ting small industries for financing and technical assistance from governmental and private sources the group was told by MC Larry Milner.

Memorial Program

An indication of the growing popularity of the American Cancer Society's memorial program was given today by Mrs. Kenneth Turner, memorial chairman of the Society's Lynn County Unit.

Mrs. Turner said that memorial gifts to the unit total \$506.00 to date with the fiscal year to end in August of this year.

The rapid growth of memorial giving is due to a keener public appreciation of the fact that more tools are needed in the fight against cancer.

Mrs. Turner pointed out that research against the disease has progressed so rapidly that there has not been enough money available to follow up on the many new leads which have been uncovered in recent months. "Research against cancer has widened tremendously, and most scientists now believe that the disease will be conquered before many more years have passed," she said.

Mrs. Turner said that the memorial gifts received by the local unit of the American Cancer Society are made not only frequently in honor of happier events, such as birthdays and anniversaries. "Some donors," she said, "have established the habit of making memorial gifts at regular intervals during the year."

Every memorial gift is acknowledged with a dignified white card naming the person in whose honor the gift is made. This card is sent to the person designated by the donor. It does not state the amount of the gift. Mrs. Turner said that the process of making a memorial gift is simple. The only information needed is the name of the person honored and the name and address of the person to whom acknowledgement should be sent. Special envelopes are available at the American Cancer Society, Box 1387, Tahoka, Texas and can be obtained by calling 998-4146.

Farmer Certification Is Key To Set-Aside Program Payments

Farmer certification is the essential step preceding set-aside payments to producers participating in the U. S. Department of Agriculture 1972 set-aside programs for corn, grain sorghum, and cotton, according to Tommy Lawson, local farm program official.

He urged farmers who have question about certification to call or come in to their county office of the Agricultural Stabilization and Conservation Service (ASCS).

"It's important that a farmer know exactly what he is certifying before he signs his name," said Lawson, County ASCS Executive Director.

Final certification date this year is August 1, but certification may be made as soon as a farmer has his program crops planted and knows he is in compliance with the programs.

As soon as a producer certifies, the County ASCS Officer begins processing the data for payments to get certifications payments which will be made

soon after July 1.

"While it speeds payments to get certifications in early, producers should also remember that mistakes can be costly. Once certification is made, no acreage adjustments can be made. A farmer has to be in compliance with program regulations when he certifies. That's why we're urging producers to call or come in now if they're not sure about what is required for certification," Lawson said.

When a producer certifies, he reports exactly what acreage he has in set-aside land

and what acreage he has in the program crops he signed up for. He also certifies he has complied with all program regulations and will continue to comply throughout the year. An error in certification can result in loss of some or all of the set-aside payments. Spot checks are made each year on farms participating in the programs.

Scout Camping Season At Post

Sunday, June 2nd will find nearly 200 Boy Scout and leaders heading for Camp Post, Texas and the first of 8 exciting weeks of outdoor skills, fun, aquatics, and living. Bob Hurst, South Plains Council Camping Coordinator, said today that many new features will highlight this season's camping schedule.

Camp Post, featuring aquatics and rifle range as well as standard Scouting skills, will brighten the week with the inauguration of the Rainbo skill trail on Fridays. This Trail is for Scouts who are First Class candidates seeking the First Class award. Each

Friday noon will find all Scouts in camp doing campsite cooking as all facilities are made ready for the 300 parent visitors coming to view the traditional closing campfire. The Order of the Arrow Indian dancers will perform for the campfire audience.

Camp Tres Ritos, the council facility in the Carson National Forest in New Mexico, will open on Sunday, July 2nd and continue for a 5 week season. Special programs have been made a part of this mountain setting to take advantage of the unique location.

Wilmer Smith Is Rotary Speaker

Mrs. Harley Henderson, ill with a heart ailment for more than a year, was taken back to Central Plains Hospital in Plainview Saturday and is reported to be critically ill and in intensive care. She suffered her first heart attack a year ago in January while visiting her daughters in Plainview and received treatment at that time in the hospital there.

Mr. Larry Monk, Cara and Lane visited with her parents Mr. and Mrs. Herbert Watson of Abernathy Saturday.

Wilmer Smith of New Home was the speaker at the Rotary Club last Thursday. In his talk he explained liberalize loan policies made possible by the Farm Credit Act of 1971 as passed by Congress.

The new law permits loans to related farm businesses and the financing of rural home construction in towns of under 2,500 population and on farms in a cost range of up to \$40,000.

George McCracken, who introduced the speaker, said Smith is regarded as one of the five most knowledgeable men in American agriculture.

DECORATES CAKES - Pictured above are the first year Brownies. They met last Friday in the Scout Hut and each girl decorated their own cake. Dusty Cook and Nancy Thornton were named winners of the decorating contest.

Farm Bureau News

Farm Bureau will not capitulate to the demands of Cesar Chavez and his sympathizers and stand idly by while farm workers are coerced into unions they do not want, Howard Moore, president of the Lynn County Farm Bureau said Tuesday.

Carrying out an ultimatum delivered to the Farm Bureau national leadership recently, began demonstrating at Farm Bureau desist from its efforts to secure the enactment of constructive farm labor legislation and threatened a massive "informational" campaign to smear the Farm Bureau.

"We have nothing to hide and

will not hold to such pressures," the farm leader said.

He emphasized that the Farm Bureau is not opposing the right of farm laborers to organize and be represented by a union. But the farm organization contends that workers should have a choice in the matter.

Farm Bureau supports proposed farm labor legislation that would: (1) Guarantee secret ballot elections for farm workers on the question of which -- if any -- union they wish to represent them (in the only such election held to date, Chavez forces were soundly defeated); (2) Prohibit the secondary boycott in

agriculture as it is presently prohibited in industry under the provisions of the National Labor Relations Act. (3) Create an Agricultural Labor Relations Board to administer the act; and (4) Protect against the strike at harvest by specifying a reasonable period of notification before a strike, and by setting guidelines for fair arbitration of disputes.

The Chavez apparatus has successfully employed the secondary boycott technique to coerce thousands of farm workers into its ranks. When growers could not market the boycotted products they had no alternative but to sign their workers over to the Chavez union. The fact that the United Farm Workers Organizing Committee, which Chavez heads, (now the United Farm Workers National Union - an AFL-CIO affiliate) had to resort to the secondary boycott is indicative of the coolness of the workers themselves toward UFWOC's organizational efforts and their reluctance to join the union

voluntarily, the farm leader pointed out.

"We feel that our position is fair to everyone concerned, and we stand by the policies of our organization which call for the enactment of constructive farm labor legislation," he declared.

Voter Registration

There is no deadline on voter registration. A person may register anytime during the year and his certificate becomes effective 30 days after it is issued. All persons 18 and above must register.

College students who wish to vote in their home county must register in same. Anyone who has registered in another county and moves to this county must re-register and have his previous registration cancelled in order to vote. Persons who have moved from one precinct to another or make a change in their address should contact the tax

office regarding this matter in order to get their voting certificate corrected.

TAX COLLECTIONS

Ninety-four percent of the state and county taxes were paid through the last of April 1972. This is a very good percentage compared with prior year collections.

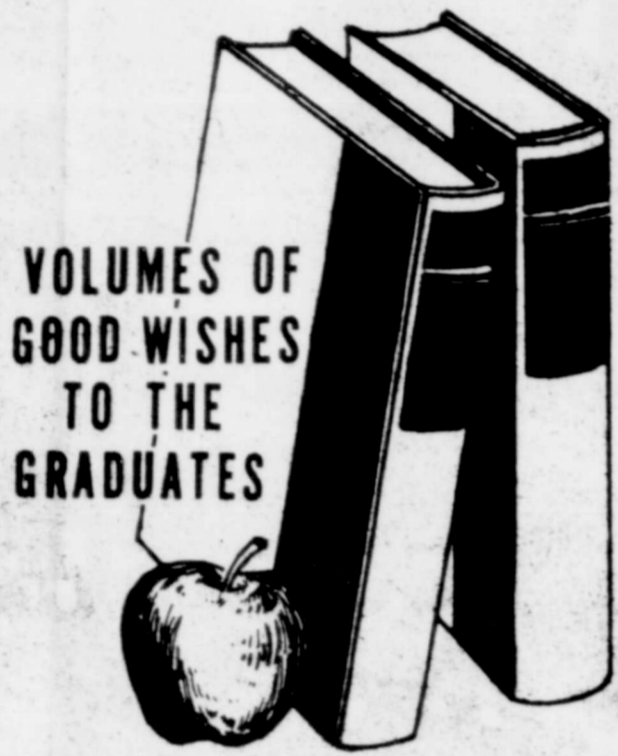

Gross collections were \$337,642.53, less discount of \$6,882.33, making net collections \$330,760.20. The net collection was divided as follows, State Amount - \$43,389.71; County - \$170,595.85; High Plains Water District - \$2603.05; and Hospital District - \$121,053.92.

Penalty and interest is applied to all taxes paid after February first. All 1971 taxes that are not paid by July 1, 1972, will go on the delinquent tax roll and will draw additional penalty and interest.

As long as the world is engaged in a quest for things, we have neighter things nor God. For if we seek first the things of the world, we are doomed to failure.

THE DIARY OF A BIBLE

Jan. 15 - I've been resting quietly for a week. The first few nights after New Year's Day my owner read me regularly. But now I guess I've been forgotten.

February 2 - Clean-up day! I was dusted along with things - but was put back on the shelf.

February 24 - Owner used me for a short time. Looked up a few verses. Went to Sunday School.

April 10 - I was dusted today and put on the center table in the sitting room. Special company was here, but now I'm back on the shelf again.

May 12 - Busy day. My owner had to lead a devotional lesson and had to look up some references. Had quite a time finding me, and then hunted and hunted to find those references.

June 5 - I'm here in grandma's lap. She's here on a visit. She let a tear fall on Colossians 2:5-7.

June 6 - In grandma's lap again. She has spent most of her time reading 1 Cor. 13 and the last four verses of the 15th chapter. June 7, 8, 9 - I've been in grandma's lap each afternoon. It is such a comfort to be appreciated and loved. She reads me part of the time, and then just sits and talks to me.

June 10 - Grandma is gone and I'm back in the same old place. She kissed me before she left.

July 4 - Had a couple of four-leaf clovers stuck in me today.

Aug. 1 - Packed in a suitcase with clothes. Off on a vacation, I guess.

Aug. 7 - Still in the suitcase.

Aug. 12 - Still in the suitcase although everything else has been in and out many times. Other things first I guess.

Aug. 15 - Home again and on the shelf. Quite a journey. Can't see why I went.

Sept. 3 - Rather stuffy and hot. Two magazines, a novel, and an old hat are on top of me.

Oct. 18 - Used by Mary a few minutes today.

Nov. 10 - Was carried to church today and held up to be counted.

Dec. 16 - Dusted again. I'm lonesome. Wish grandma would come and visit again.

Dec. 31 - Tomorrow I expect to have a knife run into me by each member of the family blindfolded in turn and then a finger placed on a "good luck" verse.

Herbicide run-off from farmland is apparently not a grave threat to the environment, according to studies by Texas Agricultural Experiment Station researchers in the Panhandle.
Dr. Allen Wiese, weed scientist at the USDA Southwestern Great Plains Research Center at Bushland, began a study in the spring of 1968 that has shown only minute amounts of herbicides dissolved in irrigation or rain water that ran off fields.
The chemicals used in the study included Treflan, AATrex, and Milogard; all common weed control products. In the first season, the fields received either rain fall or irrigation water four to five times.
"The first water samples after herbicide application contained the most chemical, but by fall no herbicides could be detected in the run-off water," Wiese reports.
Milogard had the highest concentration in the water, which was less than a fifth of one part per million. The other two substances had much less concentration than the Milogard.
"That means that if there was one inch of run-off from 100 acres, only a little more than five pounds of the chemical would be collected, which is well below the danger level in the area's playalakes," the scientist added.
As a further test, the researchers wanted to determine what would happen to herbicides in playa lake water. Small ponds 20 by 50 feet in size were constructed in a playa bed. Treflan and AATrex were applied at a rate of one pound per acre to the bottom of each pond. In addition, one-half pound of the new brush herbicide Tordon was tested.
The ponds were then flooded with six inches of water and the bottoms were kept covered for two months. Six months later, the ponds were flooded again for one month. The Treflan disappeared from the water and bottom soil at the end of the first flooding period of two months.
"The AATrex and Tordon persisted for 90 days, but were no longer present in the soil after 18 months," Wiese concludes.

High Plains Underground Water Conservation District has released their annual water statement. This report shows a definite decline in the water table through and the 15 counties in the area. There is no substitute for water and we have less available all the time.
For the past 10 years wells in the northern part of the county have declined at a rate of .72 feet per year. This means the water table has dropped 8.6 inches each year since 1962. But in the 1971 calendar year it dropped much more than the average, it was 1.89 feet or 22.7 inches. There were 30 wells checked in Lynn County.
With the decline we must take better care of the water we have and use it wisely. This means proper irrigation systems, proper irrigation water management and more time irrigation application. These times of economic squeeze and high risk will eventually force us to do so and we will be left by the wayside.
Hold all your water where it falls and use the water you pump wisely.

Past Days In Lynn County

Copied from May 11, 1921: About 100 West Texas cities will be represented at the Pageant of Progress to be held in San Angelo, May 21, 22, and

23, in connection with the West Texas Chamber of Commerce annual convention. Lynn county will be represented with three lady spon-

sors from as many towns. O'Donnell will send Miss Lois Pugh. Wilson will send Miss Clara May, and Tahoka will be represented by Miss Gladys Lee.

The News ventures to say that not another county in West Texas will have any more, if as many lady sponsors as Lynn. It is hoped that a large representation will attend from O'Donnell, Wilson and Tahoka, as well as all over the county. Let's put our county and towns on the map at San Angelo, May 21, 22, and 23.

Lamesa will be represented by Miss Jessie Harris; Post, Miss May Weakley; Slaton, Miss Margaret Whittaker; Lubbock, Miss Mable Ricker.

Tuesday and Wednesday of this week Tahoka citizens had the privilege of witnessing two real baseball games, when the salaried team from Snyder, Texas came here with one of the fastest teams ever visiting this city. Tahoka lost the first game to the visitors 7 to 0, but turned the tables and won the second by the close score of 3 to 2, starting a batting rally in the seventh frame with the score standing 2 to 0 in Snyder's favor. Tahoka took the game with a land slide, scoring the three runs with clean hits.

Black of Seagraves, stated the game Tuesday, but was relieved by Larkin in the fifth, who pitched airtight ball. Snyder's pitcher in the first game was a professional and we learn played with the league team in Amarillo last year, and went from this place to join the Clovis, N.M., league team Wednesday morning.

(Skip) Taylor, was on the mound for Tahoka the second day, and was successful in holding the Snyderites down to a few scattered hits. Taylor still possesses the real stuff that keeps the best of batters guessing. He is a regular member of the Tahoka club, playing with the team last season.

The games with Snyder were well attended and thoroughly enjoyed and it is hoped that Manager Doak will bring many more teams here of the same class as the Snyder boys during the playing season.

Snyder went to Lamesa Thursday for a two-game series.

The local club will journey to Slaton Sunday for a game with that club in the afternoon.

Fire, caused by the explosion of an oil stove, completely destroyed the residence and contents of Rev. Lam, residing in the Redwine neighborhood Friday night, ten miles southeast of this city. It is reported that no insurance was carried on either the house or the contents. The family was away from the home with the exception of one small son. Neighbors failed to reach the scene of destruction in time to save any of the household goods. A purse was made up and presented to Rev. Lam Saturday.

H. B. Howell, owner of Howell's Garage and the Anchor Filling Station, is making some extensive improvements by enlarging the station building. The addition is being built of brick. When completed Mr. Howell will move his entire stock of tires and accessories to the Anchor Filling Station.

The Tahoka school will close the 1922-23 session, May 18th with eleven pupils in the graduating class, which is the largest in the history of Tahoka schools. There are six girls and five boys, as follows: Miss Ollabelle Singleton, Sallie Maye Hood, Minnie Hood, Flora Goodrich, Letha Cook, Esther Preston and Messrs. Eli Lam, Maurice Small, Hubert Davis, A. P. Edwards and Jack Fenton.

Dr. E. E. Robinson, presiding elder of the Lubbock district, will preach the Baccalaureate sermon at the High School Auditorium, Sunday morning May 13th.

Rev. L. L. F. Parker of Spur formerly pastor of the Tahoka Baptist church, will deliver the graduating address. Friday evening, May 18th, in the same building.

The classes will be dismissed for the term Thursday noon, May 17th, according to announcement made by the superintendent, H. P. Cavemess.

During the electrical storm Sunday night, the residence of Mr. and Mrs. Roy Poer, east of Tahoka, was struck by a bolt of lightning, striking the top of the house and running down the stove pipe, across to the bed post and railings and out through the wall of the room.

Mr. and Mrs. Poer had just retired for the night. Fortunately no one was injured. Mr. Poer was in town Monday and related the exciting experience with the lightning Sunday evening. It made quite a hole in the house and melted the rims of the stove pipe; also turned the bed posts and railings a brown color.

Dr. C. B. Townes attended the State Medical Association of Texas, which met in Fort Worth this week. Dr. Townes also played a round of golf between sessions while in the Panther city.

W. L. Knight is constructing a new residence in north Tahoka.

Albert Curry, formerly an employee of the News, has accepted a position with the newspaper at Littlefield and left for that point yesterday. Billie Brandon has added a large and commodious wagon yard adjoining his filling station on the south. He recently moved his business from the south side of the square to his lots on South Sweet Street.

One of the most eloquent affairs tended the Senior Class of Tahoka High School was a party given by the Junior Class at the home of Miss Wilma Brashere.

The lower floor was thrown en suite and was aglow with a profusion of cut flowers and pot plants.

Upon their arrival each guest was introduced to the "Watson Family", causing quite a lot of merriment. "Forty-Two" and "Pitch" were the main pastimes of the evening.

A delicious ice course was served consisting of ice cream and assorted cakes.

Music on the Edison was furnished through the evening.

The pupils of Misses Ollie Clinton, expression and Lola Donaldson, music gave a recital in the High School Auditorium Tuesday evening May 8th. The house was filled to capacity, and thoroughly enjoyed by all. The many excellent numbers rendered by the pupils showed thorough training and unusual talent on the part of the classes under the direction and training of both Misses Clinton and Donaldson.

Myrl Mathis And Elvira Smith To Retire

Mrs. Myrl Mathis and Mrs. Elvira Smith have announced plans to retire at the end of this school year. Both are long time teachers in the Tahoka School System and their presence will be missed by students, faculty and administration according to Harold Reynolds, Superintendent of Tahoka Independent School District. Fortunately both will continue to live in Tahoka and contribute to the well being of our community.

Mrs. Myrl Mathis is the wife of Judge Walter Mathis and has been with Tahoka Independent School District for 29 years. Prior to that she taught six years at Draw, two years at Grassland and one year at Redwine for a total of 38 years, all in Lynn County.

Mrs. Elvira Smith is the wife of Ross Smith who is manager of the Federal Land Bank Office in Tahoka. Mrs. Smith has been with the Tahoka Schools for 18 years and in the classroom for a total of 24 years. She took time from teaching to raise two sons. Dr. Bill Ross Smith has a Ph.D. and is a soil scientist in North Carolina and Robert Smith who has a B. S. Degree from Sul Ross State and is a Lynn County farmer.

Through the years these two fine ladies have been a shining light to hundreds of students and words cannot express the gratitude felt in the hearts of students, parents, and friends for Myrl Mathis and Elvira Smith.

Springtime brings with it the desire to get outside and enjoy various recreational activities. Due to this interest there's an increase in advertisements of lake lots, wilderness lots and speculative land investments. If you're considering the purchase of land for a vacation or retirement home or as an investment, there are some guidelines to keep in mind.

Make a personal visit to the land to see for yourself the condition of the site. Find out what facilities, utilities and roads are there. Ask if water and electric power facilities are available at reasonable costs. Does the management permit septic tanks?

Be sure to check on recreational facilities. If the

The passage of a federal law cuts down on land sale fraud by requiring sellers to provide information about the land. Under the Interstate Land Sales Full Disclosure Act, the land developer who offers 50 or more unimproved lots for sale and advertises across lines must file a statement of record containing detailed information about the

property with the Officer of Interstate Land Sales Registration, U. S. Department of Housing and Urban Development, Washington, D. C. 20411. This report must be filed before the land can be offered for sale.

The act also requires sellers to provide prospective buyers with a property report containing information

land developer advertises a golf course, swimming pool, boat marina or other recreational activities, find out the status of these items. Ask if they're still in the "early planning stages." Find out exactly when they'll be completed.

Be careful of buying land for a retirement home in an isolated area. Discover the distance to stores, medical care, banks, churches, and other public services. How close are neighbors? Many lots have been sold in remote and desolated deserts, mountains and swamp areas.

needed by the consumer to make a decision whether or not to buy. The report includes information on the availability of water, electricity sewer service and recreational facilities. The report must also include information regarding the existence of liens on the property, the type of title the buyer receives and the distances to nearby communities over paved and unpaved roads.

Study the property record carefully before making a decision. The law requires the buyer to give you a copy of the report at least 48 hours before you sign the contract.

When buying land, avoid being misled by a "free" lot offer. Many real estate promoters offer "free" lots in development sites as a lure to sell land. Often fees, charges or other strings are attached to getting these lots.

Some companies offer a free weekend at a development site to enable potential buyers to see the land. Some developers use this as an excuse to pressure visitors to buy while others simply provide information about the site. When taking advantage of a free weekend keep in mind that travel and some other expenses may not be covered.

RECIPE OF THE WEEK

During May - Senior Citizens' Month - we're REMINDED ABOUT THE NEEDS OF OLDER PEOPLE.

One of these needs is available housing. Suitable housing environments are especially important to older Americans as life space decreases with age.

Low incomes, disabilities, a penchant to remain in their own homes and limited housing alternatives force many older families and individuals to live in substandard or otherwise undesirable dwellings and neighborhoods.

A 1971 study estimated that persons over age 65 spend about 80 to 90 percent of their lives in the domestic (i.e.,

home) environment. Of all people only small children, the chronically ill and those institutionalized for law violation are as house and neighborhood bound as the elderly.

Others have indicated that the life space of the elderly tends to diminish with age. As energy and health decline, and financial resources shrink countless numbers of older Americans limit the physical space they occupy to the neighborhood grocery store, nearby church and to their dwellings.

For the enfeebled and the ill, life space is reduced to a house or an apartment, to a room and ultimately to a bed within four restricting walls. The quality of the housing environment becomes increasingly significant in the lives of many aged families and individuals. And the quality of this limited world largely determines the extent to which they'll retain their independence. It also influences their amount of privacy, how often they visit friends, their sense of place or territorial ownership and their ability to exercise a measure of control over the immediate environment.

Housing is often a major factor in the physical, social and psychological attitudes of older persons. One thing to consider in providing housing for the elderly is to provide housing consistent with a variety of life styles, rather than merely producing a large number of dwelling units.

Older families, as well as younger families, should be

allowed to exercise as much freedom of choice in housing as possible.

Most older couples and individuals want to live independently as long as possible. Types of housing and social services will enable them to be masters of their own households and achieve independent living.

is proud of the new Seniors! It is a traditional pride of a nation in the accomplishment of its youth.

We are especially proud of the young men and women who make up this class of graduates in our community. The reason is more than tradition... it is because in our memory we have never observed a finer group of young people who worked harder, or more confidently than these Seniors.

We wish the very best of everything to all of them.

Who Is Joe Smith

In your appraisal of the recent first primary of the Democratic Party, has it occurred to you why Joe Smith carried Gaines County with such an overwhelming majority in his campaign for the office of District Attorney?

Then let me give you the facts of how this occurred, and I consider myself in a good position to do this, in fact, probably in a better position than anyone else except the immediate members of his family. You see, he is my partner in the practice of law in Seminole, Texas, in the firm of Haley & Smith. Prior to entering into this relationship, I represented Mr. Smith for Twelve (12) years as his attorney. He was a successful businessman long before he went to law school to complete his education and I was his legal representative in all of his business affairs.

As a business man, Mr. Smith's dealings were always in a businesslike manner and based on a foundation of ethical and honest forthright approach to all of his business problems. In this phase of my acquaintance with Mr. Smith he demonstrated mature and sound judgement. At no time did I ever find him dealing unfairly with any person.

As my partner in the practice of law in our firm our personal and professional life are thoroughly integrated. Since the day of inception and organization of this firm Mr. Smith has handled my money, I have relied upon his integrity in a professional manner, and he has always discharged his responsibility to this firm to me and to himself without reproach. As an attorney, he works hard, turns out the work for his clients in an efficient and prompt manner using the same mature judgement that he demonstrated as a businessman.

As a man, Joe Smith is forty-six (46) years old, a graduate of Texas Tech University, and took his professional education after he was engaged in business and had a family, and acquired it by commuting from his home in Seminole. This required endurance and fortitude that, in my opinion, sets him aside as an exceptional person. His family consists of his wife and three daughters, two of whom are now in college. The youngest daughter is in junior high school in Seminole.

It is an understatement to say that the Smith family is one of the finest families of our community. His kids and my kids have gone through school together, and you know from your own experience how knowledge and impressions are made between families through their children.

Thus, we see the reason for the overwhelming majority of the vote in favor of Joe Smith in the first primary in Gaines County. We over here know Joe Smith to be a fine man, a leader, a worker, and a man of judgement. We believe in Joe Smith in Gaines County and we know that we are fortunate to have a man of this caliber asking to represent the people of this district. That is not to say that we want a Gaines County District Attorney, but what I am trying to say is that we know that we would have a man who would represent all of the people.

I recommend Joe Smith to you without reservation for the office that he is seeking, and if you choose to elect him as your district attorney, I can assure you that he will make the type of official that will be a credit to the office and one that the people of the 10th Judicial District can be proud of, and a man whose services we will endeavor to keep as long as possible.

RECEIVES HONORARY CHAPTER AWARDS - Pictured above are John Edwards, Elmer Schoppa and Herb Williams as they were presented Honorary Chapter Farmer Awards by FFA member Rodney Nettles. These men were honored for outstanding services to the New Home FFA Chapter.

The schedule of premiums and discounts for eligible qualities of 1972-crop upland cotton, to be used this year by Commodity Credit Corporation in making loans to producers, was released May 5. According to an analysis by Plains Cotton Growers, Inc., premiums and discounts "are generally narrower than those in effect for the 1971 crop," reflecting spot market prices for cotton recorded over the nine-month period from August, 1971 through April of this year.

"This will be the third year of a trend toward smaller differences between loan values for higher and lower qualities and shorter staples," notes Donald Johnson, PCG Executive Vice President, adding that this is a "natural result of the supply-demand relationships for the various classifications." Until recent months the supply of shorter staples and lower grades of cotton has been somewhat restricted, while the supply of higher white grades of medium and longer staples has been relatively plentiful.

"However the final quality distribution of the 1970 crop has reversed the situation to some extent," Johnson said, "and the narrowing of differentials may well end with 1972."

The base loan rate for Middling 1-inch cotton, basis 3.5 to 4.9 micronaire and net

weight at average location, for 1972 is 19.5 cents per pound, the same as for 1971. The loan rate for this base quality at Lubbock area warehouses, excepting Floydada, for the past several years has been five points below "average location," or 19.45 cents per pound. The Floydada loan rate has been the same as the average, 19.5 cents.

But USDA has indicated there may be some minor revisions in the 1972 location differentials because of increased transportation costs. The extent of these revisions is not yet known, which means calculation and publication of physical loan prices for High Plains cotton at this time would be premature.

For purposes of comparison the following chart shows 1971 and 1972 premiums and discounts which will be applied to the base loan rate at all locations for selected qualities common to High Plains production. Also shown are the discounts that will apply to 1972-crop cotton entering the CCC loan program with micronaire readings outside the desirable 3.5, to 4.9 range. It can be seen that "mike discounts" too are smaller than last year.

Tahoka Senior Class Prophecy

"Good evening, fellow Americans. I'm Walter Cronkite and this is the news for a Tuesday evening, November 8, 1994.

"Today was election day across the U. S. as millions of voters turned out to select among scores of candidates seeking various offices. For on up-to-the-minute report on the candidates and the days returns, we'll switch to our Election Headquarters in New York and our award winning news team of David Brinkley and Berry Gandy. David?"

"Yes, thank you, Walter. The political spotlight tonight is naturally on the Presidential race in which the first woman to ever run, Dale Rogers, is running against a newcomer to politics, Ladd Roberts, Miss Rogers, a conservative Democrat, is promising lower taxes as well as wars on poverty and pollution. Berry, what can you tell us about Roberts?"

"Well David, Roberts is running on the ticket of the newly formed Aggiecrats. His name first got into the headlines when he became the leader of Aggie liberation, a successor to the Women's Lib movement of the 1970's. Last year he and a group of Aggie libbers marched on College Station to Washington D. C. where, as a protest, they burned their athletic supporters on the front lawn of the Capitol. At the present time, Miss Rogers has received 84 million votes and Roberts 83."

"Is that 83 million, Berry?"

"No, David; 83 period."

"Thanks, Berry. In other races around the country it looks like a close one between Rux Hensley and John Saldana for the governorship of Texas. Hensley, a radical left-winger, has called Saldana "irresponsible and unqualified." Saldana retaliated in a statewide news conference by calling Hensley "a sorry pendejo." Insiders say that if Hensley loses today, he will enroll at the University of Texas and run for president of the student body, which is probably a more powerful position than governor, anyway.

"J. L. Martin today unseated incumbent Wanda Lawson as well as Debbie Miller and Dana Martin for the leadership of the Black Panthers and immediately announced that he was changing the name of that political party from the Black Panthers to the

Officer Staff, Jr. Play, Sr. Play; and Runner-up for Miss WHS.

Some of her favorites are: food, pizza; colors, purple and orange; car gold Corvette; singer, Johnny Rivers, song, "Muddy River"; group, Three Dog Night; actor, Paul Newman; actress, Elizabeth Taylor; teacher, Miss Price; pastime, water skiing; advice to freshman, "Be an independent individual within yourself." Her pet peeve is two-faced people.

Plans after graduation are undecided right now. Jan has attended Wilson High School all 12 years.

Black Pussycats. Lawson vowed she would return, while Miller and Martin complained that they were discriminated against because they were white."

"In a battle for one of the most powerful political positions in the nation, Staci Short has been elected to the national presidency of the Mickey Mouse Fan Clubs of America."

"We're still waiting for returns from O'Donnell, Texas where a heated race for major is going on. The highly coveted office is being sought by Jerry Ford, Christine Chapa, Rafael Gonzales, and Jo Ann Hall. All view the job as an important stepping stone to bigger and better things, like Governor, Senator, President, Mayor of Tahoka, etc. Now back to Walter."

"Thank you, Berry and David. Now for more news. The mysterious and wealthy Howard Hughes died today at the age of 104, leaving his entire estate to a Mr. Ricky Gurley. When our correspondent asked Squirrely what he planned to do with the \$86 trillion, he replied, 'I don't know.'"

"An attempted hijacking took place over Texas today when two men, Santana Duran and Pete Paniagua, seized stewardess Sandra Marez, held a gun to her head, and ordered pilot Clyde Curry to fly them to Juarez. On the way the sly Curry told them a rubber band had broken and they would have to land in El Paso, which of course they fell for. After landing FBI Agent William Corley came aboard and apprehended the would-be hijackers. After getting off duty, Curry and Corley went to Juarez."

"Now for our nightly sports report, let's go to our award winning sports girl, Cathy Wells."

"Hi sports fans! Baylor University hired two new hockey coaches today in Jeff Atwell and Ricky Gandy. In being interviewed for the job, Atwell and Gandy were asked if they

had ever played or coached hockey. "No, they replied, "but we know what it is." And that, evidently was enough qualifications for Baylor officials.

The sports world was shocked today by the resignation of Karen Craig, who coached the Los Angeles Lakers to 18 consecutive wins. Craig, will be replaced by Cindy Cunningham, fiancée of Will Chamberlain, the Lakers' 55 year-old star center.

"The American table tennis team of Margie Pena and Diane Rash today defeated the women's team from Red China. The victory was the first for the American tennis team since the U. S. China competition started way back

in 1972. The American men's team of Weldon Allen and John Gonzales, however, got stomped. Back to you, Walter."

"Thanks, Cathy. A huge narcotics haul was made today by the FBI. It resulted from their discovery that McDonald - Garcia Wholesale Drugs, Inc. was handling illegal drugs for the Mafia. Ar-

rested were Ellen McDonald and Elisa Garcia, who reportedly started out together behind the soda fountain and worked their way up to owners of a giant drug enterprise.

Questioning led to the arrest of Rhonda Ware, a top Mafia official and her gang members: Janie Pena, Ernestine Salinas, Sylvia Marez, and Ware's top right hand pusher, Martha Tyler.

"From Hollywood comes a report on movie star David Turner who has been billed as the greatest thing since

Clint Eastwood. Turner recently completed filming of a movie entitled, Dirty Henry, with Southern Wells and Josephine Sanchez. He recently

revealed plans to sequel with Kim Turner in the Return of Dirty Henry."

"This is Walter signing off....."

JUST THINKING

About the seniors. They're quite a group, these young men and women. They're a big, big part of our home town. Once they were the little boys you saw playing football on a vacant lot, and the little girls having play tea parties for their dolls.

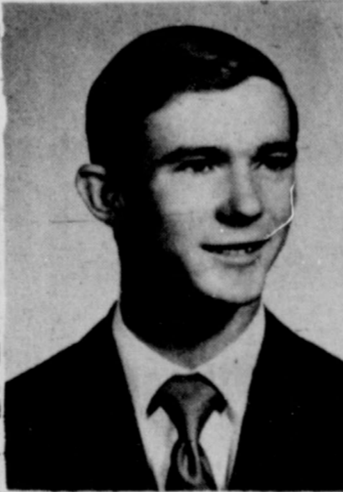

Today, they are mature young people on Graduation Day and ready and confident...eager to take up new challenges, strive for new goals.

We're exceptionally proud of you, Seniors, and we wish each of you a full measure of success and happiness in every endeavor.

Growing up

Look at your lanky, teen-age son! It's hard to believe that he once wore these shoes. It seems only yesterday that he was a baby, yet he himself is the best testimonial that the years have passed. Now he stands almost as tall as you. He is a fascinating maze of contradictions—an eager, lovable youngster one minute, a scowling, angry adolescent the next.

It takes patience to understand a teen-ager—patience, and a lot of love. Though he strives to be adult, he is still a boy. Though he clings to childhood, he is almost "grown-up." You may not always be aware of it, but he still looks to you for many things. And he sees in you an example that he will, almost unconsciously, follow in many ways.

Are you setting a good example? How about your church, for instance? If you haven't been going lately, start again next Sunday for your son's sake, as well as your own. And don't forget to take him with you!
