### The Spectator...

By Mary Brecheen

Juvenal, a Roman poet and satirist, once said all wish to possess knowledge, but few, comparatively speaking, are willing to pay the price.

There is nothing inherently wrong in lacking knowledge, but the crime lies in not knowing that lack knowledge and in not caring that we lack knowledge.

A classic example of what I'm trying to describe appeared recently in the Lubbock Plains-Journal. A college student wrote a letter to the editor and castigated the use of the word "solon" in headlines, her reason being that she didn't know the meaning of the often-used word and she doubted that other readers were aware with it either!

The fact that she didn't know the meaning of "solon" is not the issue. She was flaunting her ignorance and her mental apathy by saying to the readers, "I'm too lazy to care enough to know the meaning; therefore, you need to dilute the use of words to a Mickey Mouse level that I, a college student, can understand."

And myself wondering to what extent our reading and/or teaching should be diluted. We're not conscious of exercising our muscles and our minds, and leaving untouched in a mire our ability to think and find facts.

##

"Solon" as we use it today means "a wise adviser," and the origin of the word is an interesting one, for what it's worth. Solon was an Athenian who lived some 640 years before the birth of Christ and who was respected by his fellow Greeks for his insight into their affairs.

The story goes that the Athenians had made costly attempts to retake the island of Salamis, and in despair, had passed a law, under penalty of death, forbidding anyone to suggest another attempt. Solon escaped the penalty for suggesting this law by "pleading insanity" or "going to be mad."

At the market place, a crowd gathered around a raving man who because of his disordered and wild gestures, appeared to be insane. In a loud voice, he cried:

"Then to Salamis, brothers! Let us fight for the beautiful island, and bring us far from us ever the thought of unbearable shame!

He had hoped, the crowd recognized the appeal in his poem, and inflamed by his words, the Athenians tried once again to take Salamis, but failed.

The story from there on is lengthy. To make a long story short, his fellow men saw in him one who knew how to instigate changes for the better—and today, we refer to our wise (and sometimes unwise) lawmakers as "solons."

##

Bulldogs and their fans rose to the occasion Friday night to produce a grand showing of school football at its best.

The show is not over, however, and the game scheduled for tomorrow night will demand a high quality performance.

It might add that the need for team spirit, participation, pride in accomplishments, etc., should not stop Friday. "We've only just begun," as the saying goes, and as far as school activities are concerned, there are events in many areas—academic as well as athletic—still ahead.

The quality of performance displayed by the Bulldogs and townspeople last week is extremely commendable and can be the start of other good things for the entire community.

### Tahoka Fifth-Graders Learn About First Americans Through Study Of Clothes, Homes, Habits

BY MARY BRECHEEN

An Indian Style Show on November 4th at North Elementary School was the culminating activity of a three-weeks study on the Indians of North America, the project being part of fifth-grade geography.

Mrs. Shirley Holloway, fifth-grade teacher in Tahoka the past eight years, taught the unit on Indians to the eighty-four fifth-graders. She and the other teachers, Mrs. Janette Harvick and Mrs. Annette Ellison, feel that some departmentalizing

is in the best interest of the students as well as the teachers themselves. "We are convinced that if one teacher prepares all the lessons in one subject area, for example geography, she can devote more time and effort to it, and there will be more learning," Mrs. Holloway said.

Mrs. Harvick and Mrs. Ellison enforce the study in their home rooms, in the area of art, language arts, etc.

Every student was re-

quired to make a paper sack costume, there were individual reports, and different groups had projects throughout the study on Indians. Various students reported they learned that all Indians do not live in teepees, that canoes were made of trees, and tools were made of bones, to name a few of the facts learned.

Judges last Friday heard the eighty-four students tell about their costumes, and eleven students were given

the Golden Arrow Award, for their ingenuity in creating a costume, as well as their ability to convey their knowledge of such costumes to the judges.

The Golden Arrow winners, as pictured, are Donna Vasquez, Mistie Cook, Ramiro Resendez, Robert Ybarra, Ruben Medel, Jessie Vasquez, Jo Dell Patterson, Rhonda Nance, Rafael Resendez (Ramiro's twin), David Engle, and Joe Espinoza.

JO DELL PATTERSON, center, tries his bow while Jessie Vasquez, left, checks the arrows. Rhonda Nance works on an Indian costume. They are students in Mrs. Ellison's room.

RAMIRO RESENDEZ, left, and Ruben Medel, right, display their posters on Indian weapons, tools, and crafts. Robert Ybarra, center, holds the Golden Arrow he won for his costume. They are students in Mrs. Harvick's room.

DONNA VASQUEZ, left, and Mistie Cook, students in Mrs. Holloway's room, do some sand painting.

LEFT TO RIGHT, Rafael Resendez, David Engle, and Joe Espinoza, students in Mrs. Ellison's room, do research on Indian culture.

### High School Rooms Carry Out Spirit Theme In Decorations

Mrs. Thalia Burks' room was first-place winner, and "Tahoka Goes To State" seemed to be the theme proclaimed. The room featured crepe paper draped across the ceiling, with each of the fifty states declaring a message concerning the Tahoka vs. Slaton game.

Some of those messages were "Delaware says 'Demolish Slaton!'; Vermont says 'Slaughter Slaton!'; and, not to be outdone, 'Texas says 'We Love You, Beat Slaton!'' Also, a bulletin board saying 'Terrorize the Tigers' highlighted the room. It featured a free-hand drawing by senior Bulldog, Leslie White. Seniors also hung a huge poster proclaiming 'Annihilate Slaton!'

Individual rooms at Tahoka High School were decorated in the "spirit theme," preceding the Slaton game, and winners were announced at the pep rally on Friday afternoon.

CURTIS STEWART AND INOLA THOMAS proudly display part of the decorations in Mrs. Burks' first-place-award room.

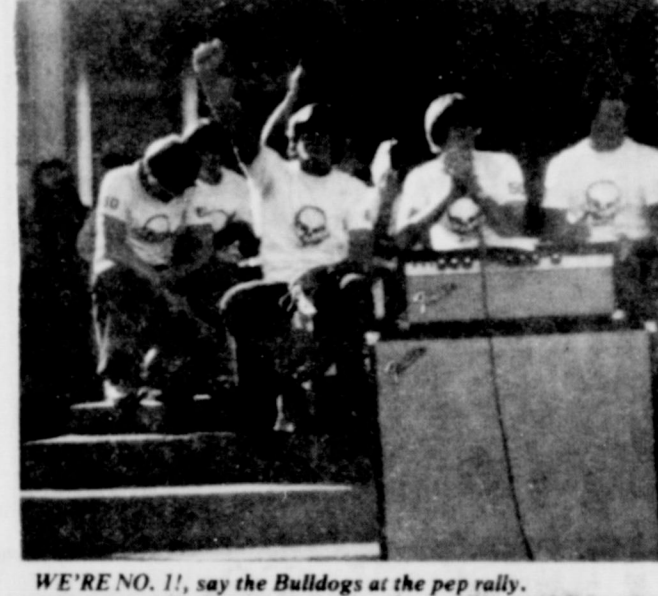

MR. GARNER'S THIRD-PLACE ROOM featured, at one time, Bert Short and Jabo Chancy, back row, and Jubal Dunlap and Todd Lockaby, front.

SUPERINTENDENT JIM COULSTON tells the pep rally crowd about Tahoka High's new-found spirit and pride.

EVERYBODY SUPPORTS THE BULLDOGS! A group of students surround the victory bell--left to right, Gordon Tomlinson, Frankie Lindsey, Kelly Paris, Rich Green, Steve Renfro, and Tommy Guin.

BOOSTER CLUB PRESIDENT Bill Chancy was part of the crowd that attended Friday's pep rally.

BAND PIE SUPPER REPORTED A SUCCESS

According to Band Booster Club members, the pie supper hosted by them last Friday night after the Slaton game was a success. All proceeds went to the band, and club members express their appreciation to persons who attended.

Mrs. Leo Dulin has received the news of the death of her cousin's husband, Art Mitchell, on Monday in Las Vegas, Nevada.

It seems that a short in an electric light cord caused a fire in a living-room couch which in turn set off poisonous gas that killed Mr. Mitchell and left his wife, the former Helen Ruth Bell, in critical condition in a Las Vegas hospital. Her parents lived on and worked the Lynn West farm in the middle '30's.

Thirty-seven persons registered at the noon luncheon of Lynn County Pioneer Club on Friday, and Annie Bell Stice won the prize at the drawing.

At the business meeting, three new board members were elected—Louie Weathers, Judge V. F. Jones, and Leona Holden.

Mrs. A. L. Fourbin of Lubbock and Mrs. Nell Greer of Slaton were visitors.

The club is planning a Thanksgiving supper on Monday, November 21st, and the next regular meeting will be November 18 at noon.

### Borden County Zaps Leopards

The New Home Leopards lost their District 3-B West zone playoff berth Friday night by losing to the Borden County Coyotes 20-0, that being the Leopards' first loss in district play.

In the second quarter, Eurdist Rinehardt, senior tailback, carried for the 1-yard line for the Coyotes' first score.

### Stanton Defeats Eagles

Stanton Buffaloes ran over the O'Donnell Eagles last Friday night, at Stanton, with a 56-6 victory.

With 2:37 left in the first quarter, Stanton's Tommy Morrow connected on a 15-yard pass to wingback Oscar Perez. Collerson Huffman's kick was good, and at the end of a 94-yard drive, Stanton led 7-0.

In the second quarter, Smith scored on a 66-yard run for the TD and Kendell Blocker got the extra point. Tailback Marvin Jones then plunged one yard for the TD.

In the third period, the tailback shoved the ball across once more from the 3-yard line, and then ran the ball across on the conversion play for two more Borden County points.

In the fourth quarter, Travis Rinehardt scored on a 13-yard play, the point-after attempt failing.

Blocker's kick was good. Blocker then passed to end Russell Mims for 69 yards and the TD, and then kicked the extra point. Less than a minute before halftime, fullback Bob Jones ran eight yards for another Buffalo TD, and Huffman's kick was good.

Stanton kicked off, only seconds before the halftime whistle, and tackle Larry Carroll recovered an O'Donnell fumble on the kickoff.

With no time showing on the clock, the Buffalo quarter-

back fumbled the ball, but guard Ralph Gonzales recovered and still ran 22 yards for the TD. Blocker kicked the extra point. With 9:19 left in the third quarter, the Eagles, in the person of Tony Acosta, ran two yards for a score. In the fourth quarter, Buffaloes made another points, to end the game a 56-6 tally and 309 rushing.

**IT'S TIME FOR ANOTHER MIRACLE!**

It's time to cure diabetes. Smallpox, tetanus, yellow fever, pellagra, polio are diseases we have conquered. Now it's time to help the many millions of known and unknown diabetics. The essential cause of diabetes is still unknown although it has been established that heredity plays an important part.

Fortunately, diabetes, once found can be controlled by diet, medication and insulin injections. But, you can have diabetes without any symptoms at all, so it is important that your physician checks for it on a regular basis.

## A Visit With Your County Agent

by Stanley Young  
Lynn County Agent

For a Texas farmer, deciding what and how much to produce is no simple decision.

Nowadays any farmer who wants to make a profit has to take a lot of things into consideration before making any decisions. He must analyze not only the market situation in the U.S., but the market outlook in the world and how it will affect whatever crop or crops he intends to produce.

For example, before a wheat producer plants his crop, he should look at the current and projected prices of grain in the U.S. and the world. What price can he expect at harvest time? How much grain is being consumed in the U.S.? The world? Are world grain stocks high or low? Will foreign countries be producing more or less grain? Is the export potential for grain good or bad?

Other things producers should consider when making production decisions include long-range weather forecasts, the projected world birth rate and the possible effects of government programs on market conditions.

Only when a producer has analyzed all relevant information can he make wise management decisions on crop production. Then he can estimate how much it will cost to produce the crop and how much profit he can expect.

Decisions must also be made on various cultural practices, such as the use of fertilizer and herbicides, when and how to market the crop, and whether or not to use forward or futures contracts.

To make the best decisions in all these cases dictates necessity for keeping good production and cash flow records.

Without good records, farmers are just 'shooting in the dark' in making management decisions. Records of past years will hopefully reflect where improvements can be made. And cash flow records are essential for establishing a good credit rating. Credit agencies often place a lot of emphasis on accurate cash flow records when granting loans.

Sound management decisions backed by good records are vital to a successful farming operation.

things in a picture so they look pleasing and tell the story better. A lot depends on choosing the right camera angle and placement of the subject.

Young people in the National 4-H Photography Program, supported by Eastman Kodak Co., suggest aiming the camera so the subject is not exactly in the center of the picture, but a little to the right, left, above, or below center.

Background is also important. A simple background makes the subject stand out. A light-colored background is best for dark subjects; a dark background for light-colored subjects.

The photographer should move in as close to the subject as possible to eliminate distracting background elements. Or, shoot from a high or low camera angle.

4-H photography projects and activities are fun and educational. As they learn-by-doing to take and use pictures, 4-H members begin to appreciate photography as an art, a science, and a communications tool.

Kodak offers recognition to program members at all levels of participation: six \$1,000 scholarships nationally, expense-paid trips to National 4-H Congress for one member per state, and four medals of honor in each county. Winners are chosen by the Extension Service and awards arranged by National 4-H Council.

4-H'ers can share their best photographs with others each year in the National 4-H Photo Exhibition during National 4-H Congress in Chicago. This non-competitive show features single photos, or picture stories of typical 4-H activities. As many as four photos may be selected from each state. 4-H'ers need not be photography program members to participate.

More information on the 4-H photography program is available at the county Extension office.

**Cotton Prices Declined Last Week**

Prices paid growers declined \$2.50 to \$5.00 per bale the week ending November 4, according to Paul R. Dickson in charge of U.S.D.A.'s Cotton Classing Office in Lubbock.

Growers sold mixed lots of mostly grades 31, 40 and 41; staples 30-32; mikes 3.5 - 4.9 for about 42.50 cents per pound. Mixed lots of grades 33 and 43; staples 30-32; mikes 3.0 - 3.2 brought around 37.25 cents per pound.

Dickson said 171,000 samples were graded at High Plains Cotton Classing offices this week. Season's total stands at 758,000. This compares with only 47,000 graded by November 4 one year ago, according to USDA's Agricultural Marketing Service.

Predominant grades from High Plains Classing Offices this week were grade 31 at 25 percent, grade 41 was 29 percent, and grade 32 accounted for 20 percent.

Staple lengths were mostly staple 31 at 27 percent, staple 32 was 28 percent, and staple 33 accounted for 17 percent.

Micronaire was mostly in the desirable 3.5 to 4.9 range and was 83 percent of the total. Around 14 percent was higher and three percent lower.

About three percent were reduced one grade because of grass.

Gins paid growers 57 to 70 dollars per ton for cottonseed, mostly 63 to 64 dollars.

"THE ELECTRIC SAVINGS MACHINE"

**BUYING, BUILDING, REMODELING?**

It's time to consider the heat pump. Southwestern Public Service Company can suggest the system that will give you the most for your energy dollar, and come up with some accurate information on installation and operating costs.

The heat pump is the electric savings machine. And usually a machine of such sensitive operation calls for a lot of space and some pretty technical installation procedures. NOT SO WITH THE HEAT PUMP! "Split systems" — most adaptable to homes — consist of an outdoor and indoor section, easily tucked away in a closet, garage, basement or attic. The single package unit looks very similar to a central air-conditioning unit that's placed outdoors. Both systems can be installed in most every home or office that has central air ducts. If you're buying, building or remodeling, it's time you said...

"Yes, the heat pump!"

**Tahoka's Farmers Co-op, Co-ops at Wilson And New Home Sponsor Health-Screening Program**

The managers of New Home Co-op Gin, Wilson Co-op Gin, and Farmers Co-op at Tahoka have announced the co-sponsorship of a unique medical program offered to the members and patrons of the Co-ops.

The program was set up by Farmland, Inc. two and one-half years ago on a

non-profit basis in order to give its members and patrons the opportunity to receive a thorough health screening at a nominal charge.

The testing is conducted on a 45-foot medical van equipped with the latest medical equipment available, and staffed with two registered nurses and three paramedics.

Tests are given by appointment only and include hearing and vision,

chest x-ray, EKG, blood pressure, complete whole blood and SMAC 22 as well as urine tests. Also included is a pulmonary lung function machine which can detect excess smoking or chemical dust in the lungs. Test results are sent to the individual as well as to the personal physician.

The van will be parked behind Tahoka city hall at the Mini-Park, in approximately one week. The testing takes approximately 45 minutes and persons will be calling to set up appointments, or Co-op patrons may call the Farmers Co-op in Tahoka.

PARKER PHARMACY

People who live alone and have a history of heart attack or stroke are haunted by the knowledge that another incapacitating attack might make them unable to get help when needed. Many never make it to the hospital on time.

Now, home-ridden patients can lease a device called MicroAlert. Approved by the FCC, MicroAlert is small enough — and light enough — to wear on a neck chain. One squeeze of the device's hidden radio transmitter activates a larger unit that plugs into any household telephone jack. From 1 to 50 pre-recorded phone calls are then made, automatically, to an emergency service, hospital, doctor or relative — whenever the victim designates.

**Sherry  
Etheredge  
Says**

Even the non-cook can bake a turkey with the help of an oven cooking bag. A turkey of any size, or turkey pieces, will bake to moist perfection in the confines of the bag.

There's no basting, no stove grease to clean up, and the bird will come out of the oven a delicate golden color.

When you've chosen the turkey, choose the cooking bag—the right size for the bird.

The roasting pan is also important. It should be at least two inches deep for all the liquid that cooks out of the bird.

To cook an 8 to 10-pound turkey, shake 1 tablespoon flour in a 14"x20" oven cooking bag and place in roaster. Put 1 slice onion and 3 stalks chopped celery—with leaves—in the bag. Rinse thawed turkey in cold water and pat dry.

Season cavity with salt and pepper. Stuff body and neck cavities lightly with your favorite dressing, allowing 1/2 cup stuffing for each pound of bird. Close body cavity with skewers.

Brush entire surface of turkey with melted butter or margarine and season with salt and pepper. Place turkey in bag. Close bag with twist tie and cut six 1/2-inch slits in top.

Allow enough room in the oven so that the expanded bag will not touch the oven sides, walls or racks.

Cook at 350 degrees F. for two to three hours or until thermometer reads 185 degrees F. Allow the turkey to "rest" for 20 to 30 minutes—it will cool some, the juices will "set" (that is, they will not be as free-flowing), and the bird will carve better.

**Card Of Thanks**

Helen Steiner Rice expresses in her poem "The Gift of Friendship," my true feelings: Friendship is a priceless gift That cannot be bought or sold, But its value is far greater Than a mountain made of gold-- For gold is cold and lifeless, It can neither see nor hear, And in the time of trouble It is powerless to cheer-- It has no ears to listen, No heart to understand, It cannot bring you comfort Or reach out a helping hand-- So when you ask God for a gift, Be thankful if He sends Not diamonds, pearls or riches, But the love of real true friends.

I could never sum up the friendship and love that has been expressed during my recent illness while in the hospital and now at home. To each of you who sent cards, brought food, sent flowers, offered prayers, and made telephone calls, I can only say a very humble "Thank you!"

Sincerely,  
Ann Roberts 45-1tp

I would like to thank each and everyone who helped me get to the hospital, Katie Gatzki, Rev. Rita Richards, Tahoka Ambulance, Rev. and Mrs. Cole Note, Jack Clements, and all others who helped in any way. It is wonderful to know you have such great friends and neighbors.

Mrs. Gilbert Wuensche 45-1tp
