The Country Editor says that if first you don't succeed, you are about normal. TBW

We received a telegram January 6 from Senator John Tower, announcing that the Farmers Home Administration awarded a 27 thousand grant to the South Plains Association of Governments for the counties of Crosby, Lubbock, Motley, Terry, Baxter, Dickens, Garza, Hale, King and Lynn. The grant will enable the 10 county Association to prepare a comprehensive plan for water and sewer service and rural development of the counties. This plan will help to eliminate pollution in the area.

Buyers already are offering "fat" contracts for 1972 cotton, months in advance of planting in the South Central cotton belt, according to a December United States Department of Agriculture bulletin from Memphis, Tennessee.

It stated that the 1972 crop received increased interest this week and growers were offered contract prices of 29.00 to 29.50 cents with various stipulations.

Reports indicate most farmers are some what reluctant to commit themselves and booking was rather slow.

A USDA report from Memphis one week earlier noted: "Interest strong for 1972 crop cotton and contract prices were steady at 28.00 cents."

Thus, prices on early '72 contracts rose 1 to 1 1/2 cents in the span of one week in mid-December.

One individual associated with the cotton industry sees this as another indication that prices will hold strong through the '72 harvest.

Three "average" crop years would be required to bring the U. S. cotton inventory to a desirable level.

"We might send this one in to some of the government bureaus which are constantly seeking ways to spend our money. It seems that a research director of a major government agency was order-

ed to study about fleas. He obtained a flea with a high IQ, placed it on his desk and finally succeeded in training it to jump over his fingers on spoken command. Then he removed two of the flea's legs. 'Jump' he ordered, and the flea still jumped. Two more legs were removed. Again the flea responded to command. At last the final two legs were removed. 'Jump' the research director commanded, but the flea didn't move. The director then wrote his lengthy report on the project, concluding that: When a flea loses all six legs, it becomes dead.

We recently heard a story about a farmer living in deer country repeatedly each year had some of his farm animals shot. With the coming season the farmer bought a bucket of paint and painted cow on his cows, hog on his hogs and so on. After the season the farmer had not lost an animal. Needing to do some farming the man went out to his tractor and found it shot to pieces. The tractor just happened to be a John Deere.

AGRICULTURE is still the nation's largest industry. Three out of every 10 jobs are connected to farming.

Nowhere in the world, at anytime in history, has a nation had a more abundant, low-cost, high-quality supply of foodstuffs.

"The Average American" comments a leading business executive, "spends only 16.7 per cent of his take-home pay (for food).

This compares with 37 - 39 per cent for his counterpart in western Europe and Japan, the East Indian who pays 60 per cent of his paycheck for food and the Russian who must pay 65 per cent."

In a period when productivity has been steadily falling for the country as a whole, output per man-hour of farm labor has increased 6.6 per cent per year since 1950.

As the business executive puts it, "Any way you plow it, this is real productivity improvement. . ."

## N. E. Wood Seeks Election To Justice Of Peace

N. E. Wood announces that he is a candidate for election as Justice of Peace of Precinct 1, subject to the May 6 Democratic Primary election.

I would like to express my appreciation to the people for being so nice to me during the past seven months while serving you as Justice of the Peace.

As you know I was appointed Justice of the Peace when Mr. L. B. Thompson resigned due to ill health.

I am asking to be elected to complete his un-expired term. I have done my best to serve you the people in a fair and impartial way and to execute the duties of this office in the way that I feel you would want it done.

If I am elected I assure you I will do the very best I possibly can to help uphold the law and order, and give justice to all.

NEW CEMETERY ENTRANCE--Pictured above is the new south entrance to the Tahoka Cemetery erected by the City of Tahoka. The entrance really enhances the beauty of the Cemetery. This is just one of the many improvements the city has made since taking over the management of the cemetery.

## 1972 License Plate Applications Mailed

If you own one or more of the more than seven - and - a - half million motor vehicles in Texas, some important mail is coming your way.

The first of 7.5 million renewal applications from the Motor Vehicle Division of the Texas Highway Department were dispatched from the post office's facilities in Dallas on Friday, Dec. 31.

Owners of motor vehicles should be receiving the renewal applications - for obtaining 1972 Texas license plates - early in January.

The actual motor vehicle registration "season" at county tax offices does not begin until Feb. 1.

However, vehicle owners may go ahead and order their license plates by mail immediately.

All that is required is to send the entire renewal application, the registration fee and \$1 for each vehicle to be registered to the local county tax office. License plates will be returned by mail after registration begins formally on Feb. 1.

Vehicle owners should allow at least 30 days for processing and delivery. The application should be sent to the local county tax office - not to the Texas Highway Department.

License plates can be obtained in person at county tax offices and designated substations beginning on Feb. 1.

## 1972 Vehicle Registration

The 1972 License Plates go on sale February 1, 1972. Lynn County has received the following numbers: Passengers - CLR925 - CLX 174; Commercial - IS5950 - 7324; Farm - 8F2900 - 4349.

In order to distribute the number equally over the county, George McCracken, Tax Collector, plans to place License Number CLT10 - 999 at Moore Insurance Agency, O'Donnell; CLV10 - 999 New Home Coop; and CLW10 - 999 Wilson Coop. Due to the computer system, The Texas Highway Department in Austin, has requested that license plate numbers be issued in numerical order.

People that wish to have a special number, must bring their car papers and money to the office or a sub-station prior to date registration begins.

Mr. McCracken states that he feels this two-week period will be ample time for people to comply with this method and will be able to obtain their special numbers.

Complete, easy-to-follow instructions are contained on the form and on the envelope.

Deadline for displaying 1972 license plates is midnight, April 1.

## Welcome New Voters

To our new voters 18, 19 and 20:

Welcome to the smartest, dumbest, loudest, quietest, most concerned, most apathetic, most easily duped, hardest-to-convince, most independent club in the world - the US Electorate.

YOU NOW HAVE a share in our democracy equal to that of any millionaire or pauper. Your new franchise is one which many who are well over 18 have been fighting for since they were 16 or 17.

Don't take your new voting power lightly. Use it. Register. Become a loyal Democrat, a true-blue Republican, a power-swinging Independent or a conservative or a liberal. Study the issues. Listen to the candidates. Get involved. Learn to stand for something, so you won't fall for anything. Take that vote to the ballot box every chance you get. Be jealous and protective with it. And be prepared to guard it with your life.

Pollsters already are saying that you won't be much different than your parents claiming that only 40 percent of you will bother to register, and that only a fraction of you will actually vote in any given election.

We hope you'll prove the pollsters wrong, for if this nation of ours is to realize the full potential that has been offered in its charter - that is, the full measure of every freedom for every living soul in our nation - then it needs your help and your voice at the ballot box.

IT MAY BE THAT our older generation, in giving you the vote, is pleading for your help. Those responsible for ratifying this new constitutional amendment may have been admitting that the generations before yours have fouled up, that we haven't allowed our democracy to work as well as it should, that we have too long been concerned more with show than substance. Perhaps they felt the need to include Americans who can see

the everyday prejudices which many of us allow to pass unnoticed, Americans who aren't afraid of altering the status quo, Americans who are more concerned with the national conscience than with the national bureaucracy.

In his book, "The Greening of America," Yale law professor Charles A. Reich proposes this thesis:

"There is a revolution coming. It will not be like revolutions of the past. It will originate with the individual and with culture, and it will change the political structure only as its final act. It will not require violence to succeed, and it cannot be successfully resisted by violence. This is the revolution of the new generation."

Professor Reich argues that attempts to change government policies through the political process have failed, and that our government has become such a huge, self-serving monstrosity that further attempts to right the wrongs of our society by direct political action are futile.

WE CANNOT AGREE that our government will not respond to direct political action through the normal channel - the ballot box. If a revolution is to be, our Constitution provides the means for it - the ballot box. Through our nation's 200-year history, we have indeed had several revolutions. We have brought about sweeping changes in national direction that would have required armed revolts in many countries. But our revolutions have been brought about mainly through the use of the same bloodless battlefield - the ballot box.

Of course our democracy has its faults. But what form of government hasn't? Winston Churchill termed democracy as "the worst form of government yet devised by mankind - except for every other form ever devised." Often our democracy works with maddening slowness, but it works nonetheless.

It may take your entire lifetime or longer to cure the ills that plague our society today. But those ills that should be cured governmentally can be cured if enough of our government's members - voters - demand that they be cured. Our democracy was built to respond to the vox populi - the voice of the people - and if your demands have merit, they'll be heard.

But not unless you make full use of your new power to vote. If you simply don't care, you'll actually be an enemy of democracy.

THE CHALLENGE and the opportunity are now yours, if you will take advantage of your new status as voting Americans.

Go to the county tax assessor's office and sign up. It's free.

Then use your new voting power every chance you get. You'll find that when you get into the voting habit, it isn't any big chore. In fact, sometimes it can be a heckuva big thrill.

## Marshall's Sons Are Overseas

On Monday, Jan. 3 at 12:20 p.m. (8:20 a.m. there) Mr. and Mrs. Rex Marshall talked to their son S.F.C. Terry Marshall who is spending 15 days with his wife Judy and 3 sons, in Anchorage Alaska. Terry is stationed at Da Nang, Vietnam and will be there until May 27.

Capt. Tommy Marshall, whose wife, Kay and children, Mark and Angella live in Idaho, arrived in Chun Chan (near Seoul) Korea about the 12th of December for a 12 months tour of duty with an aircraft section.

The Marshalls are former residents of New Home.

## Rites Held For Bonnie Smith

Mrs. Bonita Louise Hale Smith, 27, longtime Lynn County resident died about noon Wednesday in Colonial Nursing Home in Tahoka after a lengthy illness.

Services for Bonnie were held at 10:30 a.m. Friday, Jan. 7, in the First Baptist Church of Tahoka. Officiating was the Rev. Jim Turner, pastor and the Rev. Hugh Daniel, pastor of the United Methodist Church in Tahoka. Burial was in Tahoka Cemetery directed by White Funeral Home.

Mrs. Smith was born Oct. 12, 1944 in Cardiff, South Wales, England, and moved to Lynn County with her family in 1947. She was a graduate of Tahoka High School, a member of the Order of Rainbow and a member of the First Baptist Church.

Survivors include a daughter, Kimberly Smith of Tahoka; a son, Kevin Smith of Kermit; her parents, Mr. and Mrs. Tom W. Hale of Tahoka; three sisters, Mrs. Jessie Spruiell, Mrs. Joe Thomas and Alta Marie Hale, all of Tahoka; and her grandparents, Mr. and Mrs. Tom Hale of Tahoka.

Funeral services were held at 10:30 a.m. Friday, Jan. 7, in the First Baptist Church of Tahoka. Officiating was the Rev. Jim Turner, pastor and the Rev. Hugh Daniel, pastor of the United Methodist Church in Tahoka. Burial was in Tahoka Cemetery directed by White Funeral Home.

## Cotton Harvest 60 To 70 Per Cent Complete

The South Plains cotton harvest was sixty to seventy per cent complete on Friday, January 7th, according to W. K. Palmer, in charge of the U. S. D. A. Cotton Classing Office in Lubbock.

The cotton harvest resumed on Thursday and is increasing daily.

Most of the cotton classed last week at the four area U.S.D.A. Classing Offices was harvested before the snow.

The U.S.D.A. Classing Offices at Lubbock, Brownfield, Lamesa and Levelland classed 163,000 samples during the week ending Friday, January 7th, bringing the season's total to 734,000. At this date last year the four offices had classed 1,617,000 samples of the 1970 crop.

## Bible Study At Sweet Street Baptist Church

A special week of Bible study is planned for the week of January 17 to 21 at Sweet Street Baptist Church, 1300 Avenue J. The New Testament book, "Acts of the Apostles," will be studied by members, friends, and guests, led by the pastor, Rev. Daniel Rupp. Everyone in the community is invited to come for a very profitable study of the "Acts of the Apostles". Each evening from 7 to 8:30, youth and adults will study the very beginnings of the church which Christ instituted, the acts of the Holy Spirit, and the persecution of the early Christians as Peter, Paul, and others fearlessly spread the Gospel and started churches to the four corners of the known world. Applications of the book to life today will be discussed.

All children will be provided for. The church nursery will be open for children up to age four. Children up to age twelve may come to study hall while their parents are in Bible study. Refreshments will be served to the children, and games and singing will be enjoyed during this time.

Grades of the cotton classed at the Lubbock office were lower than those of the previous week.

Low Middling Light Spotted was the predominant grade at Lubbock last week with 44 per cent of all cotton classed. Strict Low Middling Light Spotted made up 15 per cent, Low Middling 8 per cent, and all Spotted and Tinged grades 23 per cent.

Staples were predominantly 29 to 31. Nineteen per cent had a staple length of 29, 54 per cent stapled 30 and 19 per cent was 31.

Only four per cent of the cotton "miked" in the Lubbock office was in the premium range of 3.5 to 4.9, 8 per cent "miked" 3.3 and 3.4, 32 per cent 3.0 through 3.2, 41 per cent was 2.7 through 2.9, and 15 per cent was 2.6 and below.

The Consumer and Marketing Service of the U.S.D.A. reported increased trading on the Lubbock market but prices were \$5.00 per bale lower. Prices ranged from 30 to 32 1/2 cents with most cotton selling between 31 and 32 cents.

Average prices paid for the most predominant qualities in the 3.5 - 4.9 micronaire range were: Low Middling, Staple 30 - 31.80, Low Middling, Staple 31 - 32.00, Strict Low Middling Light Spotted, Staple 30 - 32.05, Strict Low Middling Light Spotted, Staple 31 - 32.20, Low Middling Light Spotted, Staple 30 - 31.65 and Low Middling Light Spotted, Staple 31 - 31.85.

Prices paid farmers for cottonseed ranged from \$40 to \$70 per ton with most prices in the \$48 to \$52 range.

## Harold Roberts Receives Award

Harold Roberts, Tahoka manager for Southwestern Public Service Company, received an Outstanding Manager award at a sales meeting held today (Thursday) in Lubbock. Roberts received the award for outstanding performance in 14 areas of sales competition.

This is Roberts' fifth outstanding manager award, and he is a repeater from last year. In addition, he captured the honor in 1962, 1964 and 1967, and was runnerup in his group in 1968 and 1969. Tahoka competes against 9 other communities of similar size in the competition.

In addition to the outstanding manager award, Cliff Milnar (ca), director of sales and industrial development for Southwestern, presented Roberts with a watch, electric, of course.

## 1972 Voter Registration

The number of people who have registered to vote for the year 1972 to date is 1360. This is approximately 300 less than had registered at this time in 1971.

Everyone from 18 years of age and above must register to be able to vote in the elections for 1972.

Applications for voter registration certificates may be obtained at Moore Insurance Agency in O'Donnell, Wilson Coop, and New Home Coop and at the Tax Office in the Court House. Also the city of Wilson Tax Office.

Mrs. Pat Hensley, Rt. 1  
O'Donnell.  
Congratulations, Kenny!

"Dear Mr. Hensley:

I am happy to inform you that you have been nominated by your campus for inclusion in the 1971-72 edition of *Who's Who Among Students in American Universities and Colleges* and that your nomination has been accepted by the editors.

This honor is conferred annually upon outstanding student leaders from approximately 1,000 colleges and universities in the United States. In selecting candidates, campus nominating committees are instructed to choose those students whose academic standing, service to the community, leadership in extracurricular activities, and future potential are decidedly above average.

So reads the letter received by Kenny Hensley of Borden County.

Kenny, a graduate of Borden High School in 1968, will receive his bachelors degree in Agricultural Economics from Texas A&M this coming May.

According to Dean James P. Hannigan of A&M a student chosen for "Who's Who" has been judged to be among the nation's outstanding campus leaders. Who's Who listing is limited to graduating seniors who have at least a 2.5 grade average.

Kenny is the son of Mr. and

Mrs. Morris Russell is home and doing fine after major surgery in Methodist Hospital.

J. W. Edwards is doing fine and expects to come home from Methodist Hospital, where he had surgery on his left foot.

We started the week off with Mrs. Hammonds and a group of ladies bringing our beautiful musical program. Thank you for sharing your time with us.

Our hearts were saddened with the passing of our dear Bonnie. She passed away Wednesday. Our loss is heavens gain. We know the Lord will be with her devoted family during this sad time.

Also we lost Mr. Stone this past Saturday morning. Our prayers and love go out to his wife and family.

Mrs. Byrd and M. Haney are still on the sick list. We hope they'll soon be better. Mrs. Corbin our newest patient was visited this week by her daughter. Mrs. Corbin is almost blind but you should see her crochet needles fly. What lovely work she does. This lady has become a real joy to us here at the home. Her bright attitude toward life really adds to our usually cheery attitude.

When Buel Draper and Mrs. Draper walked in to see Howard this week, we thought we might have a new patient. Have you folks seen Buel on crutches?

Mr. Haney was sure glad to see all his family this week end. Some of his family signing the register were: Mr. and Mrs. Roy Prado and baby, Mr. and Mrs. Roy Sullivan, Mr. and Mrs. Bill Duff, H. D. Boswell and Carrie Haney. Mr. Haney is not feeling too well these days and sure enjoys these visits.

We thank the Hale family for the beautiful flowers in memory of Bonnie.

Mrs. Clark and Virginia Dunn were both out Sunday morning to church. We are so happy these ladies feel like going out to church.

Roseberry, Mrs. Pauline Walters, Mrs. Mildred Walker, Buleh Atkins, Jewel Tomlinson, Canna Allen, Mickey Bertriaux, Mrs. Bunk Chandler Mrs. Bub Middleton, Mr. and Mrs. Dick Harris, Mr. and Mrs. L. W. Barton, Mrs. Earl Martin, Jewel Smith, Mrs. Hayle Ford. Thank you for each and every visit.

## Irrigation Survey Now Available

Growers and businessmen in Lynn County will be interested in the agricultural information contained in the 1971 High Plains Irrigation Survey now available at the

County Extension Office, reports County Agricultural Agent Bill Griffin. The survey contains 1971 crop acreages and irrigation trends in Lynn County and 41 other High Plains counties.

Griffin says the survey gives the current irrigated acreage, number of irrigation wells and the irrigated and dryland acreages for individual crops during the 1971 crop year. Data on the kind of fuels used by the irrigation well power units are also a part of the survey.

The survey should be valuable to growers, agronomists, bankers and others who keenly observe current conditions, changes and trends in irrigation, says Griffin. The survey is prepared annually by the Texas Agricultural Extension Service to provide up-to-date facts on irrigation in the area.

## M. C. Richey's Services Held

M. C. "Uncle Mac" Richey, 89, a Lynn County resident since 1917, died Sunday at his home at Rt. 1, Tahoka.

Funeral services were held at 10:30 a.m. Tuesday at the Church of the Nazarene at Grassland, with the Rev. E. A. Rawlings of Olton and the Rev. Ray Smith, pastor, officiating. Burial was in Grassland Cemetery with White Funeral Home of Tahoka in charge of arrangements.

Richey was born Aug. 15, 1882 in Kaufman County. He and Nora Wiley were married Sept. 14, 1905 in Coleman. He came to Lynn County from Coleman and was a retired farmer.

Richey was a member of the Church of the Nazarene at Grassland, a charter member, song leader and Sunday School Superintendent for a number of years.

Survivors include his wife; a daughter, Mrs. Ora Braswell of Turlock Calif.; a son, Elmer Richey of Highland, Calif.; 15 grandchildren, 38 great-grandchildren and 13 great-great-grandchildren. Pallbearers were Kelley Laws, Elmer Rash, Dink Clifton, T. J. Wardlow, H. C. Gribble and Carlos McCleskey.

Veterans Administration co-sponsorship of G. I. Bill on-the-job training with private, state, Federal and municipal employers recently resulted in 8,000 new programs and 12,000 new "job slots."

# Texas Cattle To Show Futher Gains

Texas, already Number One in the nation in exports of beef cattle, will show further gains in the coming years due to several programs being promoted by the Texas Department of Agriculture.

Texas Agriculture Commissioner John C. White outlined these projects now being conducted by TDA to expand cattle exports:

1. Personal contacts by TDA personnel in lining up buyers and sellers of cattle for foreign purchases.

2. New export handling facilities to be built at a half dozen locations in the state.

3. A tour of Mexican government officials under auspices of TDA personnel to the Houston, Sulphur Springs, Panhandle and San Antonio areas of the state January 12 to 14.

Recently, about 200 head of dairy cattle were shipped from Central Texas to Mexico as a result of TDA personnel contacting Mexican buyers and getting them in touch with Texas' producers. Included in the shipment are Holstein and Jersey dairy cattle.

The cattle were shipped from the Evans Reese Auction Service barn near Waco. "It is cooperation such as this

through the private trade channels and through the Texas Department of Agriculture programs that give us a sound basis for further expansion of livestock exports to foreign countries," White said.

"We hear a lot about imports of the exotic breeds to this country, but our cattle, too, are in much demand by foreign countries for upgrading their herds," White explained.

The Texas livestock export business amounted to more than \$12.5 million in 1970.

The Texas Legislature appropriated about \$750,000 for construction of the new export facilities. Present shipping pens have been condemned.

Specifications for new facilities at Eagle Pass and Del Rio are expected to go to bidders by February 1, 1972. New facilities will be located at the Houston International Airport and will be the largest of the proposed facilities.

"The new Texas facilities will be unequalled anywhere in the United States and far exceed minimum standards set by U. S. Department of Agriculture and Mexican authorities," White said.

# SOIL CONSERVATION NEWS

BY MAX W. BAKER

The current state-wide program to increase agricultural income in Texas to \$3.76 in '76 is a program of growth," says Dr. W. E. Black, Extension economist - manager at Texas A & M University. He adds that the program is important because the increasing population must be fed on a decreasing amount of land used for agricultural production.

"Guidelines in the program are meant to increase production and improve quality," Dr. Black says of the project which seeks to increase cash receipts to agriculture one billion dollars at the end of the 1976 crop year. The increase in production and cash receipts will benefit the consumer as well as the producer. Food prices undoubtedly reflect an increased efficiency in production and marketing as well as practices in current use improved or eliminated. Technology in production of food preparation will be reflected in food prices, although cost of individual items also be determined by the amount of preparation before purchase by the consumer. This would include special services such as pre-cooking and speciality packaging.

Farmers will gear their production to specific markets that are dictated by consumer preferences. This in turn will provide consumers with higher quality foods in greater amounts at stable prices.

The Lynn County Soil and Water Conservation is sponsoring an essay contest. Students from all the schools in Lynn County are expected to participate. The age group for boys and girls that may enter is under 18 years of age.

**Bill Griffin, County Agent, Says.....**

Futures Trading will be thoroughly examined as a marketing tool for producers, grain elevator managers, feedlot managers and feed manufacturers on Thursday, January 20, 1972 at the Community Center in Hereford, Texas. "Although futures trading is not new, futures contracts on grain and the added grain sorghum futures contract provide hedging opportunities for different segments of the grain and livestock industries, particularly in the High Plains".

Dr. Mark Powers, Vice President, Chicago Merchants Exchange, will kick-off the program, speaking on "Futures Markets: Their Operation and Function". "Trading Mechanics and Techniques" will be discussed by Mr. Jim Stark, Commodity Specialist, Regional Commodity Office of Merrill Lynch, Petre, Fenner & Smith, Dallas. Extension Marketing Specialist from Texas A&M University, John J. Seibert, will talk on "Futures - Cash Market Price Relationships".

"Understanding and Computing Basis" will be handled by Dr. Donald E. Farris, Professor, Livestock Marketing Agricultural Economics and Rural Sociology Department Texas A&M University, along with Seibert. Mr. Jim Lepienne, Manager for Grain Purchasing, Ralston Purina, St. Louis, will discuss "Shifting Some Risk of Price Change to Others Through Futures Trading".

The program will conclude with a local panel telling "How I use the Futures Market". Programs with registration forms will soon be available through Bill Griffin, County Agents office.

The essays should be entitled "Conservation - Key To Our Survival". Entries should be in by Feb. 1.

A plaque will be awarded to the winner of this district and his or her essay will be submitted to State competition, where money will be awarded.

PAUL MILLER . . . 91 Tuesday

## Miller Sets 91st Birthday Celebration

CHRISTOVAL (SC) — Paul Miller of Christoval will be celebrating his 91st birthday Tuesday, 1/11/72.

Born in 1881 in the "Free State of Van Zandt," now Erath County, he is the son of the late Dr. and Mrs. R. A. Miller.

His family moved to Dublin when he was a small boy and he grew up there. He was married to Miss Angie Saunderson and the couple had one daughter, now Mrs. A. J. McClintock of Richmond. Miller's wife died when their daughter was an infant.

Miller later moved to the Tahoka area where he met and married Miss Kay Gilmore, a teacher there. The couple had a son, Paul S. Miller Jr., who is a health inspector with the City of San Angelo.

The Millers have a grandson and two great-grandchildren. Miller moved to San Angelo in 1930 and was associated with John McKnight in the cotton business until he retired and moved to Christoval where he has lived since.

He is active in the Ben L. Keyes Bible Class in Christoval and on his last birthday, he was honored with a plaque for his outstanding work in the class. Miller lists his hobbies as fishing and sitting in on a few games of dominoes.

Buster Watson of Plainview visited Mike Reid, over the week end.

Al and Patricia Craig of Post visited Dale and Dixie Roberson.

# Farm Bureau News

Farmers and ranchers have won a clear-cut victory in regard to farm truck driver regulations, according to J. T. (Red) Woodson, president of the Texas Farm Bureau.

The final revised regulations which have been issued and in effect since Jan. 1 are in accordance with Farm Bureau's recommendations, the state farm leader said. Woodson said Farm Bureau members around the nation responded to a call for action last Spring that resulted in a decision by the Bureau of Motor Carrier Safety to change the proposed stringent rules on farm truck driver qualification. Leaders of the American Farm Bureau Federation said the response by farmers and ranchers was one of the greatest they had ever seen. The proposed revisions announced on June 8 are similar to the final revised rules.

In brief, these revised regulations provide a complete exemption from federal regulation of truck driver qualifications in the case of a driver of a farm truck:

- (1) If the gross weight of the truck is 10,000 pounds or less, or
- (2) If the truck is a straight truck with a gross weight over 10,000 pounds, within a radius of 150 miles of the farm, or
- (3) If the truck is engaged in transporting machinery or supplies to or from a farm for custom harvesting or transporting custom harvested crops from the farm to storage or market, or
- (4) If the truck is engaged in hauling bees in seasonal movement.

A partial exemption is made in the case of the driver of a farm truck which is a combination truck with a gross weight in excess of 10,000 pounds, within a radius of 150 miles of the farm. In such cases, the driver must be at least 18 years of age, and after next Jan. 1, must carry with him while driving a certificate showing he has passed a medical examination.

In addition to the provisions spelled out in the revised rules, the Bureau of Motor Carriers said that: "Generally, the operation of trucks wholly within a state are not subject to the Driver Qualification Regulations."

Farmers or their employees who are not exempt as provided above are subject to the same regulations as non-farm drivers. These requirements are that the driver must:

- (1) Be at least 21 years old.
- (2) Take a road test in driving a truck.
- (3) Take a written examination in the federal motor vehicle safety regulations.
- (4) Pass a medical examination and carry a certificate so indicating.
- (5) If an employee, file with his employer information relative to items 1 through 4 above, and information relative to his background and experience. The employer is required to file such information.

The Department of Transportation is preparing a leaflet summarizing the revised regulations. These will be distributed by the Agricultural Extension Service.

## Fertilization Of Leveled Land

Land leveling can be used to improve water conservation and allow efficient furrow irrigation, but it also presents a whole new set of soil fertilization problems.

"During the leveling process, the soil that is highest in organic matter and plant nutrients is often moved into the low areas, leaving poor soil on the graded land," says Herb Sunderman, soil scientist at the Texas A & M University Agricultural Research and Extension Center at Lubbock.

He explains that while most High Plains soils are naturally low in organic matter, the amount present is usually an adequate source of most micronutrients and may contribute small amounts of the major plant nutrients.

If the topsoil is removed in land leveling, the remaining layer may be severely deficient in plant nutrients; in addition to being alkaline and having poor structure.

Studies to correct this problem were begun at the Center in 1963 on land that had been bench-leveled in 1962. The research team has spent the past several years trying to in-

crease the production on the graded portion through application of materials such as cotton burs, nitrogen, phosphorus, potassium, iron, zinc, and sulfur.

"After eight years, yields from the cut area are still well below those from the fill area but the yield differential is decreasing," Sunderman explains. In 1963, yield on cotton lint between the cut and fill areas differed as much as 440 pounds per acre. But in 1970 the greatest spread was only 290 pounds.

Sunderman says this points out the importance of proper fertilization of cut areas when land is leveled. He advises land owners to plan specific fertility programs around soil tests. These can be done by the Soil Testing Laboratory at the Center, headed by James Valentine, Extension soil chemist. The results of research conducted at the Center are incorporated into the fertilizer recommendations made by the Soil Testing Laboratory. Forms and directions for taking soil samples can be obtained from the local County Agricultural Agent.

MISS MARILYN BLODGETT

... ENGAGED

## Blodgett-Cline Set Wedding Date

Mr. and Mrs. C. Ralph Blodgett of Spearman, Texas, announce the engagement and approaching marriage of their daughter, Marilyn Louise, to Dennis Fred Cline, son of Mr. and Mrs. J. J. Raindl.

The bride-elect is a candidate for May graduation from Texas Tech University

with a degree in Home Economics.

Sgt. Cline is a member of the United States Army and is currently stationed with the 82nd Airborne Division, Fort Bragg North Carolina.

A May wedding is planned in the First United Methodist Church in Spearman, Texas.

**Linda Huffaker, CHD Agent, Says.....**

The protein in peanut butter is of higher quality than most vegetable proteins and is a good supplementary food to include as often as possible in menu planning.

Peanut butter also ranks near the top of the food list in energy, fats necessary for body balance, phosphorus, thiamine and niacin.

Whole or halved peanuts can decorate the top of a butter-scotch pie, other desserts and salads. And peanut butter can be used in soup, sauces, gravy, mashed potatoes, and milkshakes.

Baked goods that can be made tasty with peanut butter include pies, biscuits, muffins, rolls, cakes, cupcakes, coffeecakes, brownies and cookies.

For something new and different, a peanut butter pie crust might be a big hit with the family. Use 1 cup sifted flour, 1/4 teaspoon salt, 1/4 cup shortening, 3 tablespoons peanut butter and 2 to 3 tablespoons cold water. Cut shortening and peanut butter into salted flour. Add just enough water to form dough into a soft ball. Wrap in wax paper and chill about 15 minutes. Roll and shape into fluted crust.

For the filling, try peanut butter.

**Peanut Butter Pie**  
2 eggs  
1 cup corn syrup  
1 cup sugar  
1/2 cup peanut butter  
1 teaspoon vanilla  
unbaked 8-inch pie crust

Beat eggs. Mix eggs, corn syrup, sugar, peanut butter, and vanilla together. Pour into unbaked pie crust. Bake at 350 degrees F. (moderate oven) 45 minutes or until top

is brown and crisp. Garnish with finely chopped peanuts.

Another recipe for using peanut butter is in this layer cake.

**Peanut Butter Layer Cake**  
1/4 cup smooth peanut butter  
1/4 cup butter  
1 1/2 cups brown sugar, packed  
2 eggs  
2 cups sifted cake flour  
2 teaspoons baking powder  
1/2 teaspoon soda  
1 teaspoon salt  
2/3 cup milk  
1 teaspoon vanilla

Cream together peanut butter and butter. Add brown sugar gradually; cream until light and fluffy. Add eggs and beat well. Add dry ingredients alternately with combined milk and vanilla, beginning and ending with dry ingredients. Beat well after each addition. Use two greased and floured 8-inch pans. Bake at 350 degrees for 30 minutes.

**VELVET FROSTING**  
1/2 cup smooth peanut butter  
1/4 cup softened butter  
2 1/2 cups sifted confectioners' sugar  
1 teaspoon vanilla  
3 to 4 tablespoons cream or milk

Cream peanut butter and butter. Blend in sugar and vanilla; beat until smooth. Add enough cream to make frosting of good spreading consistency. Frost cake.

## Local Students On Dean's List

## W. E. Stone Seeks Election To Commissioner

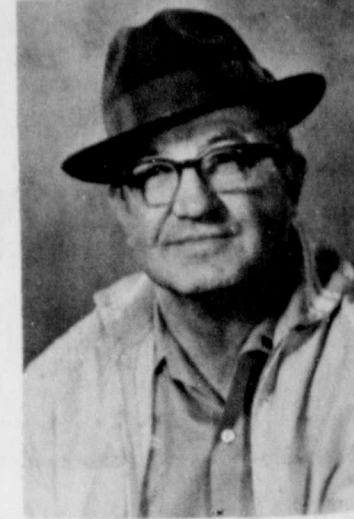

W. E. (Ed) Stone has announced that he will seek election as Commissioner of Precinct 1, subject to action of the Democratic Primary May 6.

"I W. E. (Ed) Stone, am announcing my candidacy for Commissioner Precinct 1. I was born in Denton County, Texas in 1911, moved to Lynn County in 1924, and have farmed in New Lynn and Wilson Communities for the past 40 years.

My wife and I are presently residing in Tahoka. We have two children that attended Wilson schools.

I know most of the people and their problems in Precinct 1 and those I have not met I promise to contact and get acquainted. I will serve the people in Precinct 1 fairly and impartially to the best of my ability.

I would appreciate the opportunity to serve you as Commissioner of Precinct 1 both in courthouse and on the roads. Your vote or influence would be greatly appreciated.

W. E. "Ed" STONE

## The Deacon Says

BY W. A. REDDELL

A Christian life is an impossibility without submissive prayer, completely repenting of sin and wholly surrendering one's life daily to the leadership of the Holy Spirit. If a 11 who are God's children would do this we could within a few years Christianize the world.

Joel Byess of Garland spent the week end with Cliff Gardner

LOOK WHO'S NEW

Mr. and Mrs. Dayton Parker of Tahoka are the parents of a daughter born Monday, Jan. 10, at 8:38 p.m. in Lynn County Hospital.

The baby weighed 6 lbs. 13 ozs, was 18 inches long and has been named Constance Denise. Mr. Parker is the owner and operator of Parker Pharmacy in Tahoka.

Grandparents are Mr. and Mrs. T. W. McIntire of Ardmore and Mrs. Leticia Parker of Crosbyton.

## Tahoka High Happenings

BY SOUTHERN WELLS

Sports excitement filled the air Friday night as both varsity teams won by a very narrow margin. This Friday night the teams will play the Idalou Wildcats at Idalou in district action.

This is the last week to purchase an annual. The annual staff has been working diligently to meet installment dates and make the necessary "last minute pictures". If you would like to purchase an annual, contact Mrs. Brecheen or a staff member. Moans and groans could be heard Friday afternoon as report cards were distributed. One can always look on the bright side, however, and promise to do better the next time!

"Take Five" to millions of military veterans means to take time off to rest.

To us, "take five" means detailed work and planning for the next five years.

We'll be investing more than \$144 million in power plant capacity and the lines and equipment needed to get an adequate supply of electricity to you. Electricity that will be needed for sewage and water treatment, disposal of wastes and for other environmental "clean-ups". Electricity, the cleanest of all energies at the point of consumption, is being depended upon as the means for effectively and efficiently cleaning up our environment.

And, adequate electricity will be needed just for the normal growth of people, their industries, their jobs, their resources — nothing frivolous, mind you — just normal, everyday solid growth.

Yes, through 1976, we'll be taking five — doing the worrying — so you won't have to... so when you want electric power it'll be there at the flick of a switch.

 If you're still smoking, think about the next drag you take.  
 Know where that hot smoke goes? Into your mouth, down your windpipe, into your bronchial tubes. The smoke is filled with sticky tars and harmful gases. The tars and gases irritate the cells lining your bronchial tubes. The smoke triggers an excessive secretion of mucus.  
 The trouble is you can't see all this happening. But eventually you can feel the effects. You develop a chronic cough, for instance.  
 Smoking causes chronic bronchitis, an inflammation of the bronchial tubes that hangs on or keeps coming back. Deep coughing and thick mucus make breathing difficult. The flow of air in and out of your lungs is slowed down.  
 In fact, smoking just one cigarette immediately throws off the balance of blood and air in your lungs. The imbalance can be measured after a few puffs.  
 Then there is emphysema. In a recent issue of the Journal of the American Medical Association, three researchers - Auerbach, Hammon and Kirman - reported an experiment that implicated smoking in the development of emphysema.  
 Through special tubes, the researchers taught tendogs to inhale the smoke from 84 cigarettes a week. For 14 months. All of the dogs developed various degrees of emphysema which was undistinguishable microscopically from human emphysema. For people and dogs who suffer from this disease, which has no cure, each breath is a terrible struggle.  
 Why not kick the habit right now? Better believe your tuberculosis and respiratory disease association. They know it's a matter of life and death.
