Cotton Harvest At Standstill

The South Plains cotton harvest remained at a standstill the past week due to unfavorable weather and wet fields, according to W.K. Palmer, in charge of the Lubbock Cotton Classing Office of the U.S.D.A.

However, the U.S.D.A. classing offices at Lubbock, Brownfield, Lamesa and Levelland continued to receive samples from cotton harvested before the adverse weather.

The four classing offices classed 50,000 samples during the week ending Friday November 24th. This brought the total classed this

season to 133,000. Through November 24th last year only 48,000 samples of the 1971 crop had been classed.

Low Middling (51) was the predominant grade at Lubbock last week making up 33 percent of all cotton classed. Strict Low Middling (41) made up 26 percent, Strict Low Middling Light Spotted (42) 14 percent and Strict Low Middling Spotted (43) 7 percent.

Stapels were predominantly 31 to 34. Twenty-one percent had a staple length of 31, 24 percent staples 32, 25 percent was 33 and 12 percent was 34.

Micronaire readings are an indication of fiber fineness or maturity. Cotton with mic-

ronaire readings of 3.5 through 4.9 is considered in the premium range. Fifty-seven percent of all cotton classed at Lubbock last week had micronaire readings in the premium range of 3.5 through 4.9. 1 percent was in the high micronaire range of 5.0 - 5.2, 15 percent "miked" 3.3 through 3.4, 20 percent was 3.0 through 3.2, 6 percent 2.7 through 2.9 and 1 percent

was 2.6 and below.

The Agricultural Marketing Service of the U.S.D.A. reported trading on the Lubbock market as more cotton became available and prices were \$10.00 to \$15.00 per bale higher.

Average prices paid for the most predominant qualities in the 3.5 to 4.9 premium micronaire range were: Strict Low Middling (41) staple 31-24.05 cents per pound, Strict Low Middling (41) staple 32-25.25, Strict Low Middling (41) staple 33-26.65, Low Middling (51) staple 31 - 22.00, Low Middling (51) staple 32-22.95 and Low Middling (51) staple 33 - 23.85.

Cottonseed prices were slightly higher and farmers received \$45 to \$52 per ton for their cottonseed at gins. Average price was \$48.10 per ton.

Clara Harris' Funeral Held

Mrs. Clara Bell Harris, 87, a former resident of Tahoka, died Monday afternoon in San Angelo, where she had lived the past 11 years.

Services were held at 2 p.m. Wednesday at the First Baptist Church of Tahoka with the Rev. Jim Turner, pastor, officiating. Burial was in Tahoka Cemetery directed by White Funeral Home.

She was born Feb. 18, 1885, in Sulphur Springs, attended school there and married W.M. Harris there in November 1910. They came to Lynn County in 1915 from Naples, Tex., and put Tahoka's first telephone exchange. Later they owned a hardware store, a funeral home and a furniture store.

After her husband died in 1961, Mrs. Harris moved to San Angelo. She was a member and past matron of Eastern Star and was a member of the Baptist Church.

She is survived by a number of nephews and nieces, including Mrs. A.G. Cawthron, Mrs. E.T. Cawthron and Luther Robinson, all of Tahoka.

Pallbearers were Clint Walker, Borden Davis, Bill Chaney, Turner Rogers, Clay Bennett and Pete Hegi.

Community Action Needs Toys

The Community Action Center will begin a "Toys for Tots" campaign, for Christmas. If you have any old toys, please bring them to the Community Action Center, 1517 South 2nd Street, across the street south of the courthouse. The staff of the Community Action Center will deliver these toys at Christmas time to needy children.

Holiday Accident Totals Automobile

An accident that occurred on Thanksgiving day in Tahoka resulted in no injuries, but left one car completely totaled and one car with approximately \$900 damage.

The accident occurred about 12:00 p.m. at the intersection of Lockwood and Avenue J. Mike Orr, a Tahoka resident, was traveling East on Lockwood and Quinn Paschal of Brownfield, traveling South on Avenue J collided with the Orr car, a 1968 Buick. The Buick hit the 1973 Ford Pinto

in the side and the Paschal car careened to the East jumped the curb and came to rest against Echo's Beauty Salon.

The accident was investigated by Police Chief Jack Miller.

Rodney Huddleston and R.Q. Paschal were passengers in the Paschal automobile.

It was reported that the Paschal car ran the stop sign on Avenue J.

Gold Star Winners - - -

Jan Wilke and Richard Taber of Lynn County display the highest county award in 4-H -- The Gold Star. They received the awards for their achievements.

Gold Star Winners Receive Awards

"You have accomplished a milestone today," the speaker said, "you have distinguished yourselves as leaders." With this acclaim, 40 honorees paraded across the stage at Lubbock's Coronado High School Monday night to receive the highest county 4-H award that can be offered -- the Gold Star.

Each of the 20 boys and 20 girls had accomplished a long and distinguished record of 4-H activity and honors, bringing recognition to themselves as dedicated and responsible leaders and to their parents who stood beside them along the way.

With State Representative-elect James E. "Pete" Laney of Plainview spotlighting their achievements, each boy and girl was handed the Gold Star plaque. Mr. Billy C. Gunter and Mrs. Catherine B. Crawford, district extension agents of the Texas Agricultural Extension Service, presented the awards.

Special guests among the 450 people attending stood in recognition as their names were called. The gathering included parents, adult leaders, Texas Agricultural Extension Service professionals, representatives of the mass media, officials of Texas Tech, and officials and representatives of the 12 member-owned electric cooperatives who sponsored the event. The audience heard several songs by the Baker's Dozen of South Plains College in Levelland.

Principal speaker was Dr. Anson R. Bertrand, dean of Agricultural Sciences at Texas Tech University. Dr. H. P. Kunkel, dean of Agricultural, Texas A&M University, was scheduled to speak but weather conditions prevented his arrival.

Several outstanding youths participated in the program. Carla Wilke, Lynn County 4-H member, gave the invocation and Pam Trimble, 4-H member from Lubbock County, responded to a welcome by Lyle Robinson, manager of Swisher County Electric Cooperative, Tulla, Texas. Mr. Ed Wilkes, farm director of KFYO Radio in Lubbock, was master of ceremonies for the event.

At the conclusion of the two-hour ceremony, the audience

stood to honor the 4-H pledge led by Nancy Cook, Garza County 4-H member. For the honorees, it was perhaps fitting that they should reaffirm the pledge "To Make the Best Better," the motto that helped them achieve the Gold Star.

Jan Wilke and Richard Taber of Lynn County proudly display the highest county award in 4-H -- the Gold Star, which they received Monday night, November 20, in recognition of outstanding achievements. Personal development, leadership, demonstrations, and activities plus contributions to the overall county 4-H program are factors considered in selecting the winners. Jan is the daughter of Mr. and Mrs. Carlton Wilke of Wilson. Richard is the son of Mr. and Mrs. W. H. Cook of O'Donnell.

IMMUNIZATION CLINIC

An immunization clinic will be held this Friday at the Community Action Center 1517 S. 2nd Street, across the street south of the courthouse in Tahoka, from 1 to 4 p.m., Friday Dec. 1.

Everyone is invited to attend this clinic and get the shots they need.

Sheri Short Named FFA Sweetheart

Sheri Short, 17 year old senior at Tahoka High School was recently selected Sweetheart of the Mesa District of the Future Farmers of America.

In a meeting on Monday, November 27 at Lamesa's school cafeteria, some 80 FFA members from the district's schools selected Miss Short from a field of 17 candidates.

Delegates attending from Tahoka were Terry McCord, David Glenn, and Jack Williams, who escorted Miss Short. Also accompanying the delegation were Mr. and Mrs. Taylor Knight.

With this honor, Sheri will now move on to area competition. She is the daughter of Mr. and Mrs. H.L. Short.

Savings Bonds 67% Of Goal

United States Savings Bond sales in Lynn County totaled \$7,087 during the month of October. Sales for the ten-month period were \$87,584 which represents 67 percent of the 1972 goal for the county, according to County Bond Chairman F.B. Hegi.

October sales in Texas totaled \$17,851,277 compared to sales of \$15,480,457 during the same period of 1971 -- an increase of 15.3 percent. Ten-month sales totaled \$177,041,956 for 89.6 percent of the sales goal of \$197.5 million.

National sales of Series E and H Savings Bonds during the month were \$476 million 14.8 per cent above 1971 sales of \$407 million. Sales for the first ten months totaled \$5.2 billion for 98 percent of the 1972 sales goal of \$5.3 billion.

STATE CAPITAL Highlights AND Sidelights

by Bill Boykin
TEXAS PRESS ASSOCIATION

December 31 is the deadline for owners of advertising signs along major interstate, U.S. and state-numbered highways to apply for permits under the new Texas Highway Beautification Act. The act is designed to control all outdoor advertising signs along the right-of-way.

Signs that require that no sign can be erected within 600 feet of interstate or federal-aid primary highway without special \$25 outdoor advertising license. An additional \$5 permit is also required for signs.

Signs on premises signs -- those advertising activities on the land or offering the property for sale -- are exempt.

The law, passed and made effective last June 29 to avoid loss of federal road-building aid, will be implemented in stages.

License applications, first stage in the process, must be accompanied by a \$2,500 bond for each county in which signs are located up to a \$10,000 maximum for owners with signs in more than three counties.

Permits will be issued for signs in place prior to June 29 whether they conform to the law or not, and these will be allowed to stay in place until programmed for acquisition or removal. New signs must conform to the law before permits are issued.

The Highway Department also has begun removal of abandoned and illegal signs on controlled highways.

Those planning to erect new signs on controlled highways are advised to check with Highway Department district offices to determine if the location conforms to the law. Property owners have also been advised to contact the department's district offices concerning signs located on their land without permission.

LEGISLATORS BRIEFED -- State legislators received

briefings last week on three major issues to confront them in January.

A pre-session legislative conference at the Lyndon B. Johnson School of Public Affairs of the University System here provided details on:

Is on:
-- Need for judicial reorganization. The court system was termed a hodgepodge of independent operations with "nobody minding the whole store."

-- Federal revenue sharing and its impact on state and local finance. Legislators were advised Congress and taxpayers will be looking over their shoulders to see that new federal windfalls are wisely spent.

-- Property taxation and school finance. Major overhauls in the system of financing public education and in property tax administration are needed, tax authorities said.

AG OPINIONS -- A recent opinion by Atty. Gen. Crawford Martin warned that closed meetings of governmental agencies with attorneys and staffs can be held only for limited purposes.

Martin's opinion, requested by Beaumont Criminal District Attorney Tom Hanna, said agencies can meet privately with attorneys only to discuss pending or contemplated litigation. It concluded the agencies can meet with staff members, only to discuss matters of internal administration. Martin delivered a detailed interpretation of the state open meetings law in response to Hanna, who inquired whether county commissioners can meet in private to discuss legal matters with their attorney.

In other recent opinions, Martin found:
-- The state may sell or rent property bought in delinquent tax sales before expiration of the two-year redemption period.

-- A law making it a penal offense for any bond seller to

make a financial contribution to a State Board of Education candidate is unconstitutional.

-- Parks and Wildlife Commission has no authority to issue licenses for hunting from aircraft.

COURTS SPEAK -- Court of Criminal Appeals affirmed a 1,000-year sentence assessed a Dallas black for raping a white girl, overruling a defense complaint that no blacks were on the trial jury.

The State Supreme Court affirmed a Plainview jury and Amarillo Court of Civil Appeals finding that an insurance company owed damages for accepting health insurance premiums from an old couple without intending to pay claims.

A Tyler man lost an appeal to the Supreme Court in a suit for \$25,000 in insurance on his wife who died of gunshot wounds nine days after she applied for coverage.

The Supreme Court agreed Baytown Savings Association was entitled to a charter to do business.

CANDIDATES SPEND MIL - LIONS -- U.S. Sen. John Tower and Governor-elect Dolph Briscoe spent a record \$5 million in their campaigns.

Tower, best financed congressional candidate in the country, reported expenditures of \$2.5 million.

Briscoe reported he spent \$2.4 million.

Tower's Democratic opponent, Barefoot Sanders, said he spent \$625,574. Briscoe's Republican opponent, State Sen. Henry Grover, reported outlays of \$1.2 million.

Tower listed contributions of \$2,597,466 and debts of \$19,371. Briscoe itemized contributions of \$1,939,896, indicating he picked up a \$500,000 deficit.

NEW WELFARE ORDERED -- The State Board of Public Welfare ordered staff members to begin developing programs to comply with requirements of Social Security amendments. Amendments require the federal government to assume financial responsibility for aid to all adult categories of

welfare recipients on Jan. 1, 1974. The three adult categories now eligible for state welfare assistance are needy blind, needy aged and permanently and totally disabled. The state must establish a program for continuous review of welfare recipients hospitalized or in nursing homes or mental institutions. The Board also directed that persons moving into the state must live in Texas 90 days before they are eligible for assistance.

A Board legislative proposal would allow garnishment of wages in child support cases.

BENEFIT COMPLAINT LODGED -- The State Insurance Board heard a complaint that a federal law to boost workmen's compensation benefits for longshoremen and other harbor workers is unrealistic in defining workers covered.

A Houston insurance agent said the new higher premium rates for coverage would extend to all employees of a shipyard, including cafeteria workers, parking lot attendants and gate guards. The agent said an employer with a \$15 million annual payroll would have to spend \$1.5 million in workmen's compensation premiums. Benefits would scale from \$187 a week to \$267 in 1975.

SHORT SNORTS
State Insurance Board held a hearing Wednesday on changes in fire and homeowners insurance rates.

Mrs. Malcolm Milburn of Austin resigned as vice-chairman of the State Republican Party.

A bill providing for semi-monthly payment of state employees and a constitutional amendment to control proliferation of water districts have been pre-filed in the Senate.

Gov. Preston Smith approved a \$263,618 allocation of federal funds for Economic Opportunities Developments Corporation in Atascosa, Karnes and Wilson counties.

An application has been filed for a new state bank in Lancaster, Dallas County.

A new motion picture, "Sugarless Express," will be filmed in Texas starting January 8.

TO MEET NOVEMBER 21--The Board of Directors for the Education Service Center --Region XVII will meet Tuesday, November 21. Area businessmen and members of the Board, seated left to right, are R. B. Snell of Lamesa, secretary; Clint Walker of Tahoka, chairman; Bruce Rigler of Plainview, vice-chairman. Standing are Troy Armes of Littlefield; Owen Hamilton of Lubbock; Robert Work of Crosbyton; Wayne Finnell of Lubbock.

How to Have a Safer Christmas

When we think of Christmas time, all the joys of the season come to mind: the sharing of gifts, excitement of children, and the beauty of a brightly-ornamented tree.

Many families, however, have somewhat grimmer Christmas memories--brought on by just one unsafe act which caused a needless, tragic accident.

To help you have a safe Christmas season, Underwriters' Laboratories -- a not-for-profit organization testing for public safety -- offers the following tips:

- ★ DISCONNECT LIGHT STRINGS WHEN WORKING WITH THEM. Additionally, never try to stretch the strings or extension wiring. Only use extensions or string lights outside if the label so specifies.
- ★ NEVER OVERLOAD CIRCUITS. By placing more current on a wire than it can handle, you run the risk of overheating and possibly causing a fire. Look for the capability of the wiring.
- ★ WATCH PLACEMENT OF ELECTRICAL FIXTURES. Keep them out of children's reach, and never place them close to flammable material.
- ★ INSPECT ALL WIRING. Watch for insulation deterioration, especially if you've stored the wiring for a long period. Buy only UL-labeled string lights and cords.
- ★ CHECK ALL LIGHTS CAREFULLY. Make certain bulbs are not loose in their sockets. Use rubber light socket gaskets, and replace if needed. Use lights only on UL-listed artificial trees to minimize chances of fire.
- By following these safety tips, you can assure your family a truly merry Christmas.

Mr. and Mrs. Abe Turner and children, Mrs. Mary Turner all of Haskell and Mr. and Mrs. Jimmy Turner and sons of Stamford visited their sister and family, Mr. and Mrs. Wes Owen and children. Also visiting in the Owen home Thanksgiving were Betty Owen and Paul and Jane Graham from Texas Tech University.

As discussions of a cotton program for 1974 begin to proliferate on the High Plains and across the belt, two things dominate conversation.

First, growers prefer an extension of the present direct payment, set-aside program to any alternative yet proffered provided it can be continued with a payment rate and a payment limitation high enough to make it a workable program. On this proviso there is full recognition of the difficulties involved with an urban-minded Congress. But there is no inclination to abandon the attempt. The Administration continues to profess its support for the set-aside approach, and literally no one believes a farm program can be passed without Administration support.

Second, there is an increasing realization in the industry, especially in the producer segment, that the current inventory management system is working poorly and will continue to work poorly until revised or replaced. And it is thought this will hold true whether the new program follows the set-aside approach or veers in some other direction.

Under the present system when cotton production exceeds annual domestic and export demand the excess is acquired and controlled by Commodity Credit Corporation, an agency of the Federal Government.

"This leaves inventory management policies subject to political pressures that often take precedence over economic reality," says Donald Johnson, Executive Vice President of Plains Cotton Growers, Inc., "and so long as this is the case there is no reason to believe that a slight oversupply, or even an adequate supply, will not exert an unwarranted amount of

downward pressure on producer prices in the future as it has in the past."

Johnson pointed to events of the past 17 months as evidence that the present system is not working for the benefit of the industry. During this period there has been only about a 10 percent change in the cotton supply situation, he noted, and that small change has resulted in a 58 percent increase and a 30 percent decrease in prices.

Recently an editorial in a national farm magazine stated "To make a profit in any business under our private enterprise system, you must manage the supply." And it went on to say "Eventually growers of a commodity must manage its supply if it is to be managed."

More and more cotton producers are recognizing the truth of these thoughts, and a greater-than-ever-before effort will be made in 1973 to discover some mechanism whereby the management of cotton inventories can be moved from government hands to the hands of an entity designed to accomplish industry objectives.

The two principal objectives, both of which are urgent and neither of which can be achieved without the other, are (1) greater and more consistent returns for growers from the marketplace and (2) continuously adequate and balanced supplies of cotton fiber for mill customers.

A number of suggestions for a means to producer or industry control of cotton inventories are being explored. Unfortunately none, to date, appears to be the ultimate answer.

But there is full recognition of the need. And that in itself is encouraging.

W T S U Carol Of Lights - - -

Students at West Texas State University are getting a jump on the Christmas season as they prepare for the annual Carol of Lights Dec. 3. Five campus buildings will be lighted by about 10,000 bulbs strung on 17,000 feet of wire. Working on the project are (from left) Ron Chennault, Canyon; Lantle Robinson, Seminole; Pat Steinkoenig, Borger; Vicki Foster, Amarillo; Kit Jackson, Fritch; Frank Lopez, Wilson; Kelly Cannon (with glasses), Hale Center; and Shirley Autry, Odessa. Ed Cullum, Dallas, is on the ladder.

W T S U Decking The Halls

Although Christmas is still a month away, the West Texas State University Student Activities Council is "decking the halls" with strings of lights -- about 10,000 in all that will come ablaze Dec. 3.

The Carol of Lights, now in its third year, has been in preparation at WTSU since early October. More than 17,000 feet of wire have been put up around five campus buildings to be decked in red, yellow and white light bulbs.

Buildings to be lighted include the Old Administration, Library and Science, University Complex South and new Administration.

The phantasmagoria of light

and color will be switched on at 8 p.m. in ceremonies that will be highlighted by the singing of Christmas carols.

Participating in the event will be Phi Mu Alpha Sinfonia glee club and the WTSU band. Refreshments will be served.

All the work that goes into the project is well worth the effort, says Steve Hill of Brownfield, Carol of Lights committee member.

"We want to promote the Christmas spirit, especially for those away from home," he says. "Christmas is sort of a magic season

and we think the lights help usher in the season of Christ's birth -- and that, really, is a good reflection on the school."

Alta Hale and Terry Guntter spent the Thanksgiving holidays with Mr. and Mrs. Tom W. Hale. After visiting with some of Terry's relatives also they returned to West Texas State University on Sunday afternoon.

Linda Huffaker Says . . .

It's about time consumers realize some of their worst enemies are fellow consumers.

Thoughtlessness and deceitfulness in some consumers' increase costs for all of us.

Citing information from the American Association of University Women (AAUW) and the "Texas Methodist," there are cases in which consumers themselves have raised prices.

-- Shoplifting, which is increasing at a rate of 20 percent each year -- robs every American family of about \$30 per year. In dollars, shoplifting total more than \$3.5 billion a year -- more than \$8 million a day.

Retail merchants estimate that prices of goods today are 15 percent higher than they'd be if no shoplifting problem existed. To make up for theft of a \$15 item, \$1,000 worth of goods would have to be sold to cover the loss in net profit.

-- Passing bad checks has discouraged retailers from cashing checks or has encouraged them to charge for the service.

-- Hospital patients who falsify addresses in order to avoid bills have increased rates for everyone.

-- On per cent of all credit card transactions result in charge -- offs, which means accounts that won't be paid. To blame are people who charge more than they can afford, and lost or stolen credit cards.

-- Long distance telephone frauds totaled \$21 million in a recent year; however, company policy is resulting in many convictions, which may lessen the practice.

-- Ten percent of all airplane reservations result in "no -- shows." Students, businessmen and even leading politicians are among these to blame.

-- Rough handling of displays and perishables in grocery stores adds about one percent to the cost of retail food operations.

Children can throw tantrums that'll raise the hair right straight up - but they don't compare with the tantrums their parents sometime throw - an act modestly called blowing off steam.

It would be interesting to know what the children of today think of the maturity of their elders.

Four Tahoka High School students will compete in the Texas Interscholastic League Meet in Austin this week end in the class A State contest.

They are Denver Ford, James Adams, Carolyn Duckett, and Betsy Rowe. Accompanying them are Coach Bill Haralson and Benny Thorp, high school teacher.

James Adams will compete in the state number sense contest, Carolyn Duckett in ready writing, and Betsy Rowe in shorthand.

Denver Ford is the only entrant from Tahoka eligible for the State track and field meet. He runs the mile, has a best mark of 4 minutes 42.3 seconds, and his toughest competition could be Byerly from Coleman, who nosed him out in the Red Raider Relays last week. The race was won by Gonzales of El Paso in a hair-line finish over Cunningham of Littlefield in 4:27.2. Both these boys are in Class AA.

Gary Watson, a student in San Angelo Junior College, recently has won two honors as a student in journalism there. He won a second place in advertising at the Texas Interscholastic Press Association meeting in Odessa April 26 and 27, to which he was a delegate, and also placed first in a Texas Division contest.

Gary, a 1955 graduate of Tahoka High School, will graduate from San Angelo College this spring. He is the son of Mr. and Mrs. C. G. Watson of Redwine.

Miss Carol Jean Allen will be presented by William A. Murphy in a piano recital Sunday afternoon at 3:00 in Fellowship Hall of the First Baptist Church here.

Mrs. Allen is the 13 year old daughter of Mr. and Mrs.

Clyde F. Allen of Rt. 1, Tahoka. She is a pianist of three Sunday School classes of the Baptist Church here, as well as being accompanist for the grade school choir, and a member of the varsity band.

She has won high honors in the National Piano auditions the past three years. Everyone is invited to attend the recital.

The largest Mother-Daughter FHA banquet ever held here in the school cafeteria Tuesday night was attended by a total of 140 mothers and FHA members when Chapter Degrees were awarded.

Mrs. John Roberts, local teacher, spoke to the group on the Christian home. Marilyn Carmack, high school student, gave a devotional entitled "Serving the Lord in the Home, Community and School."

Carolyn Duckett sang "Perfect Day" accompanied by Jan Collier. Both are also high school students.

A total of 13 chapter degrees were presented members of the FHA, the largest group ever to receive the degrees in one year. Requirements to receive the degrees were also higher than ever before.

Those who receive the degrees along with a long-stemmed red rose, the State FHA flower, and a gift of a China cup and saucer, included: Carol Riddle, Linda Jones, Edwina Overstreet, Virginia Willhott, Patsy Stanley, Patsy Norman, Beverly Norman, Janie Ware, Marie Potts, Margaret Maret, Gwendolyn Austin, Jolene Sikes, and Hazel Bean.

These girls have shown outstanding ability and leadership in FHA work having participated in money-making projects, community and National projects, helped promote better understanding and relations in the home, school and community, as well as to prove capable as future home-makers.

Mrs. Pete Hegl is sponsor of the local FHA chapter. The chapter fathers and several FFA boys served the meal, including the hot rolls made by the freshman girls.

New members of the Na-

tional Honor Society in Tahoka High School have been announced after being selected for the honor by the faculty of the school. Selections were made on the basis of scholarship, character, leadership and service.

The 12 students chosen for membership in the organization include Betty Vaughn, Denver Ford, Betsy Adams, Linda Jones, La Rhea Greathouse, Jan Thomas, Weldon Calloway, Carol Smith, Terry Spears, Larry Forsythe, Jerry Bragg and George Adams.

Hold over members are Marilyn Carmack, James Adams, Mary Helen Whitaker, Idalla Wood, David Bray, Benny Martin, Virginia Willhott and John Hegl.

Officers for next year will be elected next fall, school officials announce.

Mrs. C. A. Thomas and her cousin, Mrs. W. J. Pennington, of Erick, Okla. left yesterday for a month's vacation, which will include 10 days in Hawaii.

The ladies will leave San Angelo today by train for San Francisco. They will go by boat to Honolulu, where they will stay in the Royal Hawaiian Hotel. Trips by plane are also planned to nearby island.

They are joining the Trimble Travel Tour for the trip, the same group with which Mrs. Thomas, Mrs. Pearl Calloway of Abilene and Susan Thomas went to Alaska with last year.

Mrs. Eddie Lois Whitfield has been selected as a primary teacher in the Lubbock Public Schools for next year.

She will graduate from Texas Tech in August with a B.S. degree in elementary education. Her husband is associated with her father in the Hamilton Auto & Appliance store here.

Mrs. Truett Smith and Mrs. Skiles Thomas have this week been attending the State Convention of Federated Women's Clubs in Waco.

The Phebe K. Warner Study Club here, which is a federated club, they left Tahoka Monday and were expected to return Thursday.

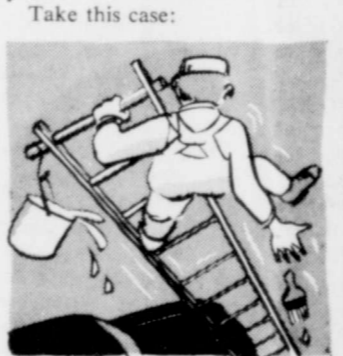

Roy Gene Sherrad has recently become a radio operator with the Texas State Highway Department, moving from a similar job he held in South Texas.

Repairman vs. Homeowner

Homeowners with grievances against repairmen are no novelty. But repairmen too have their grievances. If a plumber or a roofer or an electrician suffers an injury while working on your premises, you may well be held responsible in court.

In the lexicon of the law, a repairman is classified as a "business visitor." This means you owe a high degree of care for his safety. If he trips on a broken step or slips on a greasy floor, the fault--and the cost--is usually yours.

An absent-minded homeowner, backing his car out of the garage, knocked the ladder out from under a painter working on his shingles. When the painter filed suit for damages, the court ordered the homeowner to pay up. This was no way, said the court, to treat a business visitor.

It is also true, of course, that the repairman himself has duties with regard to his safety. In particular, he should be alert to the kind of dangers that are common in his line of work.

A plasterer hired to patch a kitchen ceiling, had just gotten started when a chunk of plaster came crashing down on his head. He too tried to collect from the homeowner. But the court said this was the kind of danger a plasterer is supposed to foresee and avoid.

A similar ruling denied damages to a tree surgeon, injured when a dead limb collapsed beneath his weight.

A repairman may also be held to have "assumed the risk" of an accident if he uses your premises in an unauthorized manner. For example:

A painter, refinishing a house, hung his scaffolding from a gutter--without checking with the owner. While he was at work, the gutter suddenly pulled away from the wall, causing him to plunge to the ground.

But when the painter filed suit for damages, the court decided he had no claim. The judge said that by choosing such an unorthodox means of suspension, he had also chosen the risks that went with it.

Make the right turn for your community

What you do determines what we do. If you shop at home you guarantee community growth and prosperity.

If you discount our community and shop out-of-town our community loses its value. If a store closes or a member of our business community quits and moves out of town, we should ask ourselves, "Did he lose his business because he lost ours?"

Show hometown loyalty. Do a right turn for the people who support you. Shop at home.

Stalk Destruction Deadline Nears... Boll Weevil Suppression Program Popular and Successful... 4.5 Million Market News Bulletins... Turkey Promotion Year Round

Cotton producers in 44 north central and east Texas counties are reminded that Nov. 30 is the deadline for cotton stalk destruction. No area extensions are expected to be made. Individual extensions may be granted, but requests for those will have to be made by contacting Texas Department of Agriculture at Austin.

Cotton stalk destruction reduces the number of pink bollworms that enter hibernation next year as well as reducing infestations of other cotton insects.

THE STATE'S boll weevil suppression program for this year has been as popular as it was successful. A total of \$300,000 was allocated for the program this year which is matched on a half-and-half basis by producers. About 450,000 acres were included in the program which is aimed at reducing next year's weevil populations.

Records show there was a greater infestation of weevils this year than in any season since the program began in 1965. Farmers in 11 counties participated in the diapause program for the 1972 season.

Funds for the program are limited although it is expected that more requests for assistance will be forthcoming from cotton producers in 1973.

ABOUT 4.5 million market news bulletins will have been mailed to Texas agricultural producers by the end of this year from the Texas Department of Agriculture's market news service.

They will be mailed to about 85,000 Texans. The market news service contacts about 1,200 people each week in collecting its market news reports.

Items ranging from daisies to ornamental crops to molasses to livestock and crop reports are covered in the market news reports.

The livestock market news apparently is the most popular. It is an eight-page publication and includes 16 state livestock markets plus grain markets from five areas. It goes to 77,000 people each week.

The poultry and egg report is also popular. It is mailed to 1,800 egg producers and egg industry people.

One of the most popular reports right now is the pecan market. Other market reports include watermelons, rice, ornamental crops, and vegetable and fruit market reports from Hereford, Dallas, and Weslaco.

You can also get instant market news by calling these numbers:

- Austin-pecans, poultry and eggs: 1-512-475-3845.
- Amarillo-livestock: 1-806-372-3494.

PROMOTION of turkeys will continue through the year through the cooperation of the state's turkey producers and the Texas Agricultural Products program. Texas is the fifth leading state in the nation in total turkey production. Turkeys grown in the state totaled more than 8 million head.

The Central Texas area is the state's major turkey producing region. Bell County is the top turkey producing county in the state. Hill, McLennan, Falls, and Robertson counties are also in the top 10. Total production of those counties accounts for almost 40 percent of all turkeys produced in Texas.

BILL GRIFFIN SAYS

New lighting and brake requirements for cotton trailers have been enacted by the special session of the Texas Legislature, replacing a law passed in August, 1971.

An analysis by the Department of Public Safety lists the following specific provisions for cotton trailers:

- Trailers under 15,000 pounds gross weight when operated during the daytime with

- visibility more than 1,000 feet;
- Trailers less than 80 inches in width and under 30 feet in length:
 - two red reflectors, one on each side of the rear.
- Trailers less than 80 inches in width and more than 30 feet in length:
 - one amber reflector on each side centrally located on trailer body
 - two red reflectors, one on

- each side of the rear.
- Trailers more than 80 inches in width and under 30 feet in length:
 - two amber reflectors, one on each side near the front.
 - two red reflectors, one on each side near the rear.
 - two red reflectors, one on each side of the rear.
- Trailers more than 80 inches in width and more than 30 feet in length:
 - two amber reflectors, one on each side near the front.
 - one amber reflector on each side centrally located

- on the trailer body.
- two red reflectors, one on each side near the rear.
- two red reflectors, one on each side of the rear.

Trailers that are operated at night and when visibility is less than 1,000 feet are required to have the following electric lights and reflectors:

- Trailers more than 80 inches in width and under 30 feet in length:

- two amber clearance lamps on front, one on each side

- near corner.
- two amber side marker lamps, one on each side near front.

- two amber reflectors, one on each side near front.

- two red side marker lamps, one on each side near rear.

- two red stop lights, one on each side on the rear.
- two red tail lamps, one on each side on the rear.
- two red reflectors, one on each side on the rear.

- one white lamp on rear to illuminate license plate.
- electric turn signal lamps on rear.

- two red or amber flashing hazard warning lamps, one on each side on rear.

- Trailers more than 80 inches in width and more than 30 feet in length:

- all lamps described for shorter trailer plus:

- one amber reflector on each side centrally located on trailer body.
- one amber side marker lamp on each side centrally located on trailer body.

(A combination lamp will fulfill several lighting requirements. For example, one lighting unit is available to fit on the corners of the trailer body which furnishes front and side clearance and marker lamps.

The requirement for the three identification lamps was eliminated from the law.

Brakes are not required on trailers up to 15,000 pounds gross weight when operated under 30 miles per hour. The combination of trailers and towing vehicle must be capable of stopping within 50 feet when traveling 20 miles per hour. Slow Moving Vehicle emblems are required only on trailers towed by vehicles which by design go slower than 25 miles per hour (trailers towed by pickup trucks would not require the SMV emblem; those towed by tractors would have to have the SMV sign.

Trailers weighing over 15,000 pounds gross weight require brakes on all wheels. Trailer owners are urged

DR. BOB BERRY
LION SPEAKER

Dr. Berry Is Lion Speaker

Dr. Bob Berry, Plant Pathologist with the A&M Extension Service from Lubbock was guest speaker at Lions last week. Dr. Berry covers the territory from San Angelo West and North and that includes about 82 counties. Berry's work primarily extends through the crop ranges

but his office does handle some disease of ornamental plants too.

The program dealt primarily with diseases of cotton and milo, things that are common in this area.

The speaker was introduced by County Agent Bill Griffin.

to check their vehicles, installing new equipment if necessary in order to conform to the 1972 law. For information about the new enactment, trailer owners can contact the nearest Department of Public Safety Office.

Some 60,000 Texas farmers and ranchers will receive a crop or livestock questionnaire during the last half of November or December.

This roundup survey of agricultural crop production and livestock numbers is made annually by the Texas Crop and Livestock Reporting Service. The Texas Department of Agriculture and the Statistical Reporting Service, U.S. Department of Agriculture, are joined together to provide a continuing program of information on Texas agriculture.

Texas has 254 counties, and producers are selected in the samples proportional to size

of operation. The small producer sampled represents many others of comparable size while the very largest producers may represent only themselves. Therefore, it is equally important for all farmers and ranchers receiving questionnaires to return it promptly. The individual report is confidential - available to no other Government agency or anyone except the few persons processing the data. The county and State estimates published are available for everyone at the same time.

Lubbock Salesman Shotgun Winner

Bob Cain, a paint salesman for Jones Blair Paint company was the winner of the

Lions Club shotgun drawn for during the Lions Club Pancake Supper November 10. Cain was on hand for the presentation at Lions last week.

The winning ticket was sold by Ed Williams who turned the bonus back to the Lions

earmarked for Girls Town. The proceeds from the shotgun drawing went to Girls Town near Whiteface.

A congregation of Lions and Lionesses traveled to Girls Town last Monday night to present the girls with a cash Christmas present. At present there are seventy girls residing at the Hockley County facility.

Wins Shotgun

Bob Cain of Lubbock was the winner of the Lions Club shotgun drawing held at the Pancake Supper Nov. 10. Proceeds from the shotgun raffle went to Girls Town. Shown with Cain is Harry Short, chairman of the Shotgun for Girls Town project.

Winners Named In Poster Contest

The names of the winners of the Lynn County Soil and Water Conservation Districts 1972 poster contest are announced by Lit H. Moore, Jr. The winners by rooms are listed below.

A. Mrs. Martha Davis' room.

1. Tommy Ray
2. Elma Anlu
3. Sylvia Tejada

B. Mrs. Peggy Atwell's room.

1. Jeanie Isbell
2. Don Porterfield
3. Brad White

C. Mrs. Shirley Holloway's room.

1. Ronnie Craig

2. Alma Hallmark

3. Pam Witt

D. Mrs. Debbie Burn's room.

1. Mary Ann Owens
2. Diana Calvillo
3. Ralph Huffaker.

The posters were judged and ribbons were awarded last week, Moore announced.

The poster contest was part of a teaching unit that the district directors worked with the teachers to give the fifth graders a few facts about the use and preservation of the soil, water, plants and animals that man must live with and manage, Moore pointed out.

The district directors provided the following book teaching aids:

1. Working Together Livable Land.
 2. Making a Home for Life on the Land.
 3. The Wonder of Plants and How they grow.
 4. Plants and How they prove our Environment.
 5. The Story of Land.
- We, the directors, express our appreciation to the grade teachers for their interest and work to make our first attempt to get a conservation of our natural resources a part of the plans a great success, out their help and in this couldn't have been accomplished, Moore stated.

To each fifth grader comment you on the paper that you prepared. All not get a ribbon; however, all won; because you learned many things about soil, plants, animals, wildlife, total environment and lution, Moore explained.

*Figures in this table are based on annual performance averages of funds listed in the Management Report section of Wiesenberger's Investment Company, except for the categories of bond and preferred stock funds, tax-free exchange funds and international funds. Annual average performance was derived by adding each fund's performance and dividing by the number of funds. New funds were added as they appeared in the Wiesenberger volumes which were used. In 1950, 1961 and 1970, for example, the number of funds was 40, 145 and 307, respectively. Investment results assume initial investment of \$9,150 following deduction of sales charge of 5% percent and subsequent reinvestment of dividends and capital gains.

The Record

\$10,000 to \$94,008.

The table illustrates how an investment of \$10,000 in 1950 would have fared, year by year, measured by the average performance of mutual funds. It shows that by the end of 1971 it would have grown to \$94,008 for a net gain of \$84,008.

The same \$10,000 at 5% interest compounded annually would have produced a guaranteed net gain of \$19,256 over the same period.

©INVESTMENT COMPANY INSTITUTE, 1972

The table also indicates the extent to which mutual fund investments can fluctuate with conditions in the investment markets. It shows how, in the "down" years, such as in 1969 and 1970, the short-term investor's shares could have lost value. But over the long term, the number of "up" years exceeded "down" years by nearly three to one, and gains far outpaced losses. Of course, the record of any individual fund varies with its investment objectives and performance.

The figures demonstrate the advantages of long-term thinking and long-term investing for those now planning for the future. While past performance is no guarantee of the future, the record of the fund industry over the last two decades should be an important factor in the investment decision of any potential investor.

Mutual funds are for people with faith in the future.

TURN ABOUT

Folks used to wonder what Grandpa Brown and I had in common. He must have been close to eighty when I was just a kid. But I remember him as one of the best friends I ever had.

He was a wonderful old man, with a simple, native wisdom. We used to go fishing together, and he would talk to me about God and Faith and Love. I remember he said people shouldn't wait until they're in trouble before going to Church. "When you're happy," he told me, "take time out to offer a prayer of thanks."

The Church had acted as a balance for him during good times, and a bulwark during bad times.

Down through the centuries the Church has made great Christians out of unassuming people. They in turn have transmitted the blessings of the Church to oncoming generations. I hope I can bring Grandpa Brown's faith and wisdom to others, as I was impressed by him.
