RSHIP AWARD WINNER .. William A. Curry, Jr., T exas Tech sity Air Force ROTC cadet from Tahoka, accepts the Proof Aerospace Studies Senior Leadership Award from Col. E. Baker, professor of Aerospace Studies at Texas Tech. esentation was made in ceremonies on campus this week. of 2402 36th St., Lubbock, is the son of Mr. and Mrs. Wil-A. Curry of Route 2, Tahoka. He is a senior mechanical ring student. The award he received goes to a senior who has demonstrated superior leadership qualities, excepmilitary bearing and appearance and general all-round exin Air Force ROTC studies and activities.

IF APPLICATION APPROVED **Slaton Savings To Build Branch Office In Tahoka**

Florence Davles

B.B. Castleberry, Senior Vice-President of Slaton Savings and Loan Association announced Tuesday that Slaton Savings and Loan Association had made application with the State Savings and Loan Commission for permission to locate a Branch Office of the Association in Tahoka, within one mile of the Intersection of Lockwood and US 87.

The Branch office will serve existing depositors in Lynn County as well as loans made by the Association in Tahoka and Lynn County and the surrounding area.

Slaton Savings also has a branch office in Post that opened in October of this year and the Branch operations are designed to encourage thrift and home ownership. A local branch best serves the area.

All Savings and Loan deposits are insured to \$20,000 per account by the Federal Savings and Loan Insurance Corp.

Slaton Savings has total assets of twelve million three hundred thousand dollars and its assets have grown by 3 million in the last year.

The Slaton Savings and Loan Association was organized 14 years ago and has served Lynn and Garza County since that time. The Association has paid it's

depositors over three million six hundred and eighty five thousand in dividends since 1959.

Currently the Association is paying interest on accounts ranging from 71/2 percent on 4 year certificates with a minimum of \$1,000 to 51/4 percent on pass book accounts.

Fred Myers of Post, Texas is Executive Vice-President of the Association.

The Association is planning to develop 10 houses in Tahoka in 1974, prices ranging from \$19,000 to \$34,000 and 2 duplexes.

Post Office Open Saturday

The Tahoka Post Office will be open from 9:30 a.m. to 12:00 noon on Saturday, Dec. 22, and Monday, Dec. 24. Be sure and pick up your mail and packages by noon Monday.

Energy Saving Measures

Tahoka Board Approves

The Tahoka I.S.D. Board of Education held its December meeting Thursday, December 13, and approved several energy saving measures in line with the Governor's request for voluntary steps to be taken by school districts during the current energy crisis. The measures are as follows:

--Set all thermostats at 68 degrees during cold weather and at 78 degrees during warm weather, with the 76 degree variation for areas of high humidity.

-- Turn off all unnecessary lighting;

--Close off and reduce heat to the minimum in all portions of buildings not necessary to the instructional program;

-. Where possible, plan maintenance and custodial work to be done during the day rather than at night.

Several of the items, plus the setting of a maximum speed of 50 miles per hour for all school vehicles, had received attention before the Governor made his request.

Other energy saving measures adopted included the curtailing of use of the North Elementary Gym by outside groups during the energy crisis. Regarding the use of other facilities by outside groups, the rental fee of \$10.00 per day or night was changed to \$25.00 per day or night.

In other business the Board accepted resignations, effective December 21, for Mrs. Lou Ann Thornton who teaches in the fifth grade and Miss Suzanne Jacoby who teaches Spanish and English in the high school as well as approving additions to the list of approved substitute teachers.

Mrs. Donna Edwards Stone was employed for the new Kindergarten unit which will be initiated after Christmas. Mrs. Stone is a graduate of Tahoka High School

and Texas Tech.

Various reports concerning the operation of the schools were received. Members in attendance were: Robert Warren, Vice President; Othell Meeks, Secretary; J.D. Atwell, Maurice Huffaker, Dayton Parker and Kenneth Turner. Also attending were Mrs. Peggy Elliott and Superintendent Harold Revnolds.

COTTON GINNINGS REACH 206,000

206,000 bales of cotton had been

tagged in at Lynn County gins as of last Friday with approximately 35,000 bales of cotton in ricks.

According to County Agent Bill Griffin, approximately 10 percent of the 1973 cotton crop is still on the stalk in the county and the county will produce in the 250,000 to 260,000 bale range this year.

Although the bale count will probably be a little short of last year's all-time high, Lynn County farmers and ranchers will enjoy considerably more income from this year's crop. Last year's agricultural income was a little over 28 million dollars with this year's estimated agricultural income estimated at over

60 million dollars in the county. The average income for farmers and ranchers in Lynn County over the past several years has been from 25 to 28 million dollars including Government checks.

Issue NO Week lext

The Lynn County News will not publish an issue next week so that it's employees will be able to spend the holidays with their families. A frequency change is pending with the United States Postal Department. The Lynn County News will publish the News each week except the last week in December of each year. The Publisher

Dear Santa Clause,

I have been a good boy this year. I would like a train and boy doll under our tree this year.

My brother and I decorated our old fashioned Christmas tree ourselves. We are waiting for you to see it. We think it is very pretty. It is sitting right by the window so you can come in through it.

I love you Santa. Tell Mrs. Santa Clause hello.

I am two years old. Thank you. Love, Cary Timmons Ft. Stockton

Dear Santa Clause,

I have been a good boy this year. How has everything been up at the North Pole? I would like a train and a bear and train track for Christmas. Please put them under our real Christmas tree. It is very beautiful and we have our sockings hanging by it. Please come through the window.

I have a new baby brother this year again. He is one week old and his name is Cody. We think he is pretty. I am 4 years old. We all love you Santa and Mrs. Santa. Don't forget us on Christmas night and a whistle for Cody. He don't have any teeth. Thank you. Love,

Cal Timmons Ft. Stockton

In this illustration of a trio of quaint-looking musine. In this illustration of a trio of quaint-looking musine playing carols in the street, he has captured the ns playing carols in the street, he has captured the nor of an old-fashioned Christmas in a small town.

wor of an old-fashioned offisional fin a small town. tis the authenticity in this painting as in all Norman twell's work that inspires such lasting, universal aptwell's work that inspires fakes a detail.

Normall town residents posed for the three musinormal town residents posed for the three musins in clothing that had been carefully selected from Rockwell's huge wardrobe of costumes. The lantern musical instruments were garnered from antique ps across the countryside.

he painting shown was originally commissioned by limark for a Christmas card.

d Camels Are Most Picturesque of

Bible Animals

Camels and Christmas seem to go together. The Three Wise Men used camels in their stately journey to Bethlehem to the scene of the Nativity. They have a rather regal bearing that has become an integral part of the Christmas picture.

The camel sees objects at great distances and scents water long before the driver spots an oasis. A great asset in desert travel is its "extra stomach" and a storage bin in the hump which enable it to travel long distances without food or water. The camel is also known for its snarly temper and foul breath.

The camel's gestation period lasts a year, and produces only one offspring at a time. The baby camel stands 3 feet high at 8 days. It suckles its mother's milk for a year.

Many valuable products come from the camel. Its hair is clipped in the summer and woven into the finest warm garments. Its hide is used for bags and shoes. Its manure is used for fuel cakes. For food, it supplies milk.

We'd like to wish our friends happy holidays...and also happy motoring!

With the anticipated limited supply of nitrogen and phosphorus fertilizers for 1974, farmers must set priorities for the use of what fertilizers they can obtain.

Before buying any fertilizer, a farmer should know the levels of nitrogen, phosphorus and potassium in his soils and decide what soils are in the greatest need of each nutrient. For example, fields that have not been fertilized for several years may be low and show the greatest need for phosphorus. Nutrient levels should be established now and a priority list made to indicate the fields to be treated. You should make an estimate

for the effects of less than optimum rates of fertilizer when needed supplies cannot be obtained.

For example, yields of crops grown on soils high in phosphorus would not be reduced if no phosphorus was applied in the ferlizer. However, this would not be true with nitrogen since most soils are low in this nutrient. Therefore, the rate and timing

Tynn County News

of nitrogen fertilization will be important factors affecting 1974 crop yields.

This means that the available nitrogen and phosphorus fertilizers should be reserved for those soils low in these nutrients. If soil nutrient levels are adequate, then a farmer should not apply more fertilizer.

Farmers should use only the fertilizers that contain those nutrients needed. With the short supply, anticipated good prices for farm products next year, and available funds to purchase now, there will be a tendency for the producer, dealer and others to accept what fertilizer is on hand as a suitable fertilization practice. However, this may not result in the greatest contribution to production on a given farm or to the total production for a county, region or the entire state. Soil tests can supply the neces-

sary information about soil nut-

rient levels on which to base de-

cisions about fertilization practices. Soil nutrient levels, the particular crops to be planted, and production practices such as irrigation, must all be considered

SOIL CONSERVATION NEWS

From the time a raindrop is formed in the sky it belongs to somebody. Think about that and think also about the importance of raindrops to the high plains area and Lynn County in particular. The raindrops which fall on your farm or ranch are yours to keep and use or lose.

In our area where irrigation water is becoming more scarce every year and most farmers are considered dryland farmers, the average annual rainfall of 18 inches is becoming very important. But with this importance must also come a recognition for water conservation on our farms and ranches. Generally, the water one gets from a rain is what falls on his farm, and just as much falls on one farm as another. How much of that very important 18 inches of rainfall do we keep on our farms and ranches? Drive through the country sometime following a good rain and see the silted up and washed out roads, see deep gullies and sheet erosion on many of our productive cropland fields, see where the valuable water has rushed off to some playa lake where it usually isn't wated and benefits few people. Water conservation is needed on every farm to keep those raindrops where they fall.

The Lynn County Soil Conservation District and the Soil Conservation Service are here to help each land user conserve water. Each block of land is different and needs different treatment. Call or come by our office-we are ready and willing to help.

Liquid Feed Supplement 32

The nutritional value of grass varies from time to time and from place to place. That's why T-E has developed a complete line of liquid feed supplements to meet all the conditions faced by cattlemen.

T-E Liquid Feed Supplement 32 is the one to use when the grass is dry or poor. It delivers protein, phosphorus, vitamins, trace minerals. And it delivers the energy to make them get out and rustle for what grass there is.

Days are passing and our Home is decorated, our tree is up. The ladies from the WMU of First Baptist Church came Tuesday morning and decorated . Mrs. Price put our tree up but we didn't get it dressed until Wednesday. Kay Dopson, our Activity Director sprayed a tumble weed and put blinking lights on it and it is so pretty. We already have lots of packages under the tree. We will open our packages at our patient Christmas party, which will be on Saturday, December 22.

We would at this time like to invite everyone to come to our party on the evening of the 22 at 2 p.m. Phebe K. Warner Club ladies were here also and oh, the goodies and punch we had. They gave us a very nice party. Lela Woods gave all the patients Christmas cards with candy. Dean Bartly brought a big box of apples which we sure have been enjoying. Adrian and Babe Evans brought 2 canned hams and some cookies. Mrs. Wasson Smith with a group of FHA girls and Bill

Lynn County News

Reed of O'Donnell came and sang Christmas carols and also gave out a box of cookies. Dorothy Kenley was here and she gave several readings of Christmas stories.

Thanks to Fannie Oliver and Mr. Land Wall for sending us two beautiful arrangements of poinsettias. And last the Melton Ehlers family, Victor Stienhauser family and Donald Klaus family for coming Saturday evening and singing Christmas carols. Many of the patients had already gone to bed but the ones who had not and listened, enjoyed the singing very much.

We have another new patient, Mrs. Katty Nored. Mrs. Nored's husband is in the Lynn County Hospital, and when he is discharged, he will be moved into the home also. Mr. and Mrs. Nored have been residents of the Golden Manor Apts. We hope Mrs. Nored will not get too lonesome before her husband is able

Notice To Wilson **Kindgarten Parents**

On January 3, 1974, all students that are not in kindergarten now that were five years old by September 1, 1973, will be allowed to attend kindergarten at Wilson ElementarySchool. Please bring your child to the library for registration on that day. If there are any questions, please contact Ted Dockery, Elementary Principal.

Unmatched Productivity

An hour of farm labor today produces seven times as much food and fiber as it did 50 years ago.

G. H. (Shortie) CHESTNUTT

Lynn County News **Old Time Christmas**

Most of us long for an "old-time" Christmas. And just what do we mean by an "old-time" Christmas? Let's dig back into the past, to remember how it was, for some of the answers.

The nation was not as wealthy in the past as today. In fact, if we go back a few decades, many families were hard pressed to earn enough to pay the rent and buy sufficient food and clothes to keep going.

We didn't have as many automobiles. We didn't have as many work-saving appliances and gadgets. We were often at war-in 1941-45, 1950-53 and 1963-72. We didn't have the variety of foods, toys and amusements we have today, nor television.

But the "old-time" Christmas was more fulfilling and enjoyable. Why? Perhaps it was because we thought more of a time for family reunion, quiet days and evenings of family life together, meals together, games together, etc.

The age of the automobile and television in some ways splits and separates families, even though modern transportation theoretically brings families together. The super-abundance of amusements, automobiles, television. etc., seems to mean fewer family undertakings, less time in full family pursuits, and less time for family discussions, medication and thanksgiving.

And much of the spirit of "old-time" Christmases was to be found in full family gatherings and serious appreciation od the day for what it represented in the Christian world.

Christmas Eve

In many countries of the world December 24th is as much fun as the 25th. In England Christmas carols are sung on Christmas Eve. In Scandinavia and in many American homes a family dinner the afternoon of the 24th ushers in Christmas.

The custom of lighting candles (now lights in most cases) in windows on Christmas Eve originated, in this country, in Boston. The Santa Claus legend comes from Germany but it has been expanded and chanted in America, with greater emphasis on toys for children. And Christmas Eve night, of course, is the high pitch of anticipation for millions of youngsters.

Many churches have special Christmas Eve services. Some church choirs still go about singing carols on Christmas Eve.

The great Christmas rush, unfortunately, reaches its hectic climax for millions of parents on the 24th. If one can plan ahead and enjoy a leisurely Christmas Eve, it can bring as much pleasure, fulfillment and reward as the 25th.

Happy Holidays!

The West Texas Times wishes its readers a Merry Christmas and a Happy New Year and wishes to thank them for this past year of readership and, therefore, for their interest in the betterment of this community.

Newspapers have traditionally been a form of public service in America and the fact that the nation contains more than ten thousand weeklies and more than a thousand dailies makes it impossible that any one philosophy or presentation monopolizes the news and editorial columns of America. The great blessing of the community newspaper is that it offers a broad presentation of local news and views in addition to national and international news; its editorial voice is thus locally controlled. Nor do newspapers' news columns contain slanted news. Opinions are found in the editorials. The West Texas Times hopes to continue in this tradition and to deserve the support of the people of this community; because of adherence to these great free-press traditions. News for the news columns and opinion in editorials-and plenty of entertainment for all the family as well, can be enjoyed whenever the reader wishes to enjoy it. All that-at a very low price-plus permanent record advertisements, which also can be read when the reader wishes to read them, is still the best buy in the land.

Police Search Powers Expanded

Washington, D.C. (NBNS)-The U.S. Supreme Court has ruled that police can conduct a thorough search of anyone arrested, even if the charge involves a minor traffic offense.

Justice Thurgood Marshall, one of three dissenting justices, accused the six-member majority of establishing a rule that could lead to widespread abuse.

"There is always the possibility .hat a police officer lacking probable cause to obtain a search warrant will use a traffic arrest as a pretext to conduct a search,' wrote Justice Marshall.

Marshall was joined in his dissent by Justices William O. Douglas and William J. Brennan, Jr. Recent Nixon appointments have made the Supreme Court much more conservative than in the days when it was headed by former Chief Justice Earl Warren.

Justice William H. Rehnquist, a Nixon appointee and the court's most conservative member, wrote for the majority in the decisions involving police searches in Washington, D.C., and Florida.

In the Washington case, a policeman arrested a man for driving with a revoked license, searched him and discovered gelatin packets of heroin in a crumpled cigarette package.

In the Florida case, a college student was arrested for failing to have his driver's license on his person. A subsequent search turned up a cigarette box containing marijuana.

Christmas Message Of Hope

In a world torn with violence at almost every level, through formally or informally declared war, in rioting, anarchy, in cruel discrimination, it is difficult for thinking people to truly experience Christmas.

Yet, through the very meaning of Christ's coming, every man, of

the year to say hello ur friends and relatives an ach and every one al hristmas and a Happy New om the Jimmie Warren F Saudi Arabia.

T-Bar Bridge

Members of T-Bar Duplicate Bridge Club held a Christmas party Tuesday night of last week during which a buffet style meal was served, followed by the singing of Christmas carols, then the quarterly Club tournament. Several non - playing husbands also attended.

Winners at bridge were: Mrs. Meldon Leslie and Mrs. Clint Walker, first; Mrs. N.B. Hancock and Mrs. Audie Norman, second; Mrs. Pauley Cope of Lubbock and John Nickens, third; Mrs. Dick Park of Lubbock and Mrs. Winston Wharton, fourth; and Mrs. Wilmer Smith and Mrs. Frank Hill, fifth.

There will be no more duplicate games until January 8, when an individual game is scheduled for the Louise Wharton trophy.

every persuasion whether "Christian" or not, can take Christmas to his heart and profit by it.

For Christ personified brotherhood, abiding love, tolerance; if Christians have gotten away somewhat through the "outward and visible signs," the ceremonials and the trappines-perhaps this is the year to come home to Christ.

Whatever the rest of the world is doing, let each of us celebrate Christ's birth in our individual, personal ways.

Let us forget self, let us truly open our hearts, to genuinely offer friendship and brotherly love.

Let us "do" for others not just through organized charities, or group efforts. Discover the thrill of assisting some less fortunate person, someone who may have much of this world's goods, but be impoverished otherwise.

This is the Christmas to relinquish those petty grievances, and perhaps the important ones, as well.

This is the Christmas to really show those you love that you do love them, in important, little ways, and in large ways, too. It is so human to take care of the vital, "large" ways, and overlook the small, also vital ways. This is the year to do something about that.

At Christmas play, and make good cheer,

For Christmas comes but Once A year.

-Thomas Tusser-

The Board of Directors of Lubbock - based Plains Cotton Growers, Inc. met in Lubbock December 13, adopted a 1973-74 budget of \$199,900 and named a committee to work toward the establishment of an "Institute for

Textile Development and New Processes Research."

The organization's budget compares with a budget for 1972-73 of \$173,500. PCG budgets since 1966 have been kept below normal because of low income

from reduced production, officials explained. The 2.2 million bale crop of 1972 and prospects for a 2.7 million bale crop in 1973, they said, will permit the organization to increase activities on a broad front in the interest of High Plains cotton and cotton producers. PCG revenue is derived principally from producer dues of 15 cents per bale and lesser per-bale amounts from ginners, oil mills and compresses.

In addition to the Textile Institute action and adoption of the budget, the Board instructed its staff and officers to continue extensive efforts to assure adequate supplies of fuel and fertilizer for agriculture, and announced the formation of a committee to "beef up" current efforts to improve forward crop contracting as a marketing tool. PCG President Ray Joe Riley of Hart called for volunteers to work on the crop contracting committee, emphasizing that a lot of time and effort would be required. Committee members will be announced at a later date, Riley said.

Named to the "Textile Institute Committee" were Wilmer Smith of New Home, Roy B. Davis of Lubbock, Don Anderson of Crosbyton, and John Herzer of Lubbock. President Riley and PCG Executive Vice President Donald Johnson will serve as ex-officio members of the committee. The committee will elect a chairman at its first meeting, expected to be held in the near future.

Riley said "Through the formation and proper organization of an institute for the planning and coordination of new systems research and development of a High Plains textile industry, we hope to attract substantial funds from other sources and more than double the effectiveness of the relatively few dollars available from the PCG budget for work in this area."

PCG for the 1973-74 year budgeted a total of \$23,000 under Fiber Research and Service, Export and Market Development, and Fiber Analysis and Reports, Riley noted, and said plans are to put a substantial portion of Nickles, Sudan; B.B. Turner,

THURSDAY, DECEMBER 20

Tech, who attended the meeting, said "Open-end spinning offers more promise for High Plains type cottons than anything ever seen before, and by conducting research to prove the value of their own cotton on this new system producers have an unprecedented opportunity to greatly expand their markets." He went on to say he would not be surprised if such research in a few years were responsible for significantly reducing or even eliminating micronaire discounts

that currently apply to High Plains cotton in the marketplace. Following the Board meeting the Board members were taken to Texas Tech where they heard a presentation on open-end spinning and saw the two open-end spinning

frames now in place there. Other major items in PCG's improved budget for 1973-74 include \$16,800 for agricultural research, \$8,800 for advertising, \$7,400 for publications, \$70,000 for salaries and employee retirement, and \$15,000 for travel.

National Cotton **Council To Meet**

Leon Bernsen, Corpus Christi cotton producer, will head a 36man delegation from Texas to the National Cotton Council's annual meeting in St. Louis Jan. 28-29.

The group will join representatives from other cottonproducing states in setting guidelines for 1974 Council programs and policies.

Other Texas delegates are: Producers-- Herman Propst, Anson; Robert E. Skov, Clint; Neuman Smith, Ballinger; Don Anderson, Lubbock; Donnell Echols and Bill R. Reid, both of Lamesa; James A. McCarthy, Rio Hondo; and Don Marble, South Plains;

Ginners-Orville Bailey, Anton; B.J. Mikeska, Eola; Bill Weaver, Lamesa; and Ross Bigham, Harlingen ; Warehousemen --James Manly, Galveston; Stanton Brown, Jr., Waco; Guy

Crusades Inspired Europeans

The earliest wool tapestries in Western Europe date from the 12th and 13th centuries — when the Crusades had made Europeans familiar with the tapestries of the East. The first professional tapestry workshop in Paris was established about 1263. The earliest surviving product of that workshop is a group of large tapestries showing scenes from the Apocalypse, now in the Museum of Tapes-tries in Angers, France. Others from the same period in-clude one called "Nine Heroes," now in The Cloisters in New York and the "Dependence" of Christian the Tapende" New York, and the "Presentation of Christ in the Temple," which is in Brussels. All of these reflect the style of the Franco-Flemish painting and book illumination of the late 14th Century — a composition in tiers and back-grounds covered with initials or flowers.

INSURANCE FOR ALL YOUR NEEDS LIFE - AUTO - FIRE - FARM LIABILITY BLUE CROSS - BLUE SHIELD

Robert Harvick, Agency Mgr. AGENTS - ROB GOLDEN AND JACK JAQUESS PHUNES 998-4320 AND 998-4591 RES. PHONE 998-4779 TAHOKA, TEXAS

'Twas the night before Christmas and all through the kitchen, Mrs. Clause was up late, cooking turkey and fixens'. Or was she? Even though many will start the turkey for Christmas dinner, some may prefer something different. Why not choose a duck or goose instead?

Ducks usually come on the market when they are seven or eight weeks old, and at this age are labeled "broiler or fryer duckling" or "young duckling". Geese are also usually marketed young since weight gained after the first 11 weeks is mostly fat. Both young ducks and geese are great for broiling, frying, barbecuing, or roasting.

When buying duckling or young goose, allow at least one-half pound per 3-ounce serving.

For a mouth watering treat, either fruit, oyster, or nut stuffing is the meal accompaniment for these birds. An orange glaze, especially for roast duckling, is a delicacy long appreciated by poultry fanciers.

Since duck or goose is easier to find during the holidays, try some this season. Recipe of the Week

This Christmas eve, why not toast that fat little fellow in the rumpled red suit with red party punch. Here's an easy 14-cup recipe:

Combine in punch bowl two 32ounce chilled bottles of cranberry juice cocktail and 1/2 cup of grenadine syrup. Just before serving, slowly pour in two 12-ounce bottles of chilled carbonated cherry beverage and two 12-ounce bottles of chilled carbonated lemon beverage. Stir gently and serve over "cranberry rocks" (cranberry juice cocktail frozen solid in refrigerator ice cube trays). Garnish punch cups with orange slices or mint sprigs.

As we approach the yuletide season, I would like to express my appreciation to each of you for your patience, understanding, support, and cooperation since assuming my position. Please call on me when I can be of help. CHRISTMAS!

There's more, much more to Christmas

Than Candlelight and cheer; It's the spirit of sweet friendship,

That brightens all the year; It's thoughtfulness and kindness, It's hope reborn again, For peace, for understanding and for goodwill to men!

N.B. (Billy) Hancock, 53, prominent New Home farmer, died at about 1 p.m. Tuesday in the Methodist Hospital at Lubbock.

Funeral services will be held Thursday, Dec. 19 at 10 a.m. in the First United Methodist in New Home. Rev. Jim Taylor, pastor will officiate, assisted by Rev. Bill Fleming of Abilene. Burial will be in Tahoka Cemetery under direction of White Funeral Home.

Hancock had been in ill health for some time, seriously ill the past two or three weeks. Tuesday morning he was taken back to Methodist Hospital, where he had been receiving treatment, and passed away a few hours later. He was married in 1943 to Betty Smithee in California.

Born at Sherman April 19, 1920, a son of the late Mr. and Mrs. L.N. Hancock, he had been a resident of New Home area most of his life.

After attending New Home High School and Texas Tech, he entered the service as a Naval Reserve trainee, went to the South Pacific as a Navy pilot in October, 1943.

Flying airplanes for the Navy in combat for two years, among the places he saw action were over the Gilbert Islands, Philippines, Iwo Jima, Okinawa, and Tokyo. On one occasion , he was shot down, fortunately rescued. Among decorations bestowed on were the Distinguished him Flying Cross, the Purple Heart, and a number of battle stars.

Billy was a member of the Methodist Church, and had been active in civic and school affairs.

Survivors include his wife; one son, Billy Dave of Lubbock; two daughters, Mrs. Susan Crutchfield of Orlando, Florida, and Kathy Hancock of Dallas; two grandchildren, three brothers; G.E. Hancock of Lubbock; George of Missouri; and Jack of Tuscola; and three sisters; Mrs. Edgar Womack of Lubbock; Mrs. Surratt of Arkansas; Miss Katherine Hancock of Arkansas.

Baptist Loyality Dinner Held

The First Baptist Church of Tahoka held a Loyalty Banquet Wednesday evening at 8 o'clock in the Tubbs School Cafeteria. The purpose of the dinner was to inform the congregation and their friends of the progress made thus far in the Stewardship program of the church. The dinner was a special emphasis for the church building fund campaign which began December 1. The youth were well represented at the dinner and children's parties were held at the church during the dinner. Approximately 200 adults and children were present at both events.

Speakers were Jacky Henry, Robert Warren, Garland Pennington and Edward Bartley.

The invocation was given by Virgil Carter. Rev. Lenard Hartley of Sherwood Baptist Church, Odessa and coordinator of the campaign was the master of ceremonies and introduced speakers.

Randy Pierce lead the group in singing Christmas songs, and later he sang a special number accompanied on his guitar.

Arrangements for the dinner were made by Janelle Edwards, dinner hostess and her committee responsible for contacting every church family before the dinner.

During the dinner, children's parties were held at the church. Domingo Salazar showed a film, "The Long, Long Trailer", Madalene Hegi's homemaking girls-Toi Bragg, Lynda Saldana, Olga Garcia and Diana Hernandes

Lynn County News

served refreshments furnished by Veta Ford. Mrs. Domingo Salazar and Josephine Solis kept the nursery.

The dinner was concluded by a talk and prayer by our local pastor Rev. Jimmy Turner. Rev. Hartley and Rev. Turner met with a group of men after the dinner who received pledge cards for canvassing the church roll. A good time was had by all as they were challenged to make a dream become a reality.

The meal was catered by Al Smith Cafeteria.

The banquet decorating committee were: Clifford Tankersley, Chairman; Zuma McWhirter, Lennie Cox, Fleta Howell, Leta Warren, Pam Womack, June Nevill, Sammie Turner, Zella Taylor, Delores Henry.

Cotton Harvest Passes 2/3 Mark

The South Plains cotton harvest assed the two - thirds mark uring the second week of Deember, according to Paul R. lickson, in charge of the U.S.D.A. otton Classing Office in

1BER 20, 1973

RISTMAS

galore.

of you.

Ce

Samples from 1,498,000 bales ad been classed at the Lubbock, rownfield, Lamesa and Levelad offices through Firday, December 14th, and the four offices had 114,000 unclassed samples on hand at that time. Estimates indicate that there were an additional 300,000 to 400,000 bales out of the fields.

Personnel at the four offices tested and classed samples from 279,000 bales during the week ending the 14th.

Quality of cotton continued ex-

Lynn County News

cellent and this crop continues to be one of the highest quality crops ever produced on the South Plains.

Grades 31 and 41 continued the predominant grades at Lubbock, making up 74 percent of all classed. Grade 31 made up 29 percent. Grade 41, 45 percent and Grade 32, 14 percent.

Staples were predominantly 30 to 32. Two-thirds had staple lengths of 31 and shorter and the remaining one-third stapled 32 and longer. Average staple length was 31.

Micronaire readings continued excellent. Eighty-one percent of all cotton tested at Lubbock had micronaire readings in the premium range of 3.5 to 4.9, 5 percent was in the high micronaire range of 5.0-5.2 and 1 percent was in the very high range of 5.3 and above.

The Agricultural Marketing Service of the U.S.D.A. reported cotton prices \$2.50 to \$5.00 per bale lower on the Lubbock market on Thursday and Friday. Demand continued strongest for cotton with staple lengths of 31 and longer but was strong for cotton with staple lengths of 29 and 30. Prices ranged from 3100 points over the Government Loan for short staple cotton up to 5000 points over the loan for long staple cotton. Typical lots were bringing an average of 39 cents per pound over the loan and were selling in the price range of 55 to 65 cents per pound.

Average prices paid for the most predominant qualities in the 3.5 to 4.9 premium micronaire range were: Grade 31, Staple 30-55.65 cents per pound, Grade 31, Staple 31-61.90, Grade 31, Staple 32-65.90, Grade 41, Staple 30-54.70, Grade 41, Staple 31-60.75, and Grade 41, Staple 32-64.45.

Cottonseed prices were steady and farmers received \$95 to \$110 per ton.

Cap Rowe's Funeral Held

Services for Winfred Leroy "Cap" Rowe, 63, of Tahoka were held at 2 p.m. Wednesday in the First United Methodist Church with the Rev. Frank Oglesby, pastor, officiating.

Burial was in Tahoka Cemetery under direction of White Funeral Home.

Rowe died about 9:30 p.m. Monday, Dec. 17, in Lubbock's Methodist Hospital after an extended illness.

Rowe was born April 20, 1910, in Arkadelphia, Ark. He married the former Hythen Tunnell July 11, 1931, and moved to Lynn County from Arkadelphia in 1932. He was a farmer until his retirement and a member of the United Methodist Church. He is survived by his wife; a daughter, Mrs. Betsy Varhaug of Belton; a son Harold Zane Rowe of Colorado City; three sisters, Mrs. Roy Houston of Arkadelphia, Mrs. William E. Ehlert and Miss Fayde Rowe, both of Selma, Ala., and four grandchildren.

ORDER OF COURT AND NOTICE OF SETTING OF HEARING

WHEREAS, in Cause No. 3018 in the District Court of Garza County, Texas, 106th Judicial District, styled: "Ex Parte, Southland Independent School District," said Southland Independent School District, as Petitioner, has initiated and filed such action as a proceeding in rem in accordance with the provisions of Article 717m, V.A.T.C.S., as a class action against the taxpayers, property owners, and citizens of Southland Independent School District of Garza, Lynn and Lubbock Counties, Texas, including non-residents owning property or subject to taxation therein and all other persons interested in or affected by the issuance of securities of the Petitioner (as are more particularly described in the Petition of the said Southland Independent School District on file in the aforementioned cause) wherein the Petitioner, among other things, alleged its capacity to institute and maintain these proceedings and among other prayers for relief, prayed the Court for a Declaratory Judgment as to its authority as an "issuer" to issue securities and provide for the payment and security thereof as set forth in the petition, and as to the legality and validity of all proceedings taken and or proposed to be taken in connection therewith. NOW, THEREFORE, BE IT

ORDERED: NOTICE IS HEREBY GIVEN TO:

All property owners, taxpayers, citizens and others having or claiming any right, title or interest in any property or funds to be affected in any way by the issuance of \$500,000 "Southland Independent School District School Building Bonds, Series 1974" (the securities proposed to be issued by the said Petitioner) or affected in any way thereby, and the Attorney General of the State of Texas are commanded to appear at or before 10 o'clock A.M. on the first Monday after the expiration of Forty-two (42) days from the date of this order, and show cause why the prayers of the Petition of the said Southland Independent School District should not be granted and the maintenance tax and bond election held on April 28, 1973, and the right, power and authority of the Board of Trustees, said school district to levy a maintenance tax and issue bonds authorized at said election be validated and confirmed as therein prayed.

The Clerk of this Court is hereby ordered to cause a copy of this order to be published in the Slaton Slatonite, a newspaper of general circulation in Lubbock County, Texas, the Post Dispatch, a newspaper of general circulation in GarzaCounty, Texas, and the Lynn County News, a newspaper of general circulation in Lynn County, Texas, all newspapers being published in the counties wherein the Petitioner is situated, once in each of said newspapers for four (4) consecutive calendar weeks, on a business day of each week, the first publication to be made no less than twenty-eight (28) days prior to the date set for hearing. Signed and entered this the 4th day of December, 1973.

Dear Santa Claus,

I have been a good girl this year. I love you very much. I believe in you very much. For Christmas I want a baby doll and a Bible. And I hope you will bring me these things. Santa Claus please help us so we may have electricity to put lights on all the peoples houses and on the peoples Christmas Trees. If there is no lights around the world it won't look like Christmas any more.

Your friend, Belen Saldana

Dear Santa Claus,

I love you very much. And for Christmas I want a doll name Lovely Baby. When we went on our vacation in Lamas I saw the doll Lovely Baby in a store name Gibson it was on a toy shelf very high. And also I want a real big big stocking and thats all.

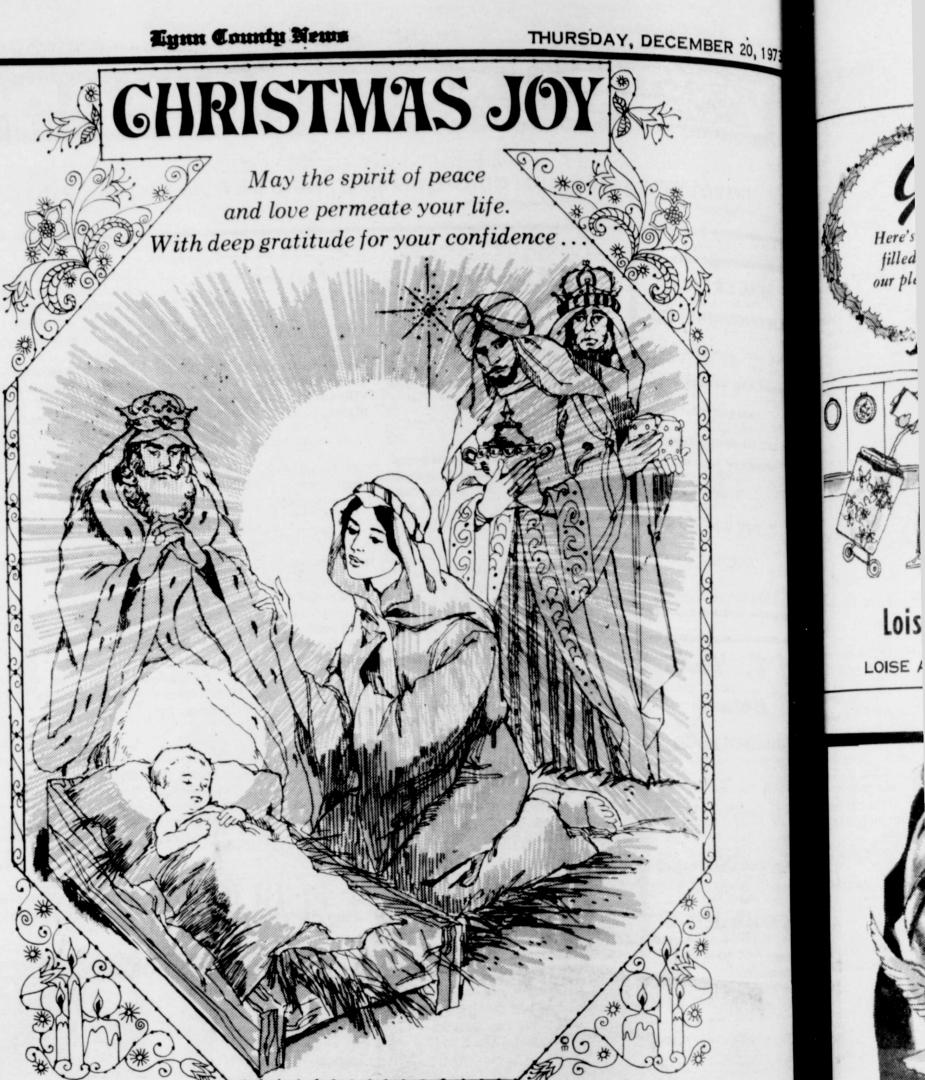

Love Always, Lupe Saldana

Dear Santa Claus,

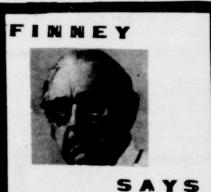

For Christmas I want a doll and a set of dishes and a farmer says and a purse. I love you and I believe in you. I have been a good girl this year. I am eight years old. How are you and your little friendly elfs? Maybe your fine. Your friend, Sylvia Saldana

REA Loan To

Congressman Omar Burleson announced today the approval of a \$491,000 REA loan at five percent interest to the South Plains Electric Cooperative, Inc. at Lubbock, serving Crosby, Lynn, Hale and Lubbock Hockley, Counties.

The purpose, of the loan is to finance service for 1,074 additional consumers; to finance 114 miles of distribution line; and to finance system improvements.

Tahoka is a wonderful place to live, especially at Christmas time.

I saw Dr. Midkiff and some high school kids painting Christmas scenes on some of our empty store windows.

We got old Borden Davis out of the hospital and back on the job, and that's a very nice Christmas for us.

All the kids' faces are shining in anticipation of a visit from Santa Clause.

All my wife, Audry's, sister's and brothers will be here for Christmas dinner with us. No one could ask for a better gift than that. We hope your Christmas will be even better than ours! We love you all --Audry and C.Edmund Finney

Gold, Frankincense And Myrrh were the Gifts of the Magi...

"And when they were come into the house, they saw the young child with Mary his mother, and fell down, and worshipped him: and when they had opened their treasures, they presented unto him gifts; gold, and frankincense, and myrrh." (Matthew 2:11)

Of these three gifts, only gold is still today a familiar and precious commodity. However, in the time of Christ, both frankincense and myrrh were equally valuable and well-known commodities, used in trade between the Middle East and Mediterranean countries.

Gold, because of its rarity and beauty has been the world's most precious metal since its discovery more than 6,000 years ago. Then, as now, it served as a medium of exchange, and was considered a symbol of wealth and power. Because gold is soft and pliable, it was also used for making fine jewelry and artifacts.

Both frankincense and myrrh are gum resins of trees, which grow only near the monsoon regions of Ethiopia, Somaliland and Southern Arabia.

Frankincense, which comes from a tree of the same name belonging to the balsam family, is an aromatic gum

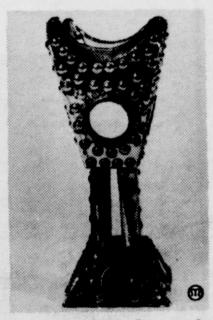

that you and yours enjoy

A Merry (

resin and was an important ingredient of an incense mixture used in Hebrew religious rituals. It was also used as an air purifier and as a remedy for certain physical ailments.

Myrrh is a fragrant, bitter-tasting gum resin exuded from any of several shrubs, which grow in the same sections as frankincense. It was used mainly as a base for ancient cosmetics and perfumes. It was also used medically as a painkiller and in mouthwash mixtures. It is used in some mouthwashes today. Myrrh also was used in many religious ceremonies.

Anyone who is curious about these substances may find them at The American Museum of Natural History in New York City. The Museum usually features all three treasures as part of its December special exhibit.

Wreaths Got Pagan Start

During this holiday season, a wide variety of colorful wreaths deck the doorways of homes in this community.

The use of wreaths at holiday time stems from the customs of Advent season — the four Sundays before Christmas. Traditionally, Advent wreaths are made of evergreens, trimmed with ribbons, and hold four candles to be lit during the Sundays of Advent.

The wreath, which has no beginning or end, represents eternity, and the evergreens symbolize growth and life, according to the editors of the New Book of Knowledge.

Like many other Christian holiday customs, the Advent wreath originated in pagan ceremonies.

During the dark days of the winter solstice, the sunworshippers of northern Europe sought to please their absent god, the sun, and persuade him to return, by using a wheel trimmed with greenery.

The wreath was made of an actual wheel, taken from a cart and wrapped in greens. Lights, too, were added.

The Irish place lighted candles in their windows on Christmas Eve as a guide and an invitation to all, who like Mary and Joseph, may be seeking shelter.

Lithuanians cover their Christmas Eve dinner table with layers of straw in memory of the night in Bethlehem.

Holiday Blends Many Customs

"Anybody found feasting or observing Christmas day in any way shall pay a fine of five shillings."

And so, throughout New

to treat Christmas as just another working day. Governor Bradford noted that "no man rested all day" on De-

England Pilgrim settlers had

Lynn County News

cember 25, 1620, say the editors of Encyclopedia Americana.

Today, in the United States and Canada, Christmas celebrations are a colorful blend of customs from many lands. The main features of the holiday festivities are much the same everywhere—Santa Claus, Christmas trees, gifts, greetings, feasting, family visits, carol singing.

Each of these customs has its own history, and for the student of holiday lore and legend, the fascination lies in the variety of traditions brought by settlers from other lands and assimilated into what is now a truly American, or truly Canadian Christmas.

Displaying Tree

The custom of the Community Christmas Tree began in the early 1900's with the people of Pasadena, Calif., who decorated a tall evergreen on Mount Wilson with lights and tinsel.

Madison Square in New York and the Common in Boston were the scene of trees set up in 1912. In 1914 Independence Square in

holiday tree.

Around each of these trees choirs gathered and sang carols.

The custom of lighting the National Community Christmas Tree in Washington, D.C. began in 1923 when the University of Vermont sent a large tree to President Calvin Coolidge.

Add Special Touch

In Quebec, customs from France lend their special touch to a Canadian Christmas.

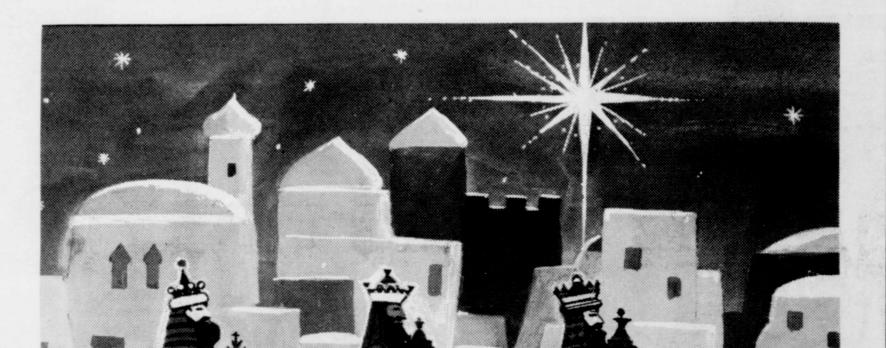

France gave Canada the "creche," gatherings after midnight Mass with family and friends, savory pork pies

called "tourtieres," collecting gifts from door to door for the less privileged persons of the community.

After mass on Christmas Eve, the people of Quebec gather at homes of loved ones to participate in a night-long feast called "réveillon."

Performing Pageant

From Germany came the Nativity pageant, and the

Greeks Have Unique Religious Ceremony to Celebrate Christmas

On Christmas Eve, chil-dren of Greek families go from house to house singing carols to the accompani-ment of tiny clay drums and tinkling steel triangles. They are rewarded with gifts of figs, walnuts, al-monds and sometimes money.

Afterwards there is a Christmas Eve service, Christmas Eve service, which begins at 4 a.m. and ends shortly before dawn. The family then begins feasting with "Christpso-mo," (bread of Christ), a simple cake studded with nuts, and "Kourbiedes," small cakes dusted with powdered sugar powdered sugar.

The Christmas dinner must include "cheridon," roast pig. In rural households, these are fattened for the feast from midsum-mer on. If a family cannot afford to buy a pig, usually relatives or neighbors provide one.

There are no Christmas trees and no Christmas presents. St. Basil's Day or New Year's Day is the time for exchanging gifts. St. Basil, "Hagios Vasilias," one of the four fathers of the Orthodox church is the Orthodox church, is the

Santa Claus of Greek children.

Blessing of the Waters Since Greece has always been a maritime nation, it is not surprising that the blessing of the waters is an impressive part of the Christmas celebration. This

takes place on Epiphany Day.

At high noon on that day, the Archbishop or highest ranking priest leads a procession from the church to the waterfront. Dressed in magnificent vestments, he holds aloft before him a crucifix of gold or ebony with a silver image of the Saviour. Acolytes and lesser clergy, also clad in rich vestments, accompany him, chanting as they march. The congregation follows in

their wake. The procession halts at the water's edge. The Priest intones a prayer and then, after tying a scarf around the cross, hurls it into the water. From the shore and from boats, men and boys dive after it. The one who succeeds in bringing it up receives a special blessing

The Church of St. Nicho-las in New York City has held this ceremony for many years at Battery Park, where the swimmers must plunge into the icy waters of New York harbor after the cross.

Lynn County News

from the priest and usually

a gift of money from the onlookers.

In America, this cere-mony of blessing the waters is likely to be celebrated wherever there is a sizable Greek settlement. At Tar-pon Springs, Florida, where

many Greeks are engaged in the sponge fisheries, and at Asbury Park, New Jersey, it is an annual event.

Consumer's Stake In Farms More than three-fourths of the nation's food supply is produced by less than a million commercial farms. This means that more than 200 consumers are dependent on the economic health of each farm.

Rice From On High

An estimated 90 percent of the nation's rice crop is now seeded by airplanes.

Cottonseed Provides Protein Cottonseed accounts for about 15 percent of protein concentrates fed to livestock.

California's Edible Gold California grows more than 200 commercial crops and produces about one-fourth of all the food on American tables. It's also the No. 2 state in cotton production.

Trees In For Shock Agricultural scientists are giving orange trees in California the shock of their lives. They've discovered that a charge of electricity

THURSDAY, DECEMBER 20, 197 knocks off mature fruit and leaves the green oranges of the tree to ripen. This could eliminate the traditional practice of picking the fruitional from ladders.

Christmas Trees Recycled To Balance Our Ecology

Each year whole forests of young spruce trees are chopped down in their prime and displayed with decorations as Christmas trees in millions of American homes. After the two-week holiday season, they are discarded.

But Christmas trees can now be recycled. They can be given a second life in which their organic com-ponents can be put to work nurturing other life. A machine known as a wood chipper instantly re-

duces them to valuable garden mulch. This mulch retains soil moisture and can be ap-plied on top of snow to protect bulbs and stems of young trees and shrubs. Also, this coarse sawdust-like stuff is as good as salt or sand for improving traction on icy driveways.

Biblical Group of Domestic Animals Present at the Stable in Bethlehem

Scientists have established that domestication of animals first began in the Holy Land several thousand years before the birth of Christ.

The ox, ass, camel and sheep are known as the biblical quartet of animals because of their frequent mention throughout the Old and New Testaments. All of these were probably present in the stable when Christ was born.

Oxen, when mentioned in the Bible, may refer to bullocks, bulls, cows, heifers or calves, all of which belong to the Bovidae family.

The bullock was the young male ox; bulls were male cattle; heifers were young female cows; the ox was a castrated male bovine.

The ox, whose name is synonymous with physical strength, probably originated in Asia and appears to have been the first domesticated animal owned by families in the Holy Land. He was used for heavy farm work. Even the poorest family owned at least one ox.

The word "cattle" orig-inally meant "possessions" in Hebrew and included flocks of sheep, goats and other herded animals.

We know we're on the right track when we say, we hope Santa brings you the nicest gifts on Christmas day! Sincere holiday greetings from the folks at

ANIMAL FROM ISRAELI BIBLICAL ZOO, the Persian onager

is a rare breed of wild ass, which, it is believed, Jesus rode into Jerusalem on Palm Sunday.

The Bible Gives Sheep **Deep Significance**

Authorities disagree as to what kind of sheep existed at the time of Christ. Three varieties exist in Syria and Palestine today, sprung from the three wild sheep groups still found in Asia.

(1) The Asiatic mouffler, depicted on Sumerian vases from early Babylonia, sup-posed to have been domesti-cated around 3,000 B.C.

(2) The Egyptian, longtailed sheep are related to an ancient breed grown in the Ural mountains, long considered the boundary line which separates Asia from Europe.

(3) The large, broad-tail-ed, curly-horned, creamy, deep-wooled sheep, that ap-pear in so many biblical il-lustrations, came from Kurdistan at the head of the Tigris-Euphrates valley, which was the cradle of biblical civilization.

Wild grapes, wild wheat, wild asses and wild sheep grow in these Mesopotamian highlands today. People can still live here, near Mt. Ararat with almost no effort and some theologians feel that the site of The Garden of Eden may well have been located in this area. In Bible times, every Pal-estinian family bought two lambs at Passover time. They killed one to eat at

the feast celebrating their safe exodus from Egyptian safe exodus from Egyptian bondage. The other, they kept as a pet for their chil-dren and as a future source of wool for their looms and food for their table. The lamb slept with the chil-dren, ate juicy grasses from their hands and drank from their cup. When the animal became full grown, they killed it and put down its meat for the winter, storing it in the sweet fat from its tail. The tail, which sometail. The tail, which sometimes weighed as much as thirty pounds, was a real burden to the animal.

The purity, meekness and loyalty of the sheep for its shepherd inspired writers to refer to Jesus as "The Lamb of God."

The shepherds found compensation for their loneliness in this loyal love from their sheep and in the peace and beauty of the pastoral surroundings, whose revolv-ing seasons they knew inti-mately, and in the music of their homemade pipes, to which they sometimes trained their frisky goats to dance.

Domestic Scene

Practically every family in Bible times owned at least one goat. A family could get almost their whole livelihood from the prod-ucts of a goat. From goat hair, tent and garment cloth, curtains and pillows were made (i Samuel 19:13). Water bags, a vital neces-sity in these desert areas, were made of goatskin. Food products included milk, cheese and meat. Even the horns of the bearded goats were used.

The nimble, little goats of Bible times belonged to the Caprinae section of the large Bovidae family, which included oxen, antelopes, sheep and goats. Goats and sheep are closely related but the male goat is beard-ed, while the ram is not. A goat's horns differ from a ram's, and his odor is stronger.

Frisky goats were com-pared to wicked people, and obedient sheep to gentle folk. From this we get Christ's parable of the final distinction between good and evil: "He shall separate them one from another, as a shepherd divideth his sheep from the goats.' (Matthew 25:32)

People would choose a goat from the flock by drawing lots, then turn it loose in the wilderness to die, because they believed they could impose their sins and misdeeds on the goat and its death would redeem them. This goat was called a "scapegoat."

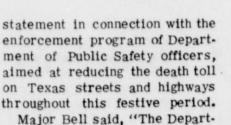

THE FIRST CHRISTMAS

In England, Christmas is said to have been observed first as a holiday in 521 A D. when King Arthur celebrated his victory in retak-ing York.

PAGE 10 Operation Motorside

"One of the most tragic wastes of our natural resources may occur this Christmas and New Year Holiday period," said Major C.W. Bell, Regional Commander of Region 5 of the Texas Department of Public Safety in Lubbock. Major Bell said he was not referring to the fuel shortage situation, but rather to the number of human lives that may be needlessly lost as a result of traffic accidents in Texas during the holidays.

It was noted by the Commander that by not exceeding fifty miles per hour, motorists could aid in the goal of conserving fuel and possibly reducing the severity of accidents, thereby saving lives. The Major made this

ment of Public Safety will have all available officers on the highways watching for traffic violations, especially those motorists driving too fast for conditions and those driving under the influence of alcoholic beverages." He went on to say that these two vio-

lations are contributing factors in the majority of fatal accidents noting that 39 percent of all fatal traffic accidents during this holiday period last year involved the drinking driver while 27 per cent of these accidents were the result of unsafe or excessive speed. One other suggestion made by the Major for avoiding holiday tragedy on the highway was for all motorists to use their seat belts.

Lynn County News

He cited statistics for this period last year pointing out that 97 per cent of all vehicle occupants killed in Christmas and New Year Holiday traffic accidents were not wearing any type of restraining devices. "There are no simple solutions to the traffic death problem," Major Bell said, "but if every motorist will obey all traffic laws and regulations, practice Defensive Driving and Drive Friendly, they will be doing their part to insure a safe holiday season for all this year."

Yule Shock By **Unsafe Lighting**

Strings of electrical lights on a tinsel Christmas tree can result in a shocking holiday experience, according to the Texas Safety Association.

TSA cautions that metallic trees are excellent electrical conductors. If string lights short out the entire tree can be charged with 110 volts of electricity.

Instead, an off-tree spotlight is suggested.

Angel Hair, Flocking Dangerous Combined

The Texas Safety Association warns that some "firesafe" Christmas decorations can be fire hazards in combination.

Angel hair, usually made of glass wool, won't burn. Neither will spray-on flocking snow. But snow sprayed on angel hair makes a combustible combination.

TSA recommends putting the snow on the tree prior to applying the angel hair. Make sure the adhesive used on commercially flocked trees is not combustible.

THURSDAY, DECEMBER 20, 197

Kissing Under Mistletoe The word "mistletoe" derives from the Anglo-Saxon word "mistleltan." It is a parasitic plant which grows on evergreen trees, with small yellowish-green leaves, yellowish flowers and waxy white, poisonous berries.

Under a sprig of mistletoe men are by custom privi-leged to kiss any women standing under it. The man is supposed to first remove one of the berries and pre-sent it to the woman. When all the berries are gone this kissing game is over. It is thought this custom comes from an early pagan marriage rite.

Mistletoe was considered sacred by the Druids in Mistietoe was considered sacred by the Druids in ancient Britain and they performed elaborate cere-monies around it at the winter solstice. Because of these pagan associations, it is seldom used in church

MERGENCY DIESEL FUEL

LLOTMENTS I have received information rom the Texas Railroad Comnission concerning emergency nd permanent diesel fuels to e used for the production of next ears' crops.

Mr. Alvin C. Askew, with the aliroad Commission, informed that the deadline for making pplication for next years' emerency allotments will expire anuary 16, 1974. Also, he stated hat it would take something like 0 days or longer to get the apers processed.

All people in agricultural reated activities that need diesel n excess of 1973 purchases hould go to their County ASC offices and request Form No. 0 and get information and assisance to help fill it out. Send o the Federal Oil and Gas Ditision in Houston (the ASC office rill have the proper address). perwork to get emergency fuels requires me to suggest that the farmer send this application by Certified Mail and keep a mimeographed copy of this completed form.

It is my understanding from Mr. Askew that the farmer needs to attach to this form a Certificate of Need and this will include an item by item list of next years' operations from preparing the land through harvesting the 1974 crops. Action should be taken on this matter immediately by each farmer in Texas because the expiration date is January 16, 1974.

"Farmers are supposed to receive the same amount of diesel they purchased last year without doing anything. But if additional fuel is needed because of butane to diesel conversion, extra land operations or increase in agricultural operations, he should complete Form 20 and mail as soon as possible."

Lynn County News

"There will never be a uniform priority system unless a rationing program is set up. The administration has moved the Oil and Gas Division from Denton to Houston and soon it will be in Dallas-all in one month. Some dealers will tell you they will be getting extra fuel for your use and this might be true in certain cases but don't bank on it. Diesel priority is suppose to work like going up a stairs, one step at a time. First , the farmer must get prior approval for extra or hardship fuel. Second. this will give the dealer proof of need to his company and third. the oil companies will then be permitted by the government to release the fuel."

HIGH QUALITY BLOOD FOR TRANSFUSIONS

"The people of Texas stand in dire need of legislation to guarantee the high quality of blood used for transfusions," Representative E.L. Short, D-Tahoka, remarked today.

Citing the some 17,000 cases of overt post transfusion hepatitis in the United States each year, of which approximately 850 result in death to the recipient, Short emphasized the need for standards to be legislated establishing reasonable criteria for the acceptance of a donor's blood. "The blood banks in the State of Texas have no meaningful, uniform standards to ensure the quality of the blood they receive," Short continued. "Even the length of time that blood will keep in storage is in question among the blood centers. These considerations are too important to be left to the whim and caprice of each individual blood bank.

"Last session, I passed a resolution through the House which mandated an investigation into the problems of quality, quantity, and standards of blood and blood banks in Texas only to see time run out on our efforts." Short went on to say that he has provided information about this issue to the members of the Texas Legislature, and that he urges citizens to ask their doctors about this situation as soon as possible. "Nothing could be more effective or important than pressure from the people to rectify this situation." Short concluded.

HAPPY NEW YEAR

PAGE 14 Spanish Christmas Customs Have a Realm of Enchantment Found Only in Iberia

In Spain, song and dance dominate all the Yuletide celebrations, which begin on Christmas Eve, called "Noche Buena" or "The Good Night." The birth of the Christ Child is heralded in a gay and festive manner by crowds of young people singing and dancing in the streets to the accompaniment of tambourines, guitars, gourd rattles and castanets.

During midnight church services, tambourines and guitars blend with the organ music and the spirited voices of the congregation.

Christmas Day is devoted to family reunions. There is much feasting on such delicacies as almond soup, truffled turkey with chestnuts or roast turkey with apples and raisin stuffing. The traditional Christmas sweet is turron, a nougat of almond candy.

After dinner, the family gathers around the Nacimento, or Nativity scene, which has been lighted with candles, to sing lively Spanish carols, most of which date back hundreds of years. Spirits are further whipped up by the noise of the "pandereta" (tambourine) and the "zambomba," a drumlike instrument with a reed stuck through the skin which, after being moistened, is moved up and down, producing a deep monotonous sound. The children join in enthusiastically, singing and dancing around the Nacimento.

The Nacimentos have an individual Spanish look. A typical Spanish bull and a gray donkey occupy stalls near the Babe of Bethle-

hem. The procession of the three Wise Men and their retinue bearing gifts are all represented. There is always a little stream or river, made of silver paper or real water, to show where women kneel and do the family laundry, a typical Spanish scene. Besides the innkeeper and many animals, there are sometimes figures of

1 ALLANDER

Lynn County News

famous bullfighters and politicians.

According to Spanish folklore, the Wise Men traveled through Spain enroute to the stable at Bethlehem. They play a leading role in the Spanish Christmas celebration. Instead of Santa, it is the three Wise Men who bring gifts to children on Epiphany Eve. Just as American children write letters to Santa, Spanish children write letters to the Magi. On the night of January 5th, their shoes, filled with straw for the camels, and a plate of turrons are left on the balcony. In the morning they find their shoes, filled with goodies and surrounded by presents.

with straw for the camels, and a plate of turrons are left on the balcony. In the morning they find their shoes, filled with goodies and surrounded by presents. Climax of the festivities is the annual "cabalgata," a colorful parade which marches through the center of town with floats depicting the birth of Christ, the Magi, shepherds and related personages.

Well of the Wise Men

There is a "Well of The Wise Men" on the outskirts of Bethlehem where, according to legend, the three discouraged Magi found their lost star reflected and continued their quest. BAN ON MISTLETOE

Mistletoe is almost never one of the greens used in church decorations, because it has always been considered pagan, as the badge of the Druid.

Plan Candle Safety

A glowing candle may be a charming addition to holiday decor, but Texas Safety Association points out that candles can be one of the worst fire hazards.

According to TSA, candles should never be used in arrangements of flammable material-such as evergreens, hay, cotton, paper or plastic. Never leave candles burning all night. And, never use candles as decorations on or under the Christmas tree.

Care should be taken in making candles as well, says TSA. Some hot waxes and paraffins will burn wildly if spilled onto a flame.

Charlie Overstreet

Lynn County News

Dear Santa Claus:

I am a little boy 2½ years old. Please bring me some cowboy boots and a little toy train. Don't forget my brother, James Doyle and my little sister, Dana Marie. I have been a good boy. Thanks, Santa.

Tommy Mark Martin

Dear Santa:

My Mother and Daddy told me to be good and you would come to see me. My three big brothers say I'm real good, so I'm looking for you.

I want a doll with hair, a doll buggy and some dishes, lots of fruit, candy and nuts.

Santa, Patsy's good, too, so be sure and go to Muleshoe to see her. I love you. Jimmie Lue Dulin

Dear Santa.

First I want to thank you for the nice things you brought me last year.

I have tried to be a good girl this year. I have helped Mother and Daddy lots.

Please bring me some dishes, train, tractor, and a big doll and anything else you have you think I would like.

Santa, Uncle Pad will hang his sock up with mine, I guess, so you be sure and fill it full. Jeanie Smith

P.S.: Oh, yes. I'm getting a new baby at my house, too, so bring something it can eat.

The Legend of Christmas Tinsel

According to an old legend, a poor peasant woman, with many children, decorated a Christmas tree with such humble trimmings as she was able to gather, mostly berries and nuts and such odds and ends as she had managed to save up during the year. She labored far into the night trying to make her tree as beautiful as she could.

While she was asleep, spiders came and crawled from branch to branch trailing their lacy webs behind them. To reward the woman for her devotion, The Christ Child blessed the tree and all the spider webs were turned into gleaming silver

Dear Santa,

I would like for you to bring me a Big Jim Rescue Rig, a crack-fire rifle, so I can go hunting with my Daddy, and a punching bag. Bring my Daddy a new scope for his rifle. I also want a lariat rope to rope calves with! I've tried to be a good boy all year.

Thank you, Tadd Knight age $51/_2$

Dear Santa,

I would like a Newborn Baby Tender Love and a bottle with it. I want a stove and dishes, too! Bring my Grandad and

nta Claus Became An American Christmas Tradition e tradition that Santa is the giver of Christ-(Santa Claus is a German corruption of the name). When St. Nicholas learned presents comes to us a fourth century Ger-egend of St. Nicholas

ors because their father was too poor to provide them with a dowry, he filled three of three young women who were unable to attract suitbags with gold one night

> and threw them into the windows of the rooms of the young women. Soon after. they were all happily married. Unexpected gifts were thereafter attributed to St. Nicholas.

Lynn County News

The myth that Santa Claus descends the chimney to fill the stockings comes from the Norsemen. Their legend tells us that at the winter solstice the goddess

Hertha appeared in their fireplaces and brought with her happiness and good fortune.

Dr. Clement Clarke Moore, a professor in the General Theological Seminary in New York, put the myth in the form of a poem, "The Visit of St. Nicholas." He invented the sleigh and the reindeer and his description of St. Nicholas was suggest-

ed by the appearance of a German man-of-all-work in his employ. The sleigh bells were suggested by the bells on the bridle of his own horse. He wrote the poem for his children in 1822 and read it to them on Christmas Eve of that year. This poem has become the foundation of our own rich American tradition about Santa Claus.

PAGE 19 SHEPHERDS RECEIVE GOOD NEWS

"That night some shepherds were in the fields outside the village, guarding their flocks of sheep. Suddenly an angel appeared among them, and the landscape shone bright with the glory of the Lord. They were badly frightened, but the angel reassured them.

'Don't be afraid!' he said. 'I bring you the most joyful news ever announced, and it is for everyone! The Savior-yes, the Messiah, the Lord-has been born tonight in Bethlehem! How will you recognize him? You will find a baby wrapped in a blanket, lying in a manger!'

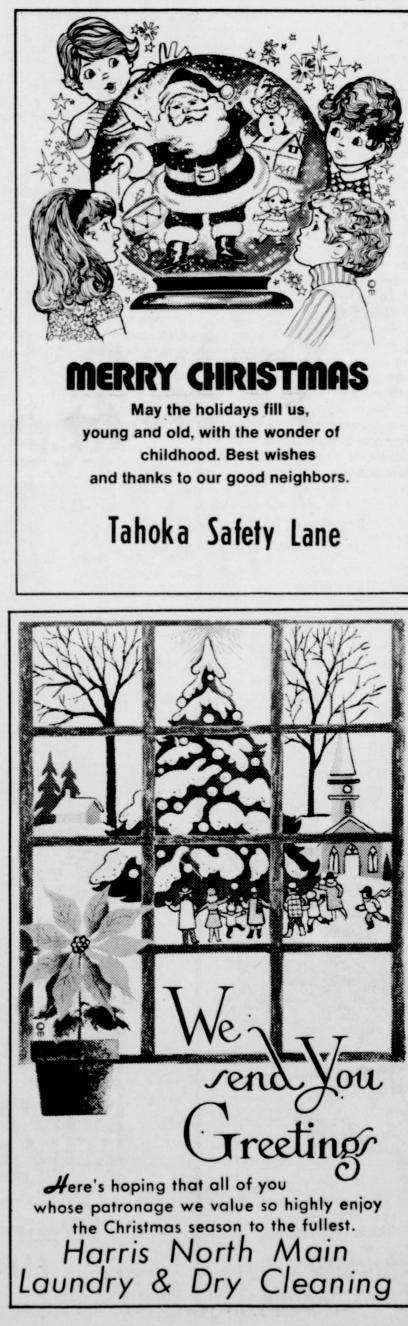

Suddenly, the angel was joined by a vast host of others-the armies of heaven-praising God:

'Glory to God in the highest heaven,' they sang, 'and peace on earth for all those pleasing him.'

When this great army of angels had returned again to heaven, the shepherds said to each other, 'Come on! Let's go to Bethlehem! Let's see this wonderful thing that has happened, which the Lord has told us about.'

They ran to the village and found their way to Mary and Joseph. And there was the baby, lying in the manger." (Luke 2:8-16)

Our warmest wishes to you and your family for a holiday season that's brimming with glad times and good fellowship. May your blessings be many, enriching your days and bringing you joy.

This Christmas, as in the holiday seasons past, key people in our service area are working to make sure that you have the power you need for all your electric needs. The picture above is just one of the many areas where activity never ceases. Information from every corner of the area we serve is at the fingertips of the people who staff our control center.

When the call comes for more power - even on Christmas Day our people act instantaneously to be sure you get that power. From the colorful lights decorating your home to the roasting of your Christmas bird, you can rest assured that the electricity you need is there - and every kilowatt is 100% usable - because we're working ...

Merry Christmas

We rejoice in the sound of the words and the glory of the message: "--- on earth peace, goodwill to men." But we do not always feel the meaning in our hearts and put it to work in our lives.

One who did was Henry Van Dyke, the late Ameri-one who did was Henry Van Dyke, the late Ameri-can clergyman. writer, and poet whose famous "Story of the Other Wise Man" has brought joy and inspira-of the Other Wise Man" has brought joy and inspira-tion to thousands of people over the years. Among his tion to thousands of people over the years. Among his writings is a piece called "The Spirit of Christmas," writings is a piece called "The Spirit of Christmas," and we think you'll like it as much as we did. We are happy to print it, from us to you:

"We are thinking of you today because it is Christmas.... and tomorrow because it will be the day after, and so on through the year. We may not be able to tell you about it every day, but that makes no difference, the thought and the wish will be here just the same"

"Because it is Christmas" — so many things follow. "Because it is Christmas" — the world stands still for a while, in reverent memory of the Christ child's birth. "Because it is Christmas" — we hope anew for peace on earth, goodwill to men. "Because it is Christmas" — we resolve that the Spirit of Christmas will stay with us throughout the year.

of course, the Spirit of Christmas should not be confined to a single day — nor is it. For all those who truly believe in "good will to men" honor it in their hearts and live it in their lives, every day of the year. They cherish the continuing warmth of friendship, the ever-new rebirth of the Babe who lived to teach us peace and love. And though friends may be far away or seldom met, that too "makes no difference" — the steady flow of hope and good will continues to bind together those who put their trust in the power of loving kindness, and in all that we mean by humanity.

Lynn County Diens

ANGEL WITH CENSER, attributed to Giuseppe Sammartino. Polychromed terracotta, wood, fabric, tow and wire and silver-gilt, 15" high. Italian (Neapolitan) 2nd half of 18th century. The Metropolitan Museum of Art, gift of Loretta H. Howard.

Naming Santa

Santa Claus is a tradition — a pleasant one, indeed. And, traditionally, he owes his name to a gift-giver of the past.

St. Nicholas, a fourth cen-tury bishop who became the patron saint of children, was noted for his generosity. His Dutch name was "Sinter Niklass," which gradually changed to Santa Claus. Even today, Santa is also known as "St. Nick."

Christmas Cookery: Old and New Traditions In the Baker's Art

The first Christmas trees, which originated in Germany, were decorated with apples, symbolizing Adam's fall, and round wafers, representing the Sacred Host, which signi-

fied redemption. Later, the apples and wafers were replaced by Christ-mas cookies, which became more and more elaborate through the years.

Fancy Christmas cookies were introduced to America in the 18th century by the early German settlers, who counted their old cookie molds, made of ciay, tin or wood, among their most treasured heirlooms. Industrious Pennsylvania Dutch housewives baked them by the washbasketful in such varying shapes as fish, rab-bits, men smoking pipes, horseback riders, hatchet-bear-ing Indians, stars, dolls, and of course all the characters and animals associated with the nativity scene. There were even some reindeer which were over a foot long. Until the early part of this century, Pennsylvania Dutch Christmas trees were decorated almost entirely with these

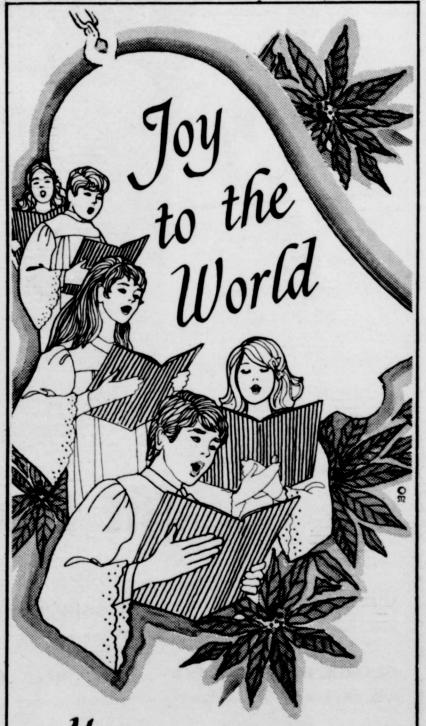

Christmas trees were decorated almost entirely with these edible ornaments and it was part of the celebration to eat from the tree all through the Christmas season, so that it was practically bare by Twelfth Night. This cus-tom is still followed in Europe.

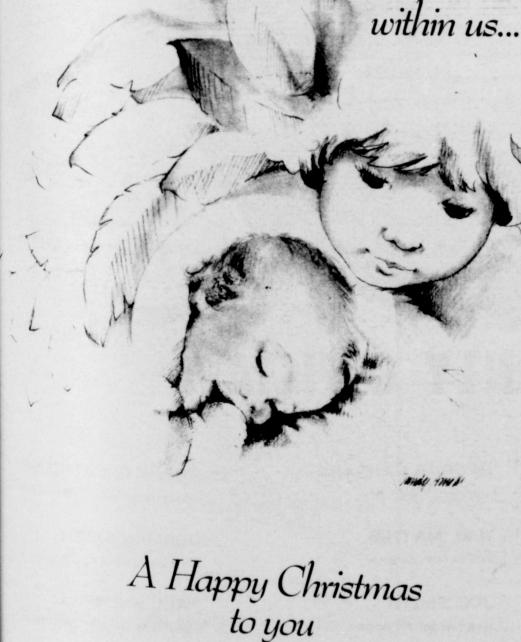

Outstanding cookie specimens were proudly displayed and used to decorate the windows. Cookies were tucked into Christmas baskets for the poor and it was customary to include several dozen cookies when returning molds that had been borrowed.

Many cookies were handed out to the Belsnickles, those costumed visitors, like mummers, who went from house to house checking up on the children's behavior during the year. It is said that some of the Belsnickles were so terrifying that children were known to confess to hitherto unsuspected misdoings. After World War I, as American women began to emerge

After World War I, as American women began to emerge from the kitchen to go out in the business world and follow more modern pursuits, the practice of making elaborate cookies and breads was largely abandoned. However, a few years ago, The Museum of Contemporary Crafts in New York City put on an exhibit called "The Baker's Art," which traveled to many cities throughout the country. This apparently helped set off a nationwide revival of interest in decorative baking. Some of the most exciting pieces in this exhibition were submitted by Mae Gerhard, a teacher at The Hussian School of Art in Philadelphia. Miss Gerhard, who learned this traditional art from her Pennsylvania Dutch mother, created a beautiful

her Pennsylvania Dutch mother, created a beautiful gingerbread creche of more than two dozen pieces from five to six inches tall, all decorated in brilliant Byzantine colors. She has also made large and elaborate working puppets based on Christmas subjects, using a firmer but inedible dough.

Greetings at Christmas

May each moment of this joyous holiday season add up to an abundance of lovely memories. Special thanks to all.

Lankford Variety

County Home Demonstration Agent, Carolyn Haley, was principal speaker when the Draw Home Demonstration Club met on Tuesday afternoon in the home of Thelma Dewbre. Her subject was "Snoop Before You Buy" and she gave the "Ten Commandments on Buying". Fruit cake, cookies, coffee and soft drinks were served to nine members and the hostess.

A Message from Billy Graham

"God is always with us but at Christmas we are more intensely aware of his presence. He looks out at us from the faces of those we love. He speaks to us amid the sounds of bells and the anthems of praise. And His greatest gift comes to our hearts anew when we hear the beautiful Christmas story once again - and believe."

Another shut - in was made happy on Sunday afternoon when the Jr. High quartet from O'Donnell Baptist Church came to sing for Mrs. Faye Thayer at Golden Manor. The quartet is composed of 2 boys and 2 girls of Jr. High age. Two sponsors, Mrs. Winnie Young and Mrs. Dixie Middleton were with them.

the winter.

weather is fine

The State Board of Insurance last week announced guidelines for so-called Health Maintenance Organizations (HMO's) which provide for prepaid care programs.

Costs run from \$45 to \$70 per month in other states. Board Chairman Joe Christie

said he feels proposed guidelines for HMO's answer objections raised by Texas Medical Association during the 1973 legislative session.

"My legal staff assures me we are on sound legal grounds," said Christie.

One of the major differences in HMO's and conventional hospitalization-medical insurance is that the new plan is designed to cover all bills, not just a standard portion of expenses. Employee groups and others, functioning under the plan, would, in effect, contract with insurance companies, doctors and hospitals.

Lt. Gov. Bill Hobby predicted better cost control and better health for Texans as a result of the new plan. He said competing health care arrangenents will strengthen the posiion of the individual consumer." Four insurance companies have submitted applications to

provide coverage for pre-paid health care plans. At least one HMO is in be-

ginning operation - at San Antonio, under Bexar County Medical Foundation direction.

CONVENTION PLANS MOVE -Planning committee heads for the 1974 Constitutional Convention have invited Texans to express their views at committee hearings starting January 16.

Rep. DeWitt Hale of Corpus Christi and Sen. Nelson Wolff of San Antonio said eight proposed convention processing committees will begin their hearings at that time under a suggested timetable.

Hearings may last four weeks or longer. Committees have been recommended in the subject areas of finance, education, local government, general provisions, executive, legislature, judiciary and rights, suffrage, amendments and separation of powers.

A poll of lawmaker-delegates to the convention, which opens here January 8, has indicated most of them want to get their work completed within 90 days. Whatever amendments or revision the legislature proposed while sitting as a convention will then be subject to approval or rejection by voters at a statewide election.

LEASE SALE SUCCESSFUL -University of Texas oil and gas

Lynn County News

land leases last week brought in \$11.1 million for 84, 642 acres - more than twice expectations, and averaging more than \$131 an acre.

Land Commissioner Bob Armstrong credited "the price of crude oil and natural gas, together with the increased demands for energy sources."

All leases contain a provision that UT can take its oil and gas "in-kind" rather than cash. It is hoped the state will make more money from selling the gas to communities hit by shortages, such as Austin and San Antonio.

The Permanent University Fund now stands at a record high of \$633,998, 580.

Bringing highest bids were two 320-acre tracts in Winkler County which accounted for bonus payments of \$650,000 each. Pecos County tracts were

also leased to Texas Gulf Sulphur Company for bonus bids of \$1,152,222.

COURTS SPEAK - The Supreme Court set arguments in cases of two attorneys jailed for contempt of court in Bexar and Frio County incidents of refusing to produce real estate appraisal reports in condemnation proceedings.

In other cases, the High Court:

* Held value of Hays County

deer leases should be considered in tax valuations.

· Rendered Judgment in the full \$94,500 awarded by a jury to a man struck by an Abilene Christian College bus.

· Found driving with an open door is not necessarily negligence .causing an accident.

. Refused to force state investigative records on air condemnation in the Port Arthur area to be released to a Jefferson County firm.

. The Third Court of Civil Appeals said a widow can file a suit in Austin to recover \$27,000 spent for dance lessons.

. The Court of Criminal Appeals affirmed the conviction of a Houston youth (on circumstnatial evidence) in the 1969 murder of his parents at Houston

• An Austin federal district court removed legal roadblocks to construction of the longdelayed San Antonio North Expressway; but new appeals were threatened by environmentalists.

APPOINTMENTS ANNOUNC-ED - Don B. Odum of Austin was named to succeed Clay Cotten as commissioner of insurance. Cotten, who has been commissioner since 1964, resigned to enter private law practice here.

PAGE 5

Gov. Dolph Briscoe announced these recent appointments:

Dr. Clifford S. Knape of Waco and Dr. James H. Sammons of Baytown to the Texas Rehabilitation Commission (reappointments); Mrs. Tom Wright of Nacogdoches to the board of regents of Stephen F. Austin State University; Dr. Albert W. Hartman Jr. of San Antonio and Joe C. Bridgefarmer of Dallas to the Texas Air Control

Board; Paul Thayer of Dallas to the Fleet Admiral Chester W. Nimitz Naval Museum Commission and Walter B. Moore of Dallas to the Texas Library and Historical Commission.

Talmage Whiteside is new vice-president for business affairs of the University of Texas school of nursing.

Lunn County News **Nativity Creche Art Dramatizes Story Of Birth Of Christ**

According to legend, remnants of the manger at Bethlehem were brought to Italy by early Christians. So it is not surprising that some 1300 years later, St. Francis of Assist should have chosen to renew its spirit and meaning in the hermitage of Greccio in the Umbrian mountains.

"I desire to represent the birth of that Child in Bethlehem in such a way that with our bodily eyes we may see all that He suffered for lack of the necessities for a new-born babe, and how he lay in the manger between the ox and ass." His friend, Giovanni Vellita, proceeded to carry out these instructions, setting up a life-size manger with straw and a live ox and ass. Members of the community posed as Mary, Joseph and the shepherds and a wax figure of the Christ Child was placed in the manger. A great throng assembled to worship at the site on Christmas Eve 1223. Many songs and hymns were sung, and so impressive and awe-inspiring was the Many songs and hymns were sung, and so impressive and awe-inspiring was the ceremony, that Greccio assumed the fame of a second Bethlehem as the news spread far and wide.

Inspired by St. Francis, artisans and craftsmen began to make miniature manger scenes for their homes, and the creches spread all over Europe.

Whole families fashioned the little figures from wood or clay and created replicas of Bethlehem, as they imag-ined it would look. Often these scenes looked more like their own villages than the Holy Land.

In Naples, these creches developed into a fashion-able art because of the interest of the Bourbon King Carlo III, who set the pace by the elaborate settings of the Nativity scene, which he had set up in his castle

every Christmas Eve.

The members of the court took up the hobby of their king and soon all the great Neapolitan families were vying with each other to produce brilliant and lavish

THURSDAY, DECEMBER 20, 1973

creche displays. They employed the talents of the best sculptors and the ladies of the great houses frequently made elaborate clothes of velvets and satins for the figures.

The most outstanding of these figures were produced in the workshops of Naples during the second half of the eighteenth century. The Metropolitan Museum has a large collection of them, which are usually on dis-play during the Christmas season. Most of these are from the famous collection owned by the great Neapoli-tan Catello family.

The figures, an average of 12 to 18 inches in height, have pliable bodies of wov-

en twine and wire, expres-sive faces. The limbs are of finely carved wood. The fignnely carved wood. The fig-ures are dressed in 18th century costumes, enriched with jewels and embroidery. The heads and shoulders of the figures, modeled in terracotta and nainted in the figures, modeled in terracotta and painted in flesh tones, are credited to some of 18th-century Na-ples' finest sculptors: Giu-seppe Sammartino and his pupils, Salvatore de Franco, Giuseppe Gori and Angelo Giuseppe Gori and Angelo

Creches are also popular in other parts of Europe notably Provence in France, and in Spain. But none has reached the high degree of artistic elegance of those of 18th century Naples.

AWED SHEPHERDS AND THEIR GOATS, polychromed terracotta, wood, fabric, tow and wire. Shepherds 151//" high. Italian (Neapolitan) 2nd half of 18th century. The Metropolitan Museum of Art, gift of Loretta H. Howard.
