ican Cancer Society are thoughtful gifts - fitting tributes to those we love so

that others might be helped. Your memorial gift will not only do honor to a loved one;

it could help provide a gift of life. Mrs. Turner's address is Box 1387 - Tahoka.

#### Play Idalou Here Friday

The Tahoka Bulldogs lost their first home game of the season by a narrow margin last Friday to Abernathy by a score of 25-18 to lose their second straight game of the season.

The Bulldogs played good hard football Friday night but mistakes such as 4 fumbles that were lost and pass defense were the factors that

cost the Bulldogs the game. Jimmy Bailey, Phil McClendon, and John Thomas played outstanding football on offense along with defensive standouts Chuch Hoskins and Eugene

Brown. In the first quarter of action Tahoka lost the football on a fumble that set up a first quarter touchdown for the Abernathy Antelopes. Abernathy Quarterback Steve Riley tossed a pass to Dane Vickers for a 51 yard pass play for a score. The extra point try failed. The Tahoka Bulldogs then marched 54 yards in 9 plays, with John Thomas going over from three yards out for the first Tahoka score. The kick for PAT failed tving the two teams 6-6. Abernathy's second touchdown was set up by another pass play that carried 36 yards from Riley to Vickers. Two plays later Vickers from Abernathy scored from the I yard line leaving the score at the end of the first period at 6-12 in favor

of the visitors. On first possession of the football in the second period of play that the Antelopes had the ball, Vickers ran through right guard cut to the left and ran 58 yards for another Abernathy score. The PAT was good on a kicking conversion putting the Antelopes out in front by a score of 19-6. Later in the second period the Tahoka Bulldogs drove 74 vards for a touchdown with Tahoka back Jimmy Bailey circling left end for 34 yards. The Bulldogs failed to run the conversion leaving the halftime score at 12-19.

Phil McClendon, Bulldog Quarterback and punt returner ran a punt back in the third stanza 51 yards to the Abernathy 16, and on the next play Jimmy Bailey took a pitchout from McClendon and went 16 yards to score his second touchdown of the evening. A. gain the Bulldogs failed to run the conversion leaving the Antelopes with a slight edge at the end of the third period.

18-19. The only score in the third

quarter came when Phil Mc. Clendon fumbled on his on 14 yard line and 5 plays later the Antelopes scored from the one yard line. Kick for PAT was no good making the final score 25-18 in favor of the Aptelopes.

The Bulldogs will play another home game this Friday night at 8:00 p.m. against the Idalou Wildcats. STATISTICS

ial in Eaufaula Cemetery.

Sunday , Sept. 17th, 1972, was a great day in the New Home Baptist Church as people came from many towns to help celebrate the anniversary of Rev. A. C. Hardin's ministry. After Sunday School and and inspirational program of music and song, Rev. Hardin prepared the sermon to complete 50 years of service gloryfying our Savior and ministering to people. The auditorium was filled with the people here and with the children, grand children brothers, sisters, and other relatives and with friends from other churches, where Rev. Hardin and his good wife have worked together these past 50 years. At the noon hour, an estimated 250 people enjoyed the dinner served in the school dafeteria. From 2:30 to 5:00 p.m. a come and go reception in the fellowship hall of the church. People registered from Midland, Odessa, Kermit, Carbon, Brownfield, Denver City, Lamesa, O'Donnell, Tahoka , Wilson, Sundown, Loraine, Lubbock, Shallowater, Abernathy, Welch, Mangrum, Okla., Post, Plainview, Meadow , Abilene, Tulia and Lev-

NEW HOME, TEXAS

A Weekly Report Of Agri-Business News armcasi Compiled From Sources Of The Texas Department of Agriculture John C. White, Commissioner

Cotton Production Increases Again . . . Cattle on Feed Declines Slightly...Pecan Production Expected to Set Record . . . Crop Prospects Good . . .

Texas cotton production for this season is estimated to be more than one million bales above 1971. The Texas Crop and Livestock Reporting Service estimates Texas' production this year now at 3,800,000 bales. This would be an increase of 1,221,000 bales over 1971 production.

Yield, based on September 1 conditions, is expected to average 356 pounds per acre. Only 263 pounds per acre were produced in 1971.

Harvest is virtually complete in the Lower Rio Grande Valley. Harvest in south Central is more than one-third complete. Blackland cotton harvest is now reaching full momentum with a good to excellent yield reported.

Cotton on the High and Low plains is making good to excellent progress.

A ONE percent decline in the number of cattle on feed compared to a month ago is reported for Texas. The state continues to be the number one cattle feeding state in

As of September 1, there were 2,095,000 head of cattle and calves on feed for slaughter in Texas. Compared to a year ago, this is 32 percent higher.

Placements into Texas feedlots during August totaled 381,000 head; this is 28 percent above a year ago. Marketings of fat cattle during August totaled 406,000 head. This is 16 percent above last year.

In the major six-state cattle feeding report, which includes Texas, Arizona, California, Iowa, Nebraska, and Kansas, number of cattle on feed totaled 7,551,000 head.

This is a three percent decrease from a month ago, but 17 percent more than for the same time in 1971. Iowa is the second ranking cattle feeding state with a total of 1,476,000 head as of September 1 on feed.

A RECORD pecan crop is in prospect for Texas. The Texas Crop and Livestock Reporting Service estimates a crop of 70,000,000 pounds, the highest ever. This is almost three times more than last year's crop of only 24,000,000 pounds. The Texas crop will account for 35 percent of the total estimated U.S. production this year.

Harvest in most areas is expected to be two to three weeks earlier; the first pecans of this season were harvested in late August in San Saba County. The 1972 crop estimate is one million pounds above the previous record crop of 69,000,000 pounds in 1968.

the state. Grain sorghum production is expected to top off at 60 bushels per acre, a record high yield. Harvest throughout the state is more than half complete.

Corn production is now estimated at 35,000,000 bushels. Per acre yield is expected to be 70 bushels, which is eight bushels lower than 1971.

Peanut yields this year are expected to be higher than in 1971. A yield of 1,430 pounds per acre is anticipated;

this compared with 1,235 pounds per acre in 1971. Soybean production is now estimated at 5,670,000 bushels compared with 2,781,000 in 1971.

Wheat seeding is active from the Edwards Plateau to the northern High Plains. Seeding for the state is about 20

#### Past Days In Lynn County

Copied from Sept. 15, 1922 This section of the South Plains experienced a sudden drop in tempature from Saturday until Monday morning when the therometer dropped

from 94 to 58 in the shade. The rain Sunday was accompanied by a cool northeast wind, which was the cause of the sudden change in temperature.

There were a number of overcoats in evidence on the streets of Tahoka Monday morning.

We desire to express our sincere appreciation to the business men of Tahoka and others who donated toward the Tahoka High School football team. We expect to have one of the strongest teams in this section during the 1922 season. Something over \$100.00 was made up for the team. Again we thank each and everyone who contributed to this fund, and we hope you will come out to the games played at home during the fall and winter months.

T. H. S. football team.

H. B. Howell, owner of Howell's Garage in Tahoka, has a force of men at work this week laying a string of sidewalk in front of his place of business. He will also give the front of the building a stucco finish, which will give the place a neat appearance when the work is completed. 000

The progressive citizenship of the Dixie community in Lynn county are hauling material out of Tahoka this week for the erection of a new school building, measuring 31 x 62 and built of interlocking tile. The exterior will be of stucco. The people of Tahoka rejoice with the citizens fo this properous community that they are soon to have a modern structure in which to conduct their fast growing school. This is the second rural school building being erected in Lynn county, Draw is now completing a new interlocking tile structure.

Mesdames W. B. Slaton and Paul Miller G. M. Stewart, and Gladys Stokes were Lubbock visitors Saturday.

000

Miss Ida Small left Tuesday for Brownwood, where she will attend Howard Payne College the ensuing term.

Miss Era accompanied her as far as Slaton. Mr. and Mrs. W. H. May

and daughter, Clara, were Lubbock visitors Monday. Chester Connolly and Beecher Sherrod made a trip to Sterling City to get a Ford Sedan, which the Connolly Mo-

tor Company had sold there. Buford Swan made a business trip to Abilene and returned this week. 000

Copied from Sept. 22, 1922 The Tahoka High School football team journeyed to Wilson Monday afternoon, where they met the Slaton school team. This was the first game of the season for the Tahoka eleven and this together with only a few days practice, they lost the game after one hour play by a score of 13 to 0. Key and Gregor were stars for Tahoka, and the quarterback on the Slaton team was star in the game.

An unusually large crowd witnessed the game as it was played on the opening day of the Wilson Public school. The Tahoka team expects to make a slight change in the lineup and will enter into hard practice for many games during the fall and winter. They have now suits and headgear and are all trimmed up for some hard battles on the gridiron both at home and abroad.

What's this world coming to. . . . Quite a crowd assembled at the courthouse Saturday to hear a trial from the southeast part of the county, in which a young man was accused of calling another young man nothing more or less than a long-legged S of B. The jury decided that such language was a common expression of greeting and affection on the plains and turned the defendant loose. At least he is no longer in bondage but we did not hear the evidence. . Terry County Herald.

An automobile drove up and stopped in front of the court house and from a casual inspection by a specator 100 feet away it impossible to tell whether three men; three women; two men and one woman; two women and one man; a woman, a man and a girl; a woman, a man and a boy; two men and a boy; two women and a boy; two men and a girl, or two women and a

girl got out. All three looked just alike.

E. A. Park, formerly in the market business in Tahoka, has again launched in the business and will open the doors to the public tomorrow, (Saturday) morning. The business will be known as the City Meat Market and will be located the first door west of the H. M. Anthony Grocery.

Mr. Park carries an advertisement in this issue of the News inviting the public to call on him for anything in fresh meats.

Saturday evening shortly before sunset, fire broke out upstairs in the Herd Building, located on the east side of the square, destroying this building and the one immediately adjoining, owned by J. N. Jones. The heroic work of the local volunteer fire department prevented the flames from spreading and destroying the remaining wooden structures on the west side. The contents of the buildings were saved and everything was removed from all buildings that were threatened with destruction.

One of the buildings destroy. ed was occupied by the West Side Cafe on the lower floor and the W. O. W. hall on the second floor. The one in which the fire originated was occupied by a mercantile establishment, the proprietor and his wife occupying the second floor. The fire is said to have originated upstairs when the lady of the house left a burning iron on

the board and went down stairs for a time.

Too much credit cannot be given the volunteer fire department for the manner in which they handled the situation. A quick run was made from the station to the burnign building and the boys had

the water playing on the flames in less than five minutes after the alarm had been given.

The buildings were estimated to be worth \$3000.00 and the Herd building had insurance to the amount of \$500. The Jones building was without insurance, we understand. It is not known at this time whether the buildings will be replaced with brick structures

#### BILL GRIFFIN SAYS ...

Governor Preston Smith has proclaimed the week of October 1-7 as 4-H week in Tex-

Theme of this year's observance is "A New Day .. A New Way."

According to the proclamation issued by Smith, "The 1972 theme expresses the thrust of today's 4-H program as it helps prepare young people to become better citizens in our changing world."

The proclamation continues, "Texas 4-H members working with educational learn-by-doing projects apply the latest research and scientific information to their work, hibits and giving demonstrations to pass the information to others.

"The leadership and citizenship training which 4-H members receive in this pro-

gram is a valuable asset to our state and to our democratic way of life."

4-H continues to expand into new program areas and is designed to meet the needs of all youngsters between the ages of 9 and 19.

A total of 394 boys and girls are currently enrolled in 4-H in Lynn County. igible to participate. Boys and girls are invited to visit the county Extension office to learn about 4-H club work.

4-H is a part of the educational program of the Texas Agricultural Extension Service of Texas A&M University and is directed at the local level by county Extension agents. Volunteer adult leaders and other local citizens assist with the program.

PCG "can be and will be" a potent factor in writing the provisions of a 1974 cotton program, Johnson said "We have among the officers, directors and committee members of PCG people who, first are capable of reaching sound, practical conslusions with regard to needed program provisions, and, second, are capable of bringing their logic to bear on other people whose support for those conclusions will be necessary if they are

Initial study of legislative alternatives is being made by the 12-member PCG Legislative Committee, chaired by J. D. Smith of Littlefield. This committee will report its recommendations to the full PCG Board, which has two elected members from each of 25 counties, and that body will determine the organization's official policy, Johnson stated.

to be enacted."

The Plains Ginners meeting, with some 300 in attendance, convened at 9:30 a.m. and was adjourned following a lunch provided by PCG and area cotton oil mills.

#### W.S.C.S. Continues Technetics Study

their study on Technetics at 4 p.m. Monday, Sept. 18, at the United Methodist Church with sixteen in attendance.

A point was made that the mor people there are in the world, the more pollution there will be. We need to conserve our natural resources and recycle so there will be less pollution and our resources will not be depleted. Man is custodian of what God has given. We also need to develop nonviolent methods of settling arguments. The study will continue Monday at

and girls of Lorenzo and Mr. and Mrs. Thomas Jolly and family of Snyder. The Jolly's

also visited his parents, Mr. and Mrs. Al Jolly.

Current indications are that most cotton producers have been "pretty well satisfied" with the cotton section of the Agriculture Act of 1970, and " with some reservations" would probably be pleased to see it extended beyond the 1973 crop.

This is what Donald Johnson, Executive Vice President of Plains Cotton Growers Inc., told ginners and other industry people attending the 1972 annual meeting of Plains Ginners Association September 16 at the Lubbock Country Club, Lubbock.

Concerning the "reservations," Johnson said most producers with whom he had discussed a cotton program for 1974 would like to see

the present program extended:

-- If the payment level can be kept at the present statutory minimum of 15 cents per pound; - If the loan level can be

raised to give a little more protection against disastrous prices in the event of overproduction on any given year; .. If the limitation on payments to individual farmers

can be kept at the present

level of \$55,000 per crop, and .. If the "boom to bust" aspects of the program can be eliminated, meaning if some means can be incorporated into the program to as-

sure enough productionto ad-

equately supply markets with out unduly depressing prices. On this latter point Johnson went on to say "This is a tough order to fill, admittedly, but it is extremely, but it is extremely important that it be filled in the provisions of any future

cotton program. "Unless some way is found to keep supply and demand in better balance," he said, " it seems to me we are doomed to a victous and crippling circle of high prices

one year and high production the next, then low prices followed by low production, and back around again. So there needs to be a levelling out from year to year of both supplies and prices if our industry is to achieve anything like its maximum potential."

Discussing further the development of a new cotton program, Johnson stated "We have to realize that the High Plains alone can't pass a program -- that we can't take a plane load or a train load of farmers or ginners to Washington and in the course of a few days get enough congressional and administration support to make our dreams come true."

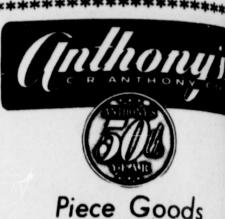

He noted that there are producers in other parts of the cotton belt and other segments of the industry, "any and all of which may have needs with regard to program provisions which don't exactly parallel the needs of High Plains producers.

"In addition the present administration in Washington, which at the moment looks like it may be the next administration also, has a well established farm policy course -a course which it would take almost unheard of pressures to get reversed."

Therefore, Johnson continued, "Reality forces us to consider what we want in a cotton program, at least to some extent, in terms of what we have a chance of getting. And what we have a chance of getting will depend on how successful we are over the next 12 months or so in getting the administration, other sections of the belt and other segments of the industry to see things our way.

"And this process, along with the initial development of a Plains legislative position, is time-consuming, painstaking demanding . and expensive."

from " Pinocchio's" Italian Street Carnival to "Snow White and the Seven Dwarfs" house transform the arena into a world of fantasy.

"The intention in creating the show," says Michel Grilikhes, executive in charge of production, "was to use the same creative imagination the Disney experts have used on film to create a 'living' touring show based not only on great Disney classics, but addng new twists to some of their lder themes.

The characters from "Snow White and the Seven Dwarfs, "Pinocchio, "and "Fantasia" join Mickey Mouse, Pluto, Goofy, Donald Duck, and many more.

Music goes all the way from Country- Western in the 'Barnyard Bash" production with dancing chickens, eggs, rooster, fox and scarecrow, to "Fantasia's" famous "Nutcracker Suite."

A wholly new entertainment medium requires revolutionary staging. To that end, a completely portable stage (135 feet long and 56 feet wide) was designed, along with a mammoth proscenium at one end of the floor depicting the castle from the famous Magic Kingdom. The castle alone has 10 magic openings and door through which the entire "Disney On Parade" cast can flood the floor in seconds.

#### Mrs. Thomas Hosts H D Club

The Draw Home Demonstration Club met Sept. 12, in the home of Mrs. Claud Thomas. Mrs. R. E. Appling directed the recreation.

The club voted to revive some of their by-laws. Mrs. Lambright presented the program on "What the Lions are doing for the Blind

at Kerrville." Refreshments were served to seven members and one visitor, Mrs. Blan Ramsey.

## -Bar Bridge

Last week's T . Bar Duplicate Bridge winners were: Mrs. Winston Wharton and Mrs. Frank Hill, first; Miss Echo Milliken and Mrs. Olen Renfro, second; Mrs. Jess Gurley and Floyd Tubb, third; and Mrs. John Curry and Mrs. Clois Leverett, fourth.

GENE EADES AND MARY BESS EDWARDS CELEBRATE BIRTHDAY

#### Eades-Mrs. Edwards Celebrate Birthday

Gene Eades and Mary Bess Edwards were honored with their 39 and 37 birthday with a supper Thursday, September 14, in the home of their parents: Mr. and Mrs. C. G.

Mary Bess was born on her brother's 2nd birthday. Ever since Gene was 3 and Mary Bess they have had their picture made on their birthday. Their parents have an 8 x 10 picture of every year hanging on a bedroom wall for their and everyone elses enjoyment.

Both Gene and Mary Bess started and finished school at New Home and have lived in

the community ever since 1938 moving here from Slide.

Gene and his wife; Sue and children; Andrea II, and Alan, 9, live on a farm west of New Home.

Mary Bess and her hus-

band, John Edward and children; Karon, 17, and John Dudley 14, live in New Home and is co-owner and mana-

## **New Pontiacs At** McCord's Today

a new sporty intermediate. fresh new styling and continued engineering improvement in energy-absorbing bumpers and emission control.

There are 33 models in the new Pontiac lineup including 13 full size Pontiacs, two Grand Am which incorporates classic styling with unique ride and handling characteristics. A distinctive body-colored front bumper and flexible rubber-like urethane front end panel combine functional styling with engineering to give an improved bumper system.

On most 1973 models, Pontiac has front bumpers which exceed the requirements of the Federal bumper standards by being completely self-restoring in a five-mile-per-hour barrier test.

The new bumper system on the front of all full-size and intermediate Pontiacs and the Grand Prix features a new energy-absorbing unit mounted to the frame that can compress up to three inches and return to normal position when the force is removed.

This unit utilizes heavey telescoping steel chambers, pressurized gas and hydraullic fluid to absorb the im-

Protective rub strips and bumper guards are available. The new rear bumper on all Pontiac full-size and intermediate-size cars except Saf-

aris is backed up with a high strength steel-boxed beam reinforcement. The bumper is supported with flexible steel bars to form a spring sys-

Extensive changes have been made on the 1973 engines to meet more stringent exhaust emission standards

are Mrs. Black and Mr. Dial.

Several of our folks are, or have been in the hospital. Mrs. Harter returned Monday from a stay in the hospital, and Mrs. Woods, Mr. Inklebarger and Mr. Kaddatz are in the hospital as this is being written. Mrs. Todd is out, but will enter a home in Lubbock close to her doc-

Mrs. Harter's son, Lewis and his wife Faye of Lockney visited her Thursday. They reported it really rained on them. Other visitors of Mrs. Harter's was Vera Harter and Betty Harter.

We receive many gifts and thank you for each one. One of our latest is a F.M. Stero receiver given to the Home by Farmers Coop. Assoc. No. 1. Since the coop belongs to the people we wish to thank each of you, and a special note of thanks to the management and Board for the wonderful

Valita Burks moved to Colonial Nursing Home of Levelland to be closer to her parents who have moved close to Littlefield. We will miss her but hope she is happy there.

We have some new faces in the staff. Francis Durham began work on the 11-7 shift in the place of Mrs. Roe and Gertrude Bales has started work as L.V.N. since she graduated from the school at Brownfield. She will take her State Board next month. We are real proud of her.

A special thanks to Mrs. C. A. Thomas for the lovely white mums sent to her in memory of Dr. Thomas from a friend in Tennessee. She wanted to share them with us as she said the docter loved the home.

Also thanks to Katie Hawthorne for the tomatoes, Dovie Jolly for peas, beans, jelly and catsup, and to Joyce Davies for the tomatoes, bell peppers and okra. While we enjoy these fresh fruits and

vegetables, we don't want to give the idea that you have to bring in things to be welcomed. We welcome each of you to come by for a visit, to sing, or for any reason.

Just say hello is reason enugh. The Church of Christ brought the worship services Sunday. We did enjoy them, however many of our folks

were gone Sunday visiting. Visiting families out of the home were Mr. and Mrs. Owens. Roy Moreman and James Polk . It is always nice to go out visiting.

Mrs. Ruby Harvick visited Corine Izard and Mrs. Willess. Also visiting Mrs. Willess was Mrs. C. W. Rust of Lubbock.

We welcome our newest resident, Mrs. Hall Robinson. We are looking forward to getting to know her again.

Arlie Aycock visited Mrs. Jones, Mr. Allen, and Mrs. Hill . Also visiting Mrs. Hill was her daughter, Mrs. Baker.

Visiting Mr. Allen was Mr. and Mrs. Sam Allen of La Feria his son, and Sam M. Allen of Gonzales, a grandson,I believe.

If Mr. Dial looked full last Monday, it might have been that birthday coconut pie that Mr. and Mrs. Pat Hines brought him. I wonder if they put candles in it?

Our singing was wonderful again Monday. Some of the ladies who have been busy were able to come back and help Mrs. Hammonds. We do enjoy singing especially if we have plenty of help.

Others visiting us this week

include Mr. and Mrs. Jim Henry, Bert and Laura Stice, Lela Woods, Mr. and Mrs. Bob Barnett, Mr. and Mrs. D. R. Proffitt, Claud and Mattie Harris, Mr. and Mrs. J. O. Reed, Mr. and Mrs. Gordon Musick and Sherry, Mrs. C. A. Thomas, Dora Faye Moore, Elaine McMillian, Beula Atkins and Mrs. Hubert Tankers-

Until next week, come to see us and we will try to keep you posted on the happenings

# Happenings

BY BECKY BURKS

Last Wednesday, the Tahoka F.H.A. and F.F.A. chapters met. Deborah Draper, F. H. A. chapter president. presented the F.M.A. program which introduced the Tahoka F.H.A. chapter's theme for this year -- "Growth through Change". The F.H.A. girls will be selecting a F.H.A. beau sometime in the near future.

F.F.A. boys also met and elected their chapter officers for 1972-73. Weldon Warren is president and his vice . presidents will be:

Jack Williams Chuck Hoskins Benge Williams Johnny McDonald David Brookshire Tommy Martin

Leslie Paris or Dennis Stanley (there will be a run-off) Becky Franklin is the F.F.A. sweetheart.

The Junior class had a meeting at Billy Knox's home last week. They are planning to sell homecoming cor-

a dance at the community center following the homecoming game. They are also in the process of planning more money-making projects for the future.

sages this year and will have

The members of Y.F.C. (Youth For Christ) met last week. They will continue to meet each Tuesday at 8:00 a.m. throughout the school year. Everyone is invited to come. Y.F.C. officers are: Sheree Brookshire, witness,

Georgia Thomas and Barbara Abbe, faith, Walt Hagood, chaplain.

The Tahoka varsity football team competed with the Abernathy Antelopes last Friday, losing by one touchdown, with an outcome score of 25. 18. The Junior Varsity team played against Littlefield last week receiving a score of 6-7. The Tahoka freshmenteam, also playing against Little-

field, were defeated with a score of 0-14.

LINDA HUFFAKER

Classics are back in a big way. Seemingly as American as apple pie, styles are comfortable and neat, yet spiced with a softness to give just the right touch of femininity dear to the wardrobes of

SAYS ...

always-active women. Don't think for a minute that a grab into Mom's attic mothballs clothes will create the classic look.

Classics revive this fall rich in mantailoring -- a variety of vests, elongated jackets and sweaters, pointed lapels and collars, wrap-arounds and tie belts, sweater sets with crew necks and straight stitch.

Shades of mid-century emerge in dolman sleeves and swingy, pleated or gored

Treatments of the classics make the difference and mark the fashions for today.

For one thing, desi executed mostly in ashable, no-iron fabrics and yarns -every bit as good looking but with the built-in economy and time-saving qualities of easy care. Because of the arrary of synthetics and blends, save hangtags with laundering instructions and post in the laun-

dry room for quick reference. Although the framework is there, significant changes make today's classics a really new scene.

Softness comes with fluffy. brushes, nappy materials .. plus tucks, ruffles and tiny trims. Cap sleeves, as well as traditional cuts, mark jumpers that can " go it alone." Others feature deep cut armholes to accommodate the dolman sleeved underlay-

Skirt lenghts, too, have settled to a practical length somewhere around the knee. Exceptions occur in some midiclassics and particularlyy for the youth market -- a showing of six - inch above - theknee dresses.

The newest in pants is wide and cuffed -- often front pleats and high fitted, belted waistline. Jeans go on and on in popularity, now seen with turned- up cuffs of contrasting printed lining or two-tones treatments.

A new phrase, body buildup, is fashion talk for the layered look--well established last season and still popular this fall. Major styling here also is along classic lines but breaks out into feminizing ruffles and neckline detailing.

Basic to the build-up is the body shirt, blouse or sweat. er. These all-in-ones originated with the body stocking and have become a full-fledged fashion. They come in a seemingly endless variety of styles, patterns and fabrics .. and in several different departments of most stores. Body suits are designed to go under layers, go alone, or come coordinated with their own build-ups.

For underlayering, panty hose create a total fashion statement. In monotone coordinates or hues to pick up print or plaid accent colors, a wardrobe of pantyhose links together the mixing and matching of many seperate pieces. RECIVE OF THE WEEK

The Tahoka Junior Varsity Bulldogs will journey to Crosbyton tonight to play the Crosbyton Chiefs, beginning at 7:30

#### Better Bale On The Way

Real progress is now being made in cotton bale packaging and will come at an even faster rate in the future, according to Herschel McRae of the National Cotton Council, Memphis.

He credits the shift to net-

weight trading with opening the door to progress both in improving packaging and in reducing costs and labor.

New packaging materials approved for 1972 are in addition to those already approved and in use, the Council marketing and processing manager stresses They offer new options chiefly to gins in the Southeast where a very small percentage of cotton is compressed or to gins having standard and universal density

Savings Cited

Citing the use of two new light-weight packaging materials nine-gauge wire and salvage burlap -on a California gin standard or universal density press, he estimates potential savings of \$1.80 a bale or \$18,000 for a 10,000-bale gin. This includes savings in packaging materials, freight, and

Test programs on additional new materials will continue in 1972, with one of the most promising being the polyethylene shrink

Regarding efforts to achieve a uniform bale for domestic and export trade, Mr. McRae says the main problem was conversion of flat bale gin presses and com-presses to produce the 27-30 pound density bale acceptable in all markets.

He explains that only large volume gins can justify the investment cost of presses for the universal density bales which are now acceptable to all mills and move at minimum freight rates on the West Coast.

Solution to the flat gin press other minor adjustments. Five forms

## **Young Farmers** Week, Sept. 18-24

officially designated as Young Farmer Week in Texas by proclamation of Governor Preston Smith.

The proclamation, signed recently, gives additional recognition to this rapidly growing farm group. The Young Farmer Association is sponsored under the auspices of vocational agriculture departments in high schools across Texas and the Texas Education Agency Over 250 Young Farmer

chapters have been organized on a local school district or county wide basis to carry out educational activities which will help the members keep abreast of the technological advancements in the field of agriculture and to develop greater skill and efficiency in management, prod-

uction, and marketing. Governor Smith points out in the proclamation that, in addition to educational activities, Young Farmers incorporate in their planned chapter program civic and community service projects and leadership activities that are designed to improve their communities, State, and Nation, and to pro-

mote the welfare of all cit-

that through these efforts they are helping to strengthen the economy of our country and are promoting good citizenship. In closing the proclamation

the Governor predicted that as the organization continues to grow, it will play an increasingly important role in the life of rural America. Billy Russ President of the

O'Donnell Young Farmer Chapter reports that the O'-Donnell Chapter will be celebrating Young Farmer Week and invites all interested persons to attend the next meet. ing which will be held Oct. Mrs. Leona Holden spent

Sat. night and Sunday with a friend, Miss Bennie Speck of Lamesa. They attended Sunday School and Church at the First United Methodist Church seeing many more friends that she had met while staying with Bennie 2 yrs. ago. Miss Speck had to have surgery for a pace maker about the first of August. She is learning to live with it real good. Going with Mrs. Holden was Mrs. Ponella Anderson, she visited her sister Mrs. Oma Northcott, a brother, and friends.

No. 51, David Gandy is a senior in Tahoka High School and is the son of Mr. and Mrs. J. C. Gandy. He plays center for the Tahoka Bulldogs. David is six feet tall and weighs one hundred ninety- four pounds.

#### Cotton Reduces Trade Deficits

In a year when the total U. S trade balance had a deficit of \$2 billion, agriculture had a favorable balance of \$1.9 billion and cotton accounted for almost a third of this, according to the National Cotton Council.

This occurred despite a crippling dock strike that sharply reduced shipments of agricultural commodities in the last half of the

The value of U.S. cotton exports jumped by 57% to \$584 million in 1971. Opportunities for exporting cotton are far greater than for synthetic fibers. Climate and terrain limit cotton production to a relatively small part of the world while man-made fiber plants can be built almost any where.

Most of the nations that have to import sizable quantities of cotton are practically self-sufficient in synthetic fibers

Even though all of the manmade fibers together account for 40 per cent more fiber consump-tion in the United States than cotton, their exports were valued at less than \$195 million in 1970.

3,000 above last month but 15,000 less than in May of 1971. Sheep and lambs killed totaled 118,000, or 5,000 less than last year Hogs on all Texas farms as of June 1 totaled 1,132,000 head, down 24 per cent from 1971. Hogs kept for breeding purposes numbered 175,000 which is 24 per cent less than last year. Hog farmers intend to farrow 120,000 sows in Texas now through November, which is 19 per cent less than farrowings for this period last year. Nationwide, the farrowings now through November will be down four per cent from 1971.

TANGELOS and lemons in Texas?

You bet, and there's also avocados and apricots as well as plums, pears, apples, figs, blackberries, dewberries

and tangerines. A tangelo, incidentally, is a cross between a tangerine and grapefruit. The Citrus Tree Census of the Texas Citrus Mutual estimates there are about 60,000 tangerine trees in

the Lower Rio Grande Valley. A small acreage of less than 100 acres of lemons is

also grown in the Valley. Avocado is also a Valley crop. Apples are grown throughout the state with Comanche, Montague, and Gillespie being the leading counties. Apricot production is centered in east and north
