## City Council Issues Warning On Illegal Use Of Landfill

GARBAGE has been dumped on a county road north of Tahoka, near the location of the old city dump. The sign, in the top picture, tells that the old dump has been closed by the Health Department; however, residents continue to use it, illegally.

City Manager Ray Mason brought one of the city's problems to the attention of *The News* this week, after unknown individuals insisted upon using a county road for a trash dump and burning ground.

The old city dump was closed some four years ago by the State Department of Health, and residents were asked to use the landfill east of FM Road 400, north of the city.

A city ordinance prohibits burning trash in the city limits or at the site of the sanitary landfill. However, Mason says that people are taking partially burned trash to the location of the old dump and emptying it, still burning, on a county road.

He says also that the abuse of facilities at the newer approved location is endangering the city's standing with the State

Health Department and the Environmental Protection Agency.

Persons are ignoring the hourly schedule posted at the entrance of the landfill and are going around the gate, through a field, and dumping garbage in unauthorized locations.

Any individual who is apprehended in the violation of the city ordinance will be given a citation and will be summoned to appear before Mayor Mel Leslie, in his capacity as City Judge. A fine of not more than \$200 will be assessed.

### Dumpster Truck Damaged

Mason also said that a resident recently put a two-inch pipe in a dumpster and when the pick-up vehicle unloaded the dumpster, the pipe knocked a hole in the back end of the truck, necessitating a large repair bill.

Residents are urged not to put tree limbs, rocks, dirt, pipes, etc. in the dumpsters, but to notify the city offices and a truck will be made available for the resident to get his garbage to the landfill.

Also, says Mason, the attendant at the sanitary landfill, E. J. Hatchett, is there on a regular basis to show persons where and how to unload garbage.

The landfill is open on the following schedule: Monday, 10 a.m. to 7 p.m.; Tuesday, 10 to 7; Wednesday, closed all day; Thursday, 10 to 7; Friday, 8 a.m. to 12 noon; Saturday, 10 to 7; and Sunday, 1 to 5 p.m.

The hours on Monday, Tuesday, Thursday, and Saturday will be from 9 to 6 November through April.

The Spectator...  
By Mary Beecher

Tahoka has a great many things going for it, not the least of which is a record number, I suppose, of new businesses. I am not an economist and I'm able to judge only on what is obvious. Those who know how to prognosticate, using the building permits issued, new cars bought, new businesses coming in, etc. are in a better position to say more authoritatively about the economic outlook is. I suspect, however, that the city's pocketbook is suffering in much the same way as my own--or it appears that most places are. Assuming that building permits totaling \$1,000,000 are issued this year--and I dare say that there is "within the ball park"--with the city's tax rate of \$1.50 per hundred dollar valuation, based on percent of actual value, a million dollars will generate \$3,750--not even enough to pay a worker's wages for a year. A \$40,000 home would cost the owner \$150 per year in taxes.

As a citizen of Tahoka, I have been woefully concerned about city government, city funds, and I have not done my homework regarding the needs of a city. We've been lucky in that we haven't had many of the problems which face other places, and in my opinion, for what it's worth, we're doing ourselves, our city council, our mayor, and all concerned a grave injustice by not at least being awake to the problems which face our--and us.

Our mission is more than registering complaints. An "intelligent complaint" will grant some research into the facts.

The resignation of school nurse, Mrs. Jean Harvick, causes no little regret on my part.

She worked as her colleague for several years, and she worked with her in a different capacity since that time. She is efficiency personified, and her work has required a great measure of compassion--which she did not lack. Her professionalism, dedication, and determination are going to be sorely missed.

### Tahoka's Methodist Church To Have Special Services Sunday

First United Methodist Church in Tahoka will join other Methodist churches and churches of many denominations in the observance of World-Wide Communion Sunday at the 11 a.m. service this Sunday, October 2nd.

The pastor's sermon topic will be "Conquering Anger and Making for Peace."

based on Isaiah 53:5-7, and I Peter 2:19-23. Special music will be a duet by Margaret and Lisa Carter.

Reverend Billy Wilkinson, District Superintendent of the Lubbock District of the United Methodist Church, will preach at the 6:30 p.m. service, and conduct the annual Charge Conference.

During this conference, reports will be made of the year's work, new officials for 1978 will be elected, and financial and program goals will be set. A reception honoring Reverend Wilkinson and his wife will be held in Fellowship Hall following the service, hosted by a committee headed by Mr. and Mrs. T. A. Stone. All members of the church should attend the annual meeting, and visitors are welcome.

The observance of World-Wide Communion Sunday was begun forty years ago to show Christian unity around the world.

### Abilene Attorney Announces Candidacy For U.S. Congress

A. L. (Dusty) Rhodes hasn't let any grass grow under his feet in his first month of campaigning for the U.S. House of Representatives.

The Abilene attorney and businessman announced his candidacy as a Democrat on August 16 with a one-day flying tour of the 17th Congressional District, of which Lynn County is on the extreme northwestern part.

Rhodes' announcement came one week after Congressman Omar Burleson, who served the District in Washington for 32 years, announced that he would retire at the end of the present term.

Since announcing his candidacy, Rhodes has visited over 50 cities in 31 counties, and has been putting together a campaign organization that will be active in all 33 counties of the 17th Congressional District.

"I've been talking with businessmen, farmers and ranchers, elected officials,

Renfro led the honored class in singing their class song, *When You Walk Through A Storm*, after which special presentations were made.

# The heat pump

"THE ELECTRIC SAVINGS MACHINE"

## energy used is energy ... saved

Since the heat pump pulls much of the heat out of the air, it actually uses less energy to heat the house. In fact, the heat pump delivers as much as three units of heat for every one unit of electricity it uses. That's an electric energy story that no other system can equal. And the heat pump does it all in good clean heat without flames or water, fan electricity, pipes and valves.

"Wherever I go," Rhodes said, "the issues that people raise run along similar lines."  
"The economy, especially energy, is on everybody's mind," said Rhodes. "And so is agriculture-farm price policy."  
"But the one thing that people feel strongest about is the amount of red tape and governmental control over more and more aspects of people's lives."  
"I hear people say, 'We aren't going to ask you to get the government to give us anything—we just want you to go up there and hold the

"I have announced my candidacy for Governor of Texas. I'm confident I can and will win.

According to a statewide poll, 8 out of 10 people are ready for a new governor. The poll only confirmed what I've been hearing all over Texas this year. People are against the idea of anyone holding the state's highest office for 10 years. No governor has asked for 10. No governor has been given 10. It goes against a tradition that's as old as Texas itself.

"There are other reasons folks are ready for a new governor. State spending has jumped from \$3 billion to \$8 billion in the last 6 years. The Dallas Morning News reported, 'during Briscoe's years in office, nearly all state government will have gone on a spending spree. And the Governor has done nothing to discourage it. He's vetoed less than two-tenths of one percent of the two previous budgets and not one penny's worth of the current appropriations; it's the first time that's happened in twenty years. In a related story, the News pointed to the fact that during the Briscoe years the number of employees paid by the state has risen by 50,000.'

"And, while we've heard the boast of 'no new taxes,' we've seen our property taxes increase by \$1 billion along with substantial hikes in state licensing fees.

"I've traveled the state this year, visiting with folks. Whatever their overall assessment, most Texans lacked confidence in the present governor's persuasiveness and vision. They felt he had failed to measure up to their expectations and to live up to his promises.

"Texans are hungry for an effective gubernatorial spokesman on energy policy. They are frustrated that our governor hasn't been able to get the Texas viewpoint across in Washington. They are wondering, too, why our governor hasn't been speaking out forcefully for a farm policy that would help our beleaguered farms and ranches.

"I fully agree with the people's assessment; that's why I'm seeking the office of Governor.

"I'm proud of my record as Attorney General and Secretary of State. It shows that I'm not afraid to roll up my sleeves and work hard. It indicates that I have the ability to assemble a capable staff, that I prefer to work closely with people, and that I'm not reluctant to make changes when they can benefit the state. I'll be this kind of governor, given the job."

line-do all you can to cut back on spending and federal control."  
Rhodes said a number have asked him how long it will take as a new congressman to have any influence in Washington.  
"My answer is that seniority is on the way out in Congress. In recent years, the rules have changed to take much of the power away from committee chairmen.  
"Today it's more what you know than who you know and a willingness to be active, creative, and to work hard that helps a congressman to be effective."  
Rhodes said he felt the issue of leadership would be paramount in the coming election campaign.  
"This district needs a representative who knows the people, who believes what they believe, who will be aggressive on their behalf," Rhodes declared.

"In my practice and in my businesses, I have become closely involved in the lives of thousands of people through the years. For me, politics will always be a personal thing. I believe I can make a difference in Washington."  
The 45-year-old Rhodes is a senior partner in the Abilene law firm of Rhodes, Doscher, Chalk and Heatherly. He is also engaged in a number of business enterprises in West Texas, including banking, oil and gas, farming and ranching, and retail merchandising.  
He serves on the board of directors of Citizens National Bank in Abilene, and also on the board of Connally Oil Company there. He is chairman of the board of Gibson's of Duncanville, and also board chairman of Hale Farm Supply in Haskell.

He is president of Big Ed Oil Company, and the Christi Company, Inc. He is a member of TIPRO (Texas Independent Producers and Royalty Owners).

Rhodes was born into a farming family in Hugo, Oklahoma and has wheat farms in Oklahoma. He also has a cotton farm in Haskell County and Charolais and Hereford cattle in Taylor and Bosque Counties.

He is active in numerous community activities, including the boards of the Abilene

Philharmonic, the Abilene Zoological Society, and the West Texas Rehabilitation Center.  
He is a frequent speaker for older citizens groups, and recently won a state award for service on the governor's senior citizen symposium, the Generation Connection.  
Rhodes is married to the former Nancy Fanson. They have four children—Ed and Christi, students at Abilene Christian University; Annette, an Abilene High School junior; and Sherry, a ninth-grader at Lincoln Junior High.  
The family are members of the Highland Church of Christ in Abilene.

An Older-Texan Workshop for Creative Living was held on Tuesday of last week in the Sundown Room at South Plains College. Levelled, beginning at 9:15 a.m. Theme of the program was Creative Use of Mind, Body, and Hands. Speakers were professors in the college, and included Dr. Dan Stewart, pastor of First Christian Church and instructor in physiology; Dr. Clint Ramsey; George Messersmith, with Department of Enforcement; and Jim Messingame, professor of history.

enjoyed lunch in the college dining room. The workshop closed with an interesting session on arts and crafts.

On Wednesday the mini-bus, driven by Teddie Kelley, took a group of senior citizens to Lamesa for a visit with the club there.

For the organization there, it was "Harvey Allen Day," honoring the architect who had designed their building, as well as many more in Lamesa. He is past 90 years old and just now retiring from active work in his chosen profession.

September birthdays were also being celebrated for

members, of which there were ten present. About 150 persons registered.

Those going from Tahoka were Mary Davis, Clara Mims, Lottie Lawson, Carrie Caldwell, Jurlene Payne, Teddie Kelley, Leona Waldrip, Thelma Dewbre, Myrtle Lovelady, Annie Bell Stice, Cordie Swann, and Zella Taylor.

Fourth-grade teacher Evelyn Wolforth, was out of school at Wilson on Thursday and Friday, and I was called to substitute.

Mrs. Nina (Griffin) Maves from Lamesa, sister of Mrs. Roy Miller and a former resident of Tahoka, came up for the Fall Festival and spent a few days with her sister.

Teddie Kelley, Leona

Waldrip, and Thelma Dewbre manned a booth at South Plains Fair for four hours on Sunday afternoon, with a display of crafts made at the Pioneer Club here.

The booth, set up by the South Plains Council on Aging and SPAG, will have different displays each day. Everyone is invited to go by the booth, located in the coliseum. Displayed are pictures of outstanding

senior citizens of the South Plains, one of which is Mrs. W. C. Huffaker of Tahoka.

On Thursday morning of this week, the mini-bus will leave the center at 9 a.m. to take a large group to the Lubbock Fair, celebrating Senior Citizens Day.

On Friday, the September Birthday Party will be held at 2:30 p.m. at the center.

Both Tahoka Drug and Sweet Street Baptist Church have recently donated dishes to the Pioneer Club, and the paving on the parking lot has been completed.

As this is being written, Mrs. Thelma Dewbre is preparing to enter St. Mary's Hospital in Lubbock on Wednesday, for eye

surgery on Thursday.

Pat Patterson, Southwestern Public Service employee, underwent major surgery in Methodist Hospital on Monday.

Mrs. Annette Ellison, fifth-grade teacher in Tahoka, had surgery in Lynn County Hospital early this week.

**Think of us before you think of anything else.**

With everything the farmer has to face these days, he doesn't want a lot of hassle everytime his farm equipment needs updating. He wants help. He wants someone who'll see his problems from a farmer's point of view. Someone who understands first hand what farming's all about.

Maybe that's why a lot of people here think Dwain Lusk is one of the best Agricultural Loan Officers in West Texas.

He's available when you need him. Whether it's in

the middle of a cotton field or at his desk in the bank. And when you talk to him you know right away you're talking to someone who understands your language. Dwain Lusk . . . he'll help you get what you need to make it.

Think of us before anything else when you're thinking of farm loans.

This year's National 4-H Week is dedicated to the inner growth of each member through his own personal freedom to search for knowledge and acquire new skills.

### Tahoka Seniors Schedule Sale Of Lightbulbs

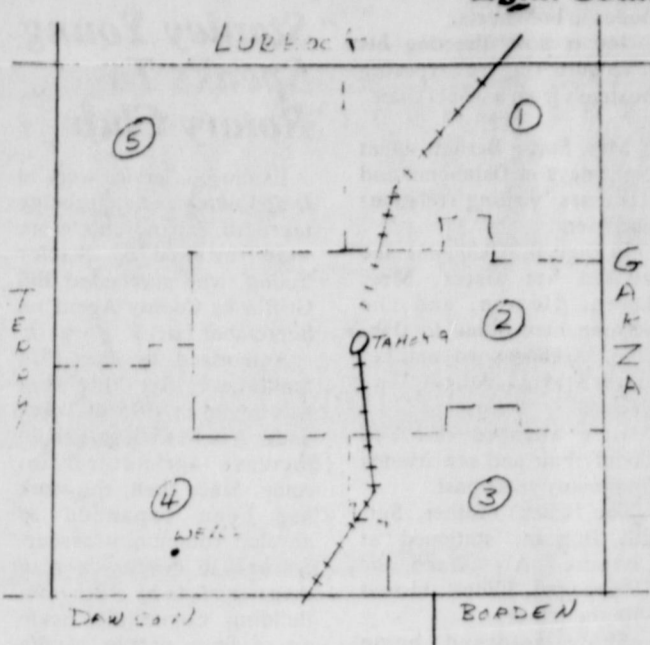

The seniors at Tahoka High School are sponsoring a lightbulb sale on Saturday, October 8th, to raise funds for their senior trip.

Lightbulbs will sell for \$2.50 a pack (45 cents below suggested retail price), and each pack contains five bulbs (two 60-watt, one 75-watt, and two 100-watt).

Class members will be going door-to-door on Saturday, the 8th.

Persons are also asked to save old newspapers and magazines for seniors to collect on the 8th.

A clarification is needed regarding the fertilizer project mentioned in an earlier edition of *The News*. It is a weed killer, to be put on now, to prevent weeds next spring. Persons wishing this weed killer may contact any senior.

### Soil Conservation Service Will Elect Director, Have Tour

Lynn County Soil and Water Conservation District will have its annual election and conservation tour on October 4, the election to be held at the O'Donnell Community Center about 1 p.m. A free lunch will be served prior to the election.

A bus will leave the square at Tahoka at 12:10 p.m. and arrive at O'Donnell at 12:30. Landowners present at this meeting and meal will elect a director for

Zone 4 of the district, to replace out-going director Howard Moore.

Moore has been a strong member of the district board for ten years.

A conservation tour, by bus, will start at 1:30 and will return to O'Donnell by 4:30 p.m. and to Tahoka by about 4:45.

Further information may be obtained by calling the SCS at Tahoka, 998-4622.

Two officials of Lubbock-based Plains Cotton Growers, Inc. figured prominently September 22 and 23 in Congressional hearings on legislation to revise the insurance coverage offered by the Federal Crop Insurance Corporation (FCIC). Hearings were held in Washington by the House Conservation and Credit Subcommittee, chaired by Congressman Ed Jones of Tennessee, author of one of the bills under consideration.

Presenting testimony for PCG September 22 was Donald Johnson, the 25-county producer organization's Executive Vice President.

PCG President Lloyd Cline of Lamesa presented a statement September 23 for the National Cotton Council, of which he is a producer delegate.

Improvement of Federal crop insurance takes on added significance in high risk areas such as the High Plains in view of the disaster payment program's scheduled expiration at the end of 1977, Johnson stated, going on to say that if in fact the current disaster program is allowed to expire, some other plan to provide disaster

protection at reasonable cost to producers is going to be "imperative."

Johnson followed this by saying that if an efficient, workable insurance program is not ready by 1979, PCG will urge that the Congress extend the present disaster program.

Cline's testimony for the NCC concurred with Johnson's statement that an adequate crop insurance program will be desperately needed after 1979. Changes needed in currently available FCIC insurance plans, Cline stated, include (1) coverage of a higher percentage of risk, (2) coverage based on individual farm yields instead of county averages, (3) more emphasis on selling as a means to spread risks, and (4) extension of coverage availability to counties where it is not presently offered.

The legislation offered by Jones calls for replacing FCIC with a new Federal Production Protection Corporation (FPPC). FPPC would be empowered, beginning in 1978, to offer a plan or plans of protection against loss from virtually all unavoidable causes. Premiums would be paid by farmers for FPPC protection against "normal" losses of production. "Catastrophic or disaster" losses, under the Jones proposal, would be paid from a disaster relief fund established in the treasury, and payment for such losses would be excluded from the loss experience used by the FPPC Board to set premium rates.

Catastrophic and disaster losses under the Act are defined as losses which occur when production "falls below the normal production level for a given area or county as determined by the Board."

Johnson and Cline commended Jones and others who have introduced legislation to improve FCIC coverage, but criticized certain parts of the Jones bill. They particularly objected to a section which states that in any county where FPPC protection is offered in 1978 and 1979, producers would not be eligible to receive disaster payments.

Calling the Committee's attention to the fact that when his statement was prepared PCG had not had time to discuss the matter with the PCG Legislative Committee or Board of Directors, Johnson requested the Committee's permission to submit additional views on the subject at a later date.

### Classing Office Opens At Lamesa

The Lamesa temporary cotton classing office began serving approximately forty-two gins in five Texas counties September 26th, reports Donald W. Bratton, regional director for the cotton division of the U.S. Department of Agriculture's Agricultural Marketing Service in El Paso.

The Lamesa office serves Andrews, Borden, Dawson, the south one-half of Lynn, and the north one-third of Martin Counties.

Donald R. Lewallen is the officer in charge of the Lamesa office, which last year classed 352,000 samples.

This year's early harvest brought about the first

September opening since 1962. Last year's classing at Lamesa started November 1st.

Producers may request reviews of classification reports from the Lamesa office, 201 N. 22nd Street. Producers, as well as news media, gin operators, and others of the cotton trade may be placed on a mailing list to receive weekly reports on quality sales and other market information prepared each Friday by the regional office at El Paso.

The telephone number at Lamesa is 806-872-3037.

### OS Roping, Art Exhibit Is Sunday

Tom Ferguson, the world-champion all-around cowboy and rodeo's first \$100,000-a-year prize winner, will be in the field of thirty-six top steer ropers-including ten of the fifteen who qualified for the recent National Steer Roping Finals-in the 7th annual OS Ranch Steer Roping here, Sunday afternoon, at Post, Sunday afternoon.

Some 3,500 or more western fans are expected to be on hand for the "OS weekend" which also will feature a Saturday afternoon match roping between defending world-champion calf roper, Roy Cooper of Monument, New Mexico, and Phil Lyne of Artesia Wells, two-time former champion, besides calf roping, team roping, barrel racing, and a cutting-horse contest.

Thirty-seven of the nation's top cowboy and western artists will exhibit over \$200,000 worth of

western art in the OS ranch-house nearby, while the roping is going on. Art sales of about \$100,000 are anticipated.

The OS Steer Roping and Art Exhibit is a benefit crowd pleaser for West Texas Boys Ranch at San Angelo. Over \$40,000 was raised during the weekend last year for the Boys Ranch operation.

Half or more of the artists exhibiting will attend the "OS weekend" in person, and be guests in Post homes.

Walt Garrison, who quit running the football for the Dallas Cowboys, for rodeoing, will be the arena director, announces Jim Prather, OS boss and "weekend" innovator.

## Sherry Etheredge Says

To produce more energy-efficient appliances -- that's industry's top priority, according to Dr. Carolyn McKinney, family resource management specialist with the Texas Agricultural Extension Service, the Texas A&M University System.

Industry constantly is being challenged to produce appliances with performance, dependability and features to meet consumers' changing needs, Dr. McKinney says.

The Energy Policy and Conservation Act of 1975 requires that by 1980, appliance efficiency be improved by 20 percent. The Commerce Department proposes that manufacturers sharply reduce energy consumption on some appliances.

For example, they ask a cutback of energy consumption on freezers, by 25 percent; on refrigerators by 30 percent; on room air conditioners by 22 percent; on gas water heaters by 25 percent; on black and white televisions by 48 percent; and on color televisions by 42 percent.

However, industry's new designs in energy savers will carry higher price tags, and consumers will be wise to base decisions on purchase price, operating costs, and the overall lifetime cost of appliances, the specialist says.

## Stanley Young Speaks To Rotary Club

Extension Service work in Lynn County and steps being taken to expand this work were reviewed by Stanley Young, who succeeded Bill Griffin as County Agent on September 1st.

Authorized by the 1914 Smith-Lever Act, this work was begun in 1915 in Texas under A & M College to help increase agricultural income. Since then, the work has been expanded to develop community resources and to develop a plan program made by a Program Building Committee made up of farm people of the county.

This year, an assistant county agent, James Fuller, has been added, primarily for work with 4-H Clubs. Sherry Etheredge is the Extension agent for work with ladies and girls.

Emphasis is being placed on eight fields of farm work. New varieties of cotton, earlier harvest, fighting the spread of nematodes, use of modules, and meeting the shortage of chemicals are some of the areas being emphasized.

Weed control in grain sorghum and development of insect-resistant varieties are being looked into.

Livestock management, diseases, marketing, and development of higher quality feature this field.

Continued control of soil, wind, and water erosion is another phase of the work.

Other important fields include farm and home management, development of new community resources, home economics and family life management, and expanding the youth program. Young said there are now eighty projects available for youth in 4-H work, not just livestock, that should meet the interest of almost any boy or girl.

Ben Gwin arranged the program and introduced the speaker.

It may surprise you to learn that a child has pink lungs an adult gray or black lungs and the city dweller exposed to industrial smoke or fog has darker lungs than those who live in the country. The average person breathes about 18 times a minute, which totals about 25,000 times each day.

Therefore, it is most important to take good care of your lungs. Have you had your physician check your lungs lately? It is a wise precaution to avoid future trouble.

## Three Farmers Able to Feed 97 People, New Figures Show

AUSTIN-In Texas this summer it took just three people to produce enough livestock reporting service. "This low percentage shows the efficiency of raw agricultural goods for 97 other fellow citizens. Agriculture Commissioner Reagan V. Brown reported recently that 284,000 people were involved in the actual growing and harvesting of food and fiber in Texas, according to an annual summer survey released by the Texas Crop and Livestock Reporting Service. "Too many people have lost touch with agriculture."
