### Kick-Off Time Changed For Tech

The Texas Tech, Baylor Universities football game in Lubbock has selected for regional television by ABC TV according to Athletic Director J. T. King. The game originally scheduled for 2 p. m. is now set for a 12:50 p. m. kickoff.

Notification of the plan to televise the game was received Monday. The game will be televised in 12 states and will provide wide exposure for both universities and the entire South West Conference will share in the proceeds.

Texas Tech University wanted to advise all fans throughout the area on the new kickoff time in order not to inconvenience them.

Tech is hoping for a big crowd Saturday in Jones stadium as a tribute to the fine 8-1 record the Raiders have compiled and also as a tribute to the graduating seniors who will be playing their last home game.

This is the second year that ABC has selected it's collegiate schedule on a week to week basis late in the season with emphasis on choosing the top game of the week.

"Payment In Full"

Suppose somebody owes you money. According to your figures, the amount is \$300. But the debtor insists that the amount is only \$200. One day you receive a check from him for \$200. On the back he has written the words: "PAYMENT IN FULL."

Should you cash the check and take a chance on collecting the extra \$100 later on? It is tempting to do just that.

The trouble is that if you cash the check as is, the law will probably consider the whole debt wiped out. The debtor has made you a legal offer to settle up for a total of \$200. By cashing the check you are accepting his offer and agreeing to a final settlement at that figure.

True, with the \$200 check in your hands, you might be reluctant indeed to let it go. One man in this predicament tried to steer a middle course. He erased the word "FULL" and substituted the word "PART," then cashed the check.

However, his strategy did not work. A court held later that he had no claim to any more money. The court said he had no authority, on his own, to alter the terms of the defendant's offer.

Another man tried something else. He too cashed a PAYMENT IN FULL check, but at the same time wrote the debtor that he simply was not accepting it as a full settlement.

But again, a court ruled that the entire debt was wiped out. The court said the man's actions in cashing the check spoke louder than his words of disavowal.

Even if you don't cash the check but merely hang onto it, you might be held to have accepted the debtor's offer. Silence can mean consent.

However, that wouldn't happen right away. In one case, a creditor kept such a check for six weeks before mailing it back to the debtor. The latter thereupon insisted that the delay had cancelled the entire debt.

But a court decided the debt was still due and payable. The court thought six weeks was not an unreasonable time, under the circumstances, for the creditor to weigh his next move.

That's why the month of November is dedicated to farmers and ranchers and the quality products they produce as well as the other people who make the culture what it is in Texas. Texas leads the nation in annual production of beef cattle, sheep, grain sorghum, cotton, onions and wool and ranks first in total farm and ranch output. Despite rising prices, food products are still one of the best values to be had anywhere. And quality is second to none. The recent food price situation brought agriculture to the forefront and has focused more attention on its importance.

So, you sure can say that those products in food and fiber production and processing deserves that "thanks" for a job well done.

Turkeys are fat. And, if you like many American families, you're planning turkey for the dinner table this Thanksgiving.

do you look for when you buy a turkey? A government inspection stamp insures that the turkey has been inspected for wholesomeness. While grading as to quality and C is not mandatory, it is a good guide for buyers. The stamp also gives information on preparation, cooking, and

meat yield, highest-grade birds give best results.

How many servings can you expect per bird? When buying turkeys under 12 pounds, allow three-fourths to one pound per serving (ready to cook weight). When buying medium or heavy birds, 12 pounds and over, allow 1/2 to 3/4 pounds per servings. The actual number of servings depends on the quality of the turkey, correct cooking and carving skill.

More than likely the turkey you buy will be frozen. There are two ways to thaw a turkey. The first method is to defrost on a tray in the refrigerator in partially opened or punctured plastic wrap for 2 to 4 days, or 24 hours for each 5 pounds of turkey. When turkey is pliable, take off the bag, remove giblets and neck, cover with damp towel, and refrigerate until ready to roast.

The other method is to thaw in cool water 6 to 8 hours in the unopened plastic wrap, changing water frequently. Never use warm or hot water. When turkey is pliable, remove the wrap and proceed as above.

Some experts claim that the slower the thawing the better the aging. With both methods, thawing has a tenderizing effect on the meat.

It is preferable to cook a fresh or thawed turkey promptly. However, a thawed, ready-to-cook turkey can be kept for 2 to 3 days in a refrigerator. Keep covered with a damp towel. It is not advisable to refreeze. **TO STUFF OR NOT TO STUFF!**

For most people, holiday menus featuring whole roast turkey just wouldn't be complete without savory stuffing to enjoy. However, turkey can be roasted nicely without stuffing. Merely rub the inside of the body cavity with salt (about 1/4 teaspoon per pound) and secure legs and wings as you would if the turkey were stuffed. An unstuffed turkey will cook more quickly than a stuffed one, due to quicker heat penetration.

RECIPE OF THE WEEK:  
Old-Fashioned Bread Stuffing

- 1 quart diced celery
- 1 cup finely chopped onion
- 1 cup butter or margarine
- 4 quarts bread cubes, firmly packed (2 to 4 day-old bread)
- 1 teaspoon salt
- 2 teaspoons poultry seasoning
- 1/2 teaspoon pepper
- 1 1/2 to 2 cups broth, milk, or water

Cook celery and onion in butter or margarine over low heat, stirring occasionally, until onion is tender but not brown. Meanwhile, blend bread cubes and seasonings. Add celery, onion and butter or margarine; toss lightly to blend. Pour the broth, milk or water gradually over surface of bread mixture, tossing lightly. Add more seasonings as desired. Makes enough stuffing for neck and body cavities of a 14 to 18 pound ready-to-cook turkey.

For more information on preparing your turkey for the Thanksgiving table, call the County Extension Office.

### JOHNSON REUNION

On Sunday, at the Community Center, about forty-five descendants of the late John M. and Susie Johnson met for a family reunion. There were originally seven children in the family, one is now deceased. Of the surviving six only three were able to attend. They are: Mr. and Mrs. Cecil (Pearl) Caraway of Hico, Mr. and Mrs. Pete (Sue Ellen) Dorman and Mr. and Mrs. Moman Johnson, both of Tahoka. Out of town relatives attending were: Billy Dee and Joe Dorman of Abernathy, Almon and Mary Crotwell and daughter Janice of San Angelo, Robble, Deloris, Danny and Dorinda Dorman of Jal, N. M., Don, Billie, Jo Lynne, Wesley, Russell and Tracy Scoggin, Leo and Juanelle Wiley, Johnny, Wanda and Butch Johnson, and Trina Caraway all of Lubbock. Attending from Tahoka were: Garland Pennington, Jessie, Kathy, Jimmy and Donna Dorman, Harold, Debbie, and Vicky Crotwell Elwayne, Pat, Wayne, Gary and Garland Crotwell, Jerry, Veta and Leslie Ford.

Mrs. Thelma Dewbre was called to attend the funeral for an aged aunt, Mrs. Lena Hagens of Brownwood. Services were held at 2:00 p. m. Monday at Davis and Morris Funeral Chapel in Brownwood. Mrs. Dewbre made the trip with her cousins Mr. and Mrs. W. D. Sanders who live in Abernathy.

Beula Atkins left Sunday to spend a few days with her brother's family, Mr. and Mrs. Hubert Davis at Floydada. She will stay through the Thanksgiving holiday.

Visiting in my home this weekend were my sister, Leta Brown of Lubbock and her daughter's family, Mr. and Mrs. Frank Tow,

Doug and Scott of Amarillo. Mrs. Tow the former Betty Jo Brown lived in Petty and New Home Community and attended New Home Schools before moving to Amarillo. Frank is associated with Tow Bros. Trailer Co. there. Betty is a teacher in Sam Houston Jr. High School.

In view of the impending fuel shortage, the "boys" took out a tree and did some trimming of others for me, resulting in a pickup load of firewood to be used in their fireplace this winter. That kind of company is always appreciated and here's hoping they decide to come again soon as there is more tree trimming to be done.

Mrs. Lura Mae Gaither attended funeral services on Monday morning for a cousin J. D. Whitley of Lubbock. Services were at 10:00 a. m. in Calvary Baptist Church. Burial was in Resthaven Memorial Park. He had been a resident of Lubbock 13 years, was a retired farmer and businessman, a member of the Baptist Church and a Mason. Masonic Lodge had graveside services.

Only a few packages of pecans are left! Call a Rebekah if you need them for your holiday cooking!

Revival services at First Baptist Church are being well attended. Several visitors from other towns have been in the services as well as members of other churches here in town. There are still several chances for you to hear some good singing and preaching if you haven't been yet. Ladies S. S. Classes are serving the noon meals and these are well attended. The meeting will continue through Sunday with baptismal services Sunday night.

## Tahoka High Happenings

By ... DEBBIE RAINDL

Football season is quickly coming to an end this week as the Bulldogs, some of them for the last time, will travel to Post Friday for their last contention of the year. Last week the Bulldogs were badly battered by Denver City, but with a win over Post, they can still come out with a tie for second place in district. Second place is better than third, guys!

Last week, THS had more spirit than I have ever known it to have, as many things were done to boost the Bulldogs. One of these was the Spirit Chain to which grades four through twelve contributed. For every penny donated to the class' "spirit fund" a link was added to that class' chain. The juniors had the longest chain with 2,085 links, while the seniors came in second with 1,865 links. The chains were then put together and used in the victory line before the game.

The JV team did not have a game last week, but the Freshmen crushed Seminole, 12-8. The two teams will play host to Post tonight at 5:30 p. m.

As you can see, football was about all that happened last week and is about all that is happening this week. We are all looking forward to the Thanksgiving

holidays, which will begin Wednesday, November 21, at 3:05 p. m.

Next Monday also marks the beginning of basketball season with 7th, 8th, and 9th grade (girls only) playing Roosevelt, here, beginning at 5:30 p. m. Tuesday, Varsity tips off here, with O'Donnell, at 5:30 also. The Varsity boys, girls, and Junior Varsity girls will be playing.

GO BULLDOGS!!! BEAT POST!!!

### NURSING HOME NEWS

Another week has gone by and time to write the happenings here in the home again.  
Mrs. Carlos Edwards of Denver City surprised us with a basket of ripe tomatoes which we sure did enjoy.  
Kay Dopson, our new Activity Director, now replacing her Mother Lois Bishop, was here Wednesday. Kay took several of us shopping which was sure a much enjoyed treat. I think we are going to enjoy having her here with us each week. She is a to enjoy her work.  
The Staff has the home all decorated for the Thanksgiving Holidays. A group of girls are also going to come and put up more decorations, so we are going to have a much celebrated Thanksgiving. We are even going to have a turkey and pemkin pies so Mrs. Price says.  
All of our friends and loved ones continue to visit even though they forget to sign our guest book. This writer has been sick so news will be sorta scarce this week.  
Mrs. Price was ill over the weekend and the first of this week. She went to the Doctor Saturday and the doctor wanted to hospitalize her but she felt she was needed here. She went

### Lynn County News

back to the Doctor Monday and says she is feeling better today.  
Bertha Jolly checked on her father, Clark Allen, who hasn't been feeling too good lately. She is taking him to Brownfield to his Doctor today and will probably stay a few days in the hospital to have a good check-up.  
Mrs. Corbin is back home from the hospital. It is good to have her back with us again.  
The O'Donnell Baptist Church brought our Sunday Evening services this weekend. Bro. Bowman used several scriptures from the Book of Revelation on the perfect home we are all striving to go to when all our suffering is over. There will be no pain or distress or worry, all will be peace and joy. There were not too many patients out for the services, some didn't feel up to coming out and some forgot it was Sunday. The aides try to get everyone out on Sunday evenings, but with so many patients now, sometimes they get a little behind time in getting everyone dressed and out in time. It is a treat and a blessing that the churches take time out to visit the home each Sunday and bring us our services.  
Singing will be wonderful as usual as I am closing this before singing starts.  
Dr. Prohl is our checking on some of Dr. Wright's patients until Dr. Wright returns.

Justices of the peace from Lynn County were among the 72 who participated in a 20-hour in-service training held in Amarillo Oct.

The training school was held under the auspices of the Texas Justice of the Peace Training Center, headquartered at Southwest Texas State University in San Marcos. It was the second in a series of 10 which will be held throughout the state.

The in-service training school was designed to help satisfy judicial training requirements set forth by the state legislature.

As a result of bills passed by the 62nd and 63rd legislatures, justices of the peace must complete a 40 hour course in the performance of their duties within one year of taking office and

then complete one 20-hour course each year thereafter. The local judges participating in the Amarillo program were

Cliff Lambert of O'Donnell, precinct 4; and N.E. Wood of Tahoka, precinct one, place one.

# DC BEATS TAHOKA 41-0

Denver City won toss, Tahoka KO, and Denver City used up 2 1/2 minutes in a scoring drive of 7 plays, aided by three penalties on Bulldogs and a 28 yard pass. FB Gary Freeman bulled over right guard from 1 yard out, and HB Roddy Murray ran for the conversion.

Timmie White brought the kick off to the 41, and he, Jimmie Bailey and Weldon Warren alternated in a drive for a first down on the Denver City 20, but bogged down on the Denver City 14.

The Bulldog defense now stiffened and forced Denver City's only punt -- a 46-yarder, the offense couldn't move.

Early in the second period Tahoka covered a Denver City fumble, but couldn't move and a short Tahoka punt gave the Mustangs the ball on the Tahoka 43. Six plays the ball on the Tahoka 43. In six plays Denver City took the ball to the Tahoka 20, the Dogs drew another 5-yard penalty, and then Freeman broke through left guard and ran 15 yards for a touchdown, and Tom Hicks kicked the conversion. The score now was Denver City 15 to Tahoka 0.

Later in the half, Murray passed 20 yards to Rodney Young for another TD. Hicks again kicked the PAT.

Tahoka came out to take the kick off in the second half. They moved on 4 first downs to the Denver City 26, but bogged down-- Denver City took over and required just 4 plays to march in for another score with Freeman going the last 5 yards. The kick was no good.

Ending a 53 yard drive, Bruce Shores went 3 yards for another TD. The PAT failed and the score now was 34-0.

The Bulldogs again moved into Denver City territory, but a 4th down desperation pass failed, Denver City moved to the Tahoka 26 and then passed 26 yards to Mike Stafford. The kick was good for a final score of 41-0.

Tahoka put on one more drive to the Denver City 14 but lost 11 yards trying to pass and that was the Bulldogs last chance. Bailey got away on a 24 yard run; his longest of the game.

# School Board Hears Audit

The Tahoka I. S. D. Board of Education held a regular monthly meeting on Thursday, November 8, and received a report of the annual audit of all funds for the 1972-73 fiscal year. Mr. Orland Gilbert, of the firm of Bolinger, Segars, Gilbert and Moss, presented the audit report.

In other business the Board approved the purchase of a 60 passenger school bus and approved the appointment of certain staff members to the Textbook Committee which will examine textbooks that are to receive new adoptions for the 1974-75 school year. Each year certain textbook contracts expire and new adoptions are made. All textbooks that are adopted for use in the State of Texas are examined and recommended by a State Textbook Committee that has been appointed by the State Board of Education. Each local

School District, each year, is to have a local textbook committee appointed by the local Board of Education. The local Textbook Committee examines sample textbooks that have been approved by the State Board of Education for use in Texas Schools and makes recommendations for such adoptions as are to be used in the local schools.

Subject areas to receive new adoptions in the Spring of 1974 are: Supplementary Readers, Pre-Primer -- Grade 3, Arithmetic, Grades 7-8, Physiology-Hygiene, Grades 4-8, Physical Science, High School, Band, Levels 1-111.

Those appointed to the textbook Committee are: Mrs. Wanda Smith, First Grade, Mrs. Virginia Griffing, First Grade, Mrs. Gerald Deane Wood, Second Grade, Mrs. Belva Whittington, Second Grade, Mrs. Zuma Mc-

Whirter, Third Grade, Mrs. Nancy Williams, Third Grade, David Weaver, Math, Grades 7-8, Mrs. Karen Swink, Fourth Grade, Mrs. Peggy Atwell, Fifth Grade, Mrs. Juanita Harrington, Sixth Grade, Miss Paula Jones, Sixth Grade, Mrs. Linda Massey, Junior High School and High School girls Physical Education, Miss Carole Schoening, High School Physical Physical Science, David Tucker, Band, Harold C. Reynolds, Chairman.

The Board also abolished a policy pertaining to maternity leave for teachers due to the fact that the policy was in conflict with statutes passed by the 63rd Legislature.

Various reports concerning the operation of the schools were presented to the Board.

Members attending were: Robert Warren, Vice President; Othell Meeks, Secretary; Maurice Huffaker, J. D. Atwell, Kenneth Turner and Dayton Parker. Also in attendance were Mrs. Peggy Elliot, Director of Business Affairs, Larry Wilson, Principal of North Elementary School, and Superintendent Harold Reynolds.

# Cotton Harvest Increasing Daily

The South Plains cotton harvest is gaining momentum daily as stripping operations increase in all counties, according to Paul R. Dickson, in charge of the U. S. D. A. Cotton Classing Office in Lubbock. This great increase in harvest activity is reflected in the increasing number of samples being received daily at the four area U. S. D. A.

classing offices. Approximately 20,000 samples were received at the four South Plains offices on Friday. This was the largest number of samples received any day this season and this volume is expected to increase daily if favorable weather continues. During the peak of the harvest this volume usually reaches 50,000 to 60,000 samples per day. Classers from other areas are being transferred to the local classing offices to take care of this increased volume.

The U. S. D. A. classing offices at Lubbock, Brownfield, Lamesa, and Levelland classed 92,000 samples last week and had approximately 96,000 on hand Friday afternoon. Total classed so far this season now stands at 188,000. This is far ahead of the volume at this date last year when only 8,500 samples of the 1972 crop had been classed.

Quality of the cotton harvested continued excellent and is considerably higher than last year.

Grades 31 and 41 continued to be the predominant grades at Lubbock, making up 72 percent of all classed. Grade 31 made up 32 percent, Grade 41, 40

percent and Grade 32, 12 percent.

Staples were predominantly to 32. Forty-five percent staple lengths of 30 and shorter and the remaining 55 percent stapled 31 and longer. Average staple length was 31.2-32.00 an inch.

Micronaire readings are indication of fiber fineness maturity. These readings indicate that most of the early harvested bales were fully mature. Eighty-three percent of all bales tested at Lubbock had micronaire readings in the present range of 3.5 to 4.9, 11 percent was in the high micronaire range of 5.0 to 5.2 and 4 percent in the very high range of 5.3 and above.

The Agricultural Marketing Service of the U.S.D.A. reports increased trading on the Lubbock market. Prices were up to \$30.00 per bale higher averaged 34 cents per pound the loan. Most lots were selling in the price range of 60 cents per pound.

Average prices paid for most predominant qualities 3.5 to 4.9 premium micronaire range were: Grade 31, \$30.49.65 cents per pound, Grade 31, Staple 31-52.40, Grade Staple 32-55.40, Grade 41, \$30.48.70, Grade 41, Staple 51.25, and Grade 41, Staple 53.95.

Cottonseed prices were higher and farmers received an average price of \$102 per ton.

# COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

The High Plains Boll Weevil Control Program for 1973 wound up with "perhaps the best overall results achieved in any of the past four years," according to Service Director Ed Dean of Plains Cotton Growers, Inc., Lubbock.

Dean said spray contractors performed well, the weather for most part was good, and that boll weevil populations were reduced to very low levels. The program was initiated by the U.S.D.A. in 1964 as a means to protect the huge acreage of unincorporated territory and the U. S. borders above the Caprock in East Texas. It is jointly financed by cotton producers in PCG's 25 counties and the U. S. Department of Agriculture, with equipment and personnel furnished by the Texas Department of Agriculture.

Methods and techniques developed in the High Plains program, acclaimed for their success across the nation, are now being hailed as possible stepping stones to a beltwide weevil eradication program. The Secretary of Agriculture is authorized by Congress in the Agriculture and Consumer Protection Act of 1973 to carry out a nationwide eradication effort when it appears practical.

The High Plains Program in 1973 required spraying of an aggregate total of 643,000 acres, some heavily infested fields as many as six times. The total treated acreage in the season was 542,000, and figures compare with well over 1 million acres sprayed each of the first few years of the program.

Using non-toxic, ultra low volume Malathion as the insecticide, the weevil's reproductive cycle is broken with Spring ap-

plications, and additional dosages are flown on in the Fall before remaining weevils can go into hibernation.

The program's control zone lies primarily in Dickens, Motley, Floyd, Briscoe, Hall, Crosby, Garza and Kent counties, with smaller acreages treated in Dawson and Borden counties.

Asked how long the control program or "holding action" on the Plains will be continued, Dean said "We dare not turn the weevil loose at this stage, and plans are to carry the program on until such time as a beltwide or at least a Statewide program can be utilized to relieve the pressure."

XXXXX

The 2,707,000-bale cotton crop estimated for the 25 High Plains counties represented by Plains Cotton Growers, Inc., Lubbock, indicates a new record for total production on the Plains, but falls well short of the per-acre yield record set in 1965.

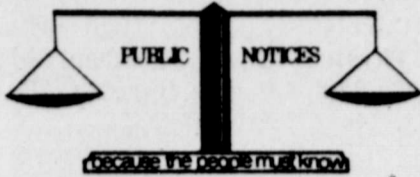

In 1965 the area turned out 2,301,100 bales from only 2,149,200 acres for an average yield of over 513 pounds per acre. This year's production, to be harvested from an estimated total of almost 2,710,000 acres, anticipates an average of only 479.5 pounds per acre.

The previous record for total production was set in 1961 when the 25 counties gathered 2,443,900 bales off 2,416,000 acres, a yield of 485 pounds.

Still, the estimated 479.5 pounds per acre this year, if correct, will stand as the fourth highest on record, exceeded only in 1961 and 1965 as noted above and in 1968 when the second highest yield was recorded at 495 pounds.

The intensive cotton production area of the Plains didn't produce an average of 400 pounds

per acre until 1958, but has averaged 438.7 pounds per acre over the 15 years since that time. Only three times since 1958--in 1970, 1971 and 1972--have the 25 counties fallen below 400 pounds. Yields for those years, respectively, were 349, 389 and 264 pounds.

## BILL GRIFFIN SAYS

November-- a month steeped in tradition, a time of harvesting, a time for Thanksgiving! And what better time than to pay tribute to the great agricultural industry in Texas for the high quality food and fiber products that are available to consumers. That's why November has been designated as "Food and Fiber Appreciation Month."

Farmers and ranchers and those engaged in processing and distributing food and fiber products deserve a great deal of credit for the everyday miracle of feeding and clothing the people of this state and nation. And, with Texas being a leading state in exporting agricultural products, we are now providing food and fiber for many other countries as well.

Consumers in the United States spent more than \$ 125 billion for food in 1972, making food retailing the nation's largest retail industry. In Texas the amount totaled about \$6.4 billion.

This continued growth in the food industry is attributed to increased per capita disposable income for a growing population and the increased demand for services associated with food. Un-

employment is down and with more than 40 per cent of all wives now working, eating out and convenience foods are also adding to the boom in the food industry.

With present-day technology and expertise, agricultural products now account for only about five percent of the nation's population. Yet, they do an efficient job, in fact they produce enough food and fiber for themselves and more than 50 other people.

Yet, as more and more generations of families become further removed from farm and ranch life, agricultural producers are sometimes forgotten and their role in our society and economy is overshadowed by other 'more contemporary' events and happenings.

But they along with the people engaged in overall agribusiness industry continue to be the backbone of this country, providing what is so often taken for granted -- high quality food and fiber products.

## SHOOK TIRE AND SUPPLY

"ED" GRISSOM - MANAGER

The name Shook Tire And Supply in Lamesa located at 107 Dallas Avenue phone 872-2895 has become a popular byword in the area for farmers, businessmen and drivers in general for their friendly service and excellent line of the popular high quality Michelin and Lee tires.

We all know that worn tires can be extremely dangerous, but sometimes the cost of buying new tires can make us put off taking the steps of retiring our car or truck. Don't let that factor bother you anymore. The management at this well liked tire store has made arrangements for easy budget terms for tire pur-

chases.

Along with their fine line of reasonably priced tires, you'll not find a more friendly and honest firm to do business. Everyone in their employ is fully trained in selecting just the right tire to do the job and they also make sure that when it is mounted it will be in perfect balance.

In this 1973 Review, we, the authors, are pleased to recommend this tire dealer to all of our readers, and commend the management for continued efforts to serve the people of this section to the best of their ability. Remember the name, the Shook Tire and Supply for all your tire needs.

## O'Donnell Bops Shallowater, 22-12

After overcoming a 6-3 half-time deficit, O'Donnell's Eagles rallied with three straight third-quarter touchdowns to overcome Shallowater 22-12, keeping alive Eagle hopes for top honors in District 5-A.

O'Donnell used the kicking toe of Jimmy Amaro for a quick 3-0 lead in the first quarter. Amaro's field goal covered 31 yards.

The Mustangs came back strong in the second quarter on an 8-yard gallop by Bobby James. The PAT failed.

The Eagles overcame their stage fright during half time and roared back for three consecutive

TD's in the third quarter. Scotty Childress scampered 55 quick yards. The Mustangs blocked the PAT kick.

On fourth and nine, Amaro connected on a 29-yard aerial to Mike Haney. Amaro then booted the PAT.

Only minutes later, Amaro slammed into the end zone. The PAT failed.

Bobby Reeves scored for Shallowater, on a one-yard quarterback sneak.

The Eagles are now 7-2 for the season and will meet Plains there Friday night at 7:30 p. m. This game could determine the district title.

## J. C. PENNEY COMPANY, INC.

R. E. (RON) LAYTON - MANAGER

This enterprise originated in the mind of an energetic business man named James Cash Penney, who established the first store

in Kemmerer, Wyoming. The story of the J. C. Penney Co., is an important chapter in the history of modern mercantile methods. It is more than important, it is inspiring. It is a story of a business with a big idea behind it. The big idea

with them for years has been and is today unflinching governed by the Golden Rule: Every customer pays one and the same price, and that price assures a superior quality.

They carry at all times a large stock of ladies' and misses' ready - to - wear garments and shoes, ready - to - wear for men and boys, notions and general household items. Truly one of

the reliable and progressive mercantile houses in this part of the state is your J. C. Penney store. It is located in Lamesa at 1611 South 1st Street, phone 872-2895. The authors of this 1973 Review Edition take pleasure in commending this store to our readers. Remember, you can charge it at Penneys. For help to find items (and for your convenience), shop our catalog department, phone 872-2151.

## Girl Scouts Has Meeting

On Nov. 1, the fifth grade Girl Scouts Troop 396 had our regular meeting. The fourth grade Girl Scouts were our guests.

Mr. Frank Hill spoke to us about the Indians who used to live around here. He had a display of arrowheads and pottery pieces which we enjoyed. He told us that the most common Indians around here were Comanches and some Apache's and Kiowas. They lived in teepees

because they moved around so much. They hunted buffalo and used nearly all the buffalo for different things. He told us about some of the battles that took place around here. Mr. Hill personally knows two sons of Chief Quannah Parker. They told him they thought their father was born at Tahoka Lake. It was a very interesting talk. It was very good of Mr. Hill to talk to us.

On Nov. 8 we had our regular meeting. We finished Indian Lore Badge requirements.

We learned some Indian legends. We learned which states had Indian names and their meanings. Our favorites were Oklahoma meaning red people; Missouri meaning friend; Mississippi meaning town of large canoes; and Wisconsin meaning white water. We were presented our Indian Lore Badges by our leader, Porterfield. Sandra Woodman had refreshments.
