DICK WOOD

Wood Named New BB Coach

Dick Wood of Monte Vista, Colorado, is in town this week looking for a place to live. He is to be varsity boys basketball and assistant football coach at Tahoka High School. Dick, who is a native of Dimmitt, Texas, will be moving his family here as soon as suitable housing can be obtained.

Mr. Wood has a record in basketball of 78 won and 18 lost. He took Monte Vista to the Colorado State Tournament in 1972 and to the regional finals in 1973 and 1974. During his tenure at Monte Vista, he developed three All-State players, 9 All-Conference and seven honorable mention All-Conference performers.

Salvation Army Fund Drive

The recent Salvation Army fund raising drive reached \$1178.80 topping its projected goal of \$1100. Approximately sixty women gave their time and effort to make this drive a success, they will receive personal notice directly from the Salvation Army thanking them for their generosity.

Group leaders in the Lynn County drive were: Grassland; Laverne Aten, New Home; Joy Smith, West Point; Joy Bragg, Wilson; Virginia Gatzky.

Art Show Set For Sat. & Sun.

The Lynn County Art Association will hold a Spring Art Show Saturday and Sunday at the Community Center. The show will open to the public at 1 p.m. each day.

Entries will be taken Saturday morning from 9 to 12. Entries must be picked up between 5 and 6 on Sunday afternoon.

Entry fees are \$1.00 for adults per entry and 50 cents for students per entry.

The public will be asked to vote on a "Peoples Choice" selection.

There is no admission charge.

Another Hail Hits Tahoka

A second hail storm and rain hit Tahoka last Saturday night, but the stones were only marble size this time as compared to stones as large as hen eggs the week before.

However, this hail ripped gardens and cotton adjacent to town even worse than the big hail of the week before which totaled so many roofs, dented scores of cars and pickups, and causing damage which ran into the hundreds of

thousands of dollars.

Fortunately, Saturday night's hail covered only a limited area. Rain which accompanied it measured .99 inches in Tahoka, and from a half inch up on out east of town.

Most of Lynn County is still desperately in need of additional rain to plant cotton. High winds have damaged a lot of cotton farmers had been able to get planted on limited moisture.

Wilson Board Has Regular Meet

The Board of Education met in regular session on May 21, 1974, with the following members being present: Roy L. Kahlich, Tommy Bednarz, Curtis Wilke, Thomas Autry, Donald Klaus, Alvin Kitten, C. W. Stone. School administrators present were Gary Gardner, superintendent and Travis Gilliland, high school principal.

The following business was transacted:

- (1) Minutes of April 16 and May 1 were approved as read.
- (2) Accounts payable for 1974 were approved and paid as presented.
- (3) The Wilson Independent School District employed the following teachers subject to assignment for the 74-75 year: Susan Mouser, Kathy Baer, Connie Stewart, and Jo Donette Bartley.
- (4) The Wilson Independent School District employed Kay Ella Bruedigam, Virginia Swope, Trina Cedillo to

be employed in the federal programs contingent upon federal funding for the 74-75 school year. (5) The Wilson Independent School District employed Mrs. Janice Lee as special education teacher aide to work in Plan-A. (6) The Wilson Independent School District accepted resignations of the following people: Travis Gilliland, high school principal, Joe Downey, high school science teacher, Hautence Parker, cafeteria supervisor, and Mae Robinson, cafeteria worker.

(7) The Wilson Independent School District employed James Satterwhite as a part-time administrator in addition to his responsibilities for the 74-75 school year.

(8) The motion that the Wilson Independent School District decided to participate in media services of Region XVII Service Center at \$1.00 per ADA for the 74-75 year.

(9) Motion was made and second to adjourn.

To The Citizens Of Our Community

Please accept our apologies for using an impersonal means of expressing our gratitude to you. We wish that it were possible to thank each of you personally for the over-whelming support you have shown during the recent litigation; however, since this is not possible, may we say very honestly and sincerely that we appreciate you.

Throughout the majority of the 1973-74 school year, we felt a great deal of pressure, second only to the sense of responsibility we felt to you and your children. Never at any time did we lose sight of our desire to be, first of all, examples to students and next, to put the education and welfare of the student in its proper perspective. The events that transpired were very heart-breaking, not only to us as educators and personally, but be-

cause of the irrevocable damage done to our school.

May we commend our fellow teachers, all of whom expressed their feelings that this incident was a threat to each of them as well and who so valiantly supported and encouraged us. We were made very humble to know that you, the citizens of the community, were in total agreement with the stand we took, to the extent that you bore the financial burden of our legal defense.

As long as our community consists of people who prefer moral uprightness and who are not fearful, of defending such, we are not apprehensive for the future of our school.

Signed:

Clifton Gardner

each canning season the canner be checked to see that it is in perfect condition. This includes having the temperature inside 240 degrees F. at 10 lbs. pressure. At the clinic the canners will be tested for this as well as other items.

The dates and places for the clinics are as follows:

- Monday-June 10- Tahoka Home-making Cottage 9:00 a.m. to 3:00 p.m.
- Tuesday-June 11- New Home Baptist Church Kitchen 9:00 a.m. to 3:00 p.m.
- Thursday-June 13- O'Donnell Community Center 9:00 a.m. to 3:00 p.m.
- Friday-June 14- Wilson Home-making Department 9:00 to 3:00 p.m.

Because testing the canner will take 1-2 hours, it is recommended that canner be left and picked up later in the day. Canners will be picked up for shut-ins.

Donations will be appreciated. Call 998-4650 for more information.

**BILL GRIFFIN
SAYS**

Fields across the High Plains are sporting shiny new stands of cotton and grain sorghum, although fertilizer shortages and dry weather forced many producers to get their crops started without a full compliment of fertilizer.

Most High Plains soils are rich enough to get new crops going without added nutrients. But for those who were unable to get them in, post-plant fertilizers almost certainly will be needed now to get-too yields.

WHAT TO APPLY

The best way to determine proper rates and ratio of fertilizer nutrients needed for a particular crop is through soil testing. If this is not possible, producers should keep in mind that nitrogen is the only plant nutrient generally deficient in all area soils.

Cotton needs about eight pounds of nitrogen to produce 100 pounds of lint, while sorghum requires

20 pounds of nitrogen to produce 1,000 pounds of grain.

Phosphorus also tends to be limiting in some area soils. If phosphorus is definitely limiting, the application of 40 pounds per acre of P2O5 is adequate for top yields of cotton or grain sorghum. On the other hand, if phosphorus has been applied for several years, chances are that no additional treatment will be needed this year.

"Numerous research studies by scientists with the Texas Agricultural Experiment Station at Lubbock have shown that all forms of nitrogen and phosphorus normally marketed in this area are equally effective." "The choice of fertilizer materials should be determined largely by the nutrients needed, materials available, method of application and price."

WHEN TO APPLY

According to TAES Research, it shows that nitrogen applied

Lynn County News

to sorghum 30 to 35 days after emergence is as effective as that applied before planting. Even the injection of anhydrous ammonia or liquid nitrogen into irrigation water as late as the bloom and early milk stages still resulted in substantial yield increases.

"On sandy soils or others with rapid water intake rates, split applications of nitrogen are recommended. Approximately one-half of the nitrogen should be applied as an early sidedress with the rest to follow in one or two additional applications.

"In cotton," the optimum time for post-plant nitrogen applications range from emergence to the early squaring stage. Treatment after squaring is generally not recommended due to the possibility of delayed maturity.

"Phosphorus applications, if needed, should be made as soon after planting as possible. This nutrient is important in seedling development and should be present during the early growth stages."

**Highway Work
Awarded**

Highway construction contracts let in May by the Texas Highway Commission include Lubbock area work.

The work, supervised by District Engineer George C. Wall, Jr., will be in Lynn and Garza Counties.

A contract was awarded to W. D. Turner Construction Co. of Lubbock. Low bid was \$637,028.67.

The project, which will require an estimated 200 working days, will be under Highway Department Engineer Julian J. Smith of Post.

The contract is for grading, structures, flexible base, prime, one and three course surface treatments and seal coat. The

projects are located on U. S. Highway 380 in Lynn County from the Pand SF Railroad in Tahoka eastward to the Garza County line and on Farm to Market Road 651 in Garza County from 15th Street in Post northeastward 4.6 miles.

The steady decline of cotton prices since January of this year is of more concern to cotton producers than anything besides the lack of moisture, says Donald A. Johnson, Executive Vice President of Plains Cotton Growers, Inc., Lubbock.

"With soaring production costs there will be precious little if any profit in cotton production this year unless price prospects improve substantially," he notes.

The U. S. Department of Agriculture reports that spot futures and 1974 contract prices have dropped over 20 percent in the past four months, and there is no material evidence that the nose dive has ended.

"But there are some in the industry who see a ray of hope for 1974 crop prices," Johnson notes.

Textile industry spokesmen, judging from stories appearing in the "Daily News Record" and other textile publications, are the most persistent painters of a gloomy price picture.

For example Robert Bendheim, Chairman of the Board of M. Lowenstein and Sons, says cotton could get down in the mid-40 cent range. He presumably was referring to Strict Low Middling inch-and-a-sixteenth, which would mean average qualities grown on the High Plains would well considerably below that range.

Voicing an opposing view is David Cox, manager of the Economic Research and Development Division of Cotton Incorporated, national producer organization charged with cotton market development, research and promotion.

Cox reasons that while mills have been holding off on purchases of additional cotton in anticipation of further price erosion, "All fundamental economic indicators lead to the conclusion that present and future markets are underpriced." Among the "indicators" he points to continuing tight supplies of synthetic fibers, exports "almost certain to exceed six million bales," and his belief that cotton plantings and

production in the U. S. may reach forecast levels.

USDA is predicting a 14 million bale crop of cotton in the U. S. this year. But this may be taking into account the decline in prices that will affect planting or the lack of moisture posing a severe threat to cotton production on the High Plains, Johnson says. The High Plains in 1973 produced over 2.9 million pound net weight bales, he notes, which was almost 16 percent of

U. S. crop. "And you can't see anybody now who expects the same area to turn out more than two-thirds that amount in 1974," so Cox may well be correct in expecting the U. S. crop to be below recent projections."

For the longer term outlook is noteworthy that 7 of the major cotton producing countries of the world have population growth rates averaging 2.3 percent, which will result in 10 percent increases in their populations within 20 years. To this means they will not be able to meet growing demands for cotton and fiber at home and at the same time maintain their strong export positions.

In contrast, the U. S. and Asia have populations growing at the rate of only 1.2 percent a year. The remaining country, People's Republic of China, has a growth rate of 1.8 percent already is a net importer of cotton.

So, Cox concludes, "The prospect for increasing competition among foreign purchasers of cotton appears certain."

Price Drop Ends Scout Paper Drive

A market drop in the price of newspaper has left local Boy Scouts with a ton of paper on hand and hundreds of local residents who have faithfully been saving papers for the next drive.

Troop leaders were notified last week that Lubbock re-cycling centers were no longer buying newspaper at any price.

Local residents are faced with two alternatives. One, to discard papers collected and two, to continue saving in hopes the market will be re-established.

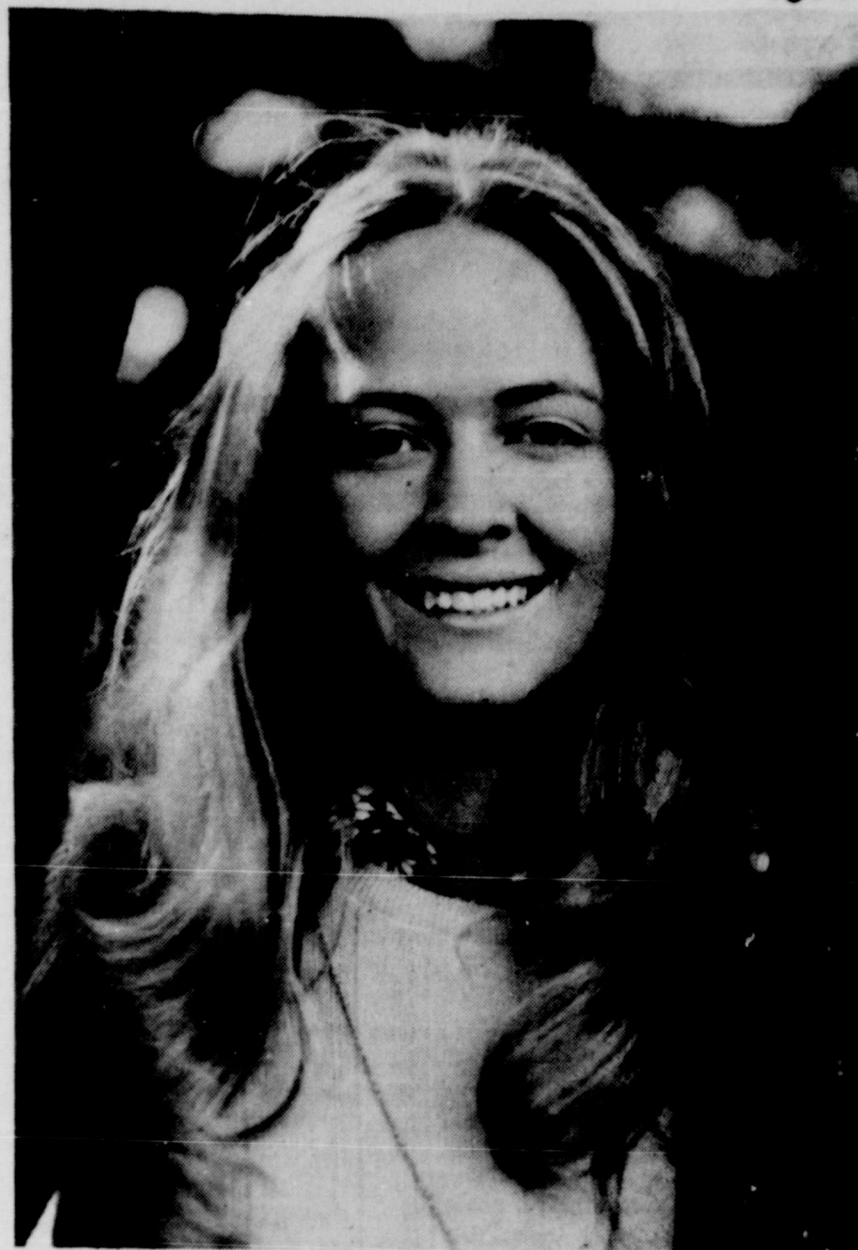

At any rate, the local Troop will have another drive when the prices go up.

The Troop would like to Thank everyone who helped on the project.

WHAT TO DO?

THIS MAY BE A BIG QUESTION MARK ??? IN THE MINDS OF COTTON PRODUCERS !!!

WHAT VARIETY OF COTTON ??? SHOULD I PLANT IF I GET INTO A VERY LATE PLANTING SITUATION -- DUE TO GETTING MOISTURE LATE, REPLANT, OR FOR ANY OTHER REASON.

PAYMASTER DWARF COTTON IS THE COTTON THAT WILL WORK FOR YOU UNDER THESE CONDITIONS.

FOR NORMAL PLANTING DATES, WE RECOMMEND THAT PAYMASTER DWARF COTTON BE PLANTED IN DOUBLE-ROWS, DRI LLED, OR IN ANY HIGH POPULATION PATTERN -- BUT IF

-- YOU MUST PLANT LATE --- WE RECOMMEND PLANTING PAYMASTER DWARF IN REGULAR ROW SPACING. IT IS SO FAST IN MAKING (LOOK FOR BLOOMS IN 45 DAYS) THAT YOU CAN MAKE A COTTON CROP EVEN WHEN PLANTED VERY LATE.

DON'T FORGET PAYMASTER 18 WILL ALSO DO YOU A GOOD JOB WHEN YOU ARE FORCED TO PLANT LATE -- IT WILL GIVE YOU GOOD PRODUCTION AND MI KES VERY GOOD.

COUNT ON THESE TWO PAYMASTER VARIETIES --

PAYMASTER 18 - FOR LATE PLANTING
PAYMASTER DWARF - (IN REGULAR ROWS) FOR VERY LATE PLANTING

YES, WE HAVE A VERY GOOD SUPPLY OF THESE SEED ON HAND FOR YOU -- CALL US AT A/C 806/652-3312.

 TEXAS PRESS ASSOCIATION

AUSTIN, Tex. — Some of the Constitutional Convention's hottest debate is yet to come.

Explosive potential of the general provision article already has been demonstrated in preliminary rounds, and the right-to-work section should produce the biggest bang of all.

Organized labor, headed by State AFL-CIO President Harry Hubbard, stands foursquare against writing right-to-work provisions into the new constitution.

A new statewide citizens committee with formidable political and financial muscle has been formed to lobby for placing right-to-work on the ballot as a separate issue from the overall constitutional revision.

The Texas right-to-work law, dating back to 1947, prohibits union contracts which would require union membership as a condition to getting and keeping a job.

Baylor University President Dr. Abner McCall is chairman of the Texas Right-To-Work Committee which opened offices near the state capitol recently. Houston school teacher Mrs. Margaret Wisdom is the co-chairman.

Other big-name Texans, including a scattering of industrial leaders, Republicans, conservative Democrats and Gov. Dolph Briscoe's campaign manager, Austin attorney Joe Kilgore, are on the committee roster.

COTTON THREATENED —

Drought which destroyed High Plains dryland wheat is now threatening this year's cotton crop, Agriculture Commissioner John C. White fears.

White said High Plains cotton production could be cut almost in half because of dry weather.

The High Plains last year produced an estimated 2.9 million bales of cotton. More than 2.7 million acres of cotton were planted in the area, and 1.1 million were dryland acres. Irrigation costs are running \$35-\$60 and acre and irrigation fuel which cost 10 cents a gallon last year now costs 27-29 cents.

COURTS SPEAK — Evangelist Lester Foloff did not have to get licenses from the state to operate child care facilities, since fewer than six of the children were under 16, the Texas Supreme Court held.

The High Court also set for review the case of a Bee County worker held eligible for permanent, total disability assistance due to ailments resulting from a cut finger and severed tendon.

U.S. Supreme Court will hear the Texas appeal in the House single-member district case.

Texas Court of Criminal Appeals invalidated as unconstitutional a state juke box fee found to favor larger operators.

Same Court threw out a Houston man's murder conviction, ordered a new trial for another Houston man convicted of robbery by assault and reversed (on grounds of double jeopardy) a Dallas man's 25-year sentence for beating a teenager.

STUDY ORDERED — Speaker Price Daniel Jr. has ordered a "thorough study" of the Texas Water Quality Board by the House Committee on Environmental

Affairs.

The investigation will cover the agency's administration, operation and enforcement of environmental standards.

While inquiry actually will not get under way until the Constitutional Convention adjourns, advance planning and research by staff members is already under way.

Rep. Carlos Truan of Corpus Christi and 44 other representatives petitioned for the investigation May 15.

The standing subcommittee on pollution of the Environmental Affairs panel actually will conduct the study. The House Judiciary Committee will further consider administrative operations of TWQB in its overall review of administrative agency procedures.

Daniel said purpose of the investigation is to "get all of the facts and to lay the basis for any remedial legislation or administrative action which may be needed."

WIRE SHORTAGE THREATENS — A serious baling wire shortage may cause economic hazards, Agriculture Commissioner White warned.

White earlier said the shortage would be between 22 and 47 per cent. Industry sources reported a 30 per cent shortage nationwide and a possibly higher figure for

Texas.

Prices may rise from \$28 and \$50 a carton to \$70, White said. A year ago, the price was \$13. White said a black market situation may develop in baling wire as in fertilizer. Haybaling is just beginning in the state. Ninety per cent of farmers in Texas use wire to bale hay. Twine too is in short supply.

SHORT SNORTS

The Governor's Energy Advisory Council has received a \$489,000 National Science Foundation grant to continue its long and medium range energy resource studies in Texas.

The Governor signed an executive order creating a State Manpower Services Council to coordinate manpower policies, plans and services throughout the state.

Texas Water Rights Commission adopted a policy statement identifying requirements for change orders to bond project plans of water districts.

Since the State Democratic Convention falls on Rosh Hashana (September 17), Governor Briscoe recommended delegates of the Jewish faith who are absent on the religious holiday be allowed to assign their votes to certified delegates or alternates.

Nursing Home News

Mrs. Evelyn Russell begin her job in earnest. She states she spent most of her time looking through Mary Price's filing. When Evelyn finds where every thing is filed she will have it made. Most all the residents here are up and doing fine. Carrie Dillard is able to be up and about. She is able to go back into the dining room to eat. She can use her left arm very well.

We were sadden June 1st in the death of Mrs. Mattie McCord. She was the 2nd oldest resident here. She was ninety five years young. We will miss her but our loss is Heavens gain. Our deepest sympathy goes out to her family. Some of her family visited her every day, and we here at the home will miss their visits. We want them to visit us when they feel like it.

Dr. Wright checked on some of his residents for their monthly check-up. Dr. Wright is here each Wednesday and he sees all the residents he can see. Dr. Tubbs was here from Post checking on his residents.

Mrs. Mary Woods daughter A-dline and her son were here visiting Mother Woods. Mr. Huffman is all smiles as Mollie Brumett and son Mike and a great-granddaughter and a granddaughter were here to visit. Huffle is always smiles when he has company. Roy Campbell enjoys going to town and eating out. Mr. and Mrs. Roy Appling spent Saturday at Wilson. Avis visits them often. Garland Pennington reports to Corine Izard he and Robbie had a wonderful visit in Arkadeephia Ark. with Garlands relatives, and they also visited the Cleo Pennington family in Gredston Alabama. They enjoyed a big fish fry. It made Corine very hungry as she knows just how good those fish fries are. John Anderson is eating at the Wyatts today. Bert and Lois just came by but went on to the Wyatts. Mrs. Willie Mae Childress visited her mother, Mrs. Minnie McMillan, who is improving every day.

Our activity program started Monday. Donna wants any one who has bought panty hose in the big eggs to please give her the empty eggs. She has a project for them. Bro. Jones and Lynn Long, along with several members from Sweet Street Baptist Church, brought our church services Sunday. Bro. Jones read from Romans 8 verses 31-35 where seven questions were asked. He answered by saying all things are possible by Faith and God is with us always.

Our visitors are forgetting to sign our guest book; please do so. Mrs. Russell's family was here with her this week-end. She said they did not get to stay long e-

 nough. We had several visitors last week at our singing from the Lake View Baptist Church. They were Loreen Harmonson, Betty Jean Fillingin, Dottie Harmonson, Mrs. McMannis, Barbara Kinley and Cheryl Owens and Qtasca Messer.

Mrs. McCord's Funeral Held

Services for Mrs. R. B. (Mattie) McCord, 95, were at 3 p.m. Monday in the First Baptist Church in Tahoka with the Rev. Jim Turner, pastor, officiating, assisted by the Rev. Frank Oglesby, United Methodist Church pastor.

Burial was in Tahoka Cemetery under the direction of White Funeral Home. Mrs. McCord died Saturday June 1, in the Colonial Nursing Home in Tahoka after a lengthy illness.

Mrs. McCord was born Feb. 21, 1879 in Tuscaloosa, Ala., and attended school in Samantha, Ala. She married R. B. McCord in Samantha Oct. 13, 1898. She came to Lynn County in 1916 from Baylor County. Mrs. McCord was a member of the First Baptist Church in Tahoka.

Survivors include five daughters, Mrs. C. E. (Lena) Short of Poet, Mrs. M. C. (Willie) Thomas of Tahoka, Mrs. Carllice (Ruth) Edwards of Denver City, Mrs. J. K. (Lucille) Looker of Ingram and Mrs. Tom (Polly) Mott of Graham; 12 grandchildren, 30 great-grandchildren and one great-great-grandchild.

Grandsons served as pallbearers. They are E. L. Short, H. B. McCord, Jr., Don Mack Edwards, Billy Loren Thomas, Harry Lee Short, Rollin McCord Jr., Robert Thomas Mott and Michael Mott.

The family has requested that memorials be sent to the First Baptist Church of Tahoka building fund or to a favorite charity.

MRS. EDWARD SMITH
 nee...Elaine Dempsey

Dempsey-Smith Married May 18

Miss Elaine Dempsey and Edward Smith exchanged wedding vows at 6 p.m. Saturday May 18 in the home of Mr. and Mrs. K. O. Carter at 3618 48th St., Lubbock. Rev Jim Turner, minister of the First Baptist Church of Tahoka, officiated the double ring ceremony.

Given in marriage by her brother, Mike Dempsey of Eldorado, the bride wore an ivory gown of princess style with a lace bodice covered with seed pearls, long sleeved with a skirt flowing into a moderate train, also covered in lace and pearls. A seed pearl tiara held a veil of ivory finger tip illusion. Her bouquet was yellow rosebuds with small white daisies and baby's breath.

Tommye Nance, sister of the bride, served as her Matron of Honor and Christy Smith, sister of the groom, was her flower girl. They wore gowns of soft

yellow crepe with lace covered front panels and long puffed sleeves of yellow lace. Their head pieces featured yellow bows with yellow illusion. They carried bouquets of small white daisies, yellow sweetheart roses and baby's breath.

Herbert Smith served his son as best man and Trey Nance, nephew of the bride, as ring bearer.

The bride is the daughter of Mr. and Mrs. Tom Dempsey of Eldorado. She is a graduate of Eldorado High School and Angelo State University. She is presently employed in Caldwell as a registered nurse.

Smith, the son of Mr. and Mrs. Herbert Smith of Tahoka, graduated from Tahoka High School and is doing graduate work at Texas Aand M.

A reception was held following the ceremony. Serving were Marreice McCravery of Eldorado and Denna Wharton of Roscoe.

About 25 guests attended a dinner honoring the couple at the El Chico Restaurant.

After a wedding trip to Six Flags and Dallas the newlyweds will reside at F207A College View, College Station, Tex.

Cotton Growers Play 'Wait And See' Game

AUSTIN--Forward cotton contracting for the 1974 season is currently at a standstill with growers seeking 60 cents a pound and buyers willing to pay only 45, reports Agriculture Commissioner John C. White.

As a result, only about five percent of Texas growers have contracted as compared to 16 percent this time a year ago.

In the Lower Rio Grande Valley, which grows six or seven percent of the state's cotton, 99 percent of the crop was contracted earlier in the year at 65-70 cents a pound. Upper Gulf Coast counties contracted some acreage at around 60 cents, and in the Winter Garden area acreage was signed up for 60-65 cents.

Since then, however, prices have dropped. Warehouses and processors are stacked up with the 1973

crop. For the time being, farmers, confronted with rising costs, and buyers, facing a drop in the market, are playing a waiting game.

On the High Plains, where around 80 percent of the state's cotton is grown, no one is even talking the subject, White said. "Compresses and warehouses are 90-120 days behind schedule in processing and shipping. When that crop starts to move,

maybe then buyers will start thinking about the new crop."

White expressed some concern about High Plains' cotton, which is currently being planted. "If they don't get more rain, there could be a drop in harvest," he said.

MRS. CHARLES ALBERT ANDERSON nee... Paula Kathleen Caswell

Vows Read For Caswell-Anderson

Paula Kathleen Caswell and Charles Albert Anderson were united in marriage in a ring ceremony at 5:00 Saturday afternoon, June 1, at the United Methodist Church in Tahoka. Dr. Bervin Caswell, District Superintendent of a New Conference in the United Methodist Church and uncle of the bride, officiated the ceremony.

Parents of the bride are Mr. and Mrs. Noel Caswell of Draw, Texas, and Mrs. W. L. Anderson of Tahoka. The groom's parents are Mr. and Mrs. W. L. Anderson of Tahoka.

The bride was given in marriage by her father, Linda Caswell, who attended her sister as maid of honor. Serving as bridesmaids were Darla Neepser of Sweetwater and Susan Tunnell of O'Donnell.

William Williams of Draw served as best man. Candlelighters for the ceremony were Dru Ann Williams of Tahoka and Randy Williams of Seminole, cousins of the bride.

Mike Opperhall of Houston was bestman. Groomsmen were Daniel Anderson, brother of the groom, and Larry Curcoe of Abilene. Ring bearer was Phillip Furlow, cousin of the bride.

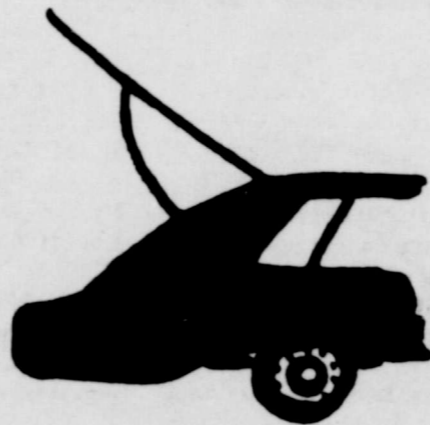

Special wedding music was provided by Debbie Caswell, pianist. She accompanied Dale Williams as he sang "The Wedding Song" and "The Wedding Prayer." Guests were registered by Paula Sherrill of Lubbock. Ushers were Bobby and Jimmy Caswell, brothers of the bride.

A reception followed the ceremony in the home of the bride.

The bride is a 1971 graduate of O'Donnell High School and is presently attending Angelo State University as a senior, majoring in speech.

The groom graduated from Angelo State University in 1971 with a bachelor of arts degree in government. He is presently employed by Western Communication Service in San Angelo.

The couple will make their home at 1917 Raney in San Angelo.

Softball

The Tahoka Tournament traveled to Lamesa participated in the annual Softball Tournament. The event is a 3 day event and teams from Texas and other states will participate. The Tahoka Tournament consists of players from teams that make up the league.

Tahoka played Friday night to Warfield Restadessa. Saturday morning played Odessa Slicker the hard played game of the 9th inning of 5 to 4. After beating Odessa, Tahoka played the state and lost to the 13 to 0.

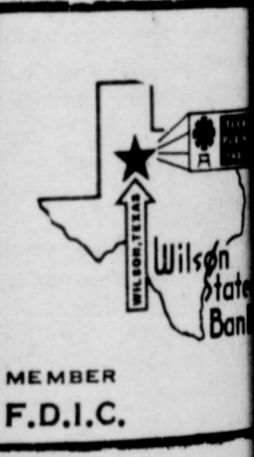

Although Tahoka did not win the tournament, the team represented Tahoka in a commendable manner and played some excellent softball. Why don't you go to the softball park any Thursday night and watch the ball at its best.

Local Family Given Award

Llano Estacado in conjunction with the Lynn County Farmers Association would like to express to all those who so generously gave their donations to the Tahoka fair so desperately needed by the community.

A local family who Hepatitis and found that with six children in the hospital found out just how to live in a community like Tahoka where the good neighbors always ready to lend a hand. The coordinator for County Llano Estacado would like to inform that almost \$200.00 was in cash and food for the fair. It sure is comforting that we are surrounded by many good people who are willing to lend us a hand in an hour of need.

Licensing is seen as both protective and preventive. Parents are not always able to appraise the standards by which child care services are rendered. By establishing safe guards against risks, licensing serves to prevent physical danger and promote a good program of child development and training.

The licensed child care staff is given assistance in achieving and maintaining minimum standards and has the support of the department in times of difficulty. It is the primary responsibility of the licensing worker to evaluate the child care facility and determine what, if any, changes must be made in order to qualify for a license.

Basic requirements include the following: 1. fire and sanitation inspections of the facility; 2. health card for persons working with children; 3. immunization records on children in care; 4. nutritious meals; 5. knowledge of physical and emotional needs of young children. The public is entitled to protection when services are offered on an open market. Child care facilities provide a community

service and it is the responsibility of the community to support good child care. Day care is an important business because it deals with children in their most formative years. Thus it is essential that programs be developed to promote healthy growth and development of children, by preventing experiences detrimental to normal physical and mental development. If you now care for children in your home and have not been aware of the legal requirements for a license or if you are interested in providing child care you may contact: Mrs. Joanne Luele, Day Care Licensing Representative, Box 2369, Lubbock, Texas.

Texas Welfare For Children

The State of Texas is concerned with the welfare of children who are cared for by persons other than the child's own family. These people providing day care are required to obtain a license to operate and to meet minimum standards specified by the State Department of Public Welfare. Many people do not know that the state licensing law applies to all persons keeping one or more unrelated children outside of the child's home for any part of the 24-hour day.

The license costs nothing and is a service to three groups of people: 1. the parents and their children, 2. the staff of the child care facility, and 3. the community.

AROUND TOWN

BY LEONA WALDRIP

CALL 998-4496

Hello! Did you miss me? I have just returned for another 2 weeks stay with my Aunt in Ruff Okla. She will go for more tests on June 20th and if everything is O.K. will come to Tahoka and spend a few months with me.

Jan Gaither of Lubbock is spending the first week of her school vacation with her grandparents, Mr. and Mrs. E. B. Gaither. The Gaithers have been in Van Couver Washington for several weeks at the bedside of his brother Jimmy, who passed away last Monday. He was buried there on Thursday and the Gaithers returned home Saturday.

Mrs. Lutie Sproles left by plane Monday for Atlanta, Ga. She will assist her granddaughter's family, Mr. and Mrs. Don Barker in getting ready for a move back to West Texas. They will be arriving here within the month.

Mrs. Thelma Dewbre returned Monday after a two weeks visit with her daughters Joyce in Shreveport, La. and Ruth in Commanche, Texas. She traveled by plane to Dallas where Joyce met her for the remainder of the trip by car. For the return trip the daughter took her to Commanche where she spent several days with the M. L. Green family before they brought her home. Joyce is a librarian in the college at Shreveport and Mrs. Green teaches at Commanche.

Mr. and Mrs. John Roberts met their children the Robert Tuckers in Abilene on Saturday for a picnic lunch and family outing. The Tuckers live in Ft. Worth. The twins Phillip and John came back to Tahoka with the

grandparents for a weeks stay. This Saturday the same procedure will be followed except the boys will go back and the two girls will come for a weeks stay. The Roberts will return the girls to Ft. Worth the following weekend. The Tuckers are winding up a years leave in the states and have been attending school at the Baptist Seminary. They will soon be going back to Venezuela where they are missionaries. Their older son Mark had previously spent a week with the grandparents here.

On May 25, Miss Debra Gwen Gaither became the bride of Elmer Eugene Askins in Parkway Drive Baptist Church, at 7:30 p.m. Pastor Wayne R. Williams officiated. Bennie Lou Gaither, sister of the bride, was Maid of Honor and Best Man was Robert Harris Jr. Debra is the daughter of Mr. and Mrs. Bently Gaither of Lubbock, formerly of Tahoka, and she has just completed her junior year in High School at Eatacado. Elmer Eugene Askins is the son of Bonita Askins of Amarillo and Eugene Askins of Lubbock. He has just finished a tenure of duty in the U. S. Army and had just been discharged from Ft. Carson, Colo. on the preceding Monday.

The couple will make their home in Amarillo where he is employed with a roofing company.

Mr. and Mrs. E. B. Gaither of Tahoka are grandparents of the couple.

On Thursday night I attended commencement Exercises at Lamesa, for their 1974 class of 200 seniors. My grandson Dennis,

son of Mr. and Mrs. Randall Waldrip, was among the graduates. The event held in Lamesa High School Auditorium began at 7:30 p.m. Jim Garner, "Sports Information Director at Texas Christian University" gave the commencement address. The graduates wore gold colored caps and gowns. Neal Chastine, Supt. presented the Diplomas and Terry Robertson, asst. prin. presented special awards. The auditorium was filled to capacity and many people had to stand. Dennis is employed for the summer in Lubbock with Harrold Phillips Gen. Contractor but plans to enter Texas Tech this fall.

Guest speaker at Sweet Street Baptist Church on Sunday night was Rev. Dale Dossier. Bro. Dossier originally from Seagraves and former pastor at Calvery Baptist Church at Post, has currently been pastoring in Indiana. The family is in the process of moving to Tempe, Arizona where he will pastor a newly organized church there.

On Monday night 23 members of the youth choir of Houston Terrace Baptist Church at San Antonio brought a message in Song at Sweet Street Church. The program entitled "Let your Light Shine" was based on the scripture known as "The Beatitudes." Five adult sponsors were with the group. Homemade ice cream and cake were served all who attended the affair, and church members opened their homes and kept the youths over night. They left early Tues. morning on the return trip. Rev. "Tut" Jones is pastor at Sweet Street.

Mrs. Inez Jenkins, speech therapist in the local schools is entering Lynn Co. Hospital Thur. for major surgery.

Rev. and Mrs. Elmer Tyler have had several grandchildren visiting in their home the past week.

The "auction" at Ed Hamilton's brought about the biggest crowds we have seen in Tahoka in a long time.

Calling Everyone

The American Cancer Society urgently needs the help of all Americans to help wipe out cancer in our lifetime. Give generously.

Carolyn Haley Says...

Eggs are mighty magical marvels. And right now eggs are coming to market in abundance.

Beneath those fragile shells is a powerhouse of goodness; a built-in inherent quality of being favorably superb served "as is," regardless of the cooking method used—plus the ability to do lots of exciting things for other foods in a subtle, magical way.

One special power eggs possess is the ability to thicken—a quality that wise cooks use to prepare tasty custards, puddings, pie fillings, salad dressings, sauces, and soups. Eggs that are gently heated quickly set, thicken, firm-up, or coagulate... whichever term you prefer... as when you poach an egg. An egg, when slightly beaten and combined with other ingredients and gently heated, will thicken the entire mixture into a tasty "oneness."

Eggs added directly to heated liquid or mixture set before being thoroughly dispersed. Therefore, for full-bodied consistency and velvety smooth finished products, it's best to slowly add some of the "heated" ingredient to the beat eggs, then quickly stir the egg into the remaining hot mixture. Careful temperature control is needed when eggs are used to thicken a liquid mixture such as a custard. Temperatures that are too high, or overcooking, will cause the egg protein to shrivel and separate from the liquid.

To prevent overheating during surface cooking, use a double boiler and keep the water just below boiling. For oven cooking set the baking dish in a pan of hot water in a moderate oven. Remove egg mixtures from the heat promptly when done.

In sauces, puddings, and fillings, a starchy thickening agent such as flour, cornstarch, or tapioca—often used in combination with eggs. Because starch needs longer cooking than eggs first combine the starch with the liquid and cook thoroughly before adding eggs.

Two egg yolks or two egg whites have the same thickening power as one whole egg.

RECIPE OF THE WEEK:

CORN PUDDING
1 tablespoons of butter of margarine
1 tablespoon flour
1 cup scalded milk
1 teaspoon salt
1/8 teaspoon pepper
1 teaspoon sugar
16 oz. can cream-style corn
4 eggs, slightly beaten
Preheat oven to 375 degrees (Moderate) Grease a 1-quart casserole.

Melt butter or margarine, and blend in flour. Add milk, salt, pepper, and sugar. Add corn and heat slightly. Blend eggs in warm milk mixture. Pour in casserole, place casserole in pan of hot water, and bake 1 hour or until set. Pudding is done when the tip of a table knife inserted in the center comes out clean. Makes 6 servings, about two-thirds cups each, about 165 calories each.

For fewer calories, use a 1/2 oz. package of frozen whole kernel corn in place of the cream-style corn. About 140 calories per serving.

Serve with hot or cold sliced roast beef, green snap beans, and French bread. Have fruit gelatin and pound cake for dessert.

Freezone is for corns that hurt.
Absolutely painless. No dangerous cutting, no ugly pads or plasters. In days, Freezone eases the hurt... safely helps ease off corns. Drop on Freezone—take off corns.

Church Family Home Evening

We all know that our families are worth far more than thirty minutes of our time; yet often we let a day, a week, or a month go by without sharing any real time with those we love the most.

Would you trade thirty minutes of your time for an idea? A family idea?

As representatives of The Church of Jesus Christ of Latter-day Saints, we would like to share with you and your family a pleasant, meaningful activity that is being conducted with gratifying results in hundreds of thousands of homes throughout the world. It is called the Family Home Evening, and is designed to bring added love, understanding, communication, and fun to all the members of your family.

No other success is as important as success in the home. The family is the basic unit of society, and no other institution can take its place nor fulfill its essential functions. We all know that our lives outside the home are richer, more productive, and more satisfying when our lives inside the home are united in family love and solidarity.

The family home evening is devoted to things that members of your family enjoy doing together, and it includes a learning activity. You'll find that family home evening, with father directing and mother at his side, will increase the unity and love among all the members of your family.

Your interest is appreciated, and we look forward to demonstrating a family home evening in your home under your direction. This is a non-cost public service program for people interested in families.

MRS. LARRY WAYNE BOYD
nee...Janie Lee Young

Young-Boyd Repeat Vows

Miss Janie Lee Young and Larry Wayne Boyd repeated marriage vows Saturday, June 1, at 11 a.m. in the Wilson First Baptist Church. Rev. E. K. Shepherd, pastor, officiated the double ring ceremony.

Parents of the couple are Mr. and Mrs. L. E. Young of Rt. 1, Tahoka and Mr. and Mrs. Arthur Boyd, Rt. 1, Kress.

Given in marriage by her father, the bride wore a gown of aqua organza with scoop neckline, fitted sleeves ending in flared cuffs. The hemline and full chapel train had ruffled flounce and accented by Venice lace. The float away mantilla of

imported bridal illusion with pearlized Venice lace. Her bouquet was a nose gay of feathered glads, feathered mums and baby's breath.

Maid of honor was Carol Downey of Wilson and Bridesmaid was Mrs. Joe Draper of Brownfield, sister of the bride. They wore sheer aqua floral dacron underlined with aqua blue. The dresses had fitted bodices and raised waistline with an A-line gored skirt, long full sleeves. Daisies tied with aqua velvet ribbon accented the headpiece. They carried 3 white daisies with baby's breath and turquoise streamers.

Best man was Charles Newton and groomsman was Jimmy Boyd

of Odessa, brother of the groom. Ushers were Lowen Young, Jr., of Wilson and Mac Young of Tahoka, brothers of the bride.

The church was decorated with an arch of fresh ivy with 2 baskets of fresh white gladiolas, and eternal candle and ivy in a silver candelabra.

A reception followed the ceremony in the church reception hall.

The couple traveled to Colorado and Texarkana on a wedding trip. For travel the bride wore a floral sheer dacron dress over aqua that had an A-line gored skirt, fitted bodice and long full sleeves gathered to a buttoned cuff.

Mrs. Boyd is a graduate of Wilson High School, Keyponch of Lubbock and is employed by National Sharedata Corp. as a computer operator.

Boyd is a graduate of Kress High School, Sul Ross University and is night supervisor at NSC. The couple will make their home in Lubbock

Farm Prices Drop 20-40 Percent

AUSTIN—Though prices of major farm commodities have dropped 20 to 40 percent since winter, consumers have felt no relief and farmers are bearing the increasing financial burden of continually rising farm costs.

According to Agriculture Commissioner John C. White, farm costs are up 16 percent over a year ago. Retail food prices, meanwhile, are expected to rise 12 percent this year.

"When farm costs go up, they stay up," White said. "But prices of farm commodities go up and down and they have been coming down sharply in recent weeks."

Wheat flour cost bakers 16 cents a pound in February, but recently dropped to 10 cents a pound. Wholesale carcass beef selling to supermarkets for 87 cents a pound in February, is now 67 cents.

Soybeans, corn, eggs and broilers have all dropped in prices ranging from 43 to nine percent.

White pointed out that increased packaging prices have played a part in keeping prices up at the retail level. Packaging of farm foods jumped eight percent last year from \$9.7 billion to \$10.4 billion, a hike that was passed along to consumers in the form of higher prices. Packaging material accounted for nearly eight percent of the \$134 billion consumers spent on farm-originated foods.

SOIL CONSERVATION NEWS

The U. S. Department of Agriculture is urging farmers to protect natural resources as they increase production this year. In fact, an information campaign, called "Produce and Protect" program, is being conducted by the Soil Conservation Service and Extension Service.

The principle of 'protecting while you produce' is just as good for the home gardener as it is for the farmer producing corn, wheat, or cotton.

"Erosion is bad even in small amounts, and we recommend methods to prevent erosion even on small garden plots," said Eual Davis, District conservationist with the Soil Conservation Ser-

vice.

"Realistic work requirements prevent us from giving on-site assistance to home gardeners individually, but we have two leaflets we can send you that will be a lot of help. "Mulches for your garden," tells you how to make compost and use mulches. The other is "Gardening on the contour," which tells how to use farm-type terraces and contour cultivation on home gardens. These are free on request to your SCS office."

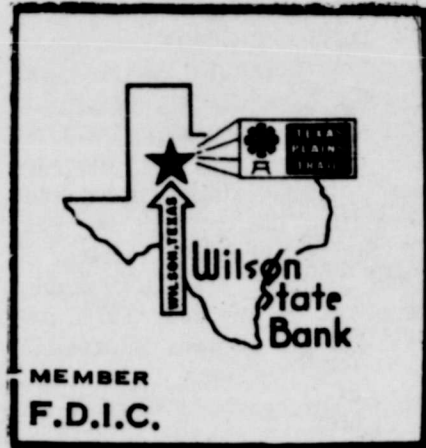

Questions about garden pests, varieties, or diseases, should be addressed to the County Agents office.

AROUND TOWN

BY LEONA WALDRIP

CALL 998-4496

Hello! Did you miss me? I have just returned for another 2 weeks stay with my Aunt in Ruff Okla. She will go for more tests on June 20th and if everything is O.K. will come to Tahoka and spend a few months with me.

Jan Galthier of Lubbock is spending the first week of her school vacation with her grandparents, Mr. and Mrs. E. B. Galthier. The Galthiers have been in Van Couver Washington for several weeks at the bedside of his brother Jimmy, who passed away last Monday. He was buried there on Thursday and the Galthiers returned home Saturday.

Mrs. Lutie Sproles left by plane Monday for Atlanta, Ga. She will assist her granddaughter's family, Mr. and Mrs. Don Barker in getting ready for a move back to West Texas. They will be arriving here within the month.

Mrs. Thelma Dewbre returned Monday after a two weeks visit with her daughters Joyce in Shreveport, La. and Ruth in Commanche, Texas. She traveled by plane to Dallas where Joyce met her for the remainder of the trip by car. For the return trip the daughter took her to Commanche where she spent several days with the M. L. Green family before they brought her home. Joyce is a librarian in the college at Shreveport and Mrs. Green teaches at Commanche.

Mr. and Mrs. John Roberts mer thier children the Robert Tuckers in Abilene on Saturday for a picnic lunch and family outing. The Tuckers live in Ft. Worth. The twins Phillip and John came back to Tahoka with the

grandparents for a weeks stay. This Saturday the same procedure will be followed except the boys will go back and the two girls will come for a weeks stay. The Roberts will return the girls to Ft. Worth the following weekend. The Tuckers are winding up a years leave in the states and have been attending school at the Baptist Seminary. They will soon be going back to Venezuela where they are missionaries. Their older son Mark had previously spent a week with the grandparents here.

On May 25, Miss Debra Gwen Galthier became the bride of Elmer Eugene Askins in Parkway Drive Baptist Church, at 7:30 p.m. Pastor Wayne R. Williams officiated. Bennie Lou Galthier, sister of the bride, was Maid of Honor and Best Man was Robert Harris Jr. Debra is the daughter of Mr. and Mrs. Bently Galthier of Lubbock, formerly of Tahoka, and she has just completed her junior year in High School at Eatacado. Elmer Eugene Askins is the son of Bonita Askins of Amarillo and Eugene Askins of Lubbock. He has just finished a tenure of duty in the U. S. Army and had just been discharged from Ft. Carson, Colo. on the preceeding Monday.

The couple will make their home in Amarillo where he is employed with a roofing company.

Mr. and Mrs. E. B. Galthier of Tahoka are grandparents of the couple.

On Thursday night I attended commencement Exercises at Lamesa, for their 1974 class of 200 seniors. My grandson Dennis,

son of Mr. and Mrs. Randall Waldrip, was among the graduates. The event held in Lamesa High School Auditorium began at 7:30 p.m. Jim Garner, "Sports Information Director at Texas Christian University" gave the commencement address. The graduates wore gold colored caps and gowns. Neal Chastine, Supt. presented the Diplomas and Terry Robertson, asst. prin. presented special awards. The auditorium was filled to capacity and many prople had to stand. Dennis is employed for the summer in Lubbock with Harrold Phillips Gen. Contractor but plans to enter Texas Tech this fall.

Guest speaker at Sweet Street Baptist Church on Sunday night was Rev. Dale Dossier. Bro. Dossier originally from Seagraves and former pastor at Calvery Baptist Church at Post, has currently been pastoring in Indiana. The family is in the process of moving to Tempe, Arizona where he will pastor a newly organized church there.

On Monday night 23 members of the youth choir of Houston Terrace Baptist Church at San Antonio brought a message in Song at Sweet Street Church. The program entitled "Let your Light Shine" was based on the scripture known as "The Beatitudes." Five adult sponsors were with the group. Homemade ice cream and cake were served all who attended the affair, and church members opened their homes and kept the youths over night. They left early Tues. morning on the return trip. Rev. "Tut" Jones is pastor at Sweet Street.

Mrs. Inez Jenkins, speech therapist in the local schools is entering Lynn Co. Hospital Thur. for major surgery.

Rev. and Mrs. Elmer Tyler have had several grandchildren visiting in their home the past week.

The "auction" at Ed Hamilton's brought about the biggest crowds we have seen in Tahoka in a long time.

Calling Everyone
The American Cancer Society urgently needs the help of all Americans to help wipe out cancer in our lifetime. Give generously.

Carolyn Haley Says...

Eggs are mighty magical marvels. And right now eggs are coming to market in abundance.

Beneath those fragil shells is a powerhouse of goodness; a built-in inherent quality of being flavorfully superb served "as is," regardless of the cooking method used...plus the ability to do lots of exciting things for other foods in a subtle, magical way.

One special power eggs possess is the ability to thicken -- a quality that wise cooks use to prepare tasty custards, puddings, pie fillings, salad dressings, sauces, and soups. Eggs that are gently heated quickly set, thicken, firm-up, or coagulate...whichever term you prefer...as when you poach an egg. An egg, when slightly beaten and combined with other ingredients and gently heated, will thicken the entire mixture into a tasty "oneness."

Eggs added directly to heated liquid or mixture set before being thoroughly dispersed. Therefore, for full-bodied consistency and velvety smooth finished products, the best to slowly add some of the "heated" ingredient to the eggs, then quickly stir the mixture into the remaining hot mixture. Careful temperature control is needed when eggs are used to thicken a liquid mixture such as a custard. Temperatures that are too high, or overcooking, will cause the egg protein to shrink and separate from the liquid.

To prevent overheating during surface cooking, use a double boiler and keep the water just below boiling. For oven cooking set the baking dish in a pan of hot water in a moderate oven. Remove egg mixtures from the heat promptly when done.

In sauces, puddings, and fillings, a starchy thickening agent such as flour, constarch, or tapioca...often used in combination with eggs. Because starch needs longer cooking than eggs first combine the starch with the liquid and cook thoroughly before adding eggs.

Two egg yolks or two egg whites have the same thickening power as one whole egg.

RECIPE OF THE WEEK:

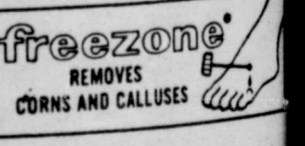

CORN PUDDING
1 tablespoons of butter of margarine
1 tablespoon flour
1 cup scalded milk
1 teaspoon salt
1/8 teaspoon pepper
1 teaspoon sugar
16 oz. can cream-style corn
4 eggs, slightly beaten
Preheat oven to 375 degrees F. (Moderate) Grease a 1-quart casserole.

Melt butter or margarine, and blend in flour. Add milk, salt, pepper, and sugar. Add corn and heat slightly. Blend eggs into warm milk mixture. Pour into casserole, place casserole in a pan of hot water, and bake 1 hour or until set. Pudding is done when the tip of a table knife inserted in the center comes out clean. Makes 6 servings, about two-thirds cups each, about 165 calories each.

For fewer calories, use a 10-oz. package of frozen whole kernel corn in place of the cream-style corn. About 140 calories per serving.

Serve with hot or cold sliced roast beef, green snap beans, and French bread. Have fruit gelatin and pound cake for dessert.

Freezone is for corns that hurt.
Absolutely painless. No dangerous cutting, no ugly pads or plasters. In days, Freezone eases the hurt...safely helps ease off the corn. Drop on Freezone--take off corns.

Church Family Home Evening

We all know that our families are worth far more than thirty minutes of our time; yet often we let a day, a week, or a month go by without sharing any real time with those we love the most.

Would you trade thirty minutes of your time for an idea? A family idea?

As representatives of The Church of Jesus Christ of Latter-day Saints, we would like to share with you and your family a pleasant, meaningful activity that is being conducted with gratifying results in hundreds of thousands of homes throughout the world. It is called the Family Home Evening, and is designed to bring added love, understanding, communication, and fun to all the members of your family.

No other success is as important as success in the home. The family is the basic unit of society, and no other institution can take its place nor fulfill its essential functions. We all know that our lives outside the home are richer, more productive, and more satisfying when our lives inside the home are united in family love and solidarity.

The family home evening is devoted to things that members of your family enjoy doing together, and it includes a learning activity. You'll find that family home evening, with father directing and mother at his side, will increase the unity and love among all the members of your family.

Your interest is appreciated, and we look forward to demonstrating a family home evening in your home under your direction. This is a non-cost public service program for people interested in families.

MRS. LARRY WAYNE BOYD
nee...Janie Lee Young

Young-Boyd Repeat Vows

Miss Janie Lee Young and Larry Wayne Boyd repeated marriage vows Saturday, June 1, at 11 a.m. in the Wilson First Baptist Church. Rev. E. K. Shepherd, pastor, officiated the double ring ceremony.

Parents of the couple are Mr. and Mrs. L. E. Young of Rt. 1, Tahoka and Mr. and Mrs. Arthur Boyd, Rt. 1, Kress.

Given in marriage by her father, the bride wore a gown of organza with scoop neckline, fitted sleeves ending in flared cuffs. The hemline and full chapel train had ruffled flounce and accented by Venice lace. The veil was a float away mantilla of

imported bridal illusion with pearlized Venice lace. Her bouquet was a nose gay of feathered glads, feathered mums and baby's breath.

Maid of honor was Carol Downey of Wilson and Bridesmaid was Mrs. Joe Draper of Brownfield, sister of the bride. They wore sheer aqua floral dacron underlined with aqua blue. The dresses had fitted bodices and raised waistline with an A-line gored skirt, long full sleeves. Daisies tied with aqua velvet ribbon accented the headpiece. They carried 3 white daisies with baby's breath and turquoise streamers.

Best man was Charles Newton and groomsman was Jimmy Boyd

of Odessa, brother of the groom. Ushers were Lowen Young, Jr., of Wilson and Mac Young of Tahoka, brothers of the bride.

The church was decorated with an arch of fresh ivy with 2 baskets of fresh white gladiolas, and eternal candle and ivy in a silver candelabra.

A reception followed the ceremony in the church reception hall.

The couple traveled to Colorado and Texarkana on a wedding trip. For travel the bride wore a floral sheer dacron dress over aqua that had an A-line gored skirt, fitted bodice and long full sleeves gathered to a buttoned cuff.

Mrs. Boyd is a graduate of Wilson High School, Keyponch of Lubbock and is employed by National Sharedata Corp. as a computer operator.

Boyd is a graduate of Kress High School, Sul Ross University and is night supervisor at NSC. The couple will make their home in Lubbock

Farm Prices Drop 20-40 Percent

AUSTIN—Though prices of major farm commodities have dropped 20 to 40 percent since winter, consumers have felt no relief and farmers are bearing the increasing financial burden of continually rising farm costs.

According to Agriculture Commissioner John C. White, farm costs are up 16 percent over a year ago. Retail food prices meanwhile, are expected to rise 12 percent this year.

"When farm costs go up, they stay up," White said. "But prices of farm commodities go up and down and they have been coming down sharply in recent weeks."

Wheat flour cost bakers 16 cents a pound in February, but recently dropped to 10 cents a pound. Wholesale carcass beef selling to supermarkets for 87 cents a pound in February, is now 67 cents.

Soybeans, corn, eggs and broilers have all dropped in prices ranging from 43 to nine percent.

White pointed out that increased packaging prices have played a part in keeping prices up at the retail level. Packaging of farm foods jumped eight percent last year from \$9.7 billion to \$10.4 billion, a hike that was passed along to consumers in the form of higher prices. Packaging material accounted for nearly eight percent of the \$134 billion consumers spent on farm-originated foods.

SOIL CONSERVATION NEWS

The U. S. Department of Agriculture is urging farmers to protect natural resources as they increase production this year. In fact, an information campaign, called "Produce and Protect" program, is being conducted by the Soil Conservation Service and Extension Service.

The principle of 'protecting while you produce' is just as good for the home gardener as it is for the farmer producing corn, wheat, or cotton.

"Erosion is bad even in small amounts, and we recommend methods to prevent erosion even on small garden plots," said Eual Davis, District conservationist with the Soil Conservation Ser-

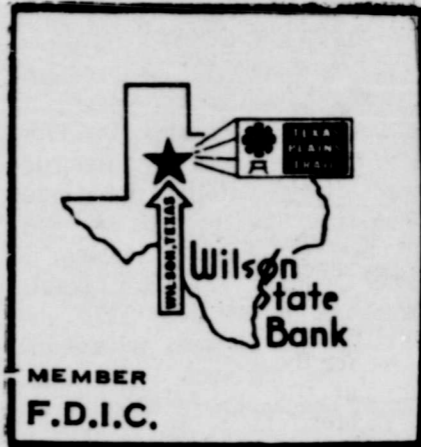

vice.

"Realistic work requirements prevent us from giving on-site assistance to home gardeners individually, but we have two leaflets we can send you that will be a lot of help. "Mulches for your garden," tells you how to make compost and use mulches. The other is "Gardening on the contour," which tells how to use farm-type terraces and contour cultivation on home gardens. These are free on request to your SCS office."

Questions about garden pests, varieties, or diseases, should be addressed to the County Agents office.
