The Mauch Chunk (Pa.) Demo crat says that the workmen in the Lehigh oro mines get 60 cents a day and live on raw bacon and dry bread. Raise the duty on the ne cossities of life a trifle higher, and Government conclude to permit the poor fellows would starve.

The Democratic convention held in the Court-house, last Saturday afternoon, was the largest Demoeratic convention ever held in the county; and it passed off very har moniously, as all the Democratic conventions ever held in this county have done; and the delegates chosen are representative men of ers,' with the exception of two the party; and had we been present and had the chosing of the del-ued behind the wagons and comegates we could not have selected better men.

In a recent interview, Judge Hilton, the executor of the A. T. Stewart estate, said: "I have closed a dozen of our woolen mills, because we can buy goods cheaper than we can manufacture them. We can make woolen goods in this country as well as they can make them anywhere else, but there is no profit in it. The tariff on wood is too high. As to cotton factories they are shutting down. I don't think we have begun to see the stoppage of mills and manufactures which is coming."

In speaking of a leader for the Democracy of this State, the Johnson County Democrat says: "For leader of the Hansas Biare Democracy, 'or the campaign of 1884, give us Gov. Glick! He is a courageous leader; he organized s marked success of his administration and the deserved hold he has upon the people of the State, the people's demand upon him to continue to lead them, is irresistable."

Mr. J. Roy Stearns, of Spring creek, returned from Olahoma, last Friday. In telling us about that country, he said:

"Traveling south, from Cald-well, Kausas, the first stream of any water is Salt Fork. The land along this stream is not very good; it is broken and sandy; no timber to speak of, and the water is not good. The next stream is the Cimmaron; here we found more tim ber and better land; also, between the Cimmaron and the North Fork of the Canadian the land is all good. Small streams running into these streams have more or less timber along them, and considerable bottom land. The bottoms along the Cimmaron are very good, but not so wide as along the Canadian, where we found very wide bottoms and plenty of timber, and a beautiful stream. The bottoms are from three to five miles wide, and the best land I ever saw; grass is from one month to six weeks in advance of that in this section. Between the North and S uth Canadian the up land is very fine-all tillable. The banks of the streams are all high and ne overflowing of the bottoms.

"We found a great many people try-from lowa, Ohio, Illinois and Missouri, but more from Kansas ti an from any other place. We found some trying to make im

"The cattle men have miles of country fenced; and the country is full of stock, but the Commanding Officer at Ft. Reno informed us that they were going to destroy all improvements made by them, and sent out a detachment of soldiers

for that purpose.
"I would say to all who contemplate a trip to Oklahoma for the purpose of settlement, the shortest route there, is to stay at home unwill save time and money, as you can not locate. The country is full of soldiers and they will not permit it.

"On the whole, Oklahoma is all that has ever been said of it, in the way of its being a fine country, and a great many people can get de-sirable homes there should our settlement.

"There are no Indians in Oklahoma; and they do not claim the

country. "The soldiers put nine men in the guard house at Ft. Reno, and we understood they were to be taken to Ft. Smith. 19 EAST 32D STREET, NEW YORK, March 15th, 1883. I have used Allcock's Porous Plasters in my practice with remarkable success, and found them peculiarly efficacious, when applied to the back, for Weak Spine and Nervous Exhaustion. They afford almost instant relief in Coughs, Colds and Liver Complaint. I cordially recommend them as the best and safest Plaster ever made, and would caution the public against the numerous other so-called Porous Plasters that are sought to be palmed off on a credulous public; they are worthless and oftentimes dangerous.

The Republican party has called itself the "Grand Old Party." It deserves the title! Its early leaders were There is a certain degree of negative somfort taken by many Republican papers in the fact that Democratic sentiment has not thus far shown any tendency to settle upon a candidate for "Yes, and I am sorry to say he turned out badly. political organization which will not present the Democrats as many times

the party whose foremost candidate to-

day is the hero of the Mulligan corre-

remotest thought of bolting, and we are quite sure that if he did so he would not

question of what shall be said or done with the tariff is pre-eminently one to

be settled by the vote of the majority.

The man who quits the Democratic camp because the Democracy is resolved

to simplify the customs duties, is not a

is to the advantage of the party that it has not yet done much talking about candidates. In the fact that the voters
