It may amaze some adults to realize that high school students a r e involved in studies such as those listed above and one can readily see that Brenda will be a very busy young lady this summer.

Brenda is a Junior at Tahoka High School this year and will return to Tahoka this fall for her Senior year. Mr. Heath, who is in his first year of teaching and Mr. Don Coats. high school Biology teacher feel extremely fortunate to have had a student selected for the Summer Science Program and along with the Math teachers at Tahoka High School are looking forward to having Brenda bring her knowledge and experience to

the Tahoka Campus next year. This achievement by Brenda is indicative of the instructional program offered by the Tahoka Schools and having Brenda selected for this summer Science Program is certainly a feather in the cap of . Mr. Heath and Mr. Coats, as well as the entire faculty of Tahoka Schools.

Receive Total Of 84 Points

Tahoka won the District 4AA Literary Meet held at Frenship School Tuesday afternoon. This contest involved fourth, fifth, sixth, seventh, and eighth grade students from the schools in District 4AA of the University Interscholastic League.

Results show Tahoka leading the contest with 84 points. followed by Roosevelt with 46 points and Ralls with 44 points, The Ready Writing results are not included as the papers had not been graded, but these points would not alter the overall standing of Tahoka. Post, Slaton, Idalou and Frenship also participated in the contest.

The fifth and sixth grade spellers from Tahoka took the first three places in this event to start the day with a bang as Jay Kelley turned in a perfect paper to finish first. Teal Corley was second and Susan Thornton was third grade Picture Memory was won by the team composed of Tammie McKibbin, Robin Taylor, Britt Dockery, Carlton Ash and Melinda Terry. Robin Taylor turned in a perfect paper in this event. First place in fifth and sixth grade girls Oral Reading was won by Jona Valentine while Dixie Roberson finished third in this event. Gary White won first in boys fifth and sixth grade Oral Reading and Daniel Gutierrez placed third in this event. Belinda Williams was first in girls seventh and eighth grade Oral Reading. Kirby Shearer won third in boys seventh and eighth grade Oral Reading.

The fourth and fifth grade from Tahoka North Elementary School completely dominated their area of competition as they scored 42 points while all other teams entered had a total of 19 points.

Mr. Robert Ryan, Tahoka Junior High Principal was Meet Director and Mr. Dean Andrews, North Elementary Principal was Assistant Director of the Meet. Seventh and eighth grade teachers who worked to prepare students for the literary events were: Mrs. Margaret Carter, Oral Reading; Mrs. Carol Strait, Spelling; Mrs. Velma Carter, Number Sense; Mrs. Lennie Cox, Ready Writing. DAYLIGHT SAVING TIME:

H.B. 237 by Doran, a bill pro-

viding for a voter referendum

on the issue of Daylight Sav-

ing Time in Texas, was re-

ported out favorably by the

House Committee on State Af-

fairs, was brought to the House

floor for debate, and was fin-

the Senate. This bill provides

that the issue of Daylight Sav-

ing Time will be placed on

the ballot in the November,

1972, election for voters to in-

dicate whether they are for

or against Daylight Saving

Time. Results of the refer-

endum would not be binding on

this issue.

Of interest to this area. the following are bills were brought to the 62nd Session of the Legislation last week.

RURAL TELEPHONES: A number of rural telephone problems have been cleared up recently as a result of the excellent work and cooperation of the Texas Telephone Association. Farm Bureau members who are encountering serious problems with their telephone systems are encouraged to write or call Mr. Brad Smith, Texas Telephone Association, 1112 Perry Brooks Building, Austin, Texas. The telephone number is Area Code 512-476-7015. Mr. Smith has promised to investigate problem areas and to take whatever action is necessary for an equitable solution.

TAXING AGRICULTURAL LANDS: S.B. 876 by Connally, a bill to change the Foundation School Program financing formula from 80-20 to 100-0 and eliminate the need for any further increases in ad valorem taxation, was scheduled to be reported out of the State Affairs Committee this week, but debate on the tax bill forced a postponement of the State Affairs Committee meeting. The next meeting of the State Affairs Committee is scheduled for 2 p.m. Monday, May 3. At that time Senator Connally will attempt to get a favorable Committee report on S. B. 876. Considerable opposition to this bil' has been expressed by Senators who are members of the State Affairs Committee, and a favorable report by the Committee is very much in doubt.

TAXES: A \$662.6 million tax bill was passed by the Senate on Thursday, A. pril 29, and is now ready to go to a Senate-House Conference Committee. As passed by the Senate, the tax bill has the following major provisions: 1. A sales tax increase from 3.25 percent to 4.00 percent. 2. A \$1.25 per thousand increase in the franchise tax. 3. A 3 cent increase in cigarette tax. 4. An increase in the beer tax from \$4.30 per barrel to \$6.00 per barrel. 5. A 2 cent per gallon increase in the gasoline tax.

One provision in the section which increases the gas. oline tax specifies that Farm-To-Market roads funds would be transferred to the General Highway Fund. However, a portion of the Highway Fund would be earmarked for construction and maintenance of Farm-To-Market roads, so the change is actual y in name

Efforts to impose a corporate profits tax failed by only one vote in the Senate. Such a tax will very likely be imposed by the next regular session of the legislature to replace the present franchise tax.

There is no provision in either the House-passed tax bill or the Senate-passed tax bill for removing sales tax exemptions on farm machinery or production items.

AGRICULTURAL CHEMI-CALS: S.B. 602 by Watson, a bill to amend present insecticide laws to provide for closer regulation of the sale and use of economic pesticides, was reported favorably by the House Committee on Agriculture for floor debate. As reported out of the Agriculture Committee, an amendment placed on the bill in the Senate which would require records to be kept by wholesalers showing final destination of insecticides was removed from the bill. A minor amendment was added by the Committee at the request of the Department of Agriculture to give the Department some leeway in selecting laboratories to analyze samples of insecticides. In its present form, S.B. 602 is good bill and provides a sound and reasonable way to control the sale and use of insecticides.

sent to the Governor for his signature.

TRANSPORTATION: H.B. 759 by Cavness and others, a bill providing specifications for truck beds used in hauling gravel, sand, dirt, wood chipe and other loose mater. ials, was heard before the House Motor Transportation Committee, reported out favorably with an amendment exempting agricultural materials, was brought to the House floor for debate and was finally passed by the House and sent to the Senate.

H. B. 1408 by Clayton and others, and H. B. 906 by Wayne and Jones of Lubbock, bills which would have made it possible for haulers of agricultural products to secure permits without having to prove public convenience and necessity, were combined and heard as one bill (1408) before the House Committee on Motor Transportation, and were referred to a Subcommittee to be named at a later date by the Chairman.

Farrington To Preach Sunday

H. M. "Mac" Farrington will be the guest preacher this Sunday morning and evening at the First Baptist Church, Tahoka. Farrington was the evangelist in the spring revival in 1970 at the church. He had been the pastor at the First Baptist Church in Post until January. He is now working toward fulfilling a position as missionary in the river ministry of our state.

The pastor of the church, Jimmy A. Turner, is preaching revival services in Rising Star, Texas. This is the pastor's home church, the First Baptist Church, there.

Another highlight of the services will be the awarding of the church's "Mother-of-the-Year" plaque to a lady who has been elected by the church as the mother who most typifies this honor. The person elected last Sunday will remain a secret until the honor is bestowed this Sunday morn-

An invitation to worship and give thanks for this day honoring all mothers, is extended to all who would attend at the First Baptist Church.

000 Although the work of laying sewerage extensions in the city has been held up temporarily on account of failure to receive the necessary tile, the work will be resumed soon and will doubtless continue for quite a long time, according to Dr. K. R. Durham, mayor.

The first extension completed was that from a connection with the Main line at the intersection of North Second and Alley streets, one block east to the northwest corner of the Fair grounds.

The ditches have been dug for extensions on two streets covering a total distance of six blocks in Southwest Tahoka, but not all the tile has yet been laid for reasons stated above.

Dr. Durham states that one of the extensions to be made as the piping is received will extend out into the Roberts Addition.

It is impossible to state yet how many blocks will eventually be served by extensions now contemplated, but it is hoped that everybody near one of these lines will connect up promptly as soon as the lines are ready for use.

I have read dozens of newspaper stories and "letters to the Editor" and not one have I seen which discussed Amendment One fairly or even objectively.

Amendment One was prepared by a group of citizens throughout the state even befor our present legislature was elected. The Ethics Commission which would be so created would be appointed by the Judiciary over which legis. lators have absolutely no con-

The big lie which has been carried by all state papers in it's "letters to the Editor" reflect this is a subterfuge for legislators to get a pay raise. The facts are salaries will be left as they are or adjusted only by the Ethics Commission. The legislature has only the power to accept or reject any change.

The truth of the matter is this plan has worked well in many states in giving a fine balance of representation in the legislature.

Finally, why have Texans resisted all efforts to raise legislators' salaries? The answer is simple. Obviously any effort on the part of us, as legislators, to campaign for raise would be resented. As a result those who fall for the communist line "that all elected officials are bad". have their heyday. R. B. (Mac) McAlister

A GAS outdoor grill gives food a tangy outdoor flavor without the time and bother of charcoal fire. Char-broiled flavor comes from the smoke of meat juices dripping on hot briquets. Charcoal itself provides no flavor.

Permanent ceramic briquets in the gas grill reach cooking heat in a few minutes, and there is no long wait to start cooking. The heat is regulated manually so there is no need to move a grill up or down.

Bill Griffin, County Agent,

Don't ruin your lawn by mowing too close,. Mowing too close encourages a thinning of the turf and shallow rooting. This lowers the resistance of the lawn to drouth and diseases, and gives weeds an opportunity to take over.

Because of the extended drouth, most lawns are depending upon their owners to give them the water and plant food needed to keep up their good appearance. And this, is no easy job. It will take, the best management practices to keep the lawn beautiful and growing and proper mowing is one of the important practices.

The lawn should be mowed often enough so no more than one-inch of the leaf tip is removed at any one clipping.

Proper mowing requires a sharp, well-adjusted mower. The mower should be sharp enough to cut the tips of leaves without crushing or bruising them. Most mowers can easily be adjusted to the correct cutting height. Bermuda lawns should be mowed at a height of one to one and a half inches and most other lawn grasses a half-inch higher.

The management practices used on the lawn during the current dry weather can well determine whether or not your lawn will survive.

Rites Held For Ray Williams

Ray Williams, 23, of Grand Prairie, formerly of Lubbock and Tahoka, was killed about 8:45 p.m. Saturday in an automobile accident near Olney. He was dead on arrival at Hamilton Hospital in Olney. Funeral services were held at 2 p.m. Tuesday, May 4, in the University Baptist

Church, Lubbock, with the Rev. Wilburn P. Coffman, pastor, officiating. Burial was in the City of Lubbock Cemetery.

A native of Tahoka, Williams had resided with his aunt and uncle, Mr. and Mrs. Elgin Harper. He moved to Grand Prairie from Lubbock,

three-and-a-half years ago. He was preceded in death by his mother, Ruby (Lee) Williams

Survivors include two daughters, Dana and Shelley, both of Grand Prairie; his father, Mr. R. A. Williams of Lubbock; a brother, Roger Williams of Tahoka; his grand-

7th AND 8th ORAL READING-7th and 8th grade students entered in the oral reading in contest were Belinda Williams, Kirby Shearer and Mrs. Margaret Carter, pictured about The contest was held Tuesday, May 4, at Frenship Junior High School.

Linda Huffaker, CHD Agent, Says.....

Knits have hit the apparel market, adding spice and variety to home sewing. The home sewer has a wide choice of knits--from patterned to plain and from stretchy to rigid fabrics. Whatever type you use depends on the pattern selected. For tailored straight. lined patterns, select firm knits; for draped lines, select soft knits. Also, some knit fabrics have curled edges and require a pattern that has no seem edges of the straight grain.

Patterns especially designed for knits may have less ease than those designed for woven fabrics.

Knit fabrics used for tailored designs often need shape-retaining support. Interfacing, in faced edges, collars, under buttonholes, pockets, waistbands and some hemmed areas will provide this shaping. Use tricot knit for interfacing and backing where light support is required. Always use support fabrics which will meet care

requirements of outer fabrics. Since knit fabrics can snag easily, several new sewing notions have been developed to eliminate the problem. Use ball point needles and pins that have rounded points to push yarns aside and slip between them. A regular needle has a sharp point that pierces yarns, often breaking them. The ball point needle, then, helps prevent snagging and skipped stitches.

Handle and cut out knit fabrics on smooth surfaces, and use sharp scissors.

A special roller presser foot, with a small roller that helps feed fabric smoothly through the sewing machine, will also aid in preventing snags and skipped stitches. On zig-zag machines, use a throat plate with a small round needle hole and the narrow straight stitching presser foot for straight stitches.

Knit fabrics can stretch in handling, so don't let edges hang over the cutting surface. Cut out pattern pieces carefully, and let pieces relax 24 hours before assembling.

Since knits "give" in varying degrees, use thread with more give, such as core spun thread. Loosen upper and lower thread tension, and set the machine at 12-15 stitches per inch. Use shorter stitches on knits with less give.

To stabilize a seam in the knit garment, use straight or bias tape to prevent stretching at the shoulder, waistline, armseye and crotch seams. Use straight woven tape on loosely knitted fab. rics. Provide additional seam support by stitching one-fourth inch from the cut edge to prevent the seam allowance from curling.

Allow the knit garment to hand 24 hours before hemming. Pink and make a row of stitching around the hem edge. Use a French or Tailor's hem finish to minimize bulk. From very stretchy knits or for those that fray slightly, use stretch lace; for heavy knits, use a double stitch. Baste the hem in place at the fold and along the center line of the hem. Then fold the hem back along the basting line and catch-stitch loose. ly to the garment. Turn up the top edge of the hem and again stitch to the garment with a loose catch-stitch.

Knits oil-stain easily. Use chalky rather then waxy chalk for marking. Also, keep the sewing machine free of oil. RECIPE OF THE WEEK: 4-H Chocolate Pie

Card of Thanks

I would like to thank everyone for all the prayers, cards, visits and flowers while I was in the hospital and at home. Randy Meeks

To all of the wonderful friends and neighbors I wish to say a great big thanks for your many acts of kindness and concern shown to me and my family during my recent stay in the hospital and since returning home. For all the lovely flowers, the abundance of cards, your visits, gifts, telephone calls, food, and especially your prayers. May God bless each of you in every way. Ardis H. Pace
