

# School Board Buys Bus, Approves Budget Requests

**By Dalton Wood**  
The school board last night gave tentative approval to proposed budgets for next year presented by principals, superintendent and band director, hired four new faculty members and voted to buy a new small school bus.

Budget proposals presented to the board by heads of five departments totaled less than \$1,000 over the total for the same five units in the current year, a factor considered remarkable by board members in view of rising costs and inflation.

Clifton Gardner, principal of Tubb and North elementary schools, presented his proposals, as did Jim Marcus, high school principal, representing both high school and junior high, A. D. Shaver presented the athletic budget, and Band Director Don Wise the band budget. Total of these budgets proposed for next year is \$89,441.14.

**Finances Uncertain**  
The board approved the proposals tentatively, subject to adjustments as the budgets relate to the final overall school budget when it is adopted, noting that the school has no way of knowing at this time just how much money they will be receiving from the state, since the legislature has not yet passed a school finance bill.

**WOODWORK**  
FEW YEARS BACK only the big jets flew regularly on airlines, and the lum shots traveled that way occasionally. A lot of people never had up in a flying machine at all and the age person had never been on an airplane.

Things are different, partly because we have more money than they used to paying for beans, but mostly because the travel is one thing that actually has become less expensive in many ways in the last few years.

Nowadays just about everyone has been on Southwest or Continental to Las Vegas, and other places too. Even though there still are some folks around who don't want to get up in one of those airplanes, most people have flown elsewhere since Southwest Airlines lowered their rates, too.

Comedian Jerry Clower once said, "You're not going to get me up in one of those planes, boy! The Lord meant for me to stay on the ground." When someone told him if he didn't think the Lord would protect him in the air as well as on the ground, he replied:

"No siree, my Bible says 'Low, I am as you always!'"

Despite this, flying is still the best way to get anywhere if you are in any kind of hurry, or if you already have viewed the scenery between your starting place and destination.

## Accidents Reported In City

Four vehicle accidents were investigated by Tahoka Police Dept. during the last week, with no injuries reported in any of these.

On Tuesday at N. 4th and Ave. J a collision involved a 1977 Chrysler driven by Wanda Faye Farr of Tahoka and a 1968 Pontiac driven by James Wayne Dorman, 2129 S. 3rd.

A wreck Sunday morning on the east service road near the intersection of U.S. Hwy. 87 and 380 involved a 1972 Chevrolet driven by Tommy Wells of Tahoka and a 1969 Chevrolet driven by E. H. West of Rt. 5.

Two accidents were investigated Thursday. On the Piggly-Wiggly parking lot a 1973 Ford driven by Mike Montemayor Jr., Rt. 5, struck a parked 1978 GMC van owned by Charles Ray Isbell, 1429 Ave. M. And at Ave. J and S. 4th a 1975 Oldsmobile driven by Lilia Riojas of Tahoka and a 1969 Mercury driven by Alicia Sastre Garcia of Tahoka collided.

A young Tahoka woman in her teens who told police she "just wanted to create some excitement" in town was arrested after reportedly pulling down her shorts while standing in a pickup on Main St. about 11 p.m. last Tuesday night, May 8.

She paid a fine of \$50 plus court costs in city court on a charge of disorderly conduct.

Mrs. Edwin Pebsworth, who lives southeast of the city, reported that her 1978 Chevrolet station wagon had been burglarized while parked at the softball park Monday evening. A window was broken to gain entry to the vehicle, and a billfold containing about \$3 in cash and several credit cards was stolen.

A 22-year-old Tahoka man arrested on a charge of public intoxication was fined \$35.50 by Justice of the Peace Ed Hamilton Friday morning.

Police also issued five tickets during the week, two for contest of speed, two for no drivers license and one for failure to yield right of way.

## County Planning To Raise Taxes

**By DALTON WOOD**

Lynn County Commissioners, faced with an anticipated deficit of more than \$35,000 this year and with the prospect of going even further in the red next year, voted unanimously Monday to increase county taxes by more than 65 per cent.

Acknowledging that the action will not be a popular one, commissioners nevertheless agreed that it is necessary to provide the continued basic services offered by the county and noted that the county's expenses, like everyone else's, have been increasing steadily.

The vote was to increase the percentage of assessment from 22 per cent of actual value to 38 per cent. Final passage of the proposal will not be voted, however, until after a public hearing on the increase is held in the county courtroom in Tahoka at 5 p.m. Monday.

**Vote On May 29**  
Final vote on the proposal then would come at a called meeting of the commissioners court Tuesday morning, May 29, since the usual meeting day, May 28, is a legal holiday.

Lynn County has set a tax rate for next year at \$1.50 per \$100 valuation in two precincts where there are water district taxes of 5 cents, and at \$1.45 in the other two precincts. Both figures are 5 cents less than this year's rate, since hospital district taxes are scheduled to be lowered that much.

Figuring taxes at \$1.55 this year and \$1.50 next year, but including the proposed increase in assessment percentage, a person with a home actually worth \$15,000 would pay \$55.57 in county taxes next year, compared to \$33.24 this year. Another way of putting it is that this homeowner's taxes would go up \$22.33 next year.

Judge Melvin Burks explained that property owners get a break, however, in that the county's determination of "actual value" really is only 65 per cent of what a re-evaluation team last year determined as actual value for property in the county.

In the current year the county has total projected expenditures of \$422,105 from general funds with anticipated revenue expected to be \$384,965.

## 1980 Budget

For 1980, the county has budgeted expenses calling for \$550,000 in tax revenue, and even with a 38 per cent assessment ratio the current tax base will fall short of raising that amount. Commissioners indicated they could get by on their precinct funds with less than had been budgeted if necessary. Each precinct had been set up to receive \$75,000, but with the expected revenue will be cut back to about \$64,000 in the road and

CARLTON ASH VALEDICTORIAN

BRYAN MOORE SALUTATORIAN

## Tahoka High Honor Students Named

**By CAROLYN KLAUS**

Top graduating honors of the Tahoka High School graduating class went to Carlton Ash and Bryan Moore this year.

Carlton Ash, son of Mr. and Mrs. Johnny Ray Ash, was named as valedictorian with a four year grade point average of 98.4.

Bryan Moore, son of Mr. and Mrs. Gerald Moore, was named salutatorian with a grade point average of 96.2.

Ash also was elected this year as Best All-Around Boy, chosen by the faculty, as well as the Advanced Science and Trigonometry Awards. During his high school years he participated in Science Club, National Honor Society, U.I.L. Science and Slide

Rule, football, track. Speech Club, student council and the senior play. He served as president of the National Honor Society and his freshman class was chosen as Most Likely to Succeed.

During his football career Ash served as captain, received 1977-78 All-District, All South Plains, and All State honors. In basketball he also was chosen All-District. Carlton plans to attend Abilene Christian University and major in chemistry.

Moore was named Mr. THS by popular vote of the student body and listed in Who's Who by the faculty. He also received the Advanced English Award. During his high school years

he served as Science and Speech Club president, National Honor Society parliamentary, and student council representative. He participated in football, track, tennis, band, UIL One Act play, UIL Informative Speaking and Headline Writing, and was in the junior and senior play. Bryan plans to attend Texas Tech University and major in pre-med.

The Tahoka graduating seniors will be presented in Baccalaureate services Sunday, May 20, at 8 p.m. in the high school auditorium with Jim Pyburn, Church of Christ minister, presenting the sermon. Tahoka High School's

annual Awards Day was held Thursday, May 10 in the high school auditorium. Faculty members give individual awards to students who have been outstanding in class participation, attitude and interest. Grades are considered but are not foremost in selecting winners.

The following people received awards: Norma Jo Redwine-English I; Marcello Resendez-English II; Bryan Moore and Robin Taylor-Advanced English; Sheri Tomlinson-Typing; Francis Rodriguez-Spanish; Melinda Terry-KENNEL; DeAnn Johnston-GROWL; Jerri Beth McKibben-Photography; Sherry McClellan-Speech;

Ira White-Advanced Speech; Edward Gomez-Physical Science; Bryan Simpson-Biology; Carlton Ash-Advanced Science; Lee Summers-Physics; Brad White-Chemistry; Amy McNeil-O.E.A.; Claudia Guin-O.E.A. II; Arthur Chapa-D.E.I.; Jeanie Isbell-D.E. II; Lela Jo Strickland-Homemaking I; Pam Witt-Home and Family living; Patti Bell-Homemaking II; Robin Bingham-Consumer; Julie Sastre-H.E.C.E.; Denise White-Algebra I; Suzu Lawson-Algebra II; Belen Saldana-Fundamentals Of Math I; Jacky Jolly-Fundamentals of Math II; DeeDee Cawman-Geometry; Carlton Ash-Trigonometry; Cal Huffaker-Civics; D'Ann Phillips-Shorthand; Melinda Terry-

Accounting; Keith Williams-Free Enterprise; Curt Terry-American History; Brad White-World History; Randy Redwine-Band; Vicki Dunn-Library; Kelly Strickland and Mary Gayle Raindl-O.E.A. Service Awards.

Other awards given were Melinda Terry, Britt Dockery and Clifford Bailey-Fighting Heart Award in athletics. Also the Rocky Award, given by ex-THS linemen, was presented to Britt Dockery and Jerry Wayne Hatchett.

Beth Huffaker presented the Phebe K. Warner Student Club scholarships to Debbie Pinkston and Bryan Moore.

Keith Williams was presented a scholarship from West Texas State University.

During discussion of the proposed athletic budget, Shaver was asked about the quality of the track program. He told the board that "you're never going to have a good track program without a track, just as you couldn't teach swimming without a swimming pool." It also was observed that a new track would cost about \$130,000 and that nobody has come up with a feasible location for track even if one could be built, since there is not enough room around the football field for a regulation track.

The board complimented Shaver on the operation of the athletic department this year and also complimented Wise on bringing the band program from a total of 24 in high school band two years ago to an expected 78 in the same band this fall.

hired as a varsity football assistant. A graduate of San Angelo Central, Sexton has three years of coaching experience in San Angelo. He played football in high school and one year at Sul Ross before transferring to Angelo State University where he earned his degree. Sexton, about 25, and single, also would teach junior high social studies.

Shaver told the group that one more coach still is needed. Coaches Lloyd Scott, Bruce Winn and Tom Lair recently resigned, with Lair taking the head coaching job at Rochester.

Also hired was Mrs. Paulette Brownfield of Ralls as counselor, and on Marcus' recommendation, the board voted to move Mrs. Pat Rambo to the post of homemaking teacher, succeeding Kathy Waincott, who resigned.

**Track Need**  
During discussion of the proposed athletic budget, Shaver was asked about the quality of the track program. He told the board that "you're never going to have a good track program without a track, just as you couldn't teach swimming without a swimming pool." It also was observed that a new track would cost about \$130,000 and that nobody has come up with a feasible location for track even if one could be built, since there is not enough room around the football field for a regulation track.

The board complimented Shaver on the operation of the athletic department this year and also complimented Wise on bringing the band program from a total of 24 in high school band two years ago to an expected 78 in the same band this fall.

Wise also has 62 in junior high band and with students from lower grades teaches a total of 188 every day.

"We feel that your program is every bit as important as any other in the school," Board President Bob Haney told Wise. "Probably no other person in the system deals with 188 youngsters every day."

In other action during the five-hour meeting, the board approved transfer of 12 students into the system for next year, voted to rehire all the cafeteria personnel, voted to participate in the breakfast, lunch and milk program, and set July 31, 9 a.m. to 5 p.m. as date for the board of equalization to meet.

Coulston and business manager David Roberson told the board that this year's finances appear to be in good shape at this point in the year.

plans to attend South Plains College and become a medical secretary.

Miss Teal Corley, daughter of Mr. and Mrs. O. B. Corley, has been awarded, by the Phebe K. Warner Study Club, an extension of the Lady Dobbins Scholarship. The amount designated this year is \$200. Last year she received the scholarship in the amount of \$400. The extension was made for the first time this year and hopefully will be continued in the future.

**MAURICE BRAY FUND**  
Bryan Moore, son of Mr. and Mrs. Gerald Moore, is the recipient of the Maurice Bray Scholarship Fund in the amount of \$400. The scholarship is awarded annually by the Phebe K. Warner Study Club to the boy who is outstanding in scholarship, character and service.

In high school, Bryan was a member of the Student Council, National Honor Society (parliamentarian), Science Club president, and Speech Club president. He played football, basketball, tennis and was band vice president. He participated in UIL Informative Speaking, Headline Writing, Learn and Live Team, and one-act play, junior and senior plays, and Kennel and Growl staff.

Honors in high school include: Salutatorian of the graduating class, English I and II awards, Speech I award, Who's Who in American High School Students, Who's Who in Tahoka High School, Society of Distinguished High School Students and Rotary Youth Leader.

Bryan's community involvement includes serving as escort and clean-up for Harvest Festival, working on political campaigns to elect John Tower, Bill Clements and E. L. Short.

Bryan is a member of the First United Methodist Church where he participates in the Methodist youth share group. He has also attended Methodist summer camp.

Bryan feels that he wants to become a doctor and practice medicine in a small town.

"I see the need for comprehensive medical treatment for residents in rural communities and small towns," Bryan stated. He will attend Texas Tech in September as a pre-medical student.

### SPS Sells Subsidiary Fuel Firm

Berl Springer, President and Chief Operating Officer of Southwestern Public Service Company, announced that the sale of TUCO, Inc. to the Cabot Corporation has been completed. The purchase price was \$33.8 million.

TUCO, Inc. was formed in May of 1974 as a wholly owned subsidiary of Southwestern Public Service Company to provide Southwestern Public Service Company with a firm supply of fuel, including natural gas, coal and fuel oil. TUCO, Inc. also produces other liquid hydro-carbon by-products for sale to non-related wholesalers.

In announcing the sale, Springer said, "Cabot Corporation is a long established individual oil and gas company, and the sale of TUCO, Inc. to Cabot will materially enhance our fuel supply and further enable us to continually provide our customers with dependable electric service, now and in the future."

Contracts presently held by TUCO, Inc. relative to fuel supplies to SPS will continue and SPS will have the first opportunity to purchase additional supplies of natural gas resulting from Cabot exploration activities over a broad area.

Dear Editor:  
On behalf of the millions of children suffering from lung-damaging diseases and the Lone Star Chapter of the Cystic Fibrosis Foundation, I say "Thank You" to the citizens of Wilson.

So many people contributed generously to the Bike-A-Thon, not only in dollars, but in valuable time and effort. The Lynn County News has also been very

helpful in reporting the plight of these children and we are grateful.

A total of \$282.67 has been raised to support the Texas programs of assistance and education and to help national programs of research and care which ultimately benefit all the children with lung-damaging diseases.

We can be encouraged because our dollars are helping research surge ahead to find a control or cure for cystic fibrosis and to develop better care for children with other lung-damaging diseases. We can also be encouraged because

CF children are living longer, more productive lives, and the children with diseases like asthma, chronic bronchitis, bronchiectasis, recurrent or persistent pneumonia, and childhood emphysema, are being treated with increasing effectiveness.

Our progress is worthy of recognition and pride and we thank our friends in Wilson for helping make it possible. At the same time, we ask renewed dedication to the continuation of this fight against lung-damaging diseases in our children.

## Hearings Set In Lubbock On State Water

Hearings to determine the rights of users of state water in the Salt Fork and Double Mountain Fork Watersheds of the Brazos I segment Brazos River Basin are

scheduled to begin at 10 a.m., May 21, at the Lubbock County Courthouse, 904 Broadway in Lubbock.

The hearings will be held by the Texas Water Commission, the judicial arm of the Texas Department of Water Resources.

Adjudicative hearings are conducted pursuant to the Water Rights Adjudication Act and concern all persons who use surface water for other than domestic and livestock purposes in the watershed and who are holders of a permit, certified filling or water right claim.

Persons in the watershed holding such rights must complete additional forms set to them by the Department of Water Resources and are required to file these forms with the Department by May 18 of this year.

The Texas Water Commission emphasized that all persons with water rights and/or claims should attend the evidentiary hearings. Those persons who do not appear in person to present evidence supporting their claims may lose any water right to which they may otherwise be entitled.

A docket notifying each claimant of the time and place of his hearing has been sent. The 10 a.m. session May 21 is for the purpose of assuming jurisdiction and to explain the adjudication process. Also on May 21, the scheduled hearings will begin at 2 p.m. All claimants in the watershed are encouraged to be present on May 21 and then appear on the date specified for each claimant in the docket notice.

The segment to be adjudicated consists of the Salt Fork and Double Mountain Fork of the Brazos River and all their tributaries from the New Mexico State boundary line downstream to their confluence near the eastern boundary at Stone-wall County, Texas and includes Lamb, and Lynn County.

Persons using surface water for domestic and livestock purposes only are exempted by state law from the adjudication proceedings.

Claimants using water for irrigation or other non-exempt purposes were reminded that the mere filing of claims does not constitute a water right. Evidence of actual, legal use of water in the past must be presented at each individual claimant's adjudication hearing. Claimants who are not basing their claims on a permit or certified filling must be able to show the water use which occurred during the years 1963-1967, inclusive, or for those claimants who filed an additional sworn statement, 1963-1970, inclusive. All claimants are required to file a Section 11.307 claim before participating in their individual hearing.

Persons in the watershed who have not received forms for filing the Section 11.307 claims, but wish to do so, were advised to write the Department and request forms and information. Requests should be addressed to P. O. Box 13087, Capitol Station, Austin, 78711.

### Texas Cabbage Is Economical, Good For You

AUSTIN--Cabbage is a very economical and nutritious ingredient to have on hand for both cooking and salads, reminds Texas Department of Agriculture Home Economist Fran Gerling.

A head of cabbage will keep in the refrigerator crisper for a week to 10 days. It will make slaw for at least two meals and sometimes more, putting it in the "very economical" class for Texas consumers.

"Cabbage slaw can be either savory or sweet," Mrs. Gerling comments. "In savory slaws, many vegetables can be added, such as sliced carrots, diced green pepper, celery or diced green or white onions."

For a sweet cabbage slaw, apples and pineapple are often added.

Texas is the second largest cabbage producing state.

### 10 Top Pecan Counties Told

AUSTIN--The top 10 pecan producing counties for 1978 have been announced by the Texas Department of Agriculture.

The leading counties were Hood, El Paso, San Saba, Mills, Bell, Guadalupe, Gonzales, Comanche, Pecos, Bexar and Tarrant.

Agriculture Commissioner Reagan V. Brown said the total pecan crop was estimated at 22 million pounds, 31 percent below 1977's 32 million pounds. Texas was second nationwide in pecan production.

Brown said lack of moisture across the state was a severe problem during most of the growing season. Trees began shedding some nutlets soon after they were set. Insects and disease plagued the crop during the growing season, and some casebearer damage to developing buds and shoots was evident in central and eastern counties.

Figures were compiled by the Texas Crop and Livestock Reporting Service.

### Lower Valley Grows Most Texas Citrus

AUSTIN--Around 80 percent of all grapefruit grown in the Lower Rio Grande Valley during 1977-78 was raised in Hidalgo County, according to figures recently released by the Texas Department of Agriculture.

Agriculture Commissioner Reagan V. Brown said Hidalgo County growers produced 9,650,000 80-pound boxes of grapefruit out of a total of 11,900,000.

The county also produced 5,435,000 85-pound boxes of oranges. Total orange production amounted to 6,100,000 boxes.

Cameron County was second with 1,950,000 boxes of grapefruit and 400,000 boxes of oranges. Willacy was third with 280,000 boxes of grapefruit and 245,000 of oranges.

Brown said Texas was second nationwide in citrus production. The fruit is produced mainly in the Lower Rio Grande Valley, but a scattering of groves are located in South Texas.

Figures were compiled by the Texas Crop and Livestock Reporting Service.

Rapidly increasing home prices and higher interest rates have contributed to a greater reliance on dual incomes to secure Veterans Administration guaranteed home loans. Last year, 41 percent of the approved applications listed income from veterans and spouses, compared to 30 percent in 1974.

The threat of losing High Plains benefits from the Agricultural Weather Advisory Service has apparently been averted according to Donald Johnson, Executive Vice President of Lubbock-based Plains Cotton Growers, Inc.

The National Weather Service (NWS) had announced intention to discontinue the service later this year, but into other agricultural interests on the Plains voiced objections to Washington NWS officials, area Congressmen and Texas Senators.

"It is now almost assured," Johnson reports, "that Lubbock office will be kept open by means of a cooperative grant agreement with the Texas A&M Agricultural Research and Extension Center."

The NWS advised PCG that it was necessary to take Lubbock agricultural meteorologist off its payroll in effort to comply with restrictions on Federal employment but has agreed to contribute \$25,000 per year for a period of three years to permit continuation of the service on a cost-shared basis with A&M. A formal agreement between NWS and A&M is now being developed.

The agricultural weather service since 1964 has conducted soil moisture surveys, microclimate and hail studies, research into weather effects on cotton growth and fiber development and other work to develop information used extensively by area producers and agricultural research scientists.

"We believe the service can continue to be effective under the grant agreement," Johnson said, "and we are grateful for the help of our Congressmen, Senators and other making it possible."

Plains Cotton Growers, Inc. is adding its voice to the Agricultural Stabilization and Conservation Service (ASCS) personnel who are urging farmers to be extremely careful that nothing is done or left undone this spring that will make them ineligible for farm program benefits this fall.

"We know it's hard to read ASCS newsletters and planting at the same time," says PCG President Joe D. Leavelle of New Home, "but a little time spent at the ASCS office reading ASCS instructions could pay big dividends at the end of the year."

Farmers, he says, should pay particular attention to their established normal cropland acreage if any requiring set-aside is planted, accurate certification of acreage, timely destruction of wheat planted on terraced areas not intended for harvest, and prompt reporting of hail or other crop losses.

"And above all," Unfred concludes, "consult early often with ASCS people about all questions relating to compliance requirements."

### TREAT NOW FOR ELM LEAF BEETLES

Elm trees, particularly Siberian elms, can be severely damaged by elm leaf beetles unless control measures are taken.

Trees in urban locations are often more heavily infested than those in the country.

Adult elm beetles begin mating and laying eggs in early spring. An adult beetle is 1/4 inch long and yellowish to olive-green with a dark stripe along the outer edge of each wing cover.

Eggs of the beetle are yellowish-orange and spindle-shaped and are laid in groups of 5 to 25 on the undersides of leaves. In a few days, eggs hatch into small, black, hairy larvae (worms) which skeletonize the tree's leaves.

After two to three weeks of feeding, larvae migrate to cracks on the trunk and lower limbs to pupate (change from larvae to adult forms). They emerge as adults 7 to 14 days later. Due to their short life cycle, elm leaf beetles produce several generations annually in Texas.

To protect elm trees, spray with carbaryl (Sevin) in early May when the eggs begin hatching. Proper timing of treatment is essential for effective control.

Of course, when using any type of pesticides, always follow label directions closely.

### CATTLE GRUB CONTROL OUTLINED

Each year between May and September, Texas livestock producers can control costly cattle grubs by applying systemic insecticides.

During late fall and winter, the cattle grub appears on the backs of animals. It's too late to begin control measures then since most of the damage has already been done.

However, applying a systemic insecticide — one which is absorbed into the animal's bloodstream — can control grubs effectively between May and September.

In addition to controlling cattle grubs, the insecticide will also provide contact

control of horn flies for two to three weeks. This makes the overall cost of treatment favorable.

The cattle grub is the larval stage of the heel fly. The fly has mouth parts, so it causes no pain to the cattle. However, it frightens cattle, making them difficult to manage. Animals often seek relief by standing in shade or deep water.

The life cycle begins when the heel fly lays its eggs on an animal. The eggs, glued to hairs, hatch within a few days, and larvae (worms) enter the skin at hair follicles. The worms then migrate through the animal's body for six to eight months and reappear in the animal's back in the fall and winter, forming knot-like marbles or cysts.

Cattle grubs cause greater losses than any other cattle pests. Besides damaging meat and hides by their burrowing, they lower beef cattle gains and production throughout the year. Profit losses are estimated in the millions of dollars each year.

### Coal Produces Power For SWPS

Coal from Wyoming that is being used to produce electrical energy for Southwestern Public Service Company was the subject of a talk and movie, "Black Thunder", presented by Glenn Bickle, a SWPS executive from Plainview at the Rotary Club's Thursday noon luncheon.

The Plains electrical generating and distribution firm is using coal in its huge generating plant northeast of Amarillo and is building another plant between Earth and Muleshoe.

Four train loads of 111 cars per train are required each week to operate the Amarillo generators. Lump coal is shipped to the plant from near Gillett, Wyoming, pulverized into powder, blown into furnaces, and steam from the boilers then run the generators. Require-

ments of Government environmental agencies are met and no pollutants allowed to escape. Cost per million BTU is \$1.38, compared to \$1.97 where gas is used and \$3.65 for oil.

The movie was of the coal mining operation in Wyoming operated by Atlantic Richfield Oil Co. There, strip-mining is used, and after a location has been mined out the excavation is covered with dirt, topsoil, and replanted to native grasses and other plants to return the land for grazing by wildlife and cattle.

Harold Roberts was in charge of the program.

### Lynn County 4-H'ers Enjoy Trail Ride

The Lynn County 4-H Horse Club held a trail ride at Gail, Saturday, May 5. The ride began at the Courthouse in Gail. The participants rode to the Wendell Edwards Ranch east of Gail. The trail ride consisted of 15 4-H'ers, parents and leaders.

Upon arriving at the Ranch, lunch was served which consisted of stew, cornbread and brownies. After lunch, another short ride was taken.

The next 4-H Horse Club meeting will be held at the Tahoka Rodeo Arena, Monday night May 14, 8:00 p.m. All members are urged to attend.

All Extension programs are open to anyone regardless of socio-economic levels, race, color, creed, sex, age, religion or national origin.

If you are interested in becoming a member of the Lynn County 4-H Horse Club, please attend this meeting.

### ASCS Sets Reminder Dates

Seeded wheat on turn rows or other areas that was not certified as wheat for harvest should be clipped or destroyed before the dough stage. Most wheat is reaching this stage and the ASCS reports that spot checks will be made of the farms and if the wheat reaches the dough stage it will be classified as wheat for grain.

If wheat reaches the dough stage and the farm is spot checked, the farm will be ineligible for any low yield payments should you lose your cotton in a hail storm or other disaster and ineligible for CCC loan.

**Special Dates**  
May 31-Final date to put 1978 Cotton in loan.  
June 15-Final planting date for cotton.  
June 20-Final planting date for grain sorghum.  
July 15-Final date to certify.

This year grain sorghum is not an eligible cover for set aside. Non-grazing dates for set aside are April 1 until September 30. Sudan is an eligible cover and could be grazed after September 30.

Be sure acreage certifications are accurate. If the difference exceeds the larger of 2.0 acres or 10% of the acres reported the farm is out of compliance and not eligible for payment, loan, or disaster coverage.

#### 4-H'ERS TO STUDY "ENERGY" AT CONGRESS

Texas 4-H members will explore current sources of energy and management methods as well as look at energy possibilities for the future at the 1979 Texas 4-H Congress.

This year's state congress for senior 4-H members (those between the ages of 15 and 19) will be at the

Shamrock Hilton Hotel in Houston, July 19-22.

Theme of the congress will be "4-H and Energy: Partners for Progress."

4-H'ers attending the congress will look at such familiar energy areas as oil, gas and coal production and use of wind and water power. They will also study some of the new areas of energy development, including nuclear power, solar energy and bio-mass conversion, the changing of animal and plant waste into energy.

The youth will participate in a number of tours to get firsthand knowledge of energy developments, including solar plants, some of the world's largest petroleum refineries, the Houston Light and Power Co.'s multi-million dollar control center, and the NASA Johnson Space Center. The port of Houston will be featured on a special tour.

There will also be a multitude of exhibits and displays on energy production, conversion and use. Delegates will have an opportunity to develop workshop settings to be used in future 4-H energy programs in their own clubs and communities.

While keying in on the energy picture, the Texas 4-H Congress will also provide delegates an opportunity to view Texas history by touring the San Jacinto Monument and the Battle-ship of Texas. Of course, there will also be time for relaxation and fun at AstroWorld and the nearby Gulf Coast, featuring Searama at Galveston.

Two 4-H members from Lynn County will be attending Texas 4-H Congress. They are Karen Stewart, Tahoka 4-H Club, and daughter of Mr. and Mrs. Billy H. Stewart, and Terri Franklin, O'Donnell 4-H Club, daughter of Mr. and Mrs. David Franklin.

### Spoonemore Elected To Committee

Bob Spoonemore, superintendent of Ralls Independent School District, has been elected chairman of the Joint Committee of the Education Service Center, Region XVII for 1979-80. Other superintendents elected to serve with him are Don Taylor of Roosevelt, vice-chairman; John Paul Jones of Anton, secretary; Neal Chastain, Lamesa, Place 1; Dean Skiles, Seminole, Place 2; Jerry Scott, Crosbyton, Place 3, and James Langford of Hale Center, Place 4.

The Joint Committee serves in an advisory capacity for the Education Service Center and is composed of a representative from each of the 64 school districts in the 20-county region served by the Service Center. Four year colleges also have a representative serving on the Joint Committee. The Executive Committee of the Joint Committee represents the group when it is not in session.

Spoonemore, who was elected to the Executive Committee in May, 1974, replaces Roy Dodds, superintendent of Plains ISD.

### National Transportation Week In Texas

The week of May 13-19, is National Transportation Week and Governor Clements designated this week as National Transportation Week in Texas.

The State Department of Highways and Public Transportation, District Five, with headquarters in Lubbock, will sponsor a display at the South Plains Mall in Lubbock during this week to show the public some of the functions and work involved in transportation and conservation of energy. This display will be located in the corridor from the Mall's east entrance to Court B (the fountain area).

Mr. George C. Wall, Jr., District Engineer, encourages people to visit their display or their offices this week. Employees of the Department will be on duty to answer any questions.

Members of the Department will be available to show a new film entitled "Transportation-New Life Lines" to any civic club that would be interested in having a speech or the film recognizing transportation by contacting the District Office.

### Sherry Etheredge Says...

Keep cool with cucumbers as days grow warmer. The pulp temperature of cucumbers from the refrigerator can be 20 degrees cooler than the air outside on a hot day.

Cucumbers also make a low-calorie snack for wait-waiters — they have only 55 calories per pound.

An unpared cucumber contains a rich source of iron and vitamins A and C as well as other needed minerals and vitamins.

Cucumbers are available in two classes according to use — those used fresh for the table called "slicing cucumbers" and other varieties used for pickling.

Cucumbers are ideal accompaniments to summer meals.

For eating raw, slice or dice fresh cucumbers for relishes or salads.

Cut lengthwise into sticks with the skin left on or cut crosswise into discs, they add color to a relish tray.

Also slice them for use in sandwiches or serve with vinegar, salt and pepper. Store cucumbers in the refrigerator.

#### CUCUMBERS AND SOUR CREAM

2 cucumbers  
1 cup sour cream  
2 T chopped pecans  
2 tsp. grated onion  
2 T lemon juice  
1 tsp. salt  
Peel cucumbers. Slice thin and chill.

Mix other ingredients together. Toss all lightly.

May be served on greens. Makes four servings.

#### PEAR LIME PARFAIT PIE

each addition. Place blender container in refrigerator and chill until mixture mounds when dropped from a spoon. Set aside 3 pear halves. Add remaining pear halves to gelatin mixture in blender container and whirl until blended. Return to refrigerator to chill. When partially set, spoon filling into graham cracker crust. Chill until set. Before serving, pile whipped cream into center of pie. Cut reserved pear halves lengthwise in two. Arrange on top with halved lime slices. Makes 6 servings.

#### GRAHAM CRACKER CRUST

16 to 18 graham crackers (or enough to make 1 1/3 cups crumbs)  
1/4 cup sugar  
1/8 teaspoon salt  
1/4 cup softened butter or margarine  
Break 5 or 6 graham crackers at a time into blender container. Blend on low speed, flicking motor on and off, until crumbs are medium fine. Empty blender container and repeat blending process until 1 1/3 cups crumbs are obtained. Return half of crumbs to container. Add remaining ingredients. Blend until all ingredients are well blended. Add remaining crumbs and blend until ingredients are mixed together. Pat into 9-inch pie plate. Bake at 375 degrees F. 8 minutes. Cool before filling.

### SPS Studies Fat Cattle On High Plains

Sam Thomas, manager of agricultural development for Southwestern Public Service Company, has announced that 4,974,530 fat cattle were produced in 1978 in the 45,000 square mile area served by SPS. This is an increase of 600,680 or 13.7 percent over the previous year and is the largest number ever produced in a 12 month period.

The survey, which has been conducted since 1963, is quoted throughout the United States as the most authoritative source as to the production of fat cattle in the Southern Great Plains area.

"During the 1978 period, the feedlot capacity came to 2,728,400, which reflects a reduction of about 6,000 head over 1977. This also represents the consolidation of feedlots and the conversion to growing operations," Thomas said.

The total impact of the feedyard industry on the business community exceeded 8-billion dollars for the second year," Thomas said, "and the farm sale value exceeded 2-billion dollars. Profits on feedlots or fed cattle have ranged from a low of \$3.33 per head to a high of \$137.00 during the last 120 days."

## Meet the all new International 2 + 2

### Bringing you unparalleled field ability in the 130-150 hp range

Take a long, hard look at the most advanced tractor concept of its kind, the International 2+2. This unique new tractor has got what it takes to handle all your farm jobs—row crops or specialty crops, grain farming or dairy farming. That's because the 2+2 packs the performance and versatility of conventional 2-Wheel Drive...plus the stability and traction of 2 additional drive wheels.

International Harvester has spent years studying what professional farmers need most from a row crop tractor. And now we've answered those needs with

the 2+2. A tractor that performs a variety of tasks in almost any field conditions...with hard-working performance features like these:

- + four drive wheels for traction without compaction
- + a 15'9" turning radius for maneuverability
- + special engine-forward concept for stability
- + rear mounted control center for increased visibility
- + standard row crop hitch for 2-Wheel Drive implements

Come by and test drive one of these tractors today at

Friday is the regular luncheon day at Lynn County Pioneer Club. Sherry Etheredge will bring the second in a series of programs on nutrition and food buying.

A new service that the club is bringing to Lynn County people is that the social security representative will be seeing people at the center on the second and fourth Wednesday mornings instead of at the courthouse as has been the custom.

Because of limited space the center director requests the people have only one person with each social security recipient and that children not be brought with them as the center is not equipped to care for children.

Hours for seeing the social security representative is 10 a.m. to 12 noon. It is hoped that this service will help many of the older people who have found it difficult to climb the courthouse steps.

Next regularly scheduled day for the social security representative is Wednesday, May 23.

**Museum Work Progressing**

Work at Tahoka Pioneer Museum is gaining momentum as revealed by committee reports made at Monday night's meeting of the Board of Directors, headed by Dr. K. R. Durham.

The first annual membership drive has been started under direction of Mrs. O. C. (Bernice) Roberts, and members of her committee are selling charter memberships at \$10 per married couple. Those who will, however, are

asked to give more. Funds are needed for installation of displays and maintenance of the project.

Mrs. Kenneth "Macky" Turner, secretary-treasurer, reported all bills paid and a good bank balance. She also reported \$1,053 had been contributed to the Louise Wharton Memorial Fund.

Mrs. Wharton took the lead in financing and construction of the upstairs meeting room, decoration, and purchase of carpeting for the entire building.

Harold Green said application to the Secretary of State for incorporation is expected shortly, and that approval is being sought from Internal Revenue Service for exemption on donations. He also is drawing up a set of by-laws for the organization.

Bill Craig announced \$200 donation of the winning Western painting by Lynn County Art Association.

The Museum has purchased a used fire-proof filing cabinet for use in filing permanent records and historical documents. The board also authorized purchase of two fire extinguishers to meet State requirements and a vacuum cleaner

for use by the custodian. Dr. K. R. Durham pledged the donation of a burglar alarm to be connected with the Police Department.

Bill Craig, Winston Wharton, Arlys Askew and others have built two rustic display alcoves, one for a blacksmith shop and the other for a farm-ranch tack room. Much of the material for these has been gathered or promised. Craig also plans to install a wooden-wheel windmill.

A committee headed by Mrs. Norvel (Lennie) Redwine is getting together a pioneer school room, and another headed by Mrs. Jess Gurley is working on early day kitchen, bedroom and living rooms.

Mrs. L. F. (Pat) Jacobs has been recording acquisitions and historical file records, but will not be available this summer.

Miss Marietta Montgomery will handle these duties the next few months. Workers are trying to get as much done as possible by June 23, the day of the

annual Lynn County Pioneer Reunion. After this year, a membership meeting and program is being planned. Other special events are being planned.

About fifty acquisitions have been received by the Museum the past two weeks including a display case given by Mr. and Mrs. Johnny Wells of Tahoka Drug.

County Judge, Melvin Burks, announced the schedule of the 1979 holiday for Lynn County offices and employees which was adopted in Commissioners Court April 23, 1979. The dates are as follows:

Methodists To Honor Seniors

The graduating seniors of Tahoka High School, who are members of First United Methodist Church, will be recognized at the 11 a.m. service Sunday, May 20. The pastor's sermon topic will be "Guidelines for Christian Decisions" based on Romans 14.

The evening service at the church will be dismissed in order to attend the 8 p.m. Baccalaureate Service at the High School Auditorium.

Texas House Gives Okay To Appropriations Bill

The Texas House of Representatives voted its approval of a \$20.3 billion appropriations bill last week. Members had spent five days of debate on the House floor before voting for passage of the bill.

The proposed legislation contains a 7% salary increase for state employees, as well as a 24% increase over the biennium for teachers. Other significant additions included \$6 million to completely finance pay hikes of up to 20% a year for Texas Department of Public Safety officers, and \$8.7 million in start-up costs for four new junior colleges, plus \$9 million set aside for unexpected growth in junior college enrollment.

The Senate is presently working on its version of the two-year state budget which is expected to come out of committee early next week.

The final version of the budget will be written by a House-Senate conference committee appointed to work out differences in the two bills.

In other legislative activity this week, a subcommittee hearing was held on Rep. Jim Rudder's HB 1728 which would create a new judicial district in Terry and Yoakum Counties. The committee voted to put Rudder's bill in an omnibus court bill which contains all the new courts created during the present session. It is expected to be voted out of committee this week.

Rudder also presented HB 1727 to the House Intergovernmental Affairs Committee. This bill would grant county commissioners limited ordinance-making power, similar to that of city councils.

Tahoka Students Named To Who's Who List At School

Top awards were announced at the annual awards day assembly last Thursday, held in the Tahoka High School auditorium.

Seniors Carlton Ash and Melinda Terry were given the titles of Best All-Around Boy and Girl respectively. These students were the top of Who's Who in THS having received the greatest number of votes from faculty members.

Carlton is the son of Mr. and Mrs. J. R. Ash, and Melinda is the daughter of Mrs. Sharon Terry.

Other seniors named to Who's Who were: Bryan Moore, son of Mr. and Mrs. Gerald Moore; Robin Taylor, daughter of Mr. and Mrs. R. A. Taylor; Cal Huffaker, son of Mr. and Mrs. Wayne Huffaker; and De Ann Johnston, daughter of Mr. and Mrs. Rudy Johnston.

Juniors named to the distinguished list were: Ronnie Craig, son of Mr. and Mrs. Wayland Craig; and Brad White, son of Mr. and Mrs. Binie White.

The coveted title Miss THS was won by Blynn Roberson, daughter of Dr. and Mrs. Edwin Roberson; and Mr. THS was won by Bryan Moore. They were chosen by popular vote of the student body.

**Prescribed Reading**  
By Dayton Parker PARKER PHARMACY

Never take a prescription drug after the date stated on the label. Every prescription drug has an expiration date which is established for your protection. When some medications become outdated, they lose their effect or become a different chemical composition, which could be harmful. Most drugs have a "life" of about five years after they are manufactured. This means old medicines, sitting around in a bathroom cabinet are probably taking up unnecessary space, at best. Their age might eventually cause them to be hazardous, rather than helpful to your health. Be sure that every prescription you purchase has the expiration date clearly stated on its label. Then, if a portion remains unused for any length of time, carefully dispose of it.

### Phoebe K. Holds Meeting

Phoebe K. Warner Study Club met in the home of Mrs. White and Miss Marietta Montgomery Tuesday, May 8, with Mrs. Harold Green and Mrs. Martin as co-hostesses.

President Mrs. Mike Huffaker presided. A report of the state convention in Austin was given by Extension Counselor Mrs. Green.

The collection of wigs for cancer patients at M. D. Anderson Hospital will be continued.

The program was given by Mrs. Madaline Hegi.

Zuma McWhirter, Grace Huffaker, Betty Owens and Leta Warren, on their recent trip to Washington, D.C. They went for the national day of prayer May 1. Ten thousand people gathered to pray for our nation. The rally was planned by a pastor from California, but no names were ever mentioned from the speaker's stand because no person was to be honored. When marching five abreast the crowd extended for more than a mile. The Marine Band played and flags representing every state were displayed. A candlelight service was held at the Lincoln Memorial.

Another rally is planned next year on April 27, again in Washington, D.C.

### Hospital Auxiliary Elects Officers

The hospital auxiliary for Lynn County Hospital recently elected new officers for the coming year. They are: Ann Roberts-president; Pam Womack-vice president; Joy Bookshire as secretary, treasurer; Jo Carol Long-publicity chairman; and Joyce Kahlick, Joy Brookshire, and Jo Carol Long, telephone chairmen.

In the near future, if there are enough interested persons, the Lynn County Hospital and the Auxiliary would like to offer a first aid course to the communities. If you would be interested in such a course, call Joy Brookshire at 998-4586, Jo Carol Long at 998-5075, or Joyce Kahlick in Wilson at 628-2341.

The auxiliary has been organized to provide extra services that make the patient and family more comfortable during a hospital stay.

One of their main duties is to relieve the trained personnel of small but necessary services so they may give more time to the critically ill patient. A volunteer does not take the place of a hospital employee, she or he merely supplements the staff.

Qualifications for membership in the Lynn County Hospital Auxiliary are: complete dependability, adaptability, a sincere desire to make life more significant through unselfish service to others, a cooperative spirit and a gracious manner.

### Cinderella Girl Pageant

The District 1 Miss Cinderella Girl Pageant will be held Saturday, May 26, at the South Park Inn in Lubbock. It is open to girls ages 3 through 27 throughout the 38 counties at the top of Texas.

Participants will be judged in interview, modeling, sportswear and party dress, and talent with the exception of the 3 through 6 age group. Entry deadline is Saturday. For more information call Donna Powell at (806) 298-2495.

KERRIE LEE

### Kerrie Lee, New Area FFA Sweetheart

Miss Kerrie Lee, daughter Mr. and Mrs. Bobby Lee, was selected last Saturday night in Lubbock to represent Area II at the State FFA Sweetheart Contest to be held in July. The Wilson sophomore was chosen by the Wilson FFA as their sweetheart earlier in the school year. She then won the district FFA Sweetheart title enabling her to enter the area contest.

Kerrie recently was chosen as head cheerleader for the upcoming school year. She has been a Mustang cheerleader the past two years. Kerrie is active in basketball, tennis and track. She was a regional qualifier in both tennis and track. She also is a member of FFA, FHA, and One Act Play.

Deadline for all news and ads is 5 p.m. Tuesday.

### Sew It With Cotton Contest Plans Made

The annual Sew It With Cotton Contest will be here again before many people are ready. This year an effort is being made to get the entry blanks to the

homemaking teachers at the various schools before the summer vacation. This will give the entrants more time to consider their garment and to construct it.

The district contest this year will be held at the denim mill in Levelland. Jo Carol Long from Tahoka and president of the district contest, is working hard to get national coverage for the show again this year. She has already arranged for the narrator who will be Brenda Morris from Channel 11 who did the narrating last year.

This year at district there will be two categories for garments made by the

## June Schwertner, Cindy Freitag Top Grads At Wilson High

Two students have been named by Mr. Gary Cox, principal of Wilson High School, to receive coveted academic honors as members of the school's 1979 graduating class.

June Schwertner, daughter of Mr. and Mrs. Rudolph Schwertner, was recognized as class valedictorian with a scholastic average of 97.2.

Cindy Freitag, daughter of Mr. and Mrs. Thomas Freitag, was selected as salutatorian with a 92.6 scholastic average.

The class will be presented in Baccalaureate services Sunday, May 20, at 8 p.m. in the high school auditorium.

The junior high honor students were also named. Valedictorian honors will go to Matthew Burch, son of Mr. and Mrs. Ron Roger, who earned a grade point average of 97.2. Lisa Steinhauser, daughter of Mr. and Mrs. Victor Steinhauser, will represent the class as salutatorian with a grade point average of 95.6.

Enrico Caruso, the famous operatic tenor, was superstitious and would not start trips on Tuesdays or Fridays.

sence in strategic areas of the world that are important to our security at home. But we should not continue to give away tax dollars to nations who ridicule our system of government and way of life. Many Third World countries have become like welfare recipients—dependent on the public dole and resentful of those who rely on for their economic survival.

One of the most highly publicized examples of the pitfalls of our "generosity" is the giving away of the Panama Canal and paying them to take it. One of my colleagues recently toured Panama and visited with prominent citizens there. He found a consensus among Panamanians that the U.S. owed them the Canal despite the fact that we built it and have maintained it at a loss for many years. This attitude is myopic on the part of the Panamanians because their economy is supported by American civilian and military personnel who spend their money in this region. Also the continued U.S. presence is necessary in order to insure the efficient operation of the waterway.

When the Senate ratified the treaties, it did so with assurances by the President and his representatives that there was a valid agreement between the U.S. and Panama, and that the transfer of the canal would not create any financial burden on the American taxpayer. During recent Congressional hearings, however, it has been learned that the transfer could cost the U.S. taxpayer as much as \$4 billion. Panama also demands certain "contingency" costs. They demand the right to tax American businesses in the Canal Zone back to 1903. They demand that the U.S. restore Coco Solo Naval Base and France Field, unused for more than 20 years to their original state. Also churches on property turned over to the government of Panama will probably have to be repurchased by members of the congregation. Thus we cannot buy friends, no matter how hard we try.

I once knew a man who freely loaned money to his friends. One day he found he had no money and no friends. This is a lesson nations must learn also.

### Texas Peaches Worth the Wait

AUSTIN--Ripe, juicy Texas peaches, due on the market around the middle of May, are worth waiting for, reminds the Texas Department of Agriculture. "Tree ripened Texas peaches will be available in many grocery stores," commented Agriculture Commissioner Reagan V. Brown, "but consumers should look for promotional material which identifies the crop as Texas-grown."

Many out-of-state shippers pick peaches at a "hard-ripe" stage, Brown pointed out, which never allows the fruit to ripen properly. Out-of-state fruit often reaches the market earlier than prime, tree-ripened Texas peaches.

High quality Texas fruit will also be available at many roadstands, a further assurance of freshness.

### Top Peach Growing Area Is Announced

AUSTIN--Gillespie County produced 175,000 bushels of peaches in 1978, making it the number one peach-growing county in the state. Agriculture Commissioner Reagan V. Brown said the total peach crop was estimated at 833,000 bushels, 17 percent below the 1 million bushels harvested in 1977 but the second largest crop since 1953.

Brown said Texas was eighth in peach production nationwide. The top 10 counties were Gillespie, Atascosa, Smith, Parker, Duval, Montague, Eastland, Frio, Gaines and Comanche.

Peach production is scattered around the state with heavy concentrations in south, central, north and northeast Texas. Harvest remains active in parts of the state through late August or early September.

## Wilson News

By Marsha Chisum

Cheerleaders were selected by the Wilson student body last week. In high school, Kerrie Lee, daughter of Mr. and Mrs. Bobby Lee, was chosen head cheerleader for next year. There will be two junior cheerleaders next year: Cindy Slone, daughter of Mr. and Mrs. C. W. Slone, and Stephanie Cook, daughter of Mr. and Mrs. Dan Cook. Another junior cheerleader will be Tamera Houchin as well as sophomore sister Tonya, daughters of Mr. and Mrs. Gary Houchin. All five of these girls were Mustang cheerleaders last year. The only new addition to the group will be freshman Lisa Steinhauser, daughter of Mr. and Mrs. Victor Steinhauser.

In the junior high, two girls were chosen from the eighth grade: Terry Nolte, daughter of Mr. and Mrs. Vernon Nolte, and Kim Angerer, daughter of Mr. and Mrs. Allen Day. From the seventh grade Cheryl Wilke, daughter of Mr. and Mrs. Delmar Wilke and from the sixth grade Christi Slone, daughter of Mr. and Mrs. C. W. Slone, were selected.

The Wilson FHA Chapter held its annual daughter-parent banquet last Thursday evening at the Gridiron Restaurant in Lubbock. New officers were installed and awards for different levels of Encounter were presented. Approximately 70 persons attended. Mrs. Janet Wheatley sponsors the FHA group.

Miss Melissa Klaus, daughter of Mr. and Mrs. Donald Klaus, was honored in her

home with a party celebrating her fifth birthday last Saturday. The party was planned and carried out by Girl Scout Troop 298 for a badge requirement. The theme was "Clowns" and each Girl Scout dressed as a clown for the party. Troop members include Tonda Klaus, Tonya Houchin, Lisa Steinhauser, Waynell Little, and Dee Dee Daniell.

Children attending the party were Timmy Mild, Daniel Gruhkey, Pam Bishop, Loretta Abbe, Todd Houchin, Becky and Jonathan Zacharias, Cody and Kenda Chisum and Cindy Klaus.

Mrs. Pearl Davidson and Ann were in Gruver last weekend where they attended the wedding shower of Mrs. Davison's granddaughter, Misha Davidson.

Mothers were given special recognition at the First Baptist Church last Sunday in honor of Mother's Day. The youngest mother in the congregation was Mrs. David Savell. The oldest mother recognized was Mrs. Bertha Holder. "Mother of the Year" went to Mrs. B. W. Hobbs.

Brother Phil McDonald and his wife, Linda have moved to Wilson this week. Brother McDonald received his Master of Religious Education Degree last Friday from Southwestern Seminary in Fort Worth.

Miss Jennifer Ross, daughter of Mr. and Mrs. Jerry Don Ross, was presented in a tap dance and ballet recital sponsored by the Barbara Thompson Academy of Dance Arts in Lubbock last Sunday afternoon in the Lubbock University Center Theater. The theme of the recital was "Happy Birthday Mickey" in a tribute to Mickey Mouse's 50th birthday. There were approximately 140 children participating in the recital.

The Wilson bands under the direction of Mr. Art Dennis presented their annual spring concert last Sunday evening in the school auditorium. The fifth graders performed first followed by the junior high and high school bands. During the high school performance the senior students were recognized: Tammy Kahlich, Cindy Freitag, Kathleen Bednarz, Tracy Ray, Jill Crews, Dan Cox, Lucio Trevino, and Randy Steinhauser. The band officers for next year were announced as follows: David Weaver-president; Stephanie Cook-vice president; Laurie Ross-secretary; Paige Bishop-Librarian; Tamera Houchin, Debbie Daniell, and Tracy Bartley-quartermasters. Cin-

dy Freitag presented Dennis with a gift from the band members in appreciation of his work this year. A reception followed the concert.

Trvouts for twirlers and drum major were Monday afternoon. Laurie Ross, daughter of Mr. and Mrs. Jerry Don Ross, was named drum major. She will be a senior. Tracy Bartley, daughter of Mr. and Mrs. Ray Crispin, was named assistant drum major. She will be a junior.

Debra Hagens, daughter of Mr. and Mrs. Lynn Hagens, was named twirler. She will be a junior and this is her third year as twirler. Ginger Kimbrell, daughter of Mr. and Mrs. Jerry Swope, a sophomore and returning twirler; Sheri Steinhauser, daughter of Mr. and Mrs. Gilbert Steinhauser, a junior; and Amy Wilke, daughter of Mr. and Mrs. Delmar Wilke, freshman, were also selected.

## CAROLYN'S CLATTER

by Carolyn Klaus

This area we live in has made a name for itself by raising cotton for many years. Part of this county has been in cultivation for cotton for well over 50 years.

Our ancestors, if you were born here, grew it, spun it, sewed clothes from it, used it for bedding, curtains and anything else the required fabric. Cotton remained king on the Texas Plains until the early 1960's when it appeared to falter during the synthetic craze.

Manmade fibers threatened the security of cotton because they tended to be more economical and carefree. The cotton market went into a slump but the old adage "Necessity is the mother of invention," came to the rescue.

Cotton researchers had already asked the question of "what else could be done with cotton," but the pressure of the declining market coaxed them to speed-up their efforts.

Since food was emerging as a primary concern for the world they turned first to the area. It was discovered that a tiny portion of the cotton seed was high in protein, highly digestible and even had a pretty good flavor.

They began breeding cotton to accentuate this tiny module. It took a number of years before the process was improved enough to really allow advanced experimentation. One certain kind of cotton have this highly desirable glanless condition.

But, as determined as a farmer, the researchers continued and provided a delectable food ingredient that may relieve some of the pressures of the protein demand of the world.

Now we are eating the product grown by generations as a fiber only. Available now, cottonseed flour from which any number of goodies can be baked, there is also a cotton steak that can take the place of beef if you could ever become accustomed to the new flavor, and also a cotton nut that can be used as any other nut but it too is higher in protein.

J. H. Lambright recently brought me a sampling of candy that had been made from cotton. One kind resembled divinity, the other a pecan roll and both equally tasty. He also brought me some of the cotton nuts which have passed around among friends.

One thing for sure, "Eating cotton is much better than stuffing it in your ear."
