Charmec On Way To Capacity Operation

Around Muleshoe

All Freshmen (9th Grade) football players need to report to the High School Gym at 1 p.m., Monday, August 16 for equipment and practice.

A swimming party will be held on Friday, August 20 for all Ag I, new and current FFA members at the Muleshoe City Pool. The party will begin at 7 p.m. and end at 9 p.m.

Parents of new and current members are also invited to attend. There will be a fifty cent charge for members attending.

In the police report in August 12, Thursday Journal, a report involving the fight at the city park, police records indicated that Rudy Toscano was arrested for public intoxication. This arrest report was incorrect and has been corrected and has been corrected to the proper name of Roberto Toscano.

PTA has ordered T-shirts for the youngsters in Dillman and DeShazo Schools. They are in traditional black and white with Muleshoe Mini Mules on the front. The T-shirts should be available the week of the 24th and can be purchased from the PTA at \$6 each.

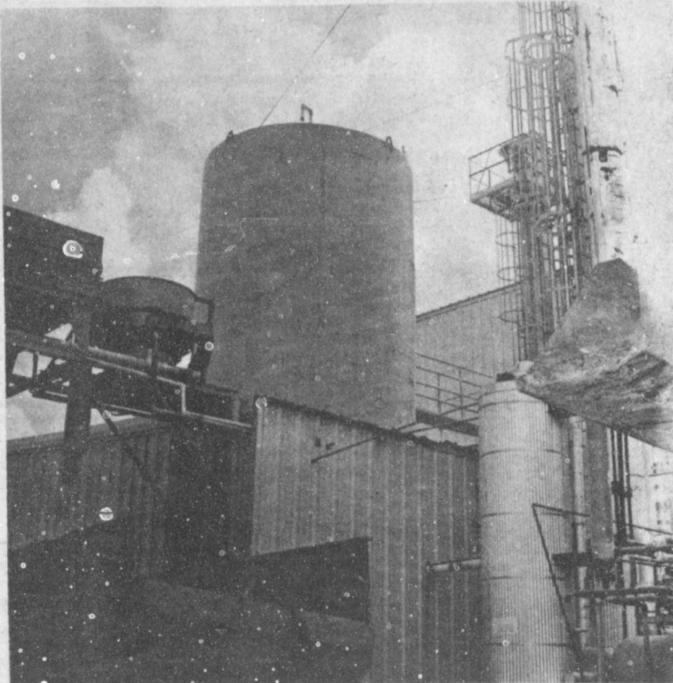

Persons who held reserve seat tickets for the 1981 football season may pick up their options on these tickets at the School Business Office, 514 West Avenue G, starting Monday, August 16, 1982 through Tuesday.

25 Cases Filed In J.P. Court; 13 Dispositions

Justice of the Peace, Tana Holmes filed 25 cases from August 3 to August 10. Nine cases were filed on speeding violations, two each on: operating a vehicle without drivers license, public intoxication, and two for driving on the wrong side of the roadway.

One report each was filed on each of the following violations: operating an unregistered motor vehicle, non valid MVI, over allowed gross weight, defective stop lamps on truck, defective turn signal, over registered weight, failure to yield right of way, failure to stop at stop sign, failure to have liability insurance and displaying expired license plates.

Dispositions were made Cont. Page 7, Col. 2

be in grades 6, 7 and 8 should report to the Junior High School and new students who will be in grades 9, 10, 11 and 12 should report to high school.

All students will pick up their schedules the first day of actual classes on Tuesday, August 24 at 8:30 a.m.

Labor Day, September 6, will be the first school holiday observed in all three area schools.

In Muleshoe Schools, October 1 will end the first six weeks and the second six weeks will end on November 12. Thanksgiving holidays will be observed in Muleshoe schools on November 25, 26 and Christmas holidays will be from December 20 through the 31. School will resume on January 3, 1983; and the third six weeks plus the first semester will end on January 12. January 13 will be a workday for teachers only, and January 14 will be a school holiday.

On February 24, the fourth six weeks will end and on February 25, an inservice day will be held for teachers only.

The usual ski holiday will be held on February 28 and March 28 through April 1 will take care of the Easter holidays.

On April 19, the fifth

sixth week period will end, with May 27 ending the sixth six week period and the second semester. This is also the last day of school; however, teachers

Jail Escapees Apprehended Friday

At about 8:30 a.m. Friday morning, Bailey County Sheriff's officers apprehended two men who broke out of the County Jail at about 4 a.m. on Thursday, August 12.

One of the men, Dewey McIntosh was apprehended near Clay's Corner and the other, Johnny Long, was apprehended in a field west of Longhorn Spraying. The two had been apparently hiding in a cornfield in that general area.

The escape occurred on Thursday morning early, when jailer Edd Edmiston left the area that the men were cleaning to answer a call on the phone. Edmiston stated that he knew the men were breaking out, because he could hear the window screen being broken through the jail intercom system. By the time Edmiston could get around to the window, however, all he could see was a foot going around the corner of the jail. Edmiston returned to the inside of the jail and called Sheriff Bob Henderson and within 15 minutes at least five officers were on the scene, and began a search for the men, turning up nothing at the time.

Edmiston said that having the men out cleaning at that hour was somewhat normal procedure if there was something that needed doing.

All law enforcement officers, city, county and DPS engaged in the search for the men throughout the

day on Thursday and into the early morning hours of Friday. Information had led them to believe that the escapees were traveling north on 214 or in that direction.

At 9:30 p.m. Thursday, McIntosh had approached a residence at the county line owned by Tommy Haley, asking to use the phone. He made the call and then left. Investigation by the Sheriff's office revealed the making of the phone call. Then sometime before 8 a.m. on Friday, McIntosh ap-

City Council Denies Citizen's Request On Fence Erection

The Muleshoe City Council met in a special called session on Wednesday, August 11 at 7:30 p.m. to consider a request by Mr. and Mrs. Robert Flanary to allow the construction of a fence in the right-of-way in Block 2, Lot 5, Legion Addition to the City of Muleshoe at 1426 West Avenue C.

Councilman Shafer made the motion and it was seconded by Councilman Wood that the request be denied and the motion carried. City Manager Dave Marr had recommended this course of action to the council due to the city ordinance which was made to prevent this kind of thing happening. Marr stated that the City was the trustee of public property and the decision not to allow the building of the fence was based in part due to the liability presumption. He cited a case where a city was being sued for obstruction of visibility in a right of way.

The ordinance upon which the denial was based comes from Article XVI-

"Plants and Objects Interfering with Traffic;" Section 19-75 definitions.

Flanary contended that although his fence would be in the right of way, it would not interfere with traffic, etc., and charged the council with discrimination, citing a number of cases where the ordinance was being violated. Flanary also said that he intended to pursue the matter further and that he only wanted to protect his property.

Mayor Bratcher informed Flanary that if he did proceed with the erection of the fence, he would be in violation of the city ordinance and would be subject to a fine as well as having

Operations On 24 Hour Schedule

According to Vice President of Charmec, Incorporated, Hugh McGuire, the Progress alcohol plant is running on a 24 hour basis and is building to full capacity. They expect about another 30 day shakedown period before full capacity will be reached. The storage tank at the operation will hold 12,000 gallons of 200 proof alcohol and when the operation reaches full capacity the tank will be filled approximately every five days.

At the present time the plant employs seven persons, and do the cooking of the mash during the daytime with the distillation being done the entire 24

hour period. One person works at night and the distillation allows that person enough time to keep check on other operations. During the distillation process, the proof of the alcohol has to be checked every 20 minutes with a hydrometer.

On June 11 Charmec was awarded 650,000 bushels of corn owned by the Commodity Credit Corporation and at that time was one out of three facilities which were awarded. The alcohol which comes from the distillation is marketed by Charmec to distributors for the government and to date has been shipped out of state with none yet being marketed in Texas. The mash which is left from the corn is a by-product that is kept by Charmec and sold mainly to local dairy and feed lots. Only the starch is used out of the grain to make the alcohol.

According to Hugh McGuire, a 90 cent per gallon tax credit is given to dealers who mix their gasoline with alcohol at a ratio of 9-1. He stated that it was "ironic that Texans had yet to take advantage of this aspect." He does, however, attribute this to the newness of the process and the red tape involved in getting the details worked out.

The tour of the plant started with the laboratory, where the mash pH, or acidity, is measured along with the sugar content of the cooked mash. Also in the lab, the plant manager, Terry Wheeler, checks the alcohol content after fermentation, which usually takes from 48 to 72 hours to complete.

Jennyslippers Hear Two Guest Speakers

The women's Division of the Muleshoe Chamber of Commerce and Agriculture met on Tuesday, August 10 for their regular monthly meeting and luncheon. Following the luncheon, two guest speakers were introduced.

Jeff Smith met with the Jennyslippers to inform them of the upcoming Mule Day Festival on Saturday August 14 including information regarding the all day activities and the dance

at night. Proceeds from this years event will go to benefit Grlstown, U.S.A. in Whiteface, Texas. Smith said that he expected the profits to be good, since much of the food and services had been donated.

The Jennyslippers were requested to help and discussed the possibility of being involved in the planning for this event next year.

Keith Madole, Bailey County Juvenile Probation Officer also met with the Jennyslippers to discuss the growing problems of juvenile delinquency in the county. Also discussed was the YES* organization, which is a youth employment service in some New Mexico towns which is de-

ENERGY BRIEFS

Tips on saving fuel and money from experts at Mobil 7, a motor oil that saves gasoline.

Cooking Up Energy Conservation

More Americans use natural gas for cooking than for anything else. Like other goods and services, gas costs money. While there sometimes have been shortages of gas, there certainly is no shortage of ways to save it. So here are some tips that can help you save natural gas and money in your kitchen.

Don't peek in that oven! Each peek will drop the oven temperature and waste precious natural gas.

When you use the burners on your stove, choose pans that have wide, flat bottoms that just cover the burner and absorb all the heat. Cover the pans so the food will cook faster.

Don't preheat your oven longer than necessary. Often you don't have to preheat at all - for example, in broiling, which uses less gas than any other kind of cooking. And foods that cook in an hour or more also need no preheating.

Keep your range clean.

with all gas holes unplugged. Gas should burn with a steady blue flame.

You can also conserve hot water, which is frequently heated by gas. When using the dishwasher, wash only full loads and keep the filters clean.

Finally - don't peek in the oven! Each peek will drop the oven temperature; raising it again uses extra gas.

What with corn on the cob, watermelons and peaches coming along, this life isn't so bad.

I LOST 74 POUNDS IN JUST 24 WEEKS!

I'm a diabetic but now I don't need shots anymore!

When I started the Diet Center Program, I weighed 211½ pounds. Because I was an insulin-dependent diabetic, requiring two injections daily (35 units in the morning and 20 units in the evening), my doctor had impressed upon me my need to lose weight. I had tried other methods but nothing worked till Diet Center. In just 24 weeks, I reached my ideal weight, and my doctor has removed me from insulin injections entirely. I have never felt better and, thanks to what I have learned at Diet Center, I know how to stay slim and healthy for the rest of my life!

Alma's story is typical of thousands of men, women and children all across the U.S. and Canada who are losing weight and learning how to keep it off at Diet Center.

Youth Return Home From Mission Trip

Several members and sponsors of the youth of the Sudan Church of Christ have returned home from a several days Vacation Bible School mission trip to Shiprock, New Mexico.

Highlighting the trip was a dedication service of the new auditorium that the local church has participated in helping to build. The group also visited the Chuck Wagon Supper Club in Durango and visited Four Corners and "Shiprock".

Co-ordinator of the group was Pudd Wiseman and counselors included Kaye Wiseman, Jane Wiseman, Mickey Stephens, Jo Boyles and George Schuster.

Youth attending included Marie Withrow, Leanna Conley, Linda Wiseman, Wendy Branson, Jeff Meisner, Fred Wimberley, Jamie Ingle, Randy Wiseman, Renee Ingle, Ben Schuster, and Judy Wiseman.

Tooker of Abernathy, Circulation Librarian at Texas Tech University.

Morning training sessions will be conducted to prepare officers and chairmen for their responsibilities over the next two years. Leaders will be: Ruth Williams, Austin, presidents - Edyth Jackson, Pampa, Program-Dorothy Roden, Spearman Research - Christine Gitson, Amarillo, Professional Affairs-Jane Westberry, Canyon, Personal Growth and Services Hazel Brown, Crosbyton, Membership-Joyce Tyer, Hale Center; Finance and Treasures-Lucy Fay Smith, Muleshoe Ceremonials-Mary Vousett, Friona, Communication-Margaret Bell, Hereford; Achievement Awards - Jo Anne Jollet, Amarillo, World Fellowship and Scholarships. A second session will be offered by the group September 18 in Childress.

Delta Kappa Gamma Society International is a society that honors key women teachers. Membership is gained by invitation.

One of the purposes of the Society is to endow scholarships. Fifty two were granted in the past year in the amount of \$49,000. Twelve of the fifty two were for work toward completion of doctoral studies. The monies are obtained from twenty for different foundations and are available yearly.

Three Area members are recipients of scholarships this year. A's fifteen Foreign Fellowships were granted by Delta Kappa Gamma International. Another purpose is to inform members of current economic, social, political and educational issues so they may become intelligent functioning members.

The Greek word for second-year college students, sophomores, is actually a combination of two Greek words meaning foolish and wise.

TOPS Club

TOPS Chapter No. 34 met Thursday, August 12 at 6:30 p.m. in the meeting room of Bailey County Electric with 14 members present.

Clara Lou Jones, president, called the meeting to order. The TOPS pledge was recited and the fellowship song sung. Minutes of the previous meeting were read and approved.

Best loser for the week was Clara Crain. Aurora Mata was first runner up and Skeet Bradshaw was second runner up.

The meeting was dismissed with the goodnight song.

The group also met Thursday, August 5 with Clara Lou Jones in charge of the meeting. Laverne James called the roll with 15 members present.

Weekly best loser was a tie between Skeet Bradshaw and Laverne James. Lena Gartin was first runner up. Ruth Clements, Clara Lou Jones and Rose

Muleshoe Singing Group

The Muleshoe Singing Group met Saturday, August 7 in the fellowship hall of the Trinity Baptist Church at 7:30 p.m.

Cecil Rundell was in charge of the meeting and Clara Coffman gave the invocation.

Mrs. Fred Wilbanks and Maye Wilterding were in Methodist Hospital in Lubbock. Cards were signed by the members and mailed to them.

Twenty three were present including visitors. Mrs. Minnie Kell had her grandchildren, Mike Kelly, Lucy Lloyd and James, "sitting with her. Mike sang two hymns.

The benediction was given by J.R. King.

Sain tied for second runner up.

Rose Sain was named monthly best loser. First runner up was Ruth Clements and second runner up was Jenny Mitchell.

The first 10 of the local by-laws were discussed.

The meeting was dismissed with the goodnight song.

Creative Arts Series Open For Enrollment

A rare opportunity is being offered to area residents this fall with the inception of a Creative Arts Series at South Plains College.

Both credit and non-credit enrollment for the series is continuing, which will feature a performance by television star Buddy Ebsen, an address by E. Gordon Liddy, so-called mastermind of the Watergate break-in; a multi-media presentation of special effects by Robert Blalack, creator of the "Star Wars" special effects, for which he won an Oscar; and an evening of art appreciation with Dr. Clarence Kincaid, Texas Tech University professor of art and noted watercolorist, among other topics.

Those enrolling for college credit will receive three semester hours in the humanities; credit tuition is \$40 for in-district Texas residents and \$50 for out-of-district Texas residents.

Non credit tuition is \$50. Seating for non-credit students will be limited to 100 persons.

Registration for the series may be made until September 8, 1982 or until the class is full, according to SPC officials.

Brochures with more information on the series are available at SPC. For more information, contact SPC at (806) 894 9611.

Wayland Baptist Launches New Graduate Program

Wayland Baptist University successfully launched its new graduate program this week by naming Dr. Ronnie L. Littlejohn as its director.

Dr. David L. Jester, the Wayland president, announced the appointment of Littlejohn, 32, who has served the past two years as professor of theology and philosophy and during 81-82 was acting chairman of the Division of Christian Ministries.

"We are extremely pleased to be able to promote a person without our own ranks to this important position," Jester said. "Dr. Littlejohn will continue to teach in the Christian Studies area on a limited basis, and we are convinced his diversified background will provide us with outstanding leadership in our graduate program."

In his new position, Littlejohn will oversee the entire operation of Wayland's new program, which officially came into existence this summer.

The Graduate Program offers course work leading to the master of education, master of science in management, and master of art in Christian ministries degrees. Each degree is a 36-hour, nonthesis program stressing practical training through internships.

All three degrees are offered on Wayland's main campus here, while both the Amarillo and Lubbock extension centers offer the management and Christian ministries degrees. The Wichita Falls campus, meanwhile, offers the management and education degree.

The three graduate degrees initially made available through the Wayland program have been designed to meet the specific needs of the immediate area, Littlejohn says.

"One of the exciting things about our program is that we had input from our Plainview friends in education and industry," he said, "so we know what we will be doing will strengthen our service to the community."

"Panhandle churches have ministers who would like additional theological and practical training, but until now they were forced to go hundreds of miles to get it. Now, Wayland has

brought a program of excellence in church-related vocations to their area."

A 1978 graduate of Baylor University with a Ph.D. degree in theology, Old Testament and philosophy, Littlejohn came to Wayland in 1980 after two years as pastor of First Baptist Church in Rockdale. He also served as pastor of Prairie Valley Baptist Church in Whitney in addition to spending five years as associate pastor of Temple's Memorial Baptist Church.

As a college professor he was lecturer in philosophy and logic at Baylor, instructor in Old and New Testament at McLellan Community College in Waco and head of the Bible department at Baylor School of Nursing in Dallas, where he was also director of the Baptist Student Union.

Littlejohn also spent two years as chaplain of the W. K. Manning Mental Health Center in Dallas and established a seminary extension center for four Baptist Area Associations in Central Texas.

U.S. Grain Producers Blast Reagan's Decision

The United States missed a prime opportunity to negotiate a favorable long term grain agreement with Russia this year, according to Elbert Harp, Executive Director of Grain Sorghum Producers Association. President Reagan decided to block negotiations of another long term grain agreement with the Soviets at this time because of their involvement in the martial law crackdown in Poland.

"The 1982 Soviet grain crop is the smallest in recent years," Harp said. "It has suffered severe damage because of adverse weather conditions throughout much of the grain producing ar-

ea. Russian imports of grain may exceed 40 million metric tons during the next year."

"It is always easier to negotiate favorable trading arrangements when the

buyer is in desperate need," Harp continued. "If Russia has better crop conditions next year, it will not be nearly as easy to negotiate a favorable long term trading contract."

Mortgage Revenue Bonds OK'd For Texas Residents

The Texas Housing Agency has announced that it has available Single Family Mortgage Revenue Bonds available for mortgage loans to finance acquisition of qualified owner-occupied residences in the State of Texas. Location of the residents must be within the geographic limits of the State of Texas.

Qualifying Mortgage Loans will be Conventional Mortgage Loans made to eligible borrowers whose adjusted gross income for the tax year 1981 did not exceed \$38,000 for families and \$30,000 for individuals and who have not had an ownership interest in a principal residence during the preceding three years. In addition, residences financed by the loans in most cases must not exceed \$57,780 for new homes and \$45,450 for existing homes.

Jack And Jill Softball Tourney In Littlefield

A Jack and Jill Softball Tournament is scheduled in Littlefield, Texas for August 27, 28, and 29. This will be double elimination tournament with a \$75 entry fee per team. Deadline for entries is August 25, at 1 p.m.

Awards will be given for first, second and third place teams in the form of trophies. Trophies will also be presented to first and second place individuals.

A "mush ball" will be provided. There will be a 14 player roster made up of seven men and seven women. A fifty-five minute time limit will be imposed on all games with the exceptions of the finals. A fifteen run rule will be imposed after five innings.

ASA umpires will umpire the games and brackets will be drawn on August 25 at 8 p.m. The location of the ballparks in Littlefield are on South 385.

For more information or entries, call Randy Wesley at 285-6590 or 385-5441 in Littlefield.

After the Carter embargo of 1980, the Soviets turned to other nations with the potential for grain production, enabling those nations to develop production capabilities and seriously compete with U.S. producers. President Reagan's decision has, in effect, done the same thing. These nations; Argentina, Australia, Canada, France and others, now have the assurance of a Soviet market for their grain. They will press for maximum production to take advantage of that market.

"A long term agreement of grain sales to the Soviet Union would alleviate the pressures of burdensome surplus on the U.S. grain market. U.S. farmers are currently selling their grain at prices far below the cost of producing them. U.S. 1982 crop estimates indicate that this surplus will grow even larger this year. At the same time, U.S. grain producers' traditional and potential markets have been handed to their competitors. The future of U.S. grain producers has once more been used as a tool for international politics," Harp said.

Reagan wary of placing troops in Lebanon.

Wagering Laws Explained By IRS

Glenn Cagle, Internal Revenue Service Director for the Northern half of Texas, issued notice that all persons in the business of accepting wagers, including those persons who accept wagers for or on the behalf of another, are required to purchase a \$500 wagering tax stamp and to file the wagering occupational tax return, Form 11-C, as imposed by Internal Revenue Code Sections 4411 and 4412.

Failure to comply with these statutes can result in prosecution leading to 5 years in jail and fines of up to \$10,000 for each offense. The purchase of the special stamp and payment of the Federal excise tax does not preclude prosecution for violations of certain other Federal, State, and local statutes concerning gambling enterprise.

For additional information call the IRS. In Dallas dial 742-2440, in Fort Worth, 335-1370; or elsewhere in Texas toll-free 1-800-492-4830.

Allsup's Stores To Participate In MD Drive

Allsup's Convenience Stores will again participate in the Annual Muscular Dystrophy Fund Raising Drive. Allsup's Stores will be displaying the Muscular Dystrophy Collection Canisters in all of the stores in New Mexico, Texas and Oklahoma in order to help meet the goals of this worthwhile association, whose programs are funded, almost entirely by private contributions, corporations and the Labor Day Telethon.

The Muscular Dystrophy Association is looking for cures and causes of a group of diseases, marked by progressive weakness and wasting of the skeletal muscles which control body movement. Neuromuscular disease can strike anyone at any age, they afflict an estimated one million Americans.

In addition to the "in-store" canisters, Allsup's will also be conducting the "Allsup's Doorbell Brigade". Area youngsters are encouraged to visit their local Allsup's Store on September 5th and 6th and pick up a collection packet for the door to door campaign. After collecting donations for "Jerry's Kids" and returning them to the store, Allsup's will give the youngsters a free fountain drink of their choice. It's our way of saying thanks to the kids for caring.

From Jack Crow, Director of Public Relations, "thanks to all of our customers for your generosity in this fight against neuromuscular diseases, and we at Allsup's are looking forward to working with area youngsters to help the Muscular Dystrophy Associations."

DOUBLE PORTION

A double portion is good anytime, but it is especially good when it is a portion serving one's spiritual needs. It is exactly this which Sunday Church School will do for your child; give him the double portion of spiritual nurture and wholesome Christian fellowship. These two items are the basic building blocks for the proper growth of personality. The Christian boy or girl needs to grow in the understanding of religion as he grows physically and mentally. It is a great, but common, tragedy to see grown-ups with an infantile religion. The context of Christian fellowship is vital because here we share in a common cause and a common conviction about life. Outside the fellowship the world will be calling people to its way of life every day in every way. Every individual needs the added strength which fellowship in the Church alone can give.

Go with your children this week to the Sunday Church School.

The Church is God's appointed agency in the world for spreading the knowledge of His love for man and His demand for man to respond in that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long preserve and the freedom which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that however, every person should without and participate in the Church because it is the truth about man's life, death and destiny; the truth which alone will set us free to live as a child of God.

jail pending a hearing for revocation of probation on a charge of burglary of a motor vehicle.

After arrests and capture was made Friday, the two prisoners were taken to Farwell for arraignment where they were read their rights and bond was set at \$50,000 each. They were apprehended in Parmer County. They were then returned to the Bailey County jail and will be held to go before the grand jury and if indicted will then have trial dates set. Escape from jail is a third degree felony and can lead to imprisonment from two to ten years if convicted.

Sheriff's officers who helped with the search and investigation were Bob Henderson, Jerry Hicks and Hal Bynum; city officers were Chief Les Irvin, Detective Julian Dominguez along with city officers Dwayne Haney and John Detton. DPS officers who aided were Lacy Kirk, Richard Hernandez and Lyndon Huckaby. Dick Py-lant of the district attorney's office was also on hand as well as Howard Watson, who lent the help of his helicopter to the search. Longhorn Spraying also assisted with a plane. Parmer County officers who helped were Sheriff Bill Morgan, and deputies from Bovina and Friona.

More than 100 acid rain scientists across the country say there's a need for immediate control of the pollutants that cause acid rain, according to the National Wildlife Federation, a leader in the ongoing debate over congressional reauthorization of the Clean Air Act.

To date, 101 scientists have endorsed an NWF position statement which concludes that control of acid rain-causing pollutants is called for by existing scientific evidence.

The statement refutes the Reagan Administration stand on acid rain, which claims that further study is necessary before control measures can be designed and implemented.

"Our position statement, endorsed by so many scientists, lends important weight to our contention that most knowledgeable scientists consider the evidence in support of acid rain control to be ample and compelling," said Dr. Jay D. Hair, executive vice president of the NWF.

The NWF mailed the position statement to over 400 acid rain specialists in late May, seeking their endorsement. Ninety-four percent of those responding agreed to publicly identify with the statement. Of those who declined to sign the statement, many claimed to have a governmental affiliation that prevented them from taking a public stand that contradicted their employing agency. Only seven took issue with the statement's premise.

School Board Calls Special Meeting

The Board of Trustees of the Muleshoe Independent School District have called a special meeting scheduled for August 16, Monday at 8 p.m. in the school administration building.

Bids will be opened for the renovation of the high school and board members will consider and award bid if applicable.

The board will also adopt milk and gas bids for the 1982-83 school year.

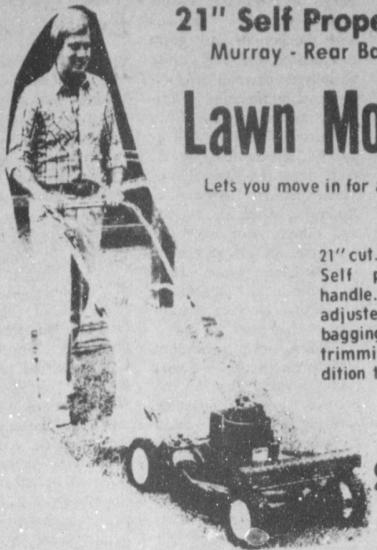

A vice president for the Board of Trustees will be elected to fill the vacancy left by Ben Roming following his election to the school board presidency.

en all week during business hours with Rowena Myers, outreach caseworker, in the office daily. Glen stresses that the Centers' services are confidential and that some appointments can be scheduled after 5:00 p.m. by making arrangements with Mrs. Myers.

The counseling services are funded through local donations and through fees collected for the services. The fees are based on a sliding scale depending on the client's income.

The Muleshoe office, located at 211 East Avenue B, has been in operation since September 27th, 1971 and is a branch of Central Plains MHMR Center in Plainview. Judge Glen Williams has served on the Board of Trustees for nine years and states, "We have always received very exceptional service from Central Plains MHMR Center in every capacity. They help us here in Bailey County in the areas we are most affected - alcoholics, juveniles, and mental disorders. We have had splendid service and results. The staff is good and loyal in the areas they serve us. We have never failed to get clients admitted when needed or get necessary reports in this office."

Rowena Meyers has been scheduling appointments or making proper referrals when needed since September 27, 1971. Other areas of her work involve enrolling clients in the Center's aftercare program when appropriate and working with MHMR's Children's Development Center's Rural Infant Education Program in Bailey County.

Mr. Carter and his wife, Jane, are looking forward

to becoming involved in the Plainview Community and getting to know the residents in Muleshoe as well. Glen and Rowena would like to encourage our community to get to know the many services that the Center does provide. He will also be available to speak to Civic and Social agencies as well as provide preventative work within the community and school system. Come by 211 East Avenue B or phone (806) 272-4433.

Charmec Processing

Cont. from Page 1

A boiling process is used to get the alcohol out of the mash and then it is checked for the percentage of alcohol which has to be 10 percent for 200 proof that is specified in the government contract. Any that does not meet that specification is re-processed until it reaches the proper percentage. Wheeler stated that it is important to keep bacteria out of the mash. To simplify the process for this reporter, Wheeler said that three actual processes took place. That of cooking, or fermentation; distilled and then condensation.

The mash is cooked in two insulated tanks which are heated by steam to a temperature of 210 degrees, with enzymes being added to break the starch down to sugar. Each tank holds 4,000 gallons of water and 200 bushels of corn when full. The steam is shut off after the temperature reaches 210 degrees and then the mash is held at that temperature for about 48-72 hours.

The mash is then cooled to a temperature of 90 degrees and transferred to the fermenting tanks with yeast added to help turn the sugar into alcohol.

The cooked mash is then pumped to the top of the condenser columns where steam is injected at the bottom of the same column causing the alcohol to drip out of the mash. At that time the alcohol becomes a vapor and is sent through a molecular sieve to take out any residue of water and to increase the proof.

The vapor then is sent through pipes into the condenser to cool, where it becomes liquid 200 proof alcohol.

The finished product is then transferred by pipe into the 12,000 gallon storage tank.

Plant president, Gene McGuire, told the Journal that the Bob Free Farms had been contracted to haul the corn from the area high plains elevators into the Charmec facility. He stated that actual production had been going since August 1 and that calls are coming in constantly from distributors and companies out of state who are using the alcohol to their advantage by mixing it with gasoline.

McGuire hopes to be

able in the future to handle area producers corn products and operate on the same level as any elevator. By using this process, the entire products, both alcohol and mash would belong to the Charmec plant. The plant has contracted to them a year's supply of corn from the CCC and will after the year is up, possibly re-contract for the excesses of grain that has ended up stored in area elevators. At the present time, Charmec collects the government's share of the profits and has to send them their portion within 15 days of purchase. Charmec's contract enables them to keep 69 1/2 cents of the \$1.60 that the alcohol is sold for.

Gene McGuire stated that he hoped that the operation would be a boon to the local economy in the long run and that it would provide an outlet locally for producers. According to USDA plans, the main aim of the plan is to reduce government spending by turning a deteriorating liability - in this case - grain, into a salable asset - fuel

ethanol. Another part of the plan is to help the ethanol producers, giving them grain without their having to borrow money to buy feedstock.

The present contract with CCC stipulates that Charmec will produce 2.4 gallons of ethanol per bushel of grain at a fee of 69.5 per gallon.

Fianary asked the Council if they would take action on other violations of this ordinance if it were brought to their attention. To which, Marr answered that a list could be made and the violations would be considered for correction. Marr stated, "We try to catch these violations before they occur and correct them when we do." Fianary indicated to the council that he would pursue the matter through legal recourse.

In other council business, a motion was made to award the bid of the proposed street sweeper for the City of Muleshoe to Environmental Sales at a cost of \$55,981. The motion passed. It was noted that the bid was within the amount of the budget for this item and that the sweeper, an Elgin Pelican, satisfied the qualifications that had been set forth.

Regarding the tractor bids for a general purpose tractor for the city of Muleshoe, Manager Dave Marr recommended that all bids be rejected and that the specifications be redesigned and new bids let at a later date, since the bids that were made did not meet all of the specifications required. Councilman Wilbanks

noted that if at all possible, he felt the equipment should be bought "at home." Several individuals were present in connection with the bidding on both pieces of machinery.

Marr reminded council members that on August 25, Earl Cook with FAA would meet with the Council to discuss the impact of changes proposed on the new airport construction in Muleshoe. Also mentioned was the possibility of several annexation requests forthcoming in the near future.

Support For Foley Wheat Plan Grows

JAIL ESCAPEES NABBED—Bailey County Sheriff's officers and Sheriff Bob Henderson apprehended two county jail breakers early Friday morning near Clay's Corner, just on the Farmer County line. The escapee in this photo is Johnny Long, who was arrested and had bond set at \$50,000. He is accompanied by Sheriff Henderson and City Detective Julian Dominguez.

Texas Farmers Union President Mike Moeller joined with the National Farmers Union in support of legislation introduced by Congressman Tom Foley (D-Wash.) as the only feasible plan currently before Congress to aid the depressed farm economy and provide relief for hard pressed grain farmers. "The only way we will be able to reduce grain inventories and increase prices is to provide our farmers with a realistic incentive rather than the empty shell offered by the Reagan Administration," Moeller said.

The TFU was critical of the proposed 1983 wheat program announced by Agriculture Secretary John Block calling for voluntary set-asides in wheat. "For the fourth year in a row, producers are being told they will lose money and the Administration provided no feasible proposal to change that situation," Moeller noted. Latest USDA estimates show the 1982 wheat crop of 2.71 bushels will be nearly the same as 1981. 2.79 billion bushels, demonstrating the failure of a voluntary set-aside.

Under the Foley plan, the bill will combine an acreage set-aside with a paid diversion. Also, price support loan rates will be increased slightly for both wheat and feed grains in 1983.

Wheat provisions call for a 25 percent set-aside with a 10 percent paid diversion. The diversion payment would be \$3.50 per bushel on lost production, half of which would be paid at the time the producer signed up for the program. The wheat loan rate would be increased from \$3.55 to \$3.80 per bushel.

For corn and other feed grains, a 20 percent acreage reduction program, including a 10 percent paid diversion, would be established in the event 1982 corn production exceeds 7.6 billion bushels. The corn loan rate would be increased to \$2.71 per bushel.

The TFU, and the NFU are supporting the Foley plan as the best alternative to the previously endorsed Farm Crisis Bill which failed in the House Agricultural

Committee. "The longer we delay on taking action on providing a decent price for producers while reducing the surplus, the more costly it will be for both farmers and the government," Moeller stated. "Though not as comprehensive as the Farm Crisis Bill, we hope the Congress and the Reagan Administration will get behind Congressman Foley's bill which will help raise commodity prices, reduce inventories and lessen the cost to the government," the TFU President concluded.
