Ex-Student Assoc Needs Names and Addresses

The Ex-Students Association needs current names and addresses for graduating classes of Tahoka High School.

If anyone is interested in completing a list for his or her class, please do so and mail to Nedra Young, Tahoka, Texas, by Sept. 10, 1971.

The class of 1951 will be honored this year. Please contact Nedra Young to give the names and current addresses of all the members of this class.

Thank You for your help.

New School Term To Begin Monday

Board Adopts 1971-72 Budget

The Tahoka ISD Board of Education gave its official approval to the 1971-72 Budget at a meeting of that body on Thursday, August 12. A tax rate of \$1.51 per \$100 of assessed value for taxable properties was ordered by the Board. The new tax rate is 3c less than that levied for the 1970-71 school year. The school fiscal year extends from September 1 through August 31. The new budget, other than programs funded from Federal sources, provides \$694,333 for current

and capital outlay expenditures and \$67,684 for bonded indebtedness payments, making a total of \$762,017. Receipts in the amount of \$311,950 are anticipated from local taxes \$700 from County available Funds, \$436,898 from State Funds, and \$13,000 from unencumbered balances.

Federal funds will provide \$33,137 for the Title I ESEA Reading program in the elementary schools.

In other actions the Board approved employment of Richard Bryan as Junior High School Principal, Mrs. Richard Bryan for assignment in the sixth grade, and Miss Carol Schoening for High School Chemistry and Physics. Also approved were David Scheele for High School Speech and English, Mrs. Janice Clark for High School Spanish and English, and Mrs. June Reimer for High School Home-making.

Mr. Bryan earned his B.S. and M.E. Degrees from Sul Ross State University. He and his wife have two children who will be in the 11th and 7th grades, respectively. He has 14 years experience, the most recent five years as High School Principal at Marathon near Alpine.

Mrs. Bryan is the wife of the Junior High School Principal. She holds a B. S. degree from Sul Ross State University. She has several years teaching experience. Most recently she has been High School Math Teacher at Marathon.

Dr. Carol Schoening is a native of New York, and she most recently has been engaged in research at Texas Tech Chemistry Department. She has taught part-time in college while continuing her degree pursuits. She holds B. S. and Ph. D. Degrees from schools in Massachusetts.

David Scheele is a May graduate of Texas Tech University where he majored in Speech and English while also completing the certification program for teaching in Texas Schools. He is a native of Lockney, Texas. His wife is a student at Texas Tech.

Mrs. Janice Clark is also a May graduate of Texas Tech where she majored in Spanish and English while completing the Texas certification program. She is a native of Snyder, Texas. Her husband is a student at Texas Tech.

Mrs. June Reimer holds a B. S. Degree from Southwest Texas State University where she majored in Homemaking Education. She has taught one year in the Big Spring School System. Her husband will be a law student at Texas Tech.

Texaco, Inc. won the gasoline bid for the period of September 1, 1971 to August 31, 1972, with their price of \$13.9c per gallon plus the state tax.

Other firms responding to bid requests for the gasoline business were Continental Oil Company, and Mobil Oil Company. Mobil Oil Company is currently furnishing gasoline during the period of September 1, 1970 to August 31, 1971 at a price of \$013.79c plus the state tax of 5c.

Various reports concerning the operation of the schools were presented by the superintendent.

Members attending the meeting were Joe Brooks, President; Ruben McElroy, Vice President; James Brookshire, Secretary; and Dan Curry, Maurice Huffaker, Othel Meeks, and Kenneth Turner. Also attending were Mrs. Peggy Elliott, Director of Business Affairs, Melvin Burks, Director of Guidance and Special Services, and Superintendent Harold Reynolds.

BILL CRAIG
... TAHOKA ARTIST

Bill Craig Showing Pictures At Ruidoso

Bill Craig has a number of his oil paintings on display at Chapparral Motor Lodge in Ruidoso, N. M. They will be on show at the lodge until Labor Day.

Craig is rapidly becoming recognized as an outstanding painter of Western life and scenes.

Just recently a brochure has been published, the cover of which depicts Bill at his easel,

and inside are black and white replicas of six of his works of art, La Casa, Struggling Elm, The Mesalero, Apache Sentry, Down Behind the Barn, and The Grulla's Winning, the latter a bucking horse picture.

Following working about the artist appears in the brochure: "Bill Craig is an artist that is not concerned with the fast changing trends in today's art world.

"Rather than try to express himself as many artists do today, he would rather concentrate on straight forth realism. His detail work and authenticity leaves 'no figuring out' to be done—his subjects were real in the past and are portrayed as if they were still alive today.

"Bill resides in Tahoka and was reared on a Lynn county farm only a few miles away. He has maintained a great interest in art since he was a young boy. Only in recent years he has pursued it vigorously under the supervision of a long time friend and art teacher, Mrs. Cubana Daniels.

4 Accidents In Lynn Co. During July

The Texas Highway Patrol investigated four accidents on rural highways in Lynn County during the month of July, according to Sergeant H. E. Pirtle, Highway Patrol Supervisor of this area.

These crashes resulted in no persons killed and one person injured.

The rural traffic accident summary for this county during the first seven months of

1971 shows a total of 43 accidents resulting in no persons killed, and 29 persons injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region for July, 1971, shows a total of 564 accidents resulting in 38 persons killed and 324 persons injured. This was 40 more accidents, 28 more fatalities, and 38 more injured than during June.

The 38 traffic deaths for the month of July, 1971, occurred in the following counties: Wise, 8; Donley, 5; Wheeler, 4; Lamb and Wichita, 3 each; Oldham, Clay, and Lubbock, 2 each; Deaf Smith, Hall, Parmer, Potter, Archer, Dickens, King, Palo Pinto, and Young, 1 each.

The 38 traffic fatalities in July have been the most that have been recorded during any month of 1971.

White Speaks To Rotary Club

John C. White, Commissioner of Agriculture is shown above as he is being introduced by State Representative of the 73rd District, E. L. Short. Mr. White spoke to the Tahoka Rotary Club last Thursday at the noon luncheon and spoke on the topic of rural America.

billions of dollars will be needed to implement programs which will save both forms of society. Rural communities must be attractive enough and offer enough opportunities to stop emigration, stabilize their population and allow them to grow and prosper. If the promise of opportunity in rural America is great, it will reverse the flow of people to the cities, and this in turn will allow urban and metropolitan areas to solve their most pressing problems.

"National recognition of this need for a reversal of the rural to urban flow is coming about. A subcommittee in the U. S. Congress is working to investigate and publicize this most pressing national need. Money has been appropriated in the Federal government for an effective campaign in attempting to define what route must be taken.

"I can assure you that the Texas State Department of Agriculture is deeply involved in trying to find a solution to the rural problems, and is working with local and federal government representatives to find a starting point. From my point of view, rural America is the wealth of this nation.

Rain Comes To An End Monday, Hot, Dry Weather Needed

Unprecedented rainy, cool weather for August came to an end with, farmers hope, sunshine Tuesday and Wednesday.

Most Lynn county farm land has been soaked during the 10-day rainy spell. Most crops have been saved or greatly benefited, although the August rain came too late for a few who had insufficient moisture to plant.

Crops now need some hot weather and a normal or late freeze date to reach the potential production. Bollworms could be a threat now, but there seems to have been little increase in activity of the worms the past few days. The News is informed.

Hootenanny Is This Saturday

The regular monthly Hootenanny will be held this Saturday night, Aug. 21, in the Tahoka Community Center, beginning at 8 p.m.

Everyone is invited to attend and no admission is charged. All amateur musicians are invited to participate.

Summer Reading Program Ends Saturday, Aug. 21

The summer reading program for students of the elementary grades, will end Saturday. Boys and girls who have read twelve books from the City-County Library will be awarded a certificate from the State Library.

Future Homemakers have served as volunteer librarians on Wednesdays and Saturdays this summer. Reading logs have been kept at the library for each student enrolled in the reading program.

All books read must be checked in by Saturday in order to be eligible for a reading certificate.

Certificates will be awarded within a few weeks.

Corn Blight On Plains

Southern corn leaf blight which caused serious losses in the corn belt last year has been identified on corn on the Texas High Plains. Race "T" of the fungus was reported in a field in Castro County by Dr. Robert W. Berry, area plant pathologist with the Texas Agricultural Extension Service.

"Positive identification was made by Dr. R. A. Frederiksen at Texas A&M University," says Berry. "We have been studying suspect fields for a couple of weeks, but this is the first time the fungus has been identified on the High Plains," emphasizes Berry.

"Most of the varieties over the area are susceptible to the fungus and there is an apparent source of the fungus. Prolonged cool, cloudy, humid and rainy weather during the next few weeks could result in rapid development of the disease."

Berry along with the county Extension agents in the corn producing counties in the area will be keeping close tabs on the situation. The disease can be identified by oblong lesions with tan centers and dark brown, reddish borders that appear on the plant leaves. Yellow halo often forms just outside the border. Leaf spots are one-half to three-fourths inch long and about one-fourth inch wide.

Similar spots also occur on husks, leaf sheaths and stalks. Infections may penetrate husk layers until the fungus reaches the kernels, thus destroying the quality of the grain. Ear shanks may also become infected and weakened so that ears fall from the plant. The fungus can also cause stalks to rot and break.

"There is little corn producers can do at the present time to prevent infestation by the fungus," points out Berry. "Two fungicides, maneb and zin-eb, are cleared for use on corn. These serve as protectants from the disease. But treatment costs are about three to four dollars per acre, and applications are required every four to five days. So, the practice is not very economical."

Producers in the Plains area may also be concerned about the disease possibly infecting grain sorghum. Says Berry, "There are no reports of the disease occurring on sorghum. We will continue to observe sorghum fields but we do not expect to find the corn blight fungus there."

Tamera Dulin of New Home and Brenda Da Valle of Chicago spent Tuesday night with Mrs. J. E. Dulin.

New Vocational Program In Tahoka High School

The program will operate under the direction of Mrs. June Reimer teacher - coordinator. Mrs. Reimer will be responsible for the selection and placement of students and will correlate their classroom and practical education. An advisory committee of local business people will be set up by the school to assist Mrs. Reimer in organizing and operating the new program. The addition of this type of program will do much to provide boys and girls in Tahoka with a well - rounded educational program that will fulfill the need for practical and useful training in the related fields of home economics. It is hoped the program will enable a large portion of our students who desire to become occupationally competent to enter full-time employment upon graduating from high school.

Classes in Home Economics Cooperative Education are the most recent addition to Tahoka High School curriculum according to a recent announcement by Superintendent Harold C. Reynolds.

SOIL CONSERVATION NEWS

By RICHARD L. CHRISTIE

With these recent rain and the good moisture conditions we have now many people are thinking about cover for their land this winter. Now is a good time to get ready to put "set-aside" acres in small grain. Just this last spring, we had a great deal of land damaged by wind erosion that could have been prevented if the land had been adequately covered. You can remember the weeks that your house had to be cleaned daily because of sandstorms. These sandstorms could have been prevented if some form of cover had been provided. Grain Sorghum stubble left standing is probably the best way. But even if it is shredded and left on the surface of the soil it will prevent the loss of our most precious resource. Of course, if something were growing on the land it would not blow. Therefore if we needed some form of small

grain it would cover the soil and tie it down to prevent erosion. Any form of small grain such as wheat, rye, oats, barley or triticale that makes adequate growth will keep it from blowing. Now is the time to prepare for the planting of these small grains. This latter form of a cover crop can fit well into our cropping system in this area. It can be planted or seeded in blank rows between cotton. It can also be seeded in a cotton crop with the last cultivation. The small grain will usually come up before the cotton is stripped but will not grow much until after harvest. Then it covers the ground and protects the soil. We need to keep the soil covered for the sake of the generations to come after us, they can't make much of a living if we let it blow off to caliche. "For the lands sake - keep it covered!"

Indonesian Banker Will Visit Area

Wilmer Smith of New Home will have as a guest this week end S. Permebi from Djakarta, Indonesia, a leading banker of that nation whom he met while on his visit to Southeast Asia a few months ago.

Mr. Permebi is on a tour of the United States to study agriculture leading policies and related banking procedures in the United States. He will arrive in Lubbock Friday noon and depart Sunday for San Francisco.

The visitor is managing director of the Development Bank of Indonesia.

Mr. Smith says one big banking problem in Indonesia is the lending of money to farmers. About 95 percent of the people in that country are farmers, and total average income of a farmer there is only about \$50.00 a year. Naturally, loans are small ones, and interest rates range from 1 percent to 7 percent per month on loaned money. Wilmer Smith is a member of the 10th District Farm Credit Board.

New Pastor

Daniel Rupp of Grandbury will begin his duties as pastor of the Sweet Street Baptist Church, Sunday, Aug. 22.

Rev. Rupp is 26 years old, married and has 2 children. He is a graduate of Wayland Baptist College and has been attending the Baptist Seminar.

Rev. Lee Jones is the former pastor and is currently at Snyder.

Mrs. M. F. Jones had eye surgery in Dallas Tuesday. She is reported to be doing as well as expected. This was her fourth time to be operated on for cataracts.

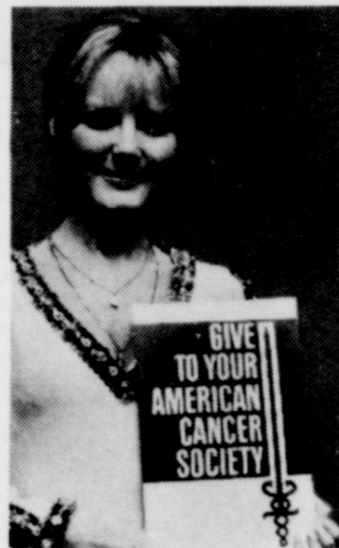

Mrs. F. A. Wyatt and Miss Jerre Ann Wyatt returned Tuesday of last week from Anchorage, Alaska. They accompanied Mary Ellen back to Anchorage after a visit here. They also spent a few days in Honolulu, Hawaii on the way home.

Business School Cooperate In School D D E Program

Distributive Education will be offered for the second year at Tahoka High School. Distributive Education is a work experience program whereby students attend school one-half day and work one-half day in distributive occupations.

The objective of Distributive Education is to prepare students for entry into, and success in wholesaling, retailing, or service selling occupations. A student in the D. E. program divides his time between study in school and practical work experiences in business. In the mornings, the student attends a D. E. class where he receives both individual and group instruction. The student is taught salesmanship, advertising, job hygiene, marketing, etc., as well as information about his own

Petula Clark, international star of films, TV and supper clubs, asks your help in the American Cancer Society's Crusade. "The Society wants to wipe out cancer in your lifetime," says the blonde actress-singer, "and that will take lots of money. There are no bargains in cancer research. So please give generously when your neighbor, the ACS volunteer, calls on you."

specific occupation. The new teacher-coordinator of the Distributive Education program is Mr. John Young. Mr. Young holds a B. S. degree in Distributive Education and has had five years of experience in selling.

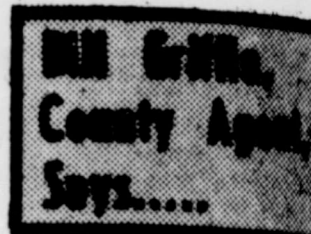

There are many advantages to the D. E. program. Distributive Education is an advantage to the student in that it provides jobs for students who need to work. Students also receive valuable job experience that will be of great value in the business world. Distributive Education can improve the personality of a student. They learn the satisfaction of a job well done and to do an honest days work for an honest days pay.

Distributive Education is an advantage to the community, as it helps students become more interested in the community, and they are less likely to move away after graduation. Distributive Education tends to upgrade the economy of the community by providing better salesmen and distributors.

Distributive Education is beneficial to the businessman because it provides an excellent source of recruitment of employees. Also the businessman's training costs are reduced because of the added training a D. E. student receives in the classroom.

Mr. Young's job is to coordinate classroom instruction with on-the-job training. He

contacts the student's employers periodically to check on the student's progress on his job. The student's grade is determined not only by classroom performance, but also by on-the-job performance. Mr. Young is looking forward to working with the students, parents, and businessmen of Tahoka.

Livestock owners need to record all livestock brands and marks with the county clerk's office after August 30, according to the new brand law passed in the last session of the Texas Legislature. Under the new law all brands now recorded will expire six months after the effective date of September 1.

This means that persons now using a registered brand or mark must register within this six - month period (September 1, 1971 through February 29, 1972). After this time any unrecorded brand becomes available on a "first - come" basis. The brands and marks must be re-recorded every 10 years.

Periodic reregistrations are enacted to clear the records of brands no longer being used.

Bobby Carroll, stricken with a serious ailment at 7:45 Wednesday morning, was reported to be showing improvement Thursday morning at Lubbock Memorial Hospital, where he is under care of a specialist.

When stricken, a local doctor was called, and Bobby was rushed to Lubbock. He was partially paralyzed, and it was feared he might have polio. However, further examination revealed a blood clot on the brain. He rallied Wednesday night, and doctors were hopeful that the clot would be absorbed and Bobby would recover.

Tahoka Lions Club enjoyed a "tacky" party and watermelon feast Tuesday night on the lawn of the Albert Curry home, at which the wives of members were the guests of honor. The event proved to be a hilarious occasion with the members and their wives coming fitting attire. Some of them showed up with wagon and team, and the party used the conveyance to visit the medicine show for a short time.

E. B. Galther is president of the club. Interest is being revived in the club activities, and some new members would be welcome, members of the club say.

o o o
Two Tahoka ladies, Mrs. Troy Havens and Mrs. Dennie Polk, are recovering in Tahoka Hospital from cuts, bruises and shock received in a car accident north of town Friday afternoon of last week.

They were returning home from Lubbock and had been driving through a shower. Some distance ahead a car started turning to a side road. The brakes on the Havens car, possibly wet from the water failed to hold, and the ladies crashed into the rear of the other car.

The public is invited to attend the Open House.

"Over the next few years adequate farm income from the production of cotton is facing greater threats than at any time in recent history, and without such income, cotton as a fiber and as amajor U. S. industry will simply wither and die."

These are the words of Donnell Echols, Dawson County farmer, ginner and President of Plains Cotton Growers, Inc. Lubbock-based PCG represents cotton producers in a 25 - county High Plains area where the total economy is highly dependent on cotton production and related activities. Combined cotton income at the farm level in the area normally exceeds \$350 million a year, substantially more than income from any other source.

Echols, speaking at a recent meeting of the PCG Board of Directors, warned that a significant portion of producer receipts from cotton since 1965 has come in the form of federal price support payments, "and these payments, which make up from 30 to 50 percent of our total returns, are under an increasing barrage of criticism in Congress where cotton programs must be passed periodically and where the money must be appropriated every year."

Prior to 1966 the price of cotton was supported by cotton programs involving a non-recourse loan which maintained market prices at a level reasonably sufficient to cover the cost of production plus a return to capital, management and labor. Under these programs, in the absence of an immediate market, farmers

vers license, one; drunkenness, one; vagrancy, one; and failure to appear, two.

New Home will play a full district 4-B six-man football schedule this fall. The new coach is Larry Morton, formerly of Meadow.

The football field has been improved and lighted for night games. The first four games on the schedule will be at 8:00 p.m. and the last three at 7:30 p.m. Admission will be 50 and 25 cents.

Miss Joyce Isbell this week won a diamond ring given away by a medicine show playing here. She asks the News to thank all the people who gave her their votes and thereby helped her win.

Visiting in Plains Wednesday were Mr. and Mrs. Pat Swann and Bobby and Mr. and Mrs. Jack Blevins.

Fred Davidson, student in Hardin - Simmons University, visited his mother, Mrs. Pearl Davidson, and family over the week end.

Mr. and Mrs. Clarence Church have gone on a vacation to Arkansas to visit his brother.

Mr. and Mrs. Lloyd Anders and Cynthia visited Mr. and Mrs. H. V. Preas Sunday. Mr. and Mrs. Arthur Charters and children are moving to Brownfield this week.

Mrs. Ora Timmons has returned from Washington, where she has been visiting her son, Johnny Timmons and family.

the situation was reversed. The House passed a lower ceiling, the Senate was persuaded to turn it down, and agriculture once again "dodged lightning."

"With this history of strong and growing opposition to cotton program payments," Echols told the PCG Board, "cotton producers can no longer afford to be complacent and assume that 'thing will always be worked out'. We must face up to the fact that the ultimate goal of congressmen who want to lower the payment ceiling is not \$20,000, but is nearer the government's poverty level of \$3,000, and some congressmen openly admit that their objective is to kill farm programs, period."

"There is now no doubt that a majority of both the House and the Senate is opposed to cotton price support payments to producers in proportion to the amount of their production," he continued, "and in this situation there is certainly no assurance that a workable direct payments type cotton program can be passed for the years beyond 1973."

"This places our very existence as cotton producers, and the very existence of cotton as a fiber and as a major U. S. industry, in extreme peril, and we must begin now to search for an alternative source or alternative sources of income.

"Unless we can find a way to extract from the market enough income to pay production expenses, or unless we can devise some different way to obtain government assistance, our industry will simply wither and die," he concluded.

Each year when Congress was asked for funds to carry out the 1965 Act there were efforts to place a limit on the amount of payments that could go to any one farmer. Put another way, the effort was to base the amount of payments on "what any one farmer ought to get" instead of the cents-per - pound times - volume-of - production formula written into the original law. Fortunately for agriculture, these efforts failed, but more because of political maneuvering on the part of agriculture's friends in Congress than because of the effort's unpopularity.

This latter fact was made clear in 1970, as the current program was being developed, when it was admitted by agriculture's friends and foes alike that no direct-payments farm program could be passed without a limitation of individual payments. USDA experts and committee chairmen in the House and Senate settled on \$5,000 per crop per person as the minimum limit with which the program would have a chance to be effective and the maximum limit that could be passed through both houses of Congress.

But even before the law was passed, when the agricultural appropriations bill came up in 1970, the Senate voted to further substitute the "minimum income requirements" philosophy for the capitalistic method of paying each farmer on the basis of his contribution to the industry. They voted to lower the payment ceiling to \$20,000. The House had previously passed the appropriations bill without restrictions on payments, and the Senate move failed.

Then in 1971, this year,

New L.P. Gas Tax Law Effective September 1

The recent 62nd. Regular Session of the Texas Legislature amended the Liquefied Gas Tax Law where by a farm or ranch user can elect to secure a Special Farm User Permit and pay taxes in advance on 1,200 gallons of fuel per year per vehicle, or a monthly fraction thereof, on vehicles secured after January, and to purchase tax free LP Gas without filing monthly reports and tax payments, or keeping records, other than annual speedometer readings. The law requires that the speedometer be kept in good operating condition at all times. The new law becomes effective September 1, 1971.

Under the new law a supplier cannot sell or deliver LP Gas tax free to any user who owns and or operates a motor vehicle with LP Gas unless said owner holds a valid permit as a Bonded - User or as a Special Farm User.

The new law states that a person who owns and or operates a motor vehicle powered with LP Gas cannot legally issue, nor can a supplier accept in lieu of tax payments, a signed statement that none of

the LPG purchased or acquired in Texas by him will be delivered or permitted by him to be delivered into the fuel supply tanks of motor vehicles

The Special Farm User Permits will be issued to farmers or ranchers by the Comptroller of Public Accounts, and will cost \$60.00 a year or \$5.00 per month for each remaining month after January. The Special Farm User permit will authorize the holder to purchase LPG free in a LPG operated vehicle.

A representative of Robert S. Calvert, State Comptroller, will be at Lynn Co. Courthouse on Aug. 23 thru Aug. 26 from 8:30 to 5 p.m. for the purpose of issuing these permits.

NOTE: The Decals can be purchased any time 8 a.m. to 5 p.m. Monday, thru Friday at Lubbock District Office - 2424 - 34th St. Lubbock, Texas. - Tel. No. 795-0691.

In order for you to purchase the Special Farm User Permit, it will be necessary for you to have each vehicle available for examination at the place you are making application for the permit. No permit can be issued without the examination.

Lynn Co. To Elect Director To Plains Cotton Growers

Lynn County cotton producers and agribusiness men will elect a businessman director to Plains Cotton Growers, Inc. at a meeting on Tuesday, August 24 in the Lyntel Room, Tahoka.

Announcement of the election was made by Joe D. Unfred, Lynn County producer director to the 25-county commodity organization, and Ardis Pace, current businessman director. Each of the counties in PCG territory has two directors, one a businessman and the other a cotton producer. They serve two year terms, with businessmen elected on odd years and producers on even years. Each is eligible for re-election every second year.

Unfred and Pace said all interested parties are urged to attend, and that both farmers and business men are eligible to vote in the election.

In addition to the election, Unfred said a member of the PCG staff will be on hand "to bring us up to date on cotton activities and to answer any questions concerning the organization's objectives." He added "directors to PCG are the men who determine the organization's policies and actions on legislation, research, promotion, finances and other matters so vital to the cotton economy of Lynn County, and all cotton people should make an effort to be on hand for this election."

reinforced engines

reinforced from fan to flywheel with 11 years of engineering developments and the longest warranty in the industry

You're hearing a lot about new tractor engines these days. Engines with replaceable wet-sleeve cylinder liners... with counterbalanced crankshaft and seven main bearings... with valve rotators... and other advanced features. They're good features. John Deere engines have had them for years. And over the years, we've reinforced and refined those features—giving you a reliability bonus "newcomer" engines don't offer.

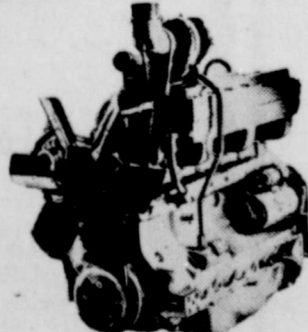

Reinforced with specially-cast ring carrier. A non-flexing, iron-alloy carrier for piston rings is cast within each aluminum-alloy piston. It provides a solid foundation for both top and middle rings—not just the top ring as in other engines.

Reinforced with double keystone rings. Wedge-shaped design prevents ring sticking better than the square-cornered rings others use.

Reinforced with specially-coated rings. An exclusive process electroplates the top ring with a super-hard space-age alloy. These coated rings have twice the working life of commonly-used chrome-plated rings.

Hundreds of such reinforcements make John Deere engines the most reliable in the business... backed by the longest warranty in the business. Good reason to make your next tractor a 95-h.p. 4000 or 4020, 116-h.p. 4320, or 135-h.p. 4620.

Tahoka Senior UMYF Take Camping Trip To Colorado

Tahoka Senior High U. M. Y. F. spent last week on their annual retreat to Antonito, Colorado. Thirty-two youth and five adults departed at 9 p.m. Sunday, August 16. After driving all night they arrived at camp on Monday morning and set up camp. When the work was done, time was spent riding the river on rafts, hiking, carving, throwing frisbees, playing football and baseball, doing Bible studies and devotionals, and rapping with the other youth.

One group of boys built a cross on a mountain facing the camp. Later in the week they returned and painted it red.

Everyone helped with campers which included camp cleanup, washing dishes, cooking meals and gathering firewood.

Nights were spent singing around the campfire, discussing Bible studies, witnessing, and talking about Jesus. This was really a time of growing closer to Christ. On Friday

night, most everyone shared communion in cups they had carved themselves.

At camp the group was honored to receive a visit from Mr. and Mrs. Garland Thornton and Susan and Nancy of Tahoka. Also, Jerry Cade, Conference U. M. Y. F. president from Brownfield surprised the group with a visit.

On the trip home Saturday, the Royal Gorge was visited and about an hour was spent shopping in Taos, N. M. Due to bus trouble, they arrived home later than expected, 5 a.m.

Rev. and Mrs. Hugh Daniel, Mr. and Mrs. Elmer Owens, and Mike Huffaker sponsored the trip. According to most of the youth the week was a time of growing closer to each other by experiencing God's love. No one regretted going and many are already talking about going next year. Yet, one question remains unanswered. What happened to the pancakes on Friday morning?

Those making the trip were: Hugh and Joy Daniel, Elmer and Betty Owens, David Brookshire, Mike and Leasa Huffaker, Gary Lewis, Calvin Adamson, John and Jim Thomas, Vicky Owens, David and Dana Martin, Dale and Dean Rogers, Kim and Ken Turner, Trent Leverett, Kent Payne, Phil McClendon, Sheri and Staci Short, Bengie and Jack Williams, Lisa Atwell, Billy Birdwell, Cathy Wells, Patsy Lawrence, Kathy Stevens, Gerogia Thomas, Sherree Brookshire and Denny Johnston.

Opal Graham, Exa McJunkin, Mr. and Mrs. Harlan Patterson and daughter, all of Houston are visiting their relatives, the Sherrard family. They are the children of the late Mr. and Mrs. Fisher Patterson. Mrs. Patterson was the former Mae Sherrard. They were all born in Tahoka.

Highlights AND Sidelights

by Vern Sanford

An Austin district court decision invalidating the 1971 House of Representatives redistricting act handed state attorneys and legislative leaders a mountain of unanswered questions.

Atty. Gen. Crawford C. Martin is in the process of appealing to the Texas Supreme Court the lower court's decision that the bill's "splitting" of 29 counties into separate districts is unconstitutional. Martin said the appeal is in line with a long-standing policy of his office to advocate the validity of a legislative act until the state's highest court rules on it.

Many high-placed state attorneys feel that if the Supreme Court upholds the August 2 district court finding, the chore of re-doing the job will fall to a five-member Constitutional Board (composed of lieutenant governor, House speaker, attorney general, land commissioner and controller).

Constitution says the Board will reapportion when the Legislature fails to do so in the first regular session after publication of each U.S. decennial census.

Lawyers hope the High Court will provide guidelines, however, for they are confronted with these questions:

+ Board is directed to meet within 90 days after the Legislature adjourns (before the end of August) and come up with a redistricting bill within 60 more days (by the end of October). What happens if there is no final Supreme Court ruling by this constitutional deadline?

+ Since the House tried to redistrict and its act was knocked out, would reapportionment then be expected in a special session of the Legislature? Constitution says the Board will reapportion if the Legislature fails to act, but the Legislature did "act" in the case of the House plan, only to have a district court declare its work invalid. No Senate reapportionment bill was passed by the Legislature, so that job automatically falls to the Board.

+ Since the 1970 census (on which lawmakers base their reapportionment) was published while the 1971 Legislature was meeting, could redistricting really wait until 1973 when the 63rd Legislature convenes?

AG OPINIONS - Attorney General Martin held that a new law requiring certain county officials to report to the county money they receive from operating private business on public property is unconstitutional.

In other recent opinions, Martin concluded:

+ Use of automated machines for check cashing at banking houses would not violate Texas laws against branch

banking.

+ Education code does not entitle a retired school teacher to return to the classroom and have additional years of teaching service thereafter used in calculating retirement benefits.

+ Motor vehicle tax on rentals is due at the time of payment of rental charges. Legislature did not authorize credit or reimbursement for motor vehicle tax paid on original purchase price, when status of vehicle is changed from lease unit to rental unit.

+ Bill conferring additional jurisdiction on county court of Orange County is constitutional.

SOME AUTO INSURANCE COSTS CUT - State Insurance Board ordered a 50 per cent reduction in premiums of standard property damage auto liability policy where \$250 deductible is accepted.

Board further directed a 12 per cent cut in basic bodily injury premiums for \$250 deductible coverage, up to \$500 per accident.

New deductibles authorized by the Legislature this year go into effect August 30. New rates take effect September 1. A statewide increase in liability rates of 2.2 per cent already has been recommended with old deductibles. Basic liability coverage is \$10,000 per person for bodily injury, up to \$20,000 for several victims of one accident and \$5,000 for property damage. Company can pay the amount of the total claim and collect the deductible later from the policyholder.

TOURISM STRONG - Tight money and the drought failed to halt "a stong upward surge" of tourism during the first half of this year, according to Texas Tourist Development Agency.

Agency found business up 11 per cent for the January-June period. Thirty-five main Texas as tourist attractions, public and private, reported 17.3 million visitors, compared with 15.6 million in the same period for 1970.

Live Steam Museum at Alamo said business was up 97 per cent, and Confederate Air Force Flying Museum at Harlingen reported 63 per cent increase in visitors. Big Bend National Park visits were up 32 per cent; East Texas national forests, 28 per cent; Six Flags Over Texas, 18 per cent and Padre Island National Seashore, 16 per cent. Two-thirds of the visitors were Texans, a third from other states.

HIGHWAY FUND HEARING ASKED - Gov. Preston Smith seeks a formal hearing before the U.S. Transportation Department to prevent a threatened cut in federal highway aid for 1973.

Failure of the 62nd Legislature to enact legislation to comply with the 1965 highway beautification act (billboard advertising controls and junk yard screening) will bring a cut in federal allocation, Transportation Secretary John A. Volpe has warned.

Absence of such legislation means a 10 per cent federal aid reduction for highway construction.

Smith wrote Volpe that evidence can be offered by Texas to warrant a stay of final determination. He asked a formal hearing to present the state appeal.

THE FAMILY LAWYER

Barbs From the Bench

On trial for burglary, the defendant was trying to explain he had been observed near the scene of the crime at three o'clock in the morning. But the judge was skeptical.

"Honest people," he said cryptically, "are in bed at the o'clock in the morning."

Was the judge's remark peculiar? Indeed it was, ruled appellate court, granting the defendant a new trial. The judge said the judge had no right to be wisecracking to blacken the defendant's reputation.

The appellate court was concerned not about the feelings of the defendant but about the respect of the jurors.

"The jury," said one expert, "can be easily influenced by slightest suggestion from the judge, whether it be a nod of the head, a smile, a frown, or a spoken word. It is imperative (he) conduct himself with caution in order that the maximum power he possesses shall not be abused."

Unfortunately, a new trial costs in both time and money. Accordingly, even if a judge said something to disparage the defendant, the appellate court will usually overlook it if it seems to be no great harm. Often a judge who realizes his mistake can "take the sting" of what he said by instructing the jury to ignore it.

Super is a judge expected to be superhuman. In the heat of a trial he may understandably have flashes of nonjudicial emotion. In one case, while the judge was talking with a lawyer, the defendant kept interrupting. The judge burst out:

"Please keep quiet. I don't want you here to answer questions. If there is any more of this kind of talk, you will be in for contempt of court."

But this time, an appellate court found no grounds for a new trial. The court said that, even though the judge should not have had temper, he could be excused as a natural reaction to a stressful situation.

The United States Supreme Court once summarized the matter as follows:

"A defendant is entitled to a fair trial but not a perfect trial."

Larry Spruiell Goes To Mesquite

Larry Spruiell, who will receive his B. S. degree in management at Texas Tech this Saturday, will be associated with Horticultural Printing division of Corsacallen Industries at Mesquite, a suburb of Dallas.

He and his family will move to Mesquite shortly and will live at Tradewinds Apartments.

While attending Tech, Larry has been employed by Craftsman Printers in Lubbock.

We are just bursting with news this week - so many good things have happened to us!

We had the privilege of getting to know our new administrator and his wife, Mr. and Mrs. Russell Bales. They are certainly wonderful people and we wish them a long and happy stay at the home and in our community. Mr. Bales comes to us with 3 years experience in managing nursing homes. He first worked in Lockney at Challenge Nursing Home, then, moved to Levelland and a branch of Colonial Nursing Home. In taking over here he states that there will be no changes in policy or rates and in the future any changes made will be for the benefit of our residents in making this a clean and happy place for them to live.

Mrs. Bales will be in charge of housekeeping until a nurse's aid position becomes available.

The Bales have five children. Two, Melvin and Janet Lynn are living in Austin, Texas. Three younger boys will be living in Tahoka with their parents and attending Tahoka High School. They are Gordon, a Junior; Walter, a Sophomore; and David, a Freshman.

The Bales plan on attending Tahoka Church of Christ and are residing at 1321 S. 4th St. Join the staff and patients at the Home in welcoming these fine folks to Tahoka.

We also welcome a new patient to the home. Mrs. Laura Connell comes to us from Post, Texas. We wish her a happy stay with us.

Mrs. John Slover is out of town for a short time but Mr.

Slover is certainly not being neglected. James W. Slover and George Slover, both from Midland, were in to visit with him.

Mrs. Harter had special guests this week in addition to her daughter, Mrs. Lawson. Also visiting here were Mr. and Mrs. Waymer Reese from Rhone, Texas.

Mrs. Tom Hale baked us another one of her special pound cakes this week. Mrs.

Asena Lawson brought us a lemon jello cake and Mrs. Dora Carpenter came to see us with cup cakes for patients and staff. Ladies, you are gonna make us fat, but you're sure keeping us happy.

Fresh fruits and vegetables? You bet! Mrs. Vivian Barnett came through with yellow squash and Mrs. Wes Jolly, we sure do thank you for all those sweet grapes. We will enjoy them for days. Thank

you, ladies for remembering us.

Mr. Jones has left our home and gone to Lubbock. We will miss this nice man but certainly wish him good luck at his new residence.

The Church of Christ was responsible for our Sunday morning services. We had a good crowd out to sing and everyone was blessed. Mrs. Hammonds was back to the home Monday leading us in

hymns. We sure do appreciate this fine lady for sharing her talent with us.

Mr. Haney had a wonderful birthday Sunday. Nearly all his family from Lubbock were here to visit him, including 2 great-grandchildren born the 13th of this month. When he saw them they were only 2 days old.

Some of the folks signing the guest book were Mary Haney, Mr. and Mrs. Roy

Prado, Delinda and Terry Prado, Mr. and Mrs. George Haney and Cythina Kay, Mr. and Mrs. Otis Haney and Debbie, Mr. and Mrs. William Duff and Joanna, Mrs. Carrie Haney and her children, Cecil Edge and Janice Haney.

He sure enjoyed visiting with all these good folks on his birthday. Mr. Haney is 84 years old.

Mrs. Clark was out of the home Sunday visiting with Mr.

and Mrs. Leonard Pyburn. They took her to church and then home to eat with them. She sure had a nice day.

Besides the guests we have already mentioned, these following signed our register: Mr. and Mrs. W. T. Luttrell, M. C. Williams, Mrs. Lavenia Lowe, Mr. Preacher Roberts, Mrs. McGuinly, Mrs. Charles Gass, Linda Perez, Mrs. T. E. McDougall and Dr. and Mrs. Homer Crim.

Officiating were the Rev. William Fleming, minister of Second Methodist Church in Amarillo, and the Rev. Robert D. Nicholson, minister of First Presbyterian Church.

Mr. and Mrs. Lamar Jones of 3517 40th St. are parents of the bride. Mrs. Hancock received a degree in food and nutrition from Texas Tech University and is working on a master's degree at the school. She is a member of Kappa Kappa Gamma social sorority and employed as a therapeutic dietitian at University Hospital.

Parents of the bridegroom are Mr. and Mrs. N. B. Hancock of New Home. Hancock received a degree in economics from Tech, where he is a member of Delta Tau Delta social fraternity. He served in the U.S. Navy, is

working on a doctorate degree in history at Tech and is a salesman for Smallwood Appliance Co.

The bride was escorted to the altar by her father. She wore a gown of white organza and venise lace, fashioned with an empire bodice, full sleeves and A-line skirt.

Miss Barbara Yvonne Jones was her sister's maid of honor. Bridesmaids were Misses Deborah Jane Jones, Beverly Jones of Marble Falls and Eloise Kay Witt of Ignacio, Colo. They wore empire-style dresses of powder blue organza, fashioned with mock weskits trimmed in venise lace.

Louis Dale Gill of Chicago, Ill. served as best man. Groomsmen were Michael Jackson Cannon of Colorado Springs, Colo., Alfred Giles IV of Austin and David L. Forester of Clear Creek.

Guests were seated by Paul Chalmers Crutchfield of Amarillo, Thomas A. Harrison of Tucson, Ariz., Terry Lee Brown of Abilene, Elton Graham George of Dallas, David F. Porter of Kansas City, Kan., George N. Hancock and David Wayne Unfried.

Wedding music was presented by Mrs. Bruce Roark, organist, and Mrs. Herbert J. Pijan, soloist.

A reception in the Garden Room of the church honored the couple before they traveled to Glacier National Park on a wedding trip. They will be at home in Lubbock.

Linda Huffaker, CHD Agent, Says.....

Nazarene Church Has Anniversary

The Grassland Church of the Nazarene will celebrate its 50th Anniversary Sunday August 22. The Church was organized August 18, 1921 with fourteen charter members. Three of these still attend: Mr. and Mrs. Mac Richey and Mrs. Maggie Murray. There are now 50 members, and attendance averaged 74 for the month of July.

Rev. and Mrs. Graham were the first pastors and services were first held in the Grassland school house. A building was built in 1922 which serviced the congregation until 1962 when the present brick structure was built. Rev. and Mrs. R. B. Fitzgerald was pastor, he is now pastoring in Denton, Texas. All former pastors have been invited back for this special occasion.

After the morning worship service, a covered-dish lunch will be served, and an afternoon service will begin at 2:30 p.m. with greetings by many of the former pastors, and lots of special singing. The Grassland congregation is blessed by many fine singers and musicians, and the present pastor, Ray Smith, has announced plans to produce a Golden Anniversary record album. Orders are being taken now. No evening service is planned on August 22nd.

A lovely brick parsonage was built and dedicated in October of 1969 with Rev. E. A. Rawlings served as pastors the past five years and have recently moved to Olton, Texas.

Winners Named In Yearbook Workshop

A complete list of special competition award winners has been announced for the yearbook division of the 14th annual High School Publications Workshop recently concluded on the Texas Tech University campus.

The workshop was sponsored by Texas Tech's Department of Mass Communications. Conducting the workshop's yearbook division was Taylor Publishing Co., of Dallas with Harold Humes in charge.

Participants in the session were instructed in the latest trends in layout and copy techniques and were provided visual aids for study. A special staff was also chosen to edit the workshop yearbook "Sine Nomine" which is produced annually.

Yearbook workshopers laid out sections of their own schools' 1971-72 yearbooks, getting a big jump on fall deadlines, according to workshop director Ralph Sellmeyer, Tech journalism professor.

Competitive awards for work in various phases of yearbook production were presented by Taylor Publishing Co., representatives Bob Gillette and Doyle Elder during a banquet which capped the workshop in the Tech University Center.

Awards for Best Staff Dummy in Class A went to Lubbock Coronado, Odessa Permian, El Paso Irving, Big Spring and Midland Lee high schools, while awards in Class B for smaller schools went to Slaton, Lockney, Rising Star, Stanton and Happy high schools.

Best Individual Dummy awards went to Gloria Gibson of Amarillo Tascosa, Cindy Cross of Silverton and Norma's Gilbreath of Ralls. Winners of competition for Best Cover were Susan Korchenko of Shallowater, Dusty Peters of Anton and Judy Rhymes of Big Spring.

Recognized for Best Individual Double Page Spread were Jini Laroe of Happy, Connie Wendell of Lubbock Coronado and Becky Hopper of Pecos. Best Activities Spread awards went to Amarillo Caprock, La-

WE CALL IT A

Hideaway Water Heater

but not because we're ashamed of it.

Electric water heaters have no flues... don't need to be vented to the outside of the home. And this gives them a hideaway story all their own. They can be installed anywhere... in the bath, in the kitchen... hidden away where a great part of the hot water action is... even in the laundry. Ask us about electric water heating for your home.

We sell, service, guarantee, install and finance electric water heaters.

ELECTRICITY... IT DOES SO MUCH GOOD FOR SO MANY PEOPLE!

WATCH OUT FOR US PLEASE

School Begins Monday

and hundreds of young folks will be starting to school in Tahoka. They're full of pep and inhibitions; they're gay and happy to renew school day friendships; they're careless and unmindful of the dangers that lurk as they dart out into the street going to and from school. That puts the burden of their safety on you, Mr. Driver. Let's be doubly careful in driving through the city streets these next few days, particularly in the areas around the school buildings.

We are looking forward to the day when these youngersters will be our customers, Drive Carefully.

ALONG THE TRAIL

Novices tend to follow the path, especially when it is straight and narrow. But even with experienced riders there can be unexpected turns, and it's possible to get lost. In life there are very few straight paths. It is extremely easy to come upon an unexpected turn, and to encounter doubt, confusion, even despair. Horseback riding is not compulsory. But you do have a life—and you have to live it. The way is up to you. If we get lost, we can give up, but with the help of the Church, you will find a trustworthy guide which will renew your faith and clear the way to the path of eternal fulfillment.

Vergle Hicks Named To Outstanding Young Men

Vergle Lee Hicks, 602 Chamberlain, Irving, Tex., son of Mr. and Mrs. Vernon Hicks of Rt. 5, Tahoka, Texas will appear in the annual biographical compilation Outstanding Young Men of America.

Selections for the 1971 edition of "Outstanding Young Men of America" were announced by a 16-man Board of Advisory Editors.

Doug Blankenship, U. S. Jaycee past president (1962-63) who is serving as Chairman of the Board, said that the men selected "have distinguished themselves in one or more fields of endeavor to the point of being outstanding."

The men chosen are between the ages of 21 and 35.

"Outstanding Young Men of America" is an annual biographical compilation sponsored by leading men's civic and service organizations. The awards publication features the accomplishments of approximately 5,000 young men of exceptional achievement throughout the country. Nominations for the awards publication are made by Jaycee chapters, college alumni associations, and military commandants. Criteria for selection include a man's service to others, professional excellence, business advance-

ment, charitable activities, and civic and professional recognition.

President Richard M. Nixon has said of the publication, "Outstanding Young Men of America presents a most fitting testimonial not only to the success of many of our young people, but also to their awareness of the debt which they owe our free society."

The 1971 edition of "Outstanding Young Men of America" will be the seventh edition of this annual compilation.

Publication date is November 1971.

Rep. Short To Tour Calif. Water Project

State Representative E. L. Short of Tahoka is one of several lawmakers selected by Speaker Gus F. Mutscher to tour facilities of the California Water Project August 22-26. The House Members will be a part of a 50-plus group of Texas governmental, civic, educational, business and agricultural leaders slated to make the tour.

Other legislators are Representatives James Slider of Naples, Lindon Williams of Houston, Billy Clayton of Springlake, Joe Hawn of Dallas, Harold Davis of Austin and Terry Doyle of Jefferson County.

"With such members of the legislature taking advantage of this opportunity to observe the project in operation," Mutscher said, "we will gain a new insight into the problems ahead in development of our own resources."

After a briefing by California and federal water development officials at Sacramento, the tour group will go to Oroville Dam on the Feather River in northern California, then follow the California Aqueduct into the southern part of the state. Included is an inspection of Edmonston Lift Station near Bakersfield, the facility designed to pump huge quantities of water up and over the Tehachapi Mountains, a total lift of almost 2,000 feet.

Speaker Mutscher said the inspection tour gives the lawmakers an opportunity to make a first-hand evaluation of progress on the \$2.8 billion water project, now 90 percent completed. They'll also be able to visit with state and federal officials for discussion of problems encountered in implementation of the massive project, and will be able to observe the various areas in which the project has enhanced the environment and made substantial contributions to an expanding economy.

Mutscher said the California Water Project is similar in many respects to the comprehensive plan for development of Texas' water resources. It utilizes stored surplus water and distributes it through a massive system of canals, reservoirs and lift stations to water deficient areas. It provides water for many purposes including municipalities, industry and agriculture. In addition the project makes possible flood control and provides myriad water oriented recreation activities as well as improving the environment of the state.

Mrs. Chestnutt Appointed To TADA

Mrs. Frances Chestnutt, Bray Chevrolet Co., Tahoka, has been appointed to the key post of Area Director of the statewide Texas Automobile Dealers Association, TADA is a 54-year old organization of franchised new car and truck dealers dedicated to selling and servicing the motor vehicle buying public and improving the automobile industry in this state.

Mrs. Chestnutt will serve with the TADA Board of Directors in studying all phases of activity concerning the automobile industry.

"The position of Area Director is of ever-increasing importance," stated TADA President Finley Ewing of Dallas. Mrs. Chestnutt will work closely with Federal, State and Local Officials in the studies of pollution, safety, and law enforcement problems.
