Rain Helps Large Area

Heavy Showers Tuesday afternoon and night covered a lot of the Lynn County farming area, and will be of great benefit to crops, but a good general rain is still needed.

Tahoka received an even .40 inch, the first material precipitation since back in May, bringing the year's total so far to 9.61 inches.

Large areas received much more. Starting in the Slaton area and coming south, the rain totaled up to 1.5 up to 2 inches east of Wilson, an inch or more south of Wilson, an inch at New Lynn, about .75 at Grassland, two showers totaled 1.3 at West Point, and was heavier southeast of there. T-Bar had an inch, but the rain grew lighter south toward O'Connell. In the Draw and Redwine areas as much as an inch was reported, only

a light shower was reported from Midway, and about an inch in the Edith area.

At press time Wednesday, The News had no reports from Wells and Newmoore, where some farmers have not had enough rain to plant, but .75 fell at the Ha-

good place northeast of Wells, and 1.2 at the Jack Hoskins place north of Newmoore. From a few miles north of Tahoka to Dixie, New Home, and Lakeview there was little or no rain.

Both cotton and milo have been holding up exceedingly well over most of the county, and a good rain soon would make prospects bright for a fine crop. However, the entire county, particularly maize, needs a good general rain real soon.

JUDGEON DAY -- Shown above is Mr. and Mrs. Rush Dudgeon photographed at Rush Dudgeon Day at the Tahoka ASCS last Friday. Rush retired from his position as General Supervisor with ASCS completing 24 years of Government service, the last 21 years being with ASCS. A large crowd attended the reception. Mr. Dudgeon received a plaque for his service and a money tree from his friends.

Short Speaker At Rotary Club

State Representative E. L. Short was the speaker at the Rotary Club Meeting last Thursday.

He related many interesting facts about the recent legislative session in Austin, and stated his belief that this session was a conservative and constructive one, although a trying one.

Short introduced three bills of interest to local citizens, one being abolishment of the county wide school board, which will become unnecessary with abolishment of the office of county superintendent at end of the current term.

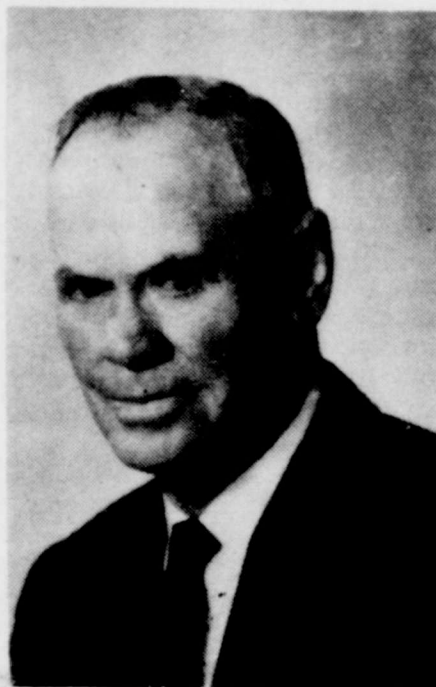

Another was for abolishment of the Terry County superintendent's office, which bill ended up in abolishing such offices in five counties, saving taxpayers about \$150,000.

The third bill was one to permit Andrews Hospital District to lease space to doctors, which grew into a bill which will affect Lynn County Hospital District and many other in the state.

Incidentally, Short was elected chairman of the West Texas delegation, which included 10 state senators and 46 representatives.

George McCracken was in charge of the program and introduced the speaker.

President John Wells was in charge of the meeting.

ROY O. NETTLES

Roy Nettles' Funeral Held

Roy O. Nettles, 76, of Rt. 1, Meadow, died Thursday morning in Lubbock's Methodist Hospital after a lengthy illness.

Services were held at 10 a.m. Saturday in the First United Methodist Church in Tahoka with the Rev. D. D. Denison of Brownfield and the Rev. DeWitt Seago of Hereford officiating.

Burial was held in the Tahoka Cemetery under the direction of White Funeral Home.

Nettles was born Nov. 27, 1896 in Jones County and moved to Lynn County in 1908. He attended school in Lynn County and Tahoka before going to Stamford College. He was a World War I veteran.

Nettles and the former Beulah Perry were married in Tahoka February 21, 1920.

The area farmer was a charter member of the Lakeview Methodist Church, and served on the board of stewards and was a Sunday School teacher there for many years.

Survivors include his wife; two daughters, Mrs. W. B. (Eloise) Griffin of Tahoka and Mrs. Harold Burkhalter of Lubbock; three sons, LeRoy Nettles of New Home, Edwin (Skeeter) Nettles of Rt. 1 Meadow and Leonard H. Nettles of Rt. 4, Tahoka; a sister, Mrs. Ione Wilson of Bonham; eight grandchildren; and a great grandchild.

Pallbearers were Kenneth McClung, Carl Wayne Hudson, Allen Neece, M. J. Williams, Ronnie Nettles and Harold Nettles.

Mrs. Gladys Holden from Big Springs visited with Mr. and Mrs. Charlie Lichey Friday and Saturday. Mrs. Paula Boudenburg was a visitor Friday afternoon.

Boost Rural Communities

A recent lending change in the Federal Reserve System could be a boon to the rural economy of Texas. The change could make an estimated additional \$1 billion in loanable funds available to Texas residents from the

state's rural banks.

Called "Season Borrowing Privilege," the change is designed to help rural banks expand loan fund sources where the local economy has a seasonal loan need, such as with grain sorghum, cotton, wheat or rice production.

"Rural banks experience wide fluctuations in loan demand from area farmers, and when such loans reach a seasonal high, other legitimate community loan needs must often be denied."

The additional loanable funds could be used for consumer credit purposes as well as local and area economic development. "The change" could affect an estimated 334 rural banks in Texas, more than one-fourth of all the banks in the state. To be eligible to use the borrowing privilege, banks must be members of the Federal Reserve System.

In addition to rural areas, the change may also increase loanable funds to banks serving communities with other types of seasonal needs for funds, such as resort areas.

Additional information can be obtained from the Federal Reserve Bank or from the Board of Governors of the Federal Reserve System, Washington, D.C.

Sucker!

Don't complain! Just take it in your usual manner and let the politicians have their way. What do you care if the dollar has been devalued twice in the last few months, we have a fuel shortage and it is getting more difficult all the time to keep supplies of anything on hand. We still must send over \$12 billion in foreign aid to countries who could care less if we live or die and will desert us like rats from a sinking ship when we need help.

We wonder, if these were biblical times, if 10 righteous men could be found in our nation's capitol to save it from destruction. With the overpowering odor of political shindigs, the special little privileges for officials of the government, we can easily get provoked when we poor working slobes get hit again with another tax or lose out from the increasing inflation.

Now is the season when our politicians must make "essential" trips to such places as east-central Africa to check on such important things as the spread of the Tse Tse fly and just happen to make a stop on the French Riviera on the way. This, after getting fattened up in the Senate cafeteria (where they are charged about 1-10th of the cost of their food) and getting their hair clipped in the Senate barber shop for a buck. Sure they need that crystal chandelier and all those new carpets in their offices. You wouldn't want them to look shabby, would you?

It's fine for them to freeze wages and prices, but let's not freeze them on federal wages or spending -- that's for those dim-witted taxpayers who don't know any better. We are sure a day of reckoning will come the sooner, the better.

RUIDOSO NEWS

Noncriminals

Maryland's court of special appeals has overturned part of the sentence of a confessed murderer-rapist which would have compelled him to make restitution to his victim's children.

The court ruled that the sentence, ordering him to pay 40 percent of his wages indefinitely, if and when he is paroled, "is akin to subjecting (him) to a state of peonage."

But the Chamber of Commerce of the United States waits a minute. Aren't we citizens compelled by law to pay nearly 40 percent of our income in the form of taxes to all levels of government? And it looks like this onerous burden will continue indefinitely -- and could increase.

Is this asking to be reduced to a nation of peons? And to what court can we noncriminals appeal?

The art display given at the home of Mrs. C. B. Townes by the Phebe K. Warner Club last Friday was a decided success, surpassing the expectations of the most sanguine of the members of that organization. About fifty paintings were entered and many of them showed splendid talent on the part of the artists. Only pictures painted by Texas artists were eligible for entry. Most of the entries were made by Tahoka Artists but a few came from other portions of the state.

These paintings revealed the fact that there is much talent in Tahoka. The purpose of the display was to reveal this talent and to inspire greater interest in painting. It has been suggested that such a display be given in some building down town some time soon in order that the public generally may have the opportunity to view and enjoy it.

Mrs. L. C. Haney was a charming hostess Tuesday afternoon when she entertained the Tuesday Afternoon Bridge Club and several guests in her home on Fifth Street. Mrs. Oscar Roberts scored high during the playing.

A lovely salad course was served to the following: Mesdames Elbert Bouillon, Frank Larkin, Harley Henderson, C. B. Townes, M. O. Bridges, Oscar Roberts, and Frank Hill; and the guests, Mmes. W. B. Slaton, E. E. Callaway, L. E. Turentine, J. H. Powell and Jack Alley.

The Lynn County basketball championship will be decided by the annual county tournament finals to be played in O'Donnell Saturday, Feb. 6, according to announcement of B. H. Scott, director of athletics. Both boys' and girls' senior contests will be held, and the boy winners will represent this county at the District meet in Lubbock.

Also, Mr. Scott says, there will be a junior boys and girls basketball tournament at O'Donnell Saturday, Feb. 13 to de-

termine the county championship. Any team in the county may compete and all players will be governed by the Interscholastic League rules on junior players. Play will start at 10 o'clock that morning and continue until both champions have been determined.

The criminal docket was taken up in the county court Tuesday morning, with Judge Grider on the bench.

Two youths residing in the South Ward community were convicted on jury trials or simple assault and a fine of \$5.00 and costs were assessed against each of them. The complaints grew out of some overbearing conduct on the part of the young men toward some smaller children while on their way from school.

Four pleas of guilty were also entered in the county court Tuesday, all arising in the Wilson community. One was upon a complaint charging indecent exposure of the person and the other two were charges of simple assault. Small fines were assessed each case.

The Security State Bank of this city voluntarily suspended business Monday morning, sending notice to its depositors to come in and get their money. Unable to continue doing business at a profit, the bank's officials had nevertheless so managed its affairs as to be able to close its doors and return to depositors every cent of their money.

The Lynn County Singing Convention will meet at the Central Ward school building in Tahoka on Sunday, February 14, according to M. E. McCord, president.

The singers will convene at 10 a.m. and the session will continue until late in the afternoon. According to custom, visitors are expected to bring their lunches.

Not only are singers from all over Lynn county expected to be present but many are expected from other counties. John F. Taylor of Clovis, president of the

Plateau Singing Convention, be here. The Plateau Convention covers about 28 counties, including Lynn County. A great convention is anticipated, Mr. Cord says, and everybody is cordially invited.

P. H. Renfro, early day farmer and now a landowner, reports one of his tenants, McWilliams, has a splendid crop of peanuts from 50 acres that he plans to have McWilliams increase the acreage to 100. The two men live in the Home community.

"Mac has not threshed the yet, but he has about 1,500 bushels," Mr. Renfro said. "They are the small kind, those are by people who make peanut butter, oil and those things."

"I am told that this year price is 60 cents a bushel. This will bring more money than ton per acre. Besides there the peanut hay. I am getting some sows and gilts and feeding them the hay."

Mr. and Mrs. L. K. Nelson entertained the young folks at a party last Saturday night, reported a nice time.

The following young folks were present at the party: Misses Sunday with Misses Cross: Misses Sceania and Bobbie Scott, Nora Bell and Inman, Messrs. Woodie Luther Wood, L. T. Redding, Roy Mason.

Johnnie Grider of Tahoka entertained Mr. and Mrs. Warren last weekend.

Mr. J. B. Anderson is having some work done on his house this week. Mr. Tucker of Tahoka is doing the work.

Mr. Horace Crumley is having his family back to the community last Saturday.

Mr. and Mrs. Levi Norton of Bethel were visiting here Sunday.

W. F. McClintock and family came home last Monday after spending a few days in Tahoka visiting.

Handi Hobby Sets Demonstration

Handi Hobby of Tahoka is having a demonstration by Bill Huffaker tonight at 8 p.m. for sculpture of wax flowers, candles and a drying arrangement of fresh flowers. Everyone is invited to attend and see how it is accomplished. The Handi Hobby is located at 2400 North Avenue K.

United Methodist Women Meet

July 9, the United Methodist Women met at the church for a covered dish dinner. This particular time was chosen so that they could celebrate Mrs. W. C. Huffaker's birthday. A poem in her honor was read. The poem is by Edgar A. Guest. The program was given by Mrs. Letha Porterfield. She read John 4; beginning with the nine-

teenth verse. Her meditations were on "What is God Like?", and she established that he is great, powerful, kind and good. She asked, in closing, how we were presenting God to our neighbors and friends.

Wedding Vows Said By Couple

Wedding vows for Miss Victoria Dabney, daughter of Mr. Wesley Dabney and Mrs. Doyle Vanceleave, Jr., son of Mr. Wesley Vanceleave, Sr., were read at 9:30 p.m. July 9th at the First Assembly of God. The ceremony was read by Elmer Tyler. Linda Bernaird, Mrs. Mynett, Delbert Burkett and Delbert Burkett, cousins of the bride, sang "There is Love" accompanied by Miss Diana Currey, organist of the bride, at the piano. Willene Tyler, sang "The Gift of Never" accompanied by Miss Denise Gandy, piano. The bride, given in marriage by her father, wore a street white dress ensembled with accessories. She carried a bouquet of white mums and satin ribbons.

Miss La Nita Strickland was maid of honor and was dressed in pink and carried a long stemmed pink carnation. Best man was Mike Bryan.

Immediately after the ceremony, a reception was held in the home of Mr. and Mrs. Wesley Dabney. The table was covered with a blue cloth centered with the brides bouquet. The bride cut the three tiered wedding cake which was decked with kissing angels. Mrs. Dona Barnes served.

Tractors Can Be Safe

CHICAGO—Farm tractors are potentially hazardous yet most tractor accident fatalities can be prevented, according to the National Safety Council.

The Safety Council estimates that there are from 800 to 1,000 deaths resulting annually from tractor accidents. In addition, thousands are injured and millions of dollars are lost in property damage, medical costs, time off work, lost earning power and insurance costs.

"Most of these losses could be prevented," stated the Safety Council, "by competent op-

eration of tractors, use of protective equipment and proper maintenance."

More than half of all tractor accident fatalities involve overturns, the Council reports. These fatalities occur unnecessarily, because the equipment to protect the driver in a roll-over is available for new tractors and many older models.

"The National Safety Council is convinced that more than 90 percent of the roll-over fatalities could be prevented through the use of roll-over protective cabs and frames,"

said Leon Urben, manager of the Council's Farm Safety Department.

"The problem," said the Council official, "is that many farmers and ranchers are reluctant to invest in roll-over protection systems for their equipment. The Safety Council, however, believes that the use of ROPS is essential to preventing unnecessary tractor accident injuries and fatalities."

Tractor operation can be safe if operators are alert to potential accident hazards. The Safety Council offers the fol-

lowing 10 tips for safer operation of the tractor on the farm or ranch:

—Stay clear of ditches, embankments, holes, etc., to avoid upset.

—Don't permit others to ride—keep children off and away.

—Cut speed when turning, crossing slopes, on rough, slick or muddy surfaces.

—Watch where you're going at row ends, on roads, near trees, etc.; always watch for and avoid obstacles, and be sure everyone is clear before moving.

—Stay off hills and slopes too steep for safe operation.

—Don't overload—engage clutch slowly with heavy load to avoid backward tip.

—Hitch loads only to drawbar (if drawbar is on 3-point hitch, set it no higher than fixed drawbar)—use front weights to balance tractor.

—Keep PTO shields in place—shut off PTO before unclogging, adjusting or servicing equipment.

—Set wheels wide as practical for job for better stability.

—When stopped, put tractor out of gear, firmly set brakes and/or use park lock—remove key.

Accidents in the home during 1972 killed an estimated 27,000 Americans, according to the National Safety Council, and injured an estimated 4.2 million.

Falls accounted for more than one-third of all accidental deaths in the home, the Council said.

TEXAS PRESS ASSOCIATION

Public hearings to determine auto insurance rates held here this week (July 10-11) amid predictions that premiums will drop again this year. Insurance Board Chairman Joe B. Bynum expressed hope that eventually will bring a reduction for policy buyers in most of Texas. A statistical rating territory's hearing was conducted at Drawl against a backdrop of new legislation and a price freeze. The Board applies to insurance as the usual review of accuracy, frequency, claim cost and other factors.

Legislation which must be considered includes comparative negligence, the guest statute, personal injury protection and the deviation or competitive rating.

The Safety Association will ask additional credit for performance completing the defensive course. Board rules now a 10 per cent reduction in insurance rates for those who served in South Vietnam. House Insurance Committee Chairman Rep. Ben Briscoe of Amarillo predicted the premium will drop 10 per cent when new rates take effect this fall.

Competitive rates may mean drops of as much as 20 to 30 per cent for drivers with good safety records, Bynum said.

"Nobody can definitely state what the final rates will be until the statistics and the impact of new insurance laws are weighed in detail after the hearing," said Christie.

REVISION SCHEDULE SET -- The Constitutional Revision Commission will meet here July 27-29 to review policy presentations of its seven standing committees on specific areas.

Commission members will hold briefings for the press during the three-day meeting. Members of the Texas Press Association and Texas Association of Broadcasters will meet with commission members on Friday, July 27.

Commission action on the committee reports will be taken September 6-8 and 13-15.

Consideration of the final document is slated for meetings September 20-22 and 27-29, and the presentation, together with supporting reports, November 1, followed by briefings of legislators in December.

Commission members bogged down at a recent meeting here on adoption of basic guidelines for their mission and postponed consideration of a statement of principles until their July 27-29 meeting.

Instead, they agreed tentatively

Lynn County News

to write a "revised" constitution -- the minimum assignment of voters last November 7 when they directed wheels be set in motion toward overhauling basic state laws. Two members thought even that non-specific commitment was premature.

House and Senate committees, meanwhile, have been named to make preliminary plans for the January-May constitutional convention, draft rules and agree on procedures.

14 MORE GAS SUITS FILED -- Atty. Gen. John Hill has filed 14 more suits to recover full market value of royalty gas produced from state lands. The first such suit was filed May 18 against Exxon Corporation.

The state contends it is not limited by long term contracts, nor to any regulated ceiling prices promulgated by the Federal Power Commission.

Defendants, according to state allegations, are selling gas at about 20 cents per 1,000 cubic feet, or less, while the market value is around 45 cents per 1,000 cubic feet.

Suits now filed cover about 80 percent of all lease contracts involving gas royalties, Hill said.

COURT SPEAKS -- A four-year prison term assessed Amarillo former State Rep. Walter Knapp for using \$1,200 worth of state-issued postage stamps to buy a used pick-up truck was affirmed by the Court of Criminal Appeals, on a three-to-two split vote.

The same court reversed and remanded conviction and 20-year sentence of a Mineral Wells man for alleged delivery of heroin because of testimony concerning beatings by police officers.

AG OPINIONS -- Law requiring finance reports by House speakership candidates is clear as to who may and may not contribute, the amounts, extent of expenditures allowed and other matters, Attorney General Hill held.

Department of Public Safety, Hill said in another opinion, is governed by statute which requires certification of accuracy of seller's invoice in purchases through the State Board of Control. Other purchases requiring disbursement by the comptroller form the operator's and chauffeur's license fund must be accompanied by the vendor's certification of the invoice's accuracy in the usual manner, Hill

continued.

APPOINTMENTS -- In a major reshuffling, Gov. Dolph Briscoe appointed William T. Keenan of Houston executive director of the Governor's Committee on Aging, replacing Mrs. Carter Clopton of Austin.

Briscoe, at the same time, named Alton O. Bower of Austin chairman of the Committee on Aging.

Other recent appointments by the Governor include:

J. R. Taylor of Amarillo and John Biggs of Vernon to the Animal Health Commission.

Dr. Margaret Cigarroa of Laredo to the Board of Mental Health and Mental Retardation.

Dr. Richard Hooker of Austin as gubernatorial school finance advisor.

J. R. Porter of Dallas to Texas Mass Transportation Commission.

ROAD CONTRACT LETTING OFF -- Monthly state highway contract lettings scheduled July 24-25 for 18 projects costing about \$22 million were cancelled due to failure of Congress to approve a federal aid bill.

Texas Highway Engineer B. L. DeBerry said the state had no alternative. Highway aid bills have been tied up in conference committee after the U. S. Senate and House passed different versions. Dispute is largely over diversion of highway trust fund revenues to urban mass transit.

The Highway Department in recent months has been financing all highway construction with state funds under an interim congressional action calling for reimbursement at a later date when the congressional bill is passed.

CITIES HONORED -- San Antonio, San Marcos, Temple and Lubbock have been designated at national bicentennial communities.

The cities are to be recognized nationally during the Bicentennial observance of the American revolution in 1976. Thirteen other communities in Texas will also have bicentennial programs submitted for consideration.

SHORT SNORTS

Harry Hubbard, AFL-CIO state secretary - treasurer, is challenging Roy R. Evans for the organization's presidency here in convention this week.

Governor Briscoe has asked designation of Newton County as a major disaster area due to June Floods.

Hearing by the Railroad Commission on Coastal States Gas Corporation's request for rate increases has been postponed until July 23.

A House sub-committee's investigation of Artesia Hall continued here this week.

Thomas M. Phillips of Houston has been selected as the 1973 recipient of the Outstanding Alumnus Award of The University of Texas School of Law.

Rep. L. DeWitt Hale of Corpus Christi will head the House planning committee for the 1974 state constitutional convention.

The Governor promised to begin operating a new mobile field office in county seats over the state this month.

A new digest of hunting and fishing regulations has been printed for distribution by the Parks and Wildlife Department. Shell Oil, now headquartered in Houston, heads the list of Texas' Top 100 corporations as rated by Texas Parade magazine.

Attractive Nuisances

When children come to visit, chances are you feel a sense of responsibility for their safety. But suppose a child comes onto your premises without permission—or, perhaps, when you are not even home. Could you be held legally liable in case he gets hurt?

Indeed you can, under the "attractive nuisance doctrine" now in force in most states. This doctrine says you may be responsible for having something hazardous on your property that a child is not likely to see and avoid.

As the name implies, the hazard must be one which youngsters would ordinarily find attractive.

One case involved a tree house in a family's back yard, where neighboring children often came to play. The tree house was wobbly, and one day a youthful climber lost his footing and suffered a bad fall.

Even though the parents were not home at the time of the accident, a court subsequently held them liable. The court said they should have realized, with a hazard so alluring to children, that they were inviting trouble.

Furthermore, the thing must be not only attractive but also a nuisance—that is, faulty in some way.

In another case, a boy was injured when he fell off an old couch in a neighbor's garage. But there was nothing wrong with the couch. It was therefore not an attractive nuisance, a court ruled later, and the householder did not have to pay damages.

Of course, the age of the victim is an important element in the situation. Courts have frequently turned down claims of children over 12, saying they were old enough to have recognized and avoided the particular hazard that brought them to grief.

Nor does the law expect a home owner to spend major sums of money to clear away minor dangers. It is not his duty, as one judge put it, to make his premises "child proof."

Juicy Sweet Cherries and fresh Bartlett Pears rate high among the eating pleasures of summer. And good news for hot weather menu planners and out door dining buffs is the fact that both fruits are expected to be in larger than usual supply throughout the country during the next several weeks.

Out-of-hand eating is probably the most popular way of using both sweet cherries and Bartlett pears. But both fruits are delicious in salads. And sweet cherries and fresh Bartlett pears are fitting ingredients of many summer desserts, including par-faits.

Fresh Bartlett pears are like some people; they enjoy company. To ripen pears at home, place several of the green-hued fruits in a loosely-closed paper bag and leave them at room temperature for a few days. Following this, place the bag in the refrigerator for several days. The pears will soften and change from green to pale-to-rich yellow in color.

Roasting Bag Cookery is a new and interesting method of oven cooking. But, as with any new idea, it is necessary to follow directions carefully and completely. Things you should know about Roasting Bag Cookery are:

1. Preheat oven to recommended temperature. NOT OVER. Roasting bags deteriorate and may even melt at exceedingly high temperatures.
2. Use seasoning mix and follow directions. Should you ever use a roasting bag without seasoning mix, add 1 tablespoon flour to bag and shake to coat bag well.
3. The baking pan should be large enough to contain the bag width and length and 1/2 to 2 inches deep. A metal pan is recommended.
4. Be sure no part of the bag extends over the side of the baking pan.
5. Remember to puncture 4 small holes in top of bag. An ice pick, skewer or tines of fork are good to use.
6. Close end of bag with twist-tie, leaving 2 inches between food and closing, cut off excess bag 2 inches from twist-tie.
7. Place pan with roasting bag in lower half of oven so that the bag will not touch the sides of the oven or top of rack. You'll need to allow about 8 inches between rack positions to allow for expansion or "Ballooning" of the bag.
8. After cooking, remove from oven and allow to stand several minutes before cutting it open. This allows the steam to subside.
9. Be Very Careful when pouring hot juices from bag.
10. Do not use roasting bag under broiler, on grill or in electric skillet.
11. Roasting bag may be used in a microwave unit, close end of bag with string instead of

twist-tie. Cooking time will need to be adjusted depending on food cooked.

With all types of cooking, there is always the remote chance of fire. In any oven cookery, in case of fire, Turn off Heat and Keep Door Closed.

PEPPY PEPPERS

6 medium size peppers
1 1/4 pounds ground beef
1/4 cup instant minced onion
1/4 cup catsup
1 cup soft bread crumbs (2 slices bread)
1 package roasting bag seasoning for pork chops
1/4 cup water.

Preheat oven to 350 degrees F. Wash peppers, cut off tops and remove seeds, leaving peppers whole. Brown ground beef; add onions, catsup, bread crumbs, and seasoning mix. Fill peppers with meat mixture. Place in roasting bag. Add water. Close bag twist tie, leaving 2 inches between food and closing. Place in baking pan. Puncture 4 small holes in top of bag. Place on rack in lower half of oven. Cook 40 minutes. Remove from oven and let stand several minutes. Cut across top of bag and remove peppers. Makes 6 servings.

T-Bar Bridge Winners

Winners in T-Bar bridge play last week were: Mrs. T. E. Leverett and Frank Hill, First; Mrs. Gene McKee and Mrs. Frank Hill, second; Mrs. Olen Renfro and John Nickens, third; and Mrs. Coye Collier and Mrs. Roy LeMond, fourth.

Nixon's Price Freeze

The price freeze ordered by President Nixon in June would not have been necessary if economic controls had not been prematurely eased by Nixon in January.

The sixty-day price freeze, then, is an admission of a mistake made in January, the failure of Phase 3 controls, which followed the end of Phase 2.

That being water over the dam, the hope now is that the administration will work out an effective economic policy to hold the price to the desired degree after expiration of the current freeze. All Americans should do their part to contribute to the effort, which is vital to the nation's economic health and the stability of the dollar. Though Mr. Nixon erred in relaxing controls so widely in January, he has shown, especially in view of his party's traditional philosophy, a commendable willingness to act forcefully in the economic sector for the good of the nation. He has support of the vast majority in that approach.

The Miscalculation

Certain Democratic politicians and others opposed to President Nixon and his policies, and this includes some almost rabid in their Nixon-hatred, have obviously miscalculated on the Watergate scandal. Watergate is a full-blown scandal and a disgrace. It has damaged the Nixon Administration and is now laid at the feet of the President. Revelations have revealed a shocking pattern of conduct among a number of high-level officials. And the public wants the guilty punished—fairly—and the political system reformed to prevent any recurrence.

But after that, (and the President has accepted all this), the majority of Americans are not in favor of a witch-hunt, impeachment, or destruction of the President. To the contrary, the huge mandate Mr. Nixon won at the polls carries on—the majority thinks Mr. Nixon, overall, has been a good President.

Zealots, the politically-inspired, and Nixon-haters still hope to condemn America they were, after all, right in 1968, when they said Mr. Nixon's election would be a catastrophe for the nation. That has not been true, and the majority doesn't buy it, and that's where so many miscalculate.

Labeling Muck

The Food and Drug Administration is reportedly about ready, at least, to issue a mild regulation requiring cosmetics manufacturers (long on getting away with murder, so to speak) to label the ingredients in the muck they sell women—and men.

Eye doctors have complained for years that many women damage their eyes using unclean or dangerous muck and goo, sold by the beauty industry without any labeling of ingredients. Others have suffered allergic reactions; with no listing of contents, treatment for an allergic reaction is made difficult.

The worst part of the lucrative cosmetics racket is that price often has no relation to the quality and effectiveness of the goo bought. Many over-expensive preparations cost very little to produce. Pricing is therefore based on advertising hokum and fads.

Mandatory labeling may, therefore, bring prices down. Mineral oil is the only working ingredient in most cleansing creams, cold creams and shaving creams. Alcohol is the basic in practically all astringents. Water is the primary ingredient in most cosmetic preparations. Fancy names, colors, smells, etc., are used, then, usually as a means to justify the high price.

Junior Angus Field Day Set

Members of the Texas Junior Angus Association have made final plans for their 1973 Texas State Junior Angus Association Field Day to be held at the Richmond Hale Ranch near Canyon on July 27-28.

The event is scheduled to get underway at 1 p.m. on July 27 with the junior Angus heifer show followed by a picnic and a party, the 1973 Texas Junior Angus Queen Contest, beef judging contest, and various educational programs during the two day event.

Max Stapleton, Haskell County Agent, has been selected as judge for the Junior Show.

Juniors entering the heifer show must be members of the T.S.J.A.A. Memberships may be obtained by sending \$2 to Jo'Ann Adams, Box 5, Tahoka, Texas 79373.

Entry fee for the heifer show is \$5 per head and the entry deadline is July 13. Entries should be sent to Mike Herron, Box 697, Rotan, Texas 79546.

The Consumer Alert

by John L. Hill
Attorney General

AUSTIN - If you ask the average family physician to help you solve the problem of overweight, he's likely to respond with enthusiastic encouragement, and a diet program tailored to your individual health needs.

But he won't guarantee any specific weight loss, because he knows that each body type has its own way of metabolizing.

That doesn't satisfy the craving some people have for "instant beauty," so they are quickly attracted to the advertisements which claim, "Lose 20 pounds in 20 days."

Many become disillusioned when they don't shed the pounds like the "before" and "after" model whose photographs were shown in the ad.

But wait a minute: Were those "before" and "after" pictures really of the same person? Or, was one photo taken in poor lighting while the subject slumped to increase the girth of abdomen, and the other photo taken under glamor conditions - with tummy sucked in, chin up, and chest out?

The Attorney General's Consumer Protection Division has received many complaints about operations of some "health studios" which specialize in claims of an almost-instant metamorphosis for the overweight person.

Through our own investigations, we have found that sometimes the photographs are misleading.

And other deceptive trade practices by some health spa operators are being uncovered in state and federal complaint follow-ups.

Owners of legitimately-operated health salons are cooperating in the investigations. And there are many of these establishments which do serve a useful and healthful purpose.

After all, the average person - especially, the average overweight person - lacks the intense discipline required to monitor his or her eating habits, and stick to an exacting program of exercise. And they can use a little "group therapy" to keep them inspired in the war against unwanted pounds.

Unfortunately, they are sometimes prey to the type of

operator who would promise them anything, and too often, the result is a flattened wallet, instead of a trim figure.

Some of the deceptive practices you should be on watch for include:

The "bait-and-switch" tactic, in which the operator advertises a claim that his studio can rid you of "10 pounds in 10 days" or "20

pounds in 20 days" (there seems to be a magic in twice-repeated numbers), but when the consumer goes to sign up for the quick course, she is talked out of that fast, and talked into a more

Lynn County News

expensive long-term contract.

The heavy pressure to buy a "life" contract. One man paid a rather high sum for a "life" contract, and when he died a few days later - never having taken one treatment, his

family was unable to get any refund. Others have complained that they started a course, but had to drop out at their physicians' insistence, and could not get a proportionate refund.

THURSDAY, JULY 12, 1968

Claims that people exercise devices automatically can produce weight loss. Federal Trade Commission declares that is misleading.

You are invited . . . to good times, good food

... in your own backyard with an outdoor gas grill and gas light. You can cook up a party at a moment's notice, because a gas grill is ready to cook in minutes. And it's so easy to cook on because you can control the heat. With a gas grill there's no charcoal mess, and you still get that delicious, outdoor char-broiled flavor that comes from the smoke of meat juices dripping on permanent ceramic briquets.

Besides the good times you'll have cooking out, you enjoy the convenience of having a gas grill. You'll probably find yourself cooking on it just because you wanted to get out of the kitchen or didn't want to mess up the broiler of your kitchen range.

All prices include normal post-type installation (up to 50 feet of line) and 5% sales tax. *Budget terms are available at 12.75% annual interest on declining balance.

Three men were driving through the countryside very late on a pitch black night. Two were in the front seat and the other in the back, half asleep. Suddenly the driver asked the man in the back to look out the rear window and see who the crazy driver was behind them. For the past five minutes he had been trying to let him pass and, to top it off, his car had only one light on. The man looked out the back and then said very excitedly: "No wonder he can't pass you—he's on tracks!"

Two men, neither very bright, were helping to build a house. One kept picking up nails, looking at them, keeping some, and throwing others away. "Why are you throwing away so many nails?" asked his companion. "Because they have the head on the wrong end." "You fool, those are for the other side of the house!"

The drunk tiptoed up the stairs, shoes in hand. He patched up the scars of the brawl with adhesive tape, then climbed into bed, smiling at the thought that he'd put one over the wife. Came the dawn: the ex-drunk opened his eyes and there stood his wife glaring at him. "Why, who's the matter dear?" "You were drunk last night." "Why darling, I was nothing of the sort." "Well, if you weren't who put the adhesive tape all over the bathroom mirror?" "Is that you, Sam?" the wife called out to the late-returning and somewhat inebriated husband. "All I know," grumbled Sam, slamming into the buffet, "is that I'd damn well better be."

There they were met by another son Joe Van and wife and three children for an outing. They are from Freemont, Nebraska, and will visit here for a week before returning home on Friday.

Congratulations to Mr. and Mrs. Bob Tate (Vicky Hamilton) on the birth of a daughter, Christy Grandpa Edd couldn't give us much information and Grandma Opal was not available so we didn't get details. She is the couple's only child.

Gregg Deering has resigned as Minister of Music and Youth at Sweet Street Baptist Church and the couple has moved to Slaton where he will hold a similar position. He has been with the church here for about a year and his wife, Sharon taught in the public schools. The couple have a new baby girl about two weeks old but we failed to get details.

Missionaries from Venezuela Rev. and Mrs. H. Robert Tucker Jr. have returned to the states for a years leave, after a four year term of service in Venezuela as Southern Baptist Missionaries. They have been visiting this week with her parents Mr. and Mrs. John A. Roberts but will be leaving soon for Ft. Worth, where Rev. Tucker will enroll in Southern Baptist Seminary and do doctorate studies in Christian education. Their five children will attend Ft. Worth Public Schools. Mark and Elain are 8th graders, Karen Beth will be in the 3rd and the twins John and Phillip will be in 1st grade. Mrs. Tucker is the former Margaret Roberts and grew up in Tahoka. The Roberts other daughter, Doris, is married to Mr. Ralph Losewell and they have two children. They live in San Angelo and both teach. They were week-end visitors in the Roberts home and attended church at F.B.C. Sunday night.

Rev. Tucker spoke at the evening services, in Bro. Turner's place, to a large crowd on Sunday night and Margaret spoke to the W. M. U. on Monday. Both told of the work in Venezuela. The ladies meeting was in the home of Mrs. Dorothy Kenley and about twenty members attended.

Members of Hazel Bennett's S. S. Class met for a business meeting in the home of Mrs. Willis Pennington on Monday night. Officers were elected for the coming year and each one brought a gift for her "secret pal." Pal names were revealed and new names drawn. Mrs. Lillian Copeland assisted the hostess, and homemade ice-cream and cake were served the ten members present.

The Elmer Tylers spent three days last week visiting relatives in Eastland. The Rev. Tyler is pastor of Assembly of God Church and operates West Side Barber Shop.

Don't forget to mark your calendar for the 4th Sunday July 22, and plan to eat with the Rebekahs on that day. Lunch will be cafeteria style, and will be ready when church is over. All you can eat for \$1.50. Children's plates \$1.00 Call us in advance

for take out service. The hall is located 1/2 block east of the courthouse on South 1st St.

L. W. Ables, formerly of Tahoka, has retired after many years of service with the Gaines County ASCS office in Seminole.

Rev. and Mrs. Gordon Smith and children, Carla and Greg, of Orlando, Florida, where he is pastor of the Baptist Church, were recent visitors here with his parents, Judge and Mrs. Truett Smith.

Mr. and Mrs. Brooks Vick of Orrville, Ala., arrived Friday, June 29 to visit their daughter and family, Mr. and Mrs. Ronald Roberts and children.

The annual Bankston reunion was held last Sunday at the Tahoka Roadside park. Only four of the Bankston children were able to attend.

THE HABERDASHER WILL BE OPEN TILL 9:00 P. M. THURSDAY, JULY 12 ONLY.

NEW HOME LOCALS

Mr. and Mrs. Earl Cooley were in O'Donnell the Fourth for the unveling of the "Hoss" Dan Blocker statue. The Cooleys knew the Blocker family when they lived in that area.

Mr. and Mrs. Fidel Cantu and family returned home from Chicago Thursday. They reported that their daughter, Mrs. Eddie Escomella was improving and at the end of the week was out of intensive care. The baby born June 30, weighed 5 lb. 5 1/2 ozs. and named Margerite Ann was reported to be doing fine. The baby was born in Holy Cross Hospital.

THE HABERDASHER WILL BE OPEN TILL 9:00 P. M. THURSDAY, JULY 12 ONLY.

Grahams Move To Dayton

Mr. and Mrs. Paul Graham have moved to Dayton, Texas where he reported to work July 1.

The May graduate of Texas Tech University has been employed as an assistant coach and math teacher in the class 3-A school system for 1973-74. Paul was a member of the Saddle Tramps while a student at Texas Tech. A participant in most sports, football, basketball, golf, swimming, cycling and tennis. Paul has been assigned the golf team to coach in the Spring, one of his favorite sports.

Mrs. Graham, the former Jane Owen, is the daughter of Mr. and Mrs. Wes Owens of Tahoka. After her graduation from Texas Tech University in December, Jane taught first grade in Iles Elementary school in Lubbock during the Spring semester. She hopes there will be a job opening in the Dayton school.

Since their move the couple have gone fishing at Galveston with Coach Birdsong and his family and have seen some of the other sights of the Gulf coast area.

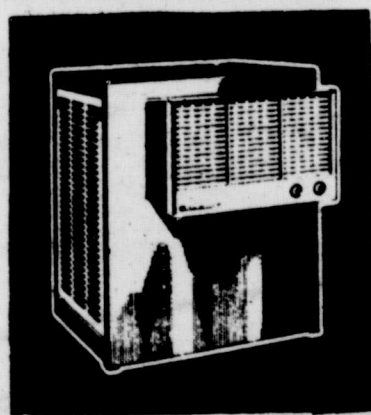

Williams - Baker Plans Wedding

Mrs. Mahota Williams of Lubbock announces the engagement and approaching marriage of her daughter, Tonya to Max Baker, son of Mr. and Mrs. F. W. Baker of Coleman.

The couple plan to marry Sept. 8, in the Tahoka Church of Christ.

**BILL GRIFFIN
SAYS.....**

Boll weevil catches on the trap line which border the Caprock are the highest they have been for this time of the year since the trap line was set in 1970. The boll weevil trap line is a series of weevil traps at one mile intervals along 300 miles of the

Caprock from Briscoe County to Borden County. The traps are baited with a synthetic hormone called "pheromone" which attracts boll weevils. The trap line is used to monitor the movement of boll weevils onto the Caprock.

The trap line has been in service since the beginning of May and 90 weevils had been captured through June 23. This may not sound like many weevils for 300 traps over a two month period, but over the same periods last year the traps had captured only 1 weevil. In 1970, the trap line had captured no weevils dur-

ing this period.

Besides the increase in number of weevils captured being of concern to program officials of the High Plains Boll Weevil suppression Program, the distribution of the weevil catch has been cause for concern. The majority (better than 50 percent) of the weevils have been captured in the East Plains area on top of the Caprock around the McAdoo - Dougherty area. In the past if weevils were detected early in the season, it was usually in this area. However, this year's weevils have been detected on the Northern portion of the trap line in Silverton - Cedar Hill area and also on the southern portion around Post, Grassland, and peninsula in Borden County.

NEW FORMULATION OF THE PHERMONE INITIALLY THOUGHT TO BE REASON FOR INCREASED WEEVIL CATCH

Initially, program officials felt that the increased weevil catch was due to the new formulation of the pheromone and the new container which controls its evaporation. However with last week's weevil catch bringing our total weevil catch to more than 90 - fold over last year and the distribution of catch extending the length of the trap line, program officials now feel that we could be facing a real boll weevil year.

Last year with excellent weather conditions for weevil development and the Boll Weevil Suppression Program hampered by application problems, more potential overwintering weevils were observed to enter overwintering habitat (shinnery trash, etc.) than in the past couple of years. The winter was cold but with more snow than usual; thus, the insulating effect of snow cover may have contributed to the successful hibernation of the weevil.

Accidents Kill, 2,200 On The Farm

CHICAGO — In 1970, an estimated 2,200 persons were killed in work accidents in agriculture, according to the National Safety Council.

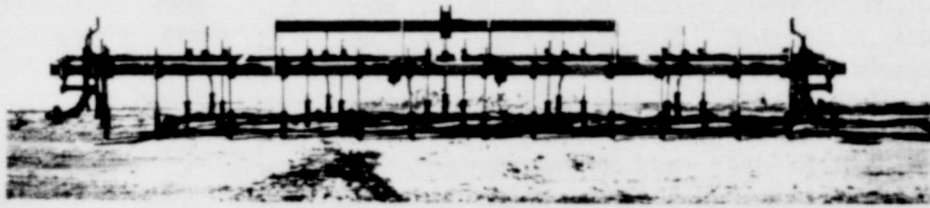

Using a standardized format, the statistical and departments conducted year studies of agricultural accidents in 10 states. The studies made by extension service and local volunteers show an estimated 169,000 injuries occur annually to farm accidents, workers and visitors in the states studied. Of the injuries, the report indicates that more accidents occur in farm structures than at other locations.

The survey area contained approximately 825,000 farms with more than 3 million farm residents. The results indicate that nearly two-thirds of total injuries were work-related and much of the remainder occurred during periods of leisure activity.

COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

Standing acreage of cotton on July 1 in the 25 High Plains counties surrounding Lubbock is estimated at 2,828,000, almost 8.7 percent above the 2,602,000 acres standing on the same date last year and the largest acreage in cotton since 1952's all-time record of 3.9 million.

The estimate was compiled by a joint committee of Plains Cotton Growers, Inc. and the Lubbock Cotton Exchange after gathering information from a variety of sources all over the Plains. The committee agreed that probably about 2,843,000 acres were originally planted to the snowy crop this year, with some 15,000 acres lost to hail, high winds and lack of moisture.

Initial plantings in 1972, according to the Texas Crop and Livestock Reporting Service (TCLRS) came to 2,657,800 acres, a figure which weather conditions by harvest time had whittled to 2,356,400.

Official figures on acreage and production of the 1972 crop became available at the same time PCG and LCE were making this year's first cotton estimate. Final production from the 25 Plains counties in 1972 came to 2,242,850 bales of 480 pounds net weight, an average of 457

pounds per harvested acre, the TCLRS report said. Farm-level value of this production, including lint, seed and price support payments, is calculated by PCG to have been something over \$440 million.

The joint PCG - LCE committee, beginning August 1 will issue production estimates on the Plains crop each month through December 1. The final production estimate made by the committee December 1 last year was for 2,012,000 bales, 230,000 bales short of the actual turnout shown by the TCLRS.

The committee, while not yet making an official guess at this year's production, agreed that as of now prospects are still good for a high yielding crop. However the entire area is in need of rain following the driest May and June in recorded Plains history, and hopes for a good year could rise or fall drastically as July weather unfolds. Cotton in most non-irrigated areas is holding up well so far and has established an excellent root system that will be an advantage if rain is forthcoming in the not too distant future.

Irrigated cotton, generally, is farther advanced than at this time last year and has an above average chance to produce a bumper, crop the committee thinks.

President Sets Safety Week

WASHINGTON, D.C.—President Richard M. Nixon has declared the week beginning July 25 as National Farm Safety Week.

In his proclamation setting

Lynn County News

the observance, the President said: "The dollar cost of rural accidents is high, but there is no higher price than the human suffering. This waste of precious human and economic resources must be reduced and can be reduced. The same energies and talents which have made agriculture so highly productive should also be turned to the task of making it safer."

"The unending supply of food and fiber provided by the Nation's largest industry, agriculture, has been the foundation of American prosperity since our country's beginnings," President Nixon observed. "The abundance on the farm, in turn, has been stimulated by constant technological progress. But the blessings of technology have sometimes been mixed, as each advance has also brought a new potential for injury."

The President, in proclaiming National Farm Safety Week, urged all persons engaged in farming and ranching to consider ways in which they can promote safer practices in work, home and recreational activities, and can exercise greater caution when traveling on public roads.

THE HABERDASHER WILL BE OPEN TILL 9:00 P. M. THURSDAY JULY 12 ONLY.

Farmcast

Compiled From Sources Of The Texas Department of Agriculture
John C. White, Commissioner

Texas Hog Producers Join In . . . Cattle and Calves Marketed Show Increase . . . Above Normal Grazing.

Texas, which is currently 14th in the nation in hog production, is showing a 19 per cent decline in numbers of hogs on farms as of June 1. Nationwide, the number is also down, but by only one per cent.

Hogs kept for breeding purposes on Texas farms totaled 150,000 head, down 18 per cent from a year ago. Market hogs and pigs totaled 810,000 head, down 19 per cent from last year.

Hog farmers in Texas intend to farrow 102,000 sows from now through November; this will be 11 per cent less than farrowings for this period last year. Reasons for the decline include the increased costs of feed and the fact that retail prices are frozen.

The December-May pig crop totaled 729,000 in Texas. This is 18 per cent below the 1972 December-May pig crop. Pigs per litter averaged 7.29 compared to 7.50 last year.

Nationwide, hogs and pigs on farms as of June 1 is down one per cent from a year ago. The December-May 1973 pig crop is estimated at two per cent less than the same period in 1972. Pigs per litter averaged 7.16 compared with 7.32 last year.

Hogs producers intend to farrow 6,000,000 sows now through November, which is virtually unchanged. If intentions are realized and projected pigs per litter are reached, the pig crop will be 43,600,000 head, up one per cent from 1972.

SALES of cattle and calves as well as sheep and goats at auction markets in Texas show an increase compared to a year ago. Hog sales are down from year ago levels, the Texas Crop and Livestock Reporting Service notes.

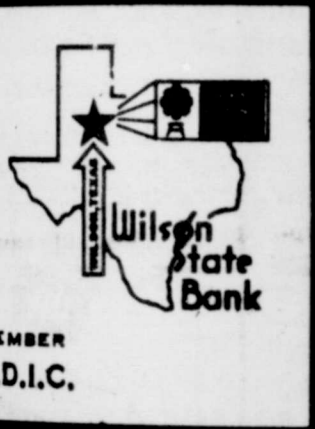

Cattle and calves marketed through auctions during May numbered 731,000 head, 26 per cent above a year ago, and 70 per cent above a month ago.

Sheep sales at livestock auctions during May at 230,000 head were 37 per cent above a year ago and 191 per cent above a month ago. Goats sold during May at 36,000 head were 24 per cent above last year and 20 per cent above last month.

Hogs sold during May at 41,000 head were 25 per cent below a year ago, but 21 per cent above a month ago.

EXCELLENT moisture conditions over most of Texas are maintaining ranges and pastures in above normal grazing conditions. Livestock condition is good to excellent. Horn flies and ticks have been bothering livestock but weight losses have not been severe. Rains have ruined some curing hay in East Texas but prospects for third and fourth cuttings are outstanding.

Screwworm outbreaks over the state are minimal compared to a year ago when the screwworm situation was completely out of control. Livestock producers are reminded to continue to submit suspected screwworm samples to the fly laboratory at Mission.
