

Author McMillan Dies February 6

Services for Author McMillan, 89, of Route 1, O'Donnell, were held at 2:30 p.m. Thursday in the Sweet Street Baptist Church in Tahoka, with the Rev. Dan Rupp, pastor, officiating.

Burial was in the Tahoka Cemetery with White Funeral Home in charge.

McMillan died at 9:35 p.m. Tuesday night in Medical Arts Hospital in Lamesa after a long illness.

McMillan was born July 22, 1883 in Eastland County where he attended school. He was married to the former Miss Callie Belle Stone Jan. 16, 1909 at Desdemona. He moved to Lynn County in 1923 from Eastland County and farmed until his retirement. A Baptist, he was a member of the Masonic Lodge and Odd-fellows.

Survivors include his wife, Callie, eight daughters, Mrs. For Todd of Rt. 4, Tahoka, Mrs. R.C. Webb of Hillsboro, Mrs. Guy Evans of Tyler, Mrs. Fred Pendleton of Sem-

inole, Mrs. Leonard Renfro and Mrs. Paul Renfro, both of Andrews, Mrs. David Massey of Rt. 1, O'Donnell and Mill Iline McMillan of O'Donnell three sons, P.D. of Rt. 4, Tahoka, John of Konawa, Okla., two brothers, Luther McMillan of Stephenville, and J.H. McMillan of Lubbock; 21 grandchildren; 17 great-grandchildren; and a great-great-grandchild.

Grandsons served as pallbearers.

Tahoka Volunteer Fire Dept. Receives Check

The Tahoka Volunteer Fire Department received a check for \$75.00 recently from Texas Farm Bureau Insurance Companies as an expression of thanks for the Department's work on the property of Bryan Wright, Tahoka, Texas. The money will be used for their purchase of equipment.

The Texas Farm Bureau Insurance Companies pay volunteer fire departments this amount when the department works at a fire in rural areas, involving property insured by them.

The Insurance Company believes volunteer fire departments have contributed to reduce the amount of loss involved by fire and more important, to prevent fires. It is their hope this money will help the Tahoka Volunteer Fire Department in their program.

Annual Report Available On ACS

Dr. David Midkiff of the Lynn announced today that the American Cancer Society nationally produced eighty dollars this past fiscal year with Texas providing over three million of the amount.

"This money is one way of showing the emphasis now being placed on cancer control. New programs are continuously emerging to help save over half the lives we are now losing from cancer," Midkiff said.

According to the 1972 Annual Report of the American Cancer Society, Texas Division, now available to the public, the Cancer Society has four main program areas: Professional Education, Public Education, Service-Rehabilitation and Research.

Professional Education provides up-to-date information on cancer diagnosis and treatment to the medical and allied health professions. The past fiscal year, these programs reached over 58,000 physicians, dentists and nurses. Also 19 clinics and 21 conferences were supported by the American Cancer Society in Texas.

Public Education helps save lives by increasing public awareness and knowledge about cancer prompting early diagnosis and treatment of the disease. This year, an audience of 1,575,731 individuals viewed ACS educational films and heard physician and lay speakers speak on cancer education.

The Service-Rehabilitation program seeks to save lives, to ease the pains and lighten the many burdens the disease

places on its victims and their families. This year, the total number receiving ACS Service in Texas was 16,216 Texans.

The average cost per patient serviced was \$180. For example, "The Reach to Recovery" program for mastectomy patients served 595 mastectomees. This is a new program which is now being organized in Lynn County area. Another example, 230 laryngectomees were given free esophageal speech lessons by the Society.

Research is the final phase of the ACS activity which enhances the possibility of finding those answers that will be useful to humanity for control of cancer. During 1972, grants in Texas included: 17 National fellowships, 26 research grants and eight Texas Division fellowships. The total of these grants exceeded \$1,300,000. For every dollar raised in Texas, 36 cents goes for research. "One further fact here," stated the local president, "For every dollar raised in the State of Texas, the Cancer Society spends \$1.04. The additional four cents comes to Texas from research grants made by the National Society."

Midkiff concluded, "Fighting cancer is a responsibility and a challenge. Every man, woman and child in our community has a stake in the outcome and each has a responsibility to participate in it. The American Cancer Society provides the opportunity."

JOSE SALINAS . . .

Jose Salinas In Inagural Parade

Marine Corporal Jose H. Salinas, son of Mr. and Mrs. Marcial G. Salinas of Tahoka, Tex., marched down Pennsylvania Avenue during the Presidential Inaugural Parade in Washington, D.C.

He was a member of a 160 man contingent from the Marine Barracks in the Nation's Capital.

Palmer Infant Services Held

Services for Christopher Lee Palmer, son of Mr. and Mrs. Charles Palmer of Seagraves, were held at 2:30 p.m. Friday in Webb Funeral Home Chapel.

The Rev. James Brown, pastor of Trinity Baptist Church, officiated. Burial was in the Seagraves Cemetery.

The infant died at birth Wednesday in a Seagraves hospital.

Survivors aside from the parents, include the grandparents, Mr. and Mrs. R.V. Long of Tahoka and Mr. and Mrs. John N. Reagan of O'Donnell. Mrs. Palmer is the former Betty Long, a former resident of Tahoka.

Rites Held For Jack Stevens

Larry Jack Stevens, 32, of Lubbock was gunned down in a shooting out on a sidewalk in Lubbock. He was a detective with the Lubbock Police Department and was killed while attempting to question James Emanuel, when the shooting occurred.

Emanuel was wounded in the exchange of gunfire and was in fair condition. He has been charged with murder with malice in Steven's death.

On Aug. 29, 1954, a teenager, Jack had accompanied his father, Curtis Stevens, then of Tahoka and now a Seminole resident, and his uncle, W.F. Henderson, a Lynn County deputy, to question the occupants of a car seen leaving Slaton.

As Stevens' uncle was questioning one of the men, an argument erupted. A man scuffled with Henderson, grabbed the deputy's gun, and shot him through the head. Stevens and his father, fled to a nearby building and escaped unhurt, although one bullet passed near them, Stevens' father later told authorities.

The man fled in the deputy's car, and was found less than an hour later, dead of a self-inflicted gunshot wound.

Stevens joined the Lubbock Police Dept. in 1964, along with his older brother, Jerry Mack who is a sergeant in charge of the police tactical unit. Stevens attended school in Tahoka.

Services for Stevens were held at 2 p.m. Monday in the Broadway Church of Christ with Garnie Atkisson, minister of the Northside Church of Christ, officiating. Burial was in the Peaceful Garden Cemetery.

Survivors include his wife, Francis; a son, Mark, 8; two daughters, Shelley, 7; and Andrea, 5; his parents, Mr. and Mrs. Curtis W. Stevens of Seminole and one brother, Jerry Stevens of Lubbock.

Pallbearers were Doyle

Nelson, Wallace Stalcup, Buford Kerr, Bill Rutherford, Ronnie Jones, John Martin, Harlan Reddell and Milton Pannell. Members of the Lubbock Police Department were Honorary Pallbearers.

Switching to tires with a larger circumference, such as snow tires, may cause you to get a false speed reading, on the low side. A car with fatter tires travels farther with each revolution of the wheels. If your speedometer indicates you are doing just the legal limit and you're still passing everyone on the road, have it checked -- before the police check it for you.

It'll cost you more than ever to grow a crop this year.

It'll be as easy as ever to lose the whole bundle.

The cost of everything you buy to make a crop has climbed sharply.

You're investing more hard cash than ever. Many growers spend double what they did 10 years ago... on chemicals and fertilizer, seed, tractor fuel, hired labor, taxes... etc.

You'll probably borrow money from the bank (or out of the kid's college fund, or your own retirement nest egg) to produce your crop.

Are you prepared to stand the loss of this money -- in case some disease comes along or there's a freezeout... or a plague of bugs? Or you name it?

There could be some lean years if you're wiped out now.

The financial side of farming has changed. Perhaps it's time you re-thought your need for Federal Crop Insurance -- which has made some changes, too, in keeping with the times.

This may be the year to listen closely when the FCIC man comes around.

Only ALL-RISK Federal Crop Insurance GUARANTEES you'll get your money back... whatever happens.

SOIL CONSERVATION NEWS

BY RICHARD L. CHRISTIE

The First National Bank of Outague is promoting the conservation of wildlife in their area. It is mainly in the form of commercial hunting leases for Auodad sheep on the land of local land owners. These treasured hunting permits bring money into the local economy. This rare animal were introduced into this area of Texas from outside the United States. The area previously had little or no wildlife appeal to outside the local area.

"From a total of 44 Auodad sheep that were released in 1957 and early 1958, the numbers have grown to perhaps 1,000 head. Almost 900 sheep were sighted by hunters last November, and they now range along the scenic Caprock from

Claude on the north to Crosbyton on the south, with the heaviest population centering in Briscoe County. A mature sheep can leap upward 2 1/2 times its length. The sheep prefer rugged terrain, country with sheer cliffs, and steep talus slopes. They browse and feed predominantly on shinier oak, common mesquite and mountain mahogany. During the 1970 hunt rumen contents of the sheep showed that over 91 percent was comprised of leaves of shinier oak. Hunters from all over the United States converge on this area each year, and the present 153 permits does not begin to satisfy the demand. The going rate for permits is \$250 - \$350. The combination of the elusive sheep and the rugged terrain appeals to the type of hunter who is not interested in coming by his trophy the easy way. It is believed the Auodad hunt will continue to grow, both in appeal and in national scope."

This increase in income to the area could be realized in many areas of Texas. It could bring income into the sandy land areas of the Southern High Plains. This could be done by proper man-

agement of land in Lynn, Terry Counties Soil Conservation Districts. The White-wing Pheasants could hold a potential for these areas to improve the economy.

Patti Nettles Betty Crocker Homemaker

New Home High School's 1973 Betty Crocker Homemaker of Tomorrow is Patti Nettles. Selected by score in a written knowledge and attitude examination taken by both senior boys and girls on Dec. 5, Patti will receive a specially designed award from General Mills, sponsor of the annual Betty Crocker Search for American Homemakers of Tomorrow. In addition, Patti remains eligible for state and national honors.

The State Homemaker of Tomorrow, to be chosen from all school winners in the state in judging centering on performance in the Dec. 5 test, will receive a \$1,500 college scholarship. A 20-volume reference work, "The Annals of America," will also be presented to the state winner's school by Encyclopaedia Britannica Educational Corporation. The second-ranking student in the state will receive a \$500 scholarship.

In late April, the 51 Betty Crocker Homemakers of Tomorrow representing every state and the District of Columbia -- each accompanied by a faculty adviser -- will gather in Washington, D.C., for an expense-paid tour of the capital city and Colonial Williamsburg, Va. Culminating the tour will be announcement of the 1973 Betty Crocker All-American Homemaker of Tomorrow and three runners-up.

To be selected through personal observation and interviews during the tour plus state-level judging results, they will be awarded increases in their scholarships to \$5,000, \$4,000, \$3,000 and \$2,000.

Instituted in last year's Betty Crocker Search, a \$1,000 Nutrition Scholarship is included in the program again this year. Recipient of this

grant will be the participating student who is planning a college major in nutrition or a related field, ranks among the highest in his or her state on the overall examination and, from those meeting these two criteria, achieves the top score on the test's nutrition questions.

A total of 665,600 seniors were enrolled in this year's Search, the first in which boys were eligible to participate. Since the program began in the 1954-55 school year, approximately nine million students have taken part and, with this year's grants, scholarship awards will exceed \$2 million.

Elizabeth Gomez Buried Monday

Mrs. Elizabeth Gomez, 58, of O'Donnell died at 2 p.m. Friday in Medical Arts Hospital in Lamesa after an apparent heart attack.

Funeral services were held at 2 p.m. Monday in the Tahoka Baptist Mission with the Rev. A.C. Costillo, pastor, officiating. Burial was in the Tahoka Cemetery directed by White Funeral Home.

Mrs. Gomez was born August 24, 1914 in Kennedy. She was a member of the Baptist Church and a resident of O'Donnell a number of years. She was preceded in death by her husband, Felipe Gomez in 1961.

Survivors include a son, Jacob Gomez of O'Donnell; four daughters, Mrs. Simmona Sanchez of Lubbock, Mrs. Ameliza Lee of Alice, Mrs. Josie Zamora of O'Donnell and Maria Gomez of the home; four sisters, a brother and seven grandchildren.

Nursing Home News

Once more here we come with the happenings from Colonial Nursing home.

Valea Burks returned home after spending the week end at Littlefield with her parents. We didn't enjoy the snow. But it does put moisture in the ground for another year.

Mrs. Harter is home from the hospital and seems to be doing ok. Everyone seems to be feeling ok.

Quite a few people have visited their family who live here.

Thanks to the 1973 Senior Class for the box of sandwiches brought to the home by J.A. Pebsworth. Everyone enjoyed them.

Mrs. Mary Price brought her 3 children down Saturday for us to meet.

Earline Cargill and sister, and their friend visited a while Tuesday. It was good to see Earline.

Maryetta Ewing, daughter of Lillie Williams is our new week end housekeeper.

Dorothy Norwood's husband Leonard who has heart surgery is at home now.

Mrs. Short visited Mrs. McCord late Saturday afternoon. Mr. and Mrs. Carlce Edwards from Denver City were here Sunday and reported lots of snow over their way here. Mr. and Mrs. Owens had company Sunday. Also Mr. Anderson ate dinner out.

Mrs. Hill states her son, Dave and wife visited her.

We want to invite the people of Tahoka and Lynn County to come meet our new administrator, Mrs. Mary Price also Mrs. Erma Clayton, who is helping out until new state Board L.V.N.'s are hired.

We also wish some church or group would take over services on each 2nd Sunday p.m. Sweet Street Baptist, Church of Christ and Methodist have 1st, 3rd, and 4th Sunday. We patients really miss services on the 2nd Sunday. As most of us are not able to go out to church. It makes the day so

long and lonesome. Sorry to say we failed to mention Mrs. Dora Carpenter bringing up cakes last week. Please forgive us.

Mrs. Hammonds and the ladies brought wonderful singing Monday. Please ladies come help her.

Mrs. Harter's family visits her often.

Mrs. Dessie Gartman is helping out as an aid.

Those signing the register. Mrs. R.M. Isben of Lubbock visited Mrs. Black, Mrs. H.L. Martin of Tulla, Tex., Mrs. Gladys Floyd, Post, Tex., Mrs. Linnie Kitchen, Post, Tex., Suzie Price, Dean Price, and Charlotte Price of Lubbock, Joel Inklebarger wife and daughter of Tahoka, Melba Childress brought Magazines from O'Donnell, and Laura and Bert Stice of Tahoka.

Both are Sinton High School graduates and are presently employed in Dallas, Texas. Wedding plans are for April of this year.

Easter Seals

Because of the steady growth in numbers of crippled children and adults in Texas, the Easter Seal Society for Crippled Children and Adults of Texas has stepped up its rehabilitation services.

According to W.E. Eudy, who is the Easter Seal Representative for Lynn County, 15,572 handicapped Texans received Easter Seal treatments during 1972.

"Despite medical scientific advances," Eudy explained, "the ranks of the crippled are growing. This is because of population growth, increased number of accidents and medical treatment which saves victims of crippling diseases who might not have lived in past years."

Quoting the annual report of the Easter Seal Society

for Crippled Children and Adults of Texas, he said that 18 affiliated treatment centers are in operation in Texas. They include treatment and rehabilitation centers, sheltered workshops, recreation and educational programs, and many others.

"Through these programs, persons with a wide variety of handicaps receive the help they need to live normal lives," Eudy said.

The largest group served includes those with major deformities of bones and joints, severe speech defects, cerebral palsy, arthritis, muscular dystrophy and multiple sclerosis and stroke. The Easter Seal Campaign, which provides funds for continuation of these services, begins March 1, and continues through April 22, Easter Sunday.

"Passports" Now At Post Office

The Tahoka Post Office is now helping distribute "passports" to recreation areas of the National Park System and National Reservation areas.

Golden Eagle Passports cost \$10. They allow any person and others with him to enter designated recreation areas in his private car. The passport, however, does not cover the additional fees charged for special sites, facilities, equipment, or services.

Golden Age Passports offer the identical advantages, but without charge to applicants 62 or older. They also entitle bearers to a 50 percent discount on the additional fees for special recreation facilities.

Both types of passports are non-transferable, wallet-size, and valid for one calendar year.

The passports will be of benefit only to those travelers who visit several national parks during a year. Travelers visiting only one or two national parks during a year will save money by purchasing tickets at the park entrance.

Reception Honors 6th Grade Class

Class 6-A of Tahoka Junior High attended a reception at the Community Room of the First National Bank on Thursday, February 8th at 8:45 a.m. The affair was held as a concluding activity on a study of good manners.

A receiving line was made up of Mrs. Ray Adams, sixth grade teacher; Mr. R.D. Bryan, principal; Mr. Harold Reynolds, superintendent; Mrs. Phil Scott, sixth grade teacher; Cal Huffaker, class president; and Mr. Richard White, guest speaker.

Robin Taylor and Melinda Terry served the group from a lovely table featuring a Valentine theme. Assisting with serving were Debbie Reynolds, Robin Bingham Flora Antu, and Jamie Renfro.

Carlton Ash gave the invocation. Cal Huffaker recognized the mothers who assisted with the affair; Mrs. Wayne Huffaker, Mrs. Olen Renfro, Mrs. Walton Terry, Mrs. R.A. Taylor and Mrs. Fred Zedlitz.

The speaker, Richard White, was introduced by Mrs. Ray Adams. He spoke to the group on a subject centering on character building. Vice-president, Robin Taylor presented a gift to him from the class.

The cosmetics industry is one of the biggest commercial influences in the nation...

As has happened so often in America, the goo industry, like the cigarette industry...

No one can set a rule for all the population. And cosmetics do improve personal appearance in many cases...

It's difficult for today's young girl to stand against the tide, to be secure enough and individualist enough...

ENERGY

One of the most important factors in the future development of the United States is an adequate and reliable supply of energy...

This requires domestic or secure-source supply so as to negate undue foreign influence on U.S. foreign and domestic policies...

The necessary first step in attacking our energy shortage problem is to have positive, constructive and coordinated government policies...

Continued use of higher sulfur fuels should be allowed as long as reasonable standards for ground-level concentrations of sulfur oxides are not exceeded.

The regulatory and economic climate should encourage uranium mining and milling to meet our needs.

Oil shale extraction technology should be advanced, and the private development of electric power generation and transmission encouraged.

With government and industry working together, a better future for all could be assured.

LOWER TAXES

U.S. property taxes, especially on elderly householders, have become what one study has called "a national scandal".

Many have assumed that taxpayer pressure will force a reduction in property taxes. But unless there is a leveling off of inflation and a reduction in demand on government, local and national, for its services...

Then too, political experts fear that an across-the-board cut in property taxes would mean windfall profits to property owners in an era of steadily rising land values.

Maybe I could help-?

A new model 14 Liotype machine and much other equipment have recently been installed preparatory to the publication of the newspaper.

Sweetwater now has the Daily and Weekly Reporter.

"The Buck Stops Here." I've admired President Truman for keeping that motto on his desk. A courageous man takes to accept responsibility for the vagaries of American politics and government.

Passing the buck means shirking responsibility and shifting the blame to someone else. It is cowardly of a nation to let any president be blamed for us.

Sovereignty in the United States is held by the citizens, and they bear responsibility for their actions even though those actions are performed through their governmental representatives.

It is "in" now to scorn the apathy of our citizens and Congress. It is a non-judgmental way of saying to people and their representatives that a lot of unfair and corrupt behavior they could correct.

All wrong-doing has consequences which persist and endure. As the sins of the fathers are to live on in the children for some three or four generations or longer...

Guilt, however, is individual. If you try to put your finger on the worthy cause of our country's trouble or your own moral weakness, face the squarely, point that finger at you and say, "The buck stops here."

Major Higgins At Nellis AFB

Major Carlos W. Higgins, son of Mr. and Mrs. D.P. Higgins, Rt. 3, Elizabeth, W. Va., has returned to his home station at Nellis AFB, Nev., after completing a tour of temporary duty with the 474th Tactical Fighter Wing in Southeast Asia.

Major Higgins, an aircraft commander, and his fellow Tactical Air Command airman served at Takhlil Royal Thai AFB, Thailand, during their combat assignment.

The 474th aircrews flew the swing-wing F-111 fighter-bomber, which is particularly suited for night and adverse weather conditions. The unit was deployed last September to increase the all-weather and low-altitude capabilities of the S. tactical air effort in Southeast Asia during the monsoon season.

The major entered the Air Force in 1954 as an enlisted man and was commissioned in 1955 through the aviation cadet program.

He earned his bachelor's degree in business in 1965 from the University of Nebraska at Omaha.

His wife, Katherine, is the daughter of Mr. and Mrs. C.E. Roper, Rt. 4, Tahoka, Tex.

The Decon Says

Grandson Killed In Mt. Accident

The body of Dwain Hess, 19 of Portland, Oregon, was found Friday night in a crevasse on Mt. Adams in Washington. He was a grandson of Mrs. A.J. Kaddatz of Tahoka.

Young Hess and a friend had climbed Mt. Adams on Monday and planned to return home Tuesday. When they did not return, searchers were sent out. The body of the friend was found on Wednesday and brought down, but Hess was not found until Friday. Because of bad weather, the body could not be brought down immediately, and at last report Tuesday the body still had not been brought down from the mountain.

He was the son of Mr. and Mrs. Quentin Hess of Portland, Ore. Mrs. Kaddatz flew to Portland Saturday to be with her daughter and family.

Dwain had been climbing mountains as a hobby for about two years. He had climbed Mt. Ranier, Mt. Hood, and many others around the area. He had all kinds of equipment

for climbing and Mrs. Kaddatz believes they must have been caught in a snow slide.

Survivors include the mother and father and a brother.

Mrs. Kaddatz will be gone from Tahoka for about two weeks.

LOCAL

Mrs. N.B. (Betty) Hancock of New Home, while in Lubbock last Friday, slipped on the icy pavement, fell, and broke her left hip at the joint. She underwent surgery the next day, and is reported to be recovering as nicely as could be expected. In fact, she was able to be up in a wheelchair briefly on Monday. Mrs. J.R. Strain and Mrs. J.B. Edwards were with her when she suffered the fall.

Fertilizer should be ordered early to insure having the correct type and amount. This may be especially vital this year since only a limited amount of fertilizer has been put out to date to adverse weather conditions.

The fertilizer supply for the 1973 crop year looks good at the moment.

However, demand should increase sharply as spring approaches. Although the supply is good, difficulty sometimes arises in getting the fertilizer to the farmer when he needs it.

Additional fertilization of pastures this spring should also up the demand. Many pastures have deteriorated from the prolonged cold, wet weather, and producers will be eager to fertilizer to boost grass growth.

Contact your dealers early to take advantage of discounts on early ordered supplies. Bulk fertilizers should be ord-

ered early, even though it generally is not delivered until application time is at hand. Where bulk storage is available on the farm, it would be wise to utilize the space for fertilizer.

When storing early-ordered bag fertilizers, be sure to give it room to breathe. Leave air space between each stack of bags.

Always store fertilizers in a dry place. Don't lay bags on a concrete floor because they'll pick up moisture, get lumpy and cake up. It's a good idea not to stack fertilizer more than eight bags high.

Keep fertilizer and animals separated. Fertilizer is good for plants; to animals it would be disastrous.

It's just good business to figure how much fertilizer you'll need for the coming crop season and to order it all, right away. Fertilizer supplies could be tight this spring.

FARM REVIEW

GSPA Considers New Feed Grain Program

At its meeting on January 26, the Board of Directors of the Grain Sorghum Producers Association asked the Executive Committee and staff to continue their study of a new approach to the Feed Grain Program and supply management.

The proposal that is under study would eliminate the present base allotments, which have long been outdated, and replace them with a program under which set-aside would be directly related to the acreage actually planted during a crop year.

The present base allotments were established by the amount of grain planted in 1959-1960. Since then, the grain sorghum production area has shifted into many new areas. Therefore, the producers who have begun planting since the base allotments were established are not participating in the feed grain program to help keep the production in balance with demand.

The essential recommendations of the GSPA study are:
1. Secretary of Agriculture shall be required to carry out a feed grain program each year that will hold the production in balance with consumption, and prices at levels which will be profitable to producers.

2. Base allotments established in 1959-60 will no longer apply since they have long been obsolete.

3. Set-aside acreage that is required by the Secretary shall be related directly to acreage actually planted for harvest on a farm during a given crop year.

(Example):
(a) National Goal - If Secretary of Agriculture set a national goal of 100 million acres planted and 30 million acres set aside, the requirement for set-aside would be an acreage equal to 30 percent of the acres planted for harvest.
(b) Farm - A farmer would

plant 100 acres and set aside 30 acres.

4. Secretary shall set payments at levels necessary to achieve the goal of production and set-aside.

5. Secretary shall set payments at levels necessary to raise farmers' income to the degree that average market prices paid to farmers plus government payments will equal the national weighted average cost of production and include a fair profit.

GSPA Executive Director Elbert Harp asks grain farmers to study this proposal and to let the Association know their views. National headquarters of GSPA are located at 1212 14th Street, Lubbock, Texas.

Ag Research Fights Greenbug

Greenbug infestations in 1972 have caused some grain sorghum growers in the Southwest to lose their entire crop, USDA officials report.

On the other hand, sorghum growers in the southern plains were more fortunate because winds and thunder showers knocked greenbugs off the plants in July, holding crop damage to a minimum.

Scientists warn, however, that even those growers not hurt by greenbug infestation this year may not be so lucky

the next time. Sorghum growers want and need greenbug tolerant varieties, they emphasize.

Research conducted by Northrup King scientists has resulted in two hybrid sorghums which are greenbug tolerant and can more nearly assure growers of harvesting a crop. "Even when we loaded the plants with greenbugs, NK 233 and NK 266 still produced a crop," reports Paul Menge, sorghum project leader.

According to entomologist, Dr. Glenn Moore, "Biological control of insects and disease does not upset the balance of nature. This trend toward biological control is also consistent with the growing concern about our environment and ecology."

He went on to say that while there has been success with insecticide control of sorghum and farm scientists don't believe chemical control is the real solution. Growers and entomologists know that insecticides not only add to the cost of raising a crop, but these chemicals can kill beneficial insects. Excessive use of farm chemicals can arouse environmentalists bringing harsh laws restricting or eliminating chemical control.

The company's research team developed a biological solution to the problem - greenbug tolerant sorghum varieties NK 233 and NK 266. Both hybrids are high yielding sorghums and represent a natural economic method of insect tolerance - a method that presents no danger to the environment. In addition, NK 233 and NK 266 are resistant to downy mildew, smut, anthracnose and M.D.M.V.

INCOME AVERAGE
Farmers and ranchers higher incomes in 1972 consider the "income averaging" technique when their income tax returns an economist for the Agricultural Extension Service. To use income averaging, your taxable must have been at least 1000 more than your average income in 1971. Use Schedule C to Form 1040.

Although the regular 1973 prospective plantings report won't be issued until mid-March, here are the latest preliminary crop acreage estimates for 35 states: Upland cotton plantings are expected to total 12,900,000 acres, down seven percent from 1972. Sorghum growers expect to plant 19,100,000 acres, an increase of 10 percent from a year earlier. Oat planting intentions at 20,300,000 acres are one percent more than 1972. Barley planted acreage is expected to total 10,100,000 acres, one percent less than 1972. Corn growers expect to plant 70,500,000 acres, up seven percent from 1972. Durum wheat plantings are expected to be at a new record high of 2,800,000 acres, and nine percent above 1972. Other spring wheat planted acreage at an expected 11,700,000 acres, is up 17 percent from 1972. Soybean plantings are expected to reach a record high of 48,800,000 acres, up five percent above 1972. Flaxseed plantings are indicated at 1,150,000 acres, down three percent from 1972.

EVEN though it's been predicted before, now it's official: 1972 crop production in Texas has exceeded production of 1971 in almost every category.

The Texas Crop and Livestock Reporting Service notes that production of cotton, grain sorghum, wheat, oats, barley, rye, soybeans, flaxseed, peanuts and sugar beets reached levels significantly above production in 1971.

Corn and rice were the only major crops which fell short of the 1971 production level. Peanuts, corn, grain sorghum, and hay attained record high yields per harvested acre, while cotton, wheat, oats, barley, rye, and flaxseed either equalled or exceeded yields per acre reached in 1971.

Upland cotton production in Texas is estimated at 4,050,000 bales, almost double that of 1971; grain sorghum production for 1972 is estimated at 319,780,000 bushels, up almost 20,000,000 bushels from 1971; corn production is estimated at 39,560,000 bushels, down slightly from 1971; peanut production is estimated at a record 478,800,000 pounds; soybean production is set at 5,460,000 bushels, almost double 1971; rice production is estimated at 22,122,000 cwt., down about 1,000,000 cwt. from 1971; hay production for 1972 is set at 4,109,000 tons, down slightly from 1971; wheat production at 44,000,000 bushels for 1972 compares with 31,416,000 bushels in 1971; oat production at 9,720,000 bushels compares with only 5,994,000 bushels in 1971.

HONEY production in Texas during 1972 totaled 11,368,000 pounds, up 35 percent from 1971. Average price per pound for all honey in 1972 was 26 cents, which is 8.1 cents above the 1972 average price per pound of 17.9 cents. Total value of honey and beeswax produced in Texas in 1972 is estimated at \$3,090,000 compared with \$1,641,000 in 1971.

HARVEST of grapefruit and early and midseason oranges is active in the Rio Grande Valley. Heavy movement of fruit into both fresh market and processing channels is underway. Exports are expected to increase during January and account for a significant percentage of the total fresh market movement.

What is the Hydrostatic Drive unit like?
Simply described, it's a piston-type pump and a piston-type motor. The pump converts mechanical energy from the engine into hydraulic energy. And the motor converts this hydraulic energy back to mechanical energy for power at the drawbar. You select speed with one SR control. Change on-the-go, no pause, no lurch, no clutch.

Mrs. Wanda Inklebarger

there about twenty-five years. He was born and reared in Lynn County and has lived here most of his life. His schooling was here, except for a brief stay in Oregon and California. He has enjoyed painting for a number of years, working mostly with oils. He also enjoys music and plays both the guitar and piano. Wanda and J.W. were married July 16, 1972 at their home in the company of their family and a few close friends. For her wedding dress, Wanda selected and made a street-length dress in a soft shade of green with matching lace coat. Lovely! With her rich auburn hair. Wanda is happy and you know she is as she confides that she has someone to come home to. Being a widow for ten years, she is having to start all over again. For a house is just a house.

And now she has a reason to be happy as a housewife again. Another interest of this lively couple is traveling and visiting relatives and friends. Wanda went to Hawaii four summers ago with a group from Tahoka. Last summer she took a vacation in Jamaica. This summer she and J.W. plan a trip to Idaho and Oregon to let J.W. meet some of the family.

Wanda selected a Pound Cake recipe to share with us. This is a simple recipe of only four ingredients given to her by her mother and you can not go wrong with it, she says.

POUND CAKE

1 lb. oleo or butter
2 1/2 cups sugar
3 cups flour
10 eggs
1 small bottle lemon extract
Cream butter. Add sugar. Add eggs, one at a time, beating at high speed. Add lemon flavoring. Bake in tube pan 1 hour 10 minutes at 325 degrees. Lemon Glaze while hot while hot with glaze made with 1/4 cups sugar and juice and rind of 2 lemons. Boil 2 minutes and spread on cake with pastry brush. This cake can be frozen as it freezes well.

Every year on her birthday, her aunt in Arizona re-

Catching her at home Saturday afternoon, one finds Mrs. J. W. Inklebarger busy bringing in groceries. As we pass through her well-stocked pantry, Wanda laughingly says, "you might not think I need to buy groceries." And you are inclined to agree. "And those vegetables I canned last summer have sure lasted good lately". The groceries put away, we settle down for a chat.

Wanda was born in Floydada and worked in Amarillo during World War II. Her older son, Glenn is Head Coach at O'Donnell and his wife, the former Donna Copeland, teaches commercial subjects there. Her

younger son, Donnie graduates this Spring from San Angelo State University. His wife was from Plainview, and now works for San Angelo Communications Equipment Co. as bookkeeper.

Having worked hard most of her life, Wanda appreciates finding a bargain. Either in reclaiming 'old junk' and converting it into suitable and useable furniture, or seeing a garment and duplicating it on her sewing machine. She also likes antiques and enjoys collecting them. Her aunt, who lives in Arizona, is an authority on antiques and advises her of the value of her finds.

Wanda has many talents and sewing is one of her outstanding works. As a fine seamstress, she has made suits for her two brothers in Floydada, her two sons, and J.W. She sews exclusively with knits when making dresses or suits. Satin pillowcases are made as gifts for relatives. Crocheting is another of her hobbies.

Her husband, J.W. is cashier at the First National Bank in Tahoka and has worked

Wanda is cashier and billing clerk at Poka-Lambro Telephone Coop. where she has worked the past sixteen years.

Nine Accidents In Lynn County During January

The Texas Highway Patrol investigated nine accidents on rural highways in Lynn County during the month of January, according to Sergeant H.E. Pirtle, Highway Patrol Supervisor of this area.

These crashes resulted in persons killed and three persons injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region No. 5 for January, 1973 shows a total of 572 accidents, resulting in 16 persons killed and 207 persons injured as compared to January, 1972 with 500 accidents resulting in nine persons killed and 217 persons injured.

The Highway Patrol Supervisor reminds the motorist that it takes 16 times the normal distance to stop a vehicle on ice than on good dry pavement. The icy weather will still exist in these winter months.

The 16 traffic deaths for the month of January, 1973 occurred in the following counties; Hartley, four; Gray, Sherman, and Lubbock two each; Dallam, Deaf Smith, Roberts, Swisher, Palo Pinto, and Parker with one each.

Wilson 4-H Club Met Tuesday

The Wilson 4-H Club met Tuesday, Feb. 6, with Mr.

Bill Griffin, County Extension Agent, attending.

The club discussed the Lynn County Livestock show, which will be held Feb. 22-24. The group also discussed the Houston livestock show which will be Feb. 26 to March 2.

Also at the meeting, the group discussed the county, district and state food shows, which will be much simpler this year. It is hoped that it will encourage 4-H members to enter the show. The local food show will be held Saturday, March 17, at the Lyntegar meeting room. Quintin Talkmitt, reporter.

Tahoka School Basketball Ends

The Tahoka Girls Varsity closed out their season on Friday night, February 9th with a very fine effort but were defeated by a hot shooting Cooper team by the score of 75-59. In this game Cindy Craig scored 26 points while three Senior forwards playing their final game for Tahoka added to the score. June Raindl had 21 points, Sharon McNeely scored 8 points and Sheri Short added 1 point. Kim Chandler and Treasure Ulery closed out their basketball careers for Tahoka High School with fine performances at guard.

As a prelude to the varsity games on February 9th, the J.V. boys beat Cooper J.V. by the score of 55-50. with Johnny Brandon netting 17 points including several 3 point plays and Timmie White following with 16 points.

On February 6th, Frenship took the Tahoka Varsity boys by the score of 78-68 but the Bulldogs played well even in defeat. Jimmy Bailey had 15 Phil McClendon had 14 points, with Gary McCord adding 10 points, Eugene Brown and John Thomas 8 points each, Clifford Laws and Larry Reynolds 6 points each for a very good distribution in scoring.

Frenship girls also defeated the Tahoka girls Varsity and the Frenship girls J.V. took the Tahoka J.V. girls on February 6th. The girls Varsity score was Frenship 55-Tahoka 47 with June Raindl scoring 27 points and Cindy Craig getting 15 points. Frenship took the girls J.V. game 37-15 with Susie Pena getting 8 points and Lisa Atwell netting 4 points.

The 8th grade boys and girls teams both won consolation honors in the Post tournament held February 9th and 10th.

The 7th grade boys were defeated in the first game by Roosevelt by the score of 34-31. Danny Moore scored 13 points, Ernest Bailey had 11 points and Jay Kelly got 3 points. In the second game of the tournament, the 8th grade boys took Ralls by the score of 32-9. Once again Danny Moore and Ernest Bailey led scorers, with Rickey Harston adding 4 points. In the consolation final game, the 8th grade boys beat Cooper 34-32 in an overtime game. Bailey and Moore scored 15 points each, while Jay Kelly and Rickey Harston got 2

points each.

The 8th grade girls lost to Roosevelt by the score of 37-25 in the first game of the Post tournament. Beverly Bryson had 13 points and Olga Garcia got 8 points in this losing effort. Ralls forfeited the second game to the Tahoka 8th grade girls.

The last game was against Post 8th grade girls and Tahoka took consolation honors with a 26-16 victory. Beverly Harvick led her team with 11 points while Beverly Bryson added 9 points.

The Freshman and 7th grade teams did not play and their basketball season is over.

BIRTHS

Mr. and Mrs. Tommy Cooper of Carlsbad are the parents of a daughter born Saturday, Feb. 3, at 3:04 p.m. in Carlsbad Medical Center.

The baby weighed 6 lbs. 13 oz. She was 18 1/2 inches long and has been named Annette Lynn. She has an older brother, Ernest Bailey, 4 years old. Mr Cooper is employed at the pot ash mines.

Grandparents are Mr. and Mrs. T.R. Riddle of Tahoka and Mr. and Mrs. C.L. Cooper of Slaton. Great-grandparents are Mr. and Mrs. Ollie Riddle of Wilson and Mrs. Cooper and Mrs. Bilberry, of Post.

Congratulations to Mrs. Herb Duncan on the birth of a son born February 9, 1973 at 9:43 a.m. The baby has been named Brent Miles and he weighed 7 lbs. 9 1/2 oz. The father is a highway patrolman.

W.S.C.S. Met At Church Tues.

The W.S.C.S. met Tuesday afternoon, Feb. 7, in the parlor of the First United Methodist Church. The theme was "A Call to Prayer and Self Denial", and the program was "Our Life Together; A Pilgrimage," with Mrs. W.O. Wharton as leader.

The life stories of certain women of the past who have contributed much to education, equality, justice and freedom were reviewed. A person should strive, as they did, to be shapers of the future and not be victims.

One way in which we can help out is by contributing to similar work in hospitals, schools and help for the aged and needy. Each one present made a pledge to the W.S.C.S. for work in these institutions.

E.J. Tanner is a patient at Mercy Hospital in Slaton suffering from the flu and possibly pneumonia. He has

been there several days and is reported to be doing some better.

Salvation Army Drive Held

An early morning meeting of Salvation Army volunteer workers was held last Wednesday in Surrey Restaurant, called by Drive Chairman Betty Owens. Mr. Hall W. Cutler, Jr., Field representative from Dallas, was introduced by Sheriff Norvell Redwine, Committee Chairman for this year. This area includes Tahoka and North Lynn County. Contributions to the Salvation Army goes to help the needy. Locally it provides money to buy medicine, food and supplies for the needy in our community. Sometimes aid is given to transients in the form of lodging and gas.

Workers with the drive this year are: Grace Huffaker, Betty Green, Marble Mathis, Polly Gibson,

Audrey Owens, Lottie Walker, Fran Brookshire, Margaret Carter, Joyce Patterson, Janet Porterfield, Lu Anne Thornton, Edna White, Jimmie Wyatt, Ruth Wells, Naomi Bell, Dot Roberts, Jean McCord, Juanita Kelly, Grace Kiser, Jerry Brooks, Dean Bartley, Sammie Turner, Dorothy Craig, Jean Curry, Mable McGinty, Betty Ehlers, Jean Bell, Eddie Lockaby, Margaret Norwood, Rogers Riddle, Macky Turner, Euella Rogers, Janet Owen, Freda Townes, Quinn Draper, Leta Warren, Weesie Carroll, Coy Collier.

Florence McCracken, treasurer for the drive, reports the drive has been extended until Friday Feb. 16, due to the rain and snow of last week.

School Board Met Thursday

The Tahoka I.S.D. Board of Education met in regular session Thursday, February 8, and extended the contracts of Floyd Tubb and Larry Wilson, Principals of South Elementary School and North Elementary School respectively, through May of 1975. The contract of A.J. Viertel, Head Football Coach and Athletic Director, was also extended for the same length of time. All of the Tahoka schoolmen are currently finishing the first year of two-year contracts as are Clifton Gardner, High School Principal, R.D. Bryan, Junior High School Principal, and Melvin Burks, Director of Guidance and special services. Superintendent Harold Reynolds is working on the first year of a three-year contract. Contracts of other professional personnel will receive the Board's attention at the regular meeting in March.

In other action the Board accepted the resignation of Leah Love who has taught in the Special Education program at North Elementary for the past year. Mrs. Love resigned due to health reasons.

The Board received various reports concerning the operation of the schools.

Members attending were: Joe Brooks, President; James

Brookshire, Vice President; Othell Meeks, Secretary; Dan Curry, Maurice Huffaker, Kenneth Turner and Robert Warren. Mrs. Peggy Elliott Director of Business affairs, and Superintendent Harold C. Reynolds also attended.

Looking for a systematic way to accumulate money?

Do it with installments through an ISA plan.

With an Investors Syndicate of America plan, tell us how much you'd like to accumulate over a specified number of years. And we'll tell you how much a month you pay on this plan to meet your goal. It's like purchasing on installments or paying yourself so much a month, every month. When you complete the plan, you have the amount you set out to accumulate. Just as simple as that.

GAS Central AIR Conditioning

Bullish on central air conditioning? Consider investing just a little more in a long-term, blue chip Gas air conditioning system.

Only a Gas air conditioning system pays you regular dividends for many happy years. That's because the heart of a Gas cooling system is a simple gas burner, rather than an electric, mechanical compressor. A clean-burning gas flame doesn't wear out - so there's less to go wrong, fewer maintenance calls, a longer life with no loss of original cooling capacity. And because natural gas is the prime energy source, you'll also save money on operating cost.

Call one of our air conditioning specialists this week - before the summer market becomes really active. He'll make a free, no obligation, survey of your home and give you a quotation on the cool investment.

The Cool Investment.
