County Threatened With Fines At Dump

State Health Department Warns Lynn County Of \$400 A Day Fine For Failure To Comply

By Carolyn Klaus

A fifty year collection of trash and an old way of life is being turned under instead of turning over a new leaf. The old county dump, east of Tahoka on FM Road 400, is being leveled and covered by bulldozers which hire for approximately \$120 an hour. County taxes are being used to finance the job because it's county citizens that have caused the monster.

In 1973 the State Health Department told the county they would have to close the old dump grounds because of new regulations and provide a new sanitary land fill. County and city of Tahoka officials proceeded with plans for the land fill and soon closed the old dump site and opened the new, more sanitary method.

But, despite every effort, citizens failed to change their ways and continued to use the old dump grounds and create an unsightly

eyesore which the State Health Department objected to with an order in January of this year to fill in the old dump and completely dispose of it. Efforts to do so were hampered by people continuing to use the dump in spite of the fact it had officially been closed five years ago.

In a return visit the State Health Department said they had extended the deadline as long as possible and now they have issued an ultimatum that the dump be filled and covered with 2 feet of top soil by November 25 of this year or the county will be charged \$400 a day until the job is completed.

Ray Mason, Tahoka city manager, who is in charge of the effort has asked the cooperation of every citizen in the county that uses the dump ground and the land fill. There are better uses for tax money than to be paying fines to the tune of \$400 a day.

The problem is not over when the old dump site is removed. Since Lynn County has been on the check list of the Health Department they have also looked at the new method of disposing of the county trash. Here too the citizens must cooperate or the county will again get into trouble because the Health Department does not like the way the land fill is being abused.

The only way to eliminate further confrontation with the Health Department is for citizens to dump only in the authorized places at the new landfill and only when someone is on duty there to direct them. Mr. E. J. Hatchett is on duty on scheduled days and hours to give instruction to people as to where to deposit their trash loads. His instructions will have to be followed explicitly in order for the land fill to be successful.

(see Landfill, page 5)

THE OLD COUNTY DUMP before clean-up operations were begun. The trash and debris flowed out halfway into the county roadway.

A. D. Riddle Awarded First Bale Of Cotton Honor By The Tahoka Cooperative Gin

The first bale of cotton for Lynn County goes to Mr. A. D. Riddle and son. The bale weighed 460 pounds and was gathered from approximately 15 acres of cotton.

Tahoka Co-op Gin ginned the bale Monday, September 11, with the bale hitting the floor at 9:45 a.m.

The grade returned as a low middling-spot and the gin gave Mr. Riddle 80c a pound for the half stripped and half hand pulled cotton. In addition to the good price received he also was given a check for \$100 from the Tahoka Chamber of Commerce.

Mr. Riddle says he is 62 years old and this is the first time for him to get the first bale.

His farm is located north of Tahoka and joins the Tahoka Cemetery on the southeast corner.

Many acres of cotton in the county were destroyed

(see First, page 5)

A. D. RIDDLE (center) is receiving checks from Winston Wharton (left), president of the Tahoka Chamber of Commerce, and J. O. Reed, manager of Tahoka Co-op Gin, for ginning the first bale.

New Home Election Results

The special trustee election held on Saturday, September 9th, resulted in Kay James being elected to fill the unexpired term of Charles Smith who had resigned. There were 133 votes cast with James receiving 98 of the total votes.

Chamber Breakfast September 19

The Tahoka Chamber of Commerce breakfast will be Tuesday, September 19, at 7:00 a.m. at the Tahoka Cafeteria. It may be early but all members are urged to attend. The meeting will be short and give you time to get started with your day at a reasonable hour.

Harvest Festival Group To Meet

The Lynn County Harvest Festival Planning Committee will meet Thursday, September 14, at 8:00 p.m. in the Tahoka Museum.

Stenholm Speaks In Favor Of Conservation At Reception

By Carolyn Klaus
Charles Stenholm, Democratic candidate for

Congress from the 17th district, was honored at a reception in the home of Mr.

and Mrs. Roy Lynn Kahlich of Wilson on Saturday, September 9, from 5 to 7 p.m. A good cross section of the county was represented by people from New Home, Tahoka and Wilson.

After meeting numerous guests Mr. Stenholm was given the opportunity to say a few words to the group. He emphasized the improbability of any candidate ever serving as many years as did Omar Burleson.

Stenholm and his wife, Cindy, have been campaigning for 13 months in one of the biggest districts in the Union. The district covers a total of 30,000 square miles and he said he had already put 75,000 miles on his car and pick-up during his campaign tours. He did state one advantage of the district and that was that most of the people are basically the same, mainly that most everyone's livelihood in the district depends on agriculture either directly or indirectly. That, he stated, is why it is so important to elect someone aware of the agricultural as well as the

urban problems in the district.

There are only 13 farmers left in Washington now and if the decreasing number of agricultural producers are to be heard they must rely on the men they send to Congress. "It always seems, somebody in Washington," Stenholm said, "is doing something contrary to the good of agriculture." He would like to get up there and try to change that sequence by keeping them better informed.

Since everyone encourages us to speak up to our Congressmen the question was asked of him how beneficial that really is to him. In answering he said questions have enabled him to pick up a lot of support from the people because of the way he answered the questions. Also he has gotten a host of good ideas from the questions people have asked, he says people needn't be bashful in asking questions because that's how you find out how he feels about subjects important to the people. The

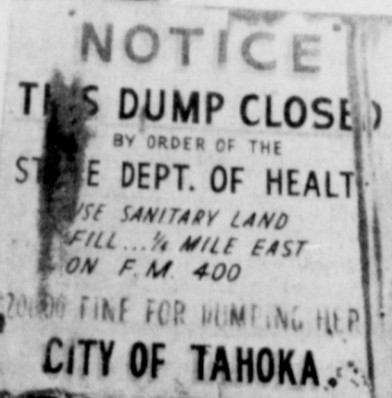

questions tell him what areas he needs to be better informed in.

In fact, he said during his campaigning he had spoken

(see Stenholm, page 5)

that has been disregarded for five years. Because of that abuse Lynn County has had thousands of dollars.

CAROLYN'S CLATTER
by Carolyn Klaus

Most of my friends would admit I am an unpredictable person so my column is to show those same characteristics. So, you think you've about figured out my philosophy and tactics, don't be discouraged my column surprises you.

The government conducts all sorts of ways and important studies such as whether rich or poor people are happiest and communication and sex life of the ordinary citizen. So, I have compiled a list of abilities that would probably make a big difference with the ordinary citizen.

One possibility is a study into the effects of the death of an alarm clock that not only awakens Mr. Citizen but also every nerve in his body with a shock so great the man could run an electric fence for a year.

Another might be to check why the present industry delights in concealing as many pins as possible in each shirt leaving the man. Then I'm sure they sit back and wonder as they imagine how frustrated Mr. Citizen will get by the time he finds them all or completely rips the shirt apart in the search for that seems to fit in exactly with their theory of thinking would be a study dealing with Mr. Citizen that must constantly consider the time element in life is more stressed to stress than Mr. Citizen who never considers the clock either at work or at home.

Wonder how much of the taxpayers money is being used to maintain these two grand-boggling committees. I say two because there would have to be a committee to "team-up" all these absolutely necessary studies and then another to investigate all aspects of each dynamic topic. Surely there would be no better use made of our money than these astounding studies.

I want to take a bit of space for a personal note to all the readers who submit news to the paper. I really appreciate every effort made by you and especially thank those of you who get your news in early, before the noon deadline. Such consideration really makes my job much easier and allows me to spend more time with my family. Thanks for submitting the news and keep up the good work so our paper will show a true picture of the whole county.

Tahoka Bulldogs Blow By Stanton Buffalos 34-7 Win To Open The New Season

By Darryl Stotts
Tahoka blew by the Stanton Buffalos 34-7 in Friday night's contest. Fred Bailey pounded his way through the Stanton defensive line for 207 yards. Dockery seemed to be everywhere as he was in on plays.
Stanton took the opening drive but was forced to punt. Tahoka started moving the ball but Bailey was a loss so they too punted. Clifford Oages the man catching the ball and Tracy White scored the fumble. Ray Harris scored for the Bulldogs on a long nine yard run. The extra point was good and Tahoka led 6-0 with 10:03 remaining in the quarter.

The Bulldog defense again forced the Buffalos to punt. Tahoka looked as if they were going to score again but two penalties totaling twenty yards required them to give up the ball. The two teams traded the ball back and forth before either managed to score again.
Jerry Hatchett brought down a Buffalo pass and ran it back 36 yards for Tahoka's second six points. Rayford Harris' PAT attempt was good.
The Stanton quarterback was caught behind the line of scrimmage by Harris for a nine yard loss causing Stanton to kick the ball. Tahoka again threatened to score but a fumble turned things around and Stanton moved the ball 66 yards to

score their first points. The score at halftime was 13-7 in favor of Tahoka.
Tahoka took the second half kickoff but was forced to punt the ball. Stanton had the same problem and the ball traded hands two more times before Tahoka threatened to score. The Bulldogs moved the ball 71 yards before fumbling on the two yard line.
This didn't seem to bother the Bulldogs as Jerry Hatchett returned a Buffalo punt 30 yards for a TD four plays later. The extra point was a yard shy of the goal line.
The Buffalo quarterback was again caught behind the line of scrimmage. Cal Huffacker threw him down for a 12 yard loss. A few plays later the Bulldogs were called for pass interference giving Stanton a first down. Bailey then grabbed a Buffalo pass and managed a few yards before being tackled. He scored a play later on a 89 yard run up the middle of the Buffalo line. Tracy White scored the extra point and Tahoka led 28-7.
Tahoka again scored before the games end. Bailey scored on a four yard run capping a 34 yard drive. The extra point was not any good. The game ended four plays later.
Jerry Hatchett gained 83 yards behind Bailey's 207. He had 66 yards in interception and punt returns. Leading the defensive stats behind Dockery were Doug Barhem with fourteen tackles. Lee Summers had twelve as did Clifford Oages. Oages also had an interception. Roddy Brooks was next with eleven.
The rest of the statistics are as follows:

6 passes attempted	16
1 passes completed	5
2 passes intercepted by	0
356 total yardage	179
5/38.6 punts/average	6/39.7
9/75 penalties/yards	2/20

MRS. BOBBY DEAN GUNNELS

...nee Mary Lee Hudspeth

Miss Hudspeth & Mr. Gunnels Exchange Vows In Brownfield

Wedding vows were exchanged in a 3:00 p.m. double ring ceremony Friday, September 1st, between Mary Lee Hudspeth and Bobby Dean Gunnels, both of Brownfield. The ceremony was held at Crescent Hill Church of Christ with John McCoy of Meadow officiating.

The bride is the daughter of Mr. and Mrs. George Hudspeth of Brownfield and the groom is the son of Mr. and Mrs. Elmer Gunnels of Tahoka.

Given in marriage by her father, the bride wore a gown of white sheer organza and chantilly lace. The bodice featured a square neckline edged in a wide scalloped pattern of lace. The entire bodice was completely embellished in the lace and sprinkled with tiny white seed pearls. Full camelot sleeves were defined in lace and shirred to wide lace cuffs. The empire waistline was defined in the lace and swept to the back fullness, forming a chapel-length train. The full circular skirt featured an accordion pleated organza panel in the center front. The rest of the skirt was designed in an all-over chantilly lace pattern, which drifted into the full length train.

Her long chapel-length silk illusion veiling was caught to a lace camelot-capulet. The veiling was trimmed in a wide pattern of the matching lace which fell gracefully beyond her train.

She carried a cascade of white feathered carnations, sweetheart roses and babies' breath centered around a gardenia.

For something old the bride chose a pearl necklace, belonging to her mother

which she had worn in her wedding; something borrowed, a pair of pearl earrings belonging to the bride's aunt, Mrs. Leo Wenzel; something new, her dress; and something blue, a satin garter designed by her mother.

Matron of honor was Mrs. Barney Habecker of Brownfield. Bridesmaids were Patti Finley and Mrs. Billy Burks all of Brownfield.

The bridesmaids wore gowns of yellow gingham checks, with an empire waistline and with an off the shoulder effect. The gowns featured a ruffle around the shoulders and skirt. They carried white baskets of blue, white, and yellow silk flowers, with ribbon streamers, designed by the bride. They wore white picture hats with yellow streamers.

Flower girl, Darla Willis, niece of the groom, wore a blue gingham sundress and carried a basket of silk flowers with blue streamers.

Doyle Willis, nephew of the groom, served as ring bearer. He wore a blue shirt, and carried a white satin heart shaped pillow.

Best man was Billy Burks of Brownfield. Groomsman were Danny Orr of Tahoka and Kerry Gandy of Lubbock.

The groom wore a vested baby blue tuxedo and the groomsman wore contrasting tuxedos.

Ushers were John Allen Hudspeth, brother of the bride, and Gary Gunnels, brother of the groom, both from Lubbock.

Music was furnished by the Eddie Chance Singers from LCC. They sang "Evergreen", "You Light up My Life", "If", and "Faithful and True".

The church was decorated

with a heart shaped candle tree, and a unity candle. Baskets were filled with carnations in summer colors. Pews were marked with blue and yellow markers.

The reception was held in the bride's parents home. The bride's table featured a three-tiered white cake with a cascade of blue and yellow roses and served with yellow punch. Serving at the table with Mrs. John Allen Hudspeth, sister-in-law of the bride and Mrs. Johnny Hubble, cousin of the bride, both of Lubbock.

The groom's cake was served by Mrs. Doyle Willis of Tahoka, sister of the groom, and Mrs. Gary Gunnels of Lubbock, sister-in-law of the groom. The table featured a double ring chocolate cake and blue and yellow flowers.

For a wedding trip, the bride chose a cranberry and beige dress with beige accessories.

After a wedding trip to Cloudcroft, the couple will make their home in Brownfield.

The bride is a senior at Brownfield High School and is employed at the Country Press.

The groom is a 1977 graduate of Tahoka High School and is employed at Haliburton Services.

AVISO PUBLICO

UN RESUMEN DE LAS ENMIENDAS PROPUSTAS A LA CONSTITUCION ELECCION GENERAL 7 DE NOVIEMBRE DE 1978

LA ENMIENDA PARA ALIVIO DE IMPUESTOS (H.J.R. 1)

H.J.R. 1 propone una enmienda a la constitucion de Texas permitiendo a la legislatura que exente propiedad personal intangible, requiriendo que la legislatura exente ciertos articulos de la constitucion de Texas que exente todo o parte de la propiedad personal del hogar seguro, de la imposicion de impuestos estatales y locales sobre propiedad.

La enmienda requiere a la legislatura que disponga la imposicion de impuestos sobre tierras agricolas y pastos basados en su capacidad productiva en vez de su valor de mercado y permite a la legislatura que disponga la imposicion de impuestos a bosques de madera basados en su capacidad productiva.

La enmienda permite a los gobiernos locales que extiendan la exencion actual de no menos de \$3,000 del hogar seguro residencial para personas de 65 años o más de edad para incluir ciertas personas incapacitadas.

La enmienda concede una exencion de \$5,000 en el valor de mercado del hogar seguro residencial en los impuestos para escuelas públicas sobre propiedad. Autoriza a la legislatura que conceda una exencion adicional de los impuestos para escuelas públicas sobre propiedad de una cantidad que no exceda \$10,000 del valor de mercado de hogares seguros residenciales de personas de 65 años o más de edad y ciertas personas incapacitadas. Si la persona de 65 años o más de edad es elegible para esta exencion la cantidad total de los impuestos para escuelas públicas sobre el hogar seguro de aquella persona no puede incrementarse.

La enmienda previene que gobiernos locales incrementen los impuestos sobre propiedad a menos que el cuerpo administrativo provea un estudio y lleve a cabo una audiencia pública. La enmienda requiere a la legislatura que disponga por ley que cada propietario reciba aviso de la reevaluación de su propiedad y la cantidad de incremento en sus impuestos.

La enmienda limita las apropiaciones de los ingresos de impuestos estatales en una cantidad que no exceda la tasa de crecimiento económico estatal que se anticipa, con la legislatura autorizada para conceder exenciones de emergencia. La enmienda prohíbe la evaluación de propiedad inmueble a través del estado para los fines de impuestos sobre propiedad. Se requiere que la ejecución de

tan bonos para la reconstrucción o adquisición de facilidades (terrenos, equipos y mejoras) con la intención de desarrollar oportunidades de empleo. Estos bonos se pagarán solamente de los ingresos de la venta o arriendo de estas facilidades. Gobierno local debe determinar que la construcción o adquisición de tales facilidades es necesaria para desarrollar oportunidades de empleo.

La terminología de la enmienda propuesta tal como aparecerá en la boleta es como sigue:

"La enmienda constitucional para disponer que la legislatura puede permitir que las subdivisiones políticas emitan bonos de ingresos, para desarrollar oportunidades de empleo para sus ciudadanos."

NO. 3 (S.J.R. 44)

S.J.R. 44 propone una enmienda a la constitución de Texas que permitiría que la legislatura autorice a ciudades y pueblos la emisión de bonos de impuestos incrementados para financiar el desarrollo de áreas deterioradas. Solamente se pagarán los bonos de los ingresos de los incrementos en impuestos municipales. No pagos se pueden hacer de los ingresos de impuestos municipales, servicios públicos u otros servicios.

La terminología de la enmienda propuesta tal como aparecerá en la boleta es como sigue:

"La enmienda constitucional que da a la legislatura el poder de autorizar las ciudades y pueblos para expedir bonos para financiar el desarrollo de áreas deterioradas y prohibir cualquier ciudad o pueblo de conceder su dinero o prestar su crédito para tales fines."

NO. 4 (S.J.R. 53)

S.J.R. 53 propone una enmienda a la constitución de Texas para permitir que la legislatura exente de la imposición de impuestos, aparatos para energía o de viento.

La terminología de la enmienda propuesta tal como aparecerá en la boleta es como sigue:

"La enmienda constitucional autorizando a la legislatura para exentar de impuestos aparatos de energía solar o de viento."

NO. 5 (H.J.R. 37)

H.J.R. 37 propone una enmienda a la constitución de Texas para conceder competencia exclusiva a jueces de paz en causas civiles cuando la cantidad en controversia no excede \$200, a menos que la legislatura conceda competencia exclusiva a otra corte. La enmienda concede a jueces de paz competencia concurrente con cortes de condado cuando la cantidad en controversia sea entre \$200 y \$500, a menos que la legislatura conceda a la corte de condado competencia exclusiva.

La enmienda también concede a jueces de paz

PUBLIC NOTICE

SUMMARY OF PROPOSED CONSTITUTIONAL AMENDMENTS GENERAL ELECTION NOV. 7, 1978

"The Tax Relief Amendment" (H.J.R. 1)

H.J.R. 1 proposes an amendment to the Texas Constitution allowing the legislature to exempt intangible personal property, requiring the legislature to exempt certain household goods and personal effects, and allowing the legislature to exempt all or part of the personal property homestead from state and local property taxation.

The amendment requires the legislature to provide for the taxation of farm and ranch land on the basis of its productive capacity instead of its market value and allows the legislature to provide for the taxation of timber land on its productive capacity.

The amendment permits local governments to extend the present exemption of not less than \$3,000 of the residence homestead of persons 65 and older to include certain disabled persons.

The amendment grants an exemption from public school property taxes of \$5,000 of the market value of the residence homestead. It authorizes the legislature to grant an additional exemption from public school property taxes of an amount not to exceed \$10,000 of the market value of the residence homesteads of persons 65 years of age or older and certain disabled persons. If a person 65 years of age or older qualifies for this exemption, the total amount of public school taxes imposed on that person's homestead may not be increased.

The amendment prevents local governments from increasing property taxes unless the governing body provides public notice and conducts a public hearing. The amendment requires the legislature to provide by law for each property owner to receive notice of the reevaluation of his property and the amount taxes will be increased.

The amendment limits appropriations from state tax revenue to an amount not to exceed Texas' estimated economic growth rate, with the legislature authorized to make exceptions for emergencies.

The amendment prohibits the statewide appraisal of real property for property tax purposes. Enforcement of uniform standards and procedures for appraisal of property for property tax purposes is required to originate in the taxing

authority where the property tax is imposed.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment providing for tax relief for residential homesteads, elderly persons, disabled persons, and agricultural land; for personal property exemptions; for truth in taxation procedures, including citizen involvement; for a redefinition of the tax base; for limitations on state spending; and for property tax administration."

NUMBER ONE (S.J.R. 50)

S.J.R. 50 proposes an amendment to the Texas Constitution to delete an archaic reference to the "Deaf and Dumb Asylum." The amendment would allow the State of Texas to purchase products and services done by handicapped individuals in nonprofit rehabilitation facilities within complying with bid requirements applicable to other state contracts. The amendment would also eliminate the formality of the approval of certain state contracts by the Governor, the Secretary of State and the Comptroller of Public Accounts.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment deleting the archaic reference to the 'Deaf and Dumb Asylum,' allowing certain products and services of handicapped individuals to be used by agencies and departments of state government, requiring the procurement of other products and services required in the operation of state government to be made under bids awarded to the lowest responsible bidder, making all such procurement processes subject to laws enacted by the legislature, and eliminating the requirement that the Governor, the Secretary of State, and the Comptroller of Public Accounts of Texas be personally involved with such transactions."

NUMBER TWO (S.J.R. 55)

S.J.R. 55 proposes an amendment to the Texas Constitution to permit local governments to issue bonds for the reconstruction or acquisition of facilities (land, equipment and improvements) designed to develop employment opportunities. These

New Home To Play First Home Game On New Football Field
 The school thanks to the members and people of the community who have so diligently to get the field in playing form. The gate will be open to the cars at 6:00 p.m. and parking the cars in the fence will be \$1 per car for high school games and 50c per car for high games—this is in addition to the cost of admission. The income from the parking fees will be used toward the maintenance of the fence and field.
Admission for high school games: Adults, \$2 and students through high school \$1. **Admission for junior high games,** Adults \$2 and students through high school 50c.
County Landfill
 (cont. from page 1)
 Right now they are in the process of working with the Pecos city officials to learn how to improve our site. Now the county is in digging the first of very large pits to fill with trash. The pit will be at least 20 feet deep and nearly the length of a football field.
 A new schedule of hours and days is being worked out for the convenience of the county and will be published in the paper when it is complete.
 Another of the big problems at the land fill site is fires. Trash is being dumped that still has just enough spark to ignite a new flame when stirred or touched to an unburned piece of trash. Many people will burn their trash at night or in the afternoon and then carry the barrel to the dump the next morning and in the middle of the barrel of trash there is enough spark to start a huge fire.
 Right now the county is not in very good standing with the State Health Department and every citizen must do his part to enable the county to continue with their efforts without losing the several thousand dollars already spent in the process of cleaning and fixing up the county dump.
 If citizens refuse to heed these warnings other methods of enforcement will have to be initiated, says Mr. Mason. But, he says he is confident the citizens will realize the problem and work together to correct it.

Wilson Mustangs Play Close Game Against O'Donnell Class A Eagles In A County Battle
 The Wilson Mustangs lost a hard-fought battle in their opening ballgame last Friday night with the score ending 6-0 in favor of the O'Donnell Eagles. The Mustangs moved the ball well but just could not get across the goal line.
 Senior tailback Calvin Wilke was leading rusher with 97 yards on the ground followed by senior fullback, Dan Cox, who gained 61 yards and sophomore halfback, Randy Hall, gaining 32 yards. Junior halfback Tony Garcia gained 23 yards and quarterback Mike Nettles rushed for 20 yards. The Mustang offensive team totaled 233 yards rushing to O'Donnell's 186 yards—57 of which came with their only scoring run by fullback Tony Acosta in the third quarter of the ballgame. The Mustangs led in first downs 17 to O'Donnell's 8. Outstanding offensive linemen were Randy Moczygamba at center, David Weaver and Gilbert Acuna at guards, Quintin Talkmitt and Robert Ortiz at tackles, and Lucio Trevino and Mitch Bartley as ends.
 The Mustangs' defensive unit did an outstanding job throughout the ballgame. Quintin Talkmitt led the team with 16 tackles followed by Lucio Trevino with 15. Mike Nettles and Randy Moczygamba each had 12 tackles.
 Even though the Mustangs did not come out a winner score-wise, they showed their large crowd of Wilson fans that they are full of pride and determination by playing a hard-hitting and exciting ballgame against a tough Class A opponent.
 The Mustangs will meet Class A Ropes Eagles on their home field Friday at 8:00 p.m. It too should be an interesting ballgame!

BREAKING THE SUGAR HABIT

All research signs seem to indicate that sugar is an addictive and potentially destructive drug. And yet, the average person consumes about 125 pounds of sugar every year. According to accepted standards of diagnosing, our entire society is actually pre-diabetic.

You should know about the potential dangers of too much sugar in your family's diet. Discuss it with your family physician and your pharmacist. They can offer you helpful suggestions for breaking the sugar habit.

Final Plans Made Concerning County Sew It With Cotton

The O'Donnell Young Homemakers will have a salad bar in the school cafeteria immediately following the Sew It With Cotton Style Show to held September 23 at 10:00 a.m.. The price for the salad bar will be \$3.00 per person and all the proceeds will go toward buying eye glasses for needy children and other important projects.

Rural Electric Loan Granted

Congressman Omar Burselon announces the approval of a \$941,000 rural electrification loan to South Plains Electric Cooperative Incorporated with headquarters at Lubbock, serving Crosby, Floyd, Garza, Lynn, Lubbock, Hale, Hockley, and Lamb counties. The purpose of the loan is to finance service for 1100 additional consumers, 107 miles of distribution lines, and system improvements.

Admission to the show is free and door prizes, donated by O'Donnell chauts, will be given. All businesses in the county donated money for contestants prizes. F.H.A. officers from community in the county serve as hostesses at county shows. All area artists are invited to bring crafts pertaining to cotton such as quilts, embroidery, paintings, quilts, and sculptures. This year the crafts were a success and enjoyed immensely, so think all that cotton-line crafts come join the fun. The final date to entries is September 18. "Ruling is easy, governing is difficult."

Control Rhizome Johnsongrass In The Fall

The hot, dry days of late summer and early fall are an ideal time to control rhizome johnsongrass (root grass) in recently harvested or fallow fields.

Repeated tillage is an effective way to clean up fields heavily infested with rhizome johnsongrass. Chiseling followed by disking pulls the rhizomes to the surface and chops them into short segments which dry quickly in the sun. If the soil is moist enough to plow, rhizome johnsongrass can almost be eliminated with repeated tillage during dry, hot weather.

Every time johnsongrass shoots reach a height of 6 to 8 inches, plow the field again, emphasizes Young. During a period of extended rainfall, the degree of control will be lessened because rhizome segments tend to root down in the moist soil and generate new shoots. Therefore, tillage is most effective in dry periods.

Even though tillage is effective for controlling johnsongrass arising from underground rhizomes, it has little effect on seeds. Effective herbicides are available for controlling seedling johnsongrass in cotton, soybeans and corn in the spring. It is best to rotate heavily infested fields to these crops so johnsongrass competition can be brought under control with a combination of herbicides and tillage.

Collect Soil Samples This Fall

Why wait until bad weather sets in this fall or the rush of spring work next year to collect soil samples? Numerous studies have shown that nutrient levels and soil pH do not change rapidly so that samples can be collected well ahead of planting. Most important is to have a long range plan for sampling each field at two to four-year intervals. This can be accomplished by sampling 1/4 to 1/2 of the fields each year or sampling all at two to four-year intervals.

A farm map should have permanent field numbers

and these numbers used each time samples are collected. Keeping results and observing changes over a period of time is essential for obtaining the greatest amount of useful information from soil tests, says Young.

To collect a representative sample, give careful attention to instructions on the back of soil sampling information sheets available at the county Extension office. Obtain a composite sample to represent the plowlayer in cultivated fields and the top 3 to 4 inches for perennial sod crops. This requires 10 to 20 slices or cores at random over the field.

Averaging the variation caused by past fertilization, liming, cropping and natural conditions requires a special effort to collect good samples. And a good sample is essential for satisfaction to be expected from soil tests.

So get the jump on next year's cropping program by collecting soil samples now, suggests Young.

Earl Butz To Speak In Lubbock

Mr. H. L. Garretson, President of West Texas Agricultural Chemicals Institute, has announced that tickets are on sale to hear Dr. Earl Butz, Dean Emeritus of Agriculture at Purdue University and former Secretary of Agriculture USDA 1971-1976.

Dr. Butz will address the 26th annual Chemical Conference on September 27 at the 7:00 p.m. banquet which will be held at the Lubbock Memorial Civic Center.

Secretary Butz will address the topic "Carter, Congress, and Commodities". Tickets cost \$12.50 per person and are to be sold on a first come basis at the Lubbock Chamber of Commerce only. The Chamber is located at 14th street and Avenue K. You may call 763-4666 for more information. Ticket sales close Tuesday, September 26.

Corrected Date For Emergency Loans To Lynn County Farmers

Emergency loans for farmers, ranchers, or aquaculture operators are available through county offices of the Farmers Home Administration (FmHA). Billy H. Stewart, FmHA county supervisor, said.

Mr. Stewart asked that those who need farm credit as a result of drought from January 1, 1978 through September 1, 1978, make their needs known at the Farmers Home Administration office in Tahoka.

Applications for assistance in the disaster stricken counties will be accepted by Farmers Home until June 4, 1979, for physical losses and September 6, 1979, for production losses.

FmHA loans covering actual physical and production losses may be used to replace installations, equipment or buildings, (including homes) lost through this disaster. Funds may be used to buy feed, seed, fertilizer, livestock, or to meet interest and depreciation payments on current real estate and chattel debts. Other loans, beyond actual losses, can be made for annual operating expenses or to make major adjustments in a farming (or ranching or aquaculture) operation. "Funds can be used for essential operating and living costs," Mr. Stewart said.

Loans covering actual losses are made at an interest rate of three and five percent and are scheduled for repayment as rapidly as feasible consistent with the applicant's reasonable ability to pay. Loans beyond actual losses have various maturities, depending upon

the purpose of the loan.

The interest rate for short-term loans for farm operating purposes is 8 1/2 percent. Long-term loans are being made at an interest rate of 8 1/2 percent.

To be eligible for an emergency loan, an applicant must have suffered losses from the disaster and be unable to get credit from sources.

Emergency loans can be used to help the farmer restore damaged farm operations and additional loans based upon the emergency designation can be used to reorganize the farm for greater efficiency and better production.

Area Teachers To Meet In Lubbock

Cecil Russell, Amarillo teacher and state president elect of the Texas State Teachers Association, will speak at a ISTA District XVII workshop for area teachers Wednesday evening, September 20, at Coronado High School in Lubbock.

Registration will begin at 5 p.m. followed by a dinner at 5:30 and a general session from 6 to 7 p.m. during which Mrs. Russell will speak. Workshop sessions are scheduled from 7:15 to 8:30 p.m. on such topics as political action, legislation, instructional services, teacher rights, human relations, and the 1978 membership campaign.

Teachers are expected from many of the 25 local associations in District XVII, which includes the counties of Bailey, Cochran, Cottle, Crosby, Dickens, Floyd, Garza, Hale, Hockley, Kent, King, Lamb, Lubbock, Lynn, Motley, Terry, and Yoakum.

District and local leaders at the workshop will provide input for the association's 1978-79 programs and will receive information and materials.

Grassland Hobby Club Holds Meeting

The Grassland Hobby Club met at 2:30 p.m. Tuesday, September 5, at the Grassland Community Center. It was their regular meeting day which is the first Tuesday of each month.

Mrs. Mittie Walker and Mrs. Stewart acted as hostesses with 23 present. There were three visitors, Mrs. Huffaker from Tahoka, Mrs. Francis and Mrs. Morrice Bush from Post. Mrs. Guy Witt from Tahoka became a new member.

Mrs. Sherry Etheridge, Lynn County Extension Agent brought the program on Organic Gardening with slides and a very informative talk.

Each lady brought some of her crafts and handiwork for display.

Binie White from Lyntegar Cooperative was present to take pictures of the crafts and handiwork for the Cooperative Magazine. Lou Jean Lane, representing the Cooperative Magazine, interviewed the Grassland Hobby Club.

If you have not purchased a ticket for the spaghetti supper you can do so at the door. The Wilson band sponsors the supper annually. It will be held in the school cafeteria Friday, September 15, preceding the Wilson-Ropes ballgame. Serving will begin at 5:00 p.m. and end at 7:00 p.m. Prices are: Pre-school \$1.00, K-5 \$2 and adults \$2.75.

The Wilson Mustangs will meet the Ropes Eagles at home Friday with game time at 8:00 p.m. Pep rally will begin shortly after 3:00 p.m.

The Wilson junior high football team opens season play at Ropes at 5:30 p.m. Thursday, September 14. The sixth graders will begin playing at 5:00 p.m.

The junior class will sponsor a bake sale and trash haul Saturday, Sep-

tember 16. The bake sale will begin at 9:00 a.m. and be located at the Texas Grocery store. While the girls are busy with the bake sale, the junior boys will be hauling trash. The price is \$2 a barrel or 4 for \$6. To have your trash hauled please contact Laurie Ross or Cindy Slone.

A special thanks goes to Mrs. Bonnie (Swertner) Jenkins who recently painted a Mustang insignia on the football victory bell. Her excellent work can be viewed each Friday night as the bell is stationed along the sidelines at each ballgame.

The Wilson Athletic Booster Club will sponsor a donation drawing for homecoming with prizes being a portable stereo or a half beef, courtesy of Texas Grocery. The drawing will be at halftime of the homecoming ballgame October 6, against Borden County. You do not have to be present to win. Tickets will be \$1 donation or 6 for \$5. Tickets will be available this week. The club will meet Tuesday, September 19 at 8:00 p.m.

The junior class will sponsor a donation drawing for the "game" ball at the homecoming ballgame. Contact any junior class member for further information.

A blue and white baseball type cap with the words "Wilson Mustangs" on the front are on sale for \$4 each. Contact any football player or coach for purchase of one.

Jennifer Ross was honored with a party celebrating her 6th birthday Wednesday, September 6. After sandwiches and cake in her home the party was taken to the Lubbock Women's Club where the children entered the land of Mother Goose viewing several live storybook characters, gingerbread houses, and hand puppets who appear daily on "Sunshine Sally". Those attending were Dusty Hart, Mandi Mouser, Michele and Angela Young, Rebecca Zacharias, Cody and Kenda Chisum, John Stone, Gale Schneider, Todd Houchin, Lisa Bednarz, and Jeremy Ross.

An error was made on the junior high football schedule that was printed recently. On September 22, the Amherst game is away, not at home. Therefore those scheduled to work concession for that game will be re-scheduled to work at a later date and will be notified of the change.

Working concession for the Ropes ballgame are Mr. and Mrs. Gary Houchin, Mr. and Mrs. Gilbert Steinhauser, Mr. and Mrs. Roland Stegemoller, Mr. and Mrs. Tom Autry, Mr. and Mrs. C. W. Slone, and Mr. and Mrs. Bob Ray.

The men responsible for working the chain at the

ropes game are: Billy Weaver, Donald Klaus, and Ron Rodgers.

Cotton Incorporated To Meet

Cotton producers in Lynn County have an opportunity Wednesday, September 20 to hear, first hand, what their own national cotton research and promotional organization, Cotton Incorporated, is doing to help the cotton industry, reports County Extension Agent, Stanley M. Young.

Dukes Woeters, president of Cotton Incorporated, and key members of the CI staff will present the organization's annual report at 10:00 a.m. in the Banquet Hall of the Lubbock Memorial Civic Center, Young said.

"Cotton Incorporated is the producers' company, financed solely by the producers," the county agent said.

The meeting in Lubbock will report on what CI is doing in such areas as research on byssinosis, new product development, advertising and promotion to increase cotton consumption at home and abroad. "A major part of the program will be the chance for producers to ask questions and get answers on how Cotton Incorporated uses the funds producers provide," Young said.

Producers are encouraged to take their wives to the meeting, the agent said.

The meeting will conclude with a complimentary luncheon. Reservation cards for the luncheon have been mailed to producers.

Experimental use of the laser beam by high school and college students, requires precaution to avoid eye or skin damage. Use only lasers with less than 1 milliwatt of power. Paint demonstration equipment a flat, dull black to prevent blinding reflections from shiny or colored surfaces. Avoid wearing shiny jewelry during experiments. Keep laser targets light-absorbant and below eye level. Avoid using fluid-filled glass jars as display tanks, use only plexiglass or thick clear plastic. Never look into a laser beam or aim at eyes, even when wearing special goggles. Sunglasses are not protective. Close the beam shutter when light is not in use, even for a moment. Two seconds of exposure to the laser can cause massive damage to body tissues.

forbid that our women should ever serve on the front lines during combat in war time'...

And yet even the proponents of the Equal Rights Amendment have had to admit that should the Equal Rights Amendment become a part of our Constitution then our women would have to serve exactly on the same statute in the military service as our men do.

Last week I had the privilege of talking with Mr. Bob Kruger who I expect to support for our U. S. Senate (and I hope you do also) He told me he did support the Equal Rights Amendment and that he voted to extend the time for ratification. I expressed my disappointment to him in his stand on this important issue and then I told him how this would effect our women militarily and he shook his head in disbelief. I pleaded with him to study this issue in detail. I hope you will let him know how you stand, also.

When God created Man and Woman, He also gave each his role to follow. Neither is inferior or superior to the other, but each has a unique and different function in life. We need to study it and follow it, knowing we can never improve on God's plan for us.

It is my observation that it is the women who are in public offices and working outside the home who are speaking the loudest concerning "Women's Liberation" and making their "Demands"...Let those of us (both men and women) who are "Keeping the Home Fires Burning" stand up and be counted while there is still time.

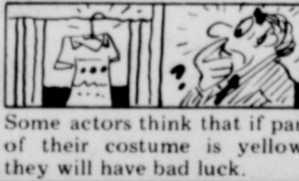

Thank you for letting me express my views. Very Truly Yours, Claudia Draper Palmer, R.N.

Brownfield Harvest Festival Set

The 1978 Harvest Festival in Brownfield is planned for Saturday, October 14, according to Glenda Cameron and Fred Cawthon, General Co-Chairman.

As in the past, all surrounding communities are invited to join in the festivities beginning at 10:00 a.m. with a parade beginning in downtown Brownfield and ending at Coleman Park. At 12 noon, an afternoon of continuous entertainment gets underway at the American Legion Memorial Amphitheatre in Coleman Park. At approximately 7:30 p.m., the Harvest Festival Queen will be crowned and the Grand Prizes, a Caribbean trip for 2 and a 25" console color television set, a microwave oven and a deer rifle will be given away.

Sam Spikes, Brownfield Chamber of Commerce President, is issuing an invitation to all citizens in the South Plains to come to Brownfield for this festival. He promises that Brownfield will make you feel welcome.

Dear Mrs. Klaus: Today I received my copy of the Lynn County News and read with much interest your article concerning the Equal Rights Amendment sometimes referred to as Women's Liberation Movement. Once before now I wrote a letter to your paper and it was published in your column "Letters to the Editor". Once again my conscience compels me to express my feelings on this subject.

Caswell & McMurry Wedding Held In O'Donnell Church

Linda Jo Caswell and Michael Eugene McMurry were united in matrimony on September 9 at 5:00 p.m. in the First United Methodist Church in O'Donnell.

Parents of the bride are Noel Caswell of O'Donnell and the late Willie Mae Caswell. Parents of the groom are Tom McMurry of Dumas and Billie Etheridge of Houston.

Dr. Bervin Caswell, uncle of the bride, of Roswell, New Mexico, and minister of the Methodist church there, performed the traditional ceremony.

Maid of honor was Kathy Anderson of San Angelo, sister of the bride. Bridesmaids were Shirley Parish, Lubbock and Cynthia Goodgame, Canyon. The attendants wore dresses in the chosen colors of burgundy and pink.

Robbie West of Canyon served as flower girl. Michael Isbell of Tahoka, cousin of the bride was ring bearer.

Best man was Tom McMurry of Dumas, father of the groom. Groomsmen were Jeff Langford of Wichita Falls and Mark Butcher of Canyon.

Ushers were Jimmy Caswell of Levelland, brother of the bride and Bobby Caswell of Brownfield, brother of the groom.

A reception was given by the bride's family.

The bride attended school at O'Donnell High School and West Texas State University and was employed by Health Sciences Center as a registered nurse but resigned after her marriage.

The groom attended school at Dumas High School and West Texas State University and is presently employed at West Jefferson General Hospital as a nurse.

After their marriage the couple will make their home in New Orleans, Louisiana.

Public Hearing Notice

The Texas Department of Water Resources will conduct a public hearing beginning at 1:30 p.m., October 4, 1978, City Commission Chambers, 4th Floor, City Hall San Angelo, Texas.

1:30 p.m., October 5, 1978, Room 618, Stephen F. Austin Building, 1700 North Congress Avenue, Austin, Texas.

In order to receive testimony concerning Volume II, Plan Summary Report, of the Water Quality Management Plan for the Colorado Basin.

This document is the second of two volumes which comprise the Water Quality Management Plan for the Colorado Basin. Volume II, Plan Summary Report, presents the recommended plans for water quality management and the legal, financial, and institutional requirements of each plan.

Also included in Volume II are descriptions of feasible alternatives, an environmental assessment, and a summary of the public participation activities conducted during the development of the plan. The Water Quality Management Plan for the Colorado Basin has been developed to satisfy the requirements of Section 26.036, Texas Water Code, as amended, and Section 208 of the Federal Regulations Parts 130 and 131 and the State of Texas Continuing Planning Process. The public hearing shall be conducted in compliance with Section 26.037, Texas Water Code, as amended.

The study area for this plan includes the entire Colorado River Basin in Texas, and Tres Palacios Creek and Bay in the Colorado-Lavaca Coastal Basin. Copies of the Volume II, Plan Summary Report, are available for public inspection. Review of Volume II, Plan Summary Report, at one of the following locations is encouraged due to the limited number of copies available for distribution: Texas Department of Water Resources Office, 1700 North Congress Avenue, Austin, Texas; Colorado River Municipal Water District Office, 400 East 24th, Big Spring, Texas; Concho Valley Council of Governments Office, 7 West Twohig Building, San Angelo, Texas; and Lower Colorado River Authority Office, Tom Miller Dam, Austin, Texas.

The public is encouraged to attend the hearing and to present evidence or opinions concerning Volume II, Plan Summary Report. The Department would appreciate receiving a copy of all written testimony at least five (5) days before the hearing. Requests for individual copies of the Volume II, Plan Summary Report, questions about the report or the public hearing, and copies of written testimony should be addressed to Randall E. Baylor, Texas Department of Water Resources, P. O. Box 13087, Capitol Station, Austin, Texas 78711, or call (512) 475-3454. When requesting a copy or sending a query by mail, please include your complete return address and telephone number.

The date selected for this hearing is intended to comply with deadlines set by statute and regulation. Any publication or receipt of this notice less than thirty calendar days prior to the hearing date is due to the necessity of scheduling the hearing on the date selected. This public hearing may be continued in order to fully

develop the evidence. Issued this the 23rd day of August, 1978.

Chamberettes Hold Noon Meeting

The Tahoka Chamberettes had a noon salad luncheon Tuesday, September 12, at the Tahoka Museum with President Nadine Dunlap presiding.

The Chamberettes were organized in March of 1977 and since then have been active in raising funds to provide decorations for the town and to plan the Harvest Festival for Lynn County.

The main purpose of the Chamberettes is to promote the town in any area and in any way they can.

Speakers for the meeting were Ruth Morgan, president of the Levelland Marigold Club, and Marjean Wilhite, treasurer of the same club. They gave a synopsis of how the Marigold Club, a non-profit club that specializes in providing Christmas gifts for various places, raised money to buy Christmas decorations for Levelland. They raised \$8,000 to buy decorations for the downtown section of Levelland.

The Tahoka Chamberettes are basely trying to do the same thing for Tahoka.

4-H Foods And Nutrition Leader Taining

The leader training for 4-H projects- foods and nutrition will be held September 18, 10:00 a.m. at the Extension office. The purpose of the meeting will be to set the date for the county 4-H food show and to discuss the '79 theme of the show. If you have any questions, call the Extension office at 998-4650. Remember Extension programs are open to all persons regardless of race, color, creed, sex, age, religion or national origin.

Methods And Ideas Of E. L. Short Lauded By National Women's Group

Two weeks ago the issue of women's liberation and the Equal Rights Amendment was discussed in the editors column of the Lynn County News. Later an article in the August Newsletter of the National Organization for Women (NOW) spoke about the same concerns and some viewpoints of the Senatorial candidates from this district. In an effort to keep the public informed about the candidates we reprint the following article from that publication.

Either by telephone or in person, we interviewed both candidates for State Senate, E. L. Short and Joe Robbins. Although neither of the candidates overtly supports the Equal Rights Amendment they eagerly assured us they were each committed to full equality for men and women under the law.

Although he does not support women's issues as such, and even considers some of them to be extreme, E. L. Short assumes that we are reasonable people who are capable of understanding the complexity of the legislative process.

When Short talks about complexity he does not mean the hard choices brought about by pressure from special interest groups. Rather, he discusses the hard choices brought about by money available and services needed, emphasizing over and over again, if indirectly, his responsibility to be knowledgeable about the issues at hand.

He seems to be prepared to weigh the facts on each issue and vote from conscience as an informed professional, whether it be for or against our concerns, or those of any other special interest group. He feels that West Texas, including both majority and minority views, is his constituency and that his responsibility is to know more about legislation pertinent to this area than we do, and he assumes he will be called upon to make tough, studied decisions based on need and compassion, even in spite of the loudest noise made in

Austin. Joe Robbins, on the other hand, believes that pressure is the key to a representative's vote. He indicates that he is committed to majority rule and promises he will vote for what the majority wants. He does not consider voter education to be an essential part of his responsibility as a politician.

Short admits that he is old-fashioned, and we most certainly concur, since he seems to believe that politics is still a dignified profession based on the values of intelligence, sense of service, feeling, and courage. Of course, we remember when such values were considered basic to this and every other public area of expertise, but we thought perhaps this was one of the few instances where Custom had been bested in West Texas.

With Robbins we must persuade him that we represent the majority opinion, through means of our own choosing, if we are to get his support. With Short we must respond as intelligent adults, understanding that he will decide his vote on more than our appeal. Pressure is the key to Robbins' vote; reason and fact the key to Short's.

Criminal Justice Grants

Governor Dolph Briscoe has approved two criminal justice grants affecting the South Plains area.

They are: --\$46,457 to the South Plains Association of Governments for the regional law enforcement training program, and --\$39,259 to the South Plains Association of Governments for criminal justice planning.

The local grants were among 99 approved by Governor Briscoe statewide from Law Enforcement Assistance Administration (LEAA) funds under the Crime Control Act of 1976.

VOLUME 5 NUMBER 8

Casting A Good Reflection On the Communities We Serve

THURSDAY, SEPTEMBER 14, 1978

GAME The Caddo Mills Foxes battled Fort Worth Christian Friday night in the season opener. The Foxes were defeated 26-0.

Former CM Resident Nominated For Award

The Board of Advisors for the Outstanding Young Women of America Awards Program has announced that Elmyra Faye Farmer, daughter of Mr. and Mrs. Paul Farmer, Caddo Mills, has been selected for inclusion in the 1978 edition of **OUTSTANDING YOUNG WOMEN OF AMERICA.**

The Outstanding Young Women of America Program is designed to honor and encourage exceptional young women between the ages of 21 and 36 who have distinguished themselves in their homes, in their professions and in their communities. Accomplishments such as these are the result of dedication, service and leadership — qualities which deserve to be recognized and remembered.

Miss Farmer received her education in the Caddo Mills Public School, graduating in 1968 as class salutatorian and chosen as most likely to succeed.

She was representative to Bluebonnet Girls State in 1967; Hunt County Bureau Queen 1968-69; received State Homemaker Degree of Achievement in 1968; was an Area VI FHA officer in 1967-68 and a delegate to the National Meeting in Los Angeles, California in 1967. She also received the 1968 Betty Crocker

Homemaker of Tomorrow award.

Miss Farmer graduated from East Texas State University in August 1971 in the top ten percent of her class and was listed on the Dean's list. She was a member of Eta Epsilon and Alpha Lambda Delta.

She has taught Homemaking at Waxahachie High School five years and two years at Waxahachie Junior High.

She worked six years in North Texas Assemblies of God Youth Camps as secretary and registrar.

She was a member of the University Assembly of God Church in Waxahachie for seven years, during which time she was a member of the church choir, Sunday School teacher and assistant Sunday School Superintendent.

She was nominated for Outstanding Young Women of America in 1977 also.

Presently Miss Farmer is teaching Homemaking and 7th Grade History at First Assembly Academy, New Orleans, Louisiana.

Also at First Assembly she is a member of "God's Sunshine," a singing group for singles.

She will be attending the University of New Orleans to complete a masters degree in Education.

Foxes Take 26-0 Defeat

Fort Worth Christian built up a lead in the first half and went on to cruise by Caddo Mills Friday night.

Fort Worth Christian rallied from a scoreless first period to score 26 points in its opening win over the Foxes.

Caddo Mills Coach Randy Hittsman, in his first year at the helm saw his home debut ended by the classy Ft. Worth Christian.

Ft. Worth Christian gained almost 350 yards in total offense but was plagued by numerous penalties.

FWC ended the contest with 162 yards passing but a surprising minus 1 yards rushing, a credit in that respect to the stout Fox defense. Christian completed 11 of 26 pass attempts during the night, making rushing almost impossible.

Caddo Mills ground out 7 first downs against the talented FWC

defense. The Foxes gained 67 yards on the ground and picked up 32 more through the air as quarterback Rick Judge completed two of 12 passes.

Donnie Gwin, a junior fullback, led Caddo Mills rushers. Gwin gained much of the Foxes ground total with repeated plunges into the line.

Despite a poor showing in the opening half, the Fox defense got down to business in the latter quarters.

Led by Rick Kohn and Jesse O'Dell, the Caddo Mills defense held Ft. Worth Christian to only seven points in the final two quarters.

Caddo Mills has three more weeks to work on its weaknesses before the district season begins at home against Princeton Sept. 29.

The Foxes journey to Bells next Friday before taking a week off for an open date.

CF Campaign Begins Monday

Mrs. Nell Watson, local Breath of Life Campaign Chairman for Caddo Mills, has announced that

campaigners will be out in full force beginning Monday seeking contributions for the Northeast

Texas Chapter of the Cystic Fibrosis Foundation.

According to Mrs. Watson, workers this year are even going to concentrate on the outlying rural areas.

Everyone is urged to be most generous in contributions for this worthy cause.

The Breath of Life Campaign, held nationwide each fall, supports research to find a cure for Cystic Fibrosis, the leading genetic killer of American children. Money from the annual campaign also supports specialized medical care for children with all lung-damaging diseases in 120 CF centers in the United States. Children in Texas who are affected by cystic fibrosis, severe asthma, chronic bronchitis, bronchiectasis and recurrent pneumonia are treated at CF centers in Dallas, Houston and San Antonio.

Josephine Church Calls New Pastor

The First Baptist Church in Josephine has announced the call of a new pastor this week.

Rev. Douglas P. Dillingham

Rev. Dillingham

and his family will be moving into the church parsonage later this week.

The Port Arthur native is presently making his home in Caddo Mills, preaching in a supply capacity in the area. He has been employed as an advertising sales representative for the Lakeside News.

He was pastor of the Kingsbury Baptist Church, Kingsbury, Texas, and served in the ministry recently in Ruidoso, New Mexico. He has been in the ministry for 6 years.

The Viet Nam veteran served in the United States Army for 7 years as a Medic.

Rev. Dillingham and his wife, Veronica, are the parents of four boys; Doug, 19; Tommy, 17; Truett, 14; and Sean, 8.

Receives Degree

College Station — John Echols, was one of 138 students awarded Doctor of Veterinary Medicine degrees August 25 from Texas A&M University's College of Veterinary Medicine.

Texas A&M's College of Veterinary Medicine produces 10 percent of the D.V.M. graduates in the United States and is the largest such college in the nation.

The professional program basically involves three years of concentrated year-round work after completion of a basic four-year undergraduate curriculum. Echols received the honor of cum laude.

CHEERLEADERS INTRODUCED— The Caddo Mills Cheerleaders introduced the visiting cheerleaders from Ft. Worth Christian to the crowd Friday night.

Giving Up Breakfast

Ben Mikus

Last Sunday morning, I was sitting in the living room reading the newspaper when my wife walked over to me and asked, "What do you want for breakfast, dear?"

"Not a thing," I told her. "I've decided that I'm going to quit eating breakfast from now on."
"Look, I know that you've been threatening to go on another of your diets for some time now," she replied, "but you're going about it all wrong. Why, breakfast is your most important meal of the day. You don't want to start the day off on an empty stomach, do you?"

"My skipping breakfast has nothing to do with going on a diet. And as for breakfast being your most important meal of the day, why that's a bunch of rubbish. Haven't you been reading the latest medical reports?"

"What on earth are you talking about?" she asked.
"I'm talking about the endless consumer reports on the results of tests run on breakfast foods. They're being run by independent research organizations, Government agencies and university medical centers all over the country. The tests indicate that eating breakfast is about as dangerous as playing with a loaded gun."

"That's ridiculous," she said. "Now come on in the kitchen and I'll fix you some bacon and eggs."
"Not on your life!" I told her. "Bacon and eggs are the worst thing a person can eat for breakfast. For your information, research tests indicate that bacon contains unsafe amounts of nitrates and eggs are just loaded with cholesterol."

"People have been eating bacon and eggs for breakfast for years," she said. "If bacon and eggs are such a health menace, why haven't those people shown any signs of suffering?"

"Simple," I replied. "People didn't know that bacon and eggs presented a health hazard until recently. They are simply ignorant of the true scientific facts. If they'd have known what they were

doing to their bodies by eating that junk, they'd have probably been dropping like flies."

"I know better than to argue with you when you get one of these silly ideas in your head," she said. "If you won't eat bacon and eggs, that's fine with me. Let me fix you some cereal."

"No thanks," I said. "That sweetened cereal is mostly just sugar and sugar's just loaded with carbohydrates."

"Then how about some unsweetened cereal?"
"You know that unsweetened cereal tastes bland," I told her. "And I'm not about to put any sugar on it."

"You can use some artificial sweetener on it," she suggested.

"Are you kidding? Don't you know what's been happening to those white rats in Canada?"

"What about some pancakes?"

"Too starchy and starches mean carbohydrates."

"Then how about some buttered toast and a glass of milk?"

"Butter's nothing but carbohydrates and milk's not as wholesome as Pat Boone would like for you to think," I told her.

"Do you mean to tell me that all you're going to have this morning is a cup of coffee?"

"I'm going to quit drinking coffee, too. Too much caffeine, you know."

"You're being absolutely unreasonable," she said.

"On the contrary," I replied. "My body is my temple and I intend to treat it as such. I don't intend to abuse my body by putting things in it that could do it harm."

"If that's the case," she said, "How do you explain those six cocktails you drank and that pack of cigarettes you smoked at the party last night?"

"Look, a fella can't play it safe ALL the time. He has to take a few chances."

PUBLIC NOTICE SUMMARY OF PROPOSED CONSTITUTIONAL AMENDMENTS GENERAL ELECTION NOV. 7, 1978

"The Tax Relief Amendment" (H.J.R. 1)

H.J.R. 1 proposes an amendment to the Texas Constitution allowing the legislature to exempt intangible personal property, requiring the legislature to exempt certain household goods and personal effects, and allowing the legislature to exempt all or part of the personal property homestead from state and local property taxation.

The amendment requires the legislature to provide for the taxation of farm and ranch land on the basis of its productive capacity instead of its market value and allows the legislature to provide for the taxation of timber land on its productive capacity.

The amendment permits local governments to extend the present exemption of not less than \$3,000 of the residence homestead of persons 65 and older to include certain disabled persons.

The amendment grants an exemption from public school property taxes of \$5,000 of the market value of the residence homestead. It authorizes the legislature to grant an additional exemption from public school property taxes of an amount not to exceed \$10,000 of the market value of the residence homesteads of persons 65 years of age or older and certain disabled persons.

The amendment permits local governments to extend the present exemption of not less than \$3,000 of the residence homestead of persons 65 and older to include certain disabled persons.

The amendment prevents local governments from increasing property taxes unless the governing body provides public notice and conducts a public hearing. The amendment requires the legislature to provide by law for each property owner to receive notice of his property and the amount taxes will be increased.

The amendment limits appropriations from state tax revenue to an amount not to exceed Texas' estimated economic growth rate, with the legislature authorized to make exceptions for emergencies.

The amendment prohibits the statewide appraisal of real property for property tax purposes. Enforcement of uniform standards and procedures for appraisal of property for property tax purposes is required to originate in the taxing

bonds would be payable solely from the revenue from the sale or lease of these facilities. The building or acquisition of such facilities must be determined by the local government to be necessary to develop employment opportunities.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment to provide that the legislature may permit political subdivisions to issue revenue bonds to develop employment opportunities for its citizens."

NUMBER THREE (S.J.R. 44)

S.J.R. 44 proposes an amendment to the Texas Constitution which would allow the legislature to authorize cities and towns to issue tax increment bonds to finance the redevelopment of blighted areas. The bonds are to be paid solely from revenue from municipal tax increments. Payment cannot be made from the revenue of municipal taxes, utilities, or other services.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment to give the legislature the power to authorize cities and towns to issue bonds to finance the redevelopment of blighted areas and prohibiting any city or town from granting its money or lending its credit for such purposes."

NUMBER FOUR (S.J.R. 53)

S.J.R. 53 proposes an amendment to the Texas Constitution to exempt from taxation solar or wind-powered energy devices.

The wording of the proposed amendment as it will appear on the ballot is as follows:

"The constitutional amendment authorizing the legislature to exempt from taxation solar and wind-powered energy devices."

NUMBER FIVE (H.J.R. 37)

H.J.R. 37 proposes an amendment to the Texas Constitution to grant exclusive jurisdiction to justices of the peace in civil cases where the amount in controversy does not exceed \$200, except where the legislature gives exclusive jurisdiction to another court.

The amendment grants justices of the peace concurrent jurisdiction with county courts where the amount in controversy is between \$200 and \$500, except where the legislature gives the county court exclusive jurisdiction.

Just Millin' Around

By JANETTE LEMON

Monday morning's sprinkle was doing a lot to get people's hopes up that a good rain would follow. Personally, I am ready for a good rain that will hopefully bring some Indian Summer weather, my favorite time of the year.

The only thing about Indian Summer, though, is that I won't want to be shut up in this office. I would much rather be out enjoying the outside, the cool mornings and warm afternoons.

But then I like to eat, have a place to live and sleep and a car to drive, so I guess I will stay in the office in spite of myself.

Just received word that rumor is going around that the Mirror office has closed and has been moved to Roysse City.

I can assure you that the office has not been closed OR moved and I am still interested in receiving local news.

Perhaps that rumor stems from the fact that I was out last Wednesday and Thursday with back problems and the office was closed.

Most of you (at least I think most) know that the office is closed on Monday afternoon and Tuesday so that I can help with typesetting, ad make-up, etc. Then when I was out Wednesday and Thursday also, I know many of you were concerned.

The longest battle in baseball history occurred May 31, 1966, when the Giants defeated the Mets eight to six in the second game of a double-header. They played for 23 innings that took seven hours and 23 minutes.

IF YOUR AIR CONDITIONER IS SET TOO LOW, YOU'LL FEEL IT RIGHT HERE...

During the summer months, the cost of operating air conditioning equipment is the biggest factor in the electric bills of most Texas Power & Light customers. You can enjoy the comfort of air conditioning and hold down the amount of your electric bill by setting the thermostat on 78° or higher. But you may say, "I like it set at 72°!" Consider the cost of the 6° difference. If the outside temperature is 95°, every degree you set your thermostat below 78° increases your cooling cost about 12%. This means, of course, that your cooling bill will be about 72% higher if the thermostat is set at 72° than if it is set at 78°. For still more savings on your cooling bill, make sure your home is adequately insulated... check weatherstripping and caulking around windows and doors... close blinds or draperies to keep out direct sunlight... keep the fireplace damper closed... and clean or replace filters at least every 30 days.

Our Way
If love and respect could be measured by the amount on a check, a funeral service would be a simple thing. We all know that this is not the case. Despite many years in our profession, we still can be deeply touched by the manner in which many families of limited means show affection and reverence for a departed member. That is why all who use our services receive the same compassionate treatment in their bereavement. Expenses may differ because of the desires of the family but the service we render expresses equal concern for all we serve.

Dedicated Personnel

It takes more than fancy equipment to provide good phone service.

The best equipment in the world isn't worth much unless you have qualified, well-trained people to keep it working properly. And Continental Telephone is second to none in the quality and knowledge of its personnel. Linemen, technicians, installers, business clerks, and managers: we select them for their knowledge, experience, capabilities and eagerness to see a job done right.

Then, because of the growing sophistication of telephone communications equipment, we provide seminars and special schools that help our employees broaden and improve their skills.

Most of our employees know the intricacies of more than one job. Thus, instead of having to wait for a particular specialist that can solve a particular problem, we have a company of specialists that can solve most of the problems they encounter.

It speeds up our reaction time when bad weather strikes, or when you simply want a malfunctioning phone back in working order.

Doing our best to attract and keep the highest quality employees is one of the ways we're doing our best to do more for you.
