BY JOHNNY VALENTINE

The Country Editor says that most Americans today think that Manual Labor is the President of Mexico and would like to keep it just that way.

TBW The Tahoka Youth Center is progressing at a rapid pace and is now under way with a crew like they have over there. A group of youngsters are over there almost all the time working on the project. This is a great project being taken on by local youngsters along with supervision from the adults. A lot of people in Tahoka are spending their time and money on this project and we would like to urge each citizen that can help to do so with money, labor, stamps or almost anything of value.

TBW Other construction going on in Tahoka is the rebuilding of Highway 380 through Tahoka to the railroad and about 13 miles west of Tahoka. Also our hospital on the west side of Tahoka is progressing and according to State inspectors is about 75 percent completed.

TBW We would also like to commend the Court House Crew on the flag that flew over the court house on the 4th of July. If you haven't seen it you really missed something. Also many citizens as well flew their flags at home on the 4th and are to be commended. Personally we would like to see everyday in Tahoka Flag Day and especially in Lynn County, City and businesses, this might be something that would catch on over the entire United States. Some businesses fly their flags each day that they are permitted. You think its a lot of trouble. Well, our neighbors want a lot of trouble to build this country and it's free for us to live in.

Rotary Club Installs Officers

Vernon F. Jones was installed as President of the Tahoka Rotary Club. The installation was held Thursday at 7:30 p.m. in the back yard of Calloway

Huffaker. There was a covered dish luncheon for Rotarians and their wives. Dr. Emil Prohl was installing officer.

Other officers installed were as follows: Dwain Lusk, vice president; Robert Abbe, Secretary; Dr. Emil Prohl, Director; Johnny Wells, Director;

Gerald Huffaker, Director; and E.L. Short, Director. Music Directors are Johnny Wells and K.R. Durham. Carol Thomas is the club sweetheart. George McCracken is the Immediate Past President.

Other officers are Sergeant-At-Arms, Ronnie Nettles and Cliffon Clark; Bulletin Editor, Darnell Boyd.

Rotary International President is William E. Walk, Jr. and District 573 Governor is Woody Pyeatt.

THE SHADOW--The Shadow, the name endowed upon the Tahoka Youth Center which is presently being remodeled, is progressing in leaps and bounds with a tremendous group of youngsters working on the project almost constantly. Pictured above is the East side of the Center which is being housed in the old Piggy Wiggly building next door to Tahoka Cafeteria.

Past Days In Lynn County

Copied from June 16, 1932

Miss Mable Draper, daughter of Mr. and Mrs. I.M. Draper of the Midway community, who has been teaching at Wells the past year, and Mr. Fred McGinty of the Wells community were married on Tuesday afternoon, June 7, in the parlors of the Fairweather Hotel in Lovington, New Mexico, Rev. W.M. Beauchamp of the Methodist Church officiating. The beautiful and impressive ring ceremony was used.

The bride practically reared in the Midway community and is most popular and cultured young woman of the county.

Mr. Fred McGinty is the son of Mr. and Mrs. Marion McGinty of Plains, Yoakum county, but has been residing recently in the Wells community in this county. He is reputed to be a most excellent young man.

The couple were accompanied from Plains to Lovington by Mr. and Mrs. Marion McGinty, parents of the groom, Miss Montie Draper, sister of the bride, Miss Bill Little and Mrs. Durwood McGinty.

The couple will make their home in the Wells community.

New Home is to stage a big free barbecue on July 4, according to J.P. Fulton, a businessman and justice of the peace in that thriving village.

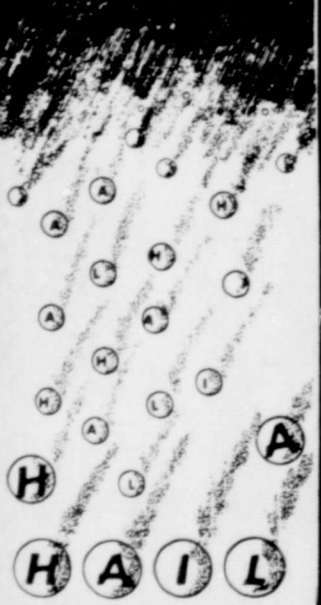

"We are planning for the biggest barbecue ever held on the South Plains", he stated to the News in making announcement of the affair. "There will be plenty of beef, bread, and pickles for everybody at 12 o'clock."

Speaking by the candidates is expected to begin at 9 o'clock in the morning and continue till noon. A big baseball tournament will begin at 1 o'clock and continue throughout the afternoon. The committee will accept entries from eight teams entrance fee, \$2.50. Prizes will be awarded as follows: first prize, \$60; second prize \$25; third prize, \$15. Any team desiring to enter is requested to get in touch with any business man of New Home.

The picnic and barbecue is being sponsored by the business men of New Home, and everybody is invited.

aged some of the cotton crops being totally destroyed. Many farmers have been replanting cotton this week.

Rains have fallen in many portions of the county during the past ten days, the precipitation varying greatly in different localities. Some sections have had heavy rains while others have had only light showers.

On Monday morning a high east wind threatened much damage to cotton crops, the blowing sand whipping the tender plants down to the ground. Most farmers saved their crops, however, by running harrows across their fields, thus preventing the sand from blowing.

One young man of the Redwine community entered a plea of guilty and was fined in the justice court here Saturday on a charge of fighting. A complaint was filed against his antagonist, charging abusive language.

The hostilities that got these youths into court were staged near Redwine several days ago. Nobody was seriously hurt.

Postmaster D.A. Parkhurst calls attention to the fact that postal rates for letter mail will be raised after July 5 to 3 cents instead of 2 cents per ounce.

The three cent rate may be paid in stamps of any denominations, he explains, just so the total value is three cents per ounce of fraction of an ounce.

Mr. Parkhurst also reports that the Tahoka office has been able to show a small increase

in revenue during the months of February, March, April, and May.

A complaint was filed in the county court here this week charging a citizen of the Morgan community with the offense of aggravated assault, it being alleged that he whipped his niece with a piece of barbed wire.

The niece, who is 18 years of age, was doing some hoeing for her uncle, according to reports given to the News by officials, and the man became displeased with the kind of work the young lady was doing.

The case will be called for trial at the next term of county court.

Tax collector Aubra M. Cade of this city and his brothers, R.M. Cade of Wilson and V.L. and H.M. Cade of Slaton were called to Rising Star on Monday last week by the death of their aged grandmother, Mrs. M.E. Cade.

The deceased lacked only a few days being 92 years old at the time of her death, and had been a resident of Texas for many years.

Miss Sallie Hill of the A&M College was here last Saturday morning judging the 4-H club girls bedroom contest for the twenty-two counties of this district. Miss Faye Estes of Joe Stokes was the winner in Lynn county. She is just 14 years of age and this is her second year in club work.

The result of the contest in the district will be announced soon.

Lions Elect International President

DR. ROBERT D. MCCULLOUGH

Dr. Robert D. McCullough of Tulsa, Oklahoma, was elected President of Lions International at the Association's 53rd Annual Convention in Atlantic City, New Jersey, July 1-4. Serving as the 54th President of the world's largest humanitarian service organization, McCullough leads some 932,000 members in 24,400 clubs located in 146 countries and geographic areas throughout the world.

Lions International is best known for its aid to the blind and sight conservation activities, international relations programs, and its many community service projects. "Involvement Now" will be the primary theme during Dr. McCullough's 1970-1971 Presidential Year. The importance of taking an active interest in the welfare of the community and the necessity for increased international understanding will both be emphasized.

SOIL CONSERVATION NEWS

By Richard L. Christie

The Soil Conservation Service (SCS) is the U.S. Department of Agriculture's technical arm of action for soil and water conservation. SCS brings together the various disciplines needed to solve land and water conservation problems. Its staff includes soil scientists; economists; agricultural, irrigation, hydraulic, drainage, and cartographic engineers; specialists in biology, agronomy, range management, woodland management, plant materials, geology, and sedimentation; and the skilled professionals developed by SCS--the soil conservationists.

SCS gives onsite technical assistance to individuals in preparing a conservation plan for their land. It helps through the more than 3,000 conservation districts organized and managed by land users under state law. Lynn County SWCD is the local organization. More than 2 million land users are co-operators in the conservation districts of which more than 906 or in Lynn County. SCS has helped co-operators work out conservation plans for more than a half billion acres, or 52 per

cent of the nation's cropland and rangeland. In Lynn County 56 percent of the land is under cooperative agreement. Assistance to individual land users includes:

Preparing a soil and land capability map or a range-site and range condition map based on a detailed acre-by-acre survey of the farm ranch, or other land unit.

Helping prepare a conservation plan. The individual and an SCS man consider suitable alternatives for using and treating the land within its needs and capability as shown by the soil map. On that basis the individual decides what he wants to do on his land and develops his plan. The plan outlines needed action to conserve and develop soil, water, plant, and wildlife resources and includes a timetable for doing these things.

Somebody once figured out that the average automobile has more wiring than the average house, for its size. Your car is adequately wired to serve the many purposes needed. And, so should your house.

LIGHTING

The same person figured out, too, that the average car has more special purpose lights for convenience, safety, and beauty than a house. But, for the same reasons, shouldn't your house have the right kind of lighting, too?

COMFORTS

And, how about comforts...heaters, radios, air conditioners, convenience switches, power steering, power brakes, tape recorders, electric windows, and lots more. Does your home measure up to your automobile? It should, because you probably spend more time there.

When you're building a house...make it a home... make it as good as your automobile...make it a total electric, gold medalion!

Total Electric Living

P.S. Lots of electric power in our area. No worry about shortages. Use it...enjoy it!

Rites Held For Mrs. W.C. Wright

Mrs. W.C. Wright, 75, of Tahoka, died July 1, in Methodist Hospital, after an extended illness. Services were held at 2 p.m. Friday, July 3, in the First Baptist Church with the Rev. Jim Turner, pastor, officiating. Burial was in the Tahoka Cemetery directed by the Wright Funeral Home. Mrs. Wright was born Nov. 2, 1894 in Cookville. Her husband, Belle Vandergriff and W.C. Wright were married Jan. 12, 1915. They came to Lynn County in 1925. They farmed northeast of town and moved to Tahoka in 1945. Mr. Wright died in 1963. Survivors include a daughter, Mrs. Granvel (Lucille) Wright of Tahoka; 2 sons, George and Bryan, both of Tahoka; 2 grandsons, Annie Mae Rogers of Pleasant and Maggie Hoffman of Wichita Falls; and 7 grandchildren. Grandsons served as pallbearers.

Linda Huffaker, CHD Agent, Says.....

July is traditionally "Picnic Month" but it may not be a picnic at all if you don't do advance planning to help get the

"Jump" on everything that needs to be done.

Consider foods for a picnic that can be prepared ahead of time and frozen. Fillings that freeze well include peanut butter cheese and cheese spreads and pickled or smoked meats. Lettuce and mayonnaise should be carried separately and added to the sandwiches just before eating.

Rolls, cakes, cookies, donuts fruit-filled pies and cupcakes are food choices which travel well to the picnic site. Cream filled desserts are not good hot-weather travel foods.

Frankfurters are one of the oldest and best known types of sausages and are ideal picnic fare since they are ready to eat as is or may be heated before serving. Roasting them over an open fire or on a grill enhances the flavor considerably.

Use care in packing the picnic basket. Carry mustard and catsup in lightweight squeeze bottles. Onions travel well in plastic bags, as the onion stays fresh and the odor stays in. Wrap pickles and olives in plastic bags to eliminate jars.

A picnic is lots more fun for everyone if the work can be held to a minimum.

RECIPE OF THE WEEK

Double Seafood Salad:
1 can crab or 1/2 lb. frozen crab
1 can shrimp (7 1/2 oz.)
1/4 cup thinly sliced celery
1/4 cup thinly sliced green pepper strips
1 1/2 cup diced cucumber
1 pink grapefruit, sectioned and cubed
3 tbs. bottled French dressing
1/2 cup mayonnaise or salad dressing
1/2 teaspoon curry powder
2 teaspoons minced onion
Crisp lettuce
Drain and slice crab. Combine with drained shrimp, celery, green pepper, cucumber & grapefruit. Add French Dressing and toss lightly. Chill 1 hour. Combine mayonnaise or salad dressing, curry powder and onion. At serving time, drain French Dressing from crab mixture into lettuce cups. Top with curry dressing. Garnish with parsley or watercress. Serves 4

Young Farmers Has Conference

Purpose of the Texas Young Farmers Conference held recently at the Ramada Inn, in College Station was an in-depth discussion of some of the problems and opportunities facing young Texas farmers and ranchers in the year ahead. Harold Sanders represented Area II and James Beavers represented the State Association. Sanders is Area II President and Beavers is the State President. Sponsors of the Conference was the State Association of Young Farmers and college of Agriculture, Texas A&M University.

Looking Down the Road in Texas Agriculture was the title of a talk given by Dr. L.S. Pope Associate Dean, College of Agriculture. How will We Finance Farming in the 80's was discussed by the following: Jack Barton, Bank of Cooperatives, Houston, Texas; Robert Hillery, First Wichita National Bank, Wichita Falls Texas and George Logan, First National Bank of Waco, Waco, Texas. Questions discussed were: Who will finance you? Outside Capital in the 80's? Mergers and Corporations-How will they affect you? and Farming on a business basis. Dr. A.B. Wootan Agricultural Economics and So-

Kenneth Graeber, Chancellor, Student Agricultural Council, Texas A&M University spoke at the Morning Breakfast. Later Dr. William B. Lyle, Dept. of Ag. Engineering Texas A&M spoke on What's the Water Future for Texas. New Tools for Texas Farming in the 80's was stressed by Dr. W.H. Johnson and Dr. Lambert Wilkes of Texas A&M University. Pest Control in the 80's by Dr. Adkisson and Texas Rural Life-Will it change in the 80's? by Dr. Skrabanek, both of Texas A&M University. Sanders and Beavers report a very educational conference.

Three Tahoka Students Named A&M Distinguished Students

College Station -- Three Tahoka students have been named Distinguished Students at Texas A&M University.

The undergraduate honor is awarded students who have excelled academically at A&M. Recipients must earn at least a 3.25 grade point ratio (out of a possible 4.0) during the grade period.

In addition to a 3.25 or higher GPR, a student qualifying for Distinguished Student honors must have been enrolled in a minimum of 12 hours during the summer sessions and have no

grade lower than a "C". Distinguished Student ranking is limited to 10 per cent of A&M's undergraduate enrollment.

Tahoka students are: George M. Glenn a freshman economics major and the son of Mr. and Mrs. George W. Glenn Jr.; Stanley D. Price senior agricultural education major who is the son of Mr. and Mrs. J.C. Womack; a freshman agricultural economics major Edward G. Smith is the son of Mr. and Mrs. Herbert G. Smith.

Minor League Baseball Scores

PIRATES-ASTROS
The Tahoka Minor League game played June 20 was between the Pirates and Astros. The Astros showed 14 points with Pena, Jolly and Hatchett pitching. Scoring for the Astros were Pena, Jolly, Graves, Hatchett, Marett, Cloe, Redwine and Pistone.

The Pirates made 13 points with Haney and Sayles on the mound. Scoring were Stevens, Garcia, Jones, Haney and Sayles.

ORIOLES - DODGERS
The second game played showed the Dodgers 12 and Orioles 3. Nettles and Antu were on the mound for the Orioles with Workman, Nettles and Huffaker scoring.

Scoring for the Dodgers were Tekell, Tomlinson, Stotts, Garcia, Reveria, Morales, Bobby Acosta, Roseberry and Shastre. Shastre hit a home run. Garcia was the pitcher.

DODGERS - ASTROS
The first game played July 3, was Dodgers 19 and Astros 16. Pitching for the Dodgers were Morales and Shastre. Scoring were Tekell, Stotts, Hawthorne, Roseberry, Garcia, Reveria, Morales, Alavaredo and Shastre hit a home run.

Carlton Jolly and Jerry Hatchett were on the mound for the Astros. Making scores were Graves, Jolly, Redwine, Hatchett, Williams, Marett, Cloe, Rudy Acosta and Bobby Acosta. The Acosta brothers were on the Dodgers team, but the Astros didn't have enough players so they helped make a team.

ORIOLES - PIRATES
The second game was between the Orioles and Pirates. The

Orioles scored 9 points with Nettles and Antu on the mound. Scoring were Nettles, who hit a home run, Brookshire, Huffaker, Elrod, Stanley, Antu, Workman and Walker.

The minor league ended the season with the Dodgers in first place; the Astros, second; the Orioles, third; and the Pirates

how to live - and die - with Texas Probate

Everybody has debts. The size and nature of them varies with each family. It is not surprising that bigger debts are created by wealthier people because they have the credit rating to support larger borrowings.

Unfortunately, many families of average means obligate themselves beyond their abilities to pay, causing financial problems during lifetime and after death. The biggest obligation is usually the mortgage on the home.

In addition, there may be time payments for cars, appliances and other items. These obligations may become a factor to deal with in the administration of an estate.

TAKE THE case of a husband and wife with minor children.

If the husband lives to retirement, the mortgage on the home will be paid off, along with many other items purchased on credit. But what if the husband dies at an earlier age? The wise man plans for that possibility.

PROVISIONS IN THE WILL

Whether or not the will so provides, the one handling the estate is under a duty to pay debts of obligate. Community debts—those created during marriage—are primarily payable out of the total community property upon the death of either. A direction in a will that "my just debts be paid" does not ordinarily bind the deceased person's half interest in the community estate to pay the whole community debts.

HIGHWAY CONSTRUCTION-Highway Construction on Highway 380 which began several weeks ago by the State of Texas and contracted to Henry L. Stafford is presently working on the road in the City Limits of Tahoka. The work is progressing rapidly. The state recently rebuilt highway 211 from Wilson to highway 84 and in the near future will rebuild highway from 6 miles west of Tahoka to the Wells road. The state will also rebuild old Highway 87 through Tahoka from the south underpass to the north underpass.

Cleopatra's Candy

In ancient Egypt, dates were called "Cleopatra's candy". Today, imported dates are known throughout the world both for their delicious flavor and for their nutritive value. Bordo imported dates supply all the elements for a balanced diet, including proteins, vitamins, and sugar in an immediately assimilated form for quickest energy. So whenever you need extra pep, enjoy imported dates, plain or in a variety of salads, main dishes, and desserts. They're great any date of the year!

THE FAMILY LAWYER

Injury to Visiting Children

The first few times, all went well. But Webster failed to keep an eye on the younger boy, only two years of age, who kept edging up close to the action. Finally, on one catch, his elbow struck the little onlooker, inflicting a painful injury.

Was Webster legally liable for the accident? A court ruled that he was indeed. The court said that in view of the tender age of the victim, Webster should have been on the lookout for exactly this kind of an accident.

Liability may arise not only from negligent conduct but also from some faulty condition of the premises. In another case, a family lived in a second floor flat which was reachable by a back stairway. These back steps were so flimsy that the parents forbade their own seven-year-old daughter to use them.

However, they gave no such warning to the three-year-old daughter of a neighbor. This child, climbing the steps one morning for a visit, fell through an opening and was injured.

Again, the host parents were held liable. The court said that, at the very least, they were bound to show as much concern for their guest as they showed for their own child.

On the other hand, some accidents are truly accidents—no one's fault at all. In another case, a visiting toddler lost his balance and fell down, striking his head against a small patch of cement near the driveway.

Could the home owner be held liable, on the theory that his premises were in dangerous condition? A court said no. It was asking too much, said the court, to expect him to foresee danger in a bit of cement.

Highlights AND Sidelights

by Vern Sanford
TEXAS PRESS ASSOCIATION

A blue-ribbon insurance study committee has recommended exploring Texas' compulsory auto liability coverage and a careful look at allegations that garages charge more for policy covered repairs.

Report went to Gov. Preston Smith prior to the State Insurance Board hearing July 14-15 on inclusion of insurance company investment income in the auto rate-making formula.

Smith indicated that the Board may not be ready this soon to evaluate the full effect of the formula change which also is backed by the study committee he named last summer after an auto policy rate hike was recommended.

Most observers think motorists are in for another increase in their premiums after the main August 17 rate hearing, regardless of whether the Board determines that investments should be figured in the base.

Study committee, headed by former Gov. Price Daniel, noted that North Carolina rates appear to be consistently low, although it also has mandatory liability coverage. Massachusetts and New York, other mandatory auto liability insurance states, have higher rates.

Committee recommended that the Legislature look into ways to stop "excessive charges being made on repairs of insured automobiles" which, in turn, lead to escalating rates year after year.

Insurance industry is expected to ask new increases as high as 15 to 20 per cent at the August hearing.

Smith may ask Daniel's committee to examine the Board's final recommendation, as they did in 1969 (when rate adjustment was 9.9 per cent upward instead of 11.4 as originally recommended by the Board. However the majority of the committee is cool toward going more extended hearings like those required by their study last year.

CAPITOL ADDITIONAL ASKED. An important part of state government may be going underground if a building commission proposal is approved.

Commission, in new budget requests, laid out plan for a 45,000-square-foot, \$2.5 million underground addition to the Capitol building, providing office space for legislators. Enlargement would be in a natural depression to the west of the present historic structure.

Commission also proposed these new projects:

\$1.26 million revamping of the north approaches to the Capitol.

\$1 million parking facility for 120 cars.

\$15,111 renovation of the old Highway building for use by the Parks and Wildlife Department when Highway Department's new headquarters is completed.

\$200,000 face-lifting of old Parks and Wildlife offices in the virtually new John Reagan State Office Building -- for use by the Welfare Department when P&W moves.

\$25,000 in repairs to the governor's mansion.

COURTS SPEAK -- Court of Criminal Appeals upheld a Fort Worth trial court order blocking further civil suits under the closing law until 13 cases are finally adjudicated.

State officials have taken to the 10th U.S. Court of Appeals their fight to stop spraying of land in northeast New Mexico with pesticide Toxaphene (to control tent caterpillars). State calls Toxaphene would jeopardize the purity of Lake Meredith and thereby endanger water supplies of 11 Texas Cities in the Panhandle and Great Plains.

Houston Court of Civil Appeals here held J. Weingarten Inc. of Houston is entitled to recover \$19,274 in chain store tax payments.

Houston Court of Civil Appeals upheld constitutionality of the Texas Clean Air Act.

Atty. Gen. Crawford Martin brought suit in Galveston County District Court to prevent 145 developers from encroaching on public beaches.

APPOINTMENTS. George P. Taylor, formerly of Shamrock and McAllen, is now director of the Texas Office of Economic Opportunity.

He succeeded Bob G. Allen, native of Hamilton, who moved to a new position in the state-local relations division of the governor's office.

Governor Smith announced that C.R. Hutcheson of Lubbock will serve as executive assistant to State Democratic Executive Committee Chairman Elmer C. Baum of Austin.

Smith named Winston W. Lorenz, Stockdale mayor, to the Board of Directors of San Antonio River Authority succeeding C.W. Milliken Jr. of Floresville, who resigned.

Robert E. Stewart took oath of office as State Banking Commissioner on July 1.

AG OPINIONS. Person who faces drivers license suspension as a result of refusing to submit to chemical breath analysis is entitled to have his hearing in the county of his residence, Attorney General Martin says. Martin held that county attorneys can, but don't have to, represent the state in such proceedings.

In other new opinions, Martin ruled that:

Specia option purchase agreement between the State Department of Agriculture and International Business Machines Corporation on data-processing equipment is constitutional since there is no obligation to spend money beyond revenues available at the time the debt

is due. Legislature left to Commissioners Court determination as to whether office space should be furnished by the county for its home demonstration agent and county farm agent. In the absence of contractual obligation, says the AG, the Court isn't required to provide offices but has authorization to do so.

GAS RATE HIKE -- State Railroad Commission granted Pioneer Natural Gas Company, serving 61 West Texas communities a new rate of 32 cents per 1,000 cubic feet on its gas.

That amounts to four cents of the 6.43 cent increase the company requested.

Rate is still subject to approval by individual city governing bodies before it finally goes into effect.

CHARTERS FORFEITED--Secretary of State Martin Dies Jr. announced that his office is forfeiting charters of 10,907 corporations for failure to pay state franchise taxes.

Figure, said Dies, is almost double last year's and indicates to him "This is a barometer reflecting general economic decline throughout the nation."

GRANTS APPROVED-- A large range of new federal grants were approved for Texas agencies and programs. They include:

\$531,286 for child development (Head Start) in Cameron County; \$709, 415 for emergency food and medical services; \$150,605 for family planning programs; \$50,135 for police tactical squad experiment; \$42,000 for youth opportunity development program; and \$30, 000 to establish uniform procedures for recording and reporting criminal justice information.

SHORT SNORTS -- Sen. A.R. Schwartz of Galveston has suggested a tax be placed on the incomes of charitable foundations and regulation of their lobbying activities.

Texas' new Board of Examiners of Psychologists has certified its first 226 psychologists, licensed 81 and certified 18 psychological associates.

Jimmy Banks, longtime Dallas Morning News staff writer, became public relations director of Lloyd Bentsen Senate campaign last week.

Institute of Texan Cultures has published the first three of 20 booklets on ethnic groups which settled in Texas: "Indian Texans" Norwegian Texans," and "German Texans."

Soybean producers seeking a referendum in 23-county northwest, northeast and southeast Texas areas, on assessments to finance product promotion, will be heard here on July 20 by Agriculture Commissioner John C. White.

Attorney General Martin has held that school districts must pay tuition fees for pupils sent to another district for training in a 12-grade school system where higher-grade training is not available in the home district.

Alamo State Bank of Pasadena application has been filed with Department of Banking.

Gordon H. Lloyd will retire June 20 after 47 years' service to the state with the Highway Department and as executive secretary of the State Employees Retirement System.

Wilson School Board Met Tuesday

The Wilson School Board met in regular session on Tuesday, June 24. Items of business included employing a new coach, a science teacher, and accepting the resignation of a high school English teacher. In other action the board approved the installation of a air conditioner in the Homemaking Department and the purchase of a new bus.

Ben Blair who coached at San Hon, New Mexico last year was approved as boys' basketball coach and Jr. High football coach. The Blairs have five children. Mr. L.A. Garner was employed to teach science. Mr. Garner has taught science at Lorenzo the past seven years. The board accepted the resignation of Mrs. Martha McBeth as English teacher. She plans to teach in Lubbock next year.

In called meetings on May 23 and June 11, the board accepted bids to do the following:

1. Tile the kitchen and dining area in the lunchroom.
2. Pave the parking lot in front of the school.

3. Run walks and curbs at the school.

In other action the board approved Mrs. Leta Baker and Mrs. Linda Clary as teacher aides for another year, and Mrs. Janice Vacek as elementary teacher. Coach Terry Harvick's resignation was accepted in order for him to enter the service.

YOUR CHAMBER OF COMMERCE AND YOU!

Buck Passing

I AM WEARY of what used to be called "passing the buck" among those airing their views about the problems and wrongs of society today.

Youngsters mostly blame their elders who, in turn, blame the young.

MANY PARENTS put the blame on educators, many of whom, naturally blame parents.

Politicians often blame the news media, which, just as frequently blames politicians.

Churches blame a breakdown of morals while liberation and reform groups blame outmoded concepts.

AND SO IT GOES. . . . To some degree, each of the blame-fixers may be partially right, but in general they are all wrong.

What concerns me most is that they are all more eager to fix the blame than to fix the trouble!

CRISES, PROBLEMS, and alarm about them are not unusual in America.

We can all take pride, and we should find comfort, in the fact that this nation has endured crises of one kind or another for almost two hundred years.

It has endured because it was founded upon strong basic principles which were built to last.

LIKE A PIECE of fine old silver our Constitution has not deteriorated with the passing of time, it only appears now to be tarnished from neglect. And, with rededication, with determination, and with elbow grease, it will polish and gleam anew!

It isn't new approaches we need so much as it is a sharpening up and restoration of values to our old approaches.

INDEED, THERE IS little wrong with society today that cannot be righted through a return to the noble ideals of our founding fathers.

Radicals can't do it for us. . . . News media can't do it for us. . . .

THE PHILOSOPHER Great Discovery

(Editor's note: The Sandhills Philosopher on his Johnson grass farm must have his television set back in working shape, his letter this week indicates.)

Dear editor: Being unable to find a newspaper yesterday although I looked everywhere, that is everywhere I could see from my rocking chair on my front porch, I went inside the house late in the afternoon and turned on the television set for the first time in a long time and will admit I learned something I didn't know before.

Now I knew that in the summer time the networks re-run their winter and spring programs on the theory I guess that if Hamlet is worth seeing more than once so is Festus, but yesterday was the first time I discovered that they re-run their new programs too.

It's a fact. Here came Huntley and Brinkley telling us their names although I caught on to who they were years ago, and then they gave exactly the same news I have months ago.

For example, they reported that Israel fought off an Arab attack with the loss of one Jeep and three cantees while destroying eight Arab planes, and in the

which the Arabs said the Israelis launched, the Arabs said they destroyed ten Israeli tanks and shot down ten planes.

THEN THEY switched to, London where a newscaster in a trench coat standing in the wind outside some building reported a new proposal for peace in the Middle East is being discussed.

In Viet Nam they ran the film of the reporter dodging bullets, failing once more to tell us what was happening to the camera man.

Getting around to the home front, they reported the cost of living went up three-tenths of one percent last month, the stock market fluctuated, another freight train had derailed, Agnew had spoken, there was a riot in Memphis or Los Angeles, I forget which, more studies are being made to halt inflation, pollution has shown up off the shore of whatever coast it was they had their camera trained on, the urban crisis is still the urban crisis, etc.

It's a fact. The networks are using re-runs on their newscasts. All they're changing is the shape of David Brinkley's tie.

There's nothing to the report, is there, that the football leagues aren't going to play this fall, just re-run last season's games?

For the girl on her own

When a young woman leaves home for college or a job, her new life is filled with excitement and challenges. With new responsibilities to assume and new decisions to make, she discovers her own rules for living. "The Years of Independence," a booklet published by Kimberly-Clark's Life Cycle Center, is all about things that interest and inform the girl on

her own. It offers guidelines for independent living and suggestions for coping with the pressures of early adulthood. For a copy send ten cents to "Years of Independence," Box 551-PR, Kimberly-Clark Corp., Neenah, Wis. 54956.

DURABILITY MOST WANTED IN TOYS

Durability is the "most wanted" quality in toys for preschoolers, according to a recent survey conducted by Playskool Research among parents of youngsters. Of obvious importance to parents when broken toys mean replacement purchases, durability is even more crucial to a small child to whom broken toys mean frustration. Other top qualities for preschool toys, say parents, include safety, educational value, and ability to stimulate creativity. Color, especially in toys for the youngest tots, is important too.

STATE REPRESENTATIVE, 73RD DISTRICT

The Agricultural Land Assessment Committee will hold a hearing Wednesday, July 15, at 10 a.m. at the Howard Johnson Motor Lodge, 2801 IH 40 West, in Amarillo.

The Committee, headed by State Senator Wayne Connolly of Floresville, is composed of five State Senators, five State Representatives, and five citizens representing various interest groups including landowners, agricultural associations and tax assessors. As a result, the committee has become aware of a multitude of agricultural problems concerning water, soil conservation and insecticide control - problems that this amendment No. 3 does not directly include, but information that could be used in later legislation.

Persons in the West Texas area must realize how important these hearings can be to them, because the passage of the proposed constitutional amendment, should it pass in November, will affect each of them directly. In a rapidly urbanized society, agriculturalists must stay abreast of changes affecting them." The committee will conclude its schedule of hearings in East Texas and the Gulf Coast areas in September.

ris Bingham and Rickey Edwards on the mound. The game played July 2 was Tigers 9 and Tatum 0. Leonard Dunn pitched for the Tigers and Hugh Daniel and Ken Huffaker were on the mound for Tatum. Tatum 12 and Pacesetters 2 was the score of the first game played July 6. Hugh Daniel pitched for Tatum and Rickey Edwards and Morris Bingham were pitchers for the Pacesetters.

The second game played showed Ginners 24 and Tigers 0. Sam Davis was on the mound for the Ginners, and pitching for the Tigers were Thomas Jolly, Mike Huffaker and Joe Brooks. In the July 2nd game between the Tigers and Tatum, Leonard Dunn received a cracked rib in a collision at home plate. In the July 6th game Charlie Ferguson broke his collar bone in a great catch in right center field.

Dunn will be unable to play for about two weeks and Ferguson will not play for the rest of the season.

The league now stands Tatum Brothers 10-5, Pacesetters 9-6, Ginners 6-9 and Tigers 5-10.

Credit Cards Dispel Need For Cash

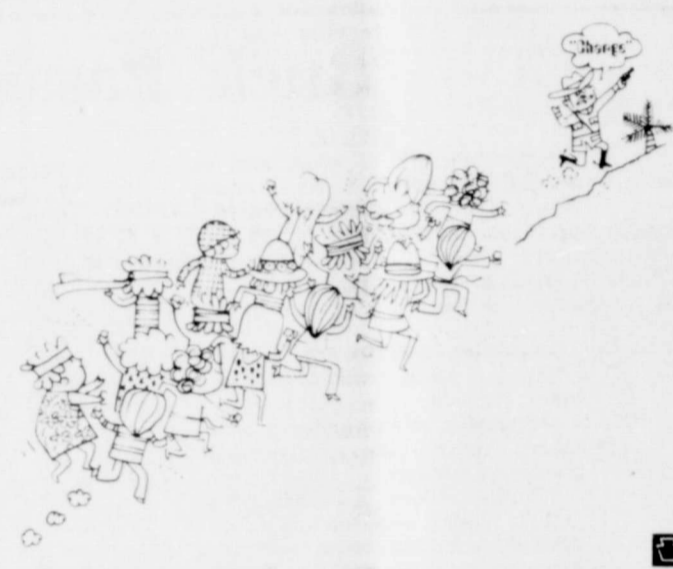

Teddy Roosevelt made famous the cry, "Charge!" as he led the Rough Riders up San Juan Hill. Now the modern woman appears to have made the cry her own. In these days of easy-to-get charge accounts, when unsolicited credit cards arrive daily in American homes, the woman of the family can all too easily wind up with a pocketbook full of various credit and charge devices and be left without room in that famed receptacle for the vital items... make-up.

Economists are fond of credit. Many of them credit it with the dynamic success of the American free enterprise economy. It is also an index of this success. All through history, people-with-money have always had credit extended to them. Today, many millions of Americans can also enjoy its benefits because they have larger and more stable incomes than any other people on earth.

As any husband will readily observe, credit fulfills a prime marketing tenet: making it easy for the customer to buy. They point fondly to old Henry Ford, who pioneered mass production but, just as important, devised the installment payment system that enabled customers to purchase his product - the famed Tin Lizzie.

"Many modern credit devices perform a vital function: they simplify bill-paying, furnish receipts for all purchases, and often allow one to plan efficiently around a budget. Most of them, however, are confined to usage of retail purchases, gas, oil or groceries," remarked Brooks Banker, Executive Vice President of American Express Company and General Manager of the Card Division.

For the woman who travels or entertains, these charge methods are often inadequate. "She needs a service that is designed for her needs as a hostess," commented Mr. Banker. For this woman, the travel and entertainment (T&E) cards, American Express, Diner's Club and Carte Blanche, are often the answer. This kind of card

A new style of Rough Rider - The American Woman.

provides universal acceptability and many services she simply can't find anywhere else. For example, it dispels the need to carry inconvenient amounts of cash and prevents the embarrassment of trying to cash a check in an unfamiliar community. One card - the American Express Card - provides universal acceptability at airlines, restaurants, hotel motel establishments, car rentals, specialty shops all around the globe.

"American Express designed services into the card that especially please the women of the family," explained Mr. Banker. "First of all, it's easy for her to obtain a supplementary card at a reduced rate. In this way, she shares her husband's basic account number and her charges are included in his bill."

And what woman doesn't occasionally misplace something? Not many, but American Express has provided automatic limited liability insurance for them. If the cardmember should lose the card - or should it be stolen, she is only liable for up to \$100 of fraudu-

lent charges. And if she calls American Express before the card is fraudulently used, the liability is zero.

The jet set hostess, unable to attend a social occasion, can entertain friends on the other side of the globe by using the exclusive "BE MY GUEST" service. For a modest service fee, American Express delivers a handsome invitation in her name, good for a fine evening of dining. She selects the restaurants and the dollar limit.

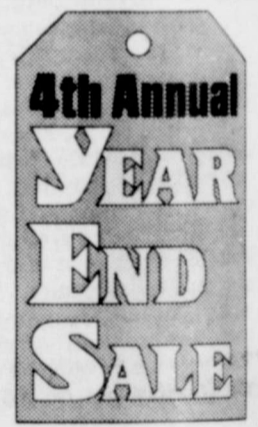

This provides an ideal way to say "Thank you" or "Congratulations" when you can't be there yourself. These are just a few of the ways the American Express Card people are seeking to serve the professional woman or the woman for whom dining and entertaining are the facts of life. For the woman who seeks an easier way to keep her finances well-ordered, this financial device is useful. And, last but not least, for the wife who likes to take her friends out to lunch occasionally, this is the ideal way to say "Charge it" to my husband, please.

WHAT IS THE ANSWER?

by Henry E. Garrett, Ph.D.

Professor Emeritus, Psychology, Columbia University
Past President, American Psychological Association

Q: Dr. Garrett, in your opinion, who are the best spokesmen for the South, today?

A: That calls for a subjective judgment, of course (I take it you refer to the race problem). Senators Thurmond and Stennis reflect pretty well majority Southern views and they should not be underrated. But neither, in my opinion, is as effective as George C. Wallace. Nixon is not out after either Thurmond or Stennis. He is out after Wallace - and that, I think, is the best evidence. Certainly, Wallace has done more to ease pressure on the South than either of the others.

BATH A ROYAL LUXURY

Women monarchs of the past had nothing on today's women when it came to bathing. The fastidious and great 17th Century Queen Elizabeth could bathe only once a month due to the scarceness of soap. Empress Josephine caused quite a stir among the French when the news escaped that she took a bath every day. Before this bathing was indulged in only by cranks or upon the advice of a physician. Nowadays, with soap and water so readily available, you don't have to be of royalty to enjoy the luxury of a warm sudsy bath. And with the added protection from odor causing bacteria that comes from using a deodorant soap such as Dial, today's women can attain the charm that comes from cleanliness, as often as she likes.

PROTECTION! make it work for SAFETY!

NATIONAL FARM SAFETY WEEK JULY 19-25, 1970

Order No. 2

National Farm Safety Week, July 19-25

Accidents can be prevented! But, most of the 116,000 Americans who were killed and the 10.8 million disabled by accident in 1969 failed to realize this simple fact. Farm people shared in these depressing statistics, too—more than 7,000 lives were lost and 600,000 were injured. Accidents cost our nation some \$23.5 billion last year, and losses to farm residents accounted for \$2 billion of this figure. The tragedy is that nearly all of this could have been avoided.

Although heart disease, cancer and stroke claim more lives, 2 out of 3 accident victims are under age 45. In terms of productivity and years trimmed from life expectancy, the seriousness of accidents looms much larger than its rank as the fourth leading cause of death in the U.S.

Even though safety information and protective equipment are readily available to farm people, accidents continue to pose a dangerous problem. To reduce this threat to life, limb and financial solvency, each should, and can, do much more to insure his own safety. Here are some thoughts that might help:

Make your homes and farms less hazardous by good planning and housekeeping. Use machinery guards on the job, and wear the personal protective equipment designed to save hands, feet, eyes and head from injury. Conduct your work, play and driving in ways to minimize chance of accident. Then, every week of the year will be SAFETY WEEK on your farm.

Elegantly rich, English Toffee Refrigerator Dessert tops off the simplest evening meal to perfection. The crunchy crust made with corn flakes crumbs and nuts provides a taste appealing texture contrast to the cool creamy filling. Delightfully easy to make, this dessert is something special frozen or chilled. A blend of butter, confectioners sugar and chocolate contributes to a chocolate toffee flavor sure to please your family.

ENGLISH TOFFEE REFRIGERATOR DESSERT

4 cups corn flakes OR 1 cup packaged corn flake crumbs
2 tablespoons sugar
2 tablespoons finely chopped nuts

1/2 cup butter, softened
1 cup sifted confectioners sugar
3 eggs

2 squares (2 oz.) unsweetened chocolate, melted
1 teaspoon vanilla flavoring

- If using corn flakes, crush into fine crumbs. Combine corn flakes crumbs, the 1/2 cup butter, sugar and nuts in 8 x 8 x 2-inch pan; mix well. Reserve half of crumbs mixture for topping; with back of tablespoon press remainder evenly and firmly in bottom of pan to form crust. Chill.
- Measure the 1/2 cup butter and confectioners sugar into mixer bowl; mix on low speed until combined. Add cooled, melted chocolate and vanilla; mix well. Add eggs one at a time, beating on medium speed about 5 minutes after each addition. Spread evenly over crumbs crust; sprinkle with remaining crumbs mixture. Chill several hours until firm, or freeze overnight. To serve, cut into squares.

Yield: 9 servings English Toffee Refrigerator Dessert, approximately 2 1/2 x 2 1/2 inches
