## Democratic Primary Election Set Saturday

### Heavy Voter Turnout Expected

Friday, May 6 is the Democratic Primary Election Day for marking ballots in state races.

The lengthy ballot lists a number of candidates seeking the governor's office. Listed on the ballot are Preston Smith, Posey, Ben Barnes, Frances Farenthold, Rooney, Dolph Briscoe and Gordon F. Willis. Eight candidates are listed for the state representative race including John Standlee, Robert Wayne Connally, Bill Joe Christie, Ralph Troy Skates and Bill

ents.

Closer to home, voters will decide on State Representative of District 77 E. L. Short and Don Avery.

For District Attorney of District 106 there are three candidates including Vernor D. Adcock, Joe Smith and Joe Taylor. Gerald Huffaker has no opponent for County Attorney of Lynn County.

For Sheriff of Lynn County the two candidates are Reid Parker and Norvell "Booger" Redwine. George McCracken has no opponent for county tax collector and Paul Sherrill has no opponent for Commissioner of Precinct 3.

There is one referendum on the ballot which states: "No public school student shall because of his race, creed, or color, be assigned to or required to attend a particular school. This referendum applies to required busing of public school students and provides for equal quality education for all public school students." This referendum is very confusing, but if you vote for the referendum you will be voting against busing and for quality education and if you vote against you will be voting for busing.

Most of the softball players have settled down and are getting their minds on softball now that the baseball players strike is over. Some of the players thought that they would be called up to the majors if the strike stayed on much longer.

Draw Paymaster Ginnery; manager - Raymond (JaBo) Stotts, Ronald Hester, Mike Huffaker, Donald Coats, John Garcia, Curtis Whitley, Milton Edwards, Milton Miller, Ronnie Schneider, Dewayne Schuknecht.

Charlie Holland and Mike Davis made a rough one-two punch last season by hitting a record number of home runs of 12. Holland hit eight and Davis four. They are together again this year.

The season of '72 should be a good year and we want all of you fans to come and watch, we enjoy playing for you.

teacher. The children will get acquainted with all First Grade teachers and spend a few minutes in each of their rooms. Lunch will be served the preschoolers in the cafeteria, and parents are requested to pick up their children in their "homerooms" promptly at 11:00 o'clock.

At 9:00 a.m. there will be a meeting for preschool parents in the school cafeteria. A program entitled, "The World of a First Grader" will be presented by Mr. Floyd Tubb, Principal of South Elementary School.

## Rotary Observes Secretary Week

Mrs. Jerry (Sandra) Brown spoke of the subject, "God and Country", as the program feature last Thursday noon when Tahoka Rotary Club observed Secretary's Week.

Most club members brought their secretary or wife as guests.

Mrs. Brown made an impressive talk in which she called attention to a "disease" spreading over America, which fits in with the "Communist Manifesto", that can ultimately destroy the American Way of Life.

This trend has as its object the corruption of our youth, division of our people by controversy, destruction of faith in our nation's leaders, dis- crediting law and order, en-

couraging civil disorder, breaking down morals, etc. "This is an ache, a pain, a disease," she declared. "Are we going to administer a dose that will cure, or are we going to let the infection spread?"

Mrs. Frances Chestnut introduced the speaker. She called attention to the fact that Mrs. Brown was selected as one of America's outstanding young women in 1970, and in 1971 was chosen the outstanding club woman of Caprock District of Texas Federation of Women's Club. Reared in Tahoka and graduate of the local school, she is the wife of a farmer.

About 80 people were present for the program.

During E. L. Short's previous terms, as State Representative for Lynn County and the District which he represents in West Texas, he has done everything in his power to keep people of this District well informed. He has worked with unending zeal to help the people of Lynn County and has never failed to answer any questions which we have had occasion to ask about Legislation or any other matter concerning his office or the Legislature.

We think that he deserves to be re-elected to the Texas Legislature for he is a man that knows the problems of Lynn County and rural Texas having been borned and raised in Lynn County.

Seniority means a lot in the Texas Legislature and this is something we need in Lynn County to further our progress.

E. L. Short has served with honesty and integrity since he was elected State Representative so let's re-elect a man that will work for us.

We whole heartedly endorse E. L. Short for State Representative of 77th Legislative District in the coming May 6 Democratic Primary Election to be held Saturday.

## County To Receive \$114,211

Governor Preston Smith released the following statement today concerning the General Rev. - Sharing Bill which was approved by the House Ways and Means Committee:

"Based on information we have received from the House Ways and Means Committee, the revenue-sharing bill approved by the Committee earlier this week will provide a total of \$202 million during the first year to cities and counties of Texas. Allocation of funds will be retroactive to January 1, 1972.

"We have worked closely with the Committee and Chairman Wilbur Mills to provide all assistance which would be helpful to the Committee in their deliberations. As a result of this close communication, we are now receiving detailed information as to specific allocations to the various counties of the State. Initial estimates indicate that a total of \$114,211 will be allocated to all governmental units in Lynn County. Of that

amount, the county government will receive \$84,055, the city of Tahoka will receive \$18,613.

"The balance will be distributed to other cities and towns within the county.

"It will appear from these early estimates that the bill, if finally enacted, will provide substantial fiscal relief to the hard-pressed cities and

counties of Texas. At the same time it will afford a real opportunity to improve and expand on those services which the people feel are most critically needed.

"I have strongly advocated approval of these funds to our cities and counties and I will continue to support these provisions until final Congressional approval is received."

Larry Gravestock, Dallas, was again

named on the men's first team. He won the Grand American doubles championship with 99 out of 100 and placed fourth in the American doubles championship of the Grand American HOA when he posted 961 out of 1,000. If elected, I pledge my full cooperation with all peace officers of this county and surrounding areas for a better Lynn County.

Your vote and support on May 6th will be appreciated. Reid Parker

We have really had the sand and wind. If it would rain we'd all feel better, I believe.

We didn't have our regular church service this week as the minister who was to come was ill. We hope the Lord will touch him this week.

Singing was good as usual this week with Mrs. Hammonds and several local ladies coming to help us out. Mr. Bales showed us another film this week. This time on the Rio Grande River and New Mexico. Everyone was able to come out and enjoy these films.

A new L. V. N. started to work at the home this week. She is Miss Pamela Sturdivant. We look forward to working with her. She comes to us from Lubbock.

Jess Hill and family and

Roberta Black and her daughter visited Mrs. Hill. Other members of her family are faithful to visit often.

Mr. Kaddatz is back in Lynn County Hospital. We hope he feels better soon.

Mrs. Corbin isn't feeling well either. We hope this lovely lady is soon back on her feet.

Corine Izard isn't feeling well either. She may have to see Dr. Barach in Slaton for X-rays.

Almost everyone had visitors this week. Family of Mr. and Mrs. George Jones were in. Mr. Moreman's son, from Brownfield took him to Post and around Sunday afternoon. Mr. Green's daughter, Bertha was in to see him. Mother Stewart's daughter Sybil and her husband were in to visit. Several of Mr. Allens' children were here to visit him. Mr. Anderson was in O'Donnell Sunday to visit his family.

We were sorry to hear Estena Lawson, daughter of our Mrs. Harter has taken ill. She is recuperating in the home of her brother now. Also, Itaska Messer, daughter of Mrs. Corbin is ill and in the hospital. We miss having these ladies visit and hope they are better soon. All of you folks keep up the visits and good thoughts. ## Letters From Gladys Cobb

Dear Ava and Charlie, This is Thursday a.m. We are on our way to Memphis, will be in Nashville tonight. We have tickets for the Grand Ole Opry Friday night.

This car is something, a station wagon, '72 Oldsmobile, called Vista Crusier. It runs without your foot on the foot-feed. 51 years ago this man, Mr. Newton rode a horse and drove the stock through 18 horses and mules. Gion drove the wagon with chuckbox, the chickens were also on the wagon with mattress and quilts.

November 1921, drove from Wellington, Texas to Lynn County. First night they slept on top of the caprock. The weather got down to zero, next night they stayed in Floydada around 20 degrees, next night in Ralls making 22 or 23 miles per day. They got into Slaton next night they stayed at Mr. Wilson place in Slaton. There also was Burl Aycox, Mr. Vernon Newton helping Gion move to the plains. The cattle was shipped on the train to Tahoka. "Those were the days," wish Gion L. Cobb was here, maybe he is watching us. I am trying to be nice.

I will enclose \$3.00 to print this. We will leave Saturday for Cincinnati, Ohio, to the Kentucky Derby. Thanks and tell my friends I am having fun and trying to be nice. Tell Bro. Daniel I remember what he told me about Holy Water. I may need some sprinkled on me when I return.

Dear Friends of Lynn County; Thank all of you for being so nice to me for the 43 years I have been in the county. Hope to be there many more years. Also thank the Wilson people for letting me teach there. I loved and still do, the many dear friends of Wilson. I taught the 2nd grade. Those pupils are married and have children. They are bankers, teachers and good farmers.

Some of the best citizens of the county. They still speak and say hello Mrs. Cobb and that makes an old woman's heart very happy. I also taught another dear place in the county, at time called West Point. I stayed with a dear dear friend, Mrs. C. T. Tankersley. Mr. Terry Noble was one of the trustees.

This sounds like a fair well to all. May be we never know when our time will come. So if this is my last trip I loved all you dear people and Tahoka, you have been good to me. So my dear neighbors Tunnells, Annie Slover, Charlie and Ava Lichey. Thank you and my dear Echo for keeping this hair, also my lawers, my bankers and my funds may be getting low, I've taken many trips. My dear friends in Tahoka and the pastor and his dear wife, Hugh Daniel, and oh yes don't let me forget J. T. Miller, who takes care of my farms and Milton Brown who waters the Geraniums. Hope I have not left anyone out, my dear daughter Nancy.

I wanted to give roses now not when I am gone. The thanks to the Coop Gin for ginning my cotton and selling me gasoline. Also Goodpasture Grain I do hope grain is \$2.25 because I know I have spending too much money. I have heard you can't take it with you, "But I said I'm not goin'." Maybe the Good Lord knows I'm only joking. Am sure I'll go when my time comes. I have a very dear daughter who thought I was not able to make this trip, but the good Lord has looked after me many years and I have my trust in Him.

My sister Aizlea, I hope you will like Tahoka better. Hope to see you soon. Hope you have room for my letter. Enclosed in \$10.00.

Gladys Cobb. Will pay more when I get home.

Policeman Talks At Rotary Club

Lee Bartlett, popular Brownfield speaker from Brownfield Police Department, brought a talk to Tahoka Rotary Club last Thursday on the subject, "Humorous Events in the Life of a Policeman."

Huffaker announced that about \$300 profit was realized on the turkey shoot sponsored by the club the previous weekend in spite of the sandstorm on Saturday which cut down on participants that day.

Johnsongrass On Cotton Land

The unseasonably early spring and warm temperatures have allowed Johnsongrass to get a running start on the 1972 High Plains cotton crop.

"Early control of this weed is essential to make planting easier and avoid cotton yield losses," says Dr. Bob Metzger, a cotton specialist for the Texas Agricultural Extension Service at Lubbock.

A good weed control program can prevent establishment of new seedlings by incorporating chemicals such as Treflan or Planavin before planting.

But the most common problem this spring is that Johnsongrass has already become established in South Plains fields. Metzger says that Dowpon and MSMA or DSMA may be applied to emerged Johnsongrass plants before the cotton crop is planted.

Dowpon gives better kill than MSMA if the air temperature is below 70 degrees; but planting should be delayed three to 10 days after Dowpon application.

MSMA or DSMA are sold under such trade names as Ansan, Daconate, Weed-E-Rad, and Bueno. They are highly-effective on established Johnsongrass and yet safe for cotton.

Producers should direct the chemicals on the Johnsongrass and under cotton foliage, not on top of the cotton. The specialist says that

MSMA or DSMA should not be used after the cotton begins to bloom because arsenic is deposited in the seed.

These chemicals are also effective on annual grasses, volunteer sorghum cocklebur, grassbur and lakeweed. DSMA or MSMA may be mixed with Caparol or Karmex to control carelessweeds.

The rates of application are extremely important, Metzger reminds. Dowpon should be applied at five to six pounds of active material per acre in 20-40 gallons of water plus a surfactant for Johnsongrass control.

DSMA or MSMA should be used at one and a half quarts per acre if the weeds are actively growing; or two quarts per acre for perennial weeds if they are moisture-stressed.

However once moisture stress has occurred, these chemicals are usually not as effective.

"Johnsongrass may need to be resprayed or cultivated as regrowth occurs to get permanent control," the Texas A & M cotton specialist reminds.

He adds that cotton is a better crop than grain sorghum for controlling Johnsongrass. Planavin or Treflan can be used as a preplant treatment and Dowpon or MSMA can be used either before or after cotton planting when the weeds have emerged.

In non-crop areas such as fence rows and ditches, Johnsongrass can be controlled with Hyar, Pramitol, or sodium chlorate.

Over 300 cotton farmers, ginners, merchants, bankers and others heard four speakers and joined in an hour-long question-and-answer period April 20 in Lubbock at a "Cotton Contracting Seminar" sponsored by Plains Cotton Growers, Inc.

PCG President Ray Joe Riley of Hart, who commented on cotton's supply-demand-price relationships and served as general chairman for the seminar, said forward contracting of cotton is an arrangement in which the producer guarantees a supply of cotton to a merchant or mill in exchange for a guaranteed price at harvest time. "Forward contracting is with us, it appears to be here for quite a stay, and our objective here today is to inform ourselves as best we can on how it works and how it can work better," he said.

Lubbock Attorney Bill Blackledge addressed the group on the subject of contract provisions and contract performance. Noting that cotton sales contracts, as all contracts, are only as good as the parties that sign them, Blackledge went on to say "Most of the problems with contract performance can be avoided if contracts are complete enough that each party has a clear understanding of what is expected of him."

Contracts should contain provisions, he stated, to cover all foreseeable areas in which misunderstanding might arise. According to Blackledge these would include, but not be limited to, language clearly defining the farm and acreage covered, deliverable quantities, delivery deadlines, crop care during the growing season, harvesting and ginning requirements, payment specifications, liens and encumbrances, when title to the crop is to be passed, and whether or not the contract applies to shares of the crop that may be owned by landlord, tenant or spouse.

Possible means to guarantee contract performance were listed by Blackledge as an escrowed fund of earnest money, performance bonds, third party guarantees and letters of credit. "However," he stated, "there are problems with each of these methods, and each will result in additional expense. But in my opinion, when a performance guarantee is thought to be necessary, the best of the lot may be letters of credit."

Later, in the question and answer period, Jerry Boothe of Boothe Cotton Company commented that his firm in had in some instances used performance bonds. The cost he said, for a bond in the amount of \$40 per acre was about 30 cents, "which would not consider to be prohibitive."

Riley, in his remarks on world cotton supplies and prices, pointed out that the world supply of cotton in 1971-72 is up by more than 1.5 million bales from 1970-71 and that production in 1972-73 is expected to be up about 2.5 million bales while worldwide consumption is increasing only 800,000 bales.

"If these estimates prove correct," he continued "the world supply of cotton for 1972-73 will again be up, but the increase will bring the production-consumption ratio up to only 139 percent, which would still be lower than the ratio in 1969-70 when world cotton prices started upward."

Factors to be considered by producers in deciding whether or not to accept any given contract were outlined by Agricultural Economist Dr. James Osborn of Texas Tech University. Dr. Osborn said beyond the first step of comparing the price offered with expected production cost, the decision must hinge on the individual producer's assessment of market conditions and his willingness and financial ability to accept the full risk of market uncertainties.

In a discussion of the cotton futures market as a possible alternative merchandising tool, broker Mike Stevens of E. F. Hutton and Co. frankly told the group that "The Number 2 cotton futures contract, which at the present time is the only one active, is no alternative at all for West Texas producers." He explained that deliverable qualities of cotton on the Number 2 contract "are for all practical purposes non-existent in this area, and the relationship between West Texas cotton and futures is scant at best. So there is really no way at the present time for our producers in this area to use the futures market as a hedge against spot market prices."

Stevens went on to comment that PCG and a lot of other people are trying to get changes made in the Number 1 futures contract which would make it usable for cotton in this area. The Number 1 contract is based on 15-16 inch cotton, as opposed to 1-1-16th inch cotton which is the base deliverable staple on the Number 2 contract. Both contracts now call for delivery of cotton either Low Middling White or above, Middling Light Spot or above, and with micronaire above 3.5.

The high micronaire and grade requirements, Stevens said, plus the fact that Lubbock is not specified as a delivery point, are the principal reasons for inactivity in the Number 1 contract. He added "I have high hopes that some of these requirements can be changed and that Lubbock can be named as a delivery point."

**Famous Doctor Is Visitor In Old Home Town**

Dr. Conrad Lam of Detroit Michigan, internationally famed heart surgeon, who was reared in Tahoka, visited here with old friends for a few hours last Wednesday.

He was in this area to attend dedication of the new band hall at Hardin-Simmons University in Abilene on Saturday, and also to visit his mother, Mrs. Ell Lam, in Denver City and other relatives in the area.

He was accompanied to Tahoka by a brother-in-law, Jerry Fulton, husband of the former Margaret Lam and manager of Shook Tire Co. in Lubbock.

Dr. Lam graduated from high school here in the early 1920's, following which he attended Hardin-Simmons and was a member of the famed Cowboy Band which toured this nation and Europe.

After graduation from medical school, he ultimately became chief of the heart department at Henry Ford Hospital. He gained world-wide publicity as the first doctor to perform surgery on the heart after perfecting a device to keep heart and blood circulation going during the operation. He is now semi-retired but still on the hospital staff.

A few years ago, Dr. Lam returned to Tahoka as speaker at the school homecoming program.

**Mitchell Resigns Wilson School**

## Shower Honors W S C S Completes Cindy Gibson Africa Study

Cindy Gibson, bride-elect of Joe Carrick, was honored with a bridal shower, Saturday, April 22, in the home of Mrs. W. W. Hagood.

The table was arranged with pink and yellow napkins from which finger sandwiches, cookies, nibs, nuts, coffee and punch were served to approximately 80 guests.

Out of town guests were from Lamesa, Stanton, Lubbock, O'Donnell and Midland. Hostesses for the occasion were Misses Cecil Weaver, Roger Bell, J. M. Small, Elmer Owens, Jack Fenton, Turner Rogers, Johnny Rainall Calloway Huffaker, Wilton Payne, Jack Fagness, Edward Bartley and Hagood.

VA recently issued another reminder to veterans that the agency is not affiliated with private cemeteries offering burial plots free or at nominal costs.

W. S. C. S. completed their study on Africa, Monday, May 1, at the United Methodist Church. Mrs. G. M. Stewart reviewed a book on Africa and also talked on racism in Africa.

A follow-up of the study will be a Fellowship Day Thursday, May 4, at 4 p.m. at the Church. All ladies of the church and of the Grassland United Methodist Church are invited to come.

Mrs. Emil Prohl will show slides and tell about her recent trip to Africa.

Fabrics as varied as corduroy and batiste, velveteen and denim, lace and ticking, saten and duck can all be of cotton.

Cotton's natural ability to drink dyes into its very fibers makes possible fabrics in the whole spectrum of color.

## Linda Huffaker, CHD Agent, Says.....

It's spring cleaning and home repair on your mind? During the spring home improvement schemes may be prowling. These quacks aim to make off with some of your money while leaving unsatisfactory work behind.

Everybody likes a pleasant and attractive home. Some salesmen prey on this normal human desire as they try to interest the unwary customer in roofing, siding, chimney work, furnace repairs, driveway surfacing, paint jobs and tree and yard work.

Homeowners should be on the lookout for certain home improvement danger signs. For example, the repairman who says his company has been working in the area and has materials left over so he can offer a special deal should be regarded with caution.

Beware of the salesman who says he was driving by and noticed a roof or something else that needed repair. Check before you believe the fellow who insists he's a state or local official who has come to inspect your home to see that it complies with a safety code. Finally, question the salesman who says he can give you a special price for letting him use your home for advertising purposes.

Avoid home repair disappointments by dealing with local companies who have a good reputation. If you're uncertain about a company's work, ask for names of other people for whom they have done work. Talk to these people and look at the work.

Knowing your rights under the law helps too. Federal law allows you three business days to cancel a contract after signing it when you make a loan for home improvement purposes and create a lien on the home as security.

RECIPE OF THE WEEK:  
Mexicali Salad Dressing  
1/2 cup dairy sour cream  
2 teaspoon chili powder  
2 Tablespoons chopped green chille  
1/4 teaspoon salt

1/2 teaspoon prepared mustard  
1 1/2 teaspoons lemon juice  
Mix all ingredients well, and serve on tossed salad. Corn clips make a nice accompaniment.

Trim. Cut. Clip. Snip. Women who sew need proper cutting tools. Sharpness is the most important quality of good cutting equipment.

An ideal kit of tools might contain eight-inch shears, six-inch snipping scissors and three-inch embroidery scissors. Though you could get by with less, a minimum set should include at least a pair of bent handle dressmaker shears and a pair of scissors.

Shears are usually larger than scissors and are used for heavy cutting jobs. The handle's bent to let the blade rest against the cutting surface.

The openings in the handle of shears are of unequal size so that two or three fingers can be inserted in the opening

of one handle and the thumb in another.

Use scissors for light cutting task. The handle features smaller openings of equal size.

Later, when you want to add some luxury items to your minimum kit of sewing tools, consider embroidery scissors, pinking scissors, buttonhole scissors and thread clips. Buttonhole scissors, designed to cut buttonholes of uniform size, provide adjustable cutting edges.

Thread clips are a modified form of scissors that have only one finger opening. They fit snugly in the hand and provide maximum flexibility of movement.

For the homemaker who likes to carry her needlework with her, folding scissors offer the perfect solution. These tiny scissors fit into their case which is the size of a match box.

Manufacturers also produce left-handed shears for those who work with their left hands.

Buy good quality cutting tools and have them resharpened when necessary. Select shears and scissors with blades connected by a screw that can be adjusted.

Avoid buying cutting tools that have blades riveted together or a rivet made to look like a screw.

Keep the blades in proper adjustment. Blades connected too tightly are tiring to use. Those too loosely connected cut sloppily.

Since shear and scissors are expensive, keep all cutting equipment for sewing only. Keep them in a safe place away from children who need to cut a piece of wire and little brothers who need to trim finger nails.

With good sharp shears, you can cut out a garment easily. And sharp, well-kept tools make your work more accurate than dull ones do.

RECIPE OF THE WEEK:  
Blueberry Muffins  
2-3 cup shortening  
1 cup sugar  
1 egg  
1/2 teaspoon salt  
1 tablespoon baking powder  
3 cup sifted flour  
1 cup milk  
1 can blueberries, drained

cream shortening and sugar. Add egg and beat well. Stir dry ingredients together and add alternately with milk.

Fold in blue berries. Put in greased muffin cups and bake 350 degrees until brown. Makes 2 or 3 dozen depending on size of muffin cups. Mixture will keep in refrigerator up to 2 weeks.

# ELECT DOLPH BRISCOE GOVERNOR OF TEXAS

**A MAN TEXAS CAN BELIEVE IN.**

In the 1972 governor's race one candidate stands out as the man who can restore honor and integrity to the halls of government in Austin, and give back to Texans the pride they once had in their state. Dolph Briscoe is that man. Dolph Briscoe at age 49 is a man of the soil who has lived with the problems of rural people and yet at the same time has conducted extensive business operations which have kept him in close touch with urban dwellers and the needs of metropolitan areas.

## AGAINST BUSSING

"It is unfortunate, that the prospects for better education for our children should be placed within the emotional cloud of the bussing issue. I am opposed to massive, forced bussing for the purpose of reaching an arbitrary and artificial balance of the races. The differences in learning ability are primarily formed in the home, not in the school.

"I do not believe that bussing can materially improve the quality of education for any child in Texas. If I did believe that, I perhaps could support bussing. The types of school bussing that have been ordered in some cities pose an

egregious threat to our schools. It is an economic Pandora's Box.

"My position, then, favors expenditures that promote equal education within our existing public schools rather than leaving inferior schools as they are and sending children to them from better schools. I will be the first to concede that every school in Texas is not equal insofar as quality of instruction is concerned.

It is our resources — money, teachers, and curricula — that must be shifted and given equal division if we are to have an equitable educational system for all our children."

## AGAINST STATE INCOME TAX

"Revenues from current tax sources, together with reasonable economic growth, should provide adequate financing for state programs provided we stop wasting the taxpayers' money and apply sound management principles to the operation of government. By setting up efficient budgetary and accounting procedures and requiring reviews for the budgets of state departments and agencies, we will save enough money to help provide the governmental services needed now."

Dolph Briscoe believes state government must be kinder to your pocketbook.

## FOR PUBLIC HEARING

"The practice of passing legislation without public hearing is purely undemocratic. We've got to put an end to it. When I am governor, no bill will get my signature on it until it has been fully considered in a regular public hearing." People are not likely to participate in government, as they should, as long as there is a government that doesn't have their confidence and trust. I'm concerned about a restoration of confidence in government, so that we can have good public participation."

**GREETINGS:**

Concerned people recognize the inherent rights of independent living and freedom of choice for all citizens, and the need for services and programs which will enable the elderly to retain a choice of lifestyles.

The citizens of the State recognize the need for greater public awareness of the contributions of our older Texans, and concern for the problems many face as they grow older.

Texas values its senior citizens as resourceful persons deeply involved in living. This generation of older Texans should be commended and respected for its continuing efforts to build a better society for all.

THEREFORE, I, as Governor of Texas, do hereby designate the month of May, 1972 as SENIOR CITIZEN MONTH in Texas, and urge all Tex-

ans to join in honoring their fellow citizens who have reached a status of seniority and respect, and further urge that all Texans include senior citizens into the normal sphere of life.

In official recognition whereof, I hereby affix my signature this 7th day of Feb. 1972 Preston Smith, Governor of Texas.

## LETTERS TO THE EDITOR

"Long Hair in the Tahoka Public Schools"

For as long as I can remember long hair has been a subject of controversy in the Tahoka Public Schools. To this day male students of Tahoka High School (THS) are not allowed to wear their hair as they so desire. The only reason given by the Board of Education of Tahoka Independent School District, according to the THS Handbook of 1971-72, is that long hair distracts from a good learning atmosphere.

It is to my understanding that a petition was circulated in THS, then presented to the school board with over one hundred signatures of THS students who were in favor of changing the long hair rule for male students. Yet nothing was done by the school board. I think the school board overlooked one of its main and most important functions, to fulfill the needs of the students if enough support and interests shown by the students.

I would like to see the rule on long hair for male students in THS abolished and the dress

codes for both male and female students revised and modernized, for it is not the hair nor the dress that makes a student, but an individual who is willing to learn. Sincerely, Mario Chapa

Your paper is the best paper I ever get to read because it is still the news about all of the people in all of Lynn County.

Most papers both large and small seem to have turned into a world wide crime report where good news is not con-

sidered to be news and the small amount of coverage they give to the local community should be called local bad news.

Your paper emphasizes the good news and I really enjoy reading it.

## Joe Taylor Asks DA Position

Joe Taylor, candidate for District Attorney of the 100th District, was in Tahoka this week on the final leg of his extensive campaign. Taylor said: "In my efforts to reach as many people as possible I have outdistanced not only my own opponents but most candidates in all races on the ballot as well in the number of miles traveled and hours spent on the campaign trail. The many warm and fine people I have talked with in the last three months have given me an indication that they favor a return of energy and vigor to the District Attorney's office, and I will bring a return of that vigor to the prosecution of criminal cases in this District. I have received widespread support -- from churches and newspapers as well as a great number of concerned citizens who are interested in my sincere desire to serve the needs of the people of this District. They are all concerned about the growing problems in this office and are excited about the fact that I am someone who wants to do something about them. If the people of this District will give me the opportunity on May 6th to serve them in this important capacity, that will be the proudest day of my life."

Spring football training will get underway next Monday at Tahoka High School, Coach Bill Haralson has announced.

Spring training has been delayed this year in order that some of the boys could participate in track and field events. An effort is being made to revive this type of physical training in the local schools.

Football prospects for the coming season are only fair, depending on the way the replacements develop. Seven regular starters will be lost by graduation.

A. L. Smith has just completed remodeling his frozen food locker building, has enlarged his meat market space and is adding a delicatessen and barbecue pit service.

Interior of the building has been completely rearranged to give more space to the store part of the building, new self-service meat cases, barbecue pit, and delicatessen cases installed, new tile laid on the floor, and the amount of plate glass increased.

Work was started Monday on the new City swimming pool in the new city park in south Tahoka and work is expected to start in a few days on the new city hall in the old city park just west of the present city hall.

Paddock of Texas, Dallas, has the swimming pool contract, being low bidder at \$29,677.00. They expect to complete the project by June 1. The contract does not include the bath house.

The construction foreman and three workmen for Alston Construction Co., of Sweetwater who has the general contract for the new \$55,000.00 city hall arrived Tuesday and will start preliminary work immediately on this new building.

Pat Hines, city water and sewer superintendent, told the News the east half of the new 11-acre city park will be developed first. Work has already been started in preparing the ground for the planting of grass. The swimming and wading pool will be located in the extreme northeast corner of the park site.

The new park site is the old Jaycee park on South Eight, two blocks west of the O'Donnell highway.

Tahoka High's boys tennis team, composed of Roy Keith and Richard Carter, won first place in the annual Interscholastic League District 4-A meet at Lubbock last weekend. Gordon Smith qualified for the Regional track meet by placing third in both the 100 and 220 yard dashes.

David Hammonds, Tahoka singles player, lost in the tournament to Post.

# I'll Veto Any Bill that Does Not Have a Public Hearing

"The practice of passing legislation without public hearing is purely undemocratic. We've got to put an end to it. When I am governor, no bill will get my signature on it until it has been fully considered in a regular public hearing." People are not likely to participate in government, as they should, as long as there is a government that doesn't have their confidence and trust. I'm concerned about a restoration of confidence in government, so that we can have good public participation."

**Vernon Adcock  
Seeks DA Re-Election**

TO THE VOTERS OF THE 106TH JUDICIAL DISTRICT  
I wish to thank you for electing me District Attorney in the Democratic Primary two years ago, and giving me this chance to work with you. Also, I thank all of you who have helped make my record in this office a good and successful one.

I have devoted an average of over 50 hours per week to this serious and important work, and we have had this serious and important work, work and we have had no acquittals or reversals of any cases I have prosecuted. The number of felony convictions in this district increased 83 per cent my first year and 200 per cent my second year, over the 1969 number. Out of the pleas of guilty during the last six months, five resulted in terms of 25 years, 40 years,

VERNON D. ADCOCK

50 years and two life terms. However during the early part of that six month period, three jury trials resulted in terms of 10 years, 12 years and another life term.

In evaluating this record, please keep in mind that tax money and time of citizens spent on juries are saved through pleas of guilty and convictions secured through jury trials, or otherwise, without reversible error. Remember that the experience and reputation of your District Attorney for his success in the trial court and Court of Criminal Appeals, results in more pleas of guilty and the just and speedy disposition of more cases. Also, please keep in mind that our felony rate in this district is such that it would be impossible for any well qualified and experienced District Attorney to keep the docket down without the disposition of a large number of the cases through pleas of guilty. While I know we have done well under the circumstances, I shall continue to strive to improve, and to profit by this experience gained as your district attorney.

Your vote to re-elect Vernon Adcock will be appreciated.

**An evening out**

...at home

... where the charm of a GAS light lets the evening last a little longer

... and the food has an exciting outdoor aroma and flavor, found nowhere else in the World!

A GAS outdoor grill gives food a tangy outdoor flavor without the time and bother of charcoal fire. Char-broiled flavor comes from the smoke of meat juices dripping on hot briquets. Charcoal itself provides no flavor. Permanent ceramic briquets in the gas grill reach cooking heat in a few minutes, and there is no long wait to start cooking. The heat is regulated manually so there is no need to move a grill up or down.

There is no substitute for experience and proven ability.  
The first outbreak of Hog Cholera in the Texas Panhandle in recent history has left many hog owners and animals health officials edgy over the thought of a widespread epidemic.  
The disease is caused by a virus. The incubation period is from 5 to 10 days. The disease may be introduced into a herd by contaminated feed, water or equipment. Raw garbage that contains pork scraps may contain the virus. Adding pigs exposed in transit in sales barns or stockyards to a susceptible herd will precipitate an outbreak.  
Symptoms: There are no specific symptoms of cholera. At first the pigs are dull, listless, show a decrease in feed consumption, usually a diarrhea, weakness and temperature of 106 degrees to 107 degrees (normal temperature is 101 to 103 degrees).  
Treatment: Infected animals and known exposed animals will be appraised and killed. The carcass may be disposed of by burying or deep burial. Herds that are suspected of having been exposed but have not had a positive case will be quarantined and observed.  
Recommendations:  
1. Isolate replacement pigs for 3 weeks before putting with main herd.  
2. Do not allow anyone who come in direct contact with other swine to come in contact with your herd.  
3. Provide clothing and boots for visitors that have not come in direct contact with other swine before allowing them to come in contact with your herd.  
4. Eradicate rodents from premises.

the demand) and it's not ex-  
pected to do so. Gas is used  
to generate 65 per cent of all  
electricity.  
On March 13, 1972 a court  
overruled Comptroller Cal-  
vert's 1969 interpretation of  
sale tax on repair parts for  
farm and ranch use. Repair  
parts are no longer taxable.  
The list includes: gaskets,  
sprinkler parts for irrigation.  
Also pistons, U-Joints, bolts,  
and so forth for motors and  
tractors. . . . Tools such as  
grease guns, wrenches, and  
hammers are still taxable.

Look for someone to file for  
tax refund. They might reach  
back to 1961.  
There are 31 Senate seats  
with 85 candidates and 150  
House seats with 605 candi-  
dates.  
I have drafted legislation  
that will correct some of the  
problems in the food stamp  
and commodity programs.  
This is a federal program.  
Some of the things I propose  
to do are: Provide penalti-  
es for abuse. . . . Provide  
a method to safeguard com-  
modities and food stamps and  
money. Commodities are  
given free. Food stamps are  
sold for cash. . . . Included  
will be a provision to reim-  
burse the counties for the cost  
of operating these programs.  
This legislation will not take  
away local control because the  
counties do not have local con-  
trol now. Nor or they able  
to set the rules and regula-  
tions governing the program.  
100 counties are not paying  
anything to administer these  
programs. . . . work regis-  
tration will be a requirement  
in this legislation.  
There are 24 schools in the  
77th Legislative District and  
77 thousand people.  
The King Ranch was fined  
\$2,000 for harboring 25 wet-  
backs. . . . a man in this  
legislative district was fined  
twice this amount because one  
was caught 200 miles away  
with a letter offering a job.

## Students Tour AJ And KSEL

The sixth grade of Tahoka  
Junior High toured the A-  
valanche Journal and Television  
Station KSEL at Lubbock on  
Thursday, April 27. The trip  
was planned as the conclusion  
of a study of the newspaper.  
Guides from the newspaper  
plant gave the students a com-  
plete tour of facilities. They  
were greeted by reporter,  
Tanner Laine, and later saw  
the presses in action. Fol-  
lowing this, the group had  
lunch at the Toredor Room of  
Furr's Cafeteria.  
In the afternoon a tour of  
KSEL was taken where they  
saw a program being taped.  
Teachers accompanying the  
students were: Nan Adams,  
Carole Sanders, Janet Mc-  
Whirter and Mary Bryan.
