FLAG DAY JUNE 14

In 1855 Henry War Beecher wrote .. "A thoughtful mind when it sees a nation's flag, sees not the flag only, but the nation itself; and whatever may be its symbols, its insignia, he reads chiefly in the flag the government, the principles, the truth, the history which belongs to the nation that sets it forth."

Woodrow Wilson said in his address to Congress in 1915 -- "The things that our Flag stands for were created by the experiences of a great people. Everything that it stands for was written by their lives. The flag is the embodiment, not of sentiment, but of history. It represents the experiences made by men and women, the experiences of those who do and live under that flag."

OUR NATIONAL FLAG

By Charles Sumner
There is our National Flag He must be cold, indeed, who can look upon its folds rippling in the breeze without pride of country. If he be in a foreign land, the flag is companionship and country itself, with all its endearment.....

The very colors have a language which was officially recognized by our fathers. White is for purity; red, for valor; blue for justice. And altogether, bunting, stripes, stars and colors, blazing in the sky, make the flag of our country, to be cherished by all our hearts, to be upheld by all our hands.

FLAG DAY -- JUNE 14th
Everyone is urged to fly their flag Saturday and on every other occasion.

Senior Citizen Survey

Lynn County Community Action is currently in the process of surveying the senior citizens according to Mr. Robert Abbe, Lynn County Community Action Board President. A number of citizens have been surveyed already, and the survey is expected to be completed by the end of June. Efforts are being made to contact all senior citizens in an around Tahoka, although any programs which are adopted will include all of Lynn County. The survey was begun in April. Three ladies have been instrumental in securing the information on the survey forms. Mrs. Leona Waldrip, Mrs. Helen Bookman and Mrs. Emily Calderon have made good progress in surveying the needs of the senior citizens. According to Mrs. Waldrip, the response has been good.

After the survey has been completed, the information will be compiled by staff personnel from South Plains Community Action Association, Inc. in Levelland. The data will help the community leaders and elected officers in planning for the future needs of Lynn Counties' senior citizens. Senior Citizens who have not been surveyed are requested to call the Lynn County Community Action Center. The phone number is 998-5094.

MRS. MICHAEL RAY NUNNELEY
nee Kathryn Jean Clements

Clements-Nunneley Exchange Vows

Wedding vows were exchanged at 3 p.m. May 25th in Mangum Oklahoma, by Kathryn Jean Clements and Michael Ray Nunneley.

Michael Ray Nunneley, with Rev. Thomas Spence officiating for the double ring ceremony. The bride is the daughter of Mr. and Mrs. Jack Clements of NewHome. Parents of the groom are Mr. and Mrs. Richard Nunneley of Bartlesville, Oklahoma. The nuptial area was decorated with a double arch candleabra flanked by two white wicker baskets filled with gladiolas, daisies, and greenery set off with bows of red and white checks. The ceremony was performed under an arch entwined with greenery, daisies and white doves.

Mrs. Fred Barrington of Lamesa, aunt of the bride presented traditional pre-nuptial music and selections of the bride. Miss Linda Perryman accompanied Mrs. Connie Fraley as she sang "The Wedding Song" and "The Lord's Prayer." Escorted to the altar by her father on a runner of white satin, the bride wore a formal gown of white organza over peau de sole. Tiered circles fringed the sleeves and the circular skirt was edged with a tiered circular flounce headed with lace re-embroidered with pearls. The chapel length veil of English illusion was edged in individual seed pearls and was secured by a lace and pearl bandeau. The brides dress was designed and made by her mother. The bride carried a nosegay of white daisies, red rose buds, and baby's breath. This was adorned with streamers of white lace and ribbon decorated with

pearls. She also carried out the tradition of something old something new, something borrowed something blue. Her only jewelry was a pair of diamond earrings gift of the groom.

Shirley Clements served as Maid of Honor for her sister. She wore a formal gown of red and white checked gingham trimmed with white lace and white ribbon. She wore a white scalloped picture hat trimmed with a bow of checked ribbon and daisies. The maid of honor and the bridesmaids carried wicker baskets filled with handmade flowers of silk organza of red and white, with ribbon streamers. Bridesmaids were Mrs. Eddie Rogers and Minday Foraker of Mangum, Cathy Barry of Oklahoma City, and Mrs. John McDaniel of Weatherford, Oklahoma. They were all dressed like the Maid of Honor.

Serving as best man was Bill Barnes, Tulsa, and groomsmen were Mike Edwards, Tulsa, Jack Clements Jr. Greensboro, North Carolina Dick Nunneley Jr., Bartlesville, Oklahoma, and Don Wentroth, Oklahoma City. Larry Powers and Warren Herndon, Mangum served as ushers.

Kathleen Nunneley sister of the groom was the flower girl and Danny Barry, Oklahoma City, was ring bearer. Kathleen was dressed in a long dress of red and white gingham trimmed with white eyelet and white picture hat.

Candlelighters were Brenda Barrington cousin of the bride, and Jerry Elmore, cousin of the bride. Brenda wore a floor length dress of red and white gingham with a white eyelet apron.

Johnny Elmore cousin of the bride and Derek Herndon, Mangum, laid the white satin runner on which the bride entered.

At the registry was Patti Perryman of Mangum. The table was covered with white lace over red cloth and was adorned with the bible belonging to the bride and groom as well as a rice basket.

April Storm, Carol Hagood and Kathy Pigg wore red and white floor length dresses trimmed with white eyelet, and carried white wicker baskets filled with rice bags

for the guests. Immediately following the ceremony the parents of the bride hosted a reception in the fellowship hall of the Trinity Baptist Church.

The bride's table was covered with a white pleated floor length cloth pinned on with white pearls. The silver and crystal centerpieces was filled with red roses, white daisies and white mums. The three tiered white wedding cake was decorated with white and yellow daisies and white doves. The cake was topped by the traditional bride and groom. A crystal punch bowl and silver appointments completed the table setting.

The groom's table was covered with a floor length red and white checked cloth with white organza cloth over it. A silver coffee service a three branched candleabra and a chocolate cake adorned the grooms table.

Assisting with serving were Miss Candy Barrington Lamesa, Miss Susan Sweeny, Okema, Miss Dawn Higgins Mangum, Miss Linda Perryman Mangum, and Stephanie Herndon of Mangum.

For a wedding trip to Hot Springs, Arkansas, the new Mrs. Nunneley chose a red and white dotted dress with white accessories.

Mr. and Mrs. Nunneley will be making their home in Mangum for the summer months and will attend O. S. U. in the fall.

Grandparents attending the ceremony were Mrs. Jack Clements of Marietta, Oklahoma, and Mr. and Mrs. Ray Metzinger of Drumright, Oklahoma.

Morgan's Home Burned Thursday

Curtis Morgan's farm home, 10 miles east and one mile north of Tahoka, caught fire and burned last Thursday.

The fire was detected by Curtis at about 4 p.m. when he returned home from town. Tahoka Fire Department was called but not in time to save the structure. Curtis has no idea how the fire started. Most of the contents were destroyed, but Curtis managed to save some of the contents.

His late parents, Mr. and Mrs. J. E. Morgan, settled on the farm in 1916 after buying the property under the G. W. Post farm settlement program. The house, built at that time, had been remodeled since long before the elder Morgan's death.

A SHORT REPORT

By REPRESENTATIVE E. L. SHORT

This will be the last Short Report for awhile -- The Legislature adjourns sine die: June 2.

The BAD NEWS of this session is that we did not save any money -- the surplus was spent -- and -- most

of us thought this would happen so our many hours of concentration were spent trying to keep from putting this money into reoccurring programs that would have to be refunded in greater amounts for the future.

The GOOD NEWS is that under the able leadership of Billy Clayton, very little so called bad legislation was passed. Some of the news media have given us a hard time about bills held up in the great logjam -- but it looks like the committees and the house spent more hours that the previous session -- two years ago only about 80 percent of the bills that were debated in the House passed -- this session over 95 percent passed. -- This speaks quite well for the House leadership and the quality product turned out by the various committees. I have never subscribed to the theory to pass a bunch of bills anyway.

Mal practice liability was limited and most everyone received a pay raise -- even members of the Legislature. Some of the best news of all is what didn't happen -- No new taxes for two more years.

Lying at rest is at least 15 licensing acts and new commissions in my subcommittee on State Affairs -- also at rest in my committee on Intergovernmental Affairs are many bills that would cost local governments billions of dollars had they passed, their subject matter was from collective bargaining to getting sued.

Social workers and marriage counselors did not get licensed. Employers won't go to jail for unknowingly working illegal aliens. Schools, hospital districts, counties and cities can still have a tax collector.

Many resolutions were sent to Congress telling them to leave a few rights to the states.

I will be visiting in your hometowns in the months to come and hopefully, we can sit down and discuss the trials and tribulations of your government and the actions of the 64th Legislature.

H. B. 1528 - Cotton Contracting Bill -- that came about because of Interim Study Committee last year regarding problems and inequities of Forward Contracting of cotton purchases. H. B. 1528 passed by both Houses of the Legislature and is now lying on the Governor's desk for his signature.

The bill provides that any person contracting cotton in advance of the harvest date shall be required to register with the Commissioner of Agriculture. The law also

provides penalties if a person fails to register.

There is no bonding or insurance provision in the Legislation.

Rep. E. L. Short of Tahoka assisted by Rep. Joe Hubenak of Roseburg were the authors of the bill. Short said, "This is a step forward for the protection of cotton producers in Texas to correct some of the pitfalls that farmers are faced with in contracting his cotton before harvest." "This law requires that the Commissioner of Agriculture notify farm organizations and lending institutions in farm areas who are the forward Contractors of Cotton."

Rep. Short, who was Chairman of the Interim Study Committee held seven public hearings last year on this important subject. He stated that "the Committee's findings were that the lending institutions that loaned the farmers the operating money will have a better opportunity to assist their customers on the financial stability of the cotton contractor by having access to the names before the farmer obligates his year's work."

"Cotton farmers everywhere should request and demand that their bank or financial source assist them for determining whether or not a person desiring to contract their crop can meet the obligation to the farmer under the contract if market prices of cotton were to lower after the contract was made." "I expect Commissioner White to notify our Cooperatives, Farm Bureaus, Farmers Unions and others."

It is important for our farmers to know the opposition to this bill was the cotton contractors and they made a strong effort to lobby against H. B. 1528.

representing 35 percent of the world's population, and more than a quarter of the world's land area in 20 nations. The 20 nations under Communist control are: U.S.S.R., Lithuania, Latvia, Estonia, Mongolia, Albania, Bulgaria, Yugoslavia, Poland, Rumania, Czechoslovakia, North Korea, China, East Germany, Hungary, North Vietnam, Cuba, Cambodia, South Vietnam, Laos.

The report indicated that the U. S. actually reported 625 cars during 1973. Generally speaking, the tax for importing vehicles into the United States will range from 3 to 8 1/2 percent of value.

CONSTITUTIONAL AMENDMENTS:

The AUSTIN REPORT, of May 25, 1975, reported that State Comptroller Bullock stirred up a hornets nest with an opinion that the proposed new constitution would cost taxpayers a billion a year.

There are two ways of dealing with the communist countries: (1) firmly and (2) softly. The soft treatment has been a world policy for most of the past 30 years. This approach is to "co-operated" with communism hoping to change their approach. The firm approach is to cut off all assistance and cooperation until they show evidence of change.

The truth is that communism is the same as a cancerous sore, it rots in the middle while it feeds on the perimeter. The only control measure is to prevent it from feeding on the perimeter. The Western World has taken just exactly the opposite position during the past 30 years.

Why not communism? Communism is an idea that lives in the mind of man. It promotes war, dictatorship, monopoly, slavery, classism, calssicide, cannibalism, imperialism, atheism, materialism, spiritual infanticide, and idolatry.

The present Communist movement was started in 1917 by Vladimir Ulyanov, commonly known as Lenin. At that time, he had scattered following throughout Russia which would number no more than 40,000. In summary, Lenin established Bolshevism with only 20 supporters in 1903. In 1917, he had 40,000 followers and today the movement enslaves 1.4 billion people.

The article also indicates that the U. S. government is seriously concerned with the possible spread of communism to all of Europe.

CCC LOAN PROGRAM USDA's Agriculture Marketing Service WEEKLY COTTON MARKET REVIEW May 23, 1975, issued the following report with regard to Commodity Credit Corporation loan program.

CCC loan entries of 1974 crop cotton in the two week period ended May 15 were 33,100 bales, bringing the season's total to 2,391,400 bales. Loan redemptions in the same two week period were 78,900 bales, which brought total redemptions to 877,700 bales.

Cotton loans mature on the last day of the 9th calendar month following the month in which the loan is made. These loans can be redeemed by the owner (cotton producer or his cooperative marketing association) on or before maturity date.

COTTON LOAN LEVEL 1975 CROP The Secretary of Agriculture has announced that the loan level for the 1975 crop of upland cotton will be not less than 34.75 cents per lb. average location, middling one inch basis.

CCC COTTON SALES PROGRAM Current laws provide that the Commodity Credit Corporation will sell upland cot-

ton from its stocks for unrestricted use at the same price it sells cotton for exports, but in no event, less than 110 percent of the loan rate for middling one inch cotton (micronaire 3.5 thru 4.9). Adjusted for such current market differentials reflecting grade quality, location and other value factors as determined by the Secretary, plus a reasonable carrying charge.

U. S. D. A. announced in its publication COTTON PRICE STATISTICS November 1974, the following CCC upland cotton sales policy for the 1975 - 76 marketing year: CCC upland cotton sales policy for the 1975 -76 marketing year was announced by the Department November 29, Beginning August 1, 1975, any CCC stocks of upland cotton will be offered for sale for unrestricted use on a competitive bid basis at not less than the higher of the market price as determined by CCC or 43.70 cents per pound, basis grade 41 staple 34 sis grade 41 staple 34 (Strict Low Middling 1 1/16" at average location).

SULEIMA (a stalk borer) In the planting date study plots on the Lubbock Station, Suleima infestations range from fifteen percent of the plants infested in the older plots down to one percent in the youngest plantings. In contrast, Suleima infested plants were almost impossible to find in other fields in the area around Lubbock Station.

BILL GRIFFIN SAYS

Carrot beetle catches in light traps decreased in the majority of the counties. This would tend to make us believe that we have reached the peak in emergence of the overwintering population of carrot beetles for the South Plains area.

SULEIMA (a stalk borer) In the planting date study plots on the Lubbock Station, Suleima infestations range from fifteen percent of the plants infested in the older plots down to one percent in the youngest plantings.

SUNFLOWER BEETLES: The adult sunflower beetle which we found for the first time last week in plantings on the station have begun laying eggs. In the next few days, we should begin seeing some of the immature forms.

OTHER INSECTS: Lygus, 12-spotted cucumber beetles, black Fleahoppers, and many beneficial insects have been observed in sunflower plantings during the past week.

Hail Insurance

Don't take the chance of letting hail rob you of your profits on your cotton crop this year. But, BEFORE YOU BUY HAIL INSURANCE, be certain your policy contains the following features found in our policy:

- 1. OUR POLICY provides for adjustment by INDIVIDUAL STALK COUNT and not by plant population.
2. OUR POLICY is reduced by DOLLARS PAID and NOT by percentage paid.
3. OUR POLICY allows the transfer of balance of insurance to another crop in case of total loss before coverage is in 100% effect.
4. OUR POLICY allows July 1st ADDITIONAL COVERAGE to be added to base policy and rate is less than one half of base rate.
5. OUR POLICY has the Standard "EXTRA HARVEST EXPENSE" clause applying.

ALL HAIL POLICIES ARE NOT THE SAME.. CHECK WITH US BEFORE YOU BUY!!

And the rains came!!! We think we never saw a rain fall any prettier than it is this Tuesday morning as this is being written. And we can be so thankful there is no winds or hail that other places have been having.

The 88 Club played in the home of Inez Jenkins on Friday night.

Mrs. Edna Brasher has returned from a two weeks visit with relatives in California. She made the trip by car with a grandson and wife and the 6 month old twins. She reports they are quite a handful.

Rev. and Mrs. Elmer Tyler attended a reunion at Bonham this past week end. This is where they both grew up and attended school in their younger days.

Mr. and Mrs. Randall Waldrip and Judy of Levelland visited here on Tuesday night and again on Thursday afternoon.

Mr. and Mrs. Charlie Lichey returned Saturday from an extended trip visiting friends and relatives. Leaving here on May 29th, they drove to Beaumont where they attended a wedding of a granddaughter on May 31st. On Monday they drove over to Arkansas and visited with Mrs. Cap Rowe, a former neighbor and Tahokan. While there she took them to several points of interest as neither of the Lichey's had been in the state before. Later in the week they came back to visit with Mrs. Lichey's sister near Dallas, where they gathered plums and made juice for jelly making later on. Needless to say Monday was spent making jelly at the Lichey home. They were accompanied on the trip by a sister, Mrs. Gladys Holden of Big Spring.

Mr. and Mrs. Melton Ehlers and two children and Trudy Schuknecht attended closing exercises of the Lutheran Vacation Bible School at Wilson on Friday night. Mrs. Ehlers was one of the workers in the school all last week.

Mr. Rocco Riley is visiting this week in Gatesville with Mr. and Mrs. Bobby Tippit. Mrs. Tippit is the former Ponice Riley.

Mrs. Annie Brown of Slaton, with a grandson and wife, were by to see Mr. and Mrs. Bonnie Brown, her son, on Wednesday. They were beginning an extended vacation trip to California and other points west. Mrs. Brown who lives alone and is in her late 80's was very enthusiastic over the upcoming 1600 mile trip.

Attending a family reunion of the Pugh Brothers and sisters in Decatur, Texas was the past week end, Mr. and Mrs. W. E. Shawn left Thursday and returned Sunday afternoon. All eight of the children were present for the annual affair and relatives attended from Arkansas, Oklahoma, California, as well as many points in Texas. Mrs. Shawn's sister, Alma Taylor of Amarillo came back with them, visited in Brownfield and returned to her home Monday afternoon by bus.

My sister Leta Brown of Lubbock visited Monday afternoon and night. As she left here Tuesday she was hoping the storm in Lubbock the night before had not damaged homes in her part of town.

Workday planned for Rebekah Hall late Friday afternoon resulted in only three persons showing up to work. Needless to say very little was accomplished. Several members were out of town.

Zella Taylor visited her mother in San Antonio last week end.

Brenda McCord engaged

July Wedding Is Planned

Nuptial vows will be exchanged in Gruver, Texas, July 25, by Brenda McCord and Richard Gene Anderson.

Parents of the bride-elect are Mr. and Mrs. Rocky Antalek of Gruver, Texas and Mr. Rollin McCord of Denver, Colorado. The prospective bridegroom is the son of Mr. and Mrs. R. C. Anderson of Amarillo.

Brenda is a 1974 graduate of Gruver High School and just received her certificate for a one year business course at West Texas State University. Her fiancé is a graduate of Caprock High School in Amarillo and is now employed by Torkelson as carpenter-welder.

Brenda is the granddaughter of Lillian McCord of Cloverdale, California and the late Rollin McCord, Sr. She is also the granddaughter of Mr. and Mrs. Roy Miller of Tahoka.

You and your pet

ALPO PET NEWS BUREAU

Traveling With Your Dog

Wondering about taking your pet on a vacation trip? If this is the dog's first long trip, he should be used to riding in the car, well housebroken for the motels en route and in good health.

A car-sick dog would make the trip miserable for both of you. Better to board him with friends who love him or with a clean, well-run boarding kennel.

But let's say your dog meets the travel test and you decide to take him. Good! As a member of the family, he deserves to share the fun. Just be sure to include him in the advance planning.

Most motels/hotels have pet facilities or allow you to keep the animal with you. But some do not. So, plan your stops beforehand with one of the tour booklets for your route which list motels/hotels and specify pets or no pets. AAA provides them free to members. Others are available from oil companies and book stores.

If you're planning a stay in state parks, check a guidebook in advance for their rule on pets.

Some Health Tips

To enter Canada, you need a veterinarian's certificate verifying required shots within the past 12 months and a clear description of the pet. That will also satisfy similar requirements for air travel and for some states your tour may cross.

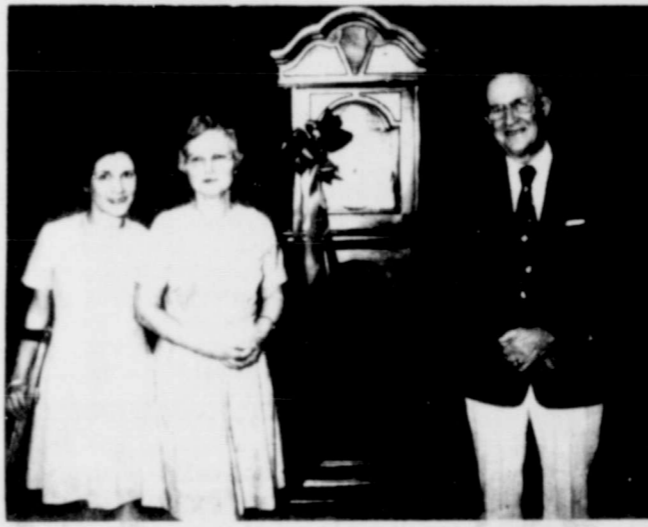

Your dog's eyes can be damaged or inflamed by grit and the wind if he rides with his head outside the car. Close the windows enough to discourage this.

If you must leave your pet while you are sightseeing, be sure to park the car in the shade with the windows open enough for good ventilation. And always use a secure lead when exercising him.

Bring along his own bowl for water and food. Also, a favorite toy or two, and his own sleeping mat for his place in the car and the motel. Little things he's familiar with add to his sense of security.

Remember an opener for his favorite brand of canned dog food. It is best to schedule feedings at least 6 hours before each day's travel. And don't forget such things as an extra lead and collar with his I.D. tag, a roll of paper towels, a can of flea powder for unwanted visitors along the way... and have a good time!

Mrs. Jewel Newberry of Crossville, Tennessee, returned home after spending two weeks with her sister, Mrs. J. W. Jolly and other relatives.

COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

High Plains cotton farmers, struggling to come to grips with sharply disappointing production and prices in 1974, are going mostly uphill for 1975 and maybe 1976, according to Criswell of Idalou, President of Lubbock-based Plains Cotton Growers, Inc., "but there are now signs we'll make it if we just hang on."

Criswell made this observation on his return from the annual National Cotton Outlook Conference held in Washington, D.C. May 29-30. The Conference, sponsored by the Cotton Foundation, of Memphis, Tennessee, presented a "future-oriented" program with participation by officials of cotton, textile, chemical, machinery and oil industries. Attendance was limited to about 70 invited industry researchers and officials from across the nation.

Speakers representing farm suppliers virtually agreed that adequate machinery, fuel and chemicals would be available to meet foreseeable needs, but gave no hope for significant price gains, the PCG President reported. In fact, quoted Ray Wright, Director of the American Petroleum Institute's Refining Department, as saying "Higher prices for diesel, gasoline and other fuels are almost a certainty."

This part of the program, along with statements from agricultural researchers that cotton yield has about reached their maximum for the time being, led to the observation that "With per pound production costs instead of down, our only salvation for the future is higher market prices and/or greater price protection government programs."

Four cotton producer representatives appeared on a reference panel to discuss production trends and price forecasts. A composite of their views generally agreed with the feeling that 1975 U.S. cotton acreage will fall short of projected 9.9 million acres. As others have speculated, placed U.S. acreage at between 9.3 and 9.8 million, the greatest reduction below earlier planting intentions of the Mid-South and Southeast.

Texas acreage was estimated at 4.6 million by panelist Dan Davis of Lubbock, who also said High Plains acreage fall in a range from 2.3 to 2.6 million.

Donald May, Director of Economic Information for the American Textile Manufacturer's Institute, said the 75 slump in demand for textile products appears bottoming, predicted a gradual upturn in demand and subsequent increase in cotton consumption. Criswell reported that May also said rising prices of natural gas and petroleum boost the price of synthetic fibers, making cotton competitive textile fiber.

Headed to the lake this summer? A few rules of the water are always timely. First things first... if you operate a boat with a motor you must register the boat with the Texas Parks and Wildlife Dept. in Austin and display your assigned number on both sides of the bow. If your boat is 16 feet or less, you MUST have a life preserver on board for every passenger. If your boat is longer than 16 feet, but less than 26, you must have a life preserver for every passenger, plus a throwable device. If you have a passenger 13 years or younger in a boat 26 feet or shorter, they MUST wear an approved flotation device AT ALL TIMES when the boat is underway. Tip of the Week: attach your boat trailer plates with heavy wire in order that they will swing free, and not drag off when loading and unloading your boat in out of the way places.

Sherry Etheredge

Says . . .

The best way to lose weight successfully and to keep it off, is to develop the right eating habits. Dieters, like everyone else, need balanced

meals and should choose them from the Basic Four Food Groups. The minimum servings listed will furnish about 1200 calories a day, the amount recommended for women dieters, and will produce an average weight loss of 1 to 2 pounds a week. Men dieters, to lose the same amount safely, need about 1,800 calories a day.

Since it is not practical to fit a woman's full iron requirement (18 milligrams a day) within 1200 calories limit, ask your physician to recommend an iron supplement. Men won't need this supplement; and a good diet meets all others nutrient needs. If you want to lose more than 5 pounds, get your doctor's approval before you start.

SUN WORSHIP OR WOE?
The American Cancer Society estimates that 112,000 Americans will develop skin cancer in 1970; many of them could prevent skin cancer by avoiding excess sun.

Cancer's seven warning signals

- 1. Change in bowel or bladder habits.
- 2. A sore that does not heal.
- 3. Unusual bleeding or discharge.
- 4. Thickening or lump in breast or elsewhere.
- 5. Indigestion or difficulty in swallowing.
- 6. Obvious change in wart or mole.
- 7. Nagging cough or hoarseness.

If you have a warning signal, see your doctor.

YOUR FEDERAL GOVERNMENT

Paul Harvey, in one of his recent syndicated columns, reports that Bill McDonald of the Columbia, S.C. STATE newspaper has gleaned the following from the Congressional Record as being among items for which Congress has appropriated funds. The comments in italics are those of the Editor of THE TEXAS LAW-MAN.

- \$375,000 for the Pentagon to study the frigate. (Seems to us a clear case of discrimination against the yo-yo.)
- \$121,000 to find out why people say "aint". (What! And not a penny to find out why yankees say "aren't it"?)
- \$68,000 for the Queen of England for not planting cotton on her plantation in Mississippi. (A lot of the rest of us didn't plant cotton—or anything else—even if our holdings can't be considered as a "plantation".)
- \$14,000 for Ford Motor Co. for not planting wheat. (Same as above.)
- \$2 million for Yugoslavia's Marshal Tito for purchase of a yacht. (No comment!)
- \$80,000 for a zero-gravity toilet for the space program. (Now, maybe this one makes sense, because when you gotta go, you gotta go, wherever you are.)
- \$23,000 for environmental testing of the above. (Same comment.)
- \$6,000 to study bisexual frogs. (Sounds "queer" to us.)
- \$20,000 to study the blood groups of Polish Zlotnika pigs. (That's got to be a "must".)
- \$5,000 to learn about Yugoslavian intertidal hermit crabs. (Why not? What's fair for Polish pigs is fair for Slav crabs.)
- \$5,000 to tabulate the difference between American and Indian whistling dunks. (Anything to promote music appreciation.)
- \$20,000 to investigate the German cockroach. (Seems we have enough of the domestic variety around that can stand some investigating.)
- \$71,000 to compile the history of comic books. (Literary research, no doubt.)
- \$5,500 for the genius who wrote the poem "light". (That's not the title of the poem, it's the whole poem! (At a total of seven letters, that comes to \$785.71 per word.)
- \$19,300 for the Health, Education and Welfare Department to find out why children fall off tricycles. (Now, that's a brilliant deal!)
- \$2,458 to train 18 Good Humor peddlers. (And to think—when we were Good Humor peddlers, all we had to do was stock up the freezer truck and go on our rounds.)
- \$70,000 to study the smell of the perspiration given off by Australian aborigines. (That stinks!)
- \$28,361 for odor-measuring machine for above project. (How else we gonna know how much it stinks?)
- \$17,000 for a dry-cleaning plant to spruce up the djellabas of the Bedouins. (Whatever the hell that is!)

SUNNY DAYS

Sunny days can mean trouble, warns the American Cancer Society. Repeated overexposure to the sun can cause skin cancer.
